NUMBER 38

## CARRY ON! A CHANCE TO SERVE AGAIN

SEMINOLE HAS ANOTHER CHANCE TO SERVE IN A GREAT WORK AND AS USUAL SHE WILL RESPOND

Catholics, Protestants and Jews alike have been the victims of Turkish massacres and of Turkish government orders to exterminate or drive from their homes and industries every other people in the Near East—Catholics, Protestants and Jews.

There are 3,950,000 souls, 100,000 of whom are orphans, all in desperate need. 17 cents per person per day is the estimated expense of giving them food.

The Commission's work is one, not only of relief but of repatriation and reconstruction.

Our budget includes needs for next year's crops, farm implements, cattle and sheep. These people are freed from their oppressors but given of homes and property. Our part is to set them on their own feet.

Our country is asked for \$30,000,000 to sustain the lives of these 3,950,000 Christians and Jews through the winter, through their return to a new life free from religious and political persecution. Seminole county's share is only \$1,800.

Each from every worker in the Near East tell a story such as this from Constantinople:

Refugees from all countries and many deported Armenians drifting back to their homes in ruins, lands and goods, cattle and implements gone. Need help to re-establish. Need much help for they have lost everything. Heroic men and women have strained every energy to save lives. Can you not cable that promised monthly appropriation is certain to end June, 1919? Such an amount would double value of gold.

What can the Red Cross do?

The Red Cross found the machinery of relief already at work in the Near East; the missionaries, who have saved the people and shepherds, and all official representatives of the United States Government, organized by the American Committee for Armenia and Syria. Every cent of the appropriation was distributed. And the Red Cross found the machinery to carry on the work in the Near East territory in order that there be neither duplicate nor lost motion. The territory is Asia Minor, the Caucasus, Armenia, Persia and Northern Egypt.

The \$100,000,000 just appropriated by our government is chiefly for Europe and does not meet this need.

The war is practically over, but not the results of it. These brave, unflinching victims of the Turk must be saved a million were killed and saved they will be if we give our \$1, \$5, \$10, kept from starving and re-established in homes and work.

100 per cent Efficient! Every dollar you give goes to the Near East. All expense of collection and distribution is met privately.

Of the \$12,321,145.92 collected before Sept. 30th, 1918, \$12,471,145.92 was sent to the field. The increase of \$50,000 over collections was interest accrued from daily balances.

The Near East looks to America as the defender of liberty, the big brother to little people. America has given them their greatest uplift—their colleges, their chief encouragement to progress, and generous help through their crises. The Great War has resulted in their liberation.

Shall they lack our support for effective rehabilitation?

Shall we fail to save them from immediate starvation?

At the head of the Commission are such men as William Howard Taft, Charles Evans Hughes, Chas. W. Elliot, Cardinal Gibbons, Oscar Strauss, John R. Mott. The treasurer is Cleveland H. Dodge, One Madison Avenue, New York.

Now, folks, this is not a bond

buying proposition, it's a gift to God's poor. We can't afford not to help. When called on, let's "come across" in cheerful Seminole fashion.

### About Income Taxes

Jacksonville, Jan. 20.—Special.—The latest information received by Collector of Internal Revenue James M. Cathcart from Commissioner Daniel C. Roper is to the effect that forms are reporting income taxes of less than \$5,000 are expected to be in the hands of collectors for distribution among taxpayers not later than February 1. "It may be definitely stated," advised the Commissioner "that the taxes for the calendar year 1918 will be collected under the provisions of the pending bill as finally enacted, and not under the provisions of the Act of October, 1917."

Commissioner Roper stated that the conferees on the revenue bill have made no change in the provisions of the bill relating to the collection of the income tax of 1918. In order to facilitate the work of the Bureau the conferees are disposing as rapidly as possible of those provisions of the bill directly affecting the form for reporting income for less than \$5,000. Preparation of the other forms is proceeding concurrently with the work of the conferees, and it will be possible, it was stated, to have them ready shortly after the enactment of the law.

### First Car Golden Glory

The first car of Golden Glory to leave Sanford was shipped yesterday while green velvet has been going forward for several days—this is the first car of bleached and marks the opening of the season proper.

The relay for this shipment was raised by C. E. Ward of the East Side and was handled by Chase & Co. at a very attractive price.

### New Tire Concern

One of the new business establishments of Sanford is the Wright Tire Company which has been recently established by Lieut. R. B. Wright and his brother, Hal Wright.

The new business is located on the main road, near the intersection of the Herald Office and will be under the management of R. B. Wright who was last recently discharged from the U. S. Army.

The Wright brothers are possessed of remarkable business ability and energy and the success of the new venture under their management is assured.

## NOW HAVE W. S. S. IN BIG DENOMINATIONS

FOR CONVENIENCE THESE POPULAR STAMPS ARE NOW MADE IN \$100 AND \$1,000 DENOMINATIONS

War Savings Stamps in denominations of \$100 and \$1,000 are being printed by the United States Treasury Department now for sale during this year, in addition to the 25 cent Thrift and \$5.00 War Savings Stamp already on sale. Announcement of this was made several days ago.

One of the chief objections to War Savings Stamps during 1918 was that when a person wished to purchase \$1,000 worth, which is the limit a person can own in any one series, that it took too long to paste the stamps on the certificates, and that it was a very disagreeable task. To obviate this the government has issued a stamp that is worth \$1,000 at maturity value, and a stamp worth \$100 also has been issued.

These stamps can be secured just as the War Savings Stamps are secured now by transferring Thrift Stamps. Five Dollar War Savings Certificates can be exchanged for a \$100 War Savings Certificate Stamp, or if desired, a \$1,000 War Savings Certificate can be had for \$5.00 War Savings Stamps, as no doubt all of those who own \$1,000 worth of War Savings Stamps would prefer to have them in one stamp, and will make the exchange in accordance with the Treasury Regulations.

## SUBSCRIPTION F. F. F. CAMP- TO HOTEL UP AIGN SUCCESS TO \$50,000.00 IN FLORIDA

### COMMITTEE MEETING WITH GREAT SUCCESS IN CANVASS FOR STOCK

Sanford's new hotel project has now assumed proportions that assure positively that the hotel will be built. The title to the property changed hands this week when the five men authorized to make the purchase received the deeds to the Welborne Block and the Second property adjoining and made the first payment according to the plan.

In addition the committee appointed to call on the citizens with subscription lists are meeting with success at every turn. The thermometer in front of Miller's furniture store, which registers the amount of stock sold, yesterday passed the \$50,000 mark and is still going up.

While it is necessary to raise this to the \$100,000 mark in order to complete the hotel as planned, there is every reason to believe that this mark will be reached as soon as the canvass is completed. The committee is meeting very few who fail to subscribe, even though some subscriptions are small, and the canvass is yet far from complete. The liberal terms of \$1.50 per month per share appeals to rich and poor alike and makes it possible for every one to do his part. It is not expected that the stock will cost over 40¢ or 45¢ per share when matured, as the earnings of the hotel will be applied in such a way that they will reduce the cost of the stock to subscribers.

A campaign has been inaugurated for the morning of the hotel which is explained elsewhere.

### Valentine Silver Tea

The St. Agnes Guild will give a Valentine Silver Tea, Monday afternoon, February 4th, from 2 to 5 o'clock, at the home of Mrs. M. H. Harlow at Park avenue. The public is most cordially invited. The following program will be rendered: Duo, "Mistake Overture," Wallace Raymond Overture, A. Florence Raymond Overture, and Mrs. Lillian A. Harlow Overture.

### St. Agnes Guild

Mrs. Robert F. Harlow, center, faced the members of St. Agnes Guild very early on Monday morning.

Plans were made and perfected for a silver tea to be given Monday, February 10th, from 2:30 to 5:30 p. m. by Mrs. Sherman Lloyd at the home of her mother, Mrs. C. M. Hand on Park avenue.

There will be a delightful musical program, some of the best home talent taking part.

Those meeting with Mrs. Herndon were Mesdames Archie Betts, M. Minarik, Sherman Lloyd, Fred S. Daiger, Jr., Julius Takach, Guyon Fox, Earl Burdick, Harry Crowder, Delahy, Miss Lillian Shinholser and Rev. A. S. Peck.

### Baptist Church Sunday

The Baptists are anticipating a great occasion next Sunday as the services will celebrate the first anniversary of their pastor's ministry among them and a full attendance is looked for both morning and evening.

Sermons at both services by the pastor, Rev. M. H. Massey. Good music.

Sunday school begins at 10 a. m. with preaching at 11:30. Evening service at 7:30.

A hearty invitation is extended to all to come and enjoy the services, especially are strangers in the city invited to be present.

### Letter From Vail Lovell

The following from the Leesburg Commercial will be of interest to the many friends of Vail Lovell, a former Sanford boy who enlisted from here, joining the aviation corps: One of the most interesting letters received in this section from France

### RECEIVING THE HEARTY SUPPORT OF THE FARMERS OF THE STATE

Gainesville, Jan. 20.—Special.—From the support being given to the 3-F drive for greater production, which campaign is now nearing a close, it is safe to say that Florida farmers will do their part. At the meetings which have been held during the past ten days farmers in every section of the state have pledged their support to increase the acreage of food and feed crops and to grow more live stock, and business men are standing behind the farmers in their undertaking. Attendance at the meetings continues to be splendid.

There has been a steady growth of stock raising in the state for the past few years, but the indications are that all records will be broken this year. The farmers feel that with the land now available they can safely plan to increase their acreage with reasonable assurance of a good crop to suit value and harvest.

As a result of the increased crops that have been grown in Florida, many a mill for grinding and crushing corn, wheat, beans, and other staple crops has just been organized. The new plant is equipped throughout with the latest improved machinery, and is said to be one of the most complete mills of the kind in the South.

### Sunday at Congregational Church

The hours for the morning meetings remain as they were, that is Sunday school at 9:15 and church morning service at eleven. The evening hours have been changed to 6:30 for Christian Endeavor and 7:30 for the church meeting.

The communion of the Lord's supper will be observed this Sunday morning with observance of the most sacred and joyful occasion.

"Give Him a Chance" will be the subject for the evening, with congregational singing and organ and choir numbers.

Tourists and other visitors to Sanford are given a cordial invitation to attend these meetings.

was written on November 11, "Peace Day," by Lieut. W. V. Lovell of the aviation section, to his father, M. W. Lovell.

Lieut. Lovell describes the scenes where he is located "Somewhere in France" on the day the armistice was signed and one of the things he mentions is that large numbers of parties were forming excursions to go to the front line trenches.

It happened that for several days Lieut. Lovell had not been able to get a new ship to replace one that had been broken to pieces the last time he used it. With the utmost modesty Lieut. Lovell writes of the number of times he has been driven down but he does not recite any of the exploits in which he has figured as the one who does the driving.

Twelve separate times his ship had been downed but he most thankfully mentioned that he was able each time to haul within his own lines. And, except on the twelfth descent, he always managed to protect his ship and bring it to the ground without serious damage. On the twelfth descent, however, he barely managed to get within his own lines, and he landed with such force that there was very little left of his ship but junk. He says he has saved a pretty good sized piece of it for a souvenir.

It was while he was trying to get a new ship that the armistice was signed and he felt that the new ship would not be forthcoming. In fact he believed that within a very short time he would be returned to the United States as he did not consider that the aviators would be needed further in the work that is yet to be done.

One day Lieut. Lovell writes, he returned from a trip to the German lines and found he had a new bookmark and to his surprise the new man was a Sanford friend named Coates. Whether it was this junkie or not is not clear, but he also writes about an exploit of one of his buddies who was caught far behind the German lines and had to fight his way through. He shot down two German planes and reached his own lines in safety. On another occasion, the squadron to which Lieut. Lovell belongs went on a foraging trip back of the German lines, shot down a single German plane and landed safely. Not a word is mentioned by Lieut. Lovell as to how much of this work he personally accomplished. In fact, his family has not had a boasting word from him during the war, but the things that he has told in a general way about his work with some of the most dangerous and the most successful air fighters on the front

## WHO WILL NAME THE NEW HOTEL

PRIZE OF \$5.00 IN GOLD WILL BE AWARDED TO PERSON SUGGESTING THE NAME.

Arrangements have been made whereby a prize of \$5.00 in gold will be given to the person who suggests the name finally adopted for the new hotel which is to be built in Sanford in the near future. The hotel as everyone knows is to be what is now the Welborne Block or court house block, the corner of Park and Commercial streets.

It costs nothing to enter this contest and the winner will be awarded the prize without cost to him or her. The committee who will decide this contest is as follows: E. A. Douglass, B. F. Whitner, A. R. Key, R. A. Newman, F. W. Mahoney and A. P. Connelly. Names are to be left at the Herald Office or mailed to the Hotel Contest Dept., of the Sanford Herald, Sanford, Florida, and the rules of this contest are as follows:

1. No person will be allowed to suggest more than one name.

2. All suggestions or names must be in the Herald office not later than February 10th, 1919.

3. The name must be plainly written on a small slip of white paper and the name of the person suggesting the name must be written on a SEPARATE piece of paper and both enclosed in an envelope and addressed "Hotel Contest Dept., Herald Office, Sanford, Fla., and either mailed or dropped in the news item box in the Herald Office door or left at the counter inside the Herald Office.

4. Should the same name be suggested by two or more persons and this name chosen by the judges, the prize will be prorated.

5. The names suggested are to be kept secret until after the judges have made their decision.

6. It is to be hoped that everyone will avail themselves of the opportunity to suggest a name for the hotel, not merely for the prize alone, but for the honor attached to the naming of a semi-public building in our city, that will perhaps be here long after the present generation has passed away.

### Conditions in "Near East"

A. C. Cooper, southern divisional director of the American committee for relief in the Near East, who has just returned from a trip in the southern states, said:

"Owing to the fact that there has been an increase of influenza in the southern states, the campaign for thirty million dollars for the relief of the starving thousands of the Near East, has been temporarily postponed in many counties."

"If the people of America could picture to themselves a community suffering from the worst known epidemic of influenza with thousands of people dying of that disease and from starvation with very little food and less medical aid, in the whole country, they would have some idea of conditions in the Near East. In some of the cities, the people are so desolate and weakened from continuous want that they are unable to bury their dead and as many die each night from starvation they are carried out and their bodies laid on the street to be picked up and loaded on push carts and dumped into the nearest river."

"Dr. Henry Riggs, just as he was preparing to sail from New York on a relief ship for Armenia and Syria, received a cable from that country urging immediate help and telling of conditions that are unprintable."

These people have suffered, during the period of the war, agonies that were unknown before to human beings and are still suffering and being persecuted on account of their unshakable faith in Christianity. The Christian people of America have a wonderful opportunity to make themselves Christ's agents to answer the prayers of these people for help."

## WILL BE NO WAR INDEMNITIES PAID

BUT FULL PAYMENT FOR WASTON DESTRUCTION OF PROPERTY WILL BE REQUIRED OF GERMANY

London, Jan. 30.—The peace conference has settled one point in the indemnity question, the Paris correspondent of the Evening Standard says he has reasons for reporting. The conference, he declares, has eliminated any intention of calling upon Germany and her associates to pay the allied countries the cost of the war, or to impose heavy indemnities upon the enemy nations, "but the minds of the conference," the correspondent adds, "are fixed that there shall be full and ample reparation for justifiable damage done. A very sharp distinction is being drawn between damage which resulted from legitimate warfare and damage which was wanton."

The correspondent says Serbia and Belgium have formulated claims for reparation in detail. Serbia's bill is the largest, but as Belgium suffered first she will receive first consideration.

The idea that Germany should return the indemnity she took from France in 1871 has been abandoned, the Evening Standard's correspondent continues. British claims, he adds are for damage done in air raids and through the sinking of merchant ships. In the case of ships, reparation to Great Britain will be in kind.

### AMUSEMENT

#### "EVERYWOMAN"

Depicts New York's Carnival Life Vividly

It is a piece of good fortune to the theatre going public of this city that "Everywoman" has been secured by Manager Beachem, Orlando, for his Phillips Theatre on Jan. 31st.

Everyone should attend the performance at the Phillips Theatre with expectations keyed to the highest point, to go prepared for a feast of unalloyed, uninterrupted light. The most vivid imagination will be startled and the most sanguine hope outdone. The appeal of "Everywoman" has proved itself as wide as the music loving public since its well remembered engagement here. The play unites spectacle, drama, ballet, opera and musical comedy. It has a deep undercurrent of philosophy and conveys a message, biting at times with its grim satire, but it amuses while it instructs. The idea is whimsical—at times it is almost playful.

"Everywoman," its central figure, whose life story is the motif of the play, is a concrete example of a beautiful, refined, accomplished woman of this period. She is of our day—one of us—and the yearnings which fill her soul are those of the average young woman of the time. An unsatisfied longing in her heart for love, great, mighty overwhelming love—is the ambition with which she leaves her own fireside and goes out into the world. Her mirror tells her she is beautiful, and Flattery, a personified dandy, whispers to her of a great king. Love who is waiting somewhere in the vast mystery of things to claim her and make her his own. Accompanied by the three satirists, Youth, Beauty and Modesty, she sets out upon her pilgrimage. In pursuing her quest she visits strange places, a great city playground where she is wooed by Passion, an actor; Wealth, a magnate; and Wisdom, a philosopher.

She plunges into the caucuses of the world, burns life's candle at both ends, and is banqueted at midnight in her luxurious apartment by the mottoes her beauty has attracted. One after another her illusions are shattered, until New Year's Eve on the roof and carnival of the mad

holiday, forsaken by Youth, Beauty and Modesty, she wanders alone. Mail orders are now being filled.

Elwood T. Bailey.

#### Great War Series

The first of three inspiring speakers in the Great War Series will come to Sanford January 29th at the Lyric Theatre. The program will begin at 8:15 p. m. in order to permit those who wish to do so to attend prayer meeting at the Methodist churches.

Mr. Elwood T. Bailey, whose topic will be "From Transport to Trench" will discuss vital problems arising from the great war. He is a vividly eloquent speaker, and has received a wonderful welcome in the larger cities of our country. At this time when the American people are so eager to obtain authentic information concerning the war, Mr. Bailey's address is of great value. He will discuss the war from the soldier's point of view, and will also discuss the war from the civilian's point of view.

Season tickets are being offered by the members of the Lyric Theatre, and are on sale at Beachem's drug store. The ordinary season ticket is \$1.25 for adults and \$1.00 for children of school age. Single admission will be 50 cents. Tickets at the office of the Lyric Theatre, on the east side of the city.

#### Death of Mrs. Francis Ginn

Word has been received in Sanford of the death of Mrs. Francis Ginn, mother of Wilbur A. Ginn of this city.

Mrs. Ginn was on her way to Sanford to visit her son and was accompanied by her daughter. While enroute she became ill and upon reaching Cincinnati was taken to a hospital, where medical aid was given but without effect and she died in a short time.

The remains were taken to her home at Sidney, Ohio for interment, funeral services taking place on Wednesday of last week. She was eighty years old at the time of her death.

#### Among the Scouts

The meeting of Jan. 20th was called to order at 7:40 by Assistant Scoutmaster Giles. Roll called, 15 present. Minutes read.

Bertram Shepherd qualified as Tenderfoot.

Scribe read answer to a letter written to Orlando troop concerning Scout activities at fair. Scouts from all counties exhibiting are to be allowed to participate. We were asked by the Orlando troop to suggest some of the stunts. Patrol Leader Musson appointed chairman of committee on suggestions.

We have three new Scouts: Breunton, Crinshaw, Eagles; Arthur Gardner, Beaver; and Wallace Bell, Bob White. These boys make a total of 24 in the Orlando troop.

Max Bradbury, Scribe.

#### Prevents Accidental Poisoning

To prevent poison being used in mistake for medicine an inventor has patented a bottle with the neck at one side and so formed that its contents cannot be poured out without careful manipulation.

#### POTASH ASSURED

129,000,000 Pounds Now Ready Million Pounds Daily Being Produced.

Omaha, Neb., Jan. 22. Eastern and western farmers, who have felt alarm at the action of the National War Trade Board in denying that the Trading with the Enemy law absolutely prevents the importation of potash from the German empire, may now breathe easier. The search, extended throughout the whole world, finally has little lakes out in the Nebraska sand hills were found to be heavily impregnated with potash, and after many experiments a system devised to recover that commodity from the water.

## PHILLIPS THEATRE

ORLANDO - ONE NIGHT

# Friday Jan. 31st

Advance Seat Sale at McElroy's Pharmacy

RESERVE YOUR SEATS BY MAIL NOW. Mail orders will take precedence over the regular sale and will be filled in order of receipt. State which location you wish and enclose check or money order for exact amount with self addressed stamped envelope, and seats will be sent you by return mail. Make all drafts and money orders payable to Phillips Theatre. Regular Box PRICES: 75c, \$1.00, \$1.50 and \$2.00. Office Sale Open Now.

### TO THE THEATRE GOING PUBLIC

I wish to call your attention to the fact that I am sending to your city the elaborate musical spectacle "EVERYWOMAN." Contrary to a custom that has been followed in the past years by most theatrical producers with a popular success to their credit, I have steadfastly refused to organize and send out any duplicate companies of this world famed success, which is coming to your city at the zenith of its fame and glory, full of international honor and homage, and identical in the proportions that have made theatrical history here and abroad.

I realize that I may be sacrificing much in taking this stand, but I feel positive that the theatregoers of the few cities to which I am sending "EVERYWOMAN" will appreciate the excellence of this company. Many of you have no doubt witnessed a performance of "EVERYWOMAN," and will be gratified to know that Paula Shay, Natalia Lynn, Winifred Baldwin, Percy Parsons, Norman Lane, J. K. Hutchinson, Frank Kilday, F. J. McCarthy and Fred Hampton still head the cast and will appear in your city in the same roles with which they have been identified.

Feeling that you will appreciate this effort to give you the best in my power,

I beg to remain, Faithfully yours,

*Francis Beachem*

1919 crops there will be sufficient potash to take care of the demands of the western part of Nebraska, among the famous "sand hills" are dozens and dozens of small lakes of "black water" water so brackish that cattle cannot drink it. Some of these lakes are no larger than small ponds. Others cover over 100 or 500 acres.

When the importation of German potash was stopped by the war and American farms and crops began to suffer, scientists started on a search for potash to replace the German article. The search extended throughout the whole world. Finally the little lakes out in the Nebraska sand hills were found to be heavily impregnated with potash, and after many experiments a system devised to recover that commodity from the water.

Now there is a supply of potash concerns working night and day on these lakes. Potash is piling up at the rate of 1,000,000 pounds a day, and the stock on hand has already reached the enormous quantity of 120,000,000 pounds. A number of other plants are under construction and will be in operation at present, but sufficient to meet the addition of the potash produced in California and other states. The potash experts say the day is not far distant when the Nebraska lakes will be able to supply the entire country.

The production of potash from the alkali lakes is not a "poor man's job" by any means. Some of the plants are of enormous size and cost fortunes to build and equip. One just recently opened required an outlay of \$750,000 before a single pound of potash was produced. Many millions of dollars were required to finance the industry.

But now that the little lakes are giving up their stored treasures the farmers of the east and south need not be alarmed over the report that no potash can be brought from Germany until long past the time for the planting of the 1919 crops. Nebraska will furnish the potash.

"UNCLE SAM" AND THE HOME GARDEN

Well Known Civic Leader Shows How a Vegetable Garden Will Cut The Family Store Bill in Half

Atlanta, Ga., Special.—Few people realize the actual money-saving power of the home vegetable garden and what it can be made to contribute in the way of food for the family table, says President H. G. Hastings, of the Georgia State Chamber of Commerce, and the Southeastern Fair, in discussing the matter of food supply for the South in 1919.

"Uncle Sam," through the United States Department of Agriculture, said Mr. Hastings, "estimated the value of the vegetables produced last year in home gardens of the United States at three hundred and fifty million dollars. This means that much, actually saved by the garden makers from their store bills.

Whenever there is lack of food or money to buy food, no matter whether it be due to world-wide food scarcity, boll weevil damage or other cause, the first word "Uncle Sam" passes out to the sufferer is to make a good big home garden. Why? Because the right kind of a home garden is the quickest, cheapest and best source of food supply there is.

The great trouble here in the South that our people don't take the home garden seriously enough, or give it attention that its importance as a money-saver justifies. It is mostly made with a view to a surplus and the satisfaction of making it self during the growing season, as much of the unutilized produce kind, however.

With the present and certain to be continued high food prices on the one hand, and the very great uncertainty as to the price that cotton or other cash crops will sell for next fall, it is time above all others to play safe.

Some of us say, "Well, what if I don't get a crop? It will sell for nothing." But the fact is, if you have a garden, you will have a surplus of food, and you will have a surplus of money.

The right kind of a home garden is the quickest, cheapest and best source of food supply there is.

With the present and certain to be continued high food prices on the one hand, and the very great uncertainty as to the price that cotton or other cash crops will sell for next fall, it is time above all others to play safe.

Some of us say, "Well, what if I don't get a crop? It will sell for nothing." But the fact is, if you have a garden, you will have a surplus of food, and you will have a surplus of money.

The right kind of a home garden is the quickest, cheapest and best source of food supply there is.

DADDY'S EVENING FAIRY TALE

BY MARY GRAHAM BONNER

BUTTERFLY'S GROWTH. "Butterflies come from caterpillars, don't they, Daddy?" asked Nancy one evening when Daddy came in to tell the children his usual good-night story.

"Yes," Daddy answered. "Would you like to hear about the time in-between when they are growing?" he asked.

"We'd love to," said Nancy. "There are some people," said Nick, "who hate caterpillars as they do snakes and are afraid of them. I'm not afraid of anything."

"Neither am I," said Nancy. "That's so," agreed Nick, with a show of bravery.

"It's funny that you should have spoken of caterpillars and snakes at the same time," said Daddy. "For there is something quite alike about them."

"I know," said Nancy. "Why?" asked Daddy. "Because they both crawl," said Nancy proudly.

"That is really right, too," said Daddy, "but that was not what I was thinking about when I said they were alike."

"Tell us what you were thinking," Daddy said.

"I think that when the children were very quiet as Daddy commenced, 'When snakes want to cross they have to shed their skins or there would be no room for them in which to grow.' Now a caterpillar has to do the same thing when it tries to

grow. When a caterpillar is hatched from an egg it has soft skin over its body. As it grows its head there is firm skin over the soft skin and when the head growing will not, it has to shed its skin for the old skin as with a snake, for all ready when the old one is thrown off, the new one begins from the body.

"I know," said Nancy. "Why?" asked Daddy. "Because they both crawl," said Nancy proudly.

"That is really right, too," said Daddy, "but that was not what I was thinking about when I said they were alike."

"Tell us what you were thinking," Daddy said.

FARM PROSPERITY IN GRAVE DANGER

High Cotton Prices Greater Food Production Essential To The Maintenance Of Prosperity

Atlanta, Ga., Special.—There is a large element of danger to the maintenance of farm prosperity in the South, says Mr. Hastings, of the Georgia State Chamber of Commerce, and the Southeastern Fair, in discussing the matter of food supply for the South in 1919.

Mr. Hastings repeated substantially his statement of a year ago when he said: "Unfailing people are apt to attribute the present measure of farm prosperity in the South to the high price of cotton rather than to the real cause."

Just as soon as prices begin to fall, he said, the farmer will be in a bad way. "The farmer," he said, "is not a speculator. He is a producer. He is not a trader. He is a worker. He is a man who has to live on what he produces."

"Of course the high price of cotton has helped, but it had not been for the increased supply of bread, meat and vegetables, grown and made on the farms, there would have been little prosperity for any one but the supply merchant. Cotton was and is relatively lower in price than food-stuffs, and will continue to be for years to come."

"An extra two or three million bales in the 1919 cotton crop will smash present attractive prices while the world-wide demand for bread and meat and the dehumanization of food production in Europe incident to the war, means high food prices everywhere for years to come."

"High food prices are a certainty and low cotton prices are an equal certainty if the food and grain acres of 1916, 1917 and 1918 are thrown back into cotton in 1919. Herein lies the danger to our present farm prosperity."

"If we go back to our old before-the-war system of growing all cotton and buying all food and grain, we will get another jolt like 1914 with reasonable certainty."

"Present Southern farm prosperity can be maintained in one way only. Produce on home acres, so far as possible, every pound of food, vegetable, grain, hay and forage needed for family and livestock, then put the surplus on the market in cotton or other cash crops. This method of farming is the only one made with little or no debt, and it is the only one that will stand the test of the season instead of 'owed' to the supply merchant."

"Food and grain production sufficient for home needs, insures continued farm prosperity. Dropping back to the old way means debt like a millstone around the farmer's neck."

"I know," said Nancy. "Why?" asked Daddy. "Because they both crawl," said Nancy proudly.

"That is really right, too," said Daddy, "but that was not what I was thinking about when I said they were alike."

"Tell us what you were thinking," Daddy said.

"I think that when the children were very quiet as Daddy commenced, 'When snakes want to cross they have to shed their skins or there would be no room for them in which to grow.' Now a caterpillar has to do the same thing when it tries to

CALANDER PADS FOR 1919... A sheet for every day. One of our pads will remind you of important matters that are to come up during the year in your business, household or personal affairs. We have them with desk stand at 50 cents and without stand at 25 cents. Herald Printing Co. OFFICE SUPPLY DEPT. Phone 148 Sanford, Florida

Intelligent Fringe Dog. A gentlemanly dog was brought on the scene by the Marine Central and he did his best to reach the end of the "fringe" train. Being afraid to jump off because of the distance to the ground, the dog dropped his body over the sleepers, letting his head and legs hang between the sleepers. The engine and six cars passed along and then doggie perked up once more, found the coast was clear and calmly finished his journey home. Most Primitive Still. Probably the most primitive still in use is that used by the Chinese. In it, however, to be very effective. The leaves are placed in a wicker basket, which is fixed over an iron cauldron containing water. On the top of the basket a basin of cold water is placed. The steam from the cauldron passes through the leaves of the basket and carries over the vapor, which is deposited in the form of camphor on the cool under surface of the basin. When Woman Brags. Our observation is that when a woman brags of the good luck for five years, and the same husband for ten, she brags mostly on the cook. Galveston News. Daily Thought. Zeit is brief, or badly regulated, when it encroaches upon the rights of others.—Inspector Quessel.

"Eat All of My Honey." A butterfly is shown on a flower. The text says: "I've been a long time coming to you, flower, but the hard crawling journey had a wonderful ending. And though the flower does not altogether understand it partly does, for it whispers, 'But all of my honey and sip my sweetness, for you are my beautiful butterfly visitor!'"

Dangerous Driving. Why is it dangerous to drive during a hard shower? Because you cannot hold the reins (reins).

Daily Fashion Hint. SIMPLE AND SMART. Not only simplicity of line is the strong note in the new fallers, but above all simplicity of workmanship. This model in check serge meets all fashionable demands. The skirt is gathered to a belt of self material and the little jacket is satisfied with the ornament afforded in a collar of tub satin. Medium size requires 1 1/2 yards 34 inch material. Imperial Review Jacket No. 771. Sizes 16 to 20 years. Price 25 cents. Skirt No. 772. Sizes 16 to 20 years. Price 25 cents. Caught On to Sailors' Trick. Experiments have recently been carried out in the U.S. Army for the purpose of determining the yield and of heating the quality of straw. Liberty Before All Things. Experiments have recently been carried out in the U.S. Army for the purpose of determining the yield and of heating the quality of straw. Experiments have recently been carried out in the U.S. Army for the purpose of determining the yield and of heating the quality of straw.

### The stately beauty of Florida plants and trees

That has made famous the surroundings of many of her public buildings may be enjoyed too by the owners of even humble homes. Just a little planting will change otherwise dreary home grounds into places of color and warmth where life really is worth living. And should it ever be necessary to rent or to sell the property, this planting will add to the value a great deal more than the cost of making it.

What the planting should be, when to make it and how to do so at small expense are things told by the new Royal Palm Nurseries catalog, the "Beautiful Grounds Book," copy free on application.

REASONER BROTHERS: ROYAL PALM NURSERIES

### WORKERS BUSY ON PLANS FOR VICTORY LOAN NEXT SPRING

"Let's Finish the Job," Will be Appeal to Subscribers and Volunteers in Last Bond Campaign.

Atlanta.—Forces are being lined up throughout the country to put over America's fifth war loan—the last the public will be called upon to absorb—the early part of April.

The decision of the Treasury Department to designate the new bond issue as the "Victory Liberty Loan," seems to be meeting with general favor. The name carries the thought of the victory of America and her allies on the battlefields of France for the cause of freedom and democracy. The amount of the loan will be determined by the needs of the Treasury Department when the issue is authorized. It is believed, however, it will be about six billion dollars—the same as the Fourth Liberty Loan. The interest rate of the securities has not been decided but assurances have been given that it will be attractive from the investor's point of view. "Let's finish the job" is the appeal made by officials of the War Loan

organization to purchasers of bonds of the previous issues and to workers. The county organizations are being reassembled for the last great effort.

In a statement just made public, Governor Joseph A. McCord, of the Federal Reserve Bank of Atlanta, chairman of the Sixth District War Loan Organization, emphasizes the need of another loan. "It was not alone the achievement of our soldiers in breaking the Hindenburg line that made Germany beg for an armistice though I would not rub the fighters of any of the glory," he said. "It was the gigantic scale of preparation in America, behind the army, our huge production of arms, ammunition and ships; our greater army in training behind the firing line, that convinced Germany it was useless to fight any longer."

"By going into it as we did, a vast sum was spent, but it brought a saving in the lives of thousands of our young men. Critics have charged the Government with 'extravagance' in handling war contracts. It was this determination to 'win at any cost' that brought the Hun to his knees. It was economy, not only in lives but in money we would have been compelled to spend had the war lasted another year or two years longer. The obligations now outstanding for this enormous production of material must be met. That is the reason it
