KICKS THOSE FIELD GOALS
UNIVERSITY, Miss. — Paige Cothren, Mississippi fullback, is a prolific kicker of field goals. In Old Miss' 16-0 victory over Vanderbilt, Cothren made three field goals. They were 26, 27 and 35 yards.
15 MARLIN BOATED IN PUERTO RICAN TOURNAMENT
SAN JUAN, P. R. — The third annual Puerto Rican Invitational Gamefish Tournament was the most successful. Fifteen marlin and two sailfish were boated. In 1955 only three marlin were boated.
 On the final day, with 35 game fishermen in action, only one sailfish was caught. But a 12-year-old boy from nearby Santurce boated a blue marlin weighing 141 1/2 pounds. He got it on a 15-thread line.
 Tackle Gil Mains of the Detroit Lions had more than 150 professional wrestling matches during the off-season.

FUTURE MISS AMERICAS and for sure, a "Peanut Bowl Queen" are among this bevy of lovely sixth graders at Sanford Grammar School. The double-quartet of candidates for the "Peanut Bowl Queen" title includes: (left to right) Carol Ann Fuller, Sandia Hamrick, Linda Williams, Betsy Ross Schuenneman, Martha Henderson, Carolyn Turner, Donna Young, and Bobbie Joe Berry. (Staff Photo)

Membership Drive Starts With Kickoff Breakfast

Candidates Named For 'Miss Peanut Bowl' Contest

Possibilities of a future Miss America loomed recently when representatives of eight sixth grade classrooms were named as candidates for the "Miss Peanut Bowl" title at Sanford Grammar School.

Lined up for their picture, the future young beauty queens posed for photographers in true "Miss America" style.

Selection of "Miss Peanut Bowl" will remain a secret until halftime at the forthcoming title in early December when the annual play-off for the Peanut Bowl Championship will be held in the Sanford Memorial Baseball Stadium.

Normally studious young ladies, the double quartet were showing off their grace and poise during the posing for pictures recently. The top of a table served as a stage for the young misses and they litely and elegantly took their places to show off charm and personality.

The entire school, every boy and girl of it, will secretly cast their ballots for the top choice as "Miss Peanut Bowl." And the results, counted by a yet unnamed, uninterested party, will be widely held until halftime at the forthcoming bowl game — Sanford's very own annual encounter that will draw spectators from far and wide.

The sixth graders who will be competing for the crown are: Miss Carroll Ann Fuller, Miss Sandia Hamrick, Miss Linda Williams, Miss Betsy Ross Schuenneman, Miss Martha Henderson, Miss Carolyn Turner, Miss Donna Young, and Miss Bobbie Joe Berry.

There are no eight young ladies more excited over the winning of the crown than are the eight young Sanford Grammar School misses who are the candidates for the "Peanut Bowl Queen" title.

Wilson Re-Seated As Board Member

Commissioner A. L. Wilson was re-seated as a member of the Board of Sanford City Commissioners last night to fill the unexpired term created by the resignation of former City Commissioner Jack Rattigan.

Wilson will serve as a member of the Board until Dec. 31, 1957. The re-seating of Commissioner Wilson follows his election to fill the post in the recent citywide election held on Nov. 6.

Fair through Wednesday; little change in temperature; low tonight.

U. N. Observers Enter Canal Zone To Watch Over Cease-Fire

Police Unit Departure Postponed

LONDON (AP)—A 12-man team of U.N. observers moved into the Suez Canal zone, no-man's-land today in watch over the cease-fire between French-British and Egyptian forces.

But the departure of the first U.N. police units for Egypt was postponed. U.N. spokesmen said the reason was "flight times and schedules." At the same time, however, a major dispute over Egypt's terms for admission to the police force appeared to be developing.

Egypt consented to receive the U.N. observers several days ago. Her agreement to the police force was announced only yesterday by U.N. Secretary General Dag Hammarskjöld.

The 12-man observer team, including Norwegians, Swedes, Danes and Australians, landed at Port Said in the British-French occupied sector of the canal zone from a landing ship which had picked them up at Haifa. They had been part of the U.N. corps of truce observers in Palestine.

The postponement of the police unit until tomorrow at least was announced by U.N. spokesmen at Capodichino, Italy, where the 180-man vanguard of the international army is waiting.

A spokesman for the Swiss Airline, which is to transport the troops to Cairo, said the Swiss pilots wanted to make a daylight reconnaissance of Cairo's International Airport before attempting landings. A U.N. spokesman explained that it would have been a race today to land the first troops in Cairo before 6 p.m. when the airport is closed for the night for military security reasons.

Swiss representatives said some of the airline's own ground crews may also be taken to Cairo to facilitate operations.

Young fully armed soldiers of Norway, Denmark and Columbia, the advance units of a force that may eventually total 10,000 men, had been expected to enter Egypt today to take up their duties of enforcing Middle East peace and (Continued on Page 8)

Garden Club Seeks To Build Room Onto Civic Center

The Sanford Garden Club, through its president, Mrs. Fred Ganas, formally requested the Board of Sanford City Commissioners at its meeting last night, that they be allowed to pay the entire cost of a room to be built onto the Sanford Civic Center which would be known as the Garden Club Room.

"I represent 350 women," said Mrs. Ganas as she made the proposal before the group of city fathers last night. "We are trying to sell our present building hoping that you will allow us to pay the cost of this additional room."

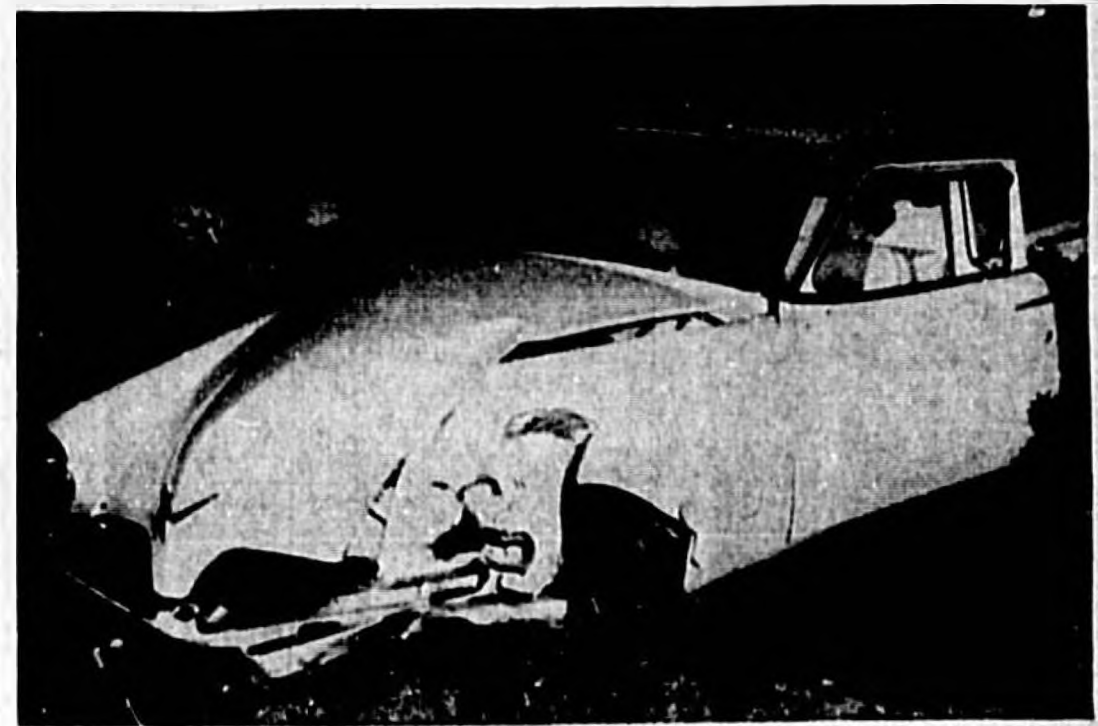

Attorney William C. Hutchison told the Board: "Basically, this is a public building, built on public property, and with public funds. Unquestionable, the city can accept a contribution from the Garden Club for a room that would be named after or dedicated to the Garden Club. However, it could not give you exclusive use of the room."

Mrs. Ganas, on a question from a board member, stated that the Garden Club would in no way be interfered with by noise from children in the recreation activities planned for the Sanford Civic Center. "We would use the room, not for general meetings but for an office in which to keep records, hold board meetings, and sometimes a civic meeting."

Commissioner John Krider said, as a proposed sketch was presented for perusal, "It would be quite an improvement to the Civic Center."

Mayor F. D. Scott remarked, "How are you going to allow the Garden Club to own a portion of a public building?"

Mrs. A. W. Epps Sr., a member and officer of the Garden Club, told the Board of Commissioners: "We have of our own free will practically landscaped all of our public buildings. We teach children in your schools horticulture (Continued on Page 8)

STOPPING APPROXIMATELY 25 feet from the curb this car crashed first into two huge oak trees and through heavy shrubbery. The driver, S-Sgt. Paul Francis Bowers, 27, OAFB, was uninjured. Damage was estimated at \$600 to the car, \$25 to shrubbery. (Staff Photo)

Airman Crashes Into Trees, Shrub; Charged With DWI

An Orlando Air Force Base Staff Sergeant crashed his car into two huge oak trees and through thick shrubbery in front of the home of James O. Duff at 2120 Melonville Ave. last night shortly before 8 o'clock.

Traveling north on Sanford Ave. the car, reportedly west out of Sanford, struck the trees and shrubbery, stopping near the home about 25 or 30 feet from the curb.

Paul Francis Bowers, 27, who gave his home address as 308 Jasmine, New Smyrna Beach was lodged in the Sanford jail and held on a charge of driving while intoxicated. His bond was set at \$300.

Capt. Arnold Williams of the Sanford Police Department, investigating the crash, said damages to the car were estimated at \$600. Shrubbery damages were set at \$25.

The car, a 1953 Studebaker, received a damaged body, frame and front end.

Methodists Host To Sub-District Gathering Tonight

The Methodist young people will hold the monthly sub-district meeting tonight at 7:30 with the local church being host.

The Daytona group will present a program and film on "Alcohol." Captain Arnold Williams of the Sanford Police Department will be guest speaker.

Supper will precede the meeting followed by entertainment and group singing.

Capt. Jackson Is Distributing Naval Pictures To City

Capt. Robert W. Jackson, Commanding Officer of the Sanford Naval Air Station, was distributing this morning a series of framed pictures, released by the Navy Department.

The pictures depict various Navy activities and are attractive etchings showing planes, aircraft carriers, submarines and other Navy facilities.

Two of the pictures were presented to John Krider, Manager of the Seminole County Chamber of Commerce, while others were given to City Manager Warren E. Knowles for placing in the Youth Club, City Hall and other prominent places where the public may view them.

The large pictures, said Captain Jackson were framed at the Sanford Naval Air Station with suitable and attractive oak framing.

Dime Tax On Stadium Tickets To Be Removed

A policy for the use of the Sanford Memorial Baseball Stadium was adopted by the Board of Sanford City Commissioners last night following a lengthy discussion in which all members of the board took part.

John Schirral, president of the Seminole Chiefs Club started the discussion when he appeared before the board to request that the dime stadium tax be removed from the rate of tickets to all Seminole High School football games.

Commissioner John Krider, immediately at the conclusion of Schirral's remarks stated that "We are not consistent in what we are doing. One group comes along and they are allowed to use the stadium—others are not. I thought that recreation areas are created to be used."

Krider then proposed, as amendments to a motion made by Commissioner Earl Higginbotham, that "We waive the 10c tax on all non-profit affairs, then lower the cost for the use of the stadium at night to \$50 with no policemen furnished."

He also incorporated in his suggestions that "Daytime non-profit affairs be free."

Commissioner Krider said "What it prohibits by putting a large charge on its use, hurts more than it helps. I also suggest that use of the stadium for profit will be on our present rate."

Mayor F. D. Scott objected to the move when he said "The way I see it, this is a county expense. I don't see why you gentlemen would want to raise the taxes on everybody for football, baseball or whatnot."

John Kailer, Sanford Jeweler and former commissioner, told the board, "This has been a very aggressive commission. I approve of the suggestion. Just (Continued on Page 8)

Civilian, Military Uniting In Time Of Disaster Okayed

The Board of Sanford City Commissioners last night approved the coordination of civil and military authorities in fire fighting and rescue operations in time of disasters resulting from Naval operations.

Capt. Robert W. Jackson, in a letter to the Board of Commissioners, said that "while it is recognized that civilian agencies are primarily responsible, each agency has a duty to provide rapid and effective aid to those injured or suffering material damage."

The Sanford Naval Air Station Commanding Officer was referring to disasters which occur outside the limits of a naval activity.

Explaining that "One of the opinions voiced by the official board which investigated a recent aircraft accident in the Sixth Naval District, indicating that there was a certain lack of defined authority or area of responsibility in control of the activities of military and civil authorities in the fire fighting and rescue operations," Capt. Jackson submitted a "basis for local coordination in disasters involving Naval operations and equipment."

"The board," said Capt. Jackson, "further intimated that this lack of defined authority may possibly have hindered those concerned in accomplishing their mission."

Capt. Jackson followed a suggestion of the Commander of Naval Air Base in contacting municipal high working agreement in which would be stated the framework for cooperation of the civil and (Continued on Page 8)

Light Discussed To Direct Visitors To Business Area

City Manager Warren E. Knowles was instructed last night to look into the possibilities of erecting a neon sign over the traffic signal lights at the intersection of French Ave. and West First St. directing visitors to the business section of the city.

The suggestion, said City Commissioner David Gatchel, was made by Mrs. Harold Appleby.

"We want a light that can be seen for several blocks," said Gatchel as the proposal met the unanimous approval of the Board of Sanford City Commissioners.

However, the City Manager was instructed to look first into the cost for such a sign, considering the size of the neon lettering and the placement of the sign at its most advantageous point.

Firm Officials Think Swapping Wives Good Idea

BELLFLOWER Calif. (AP)—The president and treasurer of a plastics firm, back from Las Vegas where they swapped wives, say they feel the move "was the best thing for all concerned." Paul H. Omohundro, 41, who heads the company, and Glenn Capps, 46, disclosed that the switch was worked out carefully during the past three years. The couples have known each other for six years. "We took a long time working up to this thing," said Omohundro, "so the children could become thoroughly adjusted to the idea." Omohundro and his ex-wife Rachel are the parents of a 13-year-old girl and an 11-year-old boy. Capps and his former wife Isabel have a 13-year-old daughter and an 8-year-old son. When the wives obtained their divorces simultaneously in Las Vegas Monday each was awarded custody of her children. "Now the children will have the run of both houses," said Capps, adding that all four parents agreed they would have been doing their children no favor in maintaining the former marital relations simply to keep from breaking up the homes. Each couple is moving in a New house, about 10 miles apart.

Veterans Corner

Here are authoritative answers from the Veterans Administration to four questions of interest to former servicemen and their families: Q. Is it possible for a young man or woman to pursue a regular high school education under the War Orphans Schooling program? A. No. Regular high school training is prohibited by the law. To enroll in school below the college level, the young person must have completed or quit regular high school and the below-college course must be one that fits him for a vocational goal. Q. May I attend a foreign trade school under the Korean GI Bill? A. No. The only courses outside the United States permitted under the Korean GI Bill are those offered by approved institutions of higher learning. Veterans living in Central Florida who wish further information about their various benefits should write or visit the VA office at 42 E. Central Ave. Orlando. FOR STEAK LOVERS During hot weather, broil a larger steak than you need. Slice the leftover meat for another meal and heat in tomato and mushroom sauce — the sort designed for spaghetti. Serve the steak and sauce with toast. Q. If I add the total disability income provision to my National Service Life Insurance term policy, will the rates be based on my present age, or on the age that my premiums are figured on? A. The rates would be based on the age that determines your regu-

lar premiums, and not on your present age. Q. Is it possible for a young man or woman to pursue a regular high school education under the War Orphans Schooling program? A. Cavemen Set New Standards

A girl's chances of snaring a tall, dark, and handsome husband may not be as great as they were back in the caveman era, but they're definitely improving.

Americans are getting taller. If they continue at their present rate of growth, there's a pretty good chance they'll catch up to Cro-Magnon standards in a few more centuries. (The Cro-Magnon Man was a tall, dark, and handsome ancestor of Modern Man, who flourished in Central Europe some 25,000 to 30,000 years ago during the last Ice Age. He may well have averaged as much as 5' 10" in height.)

The average height for American men is now 5' 8".

What To Do?

In keeping with these signs of growth, bedding manufacturers throughout the country have decided to increase their production of super-size bedding. First introduced last year, this new, longer way to sleep is more comfortable for the new, longer man and is gaining rapid acceptance from the public.

Who knows — perhaps the sleeping freedom of super-size bedding will hasten the return to the physical perfection of Cro-Magnon Man... sort of reverse evolution.

to a plasterboard or other solid base, is completely finished when it comes from the package. Using it, there's no delay for drying of coats of materials and finishes. Planks and blocks present the beauty of select wood grain reproductions and of "companion colors" styled by famed designer firms. Such variety of treatments and a soft-luster finish make the paneling appropriate for any room addition, whatever its purpose.

Dining Nook In Kitchen Cozy, Handy

To bring coziness to family eating in the kitchen, there's nothing like a dining nook. Located near the range, or perhaps right next to it, the dining nook also has the practical virtue of saving Mother many steps in serving meals and snacks.

The installation of a dining nook presents an opportunity to "dress up" the kitchen, besides making it more useful. Especially suitable for this spot, both because of its rich looking appearance and its service ability, is a wood-grain pre-decorated hardboard paneling.

Applied over any solid material, this paneling eliminates the need for any finishing and assures lasting beauty with its surface of baked plastic. The surface defies soil, grease, moisture, heat, wear and other abuse. It is easily wiped clean with a damp or soapy cloth.

It can be used in various ways to decorate a breakfast nook. It serves well for the top and sides of the table, all exposed surfaces of seats and walls at the inside end of the nook. The paneling can even be bent for seats of curved design.

A serving ledge between the range and the dining nook may enable Mother to get food to hungry mouths without even looking from where she stands while cooking. Such a ledge is another use for the plastic finished hardboard.

On the side of the dining nook, away from the range, a floor-to-ceiling tier of shelves might fit into some plans. These shelves can provide storage for the dining nook, for the adjacent area, or for both if of open design. Topping the shelves with the same paneling will simplify upkeep.

This pre-decorated hardboard, primarily a wall and ceiling material, is available at lumber yards in a wide selection of plain colors and wood-grains.

Former athletes at Maryland, Wake Forest and William and Mary are assistants to football coach Jim Tatum at North Caro-

LIGHTING ENGINEERS have long recognized the advantages of 'daylighting' work areas in the home. For good light from above that eliminates both glare and sharp contrasts, these prefabricated panels are made of hollow glass set in aluminum frames; they also remove the heat annoyances that is common to the old-style skylight. Here panels shed new light in a windowless bathroom, and in a modern-type kitchen.

Practicality New Key

Practicality is the keynote in much contemporary bedroom furniture. Not that good looks have been sacrificed. Far from it. Much of it is handsomer than ever before.

But the dual-purpose influence has taken over the bedroom. Headboards now double as bookshelves and storage units. Bunkies and triple dressers have sections that open into desks. And night tables provide a spot for a lamp and a convenient drawer for night-time necessities.

Practicality is also featured in the growing popularity of super-size bedding. You get all the rest for which you sleep, on those outsize beds. And you can get them now at almost any furniture store. The slogan seems to be: Tall or small, you'll sleep better on super-size.

And housewife's chores are not overlooked in recent designing. The hardware is often recessed or treated so that it will not catch on clothing. Yet it is easy to clean with a minimum number of short-collecting carousels. You'll also find some stainless steel surfaces in use. No need to worry about scratches with them.

Our bedrooms grow more and more beautiful and more and more practical. Super-size bedding is now helping them to become more and more comfortable.

Vanderbilt has beaten Florida six times in eight football meetings.

Choosing Furniture For 'First Home'

Selecting furnishings for their "first home"—be it a roomy house or a snug apartment—is a thrilling and important experience for the about-to-be-married couple.

Naturally, they will allot the major portion of their budget to the "investment" articles like sofas, dining room pieces, bedroom chests, silver, and company dishes. Many young couples, however, fail to realize that their bedding is also an "investment" purchase. It may not be visible to the admiring eyes of friends and relations, but it is no less important than pieces that are! Here is an investment in health and happiness. Laying down well-washed linens is a poor way to store up the pep and sunny dispositions nearly-weds need.

This is a period of adjustment for them, and they need all the rest and energy they can get. Don't forget, bedding is one of the most used items in the home—eight hours every night!

OLD WALLS will take on new beauty and smartness with Easy-to-install economical, textured plywood panels. They are easy to clean, keep their new look for years, and are a perfect complement for all types of decor.

Navy Cruisers Stow Sleeping Comfort Aboard

In converting two Liberty ships into YAGRs (the puzzling code for ocean radar station vessels), the Navy replaced the old type bunks with three-quarter size beds. Because the nature of their duty will require the vessels to remain at sea for long periods, the Navy wants the crew to be as comfortable as possible. As evidenced by the growing popularity of extra-wide and extra-long, super-size beds, more room means more sleep.

PROTECT YOUR HOME with Sta-Dri MASONRY PAINT

8th STREET & FRENCH AVE. SANFORD. PHONE 711

HERE'S HOW you can use wallpaper to set apart a special nook in any room. The right wallpaper can set off areas like this without disturbing the over-all harmony of the room. Select a paper with a predominant color that will blend in with the rest of the walls in the room.

Adding Room? Wall Finishing Can Be Quick, Muss-Free

When planning an addition your house needs for a growing family, the homemaker can cast a vote for quick completion and against construction muss by choosing a pre-decorated hardboard paneling as the wall and ceiling finish.

The house need not be upset when this type of dry-wall finish is used.

As a matter of fact, the convenient sizes of these panels and their ready-fit, tongue-and-groove design have encouraged many husbands to do the installation themselves. There's another advantage accrues—a saving in labor. Pre-decorated hardboard paneling applied with wallboard adhesive

2:00—3:00—Flower Show practices
3:00—Point scoring exam
Thurs.—9:30—Written exam.

Post Office Offers Christmas Mailing Services To Patrons

Postal patrons this coming Christmas season can speed the processing and assure quicker delivery of their Christmas parcels and cards by availing themselves of various postal services and free postal information pamphlets. Sanford Postmaster Joel Field announced today.

The services mentioned by Postmaster Field include:

1. This year, for the first time, sealed parcels may be mailed at the third- or fourth-class postage rates without labels, notations, endorsements or hieroglyphics of any kind authorizing the opening of the parcels for postal inspection. Packages sealed with modern sealing materials or even with just plain Christmas seals should carry better in the mail than unsealed ones. Strong cord should also be used.
2. Combination Mail, which was used for the first time during last Christmas season, and which permits a mailer to enclose a letter or message inside a gift parcel and pay the appropriate postage on it plus the postage for the package itself.
3. Certified Mail, also used for the first time in the 1955 season, which permits mailers to have proof of delivery of Christmas letters, cards or parcels having no intrinsic value for a postal fee of 15 cents plus first-class postage.
4. Registered mail which provides greater security protection to letters and parcels carrying items of real financial value.
5. Special Delivery mail which is given immediate delivery at the office of address during prescribed hours.
6. Airmail and air parcel post which provides quick delivery of cards and parcels to all sections of the country.

The free postal pamphlets—available at all post offices—are entitled "Packaging and Wrapping Parcels for Mailing" and "Domestic Postage Rates and Fees". Used together, these pamphlets should answer practically all questions any Christmas mailer might have on fees, rates, special services and protection of Christmas parcels in transit.

The Sanford Postmaster emphasized the importance of separating local and out-of-town mail. Free labels for that purpose are available at post offices.

V. F. W. Auxiliary Has Thomas, Brown As Guest Speakers

The V. F. W. Ladies Auxiliary to Post 3282, held its regular meeting Tuesday night, the president Mrs. Ruth Smith presiding over the meeting.

They were privileged to have Michael Thomas, Post Commander and Mr. Brown, Post Chaplain, as guest speakers on the Buddy Poppy Day which will be Saturday, Nov. 17.

After the meeting, there were refreshments of hot coffee and cookies served to the ladies, games were played and every one had a nice time. Mrs. Betty Smith and Mrs. Evelyn Diabrow served refreshments.

Meeting was closed by a prayer from the chaplain, Mrs. Margaret Dillard.

BON JACKET with Norfolk seaming and tab side belts is shown here in a brown and beige Deventree tweed suit. It is from the Davidoff collection for fall and winter. Four buttoned patch pockets detail the jacket front. Smart worn alone on mild days; and later, under a warm cold-weather coat.

'Eloise' Will Be Presented On TV

By CHARLES MERCER
NEW YORK (AP)—Here are a few words from "Eloise" who is six years old and lives at the Plaza Hotel in New York with her nanny because her mother is always seeking the son somewhere:

"I am all over the hotel. Half the time I am lost. But mostly I am on the first floor because that's where catering is. So I have to go down there every day for at least three hours and sometimes I have to go at night. Oh my Lord do they ever have a lot of things going on down there."

Besides being a widgeo who lives at the Plaza, "Eloise" is a book and a popular recording—and now she's going to be a television comedy. On "Playhouse 90" CBS-TV Nov. 22, with 7-year-old Evelyn Rudie playing the title role and a large cast including Monty Woolley, Ethel Barrymore, Louis Jourdan, Mildred Natwick and Conrad Hilton, the hotel man. And, of course, Kay Thompson.

For Miss Thompson, who has created much music and laughter in night clubs and movies, also created "Eloise." Thought her up all by herself, she did. Not on purpose, but accidental like.

Back in 1948 she came into Las Vegas to play a club with the four Williams boys. It was 114 degrees or something in the shade and everybody was either tired or tense when Miss Thompson, who can imitate almost anything, began talking in the high, penetrating voice of a very small girl.

So "Eloise" was born. The Williams boys and others within ear shot were so delighted with her that they refused to speak to Miss Thompson. They'd only talk to Eloise.

As the years passed, "Eloise" grew in popularity. Whenever Miss Thompson introduced her at a party, half the people would ignore Miss Thompson and speak only to Eloise.

FOR THE U. S. MARINE CORPS and their 181st Birthday! Cpls. G. B. Drawdy and James H. Rice accept the huge birthday cake from the Foodmart's Ass't. Manager Tony Trama. The cake was cut at Saturday night's banquet and ball held aboard the Sanford Naval Air Station. (Staff Photo)

What puts the Mark of Tomorrow in the new kind of FORD?

Here's what puts the Mark of Tomorrow in the new kind of Ford!

It's the sculptured look. You'll see it the moment your eyes wander over this fine car. In a '57 Ford you belong... anywhere.

It's the long, lean lines. There's a greyhound grace to this Ford. No useless "fat," no showy "padding." It's as trim as a jet fighter.

It's the hardtop styling. Fairlane sedans have the hardtop look of Victoria! Superthin, superstrong center pillars are smartly concealed to give hardtop beauty when doors are closed.

It's the freedom of choice. Colors? Fabrics? Accessories? Far more than that! Ford gives you a choice of two new, bigger sizes... longer, lower, roomier!

It's the ride that stays gentle. With a new frame that rides sweeter and lower, new springs, new suspension all around, even the roughest roads can't rattle the poise of the new Ford.

It's the Thunderbird power. Ford celebrates its Silver Anniversary of V-8 leadership with the biggest selection of V-8's in Ford history.* In addition to all this Thunderbird GO, there's a new and more powerful Mileage Maker Six.

Just looking at this Fairlane Club Sedan is a special kind of fun!

It's the record-breaking performance. On the Salt Flats at Bonneville, Utah, a '57 Ford traveled 50,000 miles in less than 20 days... an average speed of 109.16 mph, including all pit stops! Another Ford averaged over 107 mph. Altogether, 458 national and international performance records were smashed as Ford rewrote the record book.

It's the big dollar value that lasts and lasts. Styled for tomorrow, a new Ford keeps its value longer. And wonder of wonders, all this extra strength, extra beauty, extra length is yours at low Ford prices!

*Included is a special 200-hp Thunderbird 312 Super V-8 engine available at extra cost. Also, 40 extra high-performance Thunderbird 312 Super V-8s delivered up to 330 hp.

Wise man says: "Don't wait for TOMORROW when you can get it today!"

- Tiled Baths
- Spacious Rural Charm
- Concrete Block Construction

GROWTH Is A Big Business Too

During the past 21 months Odham & Tudor, Inc. (builders of South Pinecrest) have built and sold 281 homes in Sanford for a total sales value of \$2,759,000. This represents more dollar room than the construction intake of our beautiful new Seminole Memorial Hospital, our recent power improvement program, and the widening and re-building of French avenue ALL COMBINED. "Growth" is indeed a big business.

Within the next few years the population of Sanford is expected to double and triple and double again. To help meet this fabulous growth . . . to house these thousands of new people . . . Odham & Tudor will build, and build, and BUILD . . . More and more families want to make Sanford their home . . . When they get here we are going to be ready for them with the best Florida home they can buy for the price anywhere.

THESE, AND MANY OTHER FINE QUALITIES
OF A FINE, MODERN FLORIDA HOME
ARE FOUND AT —

SOUTH PINECREST

AND THE COST IS ONLY

\$11,200 to \$13,500
