

FRANCE HOLDS THE DEAL WHILE DECISION IS MADE REGARDING SUBMARINES

Italy and Japan Will Probably Agree to America's Plan IN PRINCIPLE

FRENCH PRESUMABLY AGREE BUT RESERVATION IN DETAIL IS UNKNOWN

WASHINGTON, Jan. 4.—The American proposal to prohibit the use of submarines against merchant vessels, now the predominant issue of the arms negotiations, has been accepted in principle by France, but her delegates have reserved final approval pending a discussion of the precise language of the declaration.

British acceptance previously has been given and although neither the Italians nor the Japanese had received final instructions last night, there were indications that neither Rome nor Tokyo would interpose serious objection if the proposal received France's full approval.

The exact nature of the French reservation was not revealed, but the impression was gathered in some quarters that it might concern such a definition of the terms of the declaration as would make it clear just what conduct would be expected from merchantmen in view of their immunity from submarine attack.

Should that point be raised, an interesting and many-sided discussion might result, for in several quarters there has been apparent a tendency toward the opinion that the term "merchantships" should be strictly defined with express stipulations as to whether merchantmen are to be permitted to arm and whether it is to be permissible to disguise warships as vessels of commerce.

The French delegation, however, in making known their acceptance in principle, has emphasized that they not only agree to the original proposal of Elihu Root that the new prohibition on submarine warfare become effective when all nations have agreed to it, but also to the amendment of Arthur J. Balfour, which would make the prohibition immediately effective as between the five great powers.

WASHINGTON, Jan. 4.—Practical completion of report will be submitted by committee of naval experts to the naval committee armament conference and agreement of subcommittee on Chinese tariff on five per cent effective basis two important developments today in conference situation.

SIX DEATHS RESULTED FROM PRESENT DISORDERS IN BELFAST DISTRICT
(By The Associated Press)
BELFAST, Jan. 4.—Six deaths resulted from the present series of disorders in Belfast, one fatality being that of a child shot while in its mother's arms. Firing continued last night. Heavy snow and frost did not deter rioters.

TWO SISTERS BURNED TO DEATH IN HOME, LIQUOR STILL EXPLODED
(By The Associated Press)
CAIRO, Ill., Jan. 4.—Marie Hogan, 7; Gladys Hogan, 9, sisters, were burned to death today in a fire which police attributed to the explosion of a liquor still. The home was destroyed but the father, mother and three smaller children escaped.

COLD WAVE WARNINGS, TENNESSEE AND FLORIDA THURSDAY NIGHT
(By The Associated Press)
WASHINGTON, D. C., Jan. 3.—Cold wave warnings were ordered for Tennessee and the East Gulf states. The temperature will fall decidedly tonight and Thursday in those sections and by Thursday night in the Atlantic states.

MARRIAGE STEELS DOWN TO NORMAL SOON AFTER THE BRIDE LEARNS THAT A MAN REQUIRES SOMETHING MORE FILLING THAN OLIVES AND MAYONNAISE DRESSING.

Registration Officer Found Soldiers Bodies With Ropes About Neck
Watson Charges Might Have Some Foundation After All

WASHINGTON, Jan. 4.—Rufus Hubbard, New York, employed by American graves registration service in preparing the bodies of American soldiers for shipment from France told the senate committee investigating Senator Watson charges today that on three bodies disinterred he found a rope around the neck of each and black cap over each face. He said there was nothing to identify the bodies, two negroes and one white. He declared the rope and caps were not removed before the bodies were shipped.

BATTLESHIP NORTH DAKOTA COLLIDED WITH SCHOONER—NO ONE WAS HURT
(By The Associated Press)
BOSTON, Jan. 4.—The Battleship North Dakota reported by wireless today she was in collision with the British Schooner T. K. Bentley off Cape Cod last night. The battleship turned back to the navy yard for repairs. A tug was sent for the schooner. No one was hurt.

CANDY FACTORY BURNS IN ATLANTA TODAY WILEY CO. BIG PLACE
Atlanta, Jan. 4.—Fire undetermined origin practically destroyed the three story brick candy factory of Wiley company here early today. The loss of stock of concern placed at sixty thousand irrespective of damage to building.

COMMISSIONERS MET TO FORM ORGANIZATION

FOREST LAKE TAKES SEAT AS COMMISSIONER AND C. E. HENRY ELECTED MAYOR

The city government organized last night for the new year and aside from the election of the new mayor and the swearing in of the new commissioner there was no business transacted.

C. E. Henry presided as chairman and Forest Lake was sworn in as city commissioner, the oath being administered by H. E. DuBose. The city commission being organized the meeting was called to order again and City Atty. Herring, acting as chairman asked for nominations for mayor. S. O. Chase nominated C. E. Henry for mayor and there being no other nominations the election of Mr. Henry was made unanimous. Mr. Henry was then sworn in as mayor and he took his seat and asked for any further business. Mr. DuBose asked the opinion of the City Commissioners about the matter of people asking the Red Cross for aid and railroad fare and wanted to know if the city had any arrangements about this phase of public life.

The commissioners were of the opinion that neither the city or the Red Cross were under obligations to the people traveling through the country asking for aid and assistance and the matter was put back to the Red Cross. The city works all such people on the street when times are good but at present there are laborers here in need of assistance and the city has stopped all alms and giving work to outside parties. There being no further business the meeting adjourned until the next regular meeting on Monday, January 16th, at which time appointments will probably be made for the year.

C. E. Henry, the new mayor, has been a member of the City Commission for the past two years, having been elected when the commission form went into effect. He has been a resident of this city for the past ten years or more and is engaged in the vegetable brokerage business and in dairying and farming. He is a property owner and public spirited citizen and has the interests of the city at heart.

THE TOTAL BUILDING RECORDS FOR THE YEARS OF 1920-21

The total building permits for the City of Sanford for the years of 1920 and 1921 show the remarkable growth of this city in one year. If anyone has any doubt about the substantial growth of this city read the official figures below and be convinced:
Building permits for the year 1920.....\$130,095.00
Building permits for the year 1921..... 325,865.00

PERSONAL EXEMPTIONS GROSS INCOME RETURNS SUBJECT OF INQUIRIES

New Acts in Revenue Law That Should Be Studied Very Carefully

The following statement is issued by Collector of Internal Revenue, D. T. Gerow, district of Florida:

The Revenue Act of 1921 contains two new important provisions, which are the subject of frequent inquiry. The first relates to the personal exemptions allowed married persons and the second to the provisions requiring that a return be made of gross income of \$5,000 or more.

The Act provides that a married person, living with husband or wife, whose net income for 1921 was \$5,000 or less shall be allowed exemption of \$2,500. If the net income of such person was over \$5,000 the exemption is \$2,000. Under the Revenue Act of 1918 the personal exemption allowed a married person was \$2,000, regardless of the amount of net income. The normal tax remains unchanged, 4 per cent on the first \$4,000 of net income about the exemptions and 8 per cent on the remaining net income.

In order that an income slightly in excess of \$5,000 shall not be subjected to an inordinately disproportionate tax because of the reduction of the exemption to \$2,000 thereon, the law provides that such reduction shall not operate to increase the tax, which would be payable if the exemption were \$2,500, by more than the amount of the net income in excess of \$5,000.

For example, on a net income of \$5,010, the amount of net income less an exemption of \$2,000. The actual taxes is \$11.40, computed as follows: from the net income of \$5,010 is reduced \$2,500, leaving \$2,510, the 4 per cent tax on which amounts to \$100.40. To this is added \$10, "the amount of net income in excess of \$5,000."

The personal exemptions allowed married persons, apply also to the head of a family, a person who supports in one household one or more relatives by blood marriage or adoption.

Heretofore, a person whose net income was less than his exemption (\$1,000 if single, or \$2,000 if married) was not required to file a re-

FLORIDA IS A GARDEN OF WONDERFUL OPPORTUNITIES

To those who were born under the arch of these familiar skies, and to those who have come to love these skies as the roof of a great household of happy scenes, Florida is home. The mocking-bird calling to its mate in the crisp of early morning; the sweet perfume of orange blossoms borne on the bosom of indolent spring winds; flowers as colorful as the hues of a fading sunset, and plentiful as the sunshine that splashes them with light; streams that murmur the sweetest music while winding through vari-colored woodlands and farmlands, and past villages, towns and cities that stir with the energetic blood of youth,—these are beautifully commonplace to those who call Florida home.

To those who have only heard of the state, Florida is a land of romance, of sunshine, of comfort; and the impression is the true reflection of facts, for here nature worked after the rest of the world had been completed! Novelists, painters, poets, these and others, find inspiration in the thousands of natural moods that reach out and touch them here. This is the reason the intelligent world holds such a happy impression of Florida.

But Florida, in a real analysis, is greater than her climate or her beauties, although, of course, these are incomparable assets.

Florida is a great agricultural and industrial state. The soil is filled with the qualities of production; and the various resources hold illimitable possibilities for those with vision, those who have the faith of development and the ability to estimate what can be done by what has been done. In things industrial the state is already recognized as a power, and the start has only been made. When the fact is considered that less than five per cent of the land in Florida is under cultivation, and that industrial development is still in its infancy, that is compared to the plans for the future, it is readily seen Florida is more than a land of sunshine and flowers—the state is a garden of opportunities! Even though one does not acquire riches here—there is no reason why he shouldn't—life in its routine is pleasant.—Jacksonville Metropolis.

FEDERAL GRAND JURY MEMBERS TESTIFY TODAY IN JAX LIQUOR CASE

CONGRESS BEGINS NEW SESSION TODAY

PROSPECTS GOOD FOR SESSION LASTING UNTIL AUGUST OR SEPTEMBER

WASHINGTON, Jan. 4.—Congress will start upon the 1922 legislative program today faced with the prospects that it may be kept steadily at work until late in the summer.

In addition to debates over the routine appropriations bill there confronts the Senate the probability of one fight or a series over new international agreements resulting from the Washington arms conference. President Harding is understood to be preparing to forward all of them to the Senate for consideration once the arms conference has concluded its work.

For the first time, House and Senate will deal with the measures supplying money for all governmental functions in budget form. They are slated to be started through the House January 5, when the treasury Appropriation is taken up. Under the program laid down by chairman Madden of the House appropriation committee, a money bill would be put through the House each week until all are turned over to the Senate.

The Senate will begin work with three agreements respecting important matters pending on its legislative calendar. The first of these, the resolution declaring Truman H. Nowberry, Republican, to be the duly elected senator from Michigan, is due to be acted on early next week. Consideration of the Nowberry case must begin Saturday under an agreement, while on Tuesday debate is limited to one hour for each senator until a vote is reached.

The bill authorizing the issuance of mileage books by railroads, interchangeable between lines or systems, is set down for consideration starting January 11. A vote may be taken immediately or the question can drag along as unfinished business until January 17, when there must be a vote on proposals to amend the federal reserve act requiring the appointment, at the next vacancy, of a representative of the farmers to the federal reserve board.

While the Senate is disposing of these three propositions its finance committee expects to conclude hearings on the permanent tariff bill.

Acting Chairman McCumber announced today that the tariff proposals of the farm block of the Senate would be heard Thursday. Representatives of the Southern Tariff Congress and two or three individuals then only will remain to be heard before the formulation of the bill will be started.

The House may give further time to general debate on the Dyer anti-lynching bill tomorrow, although Representative Mondell, of Wyoming, Republican leader, was not certain tonight whether that could be done in the face of the regular Wednesday schedule of calendar business.

Philadelphia Nationals Will Train at Leesburg Beginning March First

Fifteen Pitchers and Three Catchers Will Be on String

PHILADELPHIA, Jan. 4.—Philadelphia National League Baseball club announced today that Manager Wilhelm, and fifteen pitchers and three catchers would report for spring training at Leesburg, Florida, March first. When all the players report there will be more than thirty in the squad.

HOOTCH MANUFACTURERS PROSECUTED FOR MURDER IN ALABAMA HEREAFTER

MONTGOMERY, Ala., Jan. 4.—Attorney General Davis, of Alabama, has advised all collectors to prosecute for murder persons arrested for manufacturing liquor which caused the death of any person.

Indictment Against W. H. Bostwick, Dowling Brings Out Evidence FOR INVESTIGATION

HOSTWICK'S COUNSEL CHARGED U. S. ATTORNEY WAS IN THE JURY ROOM ALL THE TIME.

(By The Associated Press)
JACKSONVILLE, Jan. 4.—Three members of the federal grand jury which returned indictments against W. H. Bostwick, Sheriff W. H. Dowling and others recently in connection with investigation of alleged liquoring here, testified in federal court today as to the procedure followed in reaching the indictments. Counsel for Bostwick yesterday in filing motion that the indictment as to him be quashed alleged only evidence the jury had was a statement from Assistant United States Attorney Yerkes, of what he prepared to prove and that Yerkes was in the jury room while the jurors were deliberating. The jurymen were summoned at the request of Bostwick's counsel. All agreed Yerkes was not in room during the deliberations and Yerkes said the affidavit he read to the jury was transcript evidence given the jury by a witness previously read to refresh their memories. No decision yet by Judge Clayton on motion to dismiss the indictment.

Two men were killed and several others injured today when air tank in local garage used for filling tires exploded. J. E. Albright, plumbing contractor, who had just entered the garage on business was one of the men killed. His body badly mangled.

GREENSBORO, N. C. Jan. 4.—It was learned later that one was killed and A. C. Lowe probably fatally injured. A leak had developed in the tank and was being repaired under pressure when it exploded. It tore out the front of the building and shattered windows in the vicinity.

TWO MEN KILLED IN TANK EXPLOSION AT GREENSBORO N. C.
GREENSBORO, N. C. Jan. 4.—Two men were killed and several others injured today when air tank in local garage used for filling tires exploded. J. E. Albright, plumbing contractor, who had just entered the garage on business was one of the men killed. His body badly mangled.

CHARGE GEORGE MASON AND ORANGE PARK HOTEL MAN WITH HAVING BOOZE
JACKSONVILLE, Jan. 4.—Federal warrants were issued today for the arrest of George Mason, manager of the Mason hotel here, and Ward Van Allen, manager of the Orange Park Inn, at Orange Park, Clay county, charging them with having violated the prohibition laws. The arrests resulted from raids made by federal prohibition enforcement officers New Year's eve. Officers entered the dining room on the tenth floor of the local hotel just before midnight and exhibiting a search warrant proceeded to look for intoxicants. Nothing was found in the dining room but in the basement they discovered six quarts of whiskey and ten cases of assorted wines. The intoxicants were placed in the cellar and sealed. The raid on the Orange park Inn netted 24 quarts of whiskey.

OWNERS CLOSE SHOPS AND WORK IN ANOTHER TO GET PAPERS CUTS
NEW YORK, Jan. 4.—Fifty owners of photo-engraving plants, including men of wealth and social position, put on overalls tonight and went to work in one of the seventy shops affected by the dispute between union photo-graph engravers and their employers.

Allowing their own shops to remain closed, the volunteers worked in regular shifts to turn out work necessary to the publication of an illustrated daily newspaper and incidental work for other New York papers. One attempts to compose their differences, president of the American Association of Photo-Engravers.

In the meantime, representatives of the union and the employers met in attempts to compose their differences.

MEMBER THE ASSOCIATED PRESS

New York market quotations say "best dressed country calves medium grade 15 cents a pound." Why pay more for the city kind, we say.

Man fired up on moonshine in Miami, beat up his wife, stabbed two policemen and otherwise cut the buck and the articles does not state whether he was arrested or is still at large. This home brew is powerful stuff.

The Federal Reserve Board is enthused over the prospects for business this year, says daily despatch. They ought to become enthused over something. They have been pessimistic long enough to almost ruin the country.

Bank merger in Chicago yesterday saved \$85,000,000 to depositors. If we had that much we would not want a bank. This particular instance however demonstrated that banks standing together can prevent a bank failure at any time.

According to the Sanford Herald a big firm of a neighboring state has a representative in Sanford "looking towards the establishment of a large wholesale and retail dry goods, men's furnishing and other goods store." The Herald adds "there are also two hotel firms anxious to buy or lease hotels here; a federal bakery will be started here within the next few weeks and several merchants are ready to start business here as soon as they can rent, lease or have erected suitable store rooms." This suggests Sanford as a busy, growing, hustling place with wonderful prospects for the new year.—Times-Union.

SEEING ORLANDO

The latest code for Orlando is "building."

All the theatres in Orlando seem to have been "lynched."

The old slogan of Kentucky "fine women, fast horses and good liquor" has been changed to Orlando this year. Look at the fair posters.

Patt Beggs and Jimmy Beggs are two of the greatest legal lights in Orlando.

Jeff Sligh is the greatest prohibitionist in Florida. He believes in water all the time.

OUR GOLF LINKS AND COUNTRY CLUB

Gainesville opened up its fine golf course and country club on Monday of this week and the fact is set forth with a fine article in the Gainesville Sun. Congratulations to Gainesville. They recognized the value of a golf links not only for the benefit of the tourists but also for the benefit of the home people and the Herald wishes to state to the people of Sanford that if they ever get their golf links and country club in good shape the benefit in health alone to this community will amply repay all of the Sanford members a hundred fold. Golf is the finest recreation for young and old that the world produces and a Golf Club for Sanford should be talked about until it is a fact. We now have an option on a fine piece of property and the Golf

Committee of the Chamber of Commerce under the Chairmanship of S. O. Chase will have something of interest to tell the public in a few days. Let every public spirited citizen of Sanford put his shoulder to the wheel and make our golf and Country Club a possibility for the year of 1922.

A RECORD OF REAL ACHIEVEMENT

No matter how far ahead in the future one has been accustomed to look, this is the time of the year when a momentary halt is called to take a retrospect of the year just past in order to ascertain failures and accomplishments, and from that experience lay plans to insure the success of the future.

This is the time of the year when business houses generally take inventory, when comparative records are made in all lines of endeavor, with those of the preceding year.

The New Year is an opportune time for commercial organizations to review their activities for the year just passed and the accomplishments which have resulted from these activities. It is often the case, however, that results are not immediately realized from the activities of a Commercial organization, and very often a considerable period of time elapses between the launching of a movement and the actual results therefrom. Any Commercial organization, therefore, that can show a maximum of results in a minimum of time is to be congratulated upon the do-it-now proclivities of its officers and membership and justly receives the reputation of being the real factor of progress in the community.

The Sanford Chamber of Commerce has been in existence but a year, but in that time has accomplished real things. Let us forget, look over the list, and show it to those reactionaries, who are on the outside looking in, when it comes to expending individual effort in building up a Greater Sanford.

During the year 1921 in addition to the Board of Governors, there were thirteen standing committees and four special committees. The number of meetings including the Board of Governors and all committees totaled one hundred and twenty one. The average per centage of attendance at these meetings was seventy-five. The Board of Governors met 47 times during the past year and the average length of these meetings was an hour and ten minutes. This will give a general idea of the time put in voluntarily by men who are earnestly interested in the development of Sanford.

The secretary's office has sent out over eight thousand pieces of correspondence and literature of Sanford, to inquiries from every section of the United States.

The Chamber of Commerce also adopted the slogan, "The City Substantial," secured three new wholesale houses, protested against increased telephone rates, secured improvements of approaches to station, supported progressive state and national legislation, had representation at important rate increase hearings, conducted successful campaigns against stock salesmen, entertained National Editorial Association and various parties of prominent touring concerns. It has awarded prizes to the school children for the best essays on the City Substantial, has brought in lecturers of interest to the retail merchants. It has carried on trade extension trips to adjacent communities culminating in a Gala Day which brought thousands of outsiders to the city. It started the Ship-by-Water movement and fathered the Central Florida Water Traffic League, as a result of which Sanford is now securing daily boat service and the transportation company has had to increase its terminal facilities 100 per cent. It took the initiative in raising, by popular subscription, monies necessary to improve the Osceola and Titusville roads. Its Tourist and Convention committee planned and erected a much needed pavilion on the Lake Front and arranged the details and finances whereby the city would have band concerts during the winter.

The Publicity Committee has been responsible for the outside exploitation of Sanford and has discharged its duties most efficiently. Ten thousand copies of a new booklet have been printed, and advertising has been run in the most prominent newspapers and periodicals of the country. In addition signs have been and are now being placed on the roads and by next season will see them in quantity on the Dixie Highway. The Publicity Committee has to its credit probably the most spectacular piece of advertising ever put out by a Florida Commercial organization. We refer to the advertisement for a millionaire which appeared in the New York Wall Street Journal and the New York Journal of Commerce.

The City Planning Committee has had adopted by the City Commissioners ordinances governing shade trees, and the enforcement of those ordinances relating to the cleaning up of weeds and refuse. It has compiled

the necessary data used by a special committee appointed to work out plans for street paving, additional sewerage systems, and yacht basin. The Golf Course Committee now has something definite in the way of a site that presages success for this project. Representative from the Inland Waterway Committee represented the organization at the convention of the Atlantic Deepwaterways Association. Correspondence has been had with the government engineers relative to improvements on the St. Johns river.

The Sanford Chamber of Commerce during the past year has interested a prominent marine engineer in its plans for the development of the lake front and has already secured from him gratis, detailed plans and specifications for this proposed improvement.

There have been four membership banquets of the organization held in 1921, three in Sanford and one in Orlando. The last two were for the purpose of engendering a greater co-operative spirit between the two communities and were successful in their purpose. The Chamber, through its membership committee secured sixty new members in 1921.

The Sanford Chamber of Commerce is now a member of the Chamber of Commerce of the United States, The Southern Commercial Secretaries Association, The Florida State Commercial Secretaries Association, and the National Association of Commercial Secretaries. The organization has been closely associated with all local civic organizations and has always given its support to these organizations in movements for civic development. The same is true with officials of both the city and county.

Here, then, is briefly enumerated, the accomplishments of the Sanford Chamber of Commerce, which, from length of organization is but an infant. Can anyone be a pessimist in 1922 after looking over that which has actually been accomplished in 1921? This is an enviable record for a young and small organization. Every man that considers himself at all progressive should be affiliated with the Chamber of Commerce and give all the time he can to helping put over those things which are absolutely certain for the coming year. Sanford has shown what can be done through efficient organization. With the dismissal of petty personal differences and a whole-hearted concerted action through the Chamber of Commerce, New Year's 1922, will witness a record of even far greater achievements.

OUR BUILDING RECORD

Sanford's building record for the year just passed is worthy of more than a passing mention and in summing up our work for the year the building record speaks for the rapid and substantial growth of this city. The building permits for Sanford for the year 1920 were \$130,095.00. For the year 1921 the total is \$325,865.00 and this gain is a sign of the times. The building permits are a true record but the real value of the buildings are not always given and the figures of the total buildings are much more than the above but the official record speaks for itself showing the remarkable growth of the city along every line.

For the year 1922 we can show a much greater gain for there will be many more beautiful homes erected in the growing suburbs of the city and many big business blocks are planned. In fact it is safe to assert that the buildings for the year 1922 will run more than a half million and if we have a good season they may reach the million mark and it is not too ambitious a program for this city according to the plans of the men who are now getting ready to build up Sanford. If money is easier and the crops bring good prices, if the foreign capital that should come here does come there will be no limit to the buildings that will be erected here.

The Revenue Act of 1921

requires that every individual having a gross income of \$5,000.00 or more file Income Tax return regardless of amount of net income. Do Not Pay Exorbitant prices for assistance in preparing your return. Send for simple form upon which to furnish information necessary to prepare return. Maximum price on farmers returns \$5.00 and every farmer whose return is prepared will be furnished without charge one 1922 Farm Record. TRUCK By a Sanford Celery-Fed Man

The Star will soon show "Over the Hills to the Poorhouse." That's fine. If they will wait a few minutes I will go with them.

The Lakeland Telegram has a big heading "Hold Your Liberty Bonds." Too late, brother, too late. We hocked them long ago.

Man committed suicide at a dance in New Jersey last night. It looked to me the other night as though several couples would hang themselves by their stockings before they finished but up to date there have been no suicides in Sanford at any of the dances.

That is certainly bad "hootch" they are making in New York City. The death list of the holiday drunks is awful. We make better stuff than that in Florida out of sawdust.

I never feel my insignificance as I do when I accompany friend wife to select a ready-to-wear gown.

Hazel Knutt said an agent called at her home to sell her an encyclopedia and she chased him away because he insulted her. "The idea," she raved, "me riding such a thing."

This year learn to 'pay as you go' expect when you pay as you come in.

"That puts a different face on it" said the boy as he smashed his wrist watch.

BUT THERE WAS NO DANGER

A negro servant was much excited the other day. She rushed to the mistress and said: "Misses Smith, a man dun com' along and say there's tuberculosis in de wath, and I slam de doh in his face."

"Now, Dinah," said the lady of the house, "You are excited and prone to misunderstand things. Who was the man?"

"That man who says he reads de meat-her's, and I asked him wha-fur how come and he says 'to get the tuberculosis outen de wath.'" "Didn't he say he was reading the meters to get at the consumption of water we use?" "Yes'am- Jus' like dat. Ise sure goin' to leav' dis house."

WELL OF ALL THINGS

If a pail of water be placed within six inches of either side of the stem of a pumpkin or vegetable marrow, it will in the course of the night approach it, and will be found in the morning with one of the leaves on the water.

SPOUL WILL NOT SUCCEED PENROSE

HARRISBURG, Pa., Jan. 4.—Governor William C. Spoul tonight dismissed reports that he would resign as governor to be appointed U. S. senator within 48 hours by saying the question of the succession to Bloes Penrose would not be settled for some days, possibly until early next week.

LETTUCE MARKET PECULIAR FROM THE NORTHERN END, WHOLESALE PRICE IS LOW

While the Retail Price Remains Very High to the Consumers

It has always been a question for argument about the Florida truck that goes to the northern markets. The grower here is getting a low price on lettuce, the wholesalers in New York are getting a very low price for lettuce and yet the retail price remains very high. Even the New York people are talking about the price of lettuce as the following from one of the New York papers shows:

"Although lettuce sold in the wholesale market last week as low as 1-4 cents a head, and many shipments were refused because the consignees could not sell them for enough to cover carrying charges, the consumers continued to pay the usual prices except in few instances. P. Q. Foy, food expert and editor of the Daily Market Reporter, made a tour of the retail markets and declared yesterday that the retailers had failed to give the consumers the benefit of the drop in the wholesale prices.

"It may be surprising," said Herschel H. Jones, director of the New York office of the State Department of Farms and Markets, yesterday, in

his weekly review of the local market, "that there should be a glut of lettuce in the markets of New York City in the middle of the winter, when all the city's supply of this commodity is coming from Florida and California, but that is what happened this week.

"Receipts were so heavy that wholesale prices went down to as low as 50 to 75 cents a hamper containing thirty to forty heads, or from 1-4 to 2-1-2 cents a head. At this wholesale price lettuce should be as cheap for the consumer at retail as in mid-summer.

"The total receipts of lettuce in four days of the week were 132 cars, of which ninety-four came from Florida and thirty-eight from California. Many carloads were refused because dealers could not realize freight charges. Those dealers and shippers who paid \$1.50 to \$2.25 per one and a half bushel hamper for lettuce in Florida which sold here at less than half that price, while the freight charges alone were \$1 to \$1.12 1-2 per basket, incurred heavy losses. The quality of the Florida lettuce is much

better than earlier shipments. California lettuce also declined to wholesale prices that barely paid the freight charges.

"Celery, cauliflower, eggplants, new Florida cabbage, romance, tomatoes, green peas, chicory, parsley, bunched beets, radishes and string beans were also received in carlot quantities. A shipment of 1,700 crates of bunched vegetables, including beets, carrots, romaine and parsley, and 800 barrels of new potatoes arrived Friday from Bermuda. Early in the week a consignment of 10,000 crates of white and red cabbage and 1,700 sacks of potatoes were received from Denmark.

"Large quantities of Spanish onions came in during the week and 30,850 packages were left unsold on Friday. More are expected next week. In spite of the Spanish onions, however, the best yellow state onions have advanced in price. On Friday a carload of these sold at \$6 per hundred-pound bag, whereas the wholesale price for the same onions a year ago was \$1.25 per hundred-pound bag.

"Celery continues to come chiefly from New York State sections, with some from California. Much of the state celery received last week was of poor quality and it sold as low as \$1.50 per crate of four to seven dozen stalks and as high as \$3.25. California celery of larger size and better quality sold at \$6 to \$7 per crate.

"Florida strawberries were lower in wholesale price this week when a shipment of 500 quarts arrived, which sold at \$1.25 to \$1.50 per quart.

"Onions are only one of the staple food commodities that are much higher in price than last year. Wholesale prices of most fruits and vegetables are higher. Cabbage that a year ago Friday sold at \$12 and \$18 per ton, sold last week at \$40 to \$50 a ton. Potatoes of the round white variety grown in New York state which sold last year in bulk at \$3 to \$3.50 per 180 pounds, brought this last week \$3.50 to \$3.85. Carrots that last year sold wholesale 1 to 1-2 cents per pound, are this year selling at 2-1-2 cents per pound.

"Baldwin apples which sold a year ago not higher than \$6 per barrel sold on Friday as high as \$7.50 per barrel. A greater difference in price is noticeable among Greenings, which sold at \$4.50 per barrel a year ago and bro't as high as \$1.50 last Friday.

"Other foods, however, such as butter, eggs, honey, maple products and country dressed calves and pigs, are lower this year. The very best butter sold wholesale last week at 41 to 41 1-2 cents per pound, as compared with 55 1-2 to 58c a year ago."

FIRE DESTROYS PLANT OF JASPER NEWSPAPER

JASPER, Fla., Jan. 4.—The plant of the Jasper News, a weekly, published for thirty years by the three

sons of John M. Caldwell, its founder, was entirely destroyed by fire here early today that also consumed a building occupied by the grocery store of O. P. Hewitt. Only prompt work of the fighters kept the flames from spreading to a bank building nearby and other structures.

Loss of the Jasper News and the grocery concern is partly covered by insurance. Irreparable loss, however, was sustained by the newspaper, in the destruction of all its files and bookkeeping records, including the paper's mailing list.

CASHIER SAYS HE FAKED HOLD-UP

Tampa Express Employee Buried \$2,200 in Swamp.

TAMPA, Fla., Jan. 4.—Samuel Lester Smith, former cashier of the Tampa office of the American Railway Express Company, today confessed to Sheriff Spencer, W. S. McFarland, District General Manager and S. L. Rosser, special agent that his story of a hold up and robbery on Zack Street, at 2 o'clock the afternoon of December 28 by two unmasked bandits whom forced him at the point of pistols to drive into the country and after blindfolding him and tying him to a tree, robbed him of \$5,000 of the company's funds, was a fabrication. Smith led the officers to a swamp about five miles from this city, and showed them where he had sunk the cash, about \$2,200, wrapped in a raincoat, in water waist deep. The checks, \$1,800, were in Smith's automobile which was found hidden in the swamp. At midnight tonight no charge had been made against Smith and he had not been arrested.

THE WEATHER

For Florida: Cloudy tonight warmer in North portion Thursday, local rain.

SANFORD HIGH SCHOOL BOYS' BASKETBALL TEAM GOES TO MIAMI TODAY

The boys' team of Sanford High left this noon for a trip down the East Coast, playing New Smyrna this afternoon, Miami tomorrow night and Fort Lauderdale Saturday. The boys' team is rapidly whipping into a winning one, as shown by the game with Winter Park Tuesday night, when they romped all over this little team to the tune of 46 to 6.

The game with New Smyrna is generally supposed to be a fairly easy one, but all dope is upset sometimes. The Miami and Fort Lauderdale games will probably be very hard but again all dope is upset sometimes. The way the Sanford team is shaping up it looks like a champion.

Losing her first two pre-season games and winning the last one Sanford now stands as to pre-season games:

Stetson Y. M. C. A. 42, S. H. S. 14. Eustis, 37; S. H. S., 20. Winter Park, 6; S. H. S. 46. Opponents, 85; S. H. S. 89.

The girls team surprised everybody by defeating Eustis. The girls are now under the tutelage of Miss Cora Lee Tillis, once a Sanford star, and a winning team is being rapidly whipped into shape. The girls' team is going to play Orlando here at the Parish house tomorrow night and the year going to wipe out the defeat of Sanford's football team, Orlando gave them. Everybody come out and see them do it.

FIFTEEN INJURED IN TROLLEY CAR DERAILMENT IN OHIO

(Special to The Herald) CLEVELAND O., Jan. 5.—Fifteen or twenty persons seriously injured, two probably fatally, a score more badly shaken up and bruised at noon in interurban trolley car derailed three miles south of Bradford.

In some particulars the tariffs is still too low to protect home income.

SANFORD'S TEMPERATURE

Well, old Max hovers around the 70 mark again and it is hard for the weather man to keep ice in the cooler. It will get warm in spite of all we can do although the green back almanac says January will be a cold month. Old time Florida winters seem to be the style and overcoats will give place to h. v. d's, and we can all wear bathing suits the year round. However, the tax has been taken off soft drinks and put on hard drinks and this usually means a hard winter. Have you a little night cap in your home?

J. J. CATES INJURED THIS MORNING BY ORLANDO TRUCK

WELL KNOWN MERCHANT WAS STRUCK BY AUTO WHILE STANDING IN STREET

J. J. Cates was struck by an Orlando bakery truck this morning about 9:00 o'clock at the corner of Oak avenue and First street and is thought to be seriously injured. He was rushed to the hospital where it is said his chances of recovery are doubtful. Mr. Cates is building a brick block at the corner of Oak avenue and First street and occupies the first floor with his grocery and feed business and Mrs. Cates has a dry goods and grocery store in the same block. The upper floors are being made into apartments and Mr. Cates was standing on the East side of the building where the railroad tracks cross First street looking at the men at work on the upper part of the building. The Nicholson Bakery delivery wagon of Orlando, driven by C. X. Chissom, came around the corner from West First street and the sun being directly in the eyes of the driver he failed to see Mr. Cates standing in the street. It is said that the car was not being driven fast but being a heavy truck collided with Mr. Cates with sufficient force to knock him down and drag him several feet before it could be stopped. He suffered a fracture of the skull at the base of the brain and was otherwise bruised badly but little chances are entertained for his recovery.

The driver was arrested by the sheriff's office pending the nature of the injuries sustained by Mr. Cates.
