

Hurricane Hunters Continue To Watch Caribbean Storm

MIAMI, Sept. 29, (AP)—An Army "hurricane hunter" aircraft probed a squall area in the Western Caribbean Sea early today and reported that it had taken no defined circulation as yet.

The Weather Bureau in Miami, which has watched the low pressure area for several days, said the broad "area of suspicion" is moving in a westerly direction at about 15 miles an hour.

"It is still just an easterly wave," forecasters explained, "and has taken on apparent circulation."

The area of showers and squalls was located in the Swan Island-Grand Cayman Island vicinity early today.

"We're keeping an eye on this area," forecasters said, "but there is no indication it will develop into a tropical storm at this time."

Berlin. This action by the Soviet government is contrary to its obligations under Article 2 of the Charter of the United Nations and creates a threat to the peace within the meaning of Chapter VII of the Charter.

It is clear from the protracted exchange of notes and the conversations which have taken place on the initiative of the three governments between them and the Soviet government that the three governments, conscious of their obligation under the Charter to settle their disputes by peaceful means, have made every effort to resolve their differences directly with the Soviet government. Copies of the relevant documents are submitted separately in particular, attention is drawn to the summary of the situation which is contained in the note of His Majesty's government and the governments of the United States of America and the French Republic dated Sept. 26th-27th as follows:

"The issue between the Soviet government and the Western occupying Powers is, not that of technical difficulties in communications nor that of reaching agreement upon the conditions for the regulation of the currency for Berlin. The issue is that the Soviet government has clearly shown by its actions that it is attempting by illegal and coercive measures in disregard of its obligations, to secure political objectives to which it is not entitled and which it could not achieve by peaceful means. It has resorted to blockade measures; it has threatened the Berlin population with starvation, disease and economic ruin; it has tolerated disorders and attempted to overthrow the duly elected municipal government of Berlin. The attitude and conduct of the Soviet government reveal sharply its purpose to continue its illegal and coercive blockade and its unilateral actions designed to reduce the status of the United States, the United Kingdom and France as occupying powers in Berlin to one of complete subordination to Soviet rule, and thus to obtain absolute authority over the economic, political and social life of the people of Berlin, and to incorporate the city in the Soviet zone.

"The Soviet government has thereby taken upon itself sole responsibility for creating a situation, in which further recourse to the means of settlement prescribed in Article 33 of the Charter of the United Nations is not, in existing circumstances, possible and which constitutes a threat to international peace and security. In order that international peace and security may not be further endangered, the governments of the United States, the United Kingdom and France, therefore, while reserving to themselves full rights to take such measures as may be necessary to maintain in these circumstances their position in Berlin, find themselves obliged to refer the action of the Soviet government to the Security Council of the United Nations."

3)—Accordingly, the government of the United States requests that the Security Council consider this question at the earliest opportunity.

"Accept, excellency, the assurance of my highest consideration." "Ambassador Warren R. Austin."

meeting in Paris.

WINONA, Miss., Sept. 29, (AP)—The States Rights vice-presidential candidate has charged President Truman with having no regard for the safety of the United States.

The statement was made here yesterday by Mississippi Governor Fielding L. Wright, who addressed a crowd attending the Montgomery County Fair, said Mr. Truman has demonstrated disregard for the nation's safety in his order ending racial segregation in the armed forces.

"The order was issued to please pressure groups and over the protest of his top military leaders," Wright declared. He did not identify the leaders or list their protests.

FRESH CORN FRITTERS
Ingredients: 2 cups fresh corn pulp (from about 3 uncooked cobs of corn), 2 eggs (separated), 1 teaspoon salt, 2 tablespoons sugar, 2 tablespoons flour, 1 teaspoon baking powder, 4 tablespoons fat (for frying).
Method: With a sharp knife cut kernels of corn down through the middle of each cob; with dull side of knife, scrape downward so as to extract pulp. Beat the egg yolk in bowl, add salt, sugar, corn pulp and mix well. Add the flour and baking powder and mix thoroughly. Beat the egg whites until stiff but not dry and turn into the corn mixture; fold together until just mixed. Heat a half-tablespoon of the fat in a skillet until quite hot, drop in corn mixture a heaping tablespoon at a time. Cook over moderate heat for several minutes until browned lightly on one side; add another half-tablespoon of the fat as you turn to brown other side. The amount of batter will make about 24 small fritters.

LIMA OLIVE CASSEROLE
Ingredients: 1/2 cup salad oil, 1 cup chopped onion, 1 cup chopped green pepper, 1/2 cup peeled green clove, 1 cup whole ripe olives, 1 teaspoon salt, 1 tablespoon cornstarch, 1 tablespoon chili powder, 1/4 cups bean liquid or water, 1/2 cups cooked lima beans, 1 cup grated yellow cheese.
Method: Heat the salad oil until it is quite hot, add the onion, green pepper, minced garlic and stir, cook over moderate heat, stirring frequently, until lightly browned. Put the salt, cornstarch and chili powder into a medium-sized mixing bowl, pour in 1/4 cup of the liquid and blend until smooth. Add the remaining liquid and stir well. Add the sauteed vegetables, olives (cut from pits in large pieces), beans and 1/2 cup of the cheese; mix well. Turn into a casserole, sprinkle with remaining cheese and bake in a moderate (375F.) oven about 30 minutes. Makes 6 to 8 servings.

GAR Group Sees U.S. In War In Ten Years

(Continued from Page One)

GRAND RAPIDS, Mich., Sept. 29.—The United States will be at war again within 10 years. That's the consensus of six aged soldiers attending the 82nd annual encampment of the Grand Army of the Republic.

Only two of the soldiers who fought in the Civil War and have lived through three other major conflicts were optimistic about peace.

"No more wars," said Albert Woolson, 101, of Duluth, Minn. "It's all talk," added William H. Osborn, 104, of Joplin, Mo. But 107-year-old James A. Hard of Rochester, N. Y., the oldest GAR veteran, predicted "We'll have war in two years."

Russian Soldiers Wound 2 Germans In Raid In Berlin

U. S. Military Police Intervene, But Incident Is Still Under Investigation

BERLIN, Sept. 30, (AP)—Russian soldiers who made a foray into the U. S. sector of the city this evening shot and wounded two German civilians, American Military police reported.

Particulars of the incident were not immediately available.

U. S. authorities said American Military Police had intervened and that the incident is still under investigation. Preliminary accounts said there were no American casualties.

Military police headquarters said its reports were that some armed Russians had entered the U. S.-occupied borough of Lichtenrade, which lies at the American-Soviet sector borders. Their mission was not immediately known but MP's said the Russians were about four or five blocks inside the American sector.

When an American patrol rushed up to investigate, these reports said, one of the Russians began to run and discharged his rifle, wounding the two Germans.

Meanwhile the German press said today the Soviet occupation army is preparing for big autumn maneuvers starting in early October. Large air fleets will take part, dispatches said.

United States Air Force officers said they had received no notice from the Russians about the reported air drills. They added they did not know whether they would be staged in the three corridors used by the Western Allies to supply blockaded Berlin by air.

American officials are awaiting a reply from the Soviets on a strong protest delivered yesterday over the buzzing of two U. S. aircraft planes by nine Russian Yak fighters on Sept. 29.

Marketing Group Will Make Aerial Survey Of County

An up-to-date photographic aerial survey will be made in Seminole County during October, Orie Mathias, executive director of the Seminole County Agricultural Conservation Association announced this morning.

The survey, to be made by the ACA in co-operation with the Production Marketing Administration and the county, will provide the first photographic maps made since 1910, and will show new roads, farms and clearings.

Each of the large photographs will reveal approximately three square miles on a scale of 6000 feet to the inch. Maps will furnish data for the use of the County Clerk, County Tax Assessor and County Agent, and will be available to individuals on order.

British Cabinet OKs Montgomery As Alliance Head

Field Marshal Will Lead 5 Power Armed Force Command

By ALAN H. SINGLETON
LONDON, Sept. 30, (AP)—The British cabinet today approved the selection of Field Marshal Viscount Montgomery as head of a joint armed force of the five-power Brussels Alliance.

A government source said the selection of Montgomery, chief of the British Imperial General Staff, will be announced soon in Paris by the five powers—Britain, France, The Netherlands, Luxembourg and Belgium. The informant said the choice was made by the defense ministers of the five countries at Paris early this week.

Montgomery presumably will resign as commander of Britain's army. London newspapers earlier had predicted Montgomery would resign to take over the Western military command.

They said also that General Alphonse Juin, French commander-in-chief in North Africa, will hold the five-power land command; British fleet Admiral Lord Cunningham would lead the joint naval units and Royal Air Force Marshal Lord Trenchard would be chief of the air forces.

It was thought that he had his last public appearance in his present role, Montgomery appeared at a news conference with War Minister Emmanuel Bichsel, and declared that "it looks like a mighty crop to supplement celery, or plant instead of celery."

C.R. Dawson Tells Kiwanians About Sea-Island Cotton

County Agent C. R. Dawson today told Kiwanians at the Tourist Center of initial success of planting of sea-island cotton on the farm of Phil Bach, quoted cotton experts from Georgia, Florida and South Carolina as being it as "the best they had ever seen," and declared that "it looks like a mighty crop to supplement celery, or plant instead of celery."

He said that one of the reasons for the success of the crop was the fact that the soil in the field was rich with phosphorus and potash. Dawson said that the crop was planted in a field that had been used for sea-island cotton for many years.

Describing this action of Seminole County as more or less "one crop area," devoted to celery, Mr. Dawson pointed out that in the history of agriculture, one crop areas have often gotten in trouble, cited the low prices brought last year by celery and said that his office had been looking for something to plant as an additional crop.

Having heard of the new strain of long-stapled cotton, which cotton breeders in Tifton, Ga. were just introducing, he said that his office had been looking for something to plant as an additional crop.

Water Continues To Rise In Canal Area West Of Fort Lauderdale

MIAMI, Sept. 30 (AP)—Water is still rising in the north New River Canal west of Fort Lauderdale and stands two feet above its level before the Sept. 21-22 hurricane.

The New River, which also carries a burden of the overflow from the Everglades, is over its banks in some sections. Nearer Lake Okechobee, the water level is dropping. Officials generally agreed that a critical situation exists where little or no rain would permit the flood to be cleared up, while even moderate downpours would send floodwaters spreading over wide areas.

Grady Norton, chief storm forecaster at Miami, said an easterly wave of rain and winds completed its transit of the Caribbean Sea today and moved inland over the Yucatan Peninsula.

"We can cross that one off the books," said Norton. "We watched it very closely because had it developed or turned northward, it might have brought six or ten inches of rain to Florida at a critical time."

"With that one gone, there is no indication of heavy, lower or thunderstorm activity over South Florida for the next two days," he said.

Rev. J.E. McKinley Tells Jaycees Of World Problems

The problem facing the world today is not how much money we can make from our business ventures, but the problem of survival, Rev. J. E. McKinley of the First Methodist Church told the members of the Seminole County Junior Chamber of Commerce at their luncheon today at the Tourist Center.

"There are four suggestions currently being proposed as to how we can avoid complete destruction. The first is for America to set the world an example and disarm, but there are few people who believe this would be the solution. If we would scrap our armaments, overnight we would be the victims of an invasion. We would be over-run," he said.

"The second suggestion is for the United States to start an aggressive war on Russia, but the proponents do not realize that America would be out of character. The average American hates battle," Rev. McKinley continued.

Citrus Market Is Reported Getting Back On Its Feet

LAKELAND, Sept. 30, (AP)—Current strict restrictions on grapefruit from Florida are helping put the "market back on its feet," a prominent citrus man said today.

W. C. Pedersen, president of the Waverly Growers Cooperative, said growers were "getting red ink" until the regulations imposed by the Federal Marketing Agreement committees went into effect.

The rules were designed to keep small sized fruit off the market. Meanwhile, the secretary approved the same regulations for another two weeks beginning Oct. 1.

Pedersen, writing in his weekly newsletter, said growers are getting \$1.00 a box on the tree for Marsh seedless and FOB (packed) ready for shipment prices on the same fruit range from \$2.00 to \$2.25. FOB prices on Duncan grapefruit run from \$1.75 to \$2.00 per box, he added.

Austin Says Russia Is Reason That Control Of Atom Power Is Not Realized

By LOUIE NEVIN
PARIS, Sept. 30, (AP)—The United Nations Security Council on Monday takes up the most explosive issue of its three-year history—the Western charge that Russia threatens the peace of the world by her blockade of Berlin.

The council announced today that Gen. A. G. L. S. de Gaulle, French ambassador to the United States, will be in the chair as the October president when the Session opens at 3 P.M. (9 A.M. EST). However, the U.S. delegation said it expects Austin will step down when the vote comes up and surrender the chairmanship to Argentina, next in line for it.

The Russians try to bar the Berlin case from the agenda. Austin is reported planning to remain as chairman until the procedural battle is over. Seven votes are required to approve admission of an item, and the Big Power veto does not apply.

Florida Shipments Of Produce Lead Southeast States

ATLANTA, Sept. 30.—(AP)—Florida led Southeastern States in 1947 shipment of fruits and vegetables, the Production and Marketing Administration, U. S. Department of Agriculture reported today.

Nearly two-thirds of the 105,136 cars shipped by Florida, or 68,429 cars, were citrus. Oranges accounted for 40,443 cars; grapefruit, 13,531 cars; mixed citrus, 11,225 cars; and tangerines, 3,230 cars. Watermelon shipments totaled 7,964 cars. Vegetable shipments last year from Florida were as follows: Celery, 222 cars; mixed vegetables, 4,614 cars; Irish potatoes, 4,121 cars; and beans, 3,253 cars.

Fruit and vegetable shipments of other Southeastern States in 1947: South Carolina, 16,699 cars; Virginia, 13,736 cars; Georgia, 12,605 cars; North Carolina, 7,505 cars; Alabama, 4,265 cars; Tennessee, 5,961 cars; Mississippi, 2,398 cars; and Kentucky, 697 cars.

Principal shipments by other Southern States included: Alabama—Irish potatoes, 3,126 cars; corn, 301 cars; sweet potatoes, 284 cars. Tennessee—cabbage, 1,702 cars; tomatoes, 689 cars; strawberries, 417 cars. Mississippi—cabbage, 1,251 cars; beans, 327 cars; tomatoes, 265 cars.

When Wallace was introduced the crowd rose and roared. Wallace stood erect and grinning at the microphones. Suddenly, splat, splat, splat came eggs in fast succession. Two or three of them hit the microphones in front of his face.

The police got Staskiel's name and released him. Night Police Chief M. M. Simpson explained there is no city ordinance against throwing eggs.

Wallace took occasion to express his "resentment" toward Jesse Jones, wealthy Houston business leader, with whom he constantly feuded when both were in the administration of President Roosevelt.

WASHINGTON, Sept. 30.—(AP)—The Progressive Party said today it has withdrawn 13 of its candidates for the House because, among other things, the Democratic nominees "Have now turned to a much more constructive liberal path."

The candidates withdrawn includes those opposing Reps. Helen Gahagan Douglas and Chet Holifield in California.

C. B. Baldwin, campaign manager for Henry A. Wallace Progressive Party Presidential candidate, announced the action.

He also said the party has withdrawn its candidate for governor of Connecticut against Democrat Chester Bowles, former OPA director but that it has not endorsed Bowles.

University with a B. S. degree in 1942 and the Virginia Theological Seminary in 1944. He was ordained a deacon on May 29, 1944 by Bishop Noble C. Powell of Maryland and was advanced to the priesthood on May 31, 1945.

On Oct. 1, 1946 he married Mary Annie Brun, daughter of Edward F. Brun, of Baltimore. Prior to that time Mrs. Zimmerman had been a lieutenant in the Army Nurse Corps with 41 months service overseas, two years in Australia, six months in Hollandia and 14 months in Leyte, Philippine Islands. She was attached to the 118th General Hospital, known as the "Johns Hopkins Hospital Unit."

Mrs. Zimmerman attended State Teachers College, Towson, Md., graduated from the Union Memorial Hospital school of nursing, did one year of post graduate work at the Cornell Medical Center in New York City before receiving her commission in the Army Nurse Corps.

Rev. and Mrs. Zimmerman will make their home at the Episcopal Rectory at 818 Palmetto Avenue.

Florida Citrus

Pedersen remarked that in his 27 years in the citrus business there has been only one other time when grapefruit was shipped by the first of September.

"There is no denying our season is early," he said.

Up to Sept. 25, 1,067 cars of grapefruit had been shipped. At the same time last year only 60 cars had left Florida for market.

Between 75,000 and 100,000 boxes of grapefruit "have been dumped into the woods" for failure to meet state maturity requirements, the report explained.

He said marshseedless grapefruit now is of "good quality. It has the appearance on the inside of maturity" and has good coloring on the outside.

Fifty-six cars of oranges were shipped up to Sept. 25, last year none was shipped until Oct. 16. Last week's auction prices at the big northern markets averaged \$3.96, Pedersen related.

For the same period California shipped 1,750 cars which sold for \$6.00 per box.

"Small sized" oranges are being discounted heavily on the auction markets, he said.

Col. Robert G. White, deputy state director, said today first orders for the physical examinations are now being sent to Florida's 43 boards.

U. N. Meet

can suggest of the much debated Baruch plan for control.

The American people, Austin declared, are willing to subordinate their plans and the future possibilities of atomic energy to international control because "They want peace."

But, he went on: "Fear has supplanted hope because the Soviet Union has insisted on placing its sovereignty above that security for all."

The American people, Austin said, do not want a monopoly on atomic energy. U. N. delegates, he continued, should focus the attention of the world on the need for a new spirit of cooperation. He concluded his statement with a declaration:

"Our side still stands."

The atomic issue came up for debate on a Canadian demand that a worldwide control system be set up.

The important political committee of the U. N. General Assembly grappled with the atom as the Security Council prepared to face its greatest test—the western charge that Soviet Russia is menacing world peace with her Berlin blockade.

General I. G. McNaughton of Canada led off the Western battle in the political committee to find out whose blame for the Atomic Energy Commission's failure to wipe out the atomic bomb after nearly three years of wrangling.

The committee had before it three reports from the Atomic Commission regarding their failure to agree. McNaughton presented a resolution calling upon "All nations to fulfill their responsibilities to the world community by accepting effective control of atomic energy."

Austin of the United States, said the Soviet Union had blocked real control of the atom by refusing to sacrifice any of her sovereignty to permit international inspection and control of sources of atomic energy.

McNaughton and Austin were the only speakers on today's agenda. When he had finished, Argentina's Dr. Jose Arce demanded a vote on the Canadian proposal.

Russia's Andrei Y. Vishinsky, however, objected that the proposal had not just been submitted, no Russian text was available and he wanted time to study it.

The debate then was suspended until tomorrow morning.

The Yak flew within 100 feet of the heavily laden American skymaster.

American air officers said they did not issue a satisfactory reply to the report. They predicted the Russians would deny the incident or punter with renewed charges that airlift planes were violating similar flying rules.

Soviet censorship kept reports of the landing incident out of Russian-controlled Berlin newspapers. Many weather slowed the air supply shuttle somewhat today.

The German dispatches about the Soviet maneuvers said reports from the Russian Zone indicated the mock warfare would be concentrated in Mecklenburg and Brandenburg north and west of Berlin. A large number of buildings were reported to have been requisitioned in those cities to house troop concentrations.

BIBLE VERSE TODAY

That is why you have overcome,
Saturate yourself with that word,
a little every day.—1 John 2:14:
The word of God abideth in you,
and ye have overcome the evil
one.

We are glad to see that they are
running the Communists out of our
atomic bomb plants. It's about
time.

It is interesting to note that the
fellow who threw the eggs at Henry
Wallace during his Houston, Texas,
speech is a resident of Pennsylv-
ania.

Selective Service officials reveal
that out of 8,584,963 registrants
only 2,147,813 are eligible for the
draft. However, Russia will find
that a whole lot more will quickly
become eligible if they are needed.

It does not pay to buck the draft
even in peace time. In Portland,
Maine, the other day, a pre-divin-
ity student who would have been
exempt from service anyway, was
sentenced to prison for two years
for refusing to register. Such mar-
tyrdom is assinine.

Illinois has joined the growing
list of northern states which are
overwhelmingly for Governor
Dewey. The Gallup Poll shows
that Dewey has 49 percent of the
popular vote, and Truman only 40
percent. In the 1944 election Pres-
ident Roosevelt got nearly 32 per-
cent of the popular vote there.

Congratulations to John Ivey up-
on his election as president of the
Chamber of Commerce. It is a
more or less thankless and time-
consuming job, but as Mr. Ivey
himself says, "When a person is
called upon by an organization
working for the best interest of the
community, it is his duty to serve."

We have previously pointed out
in this column from time to time
the results of the Gallup Poll as
they were announced from various
parts of the country. Now an-
other poll of national reputation,
the poll of Fortune Magazine, shows
that Governor Dewey is leading
throughout the nation by an "al-
most unbeatable margin". Its latest
tally shows that Dewey has 44
percent of the votes, Truman only
31 percent.

Governor Thurmond has invited
President Truman to debate the
his proposed civil rights legislation
in any state in the South. But
President Truman will not debate
that issue. In the face of the fact
that there was only one lynching
in the entire South last year, while
there were 360 murders in New
York City alone, and the President
has not proposed any federal legis-
lation against the New York mur-
ders, it would be hard for him to
think of anything to say in behalf
of his anti-lynching bill.

The importance of recreation to
long life and usefulness was stressed
by General Eisenhower the other
day when he spoke at the opening
session of Columbia University.
Pointing out that one of his first
duties will be to expand the recrea-
tional facilities of the University,
he said, "The day that goes by that
you don't have some fun is not only
unnecessary, but un-Christian. If
you don't have it, you are not be-
ing true to yourselves". It is a
regrettably coincidence that almost
at the same time Sanford has found
it necessary to discontinue its re-
creational appropriations.

It is difficult to prove that the
world is nearer war today than it
was yesterday. But it is not dif-
ficult to show that we are nearer
war than we were a year ago and
that therefore the trend is in the
direction of open warfare. "Ten-
sion during the past year has
increased", is the way Secretary
Marshall puts it. And what was
the tension a year ago? Here's
the way the Committee on Foreign
Aid put it at that time: "Open
ideological war has been declared
already... to ruben and so
determined a drive to achieve world
domination a lot more..."

Western Union Army

Reports that the five nations of the Western Union
alliance in Europe are considering the establishment of an
army for the Union lend strength to the hope that this al-
liance may be the beginning of a great new force for peace
in that part of the world.

A joint army of a quarter of a million men would be
small in relation to major national armies in Europe. Its
military significance probably would be as the nucleus of
a joint operational force for the five nations. In it could
be worked out continuously the problems of armament, tac-
tics, command, supply and other phases which consume
much time when the separate armies of nations are to be
joined together for allied action in an emergency situation.

Conceivably, once the joint army were firmly establish-
ed, the individual armies of the five nations then could be
adapted to the pattern of the joint force, so that they could
be added to it as simply as organized reserves are added to
a standing army. The results would be a combined force
which would give the smaller members of the Western
Union the military resources of a major power, far more
effectively than an alliance alone.

History indicates that as an aggressor force rises to
threaten the peace of the world, there is a period in its
development when its aims have become obvious but its
strength is not yet great enough to face firm opposition.
That was unquestionably true of the movement of Germany,
Italy and Japan toward World War II. An effectively armed
Western Union might be able and willing to offer such op-
position, at the crucial time, to an aggressor rising to
threaten Europe again.

Too Many People

It might be better, suggested speakers at the Advancement
of Science, if people didn't live so long. The conquest of
disease, accident and other death causes has increased the
rate of net gain of births over deaths to such an extent that
the population of the earth might be doubled in the next
seventy years. If that happens there will not be enough farm
land in the world to produce food for all the people, accord-
ing to present nutritional standards and agricultural knowl-
edge.

This is a dismaying outlook. Is the net result of scien-
tific protection of life to be extinction by starvation?

While the rate of population increase has been speeded
up, the productivity of agriculture has gained, also. Just
in the past quarter of a century or so farmers in the United
States have learned how to grow about fifty percent more
food on an acre of ground. Probably we can learn to do still
better. And there is the possibility, already being explored,
of growing food in sea water.

The scientists urge conservation of our soil and other
food growing resources, and we certainly agree. But perhaps
they put too much stock in statistics and not enough in in-
genuity. If there are four billion people on the earth seven-
ty years from now, a way will be found to feed them.

Rhode Island Demos
Name New Dealers

PROVIDENCE, R. I., Sept. 30,
(AP)—Rhode Island Democrats, who
boast they made gains in face of
the nation-wide Republican trend
two years ago, have picked a slate
of New Dealers to lead them in
this fall's election.

U.S. Senator Theodore Francis
Green and "Little Rhody's" two
Congressmen—Alme J. Forand and
John E. Fogarty—won renomina-
tion in yesterday's Democratic
primary.

The 81-year-old Green was un-
opposed; Forand and Fogarty won
by better than 20 to 1 margins.

Governor John O. Pastore step-
ped into top spot on the Demo-
cratic state ticket without oppo-
sition. Pastore, who succeeded to
the governorship when Democratic
National Chairman J. Howard Mc-
Grath resigned to become solicitor
general and later Senator, is seek-
ing his second full term.

\$2.00 to \$2.50 a pound, he revealed.

The cotton here was dusted and

new bolls to develop. Investiga-
tion of the field yesterday revealed
"no evidence that cotton had been

to this business of thinking about
the seriousness of the situation.
I realize that it is time to begin
thinking about a federation of
governments, and sometimes I
wonder if we even as one year to do it," he asserted.

"This idea of world government
is being backed by 5,000 Amer-
icans, among whom are President
Hamilton Holt of Johns College,
Mrs. Spessard Holland, Spessard
Holland, Jr., President Truman
and others. Peace is by-product
of good strong government, and
a world government must be for-
med with the power to enforce
laws. The present United Nations
organization is a step in the right
direction, but lacks the power to
enforce anything," Mr. McKinley
declared.

"The cost of a world federation
would be but a drop in the
bucket. The price budget of the
U.N. is \$34,000,000. The City
of New York spends \$14,000,000
yearly to take up garbage," he
said.

"The world must get
together to form a federation,
or the victor of the next war
will take over the world, because
it could not run the risk of a
fourth world war," he declared.

Douglas Stenstrom was in charge
of the program, and President Gor-
don Bradley introduced Rev. Mc-
Kinley.

A department report on farm

Thurmond Says His
Chances Are Good

WASHINGTON, Sept. 30 (AP)—
Governor J. Strom Thurmond,
presidential candidate of the States'
Rights Democratic Party, said today
he expects to win more than 100
electoral votes in the Nov. 2 elec-
tion.

He predicted he will carry
"most, if not all, of the Southern
States" and said the likely result
is that the election of a Presi-
dent will be thrown into the
House of Representatives, where
each state has one vote.

If that happens, he added, he
believes his own chances of elec-
tion are "good."

Thurmond, who summoned a
news conference to acquaint
Washington correspondents with
his campaign, said the States'
Rights ticket is assured of being
on the ballot in 13 states that
have 142 electoral votes.

In addition, he said, it has a
chance of getting on the ballot
in Maryland and Oklahoma.
Maryland has a electoral vote,
Oklahoma 10.

Mrs. Rudy Sloan Is Honored With Shower

Mrs. Rudy Sloan was honored on Tuesday evening with a surprise shower given by Mrs. Kirby Fite, Mrs. G. H. Brown and Miss Elizabeth Fite. The party was given at the Fite home on Celery Avenue where the rooms were lovely with arrangements of various colored fall flowers and greenery.

Miss Fite conducted entertainment and contests during the evening with a prize being won by Miss Elizabeth Whigham. Each guest wrote a recipe for the honor guest which, when gathered were compiled into a book form.

Refreshments were served from the dining table which was overlaid with a lace cloth and centered with a low bowl of pink radiance roses and tulips. Silver candleabra held tall white tapers. Harlequin ice cream, heart shaped cakes, salted nuts and mints carried out the pink and white color scheme. The hostesses were assisted in serving by Mrs. W. S. Brumley and Mrs. Francis E. Holt.

Lovely gifts were presented in a novel way to Mrs. Sloan by Carol Meriwether and Mary Helen Fite. Those invited to be with Mrs. Sloan were her mother, Mrs. F. T. Meriwether, Mrs. E. D. Browder, Mrs. W. S. Brumley, Mrs. John Brumley, Mrs. Joe Corley, Mrs. H. D. Dugas, Mrs. L. G. Hunter, Mrs. V. M. Greene, Mrs. John Higbee, Mrs. George A. Stine, Mrs. Jack Russell, Mrs. Henry Russell, Mrs. Donald Jones, Mrs. W. A. Leavitt, Mrs. Mark Jacoby, Mrs. R. B. Monroe, Mrs. J. M. Cameron, Mrs. L. I. Frazier, Mrs. John Schultz, Mrs. Bill Tyre, Mrs. L. Tyre, Mrs. Walter Meriwether, Mrs. Parks Tyre, Mrs. J. S. Moore, Mrs. A. K. Rosseter, Mrs. Douglas Charles and Mrs. Francis E. Holt. Also the Misses Ruth Hand, Elizabeth Whigham, Mary Louise Meriwether, Rebecca Stevens, Mary Earle, Mary Wilkes and Mabel Brown.

Personals

Mrs. Claude Hittell has as her guest this week her mother, Mrs. Ida Gudrum of West Palm Beach.

Mr. and Mrs. Claude Hittell have moved to their new home on Orange Boulevard.

Among those attending the Florida Congress School of Instruction held this week at the Sanford Grammar School were Mrs. Claude Hittell, president of the Lake Monroe P.T.A., and delegates, Mrs. N. W. Davis and Mrs. Ernest Hamilton, all of Lake Monroe.

Bride-Elect Given Party At Hill Home

Miss Ruth Stenstrom, whose marriage to Edward Czajka was an event of this afternoon at 5:00 o'clock, was honored on Monday afternoon with a Coen Cola party given by Mrs. W. C. Hill at her home at Magnolia Avenue. Attractive arrangements of pastel gladiolus were used with greenery in decorating the rooms.

The table from which refreshments were served was covered with a hand made lace cloth and centered with a beautiful arrangement of lavender dahlias and white pom-pom chrysanthemums. On each plate was a colonial bouquet of pastel summer flowers with Miss Stenstrom's being composed of white flowers.

Following a wedding ring in one of the small cakes, Mrs. W. C. Hill presented with a gift and the hostess's gift to the honoree was some of her chosen pattern of china. Mrs. Hill was assisted in serving by her daughter Mrs. James Crapps.

Those enjoying the afternoon with Miss Stenstrom were her mother Mrs. J. W. Salisbury, Mrs. Blake Sawyer, Mrs. Mark Jacoby Mrs. Harold Heckenbach, Mrs. Priddy, Mrs. Julian Stenstrom, Mrs. Douglas Stenstrom, Mrs. Donald Jones, Mrs. Royal French, Mrs. Russ Elorbe, Mrs. Bill Tyre, Mrs. Vella Williams, Jr., Mrs. Stenstrom, Mrs. Crapps and Mrs. Paul Nowakowski of Middletown, Conn., sister of Mr. Czajka. Also the Misses Peggy Duncan, Elizabeth Pitt, Lulu Lee, Elizabeth Whigham and Monee Pau.

Miss Jackie Cameron Honored On Birthday

Miss Jackie Cameron was honored on her sixteenth birthday with a surprise dinner given by her parents, Mr. and Mrs. J. M. Cameron, at the Anchor. Guests gathered in the Chinese Room at 7:30 o'clock.

In the center of the dining table was a graceful arrangement of mixed fall flowers which were also used on the mantel. Crystal candle holders held white burning tapers which cast a soft glow over the scene. During the evening Miss Cameron received many lovely gifts from her friends.

Those enjoying the evening with the honoree were the Misses Faye Williams, Joan Dampier, Tommye Methvin, Mary Helen Pitt, Carol Jean Meriwether, Donna Jean Dunn, Martha Chapman, Anna Corley, Martha Cameron, Mr. and Mrs. Carl Williams and the host and hostess.

Jascha Heifetz Has Role Of Father

Mrs. Frances Heifetz, 36, wife of violinist Jascha Heifetz gave birth to a six pound, 10 ounce boy last night at Cedars of Lebanon Hospital.

It was the first child for the 47-year-old violinist and the former Frances Spiegelberg, who was married in January, 1947. He was divorced from Florence Vidar, silent film star, in 1945.

ASSEMBLY OF GOD REVIVAL
The revival at the Assembly of God Church at Twelfth Street and Laurel Avenue conducted by Evangelist I. E. Blas will continue every night throughout next week at 7:45 P. M. except Monday. It was announced today by Rev. A. S. Davis, pastor. Everyone is cordially invited to attend these evangelistic services.

Hollywood

HOLLYWOOD, Sept. 30 (AP)—And all the fuss about banning giveaway air shows, flight fantasies is starting yet another "rush" contest.

The "Truth or Consequences" quizzer tells me he'll be a Mr. and Mrs. Hush contest this week. The stunt will benefit mental health and, of course, everybody except the S. S. Americans and Axis hateries will be awarded to the winner.

Edwards, who first popularized the giveaway program, is perturbed by FCC and NBC rulings against such shows. "If all the other shows hadn't gotten into the act, it would have been all right," he said. New regulations on the program take effect Jan. 1, he added.

Ramon Novarro, visiting MGM where he was once a top star, once turned about his comeback role in John Huston's "Rough Sketch." He'd like to do more film work, although he is well off with his real estate business. Now he, the sometime romantic star is a firm believer that life begins at 40. "I'm finally enjoying life," he reflects.

Wally Beery expects to talk to MGM about a new deal after he gets back.

Mrs. Pezold, Gradick Honor Miss Stenstrom

Mrs. Paul Pezold and Mrs. John E. Gradick entertained on Tuesday evening at 8:00 o'clock at the Gradick home at 116 Laurel Avenue with a shower honoring Miss Ruth Stenstrom in a series of pre-nuptial parties. The rooms of the Gradick home were beautifully decorated with arrangements of pastel gladiolus and autumnon wren greenery to form a lovely setting for the occasion.

During the evening Mrs. Blake Sawyer acted as radio announcer for a bride and groom program based on a popular radio program of the day while Mrs. F. E. Roumillat softly played "Because" on the piano. For this contest and others which were conducted by the hostesses prizes were awarded to Mrs. George Wells, Mrs. E. P. Perry and Mrs. H. E. Penstafay. Shower gifts were presented to Miss Stenstrom in a large white basket showered with white ribbon streamers and orange blossoms.

Refreshments were served from the dining table which was covered with a hand embroidered linen cloth and centered with a graceful arrangement of the gladiolus. Silver candleabra held white lighted tapers. Silver and crystal appointments held calla lily, azalea, violets, individual cakes and nuts. Punch was served on the air porch which was attractively decorated with bamboo and palms. The table held the crystal punch bowl flanked with white tapers in crystal candleabra.

The punch bowl was presided over by Mrs. John W. Hunt and assisted in serving and entertaining the guests were Miss Patricia Brown, Miss Rosemary Salabery and Miss Beverly Gradick. Those invited to be with Miss Stenstrom were Mrs. J. W. Salisbury, Mrs. Paul Nowakowski, Mrs. W. P. Brooks, Jr., Mrs. W. P. Brooks, Mrs. C. H. Jones, Mrs. James L. Pentis, Mrs. Norman Wadsworth, Mrs. Julian Stenstrom, Mrs. Joe Wells, Mrs. Bill Tyre, Mrs. George Wells, Mrs. O. C. Gibbs, Mrs. F. E. Roumillat, Mrs. E. S. Rockey, Mrs. E. C. Feds Prepare For Eustis Game Here Tomorrow Night

Stress Is Placed On Passing And Dummy Scrimmage To Set Attack For Contest

By ARTHUR BECKWITH, JR., Herald Sports Editor

Seminole High School gridgers were decked out in full pads for a heavy drill yesterday afternoon as Fred Ganas and Otis Mooney, assistant coaches, sent the youthful charges through their paces in preparation for tomorrow night's encounter with the Eustis Panthers at the local field. The game is scheduled to start at 8:30 o'clock. I saw Eustis play DeLand last Friday night in DeLand, and they have a pretty good ball club," Ganas declared. "I believe they are a little heavier than we are, and possibly a little faster. We are going to have a mighty good ball game here Friday night," he predicted. DeLand trimmed Eustis, 19 to 14.

Much attention was given to pass plays yesterday afternoon. A lengthy session with backs and ends practicing passing was the first item on the program. Following the passing, a light dummy scrimmage was held, then the Sanford coaches sent the charges through wind sprints and conditioning exercises.

Today the Sanford "B" squad ran Eustis plays against the varsity, so that the "A" squad boys could see the formations, which will be used against them tomorrow evening.

"The 'B' squad will have a contest with the Mainland High School junior varsity next Tuesday evening at Daytona," Ganas declared. "I do not know what kind of ball club we will have to make the trip, and probably will not know until Monday the list of boys to go," Ganas asserted.

Wolf To Begin Easing Down On Gator Drills After Hard Work

GAINESVILLE, Sept. 30.—(AP)—Coach Bear Wolf will begin easing down the speed of the University of Florida grid workouts after three days of rugged drills in preparation for the Saturday night meeting here with Tulsa.

The mentor has been searching frantically for replacements, especially in the line where two tackles—Carris Carter and Frank Dempsey—have been sitting out practice all week with injuries sustained in the Mississippi defeat last week.

To date Ben Ewing and Pat Driggers have been alternating at the vacant hole in the forward wall. Ewing will probably get the call but Driggers may be the surprise package of the line Saturday if he gets in action. He has been showing well in this week's drills. Fullback Billy Parker is slated for light duty only this week and Alex Gardner and Russell Godwin have been waging a merry battle for that starting slot.

Otherwise the cripples of the week, End Pat Johnson in particular, seem to be back in playing shape and "ready" to go.

Wolf turned on the heat in an offensive scrimmage yesterday. He was constantly hammering for "more blocking" as he alternated three teams against a 12-man defense.

Poor blocking was blamed on

Deadpan Harris Is Doubtful If Yanks Have Flag Chance

PHILADELPHIA, Sept. 30, (AP)—"Looks bad," a deadpan Bucky Harris observed today.

Harris' comment was made as he studied the American League standings which showed the Cleveland Indians two games ahead of his New York Yankees and the Boston Red Sox with only three games to play.

Harris and his Yankees were about as uncheerful as successful baseball warriors can be as they tramped into their dressing room after defeating the Philadelphia Athletics, 4-2 yesterday.

The Yanks almost bowed out of the flag fight yesterday because of a fly ball dropped by Joe DiMaggio, one of the greatest center fielders in baseball.

BOSTON, Sept. 30, (AP)—Win, lose or tie, Manager Joe McCarthy is convinced he has the best catcher in the American League is Birdie Tebbetts.

"I don't know of anybody else that has outplayed," he said the skipper of the Boston Red Sox in his private office after yesterday's 5-1 victory over Washington.

"That fellow Hogan has done a good job for Cleveland," he added. "But he hasn't the experience of Tebbetts. Rosar in Philadelphia has had a poor year at the bat."

CLEVELAND, Sept. 30, (AP)—Nearly everyone on the Cleveland ball club has been nominated key man in the Indians' apparently successful pursuit of the American League pennant.

But what about Joe Gordon, the old (?) man of the infield? At 33, the flash is enjoying his greatest season, even if he did hit .322 in 1942, the year he was voted the

Gators Will Hold F Club Week End For Prep Stars

GAINESVILLE, Sept. 30, (Special)—The second annual F Club high school week end will be held on the University of Florida campus Oct. 16 in conjunction with the Florida-Rollins football game.

Outstanding athletes from high schools throughout the state will be invited to attend the affair. At present, the invitations will be tendered on a quota system, whereby the larger high schools will receive more invitations than the smaller ones.

The F Club will request all coaches in the state to give them a list of outstanding college prospects in his school for all sports, not just football alone.

On arriving at the Florida campus, the athletes will be conducted about the University by F Club members, and will be treated to a lunch and Bar-B-Q during the afternoon. In the evening they will be escorted to the Florida-Rollins game by club members.

Following the game, a dance will be held for the visiting athletes. Present plans call for the athletes to be housed for the night in several fraternity houses in order to give the prospective college men a look at the University and to become better acquainted with facilities and organizations on the campus.

The purposes of this annual F Club high school week-end is to foster better relations between the University and athletes of the state.

Violence Breaks Out At Shell Co. California Plant

Shipping Industry May Seek Extra Congress Session

MARTINEZ, Calif., Sept. 30 (AP) —Violence at the Shell Oil Company's refinery and announced intentions of striking CIO oil workers to return in force today brought out a police detail to enforce order.

A crowd of about 150 gathered along the union's main gate picket line late yesterday, stoned cars and jostled non-striking workers. A car containing three men and two women was overturned and then righted by the mob. No one was reported hurt. As the excitement died down, Virgil F. Coragliotti, secretary of Local 6 of the union, shouted:

"Let's go back to the union hall. We'll be back in the morning and nobody will get in."

Thirty policemen and sheriff's deputies were ordered to the scene for the return of today's first work shift.

Trouble at the gate developed after a tussle yesterday which resulted in charges of assault against each other filed by Coragliotti and C. G. Clear, a non-striking employee.

Shell is one of six major oil companies whose refineries in California were struck 27 days ago when the oil workers union was denied its wage demands. The

union seeks a 17 1/2 cent boost to \$1.85 1/2 an hour.

SAN FRANCISCO, Sept. 30 (AP) —Shipping industry leaders today supported a proposal for an extra session of Congress to deal with the West Coast maritime strike.

They offered "to prove to any Congressional committee" that the strike is political and "without a strike issue on trade union grounds."

This offer was made in a telegram to Rep. Fred A. Hartley (R-NJ) from Frank P. Folsie and J. B. Bryan presidents, respectively, of the Coast Waterfront Employers' Association and Pacific American Shipowners' Association.

Rep. Hartley recently proposed an extra session of Congress to deal with the strike, which began Sept. 2 and has tied up 148 American ships.

Limited federal funds are being used to open a spillway at the lower end of Orange Lake to alleviate flooded conditions, he said. The lake is about a foot higher than normal.

Teale said the work, being handled in cooperation with local interests and owner of the spillway, will require about one week.

The work consists of removing obstructions within the spillway and may involve enlarging the opening as an emergency measure. Teale said it may be necessary to clear the channel roughly 50 feet wide from the spillway to beyond the Seaboard Air Line Railroad crossing.

This would involve removing heavy aquatic growths to speed discharge of the water through Shands Canal to Orange Creek and then into the Oklawaha River.

It is just beginning to show up," said Norton. "We'll keep a close eye on it. It could flatten out again with no further development."

JACKSONVILLE, Sept. 29—(AP) —Emergency flood relief work is in progress in the Orange Lake basin area north of Ocala, Col. Willis E. Teale, Jacksonville district engineer, said today.

Limited federal funds are being used to open a spillway at the lower end of Orange Lake to alleviate flooded conditions, he said. The lake is about a foot higher than normal.

Teale said the work, being handled in cooperation with local interests and owner of the spillway, will require about one week.

The work consists of removing obstructions within the spillway and may involve enlarging the opening as an emergency measure. Teale said it may be necessary to clear the channel roughly 50 feet wide from the spillway to beyond the Seaboard Air Line Railroad crossing.

This would involve removing heavy aquatic growths to speed discharge of the water through Shands Canal to Orange Creek and then into the Oklawaha River.
