

15 Million Fire Loss in Heart of Chicago Business District

FLORIDA BANKERS HERE FROM GROUP NO. THREE ---ENJOYING THEIR VISIT

About Thirty South East Florida Bankers Sanford's Guests

LUNCHEON TODAY

FROM OSCEOLA, ORANGE, LAKE, VOLUSIA, SEMINOLE AND OTHERS OF S. E. FLORIDA

Group No. 3 of the Florida Bankers Association met here today with the Valdez Hotel as headquarters and under the chaperonage of the local bankers were taken over the city and shown the many beauties and the industries of the greatest vegetable section in the world.

Group No. 3 comprises the banks situated in the Counties of Osceola, Orange, Lake, Seminole, Volusia, Brevard, St. Lucie, Palm Beach, Broward, Dade and Monroe and about thirty or more bankers were present at noon today, several more being expected to come in at one o'clock.

They are taking luncheon at the Valdez Hotel at noon and W. T. Donnelly, of New York, and several other visitors present will address them on various topics of the day. They are holding their meetings in the Palm Room of the Valdez and expect to be through business at 3:00 this afternoon after which the local bankers and the business men will take them for a ride over the celery fields and show them Sanford. They expect to leave late this afternoon for their homes.

COTTON EXCHANGE ONE BIG BUCKET SHOP, SAYS WITNESSES TODAY

NEW YORK, March 15.—Charges that the American Cotton Exchange is a huge bucketshop where actual trading is rare and where the southern speculator is at the mercy of the New York broker, were made today by former members of the exchange, at a "John Doe" investigation conducted by the district attorney's office before Chief City Magistrate McAdoo.

Witnesses testified to numerous instances of "cross trading," fictitious orders, dummy accounts, "scalping," secret manipulation of unrecorded transactions, sensational advertising designed to woo the accounts of small speculators in the South, and undisguised "bucketing" of orders.

GRAHAM-MCDANNEL

Mrs. Maude Graham and F. J. McDannel were quietly married at one o'clock this afternoon at the Church of Christ parsonage, Rev. W. D. Draper officiating. Only immediate relatives witnessed the ceremony. The couple left immediately for Florida where they will spend a month on a farm owned by the groom. Upon their return to this city they will make their home at 222 Corunna Ave. Both Mr. and Mrs. McDannel have been residents of this city for a number of years, and a legion of friends extend best wishes for the happiness of this estimable couple.—Owasso Press.

Mr. and Mrs. F. J. McDannel arrived here last night and are receiving the congratulations of the many Sanford friends of the groom. They will remain for several weeks and expect to visit other points in Florida before returning to Michigan. The Herald joins in extending congratulations and best wishes to Mr. and Mrs. McDannel.

H. B. McCall of Oviedo was among the visitors to the city today.

County Commissioner O. P. Swope of Oviedo was in the city today talking over the county bond issue.

PRODIGAL SON WAS SUBJECT AT REVIVAL SERVICE

DR. WALKER TAUGHT WONDERFUL LESSON TO HIS HEARERS LAST NIGHT

But "he came to himself" and said "I will arise and go to my father's house." The sermon preached by Dr. Walker last night, on the Prodigal Son portrayed "the infinite difficulty, the infinite desirability of being good, a theme a soul as humanity." Dr. Walker led his hearers to see that the journey of the younger son into the far country typifies the departure of man from the correct walk in life; that his substance may be any talent possessed by him and how, he asked, are you spending your substance of character, intellect and bodily vigor? The return of the prodigal, penitent, and humble supplicant for the position of servant in his father's house and the father's reception according to him the full honors of a son, exemplifies the abundant pardon, and boundless love of the Father of all. There were seven conversions last night. Seven souls who said, "I will arise and go to my father."

There is every promise of a great meeting tonight. It is men's night at the Methodist church and every man in Sanford is invited.

Harding Leaves Some Time Today After Golf Game

Telegraphed Message of Sympathy to Senator Trammell

ST. AUGUSTINE, March 15.—President Harding arrived from Palm Beach at 8:15, had breakfast on his private car and went immediately to the golf links. He telegraphed a message of sympathy to Sen. Trammell when he learned of Mrs. Trammell's death last night.

CUT ARMY TO 100,000?

WASHINGTON, March 15.—First announcement of a movement in congress to reduce the army to 100,000 enlisted men, or possibly lower, was given the house yesterday by Representative Sisson, Mississippi, ranking democrat on the committee, which recommended a total of 115,000. Declaring there had been no partisanship in framing the army appropriation bill and no attempt to do the army an injustice, Mr. Sisson, in opening the debate on the measure, asserted:

"I do not believe we would make a mistake if we cut the total to 100,000 and in fact I want to say now I will offer an amendment to make that number the maximum strength."

Forger Caught at Jacksonville by Seminole Deputy

Goed Crazy After Getting Him to Sanford Jail and Taken to State Asylum

A man named Rawlings who forged several checks on W. B. Young of Oviedo was caught in Jacksonville several days ago by Deputy Sheriff Vickery of Sanford and brought back to Sanford for trial. After being incarcerated in the jail here for a day or more he exhibited symptoms of insanity and finally went raving mad due to it is thought, to the use of drugs which he had been taking for years. He was adjudged insane by a commission here and taken to the state asylum at Chattahoochee. Deputy Vickery deserves much credit for the capture of Rawlings who had become an expert in the use of forged checks and passed several hundred dollars worth before being caught.

JUST OFF THE LOOP OR DOWN TOWN DISTRICT AND FIRE OF UNDETERMINED ORIGIN STARTED EARLY THIS MORNING

ONE FIREMAN KILLED, ANOTHER SERIOUSLY INJURED AND TEN OR MORE WERE SLIGHTLY INJURED

Fire Started in Center of Block Bounded by Van Buren, Canal and Clinton Streets and Leaped Across to Jackson, Catching the Twenty-one Story Chicago, Burlington and Quincy General Office Building, Destroying it.

CHICAGO, March 15.—(By the Associated Press).—A spectacular early morning fire today destroyed a full square of business buildings just out of Chicago's loop, or down-town district, with a loss estimated at from ten to fifteen million dollars. The fire started in the center of the block bounded by Van Buren, Canal and Clinton streets and West Jackson Boulevard, or undetermined origin, and burned every structure in that area, leaped north across Jackson and wrecked the twenty-one story Chicago, Burlington and Quincy Railroad's general office building which also houses the Mercantile Trust & Savings Bank, and under a strong wind dipped over Van Buren street Southward and burned nearly through to Harrison street. The fire was not brought under control until nearly five o'clock and even then firemen were fighting a dozen different fires and others broke out intermittently as the wind wafted the sparks about. One fireman was killed, another seriously injured, ten or more slightly hurt and an unknown number of the hundred thousand spectators who thronged the burning district were slightly hurt by falling bricks, burning timbers or sparks. City Fire Attorney High said the original blaze from which the conflagration grew was possibly of incendiary origin. High announced the arrest of an unnamed man on information supplied by the president of the concern where the fire started.

MASS MEETING THURSDAY NIGHT AT COURT HOUSE TO DISCUSS BOND ISSUE

The \$100,000 Bond Issue for Roads and Maintenance and Building of Osteen Bridge

The citizens, tax payors and everyone interested in the good roads of the county and the maintenance of the same and a bridge to be built across the St. Johns river at Osteen ferry are requested to meet at the court house Thursday night (tomorrow night), and discuss the issues. The way to bring these important matters

to the people is to bring them direct to the people by word of mouth, to discuss in open meeting all that pertains to the bond issue, to take up the roads and show where they will go and leave nothing undone that will in any way throw the full light of publicity upon the bond issue.

Be at the court house tomorrow at eight o'clock.

Defense Attorneys Object to Jones in Wire Tappers' Case

Judge Emphasizes Need of Secrecy on Grand Jury's Part

FORT LAUDERDALE, March 15.—Attorneys for the defense in the case of the alleged wire tappers today unsuccessfully attempted to have State's Attorney Jones, of the Seventh Circuit, disqualified from assisting State Attorney Coleman, of this circuit, in the prosecution. Governor Hardee assigned Jones to assist Coleman. Judge Davis emphasized the need for secrecy on the part of the grand jury and asked the jury also to investigate other gambling and liquor violations.

AMERICAN EXPORTS FOR FEBRUARY LESS THAN JANUARY

WASHINGTON, March 15.—American exports for February were \$251,000,000 compared with \$278,000,000 in January and imports last month of \$271,000,000 compared with \$217,000,000 for previous month.

LOAN OF 50 MILLIONS TO AUSTRIA RESOLUTION BY SEN. LODGE TODAY

WASHINGTON, March 15.—A resolution of Senator Lodge extending for twenty-five years a loan of \$50,000,000 made to Austria for famine relief, was adopted unanimously today by the senate and sent to the house.

Attend the mass meeting at the Court House Thursday night at eight o'clock.

A FAVORABLE REPORT ON BONUS BILL ORDERED BY HOUSE COMMITTEE TODAY

BIG HOTEL BURNS AT RENO DIVORCEES FLEE

ESCAPED GUESTS IN NIGHTGOWNS NONE OF WHOM WERE INJURED

RENO, Nov., March 15.—Scores of guests escaped from the upper windows in their night clothes when Riverside Hotel, the largest in the city, was destroyed by fire early today. At five o'clock the building was still raging furnace and the ruins could not be searched but a check was started to learn if any guests were missing. No serious injuries reported. The fire is believed to have originated in the engine room and broke out at two o'clock. The flames spread rapidly and the guests found the stairways cut off. Most of them were rescued by firemen with ladders.

HABEAS CORPUS PROCEEDINGS TODAY AT MIAMI FOR MYERS

MIAMI, March 15.—The habeas corpus proceedings in the case of J. D. Myers, who is wanted in Salt Lake City for embezzlement, under the name of Milton D. Joseph, was continued from today until Saturday.

Daugherty Says Operators Take Wrong Position

PAL BEACH, March 15.—Disappointment at the refusal of the operators to meet the coal miners in conference in an effort to make a new contract to replace the one expiring March 31, was expressed yesterday by Attorney General Daugherty. At the same time he reminded all parties that the threatened coal strike involved the interests of the public and is not a private controversy.

The public would look to the government for protection in the event of an emergency, the attorney general added.

"I think it was a mistake on the part of the operators to hold out against a preliminary conference with mineworkers," Mr. Daugherty declared. "There is a contractual relation between the two interests. They agreed under terms of the 1920 scale agreement to meet and discuss a new scale. They ought to do so. And it is fair to remind them that the government itself is a party to this contract and therefore has a right to take a hand in the business."

"Also all parties involved," the attorney general continued, "might remember that the present dispute is not a private affair. The public is interested and its rights must be protected by the government, as I think they would be, insofar as may be possible."

ISSUANCE OF GOLD CERTIFICATES RESUMED AFTER FIVE YEARS

WASHINGTON, March 15.—The issuance of gold certificates without demand, which was discontinued five years ago, was resumed today it was announced by the treasury.

GENERAL CARR IS IMPROVING

DURHAM, March 15.—General Carr continued to show an improvement today, it was announced from his bedside.

TORNADO VICTIMS OF YESTERDAY NUMBER TWENTY-FOUR TODAY

NEW ORLEANS, March 15.—The death toll of the series of tornadoes over the various sections of Louisiana, Mississippi, Arkansas, Oklahoma, Monday and early yesterday, stood today at twenty four. At least eighty-nine persons were injured.

Chairman Fordney Will Submit Formal Report Today or Tomorrow

HARDING'S RETURN IS AWAITED TOGETHER WITH SPEAKER GILLET WHO IS IN FLORIDA

WASHINGTON, March 15.—A favorable report on the long-controverted soldiers' bonus bill was ordered by the house ways and means committee by a vote of 19 to 5. Chairman Fordney plans to submit his formal report today or tomorrow, but salad the time for calling the measure up in the house would not be fixed definitely until after the return here of Speaker Gillett, who is in Florida with President Harding.

Representative Fordney said he did not expect Speaker Gillett to bring any message on the bonus from the executive and that the subject of the conference with the speaker would be the question of calling up the bill next Monday under a suspension of the rules.

The vote on the measure in the committee was taken after Secretary Mellon, Comptroller of the Currency Crissinger, and Governor Harding of the federal reserve board; had been questioned for two hours in open session as to their ideas of the bank loan adjusted certificate plan.

Before the final vote the committee rejected, 19 to 5, an amendment offered by Representative Backarach, Republican, New Jersey, to impose for a period of three years a one per cent. tax on wholesalers, designed to raise \$500,000,000 with which to finance the bonus.

Under an amendment suggested by Governor Harding and adopted by unanimous vote, banks making original loans on the adjusted service could have those certificates rediscounted by other banks authorized to make original loans on the certificates. Governor Harding objected to having the certificates rediscountable by federal reserve banks, saying the general economic effect would be unfavorable.

The committee also rejected an amendment to restore the original cash provision in place of the bank loan amendment and to reimpose the excess profits tax as a means of raising the required revenue. Another amendment to restore the war time maximum income surtax rate of 65 per cent. also was rejected.

Secretary Mellon and Mr. Crissinger reiterated to the committee their opposition to the adjusted certificate loan plan, but Governor Harding declined to comment on the advisability of bonus legislation at this time other than to say that in his judgment the bank loan plan would help the beneficiary, but probably not the banks.

There developed a difference of opinion between the treasury secretary and the comptroller of the currency as to advising banks not to make advances to former service men on the certificates. Mr. Mellon said the treasury would not feel called upon to give such advice, while Mr. Crissinger reiterated that if national banks asked his opinion he would advise against loans on such security.

The comptroller said there were many banks in the West also in the East that held an "unbelievable" amount of "past due and doubtful paper" and that such banks probably could not make the advances. He said it would take from one to five years for the banks to work out the paper to which he referred.

Secretary Mellon expressed the view that it would be better from an economic standpoint for the treasury to borrow in the first instance the \$500,000,000, which it was estimated that the banks would be called upon to advance on the certificates in the first three years from the effective date of the bill.

Pay your poll tax before Saturday night if you want to vote in the bond election for county roads and the Osteen bridge.

Pay Your Poll Tax Before Saturday, March 25th To be Qualified to Vote in the Bond Election to be Held April 11th

MAKE YOUR MONEY WORK FOR YOU
WE PAY 4% INTEREST ON SAVINGS ACCOUNTS

Training his Children to be Good Business Citizens

One of our customers, whose face we see regularly at the deposit window, is a foreigner, who has been in this country a few years. Yet he has built up an enviable interest account for himself and has started one for each of his children. He brings them in regularly to deposit money, which they have earned.

This is the best business training which can be given to children. The first step is to teach them to make the start.

Our CALENDAR BANKS do this and makes them save regularly and systematically. It is this that builds up accounts.

Call now and let us demonstrate this novel device

The Seminole County Bank

STRENGTH—PROGRESS—SERVICE

Don't forget the fish supper at Geneva Thursday night at seven. It is for a good purpose and should be patronized by Sanford people.

What lovely weather we are having. Pay your poll taxes now if you intend to vote in the bond election.

PERSONALS

Ring Lardner should be here now with some of his funny stuff about Florida.

Manager Grose of the Montezuma Hotel will entertain the Rotary Club at dinner tonight.

Mrs. J. C. Roberts of Ellen Avenue has as her guest this week, her sister Mrs. Ulee Tillis of Green Cove Springs.

The Sanford delegation to Ocala yesterday did not make much noise but they looked them over and found out how the land was situated in the capitol removal question.

Mr. and Mrs. Lindberg, Mrs. Baker, and Mr. and Mrs. Vincent, all of New Jersey, who are spending the winter at Daytona Beach were in the city today slight seeing and visiting friends.

Tomorrow is the last day to pay your income tax. Get busy and get it to the office of the Internal Revenue Collector not later than Wednesday night. The time is short and the penalty is heavy. Have you made out yours?

O. P. Swope of Oviedo was in the city today on business and he is greatly enthusiastic over the prospects of Seminole county and Sanford in particular. Mr. Swope is one of the live wires of the county and is a big land owner and wants to see the roads improved and the county advertised.

All this week at Churchwells will be tailoring week. You know what they mean and that this is the time to have your measure taken. Fine line of samples from which to select your suit. Read the advertisement of Churchwells in this issue for bargains in dress goods and ladies ready-to-wear.

D. L. Thrasher was the delegate and Arthur Yowell the alternate for the Chamber of Commerce at the Ocala meeting yesterday and they were accompanied by O. P. Swope of Oviedo and R. C. Bower, J. D. Davison, L. P. McCuller and Ed Higgins and R. W. Pearman, secretary of the Chamber of Commerce.

Mrs. Check says the Herald has "some circulation." Putting on the savings bank campaign at the Seminole Bank, Mrs. Check has been using plenty of space in the Herald for the Seminole and yesterday received

a reply from a bank at West Liberty, Iowa. The Herald not only covers the local field but also has a circulation all over the country.

Mr. and Mrs. Lester Lucas of Ocala are in the city today making arrangements to put on a concert here in the near future. Lester is well known here having been with the Coburn Minstrels for many years as leader and basso profundo and his many friends will be glad to hear him in concert work.

DEATH OF FRED DORNER'S SON

The eight year old son of Mr. and Mrs. Fred Dorner died last night after a short illness of pneumonia. The little boy had been sick only a few days when death called him to the realms above and his parents are left desolate and the many friends of the little fellow are sorrowing with them today. The funeral will occur today at four o'clock from the residence on Celery avenue, interment being made in Lakeview cemetery. They have the sympathy of the entire community in their bereavement.

SETTLEMENT IS WIPED OUT BY TORNADO

(By The Associated Press) BATON ROUGE, La., March 14.—The settlement of Sunrise, near here, was almost obliterated by a tornado today which killed two persons, injured sixteen according to reports received here.

McALISTER, Okla., March 14.—Nine persons were killed, and a number seriously injured in a tornado at Gowen, a mining town fifteen miles east of here last night. Most of the dead and injured were Mexicans, any persons were slightly hurt.

STATE PARDON BOARD MEETS TODAY AT CAPITOL

TALLAHASSEE, March 14.—The State Pardon Board met today. It had one hundred and three applications for clemency before it.

SANFORD'S TEMPERATURE

Perfect weather right on and nothing heard from California about the subject as yet. Sometimes we begin to think that Florida is just about the best state in the world, bar none, and when we peruse the weather reports from all the different countries we know it. What do you think of the weather report now with gentle rains and nice cool nights and the maximum at 83 for today. We wish all our friends could come to Sanford and live, especially since we are about to put on a new bond issue. They would like to come in on it, you know.

5:40 A. M. MARCH 14, 1922
Maximum 83
Minimum 54
Range 55
Barometer 30.27
Calm and cloudy.

Federal Reserve Board is Asked to Appear Today

Before House Regarding Bank Loan Provisions Bonus Bill

(By The Associated Press) WASHINGTON, March 14.—Secretary Mellon, Comptroller Crissinger and Governor Harding of the Federal Reserve Board, will be asked to appear before the House Ways and Means Committee this afternoon to give further statements regarding the bank loan provision of the soldiers' bonus bill.

MEMBER THE ASSOCIATED PRESS

"Sex Detector is a Fraud" say headlines in paper. We should worry about that.

First remove the capitol from Tallahassee, boys. Then worry about where it will be built.

Cattlemen was in today and said meat had dropped to eight cents per pound. We have not noted any lowering of prices in meat in Sanford.

"National Wine Week" starts in France today. But this does not mean so much to the boys who were over there for Palm Beach is not so worse.

Sanford is not worrying about the location of the state capitol in case it is moved from Tallahassee. We do not want it but we will have a large voice in saying where it shall be placed.

Again we say that the establishment of a cold storage and abattoir in Sanford where cattle could be butchered and kept on storage and distributed from this point would be a good thing for the cattlemen and for the consumer.

Lent will be over soon and then for another round of gayety before the summer exodus begins. It will then be the mountains and the beaches and for the stay-at-homes the lakes and the springs. Some of us cannot get away. We have to hold up the town in the summer as well as the winter.

Remember that on Friday night, March 24th, the Central Florida Water Traffic League will meet in Orlando at 7:30 and something will be done about establishing a boat line on the St. Johns river. Every shipper and grower in the Sanford section and in the county of Seminole should be there.

Editor Bob Holly of the Sanford Herald, gives his ideas on the bonus question "because everybody else is doing it." However, Commander MacNider of the American Legion, claims the country already has too many bonus ideas and not enough bonus dollars.—Florida Metropolis.

We notice the government intends to adopt our plan on the bonus. As far as the bonus dollars are concerned our record is clear.

That ideal government of Russia wants American radicals to go over there and work the iron and coal mines. Each worker is to supply his own tools and all he gets is his board and lodging. We can see any of the American workmen going to Russia under those terms and yet that is the sort of stuff the "Parlor Bolsheviks" are prouching in America. They should all be sentenced to ten years in Russia.

The Business and Professional Women's Club is to complimented upon bringing to Sanford the Redpath Chautauqua course. The Chautauqua is elevating and educational and is the sort of entertainments that Sanford should have. We talk of censored pictures and shows and entertainments but we do not give our support to them when they are presented. The Lyeum entertainments this season of the American Legion have been fine

and are also in the high class entertainment line. We need more of this sort of entertainment and they need your support.

THE PLEASURE OF WORKING

(St. Petersburg Times.)
What greater joy in life than the conscientiousness of a duty well-performed?

What greater pleasure than the accomplishment of a task?

What greater satisfaction that good honest work at a job which interests and holds the attention of mind and body?

How happy is the man who finds his labor, his profession, his trade or his business not only a means of livelihood for him and those he holds dear, but a pleasure.

Some men have a business and a hobby.

Other men find their business both a means of making money and a further source of pleasure as a hobby.

For the man whose business is both there can be no limit to success.

Twelve subjects have been suggested by the Rotary clubs of America for editorial discussion by newspapers during the year. One subject has been assigned to each month. The topic for March is "The Pleasure of Working."

The Times, proud to call itself a Rotary newspaper, has treated the subjects for January and March by quoting from the best minds of all ages. It will attempt to find quotations dealing with this subject for March. Here are some of them:

The law of nature is, that certain quantity of work is necessary to produce a certain quantity of good of any kind whatever. If you want knowledge, you must toll for it; if food, you must toll for it; and pleasure, you must toll for it.—Ruskin.

We enjoy ourselves in our work—in our doing; and our best doing is our best enjoyment.—Jacob.

All men, if they work not as in the great taskmaster's eye, will work wrong, work unhappily for themselves and you.—Carlisle.

Men who have a half-dozen irons in the fire are not the men to go crazy. It is the man of voluntary or compelled leisure who nopes, and pines, and thinks himself into the madhouse or the grave. Motion is all nature's law. Action is man's salvation, physical and mental. He only is truly wise who lays himself out to work till life's latest hour, and that is the man who will live longest and live to the most purpose.—Anonymous.

Physical work promotes the circulation of the blood, opens the pores of the skin, gives tone to the respiratory organs, helps the functions of digestion, strengthens the muscles, adds suppleness to the joints, enlivens the senses, quickens the nerves, regulates the passions and tends to build up the general constitution. Mental and moral work clears the understanding, empowers the will, keeps the perception, awakens the conscience, informs the judgment, enlarges the memory, rectifies the affections. In one word, the tendency of work is to promote and sustain the mental and physical organization in an uninterrupted action of health, until it shall be broken up and dissolved in death. Man is kept in life by work, and dies either because he will not or because he cannot work.—Bate.

Work is as much a necessity to man as eating and sleeping.—Even those who do nothing that can be called work still imagine they are doing something.—The world has not a man who is an idler in his own eyes.—Humboldt.

FORD AND THE FARMER.

Henry Ford is destined to grow more popular still with the American farmer. His reduction in prices of his cars, his trucks and his tractors is keeping pace with the slump in farm products. But this is only one feature. He is devising plans to supply them with cheaper fertilizer from Muscle Shoals. He is experimenting with a cottonoid composition which he hopes to substitute, in large measure, for steel in the construction of cars. If this process should prove successful, it would greatly increase the demand for cotton.

The appeal of Ford to congress to make provision for the manufacture of commercial alcohol for fuel is another matter of prime interest to the farmer. If the use of alcohol for motor fuel shall become general, it will require immense quantities of grain to produce alcohol in sufficient amount to meet the demand. And this eventually appears to be quite profitable. Experts estimate that at the present

UNCLE HANK

You really can't appreciate the beauties of the Grand Canyon until after you've seen some fella's yawn.

rate of consumption, there will only be oil enough to produce gasoline for twenty years. A substitute must be found. Alcohol seems to be the most promising. Grain can be grown for its production year by year. A perennial supply can be assured in this way. But immense quantities of grain will be required. If the motor world shall turn to alcohol for fuel instead of gasoline, there will be no longer a lack of demand for the farmer's corn.—Chattanooga News (Dem.)

CHARITY SCHEMES.

Dr. Charles H. Johnson, secretary of the New York State Board of Charities, recently told the Brooklyn Rotary club:

"There are several thousand private charities with no central place to which they report, and a safe estimate of the moneys collected by them is \$100,000,000 a year."

In a recent issue the St. Petersburg Independent declared:

"In St. Petersburg this winter there have been collections for all sorts of things, and this or that 'society' with headquarters in New York or in Europe has appealed to residents and winter visitors for money. Some of those asking for funds give no account of how the money is spent how much is raised or the methods employed. They come here and borrow a church from some trusting minister, preach on starving children, massacred peoples, prohibition or some other subject, and then pass the plate—and the money secured goes 'into the treasury,' nobody knows where."

Herbert Hoover made the statement some time ago that since the war there have been so many "charity" schemes started in this country as to lead to the belief that much so-called "relief" work is merely a disguise for "graft."

It is to assist in putting down these abominations spoken of by Secretary Johnson, the St. Petersburg Independent, and Mr. Hoover, that the Tampa United Charities has been organized. Hereafter it should be made a point of principle with every man solicited either for immediate personal relief or for the relief of something across the seas, to refer, politely, positively and promptly the solicitor to the Tampa United Charities offices. Furthermore it is the duty, or should be considered, of every man or woman approached for alms or a contribution for an unknown "charity" to report this matter, and the solicitor, immediately to the United Charities. Indeed we would go further and say that any begging on the streets, or in public buildings or offices, should be immediately reported to the police department, and assistance given in landing the mendicant, for investigation.

So long as these general professional "charity" solicitors, and ostensibly "hungry" men are permitted to prey on the public and private purse, just so long is it going to be difficult for us to contribute, as our spirit would prompt, to real want or to lend aid to the actually needy.

Tampa, like St. Petersburg, suffers every winter season because of systematic working of all kinds of "roll-tonists," and all taking the money out of your pockets, and none being of one tenth the value of the time they take up, or the coin they collect.—Tampa Tribune.

UP TO THE PARENTS

Two leaders in women's club work in Florida, in addresses before the St. Petersburg Woman's Club at a recent meeting, in discussing the moral status of young men and women placed the responsibility on the parents.

In this they hit the nail squarely on the head. It is up to the parents to rear and train their children and nobody else can take the place of the parents. The police cannot fulfill the duties of parents, nor can the Sunday school, the Y. M. C. A. or the school teachers. Each has its usefulness and influence, but the real be- pinning of delinquency in children, in the vast majority of cases, is found

in the home. Parents may not know it, and may not believe it when told that this is true, but careful analysis will show the facts. Parents may be ever so careful and loving and their intentions may be the best, and the methods applied may be wrong and the results just as disastrous as though there had been actual neglect. Too much leniency or too severe discipline work in much the same way, each producing undesirable results.

In this day and time, however, too many parents are dodging responsibility for their children and leaving to others the task of training the youngsters as they grow up. That is why there are so many delinquent children now. Often parents are too busy in pursuit of money or pleasure to devote any time to their most important possession—their children. The breaking up of the family circle also has its bad effect. There is very little home life now in the small towns as well as the big cities. Parents are too busy going to card parties, picture shows, dances and entertainments to stay at home and look after the youngsters. Frequently the children are taken along and learn a lot of things not good for them by attending unsuitable picture shows.

When the father or mother knows all the time where the children are and what they are doing, and has a part in the children's lives, there is not much likelihood of the youngsters going wrong. It all comes back to the parents, and if they want their children to grow up to be real men and women they must give time and thought to the training, even if they have to make sacrifices themselves to that end.—St. Petersburg Independent.

IT IS ALWAYS SUMMERTIME IN THE GARDENS OF KINDNESS

Living for weeks beneath the open sky far off from railroad whistles or trolley car bells; near the shores where flocks of quail were hiding, or in a little boat watching the habits of the sea gulls, pelicans, long-necked white cranes, huge turkey buzzards, and thousands of black, wild duck flying and feeding, never out of sight. Now and then an eight-foot-wide winged bald eagle sweeping high and far away to be only a speck in the sky, the size of a house-fly.

All this is possible by a railroad trip of one day and a night from New York City or Philadelphia to Jacksonville, Florida, situated on the famous, beautiful St. Johns river.

But wearied bodies and tired nerves can make a garden of kindness not far from home by even a short running off to the nearby seashore for change of scene and rest, and get it often in the three weeks we have had in Florida.

It is not fair to limit our lives to drudgery alone.—John Wanamaker in New York Herald.

PAY OR GO TO JAIL.

Wednesday will be the last day for the completion and filing of income tax returns. Throughout the land there have been going up for many weeks lamentations and complaints against what is termed by some "an accused system of taxation." While granting the truth of this, at least to a certain degree, it is amusing to witness the spectacle of those complaining most, taking an attitude against everything that has been done in this country and in the countries of Europe in the direction of universal peace. The present condition of affairs is due to the lust for gain and glory, the sole cause of the world war. We are now engaged in the delightful task of paying the piper, of footing the bill. The dose is a bitter one, administered with a severity and rigidity that put to shame the methods of the strongest monarchial government in the world. It is a case of pay or go to jail. It is difficult to arrive at any definite figures as to what it costs the United States government to collect this tax but estimates run high; the ultimate consumer is the one who foots the bill in the long run. Some day a Moses will arise who will have sense enough to lead the country out of this maze of intricate financing and establish a fair and just basis whereby the world war obligations will be met without throttling industry and causing vexation of spirit to millions of people. In passing it might be remarked that the only redeeming feature of the income tax law is that it compels every business man in the country to at least make an effort to find out where it stands financially. Some may not want to become too intimate with figures either on one side or the other of the ledger page, but, nevertheless, the tax calculation process as a general rule, is of some value in appraising business concerns of their true condition. Wednesday is the last day of grace for the filing of that income tax report. Uncle Sam needs the money.—Lakeland Telegram.

Attend the mass meeting at the Court House Thursday night at eight o'clock.

THE FARMERS ARE ON THE UPGRADE.

There is possibly no better evidence that the nation has "turned the corner" in its economic troubles that the fact given out recently by the war finance corporation, that the farmers are paying up the loans made them by the corporation, when everything wore a deeply somber hue. It was perfectly evident to anyone who gave an hour of serious thought to the subject that the farmers of America could not long be kept down if the sun continued to shine, and the rains of spring and summer to fall, and the earth to produce. It was hard, indeed, for the farmers to be obliged to market their bountiful crops, on which they had built great anticipations, for less than the cost of production, as they were obliged to in 1921. But hard as it was it did not in many cases spell ruin. They had had several good years previously, during which their crops had been good and prices had been good and before, and whatever may be said of them, the farmers as a class, are not spendthrifts. They do not accumulate riches rapidly like their city cousins, but then, they do not spend them wantonly, nor extravagantly. When the lean year came on them, it found many of them with snug sums laid by ready for the "rainy days." For others who were not so fortunate, there was the war finance corporation with its millions waiting to tide them over the hard spots. That they are now paying up the loans made them, some of them even before they were due, shows that the worst is over. There is no mystery about it to anyone who has kept watch of the quotations on most of the typical farm products. The great bulk of them have made notable recoveries from the low points of the last disastrous year. Farming in Nebraska and Kansas are not burning corn these days when the buyers want it at 40 cents and upwards per bushel, as they did when it was a drug at 20 cents. Others who have sold their wheat at 70 cents a bushel, and thought it was a "bang up price," are pretty well satisfied to get \$1.25 or better. Hogs are bringing more than they ever did in pre-war times, and the market for sheep and cattle is active.

The fact is the American farmer is as elastic as a rubber ball. He may be given a body blow one year—he got it last year—and he will come up smiling and cheerful and prosperous and hopeful the next. In spite of all his grumbling, he is a confirmed optimist, always counting his profits before he has them in hand. It is well that it is so.—Tampa Times.

ADVANTAGES OF WATER TRANSPORTATION

Water transportation is a question that won't stay down. There is only one reason that the coast towns of Florida do not have direct water transportation with the big cities of the north, and that is because the people do not get together to bring about this move. With federal ownership of the East Coast Canal, Florida would have several hundred miles of navigable water that would benefit not only the territory through which it runs but many central Florida towns, owing to the fact New Smyrna is a railroad centre, making short railroad hauls to hundreds of towns in the interior. Florida shipping points that have all water route to New York make a saving of over forty dollars over all rail shipments. This fact should at once appeal to the merchant, the farmer and fruit growers and builders, and every other class who receive and ship large quantities of freight.

No one section can bring about the desired result, but with the co-operation of the entire east coast and all of central Florida that would be directly benefited, the reformation in lower freight rates can be brought about that would enable the east coast of Florida to compete with other sections that are now supplying the northern markets with fruits and vegetables by all water routes.—New Smyrna Breeze.

Attend the mass meeting at the Court House Thursday night at eight o'clock.

-ANONYMOUS WRITERS NOT WANTED.

Every newspaper is frequently annoyed by correspondents who have some well-written article upon a pertinent topic for insertion in the columns of the paper—but who refuse to sign the name of the writer. An editor is responsible for what appears in his paper—and he cannot be responsible for the varied opinions of those who favor the paper with their own ideas as regards many timely projects. That is why it is necessary that all correspondents are forced to sign their names to articles forwarded to a newspaper. The Saint Petersburg Times has this to say pertinent to the point at issue:

The Times has received four communications from readers with a request that they be published in its columns of "Letters from the People." None of them will be published for the reason that the writers have failed to comply with the rules. Two failed to sign any name to their letters, except a fictitious one. One signs no name at all and the fourth signs his own name with the request that it be considered confidential.

Under the title of The Forum The Gazette devotes a considerable space to publishing articles from the people—but in every case there are two stipulations; there must be nothing of a libelous nature about it, and the author's name must be appended. To hand anything in the line of a communication to the Gazette not in accord with those stipulations is merely wasting time and money. Of course this does not apply to locals of interest, or trivial daily happenings in the way of society or social life.—Kissimmee Gazette.

GO TO RUSSIA

Big Bill Haywood has been granted concessions in the Russian iron and coal fields for the Industrial Workers of the World by Premier Lenin. We suppose the Industrial Workers of the World will now live up to their reputation and flock to Russia to "work" the coal and iron mines. This will be the grandest thing in the world for the United States. If all of these people who are not satisfied with the American form of government would just go to Russia and remain there it would be ideal—for them and for America. The I. W. W. under Bill Haywood will work the coal and iron mines and factories with their American ideas and put the works in fine shape and then Lenin will send the whole bunch to Siberia and take over the products of their labor. Thus will be exploded at one time the theory that any place in the world these ideas can ever be worked out or that selfishness and greed do not exist in the same degree in the minds of working men and capitalists and the teachers of the red gospel. Men are the same the world over and they are trying to get rich in one way or another. The leaders are leaders because they have more dominance over their followers but as soon as they get a chance to feather their own nests they do so and fly the coop leaving their followers to make up the losses. We will watch the actions of Big Bill Haywood with much interest and also see how far Lenin will go with the proletariat before he gives them the hook.

Meantime if there are any radicals in Florida who do not believe in our government as "sho is Russia" let them take the first boat to writ and get in the game right.

Pay your poll tax before Saturday night if you want to vote in the bond election for county roads and the Ocean bridge.

Dr. John Quirt of Watkins, New York, was in the city last night to attend the meeting of the Rotary Club at the Montezuma. Dr. Quirt is spending the winter at Geneva.

Attend the mass meeting at the Court House Thursday night at eight o'clock.

CLAIMS AGAINST U. S. WILL AFFECT BONUS BILL, SAYS ATTORNEY GENERAL

Authority, at Palm Beach, Gives Some Figures on Financial Condition

(By The Associated Press) BEACH, Fla., March 15.—Against government amounting \$1,000,000 now before the department of justice must be taken into consideration, Attorney Gen. Dougherty said, by those responsible for financial obligations to be met by the United States, brought sharply to the attention of the government by Mr. Dougherty's "lucky" Mr. Dougherty said, he would be able to settle for \$500,000.

Figures, it was asserted, in a small amount of the interest those who are desirous of a soldier's bonus, Dougherty said, "to know how many claims involve \$1,000,000 are now on file with the department of justice, this amount \$380,000,000 of alleged infringement of the law. Then there are \$70,000,000 which come out of the shipper's pocket. The board's claims, however, do not include those now being made by the claims commission of the board itself."

claims," the attorney general said, "are in the process of settlement, some in dispute and some in litigation. The government will settle these claims for 50 cents on the dollar. It is the department of justice which will handle the bonus issue directly. I mean to express any views at question at the moment, proper for the department of justice to call attention to the financial condition with these claims in connection with the general discussion is now going on. This file for the most part will have to be settled within another year."

action with press reports from the department of the intention to call up legislation in the house on Monday, under a suspension of the speaker Gillette, who is a member of the president's vacation committee indicated yesterday that he would vote against the motion. He said he had not had time to consider the matter deeply but that his impression was that as the very important one the house would have time to consider amendments.

Mr. Lett will speak at Springfield, Sunday on the treaties out of the Washington conference but intends to be back in Sanford Monday in time to prepare for the party said again that President Harding had no communication from him and sent none on the subject, while in Florida on the trip.

CHEROKEE INDIAN 200 YEARS OLD AT ST. PETERSBURG

(By The Associated Press) ST. PETERSBURG, March 15.—Annie Clifton, reputed to be a Cherokee Indian between 100 and 200 years old, is being cared for at the county jail here.

She was taken into custody recently by policeman Moody following a disturbance in the negro quarter. Her exact age has not been definitely determined. The woman who recently lost the use of her mentality, claims to be 200 years old and Moody says she is at least 125. According to Moody, she was a Cherokee Indian girl in the days before the Civil War and later married a white man named Clifton. Her daughter, with whom she has been living for 25 years, is said to be 89 years old, having been married four times.

According to her own story Annie Clifton was born before the days of slavery in Hall county, Georgia, and lived there for many years until she was married and was taken to Jacksonville. She says that while there she raised three daughters, who are living at the present time, one of them in St. Petersburg. She has a very interesting story to tell of how a partly blind negro discovered a gold mine in Hall county while hunting for white oak with which to make baskets. She says it was taken away from him by promoters of slavery.

The woman is occupying one of the cells in the city jail and is very contented. She says she like the room that Moody gave her and wants to stay there until she gets well. Jail attendants have dubbed her "Grandma" and take every pains to insure her comfort.

There is one consolation. When all our amusements are gone, the reformer won't have anything to do, either.

BIG GENERATOR FOR POWER PLANT AT GAINESVILLE

(By The Associated Press) GAINESVILLE, March 15.—A contract for a 625 K. V. A. turbo-generator for the city's power plants has been awarded to the Westinghouse Electric and Manufacturing Company. The cost involved is \$23,000, and delivery of the equipment must be made in 90 days.

An additional outlay of approximately \$10,000 will be necessary for the construction of foundations for the new generator.

"Rival postoffice claimants stack arms," says a headline. Probably a Hays' stack.

NEW RAILROAD FOR MIAMI

MIAMI, March 14.—The business men of this city are determined to build a railroad from this city to Clewiston at the southwest corner of Lake Okeechobee at which point it

will connect with the Moore Haven and Clewiston railway and form a direct connection with Tampa on the West Coast and Jacksonville on the north.

Miami at present is handicapped with only one railroad and the business men of the town have paid high freight rates for years and also with a rail connection with the West Coast the interchange of both passenger and freight traffic would be enormous.

Passengers after doing the East Coast like to get over to the West Coast and visit such towns as Sarasota, Fort Meyers, Tampa and St. Petersburg, but in order to do so they are compelled to make a tedious journey either to New Smyrna by rail and then down the state or cross by boat from West Palm Beach to Moore Haven.

The road if built will follow the Miami canal about the entire distance and the rich country it would pass through would make the road self-sustaining at the start. The Pennsylvania Sugar Company are developing 5,000 acres for the planting of sugar cane and they will be ready to manufacture sugar this summer. They are spending over a million dollars and want more than one outlet from Miami for their products.

CROOKS WILL HAVE TOUGH SAILING IN FLORIDA HENCEFORTH

MIAMI, Fla., March 14.—Florida will no longer be the haven of crooks, and confidence men, now that the federal government has decided to take a hand in the matter, according to a statement made at a local church Sunday night in the course of an address by Wm. J. Burns, internationally known detective, who is now head of the bureau of investigation of the Department of Justice, federal government.

Moreover, he said, the government intends not only to get the confidence men who fleece unwitting northerners, but to get the state officials through whose connivance the con men are able to continue their nefarious work, un molested. Burns is here, he said, on a va-talon trip, a side excursion of which will be a sail to Nassau.

PLAN FLOATING LIQUOR PALACE OUTSIDE THREE MILE LIMIT OFF NEW YORK

NEW YORK, March 14.—Plans for a floating liquor palace off New York beyond the three mile limit, are going forward, according to James V. Martin, the promoter, in spite of the announcement of Roy A. Haynes, federal prohibition commissioner, that the vessel will not be permitted.

Furthermore, declares Martin, a second and possibly third liquor palace will be constructed, should the first be successful. In answer to Haynes' announcement that he will seek to thwart the scheme Martin says there is nothing in international law that forbids a resort of this character. Martin asserts that the vessel will be as large as the Leviathan, that it will be as large as the Leviathan, that it will be constructed in Europe and that the cost will be limited to \$10,000,000.

LIQUOR SMUGGLE FROM MIAMI TO ILLINOIS LANDS TRIO IN JAIL

CHICAGO, March 13.—An illicit liquor conspiracy extending from Illinois to Miami, was revealed Saturday

by the capture of two men and a woman at Moline, Ill., according to federal agents.

Those under arrest, Mrs. May Williams of Moline and Miami, alleged leader of the band, Stephen Dekap and Henry Hayvaert, her companions, were held in \$2,500 bonds each pending hearing before a federal grand jury.

They were taken in custody Friday, it was said at Moline after signing a receipt for "grapefruit and 'auto polish'" shipped from Miami. The shipments were declared to have contained illicit whiskey.

Following the arrests, a telegram was sent to the federal officials at Miami requesting the arrest of Mrs. Williams' husband, J. L. Williams, and Saturday it was reported that he was taken in custody.

MRS. PARK TRAMMELL IS CRITICALLY ILL

The report that Mrs. Park Trammell wife of United States Senator Trammell, was critically ill at the Orange General Hospital, was confirmed this afternoon when the Reporter-Star was enabled to talk over the telephone with Senator Trammell.

Mr. Trammell stated that Mrs. Trammell's condition had taken a turn for the worse four or five days ago, and he asserted that while hope has by no means been abandoned for her recovery, it is admitted she is critically ill.

Mrs. Trammell was operated on at the hospital about ten days ago.

The wife of Florida's junior United States Senator has two sisters living in Orlando, Mrs. C. P. Dickinson and Mrs. George Phillips.—Reporter-Star.

LAKE CITY DOUBLES LIGHT PLANT'S SIZE

LAKE CITY, March 14.—Practically doubling the capacity of the Lake City municipal electric plant here is provided for in contracts let Saturday to the Skinner Engine Company for 300 horsepower engine, a 240 K. V. A. electric generator, switchboard, transformer and other incidentals. The contract price was \$17,268.

Lower bids submitted by the Ridge-way Dynamo and Engine Company of \$16,032 and the Harrisburg Machine Company of \$15,900 were rejected.

RAIL EXECUTIVES AND MEN FAIL TO AGREE ON WAGES

(By The Associated Press) NEW YORK, March 14.—Negotiations between executives of 52 Eastern railroads and representatives of conductors' and trainmen's unions looking toward a new agreement as to wages and working conditions were broken off late yesterday without any settlement having been reached.

Announcement of the breaking off of negotiations was contained in the following statement issued by the bureau of information:

"The conferences between certain carriers represented by the conference committee of managers of Eastern railroads and conductors and the trainmen represented by the order of railway conductors and the brotherhood of railroad trainmen, which have been held on various dates, beginning February 16, 1922, were adjourned yesterday, it being apparent that a mutually satisfactory agreement could not be arrived at, all propositions made by either side in the hope of a settlement are to be considered as though they had not been proposed."

SUSPENSION OF RULES ON BONUS IS NOT LIKELY

(By The Associated Press) WASHINGTON, March 14.—Republican leaders were confronted yesterday with the possibility that they might be unable to bring about a vote in the House on the compromise soldiers' bonus bill under suspension of the rules next Monday.

With favorable report of the measure by the ways and means committee promised by Chairman Fordney they generally were agreed that the bill should be disposed of by the House early next week.

Inability, however, to ascertain whether Speaker Gillette, who is in Florida with President Harding, would entertain a motion to suspend the rules, which would require a two-thirds vote for passage of the bill and would automatically bar all amendments, coupled with the reports that he might decline to do so, threw the whole question of procedure into the air.

Republican members of the ways and means committee, who at a morning meeting decided to proceed with their plans for a report of the measure at the meeting of the full committee scheduled for today, despite objections to its provisions voiced by Secretary Mellon and Comptroller of the Currency Cressinger, held a conference late in the day with members of the Republican steering committee and several others. It was agreed at this meeting not to make a final decision as to procedure until the views of the speaker could be learned.

Three things are certain —Death, Taxes and FREIGHT.

The freight charges on Glass Bottles and Containers from Northern factories to Florida points will average \$350 per car.

This is a drain on our industries

Doctor in Toils, Murder Charge in Bushnell Case

(By The Associated Press) BUSHNELL, March 14.—Dr. D. M. Seymour is in jail on a coroner's jury charge of murder, Mrs. Beckitt is held as an accessory and Mrs. Ida Whittington and her younger daughter, Irene, at Liberty in bonds of \$3,000 each, in connection with the slaying of the body of an infant girl, in a mill pond, ten miles from here, last Friday.

Seth Churchill, whom Sheriff Coleman says, Miss Irene Whittington, accuses of being the father of the child, is held in \$300 bond. He was arrested in Jacksonville Saturday on advice of Sheriff Coleman. Mrs. Beckitt is a sister of Irene, who is about sixteen years old.

The body of the infant was found by a negro. It had been stabbed in the breast and stomach while the back of the head was badly crushed. When found it had apparently been in the water about twenty-four hours.

A coroner's jury was promptly impaneled after the body was found, and spent two days in investigating the affair. The jury ordered Dr. Seymour held as the principal and the others as accessories.

Sheriff Coleman said last night that the charge now standing against Mrs. Beckitt would be dismissed today and he would file another charge, the nature of which he declined to reveal.

Mrs. Whittington and her daughter, Irene, were released from confinement in bonds yesterday afternoon. Beyond the admission of Irene that she was the mother of the infant and the charge that Churchill was the father none held in connection with the alleged crime, have made a statement according to Sheriff Coleman.

Dr. Seymour, in addition to his widespread practise in this section as a physician, was the proprietor of a drug store.

The Whittingtons are of a long-standing residence in this section and highly respected in the community.

A strong array of counsel has been secured to defend the accused. Sheriff Coleman said he understood they would be given a preliminary hearing Wednesday.—Tampa Tribune.

SEVERAL BIG CASES BEFORE SUPREME COURT OF STATE

TALLAHASSEE, March 15.—(Special.)—The supreme court on Tuesday heard oral argument in the case of South Florida Farms Company, plaintiff in error vs D. W. Stevenson, defendant in error. It seems that in 1919 Mr. Stevenson entered into a letter contract with the farm company to become manager of their business at Moore Haven, at a salary of \$250 per month and part of the contract contemplated the sale of the company's 53,000 acres of land in Lee county and 30,000 acres in DeSoto county. If all the lands were sold in two years Stevenson was to get a commission of 5 per cent. on the amount realized; if all the lands in either county was sold in two years he was to get a commission of 2 1-2 per cent. It transpired that all the lands were sold by December, 1919. Stevenson sued the company for commissions and recovered a verdict in the lower court for \$61,000. The farm company took writ of error to the supreme court and the cause was argued on its behalf on Tuesday by Leitner & Leitner of Arcadia, Fred T. Myers of Myers & Myers of Tallahassee, and Judge O. K. Reaves of Tampa. Mr. Stevenson was represented by Treadwell & Treadwell, Arcadia and E. J. L'Engle of Jacksonville.

The court also heard oral argument in the case of South Florida Farms Company, plaintiff in error vs E. E. Goodno, defendant in error. This was an action of ejectment and the plaintiff in error was repented before the supreme court by Leitner & Leitner of Arcadia, while Treadwell & Treadwell of Arcadia represented the defendant in error.

Oral argument was also heard in the case of J. W. Craig, et al, appellees. This was a bill for recession of contract in the sale of real estate. Attorneys for the appellants were: Mabry, Reaves & Carlton of Tampa; for the appellees Treadwell & Treadwell of Arcadia.

PRAIRIE CANAL IS TO BE COMPLETED

TALLAHASSEE, March 15.—(Special.)—The board of commissioners of Everglades drainage district, composed of Cary A. Hardee, governor, Ernest Amos, comptroller; J. C. Luning, state treasurer; Rivers Buford, attorney-general, and W. A. McRae, commissioner of agriculture, yesterday let contract for the construction and completion of Indian Prairie canal lying northwest of Lake Okeechobee.

The board has previously begun the construction of the canal and had completed it for a distance of more than nine miles. The contract let today to the C. R. Cummins Company, general contractors of Cleveland, O., calls for the further excavation and extension of the canal for a distance of ten miles.

The contract specifies that work shall begin on the canal not later than sixty days after the signing of the contract and that the work shall have been completed within twelve months after date of beginning. The contract price is \$112,000.

The completed portion of the canal now runs from Lake Okeechobee to Station No. 483, and the proposed contract will carry the canal to Station No. 1050.

Many prominent attorneys from various points in the state are gathering here to present their cases to the State Board of Pardons, which convened yesterday in regular semi-annual session. The board anticipates a busy session for the next several days.

Two cases to be orally argued before the supreme court Tuesday and Wednesday being other outstanding attorneys, the cases being the gasoline tax case and the state of Florida and St. John's county against the Flagler estate.

WASHINGTON THROWS SPOTLIGHT ON BRYAN

Interested in His Senate Plans

WASHINGTON, March 14.—Although Col. William J. Bryan may never come to the senate from the State of Florida, he is, nevertheless, causing himself to be focused in the political searchlight to a considerable extent.

Under what it calls "Mr Bryan's Bow," the Washington Post yesterday in part, said editorially:

"Mr. Bryan's gesture toward party leadership discloses him in the dual role of a prospective candidate for the senate this year and a budding optimist with respect to 1924. In view of

the fact that he took but little part in the campaign in behalf of Gov. Cox, his return to public attention at this time as the enunciator of a party platform and a monitor for Democratic Senators is scarcely calculated to win for him unanimous acclaim.

"It requires no second sight on the part of Mr. Bryan to see that the economic issue will be prominent in the coming congressional campaign. On the economic issue the silver-tongued one who has transferred his affiliations from the Platte to the Everglades—as giving him perhaps a deeper draft—may be planning to become a political factor in Florida. This issue has strong appeal upon a constituency made up of a cosmopolitan class interested in such advertising as Mr. Bryan might well give in an open forum as the United States Senate, where the free and unlimited coinage of oratory is a basic industry. Is Mr. Bryan seeking a fourth nomination via Miami and the Capitol? Doubtless there will be much pondering upon this problem.

FLORIDA GAINS IN POPULATION

WASHINGTON, March 15.—Florida was the only one of the southern states east of the Mississippi river which showed a gain in population through interstate emigration as indicated by the last census statistics of the census bureau issued Monday show Of the 25 states which gained population through interstate migration, Florida stood eighth.

Florida's gain from that source was placed at 257,375, which total was arrived at by the fact that there are living in Florida 349,624 persons born in other states, while there are 92,249 native born Floridians living in other states.

Of the state's population of 986,740, native born Floridians numbered 560,103 or 57.8 per cent; residents born in other states numbered 349,624 or 36.1 per cent; the foreign born numbered 53,864 or 5.6 per cent, and 4,879 persons were born in outlying possessions of the United States, at sea under the United States flag, American citizens born abroad and those whose birthplace was not reported.

Native born Floridians, as enumerated in the last census, numbered 652,352, of whom 92,240 or 14.1 per cent, were living in other states.

DONEGAN ON TRIAL FOR EMBEZZLEMENT

With the selection of the jury probably being completed by noon, the trial of Arthur E. Donegan, former president of the First National Bank of St. Cloud and the Citizens Bank of Kissimmee, charged with the violation of the national banking laws, will get under way today in the United States district court.

The \$5,000 bond of A. W. Gustus, former cashier of the St. Cloud bank, who was indicted by a federal grand jury along with Donegan, was estreated by Judge Rhydon M. Call yesterday when the defendant failed to appear to be arraigned. Paul R. Weaver, former cashier of the Kissimmee institution, who was also indicted, by a special arrangement with the district attorney did not appear but will be arraigned later.

Donegan pleaded not guilty to all the counts in all four indictments returned by the grand jury. The indictment on which he is now to be tried contains nine counts and charges him with the embezzlement of slightly more than \$40,000 of the St. Cloud bank's notes to his own account. The total amount of the funds involved in the four indictments is about \$200,000 federal officials say.—Tampa Tribune.

\$10,000,000 FOR HOME FOR AGED PRINTERS

WEST PALM BEACH, March 14.—The Florida branch of the Typographical union in session here yesterday recommended in resolutions that the union create a defense fund of ten million dollars to be invested in gov-

ernment bonds, and the income, when not otherwise used, to be set apart to maintain a second home for aged printers and their wives.

J. B. O'Hara, of Lake Worth, was elected president; C. E. Teagarden of Lakeland, vice-president, and Max Moritz, of Winter Park, secretary and treasurer. Lakeland was selected as the next meeting place.

PAY YOUR POLL TAX

All property owners who are duly registered in Seminole County, Florida, and want to vote in the coming bond election next month, must pay their poll taxes by next Saturday the 18th day of March. 801-5tp

Walter F. Helborn, of Brooklyn, N. Y., is expected to arrive today on the boat, and will visit his uncle and aunt, Mr. and Mrs. Walter Hand at their home on the west side.

Mrs. W. A. Mason left Monday for her home in Macon, Ga., after spending the past week as the guest of her nephew and wife, Mr. and Mrs. Nathan Garner at their home on Palmetto avenue.

Mrs. Charles Merriweather, Mrs. M. H. Helborn, and Hassell and Rand Merriweather left yesterday in the land Merriweather car for Palm Beach, and other places of interest on the East Coast.

LEVINE-TATEBAUM

A beautiful wedding was solemnized Sunday afternoon at 4:30 at the Jewish Temple on West Central avenue when Morris I. Levine, of this city, and Miss Sylvia Tatebaum, of New York City, were united in matrimony. Rabbi Safer, of Jacksonville, officiated.

The flower girls, Beatrice Lieberman, Hilda Cohen, Rosalind Fields, and Ruth Schapiro, proceeded the bride and groom, strewn the path with roses, made a charming picture, and were followed by the bridesmaids and groomsmen.

The bride's maids were Misses Rose Tanner, of this city; Ruth Kanner, Rose Narvis, of Sanford; and Miss Bernette Tatebaum, of New York City, and were charmingly dressed in organdies, pastel shades, with hats to match and carried bouquets of various colored sweet peas. The groom's men were Bill Sabyne, of Tampa; Hyman Levine, Harold Seagaland, and Isadore Levine, of this city.

Mrs. J. Cohen, sister of the groom, was matron of honor, and R. Cohen was best man. The bride was given away in marriage by Mrs. H. Levine, mother of the groom, and Mr. H. Levine attended the groom.

After the coronation the guests gathered at the home of the groom's parents, 524 North Orange avenue. An elaborate six course dinner was served. The home was beautifully decorated with many spring flowers now in bloom.

After dinner, and many toasts had been given, the bridal pair, headed by M. Stetner, of New Haven, Conn., who acted in the capacity of toastmaster, telegrams from different sections

were read and enjoyed for their cleverness and originality.

A reception followed with music being furnished by members of the Colasanto band and dancing was enjoyed until a very late hour.

The happy couple left by car for a bridal trip to the East Coast. They will visit Miami, Palm Beach and all points of interest, after an extended honeymoon they will make Orlando their home.—Orlando Sentinel.

SPONTANEOUS COMBUSTION CAUSES MANY FIRES THAT COULD EASILY BE AVOIDED

Many fires occur whose origin is unaccounted for and when the cause is given as Spontaneous Combustion it is considered as an excuse of last resort. That this is really a cause, of a great many more fires than we are aware, is certain. Greasy rags thrown in places where air does not circulate freely is very dangerous and especially so in warm weather. The habit of cleaning with gasoline or benzine and polishing with linseed oil or prepared polish, many if not all contain this ingredient, is extremely dangerous where the rags are neglected. Two cases of this kind has come under my experience. The first of which linseed oil was spilled on cotton goods and cleaned of with gasoline. This fire occurred a few hours after the room had been closed for the night. The second case a janitor cleaned some benches in a church and threw the rags behind the door with the result that the fire got busy.

POLL TAXES MUST BE PAID IF YOU VOTE

IN THE BOND ELECTION THAT HAS BEEN CALLED FOR APRIL 11TH

Property owners in Seminole county are urgently reminded of the necessity of paying poll taxes in order to permit them to vote on the one hundred thousand dollar bond issue, a special election for which has been called for April 11th in Sanford. All taxes must be paid by Saturday, March 18th, and the County Commissioners are anxious to have as large a vote as possible polled at the election. The 1921 law also requires that women free holders must pay poll tax. This county bond issue is a most important one and will afford those who are interested in good roads in Seminole county the opportunity to secure them. The details for improvement as provided for in the bond issue have been carefully planned by the County Commissioners and subsequently endorsed by all the civic organizations of Sanford. They provide for a great many improvements to Seminole county's highway system. Resurfacing the brick roads with tar via and granite chips on the following avenues: Beardall, Geneva, Celery east of Beardall, Gertrude avenue west of Monroe road. The commissioners have also provided for resurfacing 33 miles of macadam roads with tarvia or asphalt mixed with granite chips. In addition to these road improvements the commissioners have included the sum of \$15,000.00 in this issue for the construction of a bridge at Osteen Ferry. With the approval of this issue by the tax payers of Seminole County there will be available sufficient funds to give Seminole county one of the best road systems in the state. It is absolutely essential that roads for which money has been appropriated, be properly maintained. It was with this thought in mind that the Commissioners decided to call this election authorizing the bond issue of \$100,000.00. A large and favorable vote will aid the commissioners in disposing of the bonds more quickly and this can be done by tax payers paying their poll tax on or before March 18th and then casting an affirmative ballot for the issue. Let's make it unanimous.

G. P. PAXTON, Chief Fire Department

METHODISTS WILL BUILD A CHURCH IN JUST ONE DAY

Today a company of carpenters and other artisans will spend the day on the task of the erection and completion, in one day of a tabernacle for the Methodist people who desire a new church house and organization for the northeastern section of Orlando. This structure will be built at the intersection of East Amelia and North Lake streets. Some twenty-five men will work on this job today and it is hoped the building will be entirely completed when the sun goes down. The church organization, itself, will not be perfected until April 10th, when the pastor, Rev. W. K. Pinor, assisted by Presiding Elder, Rev. J. P. Hillburn, and by the pastor of the First Methodist church of this city, Dr. W. A. Cooper, will complete the plans for an organized church, Sabbath school, missionary societies and other church subsidiary organizations as are usual in a completely organized and active Methodist church.

However, the pastor proposes to preach in the new structure, both morning and evening next Sunday, and every Sunday, straight along, following that date. The Queen Esther Circle of the Woman's Missionary Society of the First Methodist church of this city have voluntarily offered to furnish and serve lunch or "dinner" for all who voluntarily give their labor in this cause. Should any carpenter read this announcement and wish to donate a day's labor to the good cause, he is kindly asked to telephone L. M. Orr, Phone 4E-D-W and let him know, that he may keep his plans intact and that the ladies may know exactly how many they will have to furnish the dinner for. A religious survey of this community will be made sometime within the next few weeks.—Orlando Reporter-Star.

Attend the mass meeting at the Court House Thursday night at eight o'clock.

EGGS ARE DROPPING IN NESTS AND PRICE PRESERVE THEM NOW

(By The Associated Press) GAINESVILLE, March 15.—Poultry raisers are urged by Dr. N. W. Sanborn, poultry specialist of the University of Florida, to take advantage of the present low prices for eggs and the large supply, to raise chickens and preserve surplus eggs.

"This a period of low prices of eggs" Dr. Sanborn wrote recently to an interested poultry raiser. "Every hen is on her job. Local markets are overflowing with eggs and prices are dropping. Do not rush your eggs into an already crowded market. Get busy with your years hatching. Use part of this full supply of eggs to produce chicks for eating and for laying. Then put down in water glass your surplus eggs or sell them to people who may be able to interest in this method of preserving eggs. Printed instructions for preserving eggs in water glass, instructions which you may use and pass on to your neighbor, can be had for the asking of the College of Agriculture, or by calling upon your county or home demonstration agent.

ROTARIANS COMPLIMENTED LAST NIGHT

MANAGER GROSE HAD ROTARY CLUB AT MONTEZUMA HOTEL FOR DINNER

The Sanford Rotary Club was tendered a complimentary dinner at the Montezuma Hotel last night by the owners, Messrs. E. A. Douglass and H. P. Smith and the manager, W. L. Grose, and there was almost a 100 per cent meeting of the members to enjoy the hospitality of this fine hotel. President Harry Stevens seated the bunch promptly at 7:30 and the festivities began with plenty of singing and a general good time. Boy's work was the principal topic of the evening and Deane Turner's report was supplemented by a talk from Judge Housholder with the result that \$200 was voted to this important adjunct to the general work of the Rotary Club. The district meeting at Savannah March 23-24 was discussed and President Stevens is very anxious to get at least twelve of the Rotarians and the ladies to attend this meeting and show Savannah the kind of Rotarians they raise in Sanford.

Dr. John Quirt, of Watkins, N. Y., was the only visiting Rotarian at the meeting and he gave a talk on Rotary work in his home city and he also paid a fine compliment to Sanford and Seminole county and especially to Geneva where he is spending the winter.

At the close of the meeting a vote of thanks was given to Messrs. Douglass and Smith and Manager Grose for their happy thought in inviting the Rotary Club to the excellent dinner and the most pleasant evening. The following menus printed in blue and gold and bearing the emblem of Rotary was served the guests.

- Shrimp Cocktail a la Montezuma
Hearts of Celery Mixed Pickles
Oxtail Soup, en tasse
Baked Red Snapper, Sauce Creole
Queen Fritter, Strawberry Sauce
Baked Seminole County Chicken, Oyster Dressing
Candied Yams Butter Beans
Fruit and Nut Salad, a la Rotary
Strawberry Ice Cream and Cake
American Cream Cheese
Cafe Noir Cigars Iced Tea

Attend the mass meeting at the Court House Thursday night at eight o'clock.

Pay your poll tax before Saturday night if you want to vote in the bond election for county roads and the Osteen bridge.

CAR WAS IN GEAR RAN INTO STORE BROKE WINDOWS, ETC.

A car being left in gear played havoc with the windows and front of the store of Robbins Credit Store today. The car was being driven by a negro and he must have left it in gear for when he started to crank it up again it flew out of his hand and broke out the windows and otherwise demolished the Robbins store. Saul Robbins, the proprietor thought the war was being fought over and did not know whether to dodge behind the counter or come out and surrender. We are of the opinion that the negro will have to pay the bill and meantime Saul will have a new front—to the store we mean.

The gentle rain is falling again this afternoon and the crops are growing as never before. If the weather will turn cool now for the celery growers all will be turkey for the season. It is thought the peak of the celery crop will be passed next week.
