explained, "thought building of the temple was a true act of kindness until they realized that Herod had built his Roman Army headquarters next door with a tower from which the soldiers could peer over where the most sacred rites took place." The scale model of the temple was left to Elder Jack-

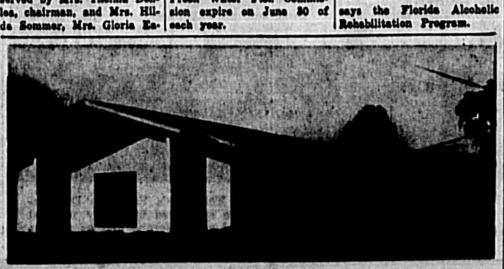

son by will of a friend many years ago. This friend had built it entirely by hand. Elder Jackson made a trip through the Holy Land, Asia Minor, and Europe in 1959-60 and one of his main purposes in making the long journey was to do research on the old temple in Jerusalem where Christ drove the merchants from the temple and performed many of the works that appear in the New Testament. He had dreamed of making the trip for many years, wanting to trace the steps of St. Paul. In Paris, he bought a

There would seem to be very lit-tle left to do. The Great Society has been launched on a tide of laws whose ripples will be felt for decades. The presidential proposals which Congress turned down can be counted on the fingers of one hand—such as repeal of the "right-to-work" clause of the Taft-Hartley Law, raising the minimum wage, home rule for the District of Columbia. The answer given by most observers is that Congress will do very lit-tle major lawmaking in 1966, although President Johnson says he will put a "must" label on about 23

When youngsters ask questions, it is up to us, supposedly "grownup" and therefore wiser, to try to give them the right answers. In this day of sometimes dubious and changing values, that isn't always easy. We must first make sure that we have the true basic answers ourselves. There is no surer way of doing this than by arming ourselves with the faith and wisdom found in the Holy Scriptures and in our churches.
