Pioneers, Social And Mechanical

The brothers John and Mack Rust, inventors of s leading mechanical cottonpicker, are pioneers not only in the world of machinery but in the world of men, writes Willis Thornton for the Newspaper Enterprise Association-They are among the first inventors to face squarely the social effects of their invention, and to try to shape those effects so they will be good.

"For inventors, as for everybody else, life gets more complex", Mr. Thornton says. "Once it was enough for Nobel to invent dynamite or Wright to invent the airplane. Now the world asks not only 'How good is it?' but also, What are you going to do with it? Inventors must work

on social as well as mathematical equations."

The Rust brothers have tried to do it, Mr. Thornton to the purpose of the purpose of the purpose of the purpose of the charged for continues. At the same time they announced plans to built a factory to the same time they announced plans to build a factory to turn out 1,000 mechanical pickers a year, they also announced the Rust Foundation. Through that they plan to devote most of the profits of their inthat they plan to devote most of the profits or their that they plan to devote most of the profits or their vention to helping protect displaced pickers from hardship, and raise their standards of living.

Their own income is to be not larger than 10 times that of their lowest-paid employe, the Rust brothers announced. The rest of the profits are to go to the foundation of published heads.

To promote schools, libraries and hospitals.

To publish books, periodicals. To run radio stations

and otherwise disseminate information.

To help individuals to raise their standards of living, and to co-operate with other organizations working toward the same general ends.

There have been objections to the cotton picker be-RECIOUS THINGS: Again, the cause it will displace labor, John Rust admitted. But as the pickers are "the poorest-paid people in America", he the pickers are "the poorest-paid people in America", he the pickers are "the poorest-paid people in America", he the chantman, seeking goodly thinks he is doing them a favor to free them from back-paid. Who when he had found breaking toll in the fields. One of the purposes of the peart of great price, went and foundation will be to train as many of them as possible 10 build, operate, and service the new machinery.

12. Matt. 13:45, 46.

The ploneers of a century ago were those wh

The ploneers of a century ago were those who thrust ou! into the wilderness to back out a living with ax and rifle. The pioneers of today are the John and Mack Rusts. who are willing to experiment and take a chance on new ways of doing things, new ways of living in a mechanized, inter-dependent world.

Bicycle Rules

A small boy riding a bleycle, hanging on to the end of a car, not only is an invitation to death, but is an indication that some parent has been remiss in his duty to of the fire that destroyed a five the boy.

Every child who is allowed to have a bicycle should Countries with their fertile ground, be carefully instructed in the importance of safety in given up as dead by Fire Chief Horping amoke and evening bell; riding bieycles, and he should be forced to live up to the Edward Gieselman. The men were rules of bicycle riding, or have his bicycle taken away trapped in a building yesterday from him.

Realizing the importance of proper handling of bicycles, and the part they play in he annual death toll agh the guiding rope draw from accidents, the Florida Safety Council has issued a set of rules for the guidance of cyclists. Read them, and

1. Obey general traffic regulations, especially stop signals and traffic lights.

2. Give hand signals when you want to stop or turn. 3. Always have a warning signal on your bicycle.

4. Don't ride too fast. 5. Don't "hook on" to automobiles to be pulled along.

6. Ride with both hands on the handle bars.

7. Don't ride other passengers on your bicycle. 8. Have a headlight, and a tail-light or reflector on

tertise the biggest frankfarter the rear of your bicycle at night. 9. Don't coast, especially in traffic.

> 10. Don't apply your brake suddenly or too hard. 11. Give pedestrians the right of way.

12. Sound your warning signal when approaching inersections. 13. Ride only on stree's in which traffic is light.

14. Keep to the right and close to the curb or side of ie road.

15. Look out for cars pulling from parking places. 16. Do not pass automobiles ahead of you.

17. When drivers of cars coming from the rear sound horns to pass, pull over to the right and let them pass. 18. Look out for cars which may attempt to pass on

19. Don't turn or cross at intersections unless it appears safe.

20. Don't weave in or out of traffic, cut across stree's

or turn between intersections. 21. Park your bievele on the sidewalk. This will prevent injury to yourself and damage to your becycle from

Gannett Answers Ickes Criticism

ROCHESTER, N. Y. Feb. 7 .-ROCHESTER, N. Y. Feb. 7.—
Rocevelt of the Florida caand the 'Quaddy project too per publisher, in a formal state-

Sches announced in Washington he planned to "follow-up the de-bate with an address Feb. 10 on "Freedom Is As Freedom Does" before the Lawyers Guild in Chi-

Gamett said he believed his detailed reply was necessary be-cause he held to his agreed part

cause he held to his agreed part of the program to uphald "the first that this sountry has a free press," instead of "descending to personalities" and as a result of "most of Secretary Ickes' innuradoes and mislending inferences that aight IJan. 12) went unanswered to millions of radio listeners and newspaper maders."

"But," Gannett added, "the mislending statements he rited as syidence should not go uppor-

advertisers, or rather of adver-tising," Gannett replied:

"American newspapers refuse millions of dollars of advertising

Of Newspapers every year. More than 500 daily papers refuse to accept advertisements of distilled liquors. The Gannet newspapers accept no

year if the series of articles was suppressed. The Washington Times then refused to accept any advertising from this source and threw and advertising that brought it \$15,000 annually."

Gament denied Ickes' statement is which the accretary said:
"Did you ever read a alony in a newspaper about an elevator accident in a hig department store that was written and displayed on a hasia of its news value? Of course not, and you have never read anything in a newspaper about the law wages of ratalicieria, accept in lam-cent stores, and they don't advertise."
