HELRY'S FISH CAMP The speck fishin' at Hiley's ind started in and th

ickin' up moss. CROWE'S CAM

worm and top water pugs.

The high winds have really burt fishin' for the part few lays, but don't give up-the fish are there, and there's plenty d them to be caught.

For the next few weeks I will be out of commission on the workin' end, so my good howlin' friend Split-ski will be clatin' for me. So, if everything goes all right, I'll be back in about ing a first-rate basketball three to four weeks. So, good fishin' luck, partner.

DEEP AND SLOW you're not getting fish these days, the odds to-one you're fishing too fast and too shallow. The most exciting type of angling occurs on the surface. iong haul you'll find that most fish in most areas water . . . and by anglers who have For the first time, there'll be the patience to fish their lures at a snall's grawl. deep and slow" is the advice offered to fisher-

s a tip that deserves further consideration. While no theory in fishing is infallible, this business of ching to deep-running plugs when on-top baits fail to pro- Bank. A total of 13 games common sense. During a 24-hour period, the will be offered at a substanflows are good mainly in the early morning and at dusk. tial

The rest of the time, you'll do better in the depths. The biggest handicap to fishing a bottom bait property is impatience which invariably causes him to retrieve too fast. It takes plenty of self-restraint to let an artificial sink down into 15 to 30 feet of water, and then retrieve It so slowly it would play second fiddle to a slow turtle. As a general rule, turn the reel handle one complete turn bout every five seconds. Occasionally twitch the rod tip to make the lure dart forward. The strikes you'll get adequately

supensate for the painstaking retrieve. Another advantage of working the depths with a bottom sumper is the fact that this is the home of big lunkers, fish seldem taken in the shallows.

So don't give up too quickly when you're on the water and action is alow. Gear your fishing accordingly and hug that . . . . . .

# **Do Stores** Start Christmas **Before Thanksgiving?**

## That's a question that's often asked and it deserves a sincere answer!

Your newspaper appreciates the spirit that prompts many of the objections to early Christmas shopping promotions. However, when the reasons for the urge to "Shop Early" are examined, the most critical agree it's MORE than a problem for stores alone.

So we're happy to take this opportunity to present some of the problems that confront all stores at holiday time.

Bierr

Every successful store directs its best effort toward perfecting a helpful service to ALL its customers. And since many customers ask stores to make it easier for them to complete their gift shopping before the crowded - post -Thanksgiving period, Christmas merchandise and displays are brought forward early to accommodate them.

tion could cope with the store traffic that would be generated if any part of early Christmas shopping was postponed until after Thanksgiving. Even under present circumstances most stores are strained to capacity during the peak of the season, to maintain the

kind of store service all shoppers have learned to expect.

When you recall the extremely crowded conditions of stores the final two or three weeks before Christmas the problems become evident.

If no early Christmas shopping were done this condition would be multiplied many fold. (Actually there would not be enough room behind store counters for enough sales people to serve shoppers during this period between Thanksgiving and Christmas.)

The same condition exists in regard to the children's visits to Santa Claus. Thousands of children and their parents look forward to their annual visit with him, and unless he makes an early appearance, many hundreds would be doomed to disappointment, simply be-And scarcely a major store in the na- cause it's physically impossible to reach him in a shorter time.

> Those in the store business know that an extremely large percentage of the Christmas gifts that are selected are items that are in plentiful supply the entire year.

Published as a service to our readers and advertisers by

The Sanford Tierald

MINOLE COMPT'S ONLY MARY MUNICARE

If you were to ask the hundreds of retail employees-(and as a group they represent one of the largest employee groups in Sanford) they would tell you that much of the stress and strain of their Christmas would be relieved if the shopping public would anticipate Christmas shopping throughout the year. (Then you'd seldom hear your friends in retailing remark, "I'm simply worn down to my knees by Christmas Eve.")

Granted that the problem is not a onesided one it should be recognized that stores are faced with the problems of convenient service to customers of maintaining helpful employee relations, of providing a place where those of the public who can not, or do not, plan ahead may select the traditional gifts for their loved ones and friends.

We are sure that if all of our storekeepers could chat with you, personally and informally, that you would be convinced of their sincerity, and that in the true spirit of Christmas they would not be criticized for their efforts to perform a helpful service to their shopping public.
