Army And Harvard Clash In Game Which May Have Bearing On Final Ratings

West Point Has Schedule Which Includes Teams From All Sections Thereby Affording Comparison Basis

By Denis J. Walsh, International News Service Staff Editor

EYES OF COUNTRY FOCUS UPON TECH AND IRISH GAME

Record Crowd Jams Atlanta To See Spectacle Between Rivals

ATLANTA, Oct. 25. (INS)—A larger crowd than ever before witnessed an inter-sectional game in the South clustered up Atlanta streets and hotel lobbies early today as they waited for the annual clash of Notre Dame and Georgia Tech.

The schedule in so cosmopolitan a city as Atlanta will have an eye to the ground on this day, the idea being to identify the constant that may make the contest of having a nose to the ground when it is all over.

It is not up to a pretty good college Southern Methodist, to lose by any means and probably whatever happens to Army football hereafter will have some effect on or on Southern or at least Southern prestige.

The big idea of this ultra-anthropic schedule has something to do with self-determination among service football teams, the furnish ing of circumstantial evidence that the Army is sufficient unto itself rather than unto the Navy.

Harvard against one of the South's best, a contest that is best on playing anybody any time.

The first part of the contest corps in Boston is more than 100 years which is a pretty long time even if you don't spend it in jail.

The first Army-Harvard game since 1918. The notion that Harvard has a record which is enough to cause any man to tremble.

They will have more than 50,000 in the stadium for game time, which is approximately half the sales they make here made if they were playing this contest under the rules and regulations of the New York lottery.

According to the betting, Harvard's "best team in 10 years" will not be good enough for the job against the Army of 19 to 7 and possibly on. Any ball team that has a crack in the backfield is not much good with two outstanding players like Sprague and Perry who are supposed to beat on a college that only thinks it can play football.

Harvard Shaw Will Give Lecture Upon Future Civilization

LONDON, Oct. 25. (INS)—Alfred Russel Wallace, declared that he would visit the "East End" and "West End" of London, England, during his present tour of the world.

According to the betting, Harvard's "best team in 10 years" will not be good enough for the job against the Army of 19 to 7 and possibly on.

They will have more than 50,000 in the stadium for game time, which is approximately half the sales they make here made if they were playing this contest under the rules and regulations of the New York lottery.

RACKETEERING IS CHICAGO ACTIVITY THAT IS BOOMING

System Compels Business To Pay Tribute To Evil Organizers

CHICAGO, Oct. 25. (INS)—Racketeering—that Chicago system which compels a business man to pay tribute to organizers—has been perfected to such an extent it is bound to be universal this winter, according to the Employers' Association of Chicago.

The Employers' Association, including the leading business men and merchants of Chicago, has charged in a formal statement that the racketeering system is one of the main evils in the racket game.

More than 50 bombs have been thrown in the racketeering, according to the association, which declares the bomb is the most powerful agent of the racket men.

According to the association more than 20 business associations and various activities in business have been terrorized by the racketeering.

When the Irish gentlemen from the Middle West marched into Georgia they found a Solid South which was in all intra-sectional rivalries were forgotten in the overwhelming and unanimous desire to repulse the invaders and obtain a modicum of revenge for their straight dresses at their hands.

From all over Dixie they were here, the football fans of this South that in recent years has become "pigskin-pride." Bitter enemies of Tech in conference affairs, many of them, yet today they were all Southerners and, consequently, "Tech men."

This widespread support together with the Wisconsin disaster and the eventful week of the Rockers over Navy last week, has improved the standing in financial circles of the golden-shielded Georgians and how the betting, instead of being two-to-one as it was a few weeks ago is "Tech and seven points."

With their last scrimmage over Tech reports no injuries, while Kente Rocker arrived here with the color of burnt stars trailing in his wake. However, he will start his first team it was understood, and hope for the best. He gave his boys a last workout yesterday afternoon.

The game should be a duel between the two strong lines but the color is expected to be furnished by the flashy halfbacks, Johnny Nimick of the Irish and Stumpy Thompson of the Golden Toronado.

The affair is a sell-out and well over 20,000 are expected to be on hand. The weather was clear and warm.

Towns To Paint Their Names On Buildings

CHICAGO, Oct. 25. (INS)—Desire of cities to put names of towns painted on roofs and in a Cleveland coat company and a Wooster, Ohio brush factory sending free paint, brushes and laborers to 100 communities within a few days after they started to render this service to the first 100 cities which applied. Civic organizations in various parts of the country are sponsoring "name your town" weeks, according to reports.

In Arkansas, Governor Martinson urged that all cities and towns have their names painted on the roofs of their tallest building.

# The Woman Of It

DEAR MARY: AT HOME You've been reading in the newspaper about how young John Coolidge has left his home and mother to get his first job.

And how, during her own last days at home, Mrs. Coolidge was grave-faced and sad-eyed.

You've wondered, perhaps, between a smile and a sigh.

Why men correspondents consider that news.

That the perfectly natural, inescapable reaction of any mother when her young knight goes riding that might appreciate, read news and pride.

Which you and hundreds of thousands of American mothers have shared with Mrs. Coolidge.

Because you boys, too, are going after their first job, especially if you are a woman.

What never "market" yourself.

And when they've made the dragon ahead of your young knight.

As far from frightful as they actually are.

That's one reason why we are writing to you.

Because you're been twenty years in that way world of offices.

And have reached so many high posts.

And know how little a worth while youngster need fear.

The other reason why this column goes to you from us.

Is because one young man has gone out of his home and mother's side.

And made good.

While another is just ready to go.

We believe, from the point of view of observation and with the most profound and unalterable depth of conviction.

That nothing on earth does Twenty One so much good.

As having to hunt a job and hold it and succeed at it.

All his life, your boy has had things done for him.

Not only the necessities of life, but the indulgences—spending money, sports, parties, friends, perhaps others, all manner of soft and pleasant delights.

Have been handed to him, by you and his father.

# Giant Zeppelin And Some Of Distinguished Passengers

Passengers on the Hindenburg include (from left) Gen. Douglas MacArthur, Capt. Harold G. Gatty, and Mrs. Gatty.

# Beautiful Homes For Every Income

THE HINDENBURG

As we look up the Hindenburg, the largest airship ever built, we are reminded of the fact that it is a beautiful home for every income.

It is a home that is built for the future, and it is a home that is built for the present.

It is a home that is built for the young, and it is a home that is built for the old.

It is a home that is built for the rich, and it is a home that is built for the poor.

It is a home that is built for the man, and it is a home that is built for the woman.

It is a home that is built for the American people, and it is a home that is built for the world.
