

McLucas Machine Holds First Scrimmage Of Season

Reserve Power Of Celery Feds Will Be Big Factor

Ganas Hurt In Scrimmage But Reports This Morning Says He Will Be Back In Fold At Today's Practice

The 1938 edition of the Seminole High School Celery Feds underwent the initial scrimmage session of the season yesterday afternoon when Head Coach Leonard L. McLucas gave about 30 men the taste of real battle.

The only setback suffered from the melee was the injury sustained by Fred Ganas, Fed fullback who received a bad kick on the forehead and had to be taken to a physician. However, Coach McLucas reported this morning that Ganas was not hurt seriously and he will be back in the fold this afternoon as usual.

The session brought out one fact, the reserve power of the Feds have behind the regulars. The work of both offense and defense proved good in every position.

During the ball carrying duties yesterday afternoon were Carroll Ferguson, Buck Ferguson, Hugh Lester, Red Williams and Fred Ganas. On the first string line yesterday found Walter and Leavitt at the end positions, Howell and Jones at the tackle berths, Young and Hasty at the guard positions and Epps at center.

However, McLucas shifted the offense around and it also found Warren Odham and Jimmy Reno on the offensive tackle positions, Robert Stenland and Sonny Powell in the guard berths, Jim Riser at the center position and Hale Wilkinson and L. M. Telford at the end posts.

Another scrimmage is likely to be held this afternoon but tomorrow will bring a light session. Thursday, as in the past, the Feds will don their new uniforms for a brief hindering up session.

Orlando To Battle Daytona Beach In Friday Night Tilt

DAYTONA BEACH, Sept. 27.—Head Coach Spike Welshinger of the Daytona Beach High School Buccaneers today said his charges would stand a good chance of beating the Orlando Tigers Friday night when the two teams meet on Tinker Field in Orlando.

Welshinger said that picking a first team out of his squad of 97 men would be a hard job and he also remarked that he would use plenty of reserve power during his first tilt.

The contest is a non-conference battle and will not have any meaning on the Big Ten or Northeast Florida conferences.

Tars Begin Work For Clash With Stetson Friday

Johnson And Daunis Sustain Injuries; Drill On Defense

WINTER PARK, Sept. 27.—The first workout held by the Rollins Tars took place yesterday afternoon on the practice gridiron at Harper Sheppard Field following a 1 day training period held at Asheville, N. C.

The Tars were minus the services of Joe Johnson, a back, and Fred Daunis, senior and during a recent practice game Johnson cracked a rib and Daunis is still nursing a knee injury. However, Johnson is expected to report soon while Daunis is slated to round into shape in approximately another week.

With the exception of these casualties, the physical condition of the team is very good and it is expected to be even better when the Tars travel to Deland Friday night for their scheduled clash with the highly touted Stetson Hatters who surprised the entire state last Saturday night by defeating the Florida Gators.

The Tars worked on their offensive largely since they will have to play a more or less defensive style of game against the Hatters. However, Head Coach Jack McDowell is in high hopes of building up his defense to stop the hard attacks of the Stetson crew.

McDowell, who saw the Florida-Stetson tilt, immediately set his club to work on pass defense which played a major part in the latter victory over Josh Cody's eleven.

Clyde Jones, a promising sophomore was called upon by McDowell to take over the back post that was vacated by Johnson and John Lingerfelt, another brilliant sophomore, was selected by McDowell to replace Daunis at the flank position.

The project will bring city water service to an additional 400 families in the Sarasota heights area, and will also increase the daily output of the city soft water plant by 500,000 gallons. Present capacity is a million gallons.

The project also calls for the erection of a 150,000 gallon overhead storage tank in the vicinity of the Sarasota hospital.

Sons of Legion Drum Corps To Work With Band

The Seminole High School Band, under the direction of Professor T. M. Dillison, will undergo final preparations Thursday for playing at the Stanford-Eustis football game Friday night.

Last week Percy Mern and Mr. Dillison announced that the band this season will be accompanied by the Sons of the Legion Drum and Bugle Corp. and the band will be comprised of more than 60 pieces.

The band will offer a program during the half. The ensemble will be composed of regular band music and also drills by the drum and bugle corps.

Friday, W. D. Hoffmann announced that the corps will probably join the band for the first game.

State Expects To Pay Allocation On Time

TALLAHASSEE, Sept. 27.—(AP)—Officials announced yesterday they expected to pay on time the \$1,275,000 due next week from the state school fund for public school teachers' salaries.

Comptroller Lee said the teachers' salary fund now has \$1,175,000. About \$250,000 is due from the state liquor tax fund, and probably will be credited to the school account by the weekend.

The liquor revenue represents a surplus collections over the \$8,400,000 for old age assistance, \$400,000 for dependent children and needy blind, and the cost of operating the state beverage department.

JOE PALOOKA

"ANN, THIS IS DAD. I'LL MEET YOU AT THE STATION IF YOU TELL ME WHAT TRAIN YOU'RE TAKING."

"DADDY, I'M SO SORRY, I'VE GOT A NASTY CASE OF GRIPPE..."

"AND THE DOCTOR, IN SPITE OF MY PLEADING REFUSES TO ALLOW ME TO GO OUT."

"OH WHAT A SHAME. JOE IS EXPECTING YOU. HE'LL BE BITTERLY DISAPPOINTED, I PROMISED I'D BRING YOU."

"IT'S BETTER, THO' ANYWAY, DADDY. YOU CAN BRING HIM TO ME. I'D SORT OF LIKE THAT."

"WOMAN'S VANITY, HA HA. ALL RIGHT, DEAR, I'LL TELL HIM AND BRING HIM TO YOU AFTER THE FIGHT."

"OH, DAD... TELL HIM TO BE CAREFUL... TELL HIM GOOD LUCK."

IN THE FIELD OF SPORTS

By JULIAN STENSTROM

After seeing Stetson take the Florida Gators Saturday night you should see them whip Winter Park last Friday afternoon.

And after seeing Florida lose to Stetson, well take the Gators over Mississippi State if Cody uses Johnson in the wingback position.

North Carolina should also win over N. C. State Saturday, Minnesota over Nebraska, Cornell over Colgate, Northwestern over Kansas State and Auburn over Tulane.

Added to Sanford over Eustis, 13 to 7, Charlie Atwater reports that the Florida bunch which pulled the Corrigan stunt and won the wrong way did some heavy damage in home town. Dick Skeats has a real eleven out in Longwood this Fall.

It seems incredible to me that the people of Europe do not want war with one another should be plunged into a bloody struggle over a question which agreement already has been obtained to a large extent," the prime minister said.

Hilter Loses Faith

Chamberlain said that it was evident from Hitler's speech that the Reichsfuehrer had no faith that the promises already made for cession of the Czechoslovak areas will be carried out.

"But the British government regards itself as morally responsible for seeing that the promises are carried out fairly and fully and we are prepared to undertake that they shall be carried out with all reasonable promptitude, provided the German government will agree to a settlement of the terms and conditions for the transfer by discussion and not by force," the British prime minister stated.

Under the railway labor act, the commission will have 30 days to complete its investigation and the carriers and the unions will have 30 days thereafter to consider its recommendations. During that 60-day period neither side can disturb the status quo of their relations.

CITY BRIEFS

Continued from Page One because they do not employ two or more men. The ordinance is similar to the City's plumbing code.

Final approval, however, was deferred by the Commission until a further meeting.

On the recommendation of City Engineer Fred F. Williams, the Commission authorized the City Clerk to order the necessary Florida flint rock for the surfacing portion of French Avenue which has recently been improved through a WPA project. Mr. Williams estimated that 65 tons of the rock will be required. The delivered cost of the Florida flint rock from Osceola was listed at \$3.75 per ton against a quotation of \$4.50 per ton for the Birmingham slag.

The Commission also authorized Mr. Larson to pay the remaining \$500 to the Burns and McDonald consulting engineer firm. The amount was final payment for the electrical survey made by the firm to find the advisability of constructing a Municipal power plant here. A retainer fee of \$500 had previously been paid the firm.

Mr. Larson was also authorized to pay \$12.61 to the Florida Industrial Commission. This amount was assessed the City on premiums as a self-insured under the Workmen's Compensation Act.

PERSHING HEADS HOME

PARIS.—Gen. John J. Pershing, head of the American forces in the World War, decided today to return to the United States because of the European situation.

TRUCKERS ACCEPT PORPOSA

NEW YORK.—Mayor La Guardia's compromise for settlement of the strike of 15,000 truck drivers was accepted by the strikers at noon today. The proposal was rejected by truck operators yesterday.

Australia's first mill for extracting tung oil, used for paint making and similar purposes, was erected at Mascot, an industrial suburb of Sydney.

Speaking for the British government we regard ourselves as morally responsible for seeing that the promises are carried out fairly and fully and we are prepared to undertake that they shall be carried out with all reasonable promptitude.

"I trust that the chancellor will not reject this proposal, which is made in the same spirit of friendliness as that in which was received in Germany and which, if it is accepted, will satisfy the German desire for union of the Sudeten Germans with the Reich without shedding blood in any part of Europe."

The statement, bearing the date of September 27, 1938, was issued from the prime minister's official residence, No. 10 Downing Street.

PRAYERS FOR PEACE

DOVER, N. J.—(AP)—By proclamation of the World War veteran Mayor, everything in this town of 11,000 population will come to a standstill Friday as the citizens join in a one-minute prayer for world peace.

A total of 19,234 Americans arrived in the United Kingdom during July of which 18,461 were on vacation and 778 on business.

Election Results On Hospital Await Official Canvass

Unofficial And Incomplete Returns Show 12 More Votes Are Needed To Win

Those Voting Are Strong In Favor

1054 Vote For Hospital While Only 267 Are Against It

Late this afternoon a petition was filed by G. W. Spencer, representative Harry Pappworth and Fred L. Williams with the County Commissioners, meeting at a canvassing board, to strike certain names from the qualified freeholders list, alleged not to be freeholders. Mr. Spencer was given until next Monday afternoon at 3:30 o'clock to present affidavits proving that the names were not those of bona fide freeholders.

A final count received by The Herald at 3:00 o'clock this afternoon showed that 1068 votes had been cast for the hospital with 289 against, making a total of 1357. There were 10 absentee ballots, or a grand total of 1347, just 16 votes less than the necessary majority. The Bear Lake precinct had 10 votes for the hospital and 10 against.

Although the hospital project had apparently been defeated yesterday by a narrow margin as a result of the failure of a majority of Seminole County freeholders to vote, proponents still clung to the hope today that when the official count is completed and all absentees counted, there will be sufficient votes to make the election legal.

The Herald's unofficial returns indicated that 1321 votes had been cast in the election with the precinct of Bear Lake still unreported, and 10 absentee

(Continued on Page Two)

Promptness To Be Keynote Of Meets Of Townsendites

"Prompt opening and closing of all meetings is the motto," declared Arthur A. Kirchhoff, secretary of the local Townsend Club, in announcing the scheduled meeting Thursday night in the Welska Building at 7:30 o'clock. Mr. Kirchhoff stated that many members come from distances, some from Lake Mary and Geneva, and that "we wish to encourage attendance by putting this course."

Important matters are expected to be brought before the club members for their attention, Mr. Kirchhoff said, and an effort will be made to call a large number of copies of the special election edition of the Townsend National Weekly. A large order has been placed for the issue and members hope they can double it.

During Mrs. Martha Moffett's visit in New Smyrna it was announced, the duties of the commissioners will be delegated to the other officer,

A knowledge of the German language, or even the English language, is not essential to a person's mind, but those who listened to the recent speech of Adolf Hitler and Benito Mussolini, and the underlying principles of the present crisis in Central Europe, it is merely a recognition of the antagonism that exists between reason and emotion.

The progress of civilization has been based entirely on the development of man's mind from earliest times. Long before he came man of reason, man of science, the son of a big old peasant, could, there has been a period of time in which man's way to progress had made right. Through all these ages, there have been a few men who have sought to save the world from the savagery of savages, from the barbarism of savages.

In Prime Minister Chamberlain's address to Parliament, he gave a perfect example of emotional reasoning. He spoke for no more than three minutes, and did more than Hitler in his speech, in the 100 minutes of irrelevant monologue. Chamberlain spoke in quiet digest, complete, logical, and profound, very. No one who heard him could have doubted that he was appealing solely to the higher intelligence of mankind.

Hitler, on the other hand, has simply appealed to the crowd, and, in doing so, has demonstrated the baseness and savagery of the masses. He was, with his anger, and rage, Hitler, as he was, unwise. He showed himself like a small boy in a tantrum. For an hour and forty-five minutes he appeared to be terrorizing the whole world by the machine gun-like eloquence of his verbal outbursts.

On the one hand we have an appeal for law and order. Order, this concept of self-restraint, the Central European conception, will be demanded to an impartial裁判 (judgment). Where all men are equal, there will be given an opportunity to be heard, where a decision will be carried out with consideration for the right of自由 (freedom), and where peace can be made on without regard to anyone, without domination from anyone.

On the other hand we have the rule of force, handed down from the savages of ancient times. What he wants to do in the world of man makes right. The little man, the little nation is crushed under the iron heel of the roiling dictator. This way the controversy will be settled with machine guns, automatic rifles, air raid, war planes, liquid fire, with all the daughters of human beings and destruction to property which those instruments of death imply.

When men close their minds to reason and govern themselves only by the instincts of emotion, particularly when that emotion is confined largely to hatred and jealousy, the way leads definitely back to barbarism.

All Or Nothing

In view of the fact that Hitler means that all he wants is the Sudetenland, and Czechs have promised to give it to him, and their prime is backed by the combined guarantee of the British and French governments, it is a little difficult to understand why the inevitability of war becomes hourly more and more apparent. We are inclined to believe that the real reason lies in the fact that the Sudetenland is not all that Mr. Hitler wants.

The original Anglo-French plan which resulted from Mr. Chamberlain's first meeting with Hitler, and to which the Czechs agreed, included the transfer to Germany without a plebiscite of all areas with more than a 50 per cent German population with the exact boundaries to be determined by international commission, and the guarantee of those new boundaries by all nations concerned, as well as France and England.

But after the Czechs had agreed to make these sacrifices, and when Mr. Chamberlain conferred with Mr. Hitler at Godesberg, the Fuehrer presented his second set of demands which have become known as Hitler's "final attitude" on the Czechoslovak situation. In this memorandum to the British government, he demands not only the Sudetenland, peopled 50 percent by Germans, but considerable additional Czechoslovak territory besides.

It was this second demands of Hitler which resolved the Czechs to fight to the last ditch in defense of their country and which lined up France and England on their side. Hitler's description of the Sudetenland as shown on a map published in today's Herald, includes not only the Sudeten mountains, but also the Bohemian mountains on the southwest. In some places the new border as drawn by Hitler cuts 65 miles in a Czechoslovakian, comes within five miles of the important city of Pilsen, within 20 miles of the capital at Prague, and on the South it effects a bottleneck scarcely 30 miles in width.

For the Czechs to surrender any such extensive and valuable territory as this would not only destroy their country economically and commercially, but would leave the door wide open for further aggression by Hitler. Once German troops have passed the border mountain ranges and fortifications, no power on earth could prevent them from overrunning the rest of the country. It is this issue upon which the Czechs have elected to fight.

And it is on this issue which Hitler finds it so difficult to compromise. Unless he can get his foot inside the door which leads to the rich Bohemian valley, and the Ukraine, as well as complete economic and political domination of Central Europe, he has gained nothing. The Czechoslovakian minority problem is nothing but a smoke screen for Hitler's larger schemes.

There is only one hope for the peace of the world today, as we see it, and that is if Hitler should suddenly be seized with a bad case of tonsillitis, and the well known Jewish doctor should have the opportunity of removing them.

There is no reason to believe that Hitler regards his present grandeur as serious as we see it. What if he does have to fight England, France, and Russia? He probably counts on having Italy and Japan on his side. And did not Germany almost win the war before with the aid of these allies? A dictator, surrounded as he is always bound to think himself bigger and stronger than he really is,

Hospital Lost In Referendum By Small Vote

Petition To Strike Names From List Is Voluntarily Withdrawn By Attorney

Two More Votes Might Have Won

Investigation Shows 100 Names Could Have Been Stricken

A petition filed yesterday afternoon by Harry Papworth and Fred T. Williams, through their attorney, G. W. Spencer, to strike certain names from the freeholders list, alleged not to be freeholders, was voluntarily withdrawn today when it was found that only 100 names were not supposed to be on the list, whereas 105 names would have to be stricken, in order to provide the necessary majority of freeholders voting in Tuesday's hospital referendum.

At the time the petition to strike was filed, the returns showed that on the basis of 2797 votes, freeholders only

needed 677 votes to make a majority. When the ballot was checked, it was found that 67 voters had written in their names on the ballots qualifying themselves as freeholders, thus making a total freeholders of 2797.

Under the law, in order to make a bond referendum legal, it is required that at least 50 percent of the qualified freeholders participate in the election. Fifty percent of the above total of 2797, would be 1399; whereas only 1347 votes were actually cast. Thus the election was 52 votes short of the required majority.

Working on the theory that there were not actually 2797 in Seminole County and that consequently fewer than 1399 votes would be necessary to make a majority, Mr. Papworth and Mr. Williams proposed to strike from the freeholders list, the names of all those who had either died or were no longer freeholders.

An intensive investigation of the freeholders' list by Mr. Spencer disclosed 100 names which could have been stricken. This move would have reduced the number of freeholders from 2797 to 2697, thus reducing the necessary majority from 1399 to 1349 which would still have been two more than the number who actually voted.

Consequently it was decided to withdraw the petition.

On the basis of the latest returns, which are still unofficial as the official canvas will not be made until Monday afternoon, there were 1018 votes cast for the hospital and 269 against it.

It was erroneously stated yesterday that every precinct in the county voted for the hospital except Ojeda. It was discovered later that Altamonte Springs also voted against the hospital by 18 to 8.

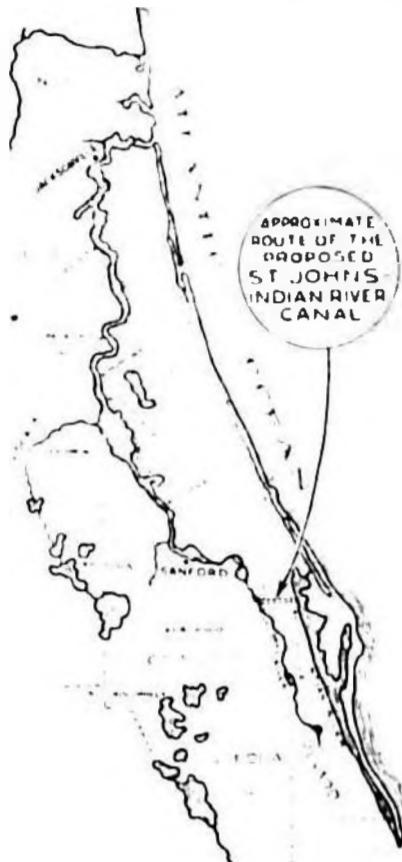

Bowling Club Holds Fall Reorganization

Eddie Bender was elected president of the Sanford Bowling Club for the coming year. The fall reorganization meeting held Tuesday night. H. B. Foss announced today.

Other officers elected were H. L. Miller, vice-president; H. B. Foss, secretary-treasurer; and William Johnson, assistant secretary-treasurer.

Mr. Foss announced that tournaments will begin next month in the alleys over Kent's Lane and he also added that next night will be held a tournament for any who would like to join the club.

PROPOSED CANAL ROUTE

The proposed St. Johns-Indian River Canal will make a by-way route of the "dead end" waterway. Opening up one of the most beautiful and scenic sections of Central Florida to hundreds of yachts which annually visit Miami and the lower east coast of Florida as well as provide adequate drainage for the upper St. Johns River valley.

U.S. Bund Leader Kiwanians Hold Observance For "Florida Week"

Contacts Maintained With German Ambassador, Consuls

Dr. B. D. Caswell Is Named President Of Club For New Year

WASHINGTON, Sept. 29.—(AP)—A House committee investigator charged today that Fritz Kuhn, leader of the German-American Bund, had admitted to "secret relationship" between the bund and Dr. Hans Dieckhoff, German ambassador to the United States.

The investigator, John C. Metcalf, told the committee by the election of officers and an address on the activities of the Seminole High School Cemetery, W. R. McCracken, coach of the high school eleven.

Metcalf, yesterday, testified that bund activities in this country were being directed from Berlin and that the group prepared to draft 5000 members as storm troopers for a "sabotage machine and spy network" if there is a German United States war.

"Adherents to the Nazi cause have slipped into U. S. Navy yards where they have succeeded in securing positions which place them in direct possession of secret plans for construction of Navy battleships of the latest type," he said. "They have even been assigned to trial runs of latest type ships."

Under prodding by Dies, Metcalf said that the committee had "sufficient evidence" to warrant further investigation whether "high-up American industrial leaders" are supporting the Nazi movement in this country.

Such an inquiry," he said, "probably would disclose that certain American industrial leaders, who are Fascist-minded, are behind the German Bund movement. I believe that if this committee had sufficient opportunity and time it would be able to get tangible and definite proof."

He said German-American Bund members in New York circulated literature advertising October 2 as a "celebration of Hitler's conquest of Sudetenland." He said the circulars were sent out before it became known that Adolf Hitler had set October 1 as the deadline for election of the Sudeten area.

He added that bund members consider themselves the same type of German minority as those in Czechoslovakia.

Plans for the state convention in Baraboo were announced and it was stated that Julius Bingham would be pushed as candidate for lieutenant governor of the Sudeten area.

He added that bund members consider themselves the same type of German minority as those in Czechoslovakia.

One egg produced during the months of October and November is worth on the market about two cents per dozen in Sanford, produced in April and May.

Canal Report Is Filed With U.S. Engineers

Williams, Gut, Solee Outline Merits Of Proposed Cut To Intracoastal Route

Williams, Gut, Solee outline merits of proposed cut to intracoastal route

In a report submitted yesterday to the Corps of Engineers, the St. Johns River Improvement Association, composed of Fred T. Williams, chairman Arthur N. Solee, of Orlando, and Julian Gut,

In the report, the committee has attempted to prove where the best location for the cut should be made, and the report states that the proposed cut should be made just north of the mouth of the river, just below the bridge at the mouth of the river.

Pointing out that 1937 traffic

on the river was 100,000

boat days, the report states:

Declaring that the natural beauty of the St. Johns River

is unimpaired, the report named

the many other attractions along

the course which would enhance

the possibilities of bringing

steadily increasing numbers of

yachts to take advantage of a

new waterway to the southeast coast.

It is not possible to place

dollar signs before recreational

values, the committee pointed

out in the report, and requested

the federal engineers to give

consideration to the hidden and

vital item of recreational

pleasure value.

The committee estimated the

recreational value of the canal

at \$10,000 annually and set a

figure of \$24,000 annually on

revenues from foreign pleasure

craft.

Pointing to the value to boat

owners of passing through fresh

water, the committee reported as

follows: "With the passing of

yachts through the fresh waters

of the St. Johns River, there

will accrue to the yacht owner

a savings due to the cleaning

of the hull and killing of de-

structive marine forms by the

fresh water. In 1937 if only

half of the boats passing the

Palm Valley Bridge had used the

proposed St. Johns River route,

the committee reported.

Mr. Williams stated that this

report was submitted to the

federal engineers yesterday

and will be followed up by

the association.
