year, says the Popcorn Insti-

sign and fabrics have lined up and are ready for their march into the Spring campaign. into the Spring campaign.
The feminine soft trend will bring out fabrics with a new supple snimation. Daytime fabrics will be weightless wool plaids and checks, the geometric abstracts in silk crepes, and a new group of airy textured cot-

ton suitings. For evening, the winners are lace, orbillion quarts of popcorn a ganza and gossamer chiffon. The all-season favorite in color is white—for day

and night. .. Meny white fabrics will change color because of the loss of fluorescent brighteners, dyes or tints. Some brighteners are affected by sunlight, laundry detergents, chlorine bleaches or steam in pressing. The white turns to yellow. This change is not limited to any specific fiber. The loss of brightness or fluorescent dyed fabrics does not occur in drycleaning. A change may be noticed after drycleaning due to the removal of soil that masked the change which

occurred in use. Trust the care of your clothes to us your Sanitone certified master dry cleaner. Downtown Cleaners & Launderers 113 S. Palmetto Ave.

Spacemen's Crash Probed

Astronaut Alan Shepard Jr. today headed an investigation into the crash of a jet trainer which claimed the lives of two fellow astronauts scheduled to try America's longest "walk in space" this spring. Elliot M. See Jr. and Charles A. Bassett II, both crash test

pilots, were killed instantly Monday when their T38 jet trainer crashed in rain and fog while attempting an instru-

ment landing. See, whose voice was known to millions of television viewers as capsule communicator on previous Gemini flights, was at the controls. He was to have been command pilot and Bassett the co-pilot on the Gemini 9 orbital flight, during which Bassett was to have taken a 90minute stroll through space. Shepard's investigative team includes officials from the National Aeronautics and Space

Administration flight center in Houston and other Federal tor for NASA, said the investigation may take six weeks.

Bassett and See were en But federal officials are route here to begin flight warning against any "scare training in simulators at Mc buying" by consumers and Extension Club

Legislators arriving a day early today for the special reapportionment session started trying to sell plans boosting the old principle of district-ing and weighted votes. But the leaders of an urban coalition were busy trying to et agreement on a proposa that would make congression I districts the bases of drawng legislative seats. Senate President-designate Verle Pope, of St. Augustine, propoted a Legislature composed of 48 senators and 94

House members. This would be based on four senators and eight House members from each of the 12 congressiona districts, running district Sen. John Mathews Jr., o. lacksonville, said he also likes the congressional districts plan. He also has a plan similar to one he spon-

sored last session, providing

for legislative districts which

would contain no more than

two per cent or less than 1.5

Most of the urban group said they will oppose any plan providing for more than 60 senators or 100 or so House

322 - 0018 NIGHTS 322-3114

If your job disappeared tomorrow what would you do?

A good many jobs will simply disappear in the near future. New machines, new techniques will make them obsolete. Your job might be one of them. And if it is, hitting the panic button won't help you much. What will help is planning ahead. You can't stop progress. But you can prepare for it . . . and the new iobs, the new opportunities progress always brings. But keep this in

To qualify for the better jobs of

tomorrow, you have to re-train.

elope's boy friend is a bookie.

Mr. and Mrs. Benjamin Drose f 16143 S.W. 108th Court, Miami. symbolize the growth of Florida and FP&L's "Sunshine Service".

On February 18th, the Droses were saluted as our MILLIONth customer, when they moved into their Gold Medallion All-Electric home.

BACK IN DECEMBER, 1925 . . . when Florida Power & Light Company was organized . . . electricity was doing few of the jobs it does for you today.

Then there were very few electric ranges, refrigerators or water heaters. There were no electric home freezers, air conditioners, automatic clothes washers, clothes dryers or television sets.

Today, our customers enjoy vastly improved lighting plus electric refrigerator-freezers, ranges, water heaters, dishwashers, year-round air conditioning, vacuum cleaners and a host of small appliances.

And while the average residential customer uses ten times as much electric service, the average price paid per kilowatt hour has gone down from 8.01. in 1926 to only 2.10 today.

> THERE'S NO MATCH FOR FLAMELESS ELECTRIC LIVING ...IT'S CHEAPER, TOO!
