

# Prosperity Hits Turpentine Belt As Bumper Crops Are In Prospect

By JOE BRADWELL  
Managing Editor, The Valdosta Times  
VALDOSTA, Ga., May 11—(AP)—That whistling amid the pines these days is not generated entirely by the southern breeze. Turpentiners are a-whistling, too. A measure of prosperity has returned to their industry.

Last year, they'll tell you, the least of their worries was income tax. They figure to do better this crop season.

Turpentiners—just in case you didn't know—are the folks who collect oleoresin from pine trees and distill it into turpentine and rosin. Oleoresin is called gum, or crude gum. It's the sticky, gummy stuff that flows from the chipped "face" of the pine into metal cups.

Turpentiners are called gum naval stores operators. Why naval stores? Because in colonial days the British Navy used the gum from the nine trees of Virginia and the Carolinas to call its wooden ships. Pitch for the seams and tar for the rigging were called naval stores.

With the return of warm weather a new naval stores producing season is underway. The stockpile of rosin, huge a year ago, has dwindled. Gum turpentine stocks have all but vanished. Demand for these products of the forest has reached a new high. Prices are up.

Therefore the whistling amid the pines of Georgia, Florida, Alabama, Mississippi and South Carolina. It is in these states that America's gum naval stores are produced.

Turpentine and rosin are vital to the manufacture of many war goods as well as numerous articles for civilian use. Rosin is a basic raw material for hundreds of industrial products, including paper, paint and rubber. Turpentine is used as a thinner for paints and in chemicals and pharmaceuticals, has become a household item sold across the nation's counters in handy containers.

The historic Savannah, Ga., naval stores exchange which, for more than a century has recorded prices on which the world's trading in turpentine and rosin has been based, last July quoted gum turpentine at 36 cents a gallon. After the government price freeze early this year the market figure held to 22 cents until Tuesday when it settled to 25 1/2. Rosin quoted at Savannah last

# Student Head Says Stetson Took No Part In Race Vote

DELAND May 11—(AP)—Stetson University had no part in a resolution urging an end to racial segregation in Florida colleges, Stetson student President Fred Hope said today.

Student executive councils of the University of Florida and Florida State University have said the resolution does not reflect the view of their student bodies. The University of Florida withdrew from the Student Government Association.

Student executive councils of the University of Florida and Florida State University have said the resolution does not reflect the view of their student bodies. The University of Florida withdrew from the Student Government Association.

He said a delegate would have the power to vote for such a resolution only with approval of the student body of his school. Hope said he had received many telephone calls and letters from alumni and others attacking the non-segregation resolution.

resistance in Asia, both side and inside China.

"I. To carry out our commitments of honor to the South Koreans and to demonstrate to the world that the friendship of the United States is of inestimable value in time of adversity.

"E. To make possible a far more satisfactory peace settlement for Japan, and to contribute greatly to the post-treaty security position of Japan in relation to the continent.

Records show that while 351 persons resorted to self-destruction in 1949, only 315 persons met death this way in 1950.

On the other side of the picture, motor vehicle accidents killed 851 Floridians in 1950, as contrasted with 662 persons killed that way in 1949, a gain of 29 per cent.

These fatalities help to run than adoption of MacArthur's Korean program.

"The principal difference that I see in the matter is that we have an issue there (Far East) that is very critical to the Soviet Union in that they now are in complete accord with the Chinese Communist government so far as we know, and they have a treaty of accord.

"I wish in this telegram to tell you of my views on our basic national and international purposes in continuing the resistance to aggression in Korea. We need your judgment as to the maximum effort which could reasonably be expected from the United Nations forces under your command to support the resistance to aggression which we are trying to organize on a worldwide basis."

# Suicide Declines But Killings Rise In Florida In '50

JACKSONVILLE, May 11—(Special) Suicide appears to be growing less popular in Florida as a means of solving personal problems, but other methods of violent death took a substantial return in 1950, final official resident death figures released by the State Board of Health Bureau of Vital Statistics showed today.

Records show that while 351 persons resorted to self-destruction in 1949, only 315 persons met death this way in 1950.

On the other side of the picture, motor vehicle accidents killed 851 Floridians in 1950, as contrasted with 662 persons killed that way in 1949, a gain of 29 per cent.

These fatalities help to run than adoption of MacArthur's Korean program.

# HOLLYWOOD

By BOB THOMAS

HOLLYWOOD, May 11—(UP)—What makes a man give up a successful life in television for a career in religion?

Hollywood wondered that this week when Mal Boyd announced he planned to enter a seminary the September with the goal of becoming a Protestant Episcopal Minister. He was leaving behind a position as television partner of Mary Pickford and Buddy Rogers. Only 27, he had risen fast in the new industry and had become one of its spokesmen.

"How did you reach your decision?" I asked him.

"It's difficult for me to describe without sounding 'holier than thou,'" he replied. "But actually, I had security, I had position and I had excellent money. Then I asked myself, 'I realized that you go from here?' 'I realized that my goal was no longer in making money or in what money could buy. The goal I had set out for was no longer a goal.'

Denver, and I discussed with him the possibility of becoming a minister."

Boyd said his decision came partly from disillusionment with the entertainment fields he had been associated with.

"I realized that the commercial media was manstrung," he said. "The movies are largely limited to an appeal to an adolescent audience. I felt the tragedy of television was that it had to be low level. It has been taken over by the profit motive."

"I also felt myself being affected by the compromises of the life in New York and Hollywood. You don't mean to sell out, but you sell out before you cast it."

Boyd decided to switch his career to religion in an attempt to further his destiny. "I would like to be of service in as many ways as I can," he said. "I desire to win, but not at all altruistic. Because by doing that, you reach your devotion as an individual."

# Dawson Testifies

(Continued from Page One)

judged close friendship with E. Merl Young, whom the subcommittee has named as a key figure in the alleged influence ring.

"Mr. Young did not impress the committee as a man of great intellectual powers," Fulbright said. He asked how, without Dawson's support, Young could have wound up on the payrolls of two RFC borrowers at the same time.

Young, husband of a former White House stenographer, has testified he drew an \$18,000-a-year salary from the Lustron Corporation of Columbus, O., while also getting \$10,000 a year from the F. L. Jacobs Company of Detroit. Both firms owed money to the RFC.

Members of the County School Board met yesterday morning and re-appointed teachers in all county schools in accordance with the recommendation of the school board. No new appointments were announced, said Superintendent W. Lawton. The bid of P. M. Campbell for a boiler room building for a central heating plant for the Ovidio High School was accepted at \$5,620. Two bids were rejected.

Five bids were made on boiler and heating equipment, and the Air Conditioning and Heating Co., Orlando, got the contract with the low bid at \$7,785.

Boyd said his decision came partly from disillusionment with the entertainment fields he had been associated with.

"I realized that the commercial media was manstrung," he said. "The movies are largely limited to an appeal to an adolescent audience. I felt the tragedy of television was that it had to be low level. It has been taken over by the profit motive."

## House Rejects Budget Bill • Compromise

### Liberal, Conservative Elements Combine To Kill Measure; Libel Change Asked

TALLAHASSEE, May 14.—(AP)—The Florida House today rejected 48-41 a compromise General Appropriations bill that would have set spending for agency and institution operations and new buildings in the next two years at \$268,500,000.

A coalition of the most liberal and least liberal members teamed to reject the measure prepared over the week-end in a conference of leaders of both sides.

Defeat of the compromise plan put the House back to considering item-by-item the Appropriations Committee bill that started out at a figure of \$244,000,000 but was expanded to \$254,000,000 by last Friday. Operating money for the universities and the whole state construction program still are to come.

Opponents of the compromise plan said it would accomplish no good, would mean starting over on debate that has gone on a week, and would force a special session of the Legislature to provide money to finance the increased allotments.

Supporters argued acceptance of the \$254,000,000 figure would permit balancing the General Fund budget without increasing taxes. They said the trend of increasing the original bill continued the total would run far beyond their figure and be sure to call for new taxes.

Preliminary vote on the matter had indicated the strength lay with advocates of the compromise bill.

Efforts to put off until after noon consideration of an amendment to substitute an entirely new set of figures for the pending General Appropriations bill failed by votes of 47-53 and 68-22.

Rep. Bryant of Marion, who led the amendment, said he believed the measure, said in his opinion it would make new taxes unnecessary. He has been a leader in the group which has sought to hold spending down to available revenue.

Rep. Simpson of Jefferson, who was a representative of the more liberal spending group at the conference, said he would like to see to say whether new taxes would be avoided by adoption of the new figure.

Much of the opposition to the bill was expressed by the Orlando Air Base units which will march in Sanford parade.

All Civil Air Patrol cadets are requested to meet at the meeting Wednesday night at the Armory.

Lieut. David Remley of the Civil Air Patrol announced today that the local group of the C.A.P., including cadets and senior members will participate in the parade. It is hoped to have 25 to 30 participating. These will form a unit prior to the parade at the Gulf Station on First Street in Sanford Avenue. Further plans for the parade will be formed at the meeting Wednesday night at the Armory.

Secretary Marshall invited all citizens to make Armed Forces Day (May 10), an occasion for taking note of the services and sacrifices of the Nation's Armed Forces. Other civilians and military officials of the base were designated to lead the demonstrations of each service toward the common goals of peace and freedom.

## Signs Korean Veterans' Aid Bill

AT THE WHITE HOUSE, President Truman signs into law an emergency measure, rushed through Congress in three hours, giving Korean veterans the same medical and hospital benefits as survivors of other wars. The legislation was introduced when it was revealed that David H. Arrellano (inset), 31, a Marine veteran of Korea was denied treatment at a Veterans Administration Hospital at Tucson, Arizona, because he had not served in a "recognized" war. (International Soundphoto)

## New Petitions Asking Special Bond Election For Hospital Circulated

Petitions asking the County Commission to call a special bond election for the purpose of building a hospital here have been put out again, and all freeholders are requested to sign in time so that the petitions can be given to the Commission at a special meeting tomorrow.

The corrected petitions, which were issued after the former petitions had been rejected by the County Commission for not stipulating the amount to be expended for purchase or building of the hospital, now state that the maximum amount to be expended will be \$900,000.

Chamber of Commerce Manager Ed Whiffery announced this morning that 18 petitions had been issued and that 350 signatures are required. If this number is reached by tomorrow, the Emergency Hospital Committee will submit the petitions to the County Commission at its adjourned meeting at 10:00 o'clock tomorrow morning, he said.

The petitions request the County Commission to call an election at the earliest possible date after first giving 30 days notice in the newspaper in this county, since it is recognized that inadequate hospital facilities exist in the county.

Petitions are available at the Chamber of Commerce, the Florida Power and Light Co., Yowell's, Roundell and Andersons, Touchstone's, Chase and Co., MacKey's, Druggists, the City Hall, the Court House, the Sanford Clinic, the Florida State Bank and the Sanford Atlantic National Bank.

After the County Commission had voted in favor of a Sunday ban on the sale of beer and wine, and prior to its adjournment Tuesday, Fred C. Greer of the San Onofre Club, and another tavern operator, requested that their places be excluded from the 12 o'clock closing hour set by the Commission.

This matter will be taken up by the Commission tomorrow, G. P. Herndon, county clerk, said today.

**SNAKE KILLED**  
Mrs. Charles H. Powell, local telephone operator, ran over a medium sized rattlesnake while driving near her home close to Catfish Spring in west Sanford this morning.

A neighbor shot and killed the snake, and Mrs. Powell brought it to town to show to friends. It was about five feet long and had five rattles. The snake was buried later.

**FAIRM BUREAU**  
Methods of increasing celery production will be the subject of talks by soil experts at a joint meeting of the Seminole County Farm Bureau and the Veterans Agricultural Training Class Tuesday evening at 7:30 o'clock at the High School Farm Building. John Pierson, leader of both groups, announced today. Dr. Philip J. Westgate, J. Filipe and Homer L. Osborne will be the speakers.

**DRUNKOMETER**  
William P. Renger, instructor for the Florida Police Academy, and a graduate of the Northern University Traffic Institute, today set up the City's recently purchased drunkometer in the City Hall in preparation for the instruction in its operation which will be started tomorrow morning at 8:00 o'clock.

## Allies Brace For Offensive As Reds Mass

### Choyang Bridgehead Is Expanded Despite Enormous UN Artillery Barrage

TOKYO, May 14.—(AP)—Chinese Red troops today expanded a threatening bridgehead across the Choyang River on the central Korean front despite the pounding of American guns.

These forces northeast of Chunchon may spearhead a second spring offensive by the 500,000-man Red army, expected in about ten days.

Elsewhere along the 100-mile front United Nations patrols probed no-man's-land with little opposition. However, two sharp clashes broke out on the western front.

An American tank force ran into a Chinese ambush and pulled back after a determined battle. The second prolonged fight began when an armored American outfit ambushed a Chinese patrol.

For the first time in the war U. N. forces are getting a small but steady trickle of Chinese deserters. AP correspondent John Handberg reported from this front. The deserters, often showing up with surrender leaflets, include some officers.

The Reds appeared to be avoiding strong contact while rushing fresh troops into buildup areas on the west and central fronts.

Had weather screened their movements Monday. AP correspondent George McArthur reported the Chinese deepened their penetration below the Choyang River despite a thundering American artillery barrage. There was little fighting between opposing infantrymen.

The bridgehead poses a flanking threat to Chunchon, key to rail and road networks, 46 miles northeast of Seoul. Strong enemy units were massing north of the river and between Kumhwa and Hwachon above the 38th Parallel.

Allied pilots hunting through the clouds reported Red steadily filtering southward. One U. S. F-80 Shooting Star crashed behind Communist lines. The 5th (Continued on Page Two)

## Contribution Of Mothers Is Cited For Tall Burglar Of Mather's Store

In a tribute to the mothers of this county, O. P. Herndon, past elected ruler of the Sanford Elk Lodge 1241, told members and visitors Sunday afternoon that the mothers of our land should be honored for their tremendous contributions to our success in every day life, in the great World Wars and in the present struggle.

"In all of the past conflicts, it is our mothers who have sacrificed and borne the most, he declared, 'experienced the most fear and sacrifice willingly to do what patriotism demanded of them.'

"We honor the mothers of Florida and our nation, and those of you who are tall, middle aged and young, he said, 'through the ages, the simple word mother has become a symbol of courage, honor, chastity, love, affection and patriotism. Mothers of our land, you who have taught us to keep faith in God, love our home and our country. It is you that have taught us by example to bear up in times of stress and struggle.'

Participating also in the program were R. P. Sharrock, exalted ruler; M. L. Larson, chaplain; and Charles Morrison, vocalist, who was accompanied by Harry Wester.

# Marshall Declares Adoption Of MacArthur Policies Would Hinder Eisenhower In Europe

## High Court Says Top Union Chiefs Must Sign Oath

### Disagreement Registered With Ruling By Labor Agency

WASHINGTON, May 14.—(AP)—The Supreme Court today decided the Taft-Hartley Act requires officers of "parent" labor federations such as the CIO and AFL to file non-Communist affidavits.

The court disagreed with a ruling by the National Labor Relations Board that the oath requirement applies only to union groups which take part in collective bargaining and are empowered to call strikes.

The high tribunal at the same time rejected an NLRB contention that an employer has no right to a court finding as to whether union officials have properly complied with the affidavit requirement. The board insisted its own decision on compliance is final.

Justice Jackson delivered the 6-2 decision. Justices Douglas and Frankfurter wrote dissenting opinions. Justice Black took no part.

The Taft-Hartley law says the board may not act on a complaint filed by a labor organization unless it is a "national or international labor organization of which it is an officer or constituent unit" have filed non-Communist oaths.

The U. S. Circuit Court in Richmond refused to enforce a board order issued on a complaint by the CIO Textile Workers Union of America. The Circuit Court said that at the time the board acted the officers of the CIO had not signed non-Communist oaths. (Continued on Page Two)

## Dr. Wagner Is Fired By Trustees As President Of Rollins College

WINNER PARK, May 14.—(AP)—Dr. Paul A. Wagner was fired as president of Rollins College here last night.

Wagner, who has been under fire since it was announced 23rd of last month that he was to be fired, was ousted by unanimous vote of 11 trustees meeting in New York Apr. 27. The announcement was delayed to give Wagner, the nation's youngest college president when he was given the job two years ago, a chance to resign.

High McKee, art director of the post-1945 central Florida college, was named acting president. McKee was born in Bremer, Va. He is the first president of Rollins whose ancestral roots are in the South.

McKee immediately announced the creation of two new posts. He named John Todtke, treasurer of the college, as acting president of the college and Dr. Alfred J. Hanna, history professor, executive assistant to the president.

Halsted W. Caldwell, a Winter Park trustee, made the announcement at a meeting of the board of trustees. McKee, who is a trustee, said that his resignation was effective June 1, 1951. He said his resignation was submitted to put a "left side" in the college's administration.

Dr. Wagner's removal was effective immediately, Caldwell said. McKee filed with the board the formal letter of resignation from the presidency. (Effective June 1, 1951.) He said his resignation was submitted to put a "left side" in the college's administration.

Dr. Wagner's removal was effective immediately, Caldwell said. McKee filed with the board the formal letter of resignation from the presidency. (Effective June 1, 1951.) He said his resignation was submitted to put a "left side" in the college's administration.

## Army Officer Says Guard Facilities Neglected Here

Only 67 Men Train In Troop With Normal Complement of 160

Sanford is losing the advantages of National Guard training for 97 persons and a payroll amounting to \$46,000 by failing to take full advantage of its local National Guard facilities. Maj. G. B. Lee of the United States Army, instructor for the 3rd Battalion of the 101st Airborne Division at the ROTC Club today in a program directed to the observance of Armed Forces Day.

"Perhaps you can afford to do without the payroll," Maj. Lee stated, "but you cannot do without the training."

He explained that Co. I now has four officers and 45 enlisted men with an annual payroll of \$25,000 a year. The authorized strength of the company is seven officers and 160 enlisted men. (Continued on Page Six)

## Thomas E. Wilson Dies At Age Of 58

Funeral services for Thomas E. Wilson, 58, who died at the local hospital Saturday, were held this afternoon at the First Methodist Church, with Rev. J. H. McKinley officiating. Burial will be in Evergreen Cemetery.

Mr. Wilson came to Sanford 35 years ago and had engaged in farming until his last illness. He was a member of the First Methodist Church.

## Secretary Of Defense Says All Military Leaders Are Behind Truman's Strategy

WASHINGTON, May 14.—(AP)—Secretary of Defense Marshall testified today he fully understood the adoption of General Douglas MacArthur's Korean war proposals would seriously affect General Dwight D. Eisenhower's European defense plans.

Winding up seven days of testimony on MacArthur's ouster, Marshall also said he believes Eisenhower supports President Truman's limited Korean war program.

Administration military leaders including General Matthew B. Ridgway in his understanding—presently solid front in support of the President's plan and in opposition to MacArthur proposals for blockade of China, bombing of Manchurian levees and use of Chinese Nationalist troops.

Mr. Arthur testified today that it was his understanding that Ridgway, his successor in command of the Far Eastern command, had similar views to his on how the Korean war should be conducted. He said he thought other military leaders there also agreed with him.

Senator Lyndon Johnson (D-Texas) asked Marshall if the adoption of the MacArthur proposals would require adjustments of Eisenhower's plans and would actually affect those plans.

"We fear that it might," Marshall replied.

When testifying today's session of the Joint Senate Armed Services and Foreign Relations Committee, Chairman Russell (D-Ga.) announced that General Omar Bradley, chairman of the Joint Chiefs of Staff, will be the witness tomorrow.

He said it was possible, however, that Marshall still be called back later for more testimony.

In today's testimony, Marshall again told the senators that Ridgway has made "striking impressions" recently in her military garrisons in the Korean area.

He also emphasized repeatedly, as he has before, that he fears adoption of the MacArthur program might bring Russia into the Korean fighting and extend it to a world wide conflict.

Marshall contended, too, that there were serious doubts that MacArthur's program would lead to quick defeat of the Chinese Communists.

Senator Johnson who raised the question of the effect on Eisenhower's plans of MacArthur's proposals, (Continued on Page Two)

## Sanford Fruit Co. Joins Cooperative; Tonnage Increases

The Sanford Fruit Co. headed by J. T. ... has become an integral part of the rapidly expanding Escogate Growers' and Concentrate Co-Operatives, Forest City, Claude McShon, vice-president and general manager, announced today.

This brought to 31 the number of new members joining with the Escogate interests during the past few weeks.

In making the announcement, Mr. McShon pointed out that the entrance of Mr. Tooke and his company into the co-operative added a "substantial tonnage" of the fast growing resources of the organization.

The Sanford Fruit Co. located at the Sanford State Farmers Market, has shown rapid growth during the past few years, and Mr. Tooke has become known throughout the state as one of the most successful of the younger citrus operators. In addition to owning extensive grove property, Mr. Tooke has heavy real estate investments in Daytona Beach.

Mr. and Mrs. Tooke pioneered the present home building movement on the shore of Lake Monroe in the Mayfair Section by building a beautiful \$35,000 concrete block residence.

TODAY'S BIBLE VERSE

But a casual change of direction is not enough. We must be purged and scourged of sin, and we must make right the wrong we have done, if it is possible...

The Rt. Rev. Frederick L. Barry, bishop of the Albany, N. Y. Episcopal Diocese, says that bingo and other games of chance should be eliminated from the church program...

The United States Lines will launch its new superliner "the United States" next month as the second largest American flag line in the world.

Donald D. Zimmerman, White House aide, admits he accepted the hospitality of a big Miami Beach hotel which had previously secured a million dollar loan from the RFC.

There is nothing quite so refreshing in these days of crime and corruption, probes and controversies, wars and rumors of wars as the enthusiasm of youth.

The House Monopoly Committee has recommended that the financial strength of the U. S. government be brought to bear in the development of new sources of newsprint.

We have frequently seen people get mad after being asked three or four questions. How would you like to be General Marshall on the witness stand for five straight days with questions being fired at you from several senators who are trained lawyers and who can ask questions but do not have to answer any?

LONDON cops have nabbed a gent who for the last two years has made a specialty of stealing nothing but wash cloths, then hoarding them. What, no soap?

The Joint Chiefs

The United States is fortunate in having at this time in charge of its armed forces men of the caliber of those who comprise the Joint Chiefs of Staff.

Testifying before the Senate Armed Service Committee the other day, Secretary of Defense Marshall outlined the Joint Chiefs of Staff as follows:

"General Omar Bradley (JCS chairman) has had considerable fighting experience, and he has commanded the largest force of ground troops in history, ours or anybody else's in the field; so he is not inexperienced; aside from being a very levelheaded man, and one of great honesty of purpose.

"General Hoyt Vandenberg has commanded, I think, the largest pursuit or battle formation of planes, in contrast with bombers, of any man in history. That is a considerable experience.

"Admiral Forrest Sherman has commanded ships in the Pacific. He had one submarine under him, a carrier. He has been Admiral Chester Nimitz's deputy chief of staff in the Pacific campaign. He is not, therefore, detached in his view of the Pacific. He has been in command of the Mediterranean fleet, and knows the Mediterranean, and the principal people there from the Middle East to Gibraltar, and Spain.

"General J. Lawton Collins commanded a division which terminated the fighting in Guadalcanal. I believe he got out of a sick bed to redeem the temporary reverse we were suffering in the Russell Islands. He commanded a corps in landing on Utah Beach. He captured Cherbourg in the first large capture after Africa of Germans.

"He conducted a classic battle, which received almost no publicity in this country in destroying large portions of the two armies remaining of the Germans at Mainz in which I think his captures alone were about 23,000, and the destruction was considerably beyond that.

"He captured Aachen, he captured Dusseldorf, Cologne, across the Rhine, when he arrived at the Elbe. There is a great deal of experience in that.

"So, then these men analyze these various questions, all of them, and talk out their various points of view, and bring them to me and to the President, I think it is a very formidable general opinion on affairs in the world."

Efficient And Unknown

Historians always want more. They are not satisfied with the wealth of new information offered by the recently published letters of Theodore Roosevelt, of which the first two volumes have just appeared.

Senator Lodge and General Wood are remembered by many, but Cortelyou, a shadowy figure in his days of public life, is probably now almost unknown. Yet he deserves to be recalled as the supreme example of a high political figure who began as a clerk and rose to distinction simply through efficiency.

The competent way in which he handled his work attracted Cleveland's notice, so that he called him to the attention of his successor, President McKinley. The latter made him his assistant private secretary, soon promoting him to the full position. Theodore Roosevelt kept him in that job, and finally drafted him for cabinet duty.

About that time he began to be mentioned for the presidency. Roosevelt, however, was committed to Taft. The party politicians opposed to Taft wanted one of their own, and not an official, no matter how competent, who was practically unknown to all the voters.

Newspaper Problems

Major and special problems confronting the Nation's newspapers as results of inflation and rising costs are of interest to readers as well as of concern of the publisher.

America's free press is one of the major bulwarks of our democratic system and essential to the liberties of the people. No people has freedom without a free press.

The freedom of the American press is not in jeopardy at this time, but "the difficulty of publishing a newspaper has never been greater," to quote the words of Edwin S. Friendly, president of the American Newspaper Publishers Association.

For newspapers inflation poses peculiar and special problems, as explained by Mr. Friendly, who is vice president of the New York World-Telegram & Sun. He said "Newspapers differ from commodities in that the price for commodities can be raised to meet every increased cost. Newspapers have always regarded themselves in the light of a public service, a public trust, and the price for the newspaper must always be such as to make it available to every man and woman.

"On the other hand, there is no 'privilege' when newspapers have met their costs. Newspaper wages are among the highest paid today in business or industry. The materials entering into the production of the newspaper are becoming increasingly costly—and in some cases, because of the defense program, increasingly difficult to procure at any price."

YOU'RE TELLING ME!

By WILLIAM BITT, Central Press Writer

LONDON cops have nabbed a gent who for the last two years has made a specialty of stealing nothing but wash cloths, then hoarding them. What, no soap?

For the latter part of April the zodiacal sign is Taurus, the Bull, when everyone knows it should be an unshakable!

The number seven has come to be considered by an occultist as a very good number. Maybe it was a good haul!

A new trend in the fashion world is to dress in the colors of the rainbow. This was the great young thing that wondered why the department store floorwalker glared when she called him to direct her to the color counter.

Marshall Hearing

(Continued from Page One) Marshall's proposals were adopted also asked if it was not true that all military commanders think that the programs and policies that we are now carrying out in Korea is the most prudent and wise policy that this government could carry out under the circumstances?

Marshall said: "That is correct, sir."

The Senate already has approved the assignments of six American divisions to the North Atlantic defense force headed by Eisenhower.

Eisenhower himself has been silent in the great furor stirred up by President Truman's removal of MacArthur, except to say that he hoped partisanship would not crop up.

Johnson said that before Eisenhower went to Europe he "undoubtedly was aware of what our policy was and what our program was and his program and what I want to ask you is: 'Has he at any time given you any indication that he thinks the course we are following out here is not a wise and prudent one?'"

Marshall said: "He has given me no such indication."

There have been reports that Eisenhower may be asked to return to testify in the inquiry over MacArthur's removal as Pacific commander.

Marshall, in reply to a question by Senator Morse (R-Ore), said he did not recall any offer from Generalissimo Chiang Kai-Shek to use his Chinese Nationalist troops to fight on the mainland of China without assistance from American troops.

MacArthur has urged, as part of his win-the-war program, that Chiang's Nationalist troops be turned loose and given "logistical (supply and transport) support by this country. But he has repeatedly said he would not use a single American soldier on the Chinese mainland.

Chiang's forces are now on the island of Formosa. They took refuge there when the Chinese Nationalist government was driven from the mainland by the Communists.

During Johnson's questioning about the attitude of military officials in the Pacific theater, Marshall said at one point that Lt. General George E. Stratemeyer "made statements in an interview advocating I believe the bombing of Manchuria."

Stratemeyer was MacArthur's air commander.

Johnson asked: "Have you seen any official recommendation of either General Van Fleet, General Stratemeyer or Admiral Joy in that regard?"

Marshall: "I have seen none."

Lt. General James A. Van Fleet now commands the ground forces in Korea, formerly led by the late Admiral Joy, is the naval commander.

Russell Condemns

(Continued from Page One) ed to be classified to be released," he added:

"I know that there is a serious matter, personally I would like to see us find who released that."

"As far as I know, I haven't heard of one single solitary thing that the Defense Department or anybody else has done to find out where that leak came from, not only find out where it came from, but take steps to punish the people that gave it out."

"I reiterate that I condemn rather than condone any of the releases to which the Senator refers or any other releases that are made."

High Court

(Continued from Page One) Union, however, had signed.

Late in the CIO officials signed non-Communist affidavits as did AFL officers.

In other actions today the high tribunal:

1. Refused for a second time to review the cases of seven high officials sentenced to terms in Germany for World War II atrocities. The refusal removes the last pending legal obstacle against the executions, originally set for last February.

2. Upheld 7-5 the right of states to regulate the sale of natural gas piped across their borders if it is to be sold in competition with an established utility. The high tribunal ruled specifically that Panhandle Eastern Pipe Line Company must get approval of the Michigan Public Utilities Commission before it sells natural gas to the Ford plant at Dearborn, Mich.

3. Denied a hearing to John F. Marston, one-time White House intimate and prominent figure in the Senate "five percent" investigation, sentenced to eight months to two years in prison for lying to senators during the inquiry.

4. Dismissed an appeal by the Pioneer News Service, Inc. of St. Louis, against an order shutting off its telephone service because it was used in horse race betting. Pioneer itself claims that the appeal be dismissed but gave no reason.

It was not immediately clear how far-reaching today's Tax-Friday Act decision might be since efforts of both major labor organizations have now complied with the oath requirement.

Lower courts previously had disagreed on the meaning of the affidavit provision of the act.

Cucumber Prices Skyrocket From Near Record Low

WINTER HAVEN, May 15—(Special)—Cucumbers averaged \$2.01 per bushel field crate last week as compared to 86c the previous week with a volume increase of nearly 8,000 bushels on the Wauchula State Farmers Market.

Tomatoes also jumped in volume and price with better than 3,000 crates averaging \$3.59," according to weekend reports on the State Farmers Markets.

"The slight upturn in price on cucumbers can be attributed to a number of things," according to William L. Wilson, Director of State Markets. "For one thing as Nathan Mayo, Commissioner of Agriculture, suggested, growers, State and independent markets got together and special appeals were sent out by this office to buying channels urging greater use of cucumbers. The headquarters of the Armed Forces Market Center in Chicago, Illinois, and those Market Centers located throughout the State were contacted urging menu changes to include greater use of cucumbers. Assurance of their cooperation were gratifying. The Atlanta office of the Food Distribution Branch, Production and Marketing Administration, U. S. D. A., used its facilities and through newspapers, publications, radio, individual advertisers played up the big supply of cucumbers throughout the country particularly in the nine states served by this office. This is a splendid service to growers and the generous response to their appeals certainly proved helpful."

"The Pompano State Market supply is decreasing with only 122 crates moving last week. Commodities totaling 140,712 units brought gross returns of \$244,820.55. Peppers and eggplant lead in volume with fair supplies of nine other varieties of vegetables.

"Business was reported on the wane at the Sanford State Farmers Market with the market on the heavy bean volume most discouraging. This also applies to cabbage and potatoes, with the celery situation rather demoralized, though lighter shipments may offer some relief. Cucumbers showed an upward trend in spite of the heavy movement.

"Peppers and potatoes, however, though there is a heavy supply statewide. A total of 10,287 units grossed \$143,794.00.

"The corn and celery movement is now expected to extend through the end of the month. Market, though movement of beans, peppers and cabbage is difficult to predict.

"The herculean task of switching to auction sale of vegetables in the winter of this year, in preparation of the season was undertaken at growers insistence on the Plant City State Market last week with growers realizing 16c per bushel. Beans continued heavy, 12,198 bushels averaging \$4.50. Peppers better than doubled the previous week's volume, a total of 15,003 bushels brought \$190 to \$4.10 last week. Eighteen varieties of vegetables in good supply were available.

"Movement on the Fort Myers State Farmers Market has slowed down on substantially that auction sale of cucumbers, 2,000 crates of cucumbers moved out during the past week through packing houses at an average of 75c per bushel.

"State Farmers Markets continue at States with a supply of strawberries, beans and potatoes, at Palatka with potatoes and cabbage; with increasing volume of melons, pole beans and squash at Palmetto with the Fort Myers State Farmers Market reports a heavy supply of excellent quality tomatoes, a lighter supply of heat quality peppers and good quality cucumbers with the market steady on cucumbers and string beans on pepper.

"The exchange in the committee was touched off by Russell's assertion at the outset of today's hearing that he has a "deep sense of uneasiness" about possible security leaks.

Good Vision Prevents Accidents

By W. V. Bittling, Touchton Drug Co.

Faulty vision endangers your life in ways you are not aware of, as for instance, when you must walk down a flight of stairs, or cross a busy street.

The slightest misjudgment of distance can cause an accident, perhaps serious, or even fatal. After many years of dependable eyesight it is hard to realize that it is no longer reliable. However such is the case as we get older.

A check of your general health is the first step in correcting any physical fitness or eyesight defects.

For a complete eye examination and the use of corrective lenses, contact your nearest optician.

It is a good idea to have a series of eye examinations at intervals of six months to insure that your eyes are in the best possible condition.

"The Politician" and The President

"The Politician" is the name of the above engraving by the famous English satirist, Hogarth. Since it was sketched around 1750, Harry S. Truman couldn't have been its model, though there's a startling resemblance between the Hogarth print and the Truman photograph (right). According to PEOPLE TODAY Magazine, which displays the Hogarth drawing on the inside cover of its current issue, in 1797 John Ireland of London commented as follows on Hogarth's famed etching: "... it is said to be intended for a Mr. Tison, a member in the Strand who paid more attention to the affairs of Europe than to those of his own shop... (he is) holding a candle in his right hand and eagerly inspecting the Gazetteer of the day. Deeply interested in the intelligence it contains concerning the famous that rage on the Continent, he is totally insensible of domestic danger; and regardless of a flame which ascended to his hat."

A census taken by William the Conqueror in 1086 was recorded in the "Domesday Book" and was so unpopular that census takers were not again taken until comparatively recent times.

The average U. S. farm was mortgaged to about 20 per cent of its value before World War II, but averaged only eight and one-half per cent of its value in mortgage in 1950.

UN Committee

(Continued from Page One) constantly recommends that other states do what "we have been doing." He said the British changed their minds because of the continued unwillingness of the Peiping regime to make any moves toward a cease-fire or peaceful settlement.

Selim Sarper, Turkey, chairman of the committee, said his country supported the resolution and called for further steps.

Korean War

(Continued from Page One) Air Force said the pilot was killed.

Airmen reported more than two divisions, roughly 15,000 men, were concentrating north of Chunchon.

"The capability for a Red attack seems to be increasing daily" in this sector, correspondent McArthur reported.

The other main buildup was on the west coast sector, north and northeast of Seoul.

Lt. General James A. Van Fleet, U. N. ground commander, inspected front line positions in that sector Monday. He found his men quietly confident they could stop the Communist offensive when it comes.

An 8th Army spokesman said the Reds could strike again any time they wanted. The consensus was that they would in about ten days.

There were hints the new onslaught would be backed by greater fire power—and possibly planes.

A new air field was discovered at P'yong, 25 miles northeast of P'yongyan, the Red Korean capital. B-29 Superforts tore it up with 133 tons of bombs.

Lt. General Barle E. Partridge, 5th Air Force commander, said the Reds "could build up (an air force) fairly rapidly... we are keeping a watchful eye on them."

A Red patrol surrounded and overran on the western front was equipped with an unusual number of automatic weapons. An correspondent John Randolph reported.

The first Chinese spring offensive was by infantry alone. It cost the Reds 75,000 casualties by U. S. 8th Army estimates. That drive began Apr. 22 and died out in ten days.

# Big Carl Thies Shuts Out Orlando Senators 6 To 0

### Sanford Giants Split With Red Hats Over Weekend As Schultz Pitches 8-Hitter

The Sanford Giants gave notice that they were sick of the cellar over the weekend winning two out of three games as Lefty Jerry Schultz and big Carl Thies turned in two of the finest pitching performances of the year.

Thies, rounding into shape and bearing out early season promise of being one of the Giants' best pitchers, hauled the first shutout of the year in defeating the Orlando Senators 6 to 0 yesterday while getting air tight support from his mates.

Tim Dolan and Max Pfeiffer, with three hits apiece, led the Sanford attack followed closely by Manager Richie Klaus and Don Bailey with two each.

On the previous night portlander Jerry Schultz, pitching more cautiously than in earlier starts, set down the potent DeLand Red Hats on eight hits and four runs three of which came on an incredible play by his laddered teammates.

Brasseke hit a slow roller to short with Mostransky on third and Petraglia on second. Mostransky started for home, changed his mind and headed back to third as Petraglia charged into third at the same time. Both stood on the bag as Bailey came up with the ball. Petraglia thereupon started back to second forcing a throw from Bailey which sailed into right field. Mostransky scored and Petraglia went to third. In an attempt to get Brasseke went into left field scoring Petraglia and sending Brasseke to third.

In spite of sloppy fielding the Giants came back in the eighth with two runs to break a 4-1 tie and win the ball game.

The Giants' only loss over the weekend came at the hands of DeLand's Frank Rader 5-2.

Packers 5; G-Men 3. GAINESVILLE, May 14—(Special)—The Leaning Packers were out-bid, 12-10, here yesterday but took a 5-3 Florida State League victory from the Gainesville G-Men.

Charley Brewster, G-Man manager, blooped a double into right field off Winning Pitcher Sergio Martinez to stretch his hitting slash to 27 straight games. Packer Manager Mickey Burnett latted in two runs, one with a home run, to lead the attack on 24 Sherman who suffered his first loss after two victories.

DeLand 7; Red Hats 3. DELAND, May 14—(Special)—Daylon Beach, defeated DeLand, 7-3, here last night in a Florida State League game.

PALATKA, May 14—(Special)—A single by Leo Scruggs and doubles by Moose Saltera and Wiley Nash scored two runs for the Cocoa Indians in a ninth inning rally here last night, but the effort fell short and the Palatka Aces annexed the game, 5-3.

Tom Poholsky, rookie pitcher for the St. Louis Cardinals, studies engineering at the University of Detroit during the winter.

## Maureen Connolly And Art Larsen Win In California Tennis Tourney

LOS ANGELES, May 14—(Special)—When the National Women's tennis rankings are posted this winter, chances are strong that a 16-year-old miss from San Diego will be right up there with the Du Ponts, Harits and Brougals.

The youngest in Maureen Connolly, a chunky blonde who has swept through the California tournaments this year like a prairie fire, she rang up number five yesterday, leading Nancy Chaffee on the 2-1 tally, the fifth annual Southern California championships.

Maureen, who could be classified as cute rather than pretty, is the National Junior Champion. She was 10th in last year's overall rankings. Miss Chaffee was sixth.

Surprising for a girl her age, Maureen performs with all the cool deliberation of the great Helen Wills, whose characteristics she resembles at times. As she cuts down her opponents, her face betrays no more emotion than that of a riverboat gambler.

Miss Chaffee, the national indoor champ from Ventura, Calif., was chased from one side of the court to the other. Her returns began slipping out of bounds; her serves weakened. Maureen simply wore her down and won, 3-6, 6-3, 6-4.

The tournament, which provided Maureen's most important victory this year, also turned up other items of interest, notably the spectacle of Ted Schroeder, sumo-bum to Art Larsen, the national singles slug.

Schroeder, the veteran Davis Cupper from La Crescenta, Calif., has assumed the status of week-end tennis player. Against Larsen, it showed rather plainly.

When the San Leandro south-paw turned on the steam, Schroeder wilted to the tune of 6-8, 7-5, 7-6, 6-3. It was quite a contrast to the Pacific Southwest Championships here last autumn in which Schroeder best Larsen. That one, you may recall, ended in a vigorous rhabut between the two.

In doubles, Schroeder teamed with Earl Cochell of the University of Southern California to defeat Heat Flam of Los Angeles and Larsen, 6-3, 3-6, 4-0, 6-4, 6-4.

Miss Connolly didn't make the women's doubles final. Mrs. Pat Todd, La Jolla, Calif., and Dorothy Bundy Cheney Santa Monica, Calif., scored a 7-5, 7-9, 6-4 triumph over Barbara Kimbrell and Julia Sampson of Los Angeles.

Off their victories yesterday, Maureen and Larsen are entitled to a national ranking. From the Southern California Tennis Association for their tour through the eastern tournaments.

## Gator Track Stars Set New Records In Southeastern

GAINESVILLE, May 14—(Special)—New school track records were set by high jumper J. (Papa) Hall and pole vaulter Leroy Poucher this year as Coach Percy Beard's Gator cindermen turned in a seasonal record of four wins and no defeats.

Dash man Scotty Peck, of Jacksonville, and distance runner Bill Wood, of West Palm Beach, led the individual scoring with 36 points each as 25 performers contributed to Florida's total points. Peck picked up seven first places and one third, while Wood collected six firsts and two seconds.

The two record setters, Hall and Poucher, were the only men to go through the race without a defeat. By high jumping six feet, eight and one-eighth inches against Miami, Hall erased the school record of six feet, six and one-half inches set by Hank Gidding in 1947 against Miami. Poucher's vault of 13 feet, 10 inches against Georgia bettered his own school record of 13 feet, 3 1/2 inches set in 1940. Hall is from Tallahassee and Poucher from St. Petersburg.

In running, jumping and throwing to an undefeated season, the Gators defeated Georgia Tech (73 to 53), Georgia (88 to 38), Auburn (67 to 59) and Miami (87 to 39).

They are working now to enter the Southeastern Conference meet at Birmingham May 18th and 19th.

Individual points for the season were scored as follows: Peck and Wood (86); Jack Jones (84), Ken Atkins (82), Charlie Jones (81), Leroy Poucher and J. Hall (50), Doug Scott (18), Paul Boswell (15), Don Hester (12), Carroll McDonald and Joe Jinks (11), Curtis King and Bill Cole (9), John Wilson (8), Bob Horton (6), Ken Busing, Byron Brown, Bill McGill and Charles McPhillomy (5), Hal Griffin and Bob Johnson (4), Bill Walton and Jack Wilcox (3), Burton Bodt (2) and

## Sanford Roster Is Cut To Fifteen Men

The Sanford Giants acquired a third baseman and pitcher over the weekend which cutting their roster to the required 15-player limit. Third baseman Leonard McBride and pitcher Terry Porter, a lefthander, joined the squad and Bob Scholten, Harry Thacker, Don Wilson and Bill Weidinger were sold. Pitchers Bob Spranger and Ray Scheidt have been placed on the disabled list. Players on the Giants active roster are McBride, Porter, Bob Callahan, Don DeBartreize, Tim Dolan, Gene Kistler, Richie Klaus, Al Neville, Joe Parise, Fred Petty, Max Pfeiffer, Jerry Schultz, Frank Thies, Carl Thies and Don Bailey.

The "loot" was part of a last minute buying spree by a Russian U.N. delegation and Soviet Embassy staff before they sailed for home. Struggling with their own trunk, two of the Russians attempt to get it aboard the ship as sailing time neared. The longshoremen refused to handle Red cargo, despite protestations of a consular official. (International)

## Red Sox Defeat Lions' All-Stars In Playoff Game

The Red Sox defeated the Lions' Club All-Stars 22-18 in a championship playoff Friday night at the Lakeland baseball diamond.

The Red Sox took an 11 to 1 lead in the first inning, but weakened late in the game as the All-Stars came back with a rush. Red Sox lineup: All-Star lineup: English, c; Bowers, p; Scott, 3b; Gracey, 1b; Cherry, 2b; Hamer, ss; Mathews, lf; Lundquist, cf; Warner, of; Vichley, cason; Daitch, Walker; Harbert, Dorey; W. Jhi, Moye.

## Peaches Lose 7th Straight Contest; Jacksonville Wins

By ASSOCIATED PRESS. Just how long can a good baseball team continue losing? The Macon Peaches may supply that answer soon.

The Peaches, champs of the South Atlantic League in 1940 and 1950 and the league leading team during the early part of this season, lost their seventh game in a row yesterday 6-5 in Charleston. Three of the seven successive losses have been by one run.

The top three teams in standings won to put more distance between themselves and their old tormentors, the tied-for-fourth Peaches. Charleston won the Macon game; Savannah whipped Columbus 5-4, and Jacksonville shutout Montgomery 10-0. Augusta failed to pull itself out of the mire with Macon by losing to last place Columbia 5-3.

(left) the sixth it looked like Macon's days of misery might end but in the sixth Charleston got three runs and added another in the seventh to win. Milt Graff homered for Charleston. Dick Smith's single, Bill Brown's sacrifice, John Powers' infield out and Mel Brooker's single produced the winning run.

Columbus sent Jim Bell to the showers in the seventh and took a 4-3 lead but Savannah came back to tie the score in the ninth. An unearned run gave Savannah the victory.

The Jacksonville - Montgomery game was just as one-sided as the Peaches' games. Jim pitcher Chuck Foster gave the Gators only three hits while he got 14-hit backing to win Jacksonville's fifth game in six tries. Bob Boring hit a grand slam homer in the fourth.

Most of Columbia's punch came on doubles by outfielder Ed Wolan and infielder Jim Reggie. Augusta jammed the bases in the eighth but a Columbia double play finished off the threat.

Chocolate is made from the cacao bean.

**Straight from the Horse's Mouth**  
By ED HARPER

In the past seven months this column has often chronicled the lethargic outlook of Sanford toward sports in general and toward the athletic development of its youth in particular.

Last week on Thursday and Friday night two hard-working civic clubs gave a heartening example of what can be done with a little effort—and a little optimism.

For the past six weeks these two clubs—the Rotary and the Lions—have devoted All-Star teams played the prominent winners in each league, the sports renaissance in Seminole County would be on the way.

The Rotary Club's program was sparked by President Orville Touchton and Hobby Newman whose team, the Giants, won the championship. But all managers, John Pope, Jim Higgins, Benck Perkins, Sonny Powell, F. D. Scott, George Stine and Bob Cornell, deserve a vote of thanks from the community for the intangible but immeasurable benefit programs like this have on the youngsters.

For the Lions President Harry Robinson and Jack Morrison put in many hours of time and effort organizing the league and keeping it going assisted by Joe Hester, M. MacNeill, J. Stemper, C. Carlton, Clyde Ramsey, and H. Fulda.

Both championship games were played with all the paraphernalia of big league baseball—special umpires, lights and rules.

The obvious excitement and satisfaction the youngsters got from the games as well as the healthy recreation provided are reward enough for the clubs, but the benefits which accrue to the community are concrete and lasting—in health and in children imbued with the inborn confidence and sportsmanship which clean, hard exercise provides.

While it would be difficult to overestimate the importance of the Rotary and Lions contribution, the hard fact remains that no such recreational opportunities exist in basketball and football.

Both sports are ideal for youngsters to play in the mild Florida winters and give the same healthy outdoor exercise which is indispensable to growing children.

What about a program parallel to the Rotary and Lions baseball leagues in these two sports?

If one group would take upon itself the task of running a junior football league and another would sponsor a similar league for basketball, the sports renaissance in Seminole County would be on the way.

Any one of the Rotary or Lions club members who participated in their program will testify that the time and effort expended are well repaid in personal satisfaction at the results.

This column tentatively suggests that the Jaycees and the Kiwanis Clubs take under consideration a suggestion to put on such programs.

Facilities exist for football. Those for basketball could be provided without any great expense or existing ones at the Junior High School and Seminole High could be utilized.

Until such a program as this is started Sanford might just as well resign itself to a continued string of dismal defeats in football and basketball for in each of

## Florida Southern Crew Champions To Compete In Dad Vail Regatta

LAKELAND, May 14—(Special)—Two state champion rowing crews from Florida Southern College embarked for northern climes yesterday morning to enter the Dad Vail regatta to be held at Boston, Mass. on Saturday, May 19, college officials have announced.

The Moccasin armmen, who now hold the 1951 Florida rowing title for both varsity and junior varsity crews, will face eight other colleges in the annual classic. This year the races will be run on the Charles River basin prior to the opening of the American Henley regatta in the afternoon.

Opposing Southern for the small college title will be crews from Washington and Lee, Lexington, Va.; LaSalle College, Philadelphia, Pa.; Marietta College, Marietta, Ohio; the American International College, Springfield, Mass.; Brown University, Providence, R.I.; Amherst College, Amherst, Mass.; and Dartmouth College, Hanover, N. H. The Rollins College Tars from Winter Park, oldest crew in Florida college rowing circles, will be the only other Florida entry in the Dad Vail.

The itinerary for the trip will give Southern ample opportunity to prepare for the highly competitive slate. Arriving in Philadelphia on Tuesday morning, the crews will hold practice sessions prior to a race with LaSalle in the afternoon. On Wednesday morning they will leave for Moccasin, Conn. where they will train at Ted Hilton's Vacation Hideaway on the Salmon River. Thursday morning they will continue to Boston for final workouts along the mile, 536 yard course to be used in the May 19 classic.

Coach Roy Couch has announced that the Mocs will use the same lay back power stroke and lineup that defeated the University of Tampa and Rollins in the state championship regatta last week. If the crews make a good show-

ing in the race Saturday morning, Couch explained, they may enter the American Henley in the afternoon.

The 1951 season has given the Moccasin six over four of the crews they must defeat to bring the Dad Vail crown back to the Lakeland campus. They hold victories over Marietta, Dartmouth, the American International College, and Rollins. The Mocs lost a race to Washington and Lee here on April 7.

The lineup of the varsity crew (from stroke to bow) will be as follows: Deacon Allen, Holywood; Ed. Waters, captain, Rockwell Park, N. J.; John Warr, Baldwin, N. Y.; Jan Bloemport, Babylon, N. Y.; and Bud Borden, Spring Lake, N. J. Paul Healy, New York City, is the coxswain.

In the junior varsity shell (from stroke to bow) will be: Larry Krackowsky, New Britain, Conn.; Buster Thoennesson, St. Petersburg; Ed Chocomaute, Jacksonville Beach; G. Frier, Livingston, N. Y.; Gary Farrar, St. Petersburg; Martin Smith, Freeport, N. Y.; and Larry Leina, New York City. Carl Schuler, coxswain, will call the boat.

Accompanying the crews will be: Ted Hilton, Jr., junior varsity manager, and Bill Terry, varsity manager.

He's not very big, but Billy Maxwell was the man everybody looked up to at the Southern Intercollegiate Golf Tournament.

The small, wiry North Texas State College golfer set two records before he walked off with the championship Saturday. His first round 65 was seven-under par and two strokes under the old record. His 73-hole total of 278 was 10 strokes under par and two under the previous low.

Runner-up was Georgia's Griffin Moody, whose even-par 288 earned him the Southeastern Conference championship.

Buster Reed took third place with a 291, and Joe Conrad and L. M. Crannell, Jr., tied for fourth at 293. All are North Texas State.

Dan Stokes of Florida and Wilkins Kirby of Georgia tied for second in the SEC race, which is held along with the Southern.

Maxwell Breaks 2 Southern Records With Score Of 278

### Power Company To Present Service Pins To Employees

Three local employees who have served a total of 50 years will be presented service pins this month by Florida Power & Light Company, H. H. Coleman, division manager, announced today.

Leading the list with a quarter-century of service to his credit is Jesse Winingham, of DeBarry, employed as a water tender at the utility's big generating plant on Lake Monroe.

Wingham began his long career at the power company's plant at Lake City in 1926. He later worked at the company's Palmetto plant, then again at Lake City and for a period at Perry before coming here in July 1948.

Following Florida Power & Light Company custom, it will give Winingham a service pin set with a diamond, in recognition of 25 years.

A fifteen-year service pin will go to Miss Margaret M. Wright, customer service clerk in the local office. Miss Wright's record is a unique one in that she began work here in May, 1936, and has remained here continuously. A member of the First Presbyterian Church, she has a wide circle of friends in this area.

Bill Tyre, residing at 2419 Melonville Avenue, Sanford, will receive a ten-year service pin. One of the plant staff here, Tyre is well known for his interest and activity in Masonic groups. He is a member of all York Rite bodies and Morocco Temple in Jacksonville. He is also a member of the First Methodist Church and the Sanford Jaycees. He is a Navy veteran.

Manager Coleman will present the service pins at a meeting of company members scheduled for later in the month.

### Rollins College

(Continued From Page One)

financial condition of the College. Said Tiedtke, "The reason originally given for the faculty cut was the financial condition of the college, and was based on an expected drop of almost one-third in the enrollment of the college, because of the anticipated drop in the registration of male students. Expectation of such a drastic drop in enrollment does not at this time seem justified."

"The Trustees wish to make a matter of public record the fact that the College expects to complete this year's operations with an operating surplus of over \$134,000. The College will have a cash surplus, after debt retirement and capital expenditures, of \$67,000 which could be used next year if needed. Rollins' assets will have increased over a million dollars in the three-year period ending next month."

"At the conference, Pres. McKean stated that he concurred in the views expressed by the Trustees at the meeting in New York that the dismissal notices to the faculty should be rescinded as soon as possible. He stated that the Rollins faculty would remain substantially unchanged after the reinstatement and the faculty would continue the tradition of high-level liberal education for which Rollins has achieved national renown."

"President McKean outlined his concept of education at the conference, and said, 'I should like Rollins students to live and learn in an atmosphere so lively with devotion to the ideal of free mind and the system of free enterprise that they will be constantly aggressive in combatting the poison of totalitarianism and captive mind thinking, with which we are engaged in a death struggle today. I want education to open the door to good citizenship, appreciation of the principles of democratic life in a free society, and the determination to preserve these elements of our American heritage. Education should strengthen the force of freedom in today's world.'

"One of the first actions taken by the new Rollins President was announced at the conference. McKean created two new executive posts for the college administration—Executive Assistant to the President—which are to be filled by the college's distinguished expert on American history, Alfred J. Hanna, Weddell Professor of American History; and John M. Tiedtke, Treasurer and Business Manager of the College.

"Tiedtke, who also holds the position of Assistant Professor of Economics, and is the head of his own private business, also announced his intention to serve without remuneration by contributing his salary to the College.

"Both men will continue to serve in their present positions in addition to filling their new posts."

"Dr. Hanna is a veteran of 34 years as a member of the faculty and staff of Rollins. He is widely known as the closest academic associate of the late Dr. Hamilton Holt, who served as President of Rollins for 24 years and brought the college, the oldest institution of higher education in the state of Florida, national attention as a pioneer in education.

"Dr. Hanna, himself an alumnus of Rollins, explained that he was assuming his new position of Executive Assistant to the President only because he wished to serve Rollins administratively in a time of need. He said, 'As an educator, I have had a desire to leave active teaching and devote my attention to administrative responsibilities in education.'

"In fact, at one point in my career 10 years ago it was my honor to have received an invitation to become president of another educational institution in Florida. I declined the honor, indicating that

"The Trustees wish to make a matter of public record the fact that the College expects to complete this year's operations with an operating surplus of over \$134,000. McKean stated that he concurred in the views expressed by the Trustees at the meeting in New York that the dismissal notices to the faculty should be rescinded as soon as possible. He stated that the Rollins faculty would remain substantially unchanged after the reinstatement and the faculty would continue the tradition of high-level liberal education for which Rollins has achieved national renown."

"President McKean outlined his concept of education at the conference, and said, 'I should like Rollins students to live and learn in an atmosphere so lively with devotion to the ideal of free mind and the system of free enterprise that they will be constantly aggressive in combatting the poison of totalitarianism and captive mind thinking, with which we are engaged in a death struggle today. I want education to open the door to good citizenship, appreciation of the principles of democratic life in a free society, and the determination to preserve these elements of our American heritage. Education should strengthen the force of freedom in today's world.'

"One of the first actions taken by the new Rollins President was announced at the conference. McKean created two new executive posts for the college administration—Executive Assistant to the President—which are to be filled by the college's distinguished expert on American history, Alfred J. Hanna, Weddell Professor of American History; and John M. Tiedtke, Treasurer and Business Manager of the College.

"Tiedtke, who also holds the position of Assistant Professor of Economics, and is the head of his own private business, also announced his intention to serve without remuneration by contributing his salary to the College.

"Both men will continue to serve in their present positions in addition to filling their new posts."

"Dr. Hanna is a veteran of 34 years as a member of the faculty and staff of Rollins. He is widely known as the closest academic associate of the late Dr. Hamilton Holt, who served as President of Rollins for 24 years and brought the college, the oldest institution of higher education in the state of Florida, national attention as a pioneer in education.

"Dr. Hanna, himself an alumnus of Rollins, explained that he was assuming his new position of Executive Assistant to the President only because he wished to serve Rollins administratively in a time of need. He said, 'As an educator, I have had a desire to leave active teaching and devote my attention to administrative responsibilities in education.'

"In fact, at one point in my career 10 years ago it was my honor to have received an invitation to become president of another educational institution in Florida. I declined the honor, indicating that

"The Trustees wish to make a matter of public record the fact that the College expects to complete this year's operations with an operating surplus of over \$134,000. The College will have a cash surplus, after debt retirement and capital expenditures, of \$67,000 which could be used next year if needed. Rollins' assets will have increased over a million dollars in the three-year period ending next month."

"At the conference, Pres. McKean stated that he concurred in the views expressed by the Trustees at the meeting in New York that the dismissal notices to the faculty should be rescinded as soon as possible. He stated that the Rollins faculty would remain substantially unchanged after the reinstatement and the faculty would continue the tradition of high-level liberal education for which Rollins has achieved national renown."

### State Legislature

(Continued From Page One)

bill came from House members who were not in on the weekend hotel room conference and were critical of the make-up of the informal drafting committee.

Rep. Morgan of Duval, chairman of the Appropriations Committee who has steadfastly stood up for his committee's bill allowing only \$244,000,000 before the weekend, opposed scrapping it and accepting the new measure.

Morgan, perhaps the most ardent advocate of holding down expenditures, was joined in the

fight by those who were interested in even more generous than the compromise committee suggested.

Meanwhile Senator Moore of Sebring proposed changes in the State's libel laws to provide that retracted stories be printed in the same size type and prominence as the original articles.

He said his idea is to prevent newspapers from printing an original inaccurate story on page one and publishing a retraction in the inside pages of the paper.

He said his bill had nothing to do with the so-called press "gag" bill introduced by Rep. Burton of Brevard. That bill would have given persons criticized by newspapers the right to have stories replying to the criticism printed in the same position as the original story.

All Florida public school teachers would be given \$300 annual cost-of-living salary boost during the next two years under a Senate bill just introduced.

Senators Lindler of Lake City and Johns of Starke said the cost of living has increased 15.4 percent since the 1947 minimum foundation school law was introduced.

They said some counties have lost as high as 20 percent of their teachers because of salaries being out of line with living costs.

State employees would be prohibited from political activity under a bill introduced in the Legislature by Rep. Hathaway of Charlotte county.

Hathaway's measure would amend the present law governing election conduct of state workers to ban campaign contributions by an state officer or employee.

The bill also would prohibit any state official or employee from taking active part in a campaign, unless he was running for office himself.

Violators of the terms of the bill would be removed from office and dismissed.

Three representatives from Jacksonville today to introduce a bill to widely separated parts of the state for Florida legislators to represent race track operators.

WINTER PARK, May 14—(Special)—Editors of the student newspaper at troubled little Rollins College yesterday defied young President Paul A. Wagner's threat of suspending them from school and promised "another sizzling edition" of the Sandspur would be issued within 48 hours.

Wagner branded the Sandspur distributed Friday and Saturday as "dishonorable" and "a smear (on) my reputation." And he decreed that "a retraction of the entire issue is not in my hands by Sunday afternoon at 3 P. M. I shall recommend the suspension of the editorial staff . . ."

Editor Hetsy Fletcher and the four top members of the Sandspur staff issued a statement early last night that "(we) stand behind all material presented in that issue" and that an extra edition of the Sandspur "in elaboration of the last one" will be off the press within 48 hours.

"We aren't retracting anything," said Assistant Editor Mar-

Colored News  
The Negro Division of the Central Florida Council, Boy Scouts of America Inc. held its seventh annual Councilwide Camporee at beautiful Camp William E. Howard on May 4 and 5. The Camporee was officially begun with the arrival of large contingents of Boy Scouts from all over the Central Florida Council area.

Upon their arrival Friday evening, the boys were assembled and assigned to Troop Campsites, where they pitched their tents and made preparations for their evening supper. With these preparations completed, the boys spent a few idle moments wandering about the camp, inhaling its beauty, and recalling pleasant happenings thereof. A little later, the entire group of 160 boys and 10 leaders made their way down to the "Island" where the campfire programs are held. There the boys participated in and enjoyed group singing, stunts, and other activities.

At 10 o'clock sharp, the "call to quarters" was sounded and the boys began to make their way up the hill to their campsites. At 10:30 o'clock, "Taps" . . . and the boys, pleasantly tired, drifted off to slumber.

At 7 o'clock Saturday morning the boys were awakened by a bugle sounding reveille. All hurriedly dressed and made preparations for breakfast and went about cleaning their campsites, each boy performing his assigned duties.

After this, each Troop was taken through Scoutcraft events stations, and each was given ample opportunity to demonstrate his development as a Scout. These events not only had their educational value, but also their fun value.

Lunch was followed by more Scoutcrafts, and these in turn by the much desired swim in Island Lake. With final inspection and the stinging of tents, an eventful Camporee came to an end, each Scout pleasantly tired, but eagerly looking forward to the next Scouting event which was an Explorer Rendezvous at the Orlando Air Base, May 11 and 12.
