#### Union In Germany

Unification of western Germany, a mere wishful thought a few weeks ago, seems assured by the London agreement among the United States, Great Britain and France. The joining of the French is significant, since the other two countries some time ago had reached basic agreement. With their three zones of Germany united as an economic and governmental unit, the time when western Germany will be back on its feet is in sight. Unfortunately this program will emphasize the isolation of the Russian Communist seizure of power in zone, about a third of the total area, from the rest of Gerinany.

Notable also is the fact that Belgium, The Netherlands and Luxembourg, becoming known as the Benefux countries thanks resolutions and notices at through the customs union they are developing, took part inlining finds, and be charged for in the London discussions. The Benelux countries, Britain brothers": "I am with you." and France are the leaders in a separate effort to build an economic and political bloc of western European nations around the Marshall Plan.

The whole future of such a bloc may hinge upon the April 18 elections in Italy. Some political writers say Italy is already as good as lost to the Communists, and to Rus. Moscow and the Western Democsian control. If Italy should fall to the Communists the racies together in peace, western bloc would be split in two, the Kremlin would have in the semipaper, as sell as all Greece and Turkey caught in a pincers, and also would that in the long and lonely hours are disastebre. "Sink one of our boats?" says Knudstadt. "One of those big whales could crush the side, even a 130-footer, but they never have." However, the thrashing whales sometimes tear away the propellor.

Knudstadt exploded the popular belief that in ambergris there is a fortune.

"One time, a five pound piece of it was worth a half million (Norwegian) crowns," he said. A trown is worth 20 cents. "But they've developed synthetics for perfumes, now. It isn't worth much today."

The Anglo Norse brought back 100 pounds of ambergris.

Texas, Florida Canners Oppose Bill To Place Them Under Marketing Pact

WASHINGTON Mar. 12 (AP)-Florida and Texas citrus fruit canners told a congressional committee today they don't want gov-ernment controls over marketing of their product.

"All we want is to be left alone," said G. O. McDaniel, president of the G. O. McDaniel Company of Edcough, Tex.

A Senate Agriculture Subcommittee is considering a measure by Senator Pepper (D-Fla) and nine other renators that would include canners of citrus fruits under the Agricultural Marketing Agreement Act. This sets up controls and regulations for mar keting of farm products.

J. Login Bloodworth, representing the Cherokee Products Co., Fort Pierce, Fla., testified this legislation applied to can-
