It all depends on the point of view, federal A tiny speck, man, is viewed against the incomprehensibly vast distances that make up the universes. But the knowledge that makes such contraptions as this telescope a tool of humanity raises man to Olympian heights. And after a look into the limitless beyond, how petty and unimportant seem most of the worries and vexations of earthly life!

found food scarce and travel conditions hard. Still, today's party should get a good idea of what their ancestors went through.

Anyone who considers what the Mormons have made of a forbidding land with few natural advantages, must acknowledge their sturdiness. And anyone who reading history must be ushamed of the brutal treatment by their non-Mormon neighbors, which sent the followers of Joseph Smith on their trans-continental trek.

minute floor fight as sponsors of the measure started marshalling their strength to bring it before the whole House for consideration, while opponents were equally determined to stave off a vote until the 60-day session ends. The House had suggested adjournment at noon, but the Senate - , which must agree - took no action on

the time. The soft drink tax received 19 to 16. approval in the Senate. It was proposed by Senator Mathews of Jacksonville as a means of meeting part of the huge deficit Governor Caldwell has foreseen but House sinancial leaders he e anputed.

When the Senate bill reached the House, Speaker Thomas D. Beasley sparked an immediate flurry of parliamentary debate by referring the measure to the Com-mittee on Finance and Taxation. By throwing the House into a short informal receas, he cleared the way for the committee to consider it, when opponents tried to employ a standing rule to block the Finance Committee meeting while the House was in session.

Obstacles to its House passage were rugged as Governor Cald-well's friends mustered their strength in an attempt to shove the bill through. They had the backing of school and college interests, as well as various other groups who preferred not to run the risk of having the tlovernor withhold appropriations for their projects and institutions.

Caldwell has not daked for any particular tax but he has said the Legislature either should frim new revenue to avert a deficit,

Saving You Money

We run our stores the way a thrifty housekeeper runs her home. We don't sell on credit. We don't deliver. Cash and carry saves a lot of money-for YOU. We buy casefully, with a sharp eye for quality (nothing's a bargain if it isn't good as

well as cheap).
Yes, we're old hands at saving you money.

Our customers know it-and trust us. And we

wouldn't sell out that confidence for anything

problems such as the nation has

This country is the "principal core of stability in a world shaken by six years of bitter and destructive fighting." Forrestal said in an address prepared for the graduating class of the Naval Academy.

He predicted that the years ahead will be "more deeply vexed and troubled" than those which have confronted any generation since the start of the Civil War. "Today the foundations of con-

trol and authority are shaken." Forrestal continued.

Forrestal continued.

"Economic stagnation of Germany and Japan enforces a substantial drain upon our own economy. We cannot exterminate, nor permit to starve, these millions of human beings.

"But-we shall have to watch most carefully against a rejuvenation of the conditions which were largely the result of divergent policies among the victors after World War I had been won.

"In all of the great continents there are vast areas of unrest and of hunger which can develop into political chaos.

"There is no formula, no magic blueprint which can provide the

Is Ordered To Close Up Shop

Government Program Is Branded Failure; Bulwinkle Railroad Bill Is Considered

WASHINGTON, June 9, (47) the construction of homes was branded a failure today by the House Appropriations Committee, which called for Expediter-Frank R. Creedon to close up shop.

The committee allowed only en-

ough funds to liquidate the Otfice of Housing Expediter within year, stipulating that no new miness be undertaken after June 30. Its action will have to be backed up by the House and Senate, however, before it-will stick. in 1945 with powers to control

output of such things as brick, file, lumber and other huilling materials. The idea was too see that more materials were produced and that they were used to best relieve the housing shortage.

The appropriations committee said the program "has not been successful." Mareover, it said the prospect now is for plenty of building materials in the near future. It proposed the agency begin winding up its affairs at the end state month.
