NUMBER 46

CHINESE BANDITS FAILED TO MAKE GOOD THE THREAT KILL ALL THEIR PRISONERS

AT LEAST NO WORD HAS BEEN RETURNED ABOUT THEIR DEATH

TROOPS WITHDRAW As Bandits Demanded and Nearest Soldiers are Six Miles Distant

(By The Associated Press) SHANGHAI, May 22.—"Zero hour" for Suichow bandits has passed and no announcement has been received from the brigand stronghold of any execution. The government troops are withdrawing as bandits demanded. The nearest soldiers to the bandit stronghold now is six miles distant.

TIENSIN, May 22.—Latest services from Thachwang confirmed the complete deadlock reported in the negotiations conducted by the Peking government in an effort to obtain the release of foreigners held by bandits in the Shantung mountain stronghold. The conditions under which several foreign captives held at the summit of Patokku mountain are described as terrible.

WASHINGTON, May 22.—Pessimistic reports were received yesterday from American officials in China, as to the probability of success for the release of Americans and other foreign hostages held by the brigands. As a result, concern was felt in government circles, but the state department was not swayed from the conviction that the only practicable means of dealing with the situation was through the Peking diplomatic council.

So far as could be learned no move was afoot to intervene from Washington in Minister Schurman's efforts, inasmuch as his diplomatic colleagues were working to bring about the release of the captives unharmed. It was made plain that the Washington government was relying on its representatives on the scene to consider every angle of the admittedly delicate situation and find the most hopeful course to pursue. The position is taken here that any other course might be fraught with extreme danger to the captives.

Dispatches from Consul Davis and Major Philson, relayed by the Peking legation, expressed the opinion that the negotiations with the brigands would be futile unless there was at least unofficial foreign intervention in the conversations. They reported that Roy Anderson, an American of long residence in China, with personal acquaintance with some of the bandits, had volunteered to join with the Chinese authorities in new efforts to reach an arrangement, provided he was clothed with full powers to act by the Chinese government.

Lacking such development it was the opinion of the American observers that there remains only a resort to direct negotiations by the foreign governments, presumably through the agency of the diplomatic council and the brigand leaders, a situation which the Peking diplomats have thus far sought to avoid.

At the state department, it was emphasized that the immediate question of obtaining the release of the captives and the future protection of foreigners in China against similar outrages hereafter are regarded as distinct and separate problems. Officials have no doubt that means can be found to make China more secure in the future, although they would give no inkling of the steps by which that result would be accomplished.

HONGKONG, May 22.—American officials have been unable to obtain any confirmation of reports that the American gunboat Pampana had been fired on by soldiers below Wuchow. The Pampana is expected here Wednesday. The report that a British gunboat had been attacked by and had returned the fire of Cantonese soldiers is without foundation. The number of intellectuals grows steadily, but there still are enough real people to make the world interesting.

NEW TREATY IS DRAFTED SPAIN AND U. S.

WOULD SUPPLANT OLD TREATY OF COMMERCE

(By The Associated Press) WASHINGTON, May 22.—Draft of a new treaty of amity and commerce between the United States and Spain has been forwarded by the state department to Alexander P. Moore, American ambassador at Madrid, to be negotiated by him with Spanish government. The proposed convention would supplant the old treaty of commerce, which was denounced by Madrid government November last year at which time notice was given the United States that within a year.

STANLEY BALDWIN IS NEW PREMIER OF OLD ENGLAND

YOUNG IN POLITICS BUT STRONG WITH MAJORITY OF PEOPLE

(By The Associated Press) LONDON, May 22.—Stanley Baldwin is Great Britain's new prime minister. He accepted the premiership offered him this afternoon by King George. Baldwin's period of political experience is one of the shortest among the British statesmen who have attained this goal of their ambitions as it is only within the last few years that he has been prominent in politics, and only last few months became at all a commanding figure. The solution of the premiership problem thus suddenly thrust upon the country is regarded as unquestionably a keen disappointment to Lord Curzon, who two days ago was regarded almost certain to succeed Bonar Law.

PANS HARRIS BILL TO TIGHTEN BAR ON LABOR RECRUITERS

TALLAHASSEE, May 22.—The house passed yesterday 32 to 24 a bill by Representative Harris designed to protect the employer of farm laborers from a disorganization of his force. Representative Weeks said it was a return to chattel bargaining. Representative McNeill gave notice that he would ask for a reconsideration.

The measure would provide that an employer or a labor recruiter before he shall solicit labor in other than the his resident county must register with the sheriff of the visited county his name and purposes. He must register what laborers he expects to get and where he expects to take them. He then cannot enter upon the premises of any employer to solicit laborers thereon unless he obtains the permission of the owner. Should he finally engage any laborer he must register such laborer with the sheriff, stating not only where the laborer is to be taken but he must name the members of the family that plan to accompany him.

Mr. Harris in support of his bill said there were men who made it a business of disrupting the laborers of West Florida farmers and that the laborers, mostly irresponsible negroes, ran away leaving unpaid bills at the commissary.

Former Deputy Sheriff Granted Continuance of Cases Until Fall

(By The Associated Press) ST. AUGUSTINE, May 22.—Former Deputy Sheriff Sabats, his son Robert, and Robert Andreu entered temporary pleas of not guilty when arraigned on indictment charging conspiracy to violate the prohibition law. They were granted continuance until next term of court, because of the absence of their attorney, Senator MacWilliams, who is attending legislature session.

COMMENCEMENT WEEK AT THE SANFORD SCHOOLS WILL START THURSDAY NIGHT

Busy Week With Various Events at the High and Grammar Schools

The Commencement Week at the Sanford schools will begin Thursday night and the following is the program for the week: Thursday night—Mrs. Munson's Musical Recital at the High School Auditorium at 8:15 o'clock. Friday night—Junior-Senior Banquet at Valdez Hotel at 8 o'clock. Sunday morning—Baccalaureate Sermon at High School at 11 o'clock by Dr. King. Tuesday night at 8 o'clock—Alumni Banquet at the Piazah House. Monday Afternoon at 3:30 at High School—Class Day Exercises. Monday Afternoon at 5:30—May Pageant and Commencement of the Grammar School at the School House. Monday night at 8:30—Graduation exercises of the High School at the H. S. Auditorium. Address by Dr. Carpenter.

TWO POLICEMEN WERE KILLED AND SEVERAL WERE WOUNDED IN GUN BATTLE IN JERSEY CITY

With Hold-Up Man and Woman Barricaded in Their Room

(By The Associated Press) JERSEY CITY, May 22.—Two policemen were shot to death and two others seriously wounded today in a gun battle when they tried to arrest Frank Sayes, holdup suspect at his residence. Sayes and a woman companion were finally caught by police reserves after being taken from the house by gas bombs.

JERSEY CITY, May 22.—Detective Sergeant Black and Patrolman Ware were killed outright and Lieut. Harry Otis and Detective Walton were wounded when six officers went to the house to arrest Sayes in connection with a recent holdup in which nine thousand dollars were stolen from the public service corporation. Says saw them coming and opened fire from a rear window. Walton dropped. Otis, Black and Ware rushed the building and gained entrance. After they had been inside a minute or so there was a volley from the second floor. Two officers who gained entrance found Otis, Black and Ware, the latter two dead and lying outside the door of Saye's bedroom. The reserves were called and succeeded in routing Sayes and the woman.

THE FEDERAL RESERVE BOARD ADVISORY COUNCIL PUTS OFF SUBJECT OF CREDIT IN MEETING

Foreign Plan Remains Matter of Discussion Here and in Europe

(By The Associated Press) WASHINGTON, May 22.—The federal reserve board's advisory council at its regular quarterly meeting yesterday sidetracked subjects of credit and general economic conditions for a discussion of whether federal reserve banking activities should be extended to foreign lands. Indications were that the session would be devoid of conclusions and that the discussions would continue today. Applications of the Boston and Atlanta reserve banks for permission to place agencies in Havana, pending for some time before the board, have opened up the broader question as to whether the precedent that would be established by favorable action on either would be proper. It was made clear that the council members were not concerned with the merits of the two applications which have caused a near controversy and that the discussion dealt entirely with the subject in the abstract sense. The state department already was giving its approval to the project of establishing an agency in Cuba, indicating its belief that such an extension might aid in bringing about closer relations between the two countries. It seemed, however, that some of the council members feared that a precedent would be established in granting an application for a Cuban agency that could not but apply to branch requests in other foreign countries.

Most of the council members, as individuals and banks themselves, were represented as opposing the policy, because they believed it would constitute extension of government competition to private banks and would embark the reserve board on a policy the end of which could not be foreseen. An official of the government, however, their attitude generally was said to have been favorable to a large degree to the proposal for an agency in Cuba, which has steadily increasing trade relations, with the United States.

These trade requirements it was generally was said to have been favorable to a large degree to the proposal for an agency in Cuba, which

has steadily increasing trade relations with the United States.

BAND CONCERT CENTRAL PARK THIS EVENING

The Sanford Municipal Band will render their regular concert tonight in Central Park. The following program will be rendered: March—Waldmire.....F. H. Losey Selections from Marthas.....V. Plotow Baritone Solo—There is Silver in Your Hair.....C. Bennett Patrol of the Dutch.....H. Restorff Intermission Waltzes—Moonlight on the Hudson.....A. Herrmann Characteristic Parade of the Wood-soldiers.....Leon Jassel Popular Songs of '23— Byron Gay (a) Fate..... (b) I'm Just Wild About Harry.....Siegla & Blake Overture—A Prince There Was.....Berg Star Spangled Banner

SENATE MOVED TO PROTECT NEW GAS TAX

SHOULD COUNTY TAX BE UNCONSTITUTIONAL TO GO TO GENERAL FUND

(By The Associated Press) TALLAHASSEE, May 22.—The senate moved to protect the three cent gasoline tax measure when in concurring in the house amendments it inserted a clause providing should one cent tax to be distributed among the counties be declared unconstitutional it would revert to the general revenue fund and the remainder of the act would not be involved.

SENATE REFUSES TO SANCTION THE BILL TO UNMASK TIE K. K. K.

TALLAHASSEE, May 22.—An anti-Ku Klux Klan measure applicable only to Escambia county, drawn by Senator Stokes along identical lines of a state-wide measure introduced by Senator Russell, came obstructively to the floor of the senate yesterday and in the same manner was killed 17 to 7. Not a word was spoken concerning the bill aside from the customary reading by the. Everybody displayed poker faces and newspapermen read it again to see if they were mistaken in their interpretation of it. The measure would have made it unlawful for anyone to appear masked on the streets or alleys of Escambia county exempting, of course, masqueraders. Mr. Russell's bill is still on the calendar with no interest being manifested in it.

HOUSE WOULD HAVE TUITION IMPOSED ON NON-RESIDENTS

TALLAHASSEE, May 22.—A committee substitute for a measure by Representative Getson providing that a tuition shall be paid by non-resident school children was passed by the house yesterday. The measure would provide that a tuition of not less than \$4 a month be paid for non-resident pupils of graded schools and not less than \$6 a month for high school students. The tourist centers of the state would be affected mostly by the bill, where, according to proponents of the measure the home children are crowded out in the winter time when the tourists come because of inadequate facilities.

Representative Taylor of Highlands, opposed the bill, declaring that the question should be left to the individual counties to decide. Representative MacKenzie of Lake, pointed out that that was a thing that framers of the measure wanted to get away from. When one county charged a tuition, he said, a rival county would immediately advertise free schools to attract the tourist patronage.

LIMIT CANDIDATE FEE IN FLORIDA

TALLAHASSEE, May 22.—The House Saturday passed a bill by Representative Merchant, which would amend the statutes to limit to one per cent of the annual salary or income of the officers sought, the fee required of candidates for public office in this state. The maximum fee now is three cents. For quick results try a want ad.

TURKISH TROOPS REPORTED TO HAVE BLOWN BRIDGE BETWEEN ADRIANOPLE TODAY

SOCIALIST PARTY IN CONVENTION HONORS MEXICO

WOULD ASK UNITED STATES TO RECOGNIZE MEXICO

(By The Associated Press) NEW YORK, May 22.—The Socialist party in annual convention today adopted a resolution demanding the United States to recognize the present government in Mexico. Amnesty for "political prisoners" now in federal prisons was demanded in another resolution. The resolution also deplored what described as "persecution of Upton Sinclair" and demanded repeal of criminal syndicalism law in California.

NO WOMEN ARE WANTED ON COMMITTEE

IN PRESBYTERY AND REQUEST FROM FLORIDA TURNED DOWN

(By The Associated Press) MONTREAT, N. C., May 22.—Disapproval was stamped today on the overture of the Presbytery of St. Johns, Florida, asking that at least one woman be placed on each executive committee in majority report of standing committee on bills and overtures prepared for general assembly of Southern Presbyterian church here. While no announcement was made it was expected the minority statement requesting places for women on the executive committees would be submitted. The overture has been considered by the commissioners as one of the most important of the session. San Antonio, Tex., was selected for the next general assembly.

Lyman Damon Suicided, Remains Sent to Home in Harmony, Ind., Today

Bricklayer Killed Himself Sunday Afternoon Near French Avenue

A brick layer named Lyman Damon of Harmony, Indiana, killed himself Sunday night by shooting himself with a revolver the first shot taking effect in his heart and killing him instantly. He had a room by himself in a small house near French avenue and the neighbors hearing the shot went to his home and found the body. No reason is assigned for the deed by those who knew him. Damon had been living here about eleven months and was about 38 years of age. The remains were prepared for burial by T. J. Miller & Son and will be sent to the home of the deceased at Harmony, Indiana, this afternoon.

Every Presbyterian Minister and Member and All Students Will Sign Total Abstinence Pledge Says Bryan

(By The Associated Press) INDIANAPOLIS, May 22.—William Jennings Bryan today won his fight for demand that every Presbyterian minister, church official, church member and faculty and students of denominational schools to sign total abstinence pledge. Effort to limit pledge signing to church members and students was rejected by the general assembly.

Florida Legislature Will Not Memorialize Congress on Whiskey

(By The Associated Press) TALLAHASSEE, May 22.—The legislature will not memorialize Congress for protection against whiskey smugglers, the senate today falling to concur in the house resolution with that effect. The resolution was lost in the senate on a split vote.

CUTTING COMMUNICATION WITH KARGATH CAUSES CONSTERNATION IN CITY OF ATHENS

And Brings Subject of Turk and Greek War Right up to the Peace Committee

(By The Associated Press) ATHENS, May 22.—Turkish troops are reported to have blown up the bridge over the Maritza river connecting Adrianople and Kargath. The news caused consternation here.

LAUSANNE, May 22.—If Turkey insists on war to settle the question of the indemnities, she claims is due from Greece, then Greece will accept the gaze of battle, M. Alexandris, the Greek Foreign Minister told the foreign correspondent last night.

The Greek delegates, he added, will be withdrawn from the Near East Conference this week, if Turkey persists in her reparations demands. The Turks have given no indication of an intention to recede from the reparations demands, and M. Alexandris declared that Greece was resolved not to pay one cent of indemnity brought increased pessimism in conference circles. The Greek foreign minister denied that he had come to Lausanne in the bellicose mood, but said that the Greek army had been reorganized since the overthrow of Constantinople and was now fully equipped and armed and able to take care of itself. "I think," he said, "if the worst comes, to the worst the Greek army will be able to defend its position."

M. Alexandris added he would like the American people to realize the Greek position, simply that although Greece would be reasonably justified in reopening the war with Turkey, she had ignored the grounds because she was sincerely desirous of peace. The Turks and Greeks signed a separate agreement on the exchange of populations, which stipulated that it should be in operative before May 3, yet the Turks have sent a number of refugees during the Lausanne conference.

Presbyterians to Remain as Members of Church Council

(By The Associated Press) MONTREAT, N. C., May 22.—Decision to remain in the Federal Council of Churches of Christ in America, paying \$750 of the organization's expenses, but stressing the doctrine of remaining out of political matters, and consideration of changes in the book of church order were the chief developments of today's sessions of the general assembly of the Southern Presbyterian Church. The action of the assembly favoring the retention of its membership in the council came after the committee on foreign correspondence minority report, favoring immediate separation, and several amendments and substitutes had been voted down. Criticism of what was termed interference of the Catholic church in state affairs, mention of the Ku Klux Klan and charges that the council in Washington is maintaining a lobby in behalf of protestant churches interested in the enactment and enforcement of civil laws figured in the heated debate. "The only safety to protestantism in America, declared Dr. E. W. McCorkle, Rockledge, Fla., "is to have an organization in Washington to act as a buffer against the great and unscrupulous power of Roman Catholicism," adding that the council also holds in its hands the "valuation of protestant churches."

In reply to this contention, J. E. Sawtelle, Wacala, Tex., who headed minority committee, asserted the council is co-operating with the Catholics and is in the "clutches of Catholicism." Nothing would please him more than to learn that the Protestant churches of America were attempting to influence the Washington government through the council," he declared. The Herald delivered six times a week for 15c.

SOCIETY

MRS. FRED DAIGER, Society Editor
Phone 217-W

If you have any friends visiting you — if you are going anywhere or coming home, or if you are entertaining, write a postal card to this department, giving details, or telephone the item. It will be greatly appreciated.

SOCIAL CALENDAR

Monday—Sanford Choral Society will meet at Parish House at 8 p. m.

Tuesday—Mrs. Fred Walmsa will entertain the members of the Tuesday Duplicate Bridge Club at her apartments at 3:00 p. m.

Tuesday—Play "That Twelve Found Logic" by Welfare Department at High School Auditorium.

Wednesday—Literature Department meets at Parish House at 3:30 p. m.

Thursday—Commencement recital by pupils of Mrs. Fannie Munson at the High School Auditorium.

Carl Schaal and party motored to Kissimmee yesterday afternoon.

Dr. and Mrs. Mitchell and party motored to Orlando yesterday where they spent the day.

J. D. Evers, of Boston, Mass., who is in Hastings on business, spent the week end here with friends.

Floyd Wallace and Mr. Hollander, of Clearwater, motored over to Sanford yesterday and spent the day here with friends.

Misses Thiberta Aycock and Patsy Lyle and Peter Schaal and Mr. Brooks were a congenial party motoring to Daytona Beach yesterday afternoon.

Mr. and Mrs. C. Duffin, Mrs. Mary Schaal and Clarence Duffin made up a party motoring to Daytona Beach yesterday afternoon.

Graduates—see Lloyd's Shoe Store advertisement in this issue. The chance to get your sandals, white canvas shoes and black and brown Oxfords. With every purchase a coupon is given which entitles you to a photo of yourself. Red the advertisement.

ment in this issue naming prices for many bargains in the Piece Goods Department.

LOCALS

B. F. Wheeler, the efficient county commissioner from Oviedo was in the city today on business.

Ed Farnelle one of the busy business men of the Oviedo section was among the visitors to the city today.

Mrs. B. G. Smith of Oviedo was in the city today and reports B. G. a being too busy to come in and see his Sanford friends.

Mr. and Mrs. W. R. Wesley of the Wrigley Engraving Co., of Jacksonville, were in the city today calling on the local printing trade.

William A. Wright, of Tampa, the father of Harold Bell Wright, is visiting his friends, Mr. and Mrs. E. M. Essex here.

Hon. Forest Lake is home from Tallahassee to attend to business and also to confer with the people about several measures.

Charles Haag, who has been connected with the Hill Lumber Company for several months left Sunday for West Palm Beach where he has accepted a responsible position with one of the largest lumber concerns in the state. Mrs. Haag will join him in a few weeks.

Mr. and Mrs. H. A. Neel have gone to Miami for a few days and are guests of the Hotel Ta-Miami. The Ta-Miami is a regular advertiser in the Herald and it is expected that Mr. Neel will arrange to handle the publicity for this hotel again this summer.—Ta-Miami News Notes.

SHERIFF HAND HAD JOB GETTING PRISONER HERE FROM TENNESSEE POINT

Sheriff Hand has just returned from Tennessee where he went to get a man named Slaughter, alleged to have stolen an automobile from the Buick Company here. He first said he would waive requisition papers but after getting to the place where the man lived his relatives kicked and said they were killing prisoners down here in Florida and they would not allow their relative to be killed. Sheriff Hand said he had to do some promising that the prisoner would

get the right treatment before he was allowed to proceed and he was right glad to get away from that neighborhood without any trouble. Slaughter will be tried at the next session of the Circuit Court.

The Herald delivered six times a week for 15c.

RESOLUTIONS FOR A. P. CONNELLY

The following resolutions were passed by the Board of Governors on retiring President A. P. Connelly:

WHEREAS: A. P. Connelly has concluded a year of strenuous service as President of the Sanford Chamber of Commerce, and

WHEREAS: the able efforts he has expended and the zeal he has displayed and transmitted to his co-workers have been responsible for the wonderful record of real accomplishments of the Chamber during the past fiscal year, and

WHEREAS: the accomplishments of the Chamber under his guidance as president, in turn, have resulted in a pronounced development of Sanford along all lines, therefore,

BE IT RESOLVED: that the Board of Governors of the Sanford Chamber of Commerce he recorded as being deeply appreciative of all that has been done by their former president, that his work in the service of Sanford has proven him to be imbued with the highest civic pride, and that appropriate resolutions to this effect be presented to him, spread upon the minutes of the Chamber of Commerce and published in the Daily Herald.

R. J. HOLLY,
JOHN MEISCH,
A. E. YOWELL,
R. C. BOWER,
FORREST LAKE,
S. O. CHASE,
B. F. WHITNER,
J. G. BALLI,

Attest:
R. W. PEARMAN, Jr.,
Executive Secretary.

MASS MEETING THIS MORNING AT COURT HOUSE DREW CROWD TO HEAR ABOUT VARIOUS BILLS

(Continued from page 1)

mission would be three free holders selected from the citizenship of the county at large as commissioners. The bonds would be issued against the property affected only as a reclamation project secured only by revenues, assessments and taxes on the property affected and not against the property of the whole county and payable only from bonds of this nature. That it was very difficult to market any bonds that were not secured by the delinquent penalty clause which was put in every instrument that was affected by bond issues or warrants and this was the eight and ten per cent clauses in the bill. The expenses of the roadway that would be the state highway would be borne by the county. That the time it would take to retire the bonds could not be determined at this time and in the event that some of the property owners wanted to pay for the bonds the first year and cut down the interest the one year clause was put in the bill but with no intention to cause anyone a hardship and it could be eliminated and the people affected could make the payments one, or ten or twenty but any longer time would affect the sale of the bonds. All this would be determined by the people who would petition for the bulkhead work to be done and could not be worked out now. The interest rates would naturally affect the sale of the bonds and there was no assurance that the bonds could be sold.

Talks by F. P. Forster, Col. G. W. Knight and Frank Woodruff brought out other points about the bill and Lewis O'Bryan, of the firm of O'Bryan & Sharon, the attorneys of Mr. Smith, also discussed the matter with Mr. DeCottes and Mr. Smith finally said he would probably be able to work out some plan with Mr. DeCottes before he went back to Tallahassee to push the bill. It is hoped that this matter can be adjusted to the satisfaction of all concerned and that the bulkheading of Lake Monroe from the city limits to Monroe and from the eastern limits to Osteen Ferry can be accomplished at some time in the near future and meantime it is supposed that the bills will become a law giving the property owners the right to bulkhead when they so desire as it would be one of the greatest accomplishments of modern times and make this city and county one of the best in the state in health and wealth and beauty. The county court matter was then taken up and as the representative of the Herald was forced to leave to attend another meeting only the facts in the case can be given.

Several members of the bar association and several citizens were heard on this matter and it was finally decided to approve the action of Mr. Lake in passing the bill creating a county court for Seminole county. Other questions may be taken up this afternoon before Mr. Lake returns to Tallahassee but as the time is late and the legislature will soon adjourn no time can be lost by those interested in any particular bills.

Christian Endeavorers Plan for Great Convention, Miami June 8-11

What promises to be a most enjoyable feature of the State Christian Endeavor convention which is to be held in Miami, June 8-11, is the motorcade from over the state. This is under the management of Vice-President Robert A. Greene, of Sanford, who has arranged the following schedule: From the three concentration points Lakeland, Orlando and Sanford the cars will leave Thursday, June 7, at 7 a. m., 9:30 and 10:30 respectively. At Titusville the northern east coast cars will join the motorcade and all proceed to Fort Pierce where the night will be spent. They leave Fort Pierce at 8 a. m. Friday morning and are scheduled to reach Miami at 1 p. m. About 75 cars are now listed, which after they are decked out in bunting and banners will make the most colorful procession to be seen on the Dixie Highway for many a long day.

The Friday evening session of the convention will be held in Royal Palm Park when Hon. William Jennings Bryan will be the speaker of the evening. Mr. Bryan is always warmly welcomed by the Endeavorers and this session affords an excellent opportunity of hearing him at his best—inspiring young people with his own high ideals. All other sessions are to be held in the First Presbyterian church.

Carl J. Matthews, of Jacksonville, field-secretary for the Florida Christian Endeavor Union, is to be song leader, and the state Endeavorers are delighted to know that Miss Beulah Roney, of Orlando, who during the past year has been in the Presbyterian Training School at Richmond, Va., will be home to take her accustomed place as pianist for the state convention. Prominent speakers on the program include Rev. C. I. Stacey, D. D., pastor of the First Presbyterian Church, Lakeland; Rev. A. E. Spence, Gainesville, field-worker, Suwanee Presbytery; Lawrence C. Little, of Greensboro, N. C., Secretary of the Christian Endeavor for the Methodist Protestant church in North Carolina; Marcus C. Fagg, of Jacksonville, superintendent of the Florida Children's Home Society; Dr. Robert A. McCasline, of Jacksonville, pastor Riverside Presbyterian church; Rev. Barber, superintendent Congregational Home Missions for Florida; F. A. Jackson, of Jacksonville, secretary of the Florida State Y. M. C. A. committee; Prof. W. D. Walker, Montverde School, and a large number of State Union officers and superintendents.

Besides the Junior Convention in charge of Florida's specially gifted Junior Superintendent, Miss Elizabeth Weimar, Fernandina, other special features are The Alumni Dinner at the Hotel Leamington, Friday evening at 6 o'clock, with Duncan B. Curry, Jacksonville, president of the Florida Christian Endeavor Alumni Association, as toastmaster, an Everybody-Get-Acquainted social Friday evening in the church following the session in Royal Palm Park, a banquet by districts at Tropical Grille, Saturday at 6 p. m. with Marcus C. Fagg, as toastmaster; a stereopticon address Saturday evening on "Beautifying Our Towns" by W. A. Cook, L. A., Oneco, Fla., of the Royal Palm Nurseries, and an aut order during which the delegates will get to see Miami and Miami Beach.

Entertainment is generously given on the Harvard plan, lodging and breakfast free. Six districts, Pensacola, Daytona, Hillsboro, Polk, Southwestern and Miami, as well as the city of Miami have passed their registration goals and 892 Endeavorers are registered one month before the convention opens. The credit for this most gratifying conditions belongs to Miss Lucy Belle Radley, Miami, vice-president of the state union and general chairman of the convention committee.

The delegates representing Florida Union at the International Christian Endeavor convention to be held in Des Moines, Iowa, July 4-9 will be elected at Miami. Dixie Christian Endeavor is to be represented, as usual, in Dixie's own special way, and also as usual, Florida Christian Endeavor is expected to be in the front ranks of Dixie's representation to receive the awards that now habitually come Florida's way.

TALK THINGS OVER.

The greatest thing in the world is confidence. People have confidence in a newspaper that tells them the truth or tries to tell them the truth at all times. People have confidence in the public servants when they take them into their confidence and public officials gain the confidence of the public only by giving out the truth about all their actions.

The spring crops are bringing the Sanford growers good returns and will help in a measure their losses on the celery and lettuce crops. There is considerable rain just now and if it continues the peppers and tomatoes will go bad but in case there is not too much rain our growers will clean up on spring crops and come out all right.

Many big men in office have been killed by slander that would have meant nothing had all parties come together for a free and frank discussion before certain reports were circulated. Many a good man and good woman has died of a broken heart because they were misunderstood or their actions were misunderstood by people who never gave a thought to what they said.

Let us then talk things over. Let us tell our officials to their faces what we think about them whether it is praise or criticism and we will have a much better world in which to live.

Gasoline Gages, Rubber Pedal Pads for Fords; TIRES AND TUBES, ALL SIZES, For Less Money; GENERAL ELECTRIC AND EMERSON FANS; F. P. RINES; 185 Palmetto Ave.—Phone 481-J

The southern Presbytery meeting at Montreat has evidenced politics and hereafter will confine their attention to church matters.

Britain is having troubles of her own. Bonar Law the prime minister is ill and will resign and the Russian question is stirring up trouble, labor is in a state of unrest and the British lion has but little time to sleep.

A motorcade from Gainesville will visit Southern Georgia this week to inspect the dairying and farming operations. We pity them if it is raining in west Florida. Oh, boy, those roads.

If China can not keep her bandits from overrunning the government they should give them a license to go into business and take the money away from people via the corporation route and according to the laws of America.

The death list in the South Carolina school house fire totals 77 now and they have been buried in one big grave. This horror should bring to the minds of people everywhere that protection is needed in country school houses more than in the city and if country school houses are to be two stories there should be plenty of fire escapes and fire protection.

Next week is commencement week in our public schools and it will be a busy week for children and parents and we will all be glad when the end of school draws near—that is the pupils think they will be glad but those who graduate will often wish they were back in the old school house again after they get away in foreign lands.

The St. Petersburg Times says that the people pay for the streets and they should have a say in the matter of paving. The Times also says that brick is the best paving and has been proven by time and experience and the people want brick. Sanford people wanted brick too but they did not get it and time will tell the story—but who will be here at the telling?

Editor Benjamin of the Ocala Star sizes it up as follows: "It's funny; it's really funny. Shantung, the province where bandits are holding Americans and Europeans in captivity, is the province that America is principally instrumental in taking away from Japan. If Japan was now in control of Shantung, that province would be orderly, there wouldn't be any bandits and Americans would be safe within its borders."

The "National Hoboes' Union" want the administration of corporal punishment banished in Florida convict camps, the hoboes fearing that sooner or later one of their number may fall into one of the places. So far most of those who are said to have been whipped to death have been respectable persons, in unfortunate circumstances, but it is possible that in time the officers will stonger onto a regular "hobo" and unless the practice be stopped he would be pretty apt to be flogged.—Plant City Courier.

A TOMBSTONE FOR MOTORISTS.

An old-fashioned blue marble tombstone marks the top of one of the most dangerous hills for motoring in Pennsylvania. On the stone are carved the words "Dangerous," and "Fourteen Miles to the Nearest Hospital." A skull and crossbones is tastefully carved at the top of the stone. This type of tombstone graces many an ancient cemetery and bears witness that there was a time when men took the hazards of life and death seriously. "Prepare for death and follow me" was their grim warning to the passer-by. Nobody mourns their passing from popularity as cemetery memorials, but they reappear fitly as warnings to the careless motorist.

The reckless driver never thinks that he is preparing for death, but statistics prove his optimism is often unwarranted. Every time he disregards safety precautions he is preparing for death—his own or that of some victim of his selfishness. If he and his possible victims are spared, it is not because safety precautions are unnecessary, but because that day's fool calendar is full. The dour old tombstone probably will make a good many people laugh. It should make a good many think, also—not only on the hill where fatal accidents have been numerous, but out among motorists generally.

KIDS—The Toll of Friendship.

CHEAP ASPHALT EXPENSIVE.

Sheet asphalt and asphalt block which does not measure up to the standard have proven expensive elsewhere in Florida and one does not have to go far from home to find it out, according to an editorial in the Palatka News which begins a long discussion on the subject with this paragraph: "While Putnam county is proving the economy of brick roadways, when the same are properly laid, Polk is finding that the near-asphalt surfacing which was laid throughout that territory is proving very expensive—both as regards the original cost and the annual upkeep. In addition that county is fast appreciating that practically all her mileage of roads are of the washboard variety—none of it outside the incorporated cities, being smooth.

"Within the past three years Polk county has been forced to re-lay about thirty per cent of the roads built less than half a dozen years ago, and now there is a call to re-handle about fifty per cent of the remainder."—St. Petersburg Times.

REAPPORTIONMENT IN 1925.

That Florida is really to be legislatively reapportioned, and by the next legislature, is now as much a fact as anything yet to be done can be. Both houses have passed and the governor has signed a constitutional reapportionment amendment that will be voted upon by the people in November of 1924. It is a reapportionment much fairer than the one rejected by them in the last election, and it is certain to be adopted. A state census to be the basis of the reapportionment will be taken prior to April 15, 1925, and the legislature then in session will make the reapportionment.

All possibility of further evasion by the legislature seems guarded against by the constitutional provision that if the legislature should adjourn with its duty undone, the governor shall re-convene it in special session, which session can transact no other business and can be held until it does its work. The first election under the reapportionment will be that of 1926. Which, considering Florida's wait of 36 years, is not far away.—St. Petersburg Times.

ANENT THAT GASOLINE TAX BILL.

That measure passed by the house by a fair vote on the gasoline tax placing a three cent tribute on each gallon of gasoline sold, is one of the most dangerous, unfair and infamous measures of legislation that we have seen lately. It plainly bears the stripe of the North Florida-Alabama bunch and shows that they don't intend to give the deserving portion of the state anything. According to the measure two cents of the tax goes to the road department while the one cent per gallon remaining goes to the counties generally. BUT IT IS DIVIDED UP EQUALLY AMONG THE COUNTIES REGARDLESS OF SIZE, POPULATION OR THE QUANTITY OF GASOLINE SOLD IN THAT COUNTY. In other words, counties with no roads at all where they are too stingy and living in the past with less than ten or fifteen thousand population and half negroes at that, get just as much out of this bill as Polk county or those in South Florida that buy 65 per cent of the gasoline that is sold in this state. And still they say we don't need re-apportionment and that Southern Alabama doesn't need to take back what does not represent real Florida sentiment. The senate still has a chance at the bill and if they don't kill it, we will miss our guess.—Lakeland Star-Telegram.

SOME STRIKING CONTRASTS IN WEATHER CONDITIONS.

Floridians have no complaint to make regarding weather conditions in the light of what has happened recently in other parts of the country. A Star-Telegram reader sends us a copy of the Plymouth Daily Pilot, published in Plymouth, Indiana, in which mention is made of a temperature of 31 degrees with snow over most of the state less than a week ago. At the same time this was happening to the Middle West and the East all records for May heat were being broken in California, the temperature at Los Angeles and other California cities soaring as high as 104 degrees in the shade. So Floridians can well continue to be thankful that this state does not experience any of these extremes.—Lakeland Star-Telegram.

THE CHAMBER OF COMMERCE.

In Miami they have several hundred members of the Chamber of Commerce and a drive is being conducted for more members. An effort is being made to convince every citizen that as a matter of duty he should belong to the Chamber of Commerce and bear his just portion of the expense of building a city. Commenting upon this subject the Miami Herald says a few things that might apply with equal force to Sanford: "No town which has not an active Chamber of Commerce, or similar organization, has ever made any permanent progress. It does not matter how many advantages a community may have, it will not attract new people and new industries unless those advantages are called to the notice of the people who ought to be interested. Advertising the town is one of the important tasks of the Chamber, and while the funds derived from the publicity tax go a long way toward giving Miami its publicity, that money is not enough.

"Nor is advertising the only work of the body. One of the most important tasks is making a constant survey of the needs of the city, and keeping the local public advised of those needs, and of methods of supplying them. Here in Miami, for example, we ought to have more small factories. The Chamber of Commerce is constantly working, with no small measure of success, in bringing such establishments here. We need deep water in the harbor. It is through the persistent efforts of the Chamber of Commerce that movements are under way which give promise of getting deep water in the not distant future.

"These are but two of the many lines of effort of the local Chamber. This work costs money. There is no way to get the money except through the voluntary contributions, in the form of membership fees, made by the local citizens who realize that community development means advantage to everyone in the community. The fees are small enough to be within the reach of any business or professional man, and the suggestion of the Chamber, that the membership list should be greatly enlarged should find a quick response."

STOPS HACKING COUGH

"Had a hacking cough for years, and Foley's Honey and Tar is the only remedy that reached my cough. I have not been troubled with it since," writes Mrs. E. M. Doby, Asbury Park, N. J. Coughs, Colds, Croup, Throat, Chest and Bronchial trouble are quickly relieved with Foley's Honey and Tar. Contains no opiates—ingredients printed on the wrapper. Largest selling cough medicine in the World. Sold everywhere.—Adv.

FROM OTHER SANCTUMS

BUILDING COSTS GETTING TOO HIGH.

It was an English writer who said some 50 or more years ago that "America numbers thirty millions of people, mostly poor." It was a great blow to our pride, and was resented if with a great showing of indignation. The thirty millions of that day have increased to more than one hundred millions, but sometimes we are tempted to wonder if the same remark would not be applicable now; if the same proportion would not hold good with our greatly increased population.

Here we are just having emerged from a distressing period of hard times, when millions of men were looking in vain for jobs, with breadlines in all our big cities, and unemployment general; with conditions changing with a rapidity possible only in America, business going ahead with a rush as if determined to make up for lost time, an unprecedented amount of building projected, apparently having forgotten the unemployment of a few months ago. Now comes the news from New York that great building projects that were planned for the present summer are being given up because of the exorbitant demands of labor and material men. With prices of both higher than ever before, the would-be builders of the great city are postponing their plans because they can see no profit in carrying them out. They will give them up rather than be pushed beyond the stage of any possible profit.

The American people are expert in the matter of killing the goose almost before she has begun to lay the golden eggs. One would think that with the experience of a futile strike so close behind them, both labor and material men would be careful not to push their customers too hard. Reports from the metropolis show that the limit has about been reached, if it has not been passed. One big project after another has been dropped or postponed because of the unfavorable building conditions. Notable among the big projects abandoned, for the time being at least, is the New York Telephone company, which had plans made for a central office building to cost \$11,200,000. Columbia university is holding up a building plan involving the expenditure of \$10,000,000. How many more big projects are on the waiting list we do not know, nor how many smaller ones, but we have seen an estimate that the sum of \$70,000,000 is involved. A slump has started. It is another buyers strike.

If the building trades are gifted with ordinary intelligence they must know the cause of the sudden slump, and it should not need the wisdom of the serpent to guess at, and apply the remedy. If building operations are to go on at the rate of speed with which they have started, there must

Peoples Bank of Sanford SANFORD FLORIDA

for farms; and groves and truck gardens in great acreages. Orange groves are being set in thousand-acre tracts, and the Everglades are being developed into the "sugar bowl" of the nation. New enterprises are being established, and new crops being grown in every section. West Florida is waking up to its possibilities as a general fruit growing region. It can raise a variety of fruit that are not adapted to the more southern lands, and is aiming to compete in oranges even, through the growing of the hardy Satsumas.

FLORIDA REACHES A NEW ERA OF PROGRESS.

No man who has kept in the slightest touch with the papers of the state can escape the conclusion that this is to be a record breaking year for Florida. From every quarter of the state the stories are the same. The tourist crop has exceeded all past records in numbers, in quantity of cash they brought with them, and the disposition to spend it for their comfort and pleasure. In most of the towns of the state they have crowded hard upon the accommodations provided for them. This has naturally turned the attention of our citizens to the pressing necessity of providing more residences, that they may not again be caught in an unprepared condition. Hence we hear from every section of great building operations. More houses, hotels, business blocks, are being constructed than ever before. It is not only the larger towns that have felt the urge, the popular tourist towns, but the smaller cities are heading in the same direction. The overflow from the larger places has surged into the little towns and taxed their accommodations to the limit. It was the climate they were after, and that is not dependent on the city's rank in the census list.

Many of the winter visitors have become convinced that Florida offers peculiar advantages for a permanent, comfortable and profitable residence, and have made investments which will make them Floridians henceforth. Real estate is moving as it has not done for years, land is being cleared

GRIFFIN GRADE CROSSING BILL IS LAID ASIDE

TALLAHASSEE, May 22.—The hour yesterday virtually killed, by laying on the table, a measure by Representative Griffin to require that the railroads erect warning signals at the approach of all grade crossings and providing in turn that the driver of a vehicle reduce his speed to five miles an hour, when coming to such a signal.

The Daily Herald, 15c per week.

On The Second Every Second Human wants are constant and continuous. Food, clothing, shelter, and their infinite subdivisions are daily needs. There is not a clock tick that does not register a million human desires. The newspaper is the closest thing in the world to the people's daily wants. It is an expression of the ever pressing desire for news. The advertiser who uses the Daily Herald reaches people with his message at exactly the right moment. Somewhere, with some person wanting something, newspaper advertising registers every second of the day. It brings the seller and buyer together because it brings the right message at the right time. There is no advertising medium so close to the people as the newspaper. The Daily Herald places you in position to reach the buyers of this community.

TREASURY REVOKES DECISION ON TAX

WASHINGTON, May 22.—The treasury today revoked its decision of two weeks ago declaring exempt from income taxation corporation dividends distributed out of profits or earnings accrued prior to March 1, 1913.

The Venezuelan government has planned the establishment of more than 20 secondary radio stations.

A new grading scale has been invented that registers the weight per dozen of an egg placed on it.

ALL PASSENGERS ON WRECKED LINER LANDED IN SAFETY

TREPASSEY, N. F., May 22.—The passengers and crew of the Canadian Pacific liner Marvele, which was wrecked after striking Cape Froels Rock, near here, late yesterday, were safely landed last night at the village of St. Shotts.

ST. JOHNS, N. F., May 22.—The Canadian Pacific liner Marvele went ashore yesterday morning on the Newfoundland coast 20 miles west of Cape Race, according to a dispatch received here last night.

The report said the liner struck on Cape Froels near Trepassey. This is on the south coast of Newfoundland.

The Marvele, a vessel of 7,121 tons, was outward bound from Montreal. Aviation schools will be established at Guayaquil and Quito by the government of Ecuador.

California's largest group of geysers is being harnessed to drive engines with their steam.

In the Circuit Court, Seventh Judicial Circuit in and for Seminole County, Florida, in Chancery

DIVORCE L. D. BYRD, Complainant.

ELMINA BYRD, Defendant. TO ELMINA BYRD, BOONVILLE, ARK. It appears from the affidavit of L. D. Byrd herein filed, that he is the complainant in the above styled cause, and that it is the belief of the affiant that Elmina Byrd is over twenty years of age and that said Elmina Byrd is a resident of the state of Arkansas, residing in Booneville, Arkansas.

Therefore, you Elmina Byrd, are ordered to appear at the trial herein filed in this cause, said appearance to be on the first Monday in June, 1923, at 10 o'clock in the forenoon of that day, at the Court House in Sanford, Florida.

Witness my hand and seal of the Court, this 14th day of May, A. D. 1923. Clerk of the Circuit Court.

By: A. M. WEEKS, D. C. 5-18-23-22-23

New Discovery For Elimination of Mosquito Pest

At this time when so many Florida communities are engaged in the fight against mosquitoes it is interesting to note what advances and discoveries are being made by those scientists studying ways and means of mosquito control.

The State Board of Health announces what will probably be a new means of control, a simple temporary camp, lumber villages means for application especially in and in negro settlements. This new method entails the use of creosote and was discovered by an agent of the J. S. Public Health Service operating in Mississippi.

Public Health reports for March 9th, states as follows: "These observations indicate that creosote oil, when applied to the walls and ceilings of certain houses in the quantity of one gallon to 420 square feet, will noticeably repel anopheline mosquitoes. The duration of its effectiveness is yet to be determined.

Observations made of certain of the creosoted houses 10 weeks after the creosote had been applied seem to indicate that the creosote oil was still effective.

It appears that creosote oil as a mosquito repellent is particularly applicable to and desirable for use in houses of poor construction, where screening and other anti-mosquito measures can not be effectively employed.

"Apparently colored people who commonly live in houses of this type in the southern states do not object to the application of creosote oil in the quantities employed in these observations. Unquestionably it is less objectionable than the smudges of rags, leather and feathers, so universally used by those people to keep the mosquitoes away while they secure a few hours' sleep.

"Apparently the employment of creosote oil in the quantity and manner indicated above is perfectly safe. No ill effects were noted upon any of those who slept in the rooms subsequent to the application of creosote oil.

"One observation seems to indicate that creosote may be used to prevent mosquitoes from laying eggs in water barrels."

The State Board of Health offers the above as a means which may be employed to advantage by a number of communities. It is cheap and doubtless is effective.

SUGAR REFINERS EDUCATE PUBLIC ON TARIFF COSTS

Certain refiners have begun to insert in all their packages of sugar a notice advising consumers that the recent high prices of this commodity are due to the tariff. This practice has been adopted following the women's boycott of sugar and the Tariff Commission's finding that the duty of 2.20 cents a pound has added to the price, but that a reduction of the tariff would not necessarily reduce the price. (Laughter.)

On the slip inclosed in each package is this legend: Tariff on Sugar.

With Free Raw Sugar This Sugar Would Cost You About Two Cents a Pound Less.

The Federal Sugar Refining Company says: "It is apparent that the high prices for refined sugar which are causing so much comment are due to the extreme and unnecessary rate of import duty."

The tariff was intended to "protect" the beet sugar interests and the cane sugar growers of Louisiana. It has already cost the American public \$200,000,000 or more and enriched the Sugar Barons to that amount.

EDUCATION BILL PASSES HOUSE IN AMENDED FORM

TALLAHASSEE, May 21.—The general education bill sponsored by Superintendent of Public Instruction Cawthon and which first would abolish the flying squadron of teachers' examiners and then set up rigid prerequisites for applicant school teachers, was passed in amended form by the house yesterday. It now goes back to the senate, where it originated for concurrence in changes made in the house.

The only material change made by the house was to strike out a provision requiring that "professional" certificates should be issued to only applicants who had received two years of college training. The house made a four year high school course sufficient for this certificate.

A HOME MADE JOKE

Some one, some time in Sanford asked someone what "San Seal" meant and was told that it meant without a care. When the first one was forced to desert his Lizzie of the road, he told the second some one that he came in San Ford. Squash his with a squess, sweet papa.

The Herald for first class job work.

Anniversary Day Will Be Observed at Baptist Church

Next Sunday With a Fitting Program and Review of Work

Anniversary Day will be observed at the First Baptist church next Sunday, May 27, with a fitting program and review of the accomplishments of the church and Sunday School work since Dr. King came as pastor one year ago.

A drive to have 444 present at Sunday School at 9:30 a. m. has been launched by the officers and teachers of the school to help make the program of the day a success. A number of interesting features have been planned by the various departments and Supt. Jno. D. Jenkins, as a token of welcome to those who have become affiliated with the church and Sunday School during the year.

The morning church service will not be held on account of Commencement sermon at the High School. So those wishing may attend Sunday school and commencement exercises.

The evening service will consist of a general review of the achievements of the church during the year.

If you do not attend Sunday School somewhere you are extended a cordial invitation to be on hand Sunday morning at 9:30 and be one of the 44 that will enjoy the program.

SEEKS TO ENCOURAGE BETTER HOMES FOR AMERICAN FAMILIES

WASHINGTON, May 21.—There are two sides to a ten dollar bill. One side is the effort that goes to earn it; the other is the care and intelligence which go in the spending of it. One side is the man's contribution, the other side is the woman's. The whole question of wages is affected by the home-maker's ability to get value for her money.

In such manner Secretary of Labor Davis sets for the significance of the Better Homes in America campaign to be conducted during the week of June 4 to 10. Secretary Davis is a member of the National Council for Better Homes in America. Other members are Vice-President Coolidge, Secretary Hoover and Wallace and Mrs. T. G. Winter, president of the General Federation of Women's Clubs.

"The campaign is a woman's campaign," says Secretary Davis. "They are taking stock of themselves to see how they fill their side of the bill; they are taking inventory of home values to determine on standards."

"The best American wage-earners know that the pay check at the end of the week belongs to the family. They know also that a forty-five dollar a week wage does not do as well in some families as a thirty-five dollar a week wage does in others."

"The demonstration houses prepared for Better Homes week in June are concrete educational means of emphasizing the importance of home-making, and the increasing necessity of thorough study of its technique. In the homes is the nation, in the homes is the basis of the best patriotism."

"There is nothing better we can do than make a thorough workmanlike study of the things that make for a better home, with architects, builders, interior decorators, students, musicians, educators and spiritual advisors joining in a definition of home."

The Better Homes campaign began last year in a comparatively small way. The result of the first effort is shown in the preparations this year of many communities to have demonstration homes during the campaign week in June, according to those interested in the movement. Many of these have been started by chambers of commerce, others by groups of women or women's clubs.

Besides fitting out the demonstration homes for public view, the movement includes arrangements of lectures, musical, movie and radio programs, essay and poster contests in schools, and other means to draw attention to the home. Many thousands of dollars in prizes will go given locally and nationally in connection with the campaign. An interesting side issue is the preparation of an ideal list of books and musical selections for the home.

In Washington the national headquarters of the General Federation of Women's Clubs sponsored the construction of a replica of the Long Island home of John Howard Payne that inspired him to write "Home Sweet Home." This house will follow every line of the original, but it will be built of the best standard modern materials. It is within a short distance of the White House. Ultimately it will be moved to a permanent location where it will be maintained as a better homes demonstration.

Our own pet geese is the chap who can't control his mirth as he begins the story and then can't remember how it goes.

The Herald for first class job work.

THE LAUGHING SUGAR TRUST.

We'll bet, though we don't suppose there ever will be any chance to prove it, that if our great president in his wisdom should decide to get out the elastic provision of the tariff and try it anyway, the sugar interests would at least stop laughing at us.—Ohio State Journal (Repub.)

"Building operations in Fort Pierce continue at a very satisfactory and substantial pace," remarks the Fort Pierce News-Tribune. "There are several big construction and development projects on the card for the summer, and it is expected that Fort Pierce is about to enter a period of unusual activity." Construction work is under way in many parts of Fort Pierce, and among the buildings going up are a number of attractive homes.

If the groom is poor and bald and bow-legged, it is romance pure and undefiled.

GROWING OLD.

A little more tired at close of day, A little less anxious to have our way, A little less ready to scold and blame A little more care for a brother's name,

And so we are nearing the journey's end, Where, time and eternity meet and blend.

A little less care for bands and gold, A little less zest as in days of old. A broader view, and a saner mind, And a little more love for all mankind;

A little more careful of what we say And so we are fare-ing a-down the way.

A little more love and care for youth, A little more zeal for established truth, A little more charity in our views, A little less thirst for the daily news, And so we are folding our tents away Preparing the Pass for the closing day.

A little more leisure to sit and dream, A little more thinking of the things unseen, A little bit nearer to those ahead, Whose lives are numbered with the dead;

And so we are going where all must go, To the place, the living in God may know.

—MRS. ROBBINS.

First National Bank A COMMUNITY BUILDER F. P. FORSTER, President R. F. WHITNER, Cashier

15,000,000 Farmers Open Drive to Cut The Rail Rates WASHINGTON, May 22.—Fifteen million American farmers have launched a drive through their national farm organizations to force a reduction in railroad freight rates before the next harvest, Senator Harrel, Republican, of Oklahoma, a "farm bloc" member, declared Monday. Although good crops are assured this year, Harrel said, the farmers can not recuperate their recent losses, unless the cost of transporting crops to markets is slashed. The drive for lower freight rates will be centered on obtaining reduction before the next harvest begins. "A continuation of existing freight rates for one more harvest will completely bankrupt agriculture," Harrel declared. "The only hope of American farmers is to obtain lower freight rates before they begin sending their crops to market. If they fall in this drive, there will be food shortage in many communities this summer, as farm products will stay on the farms." A special hearing has been granted representatives of the farmers by the Interstate Commerce Commission, and their plea for lower freight rates is now under consideration. The farmers also have appealed to President Harding for support of their movement. A specific request for restoration of pre-war freight rates on farm products was made to the commission. This slash if granted would range from 30 to 50 per cent. The commission was reported to have received the request in a "sympathetic" way. If no relief is granted the farmers before the next harvest, Harrel announced the fight would be carried into the next congress. Farm bloc members will champion legislation tending to consolidate roads running through agricultural belt in the hope of obtaining reduced rates by the reduction of operating expenses of the road. "In most Western states everybody is prosperous except the farmer. A great emigration is now under way from the farms to the cities." "Freight rates are to blame, for they represent differences between profit and loss to the farmer."

NOTICE I will receive offers for the sale of the assets of the Automotive Supply Company, at my office until Thursday noon, May 24th. Stock may be viewed at any time. Inventory and terms of sale given on application. SCHELLE MAINES, Trustee.

...MAGIC NAMES... The influence of advertising is apparent in every turn of my daily life. I find I cannot disregard it. It is always with me, guiding me in my pleasures and in my duties, telling me what I should eat, wear, and use and what I should buy for my family. I find that there is on the tip of my tongue a multitude of names the mention of which will bring from some shelf nearly everything that I can use in my daily life and in the daily life of my family. In every instance that name means a very definite promise and assurance of something substantial and which will make me feel completely satisfied about having exchanged my money for it. Let me say a few things which these names—these old friends of the newspaper and magazine pages—mean to me. They mean good taste. For certainly I desire to do the thing that I believe discriminating people have judged best. They mean convenience. It is not necessary to describe the thing I want. Even the most intimate articles may be purchased without embarrassment since the advertisers have given us handy names. They mean assurance in shopping. There is no indecision. Even before I enter the shop I know what I want to buy. And certainly they mean satisfaction. For the advertiser whose product is not good cannot continue to advertise. The fact that I have seen a name repeated over and over again assures me that it stands for a product of quality. In speaking that name to the clerk I know I am asking for the best. I am a more judicious shopper because I buy advertised goods. I patronize the shop that sells them. (This was written by a woman) Published by the Sanford Herald in co-operation with The American Association of Advertising Agencies.

PEPPER LEAGUE WAS ORGANIZED

Last night an enthusiastic meeting of base ball fans was held in the Brotherhood of St. Andrew's rooms for the purpose of organizing a baseball league. Four clubs were represented. The Brotherhood of St. Andrew, represented by its manager, Jim Hoolehan and Captain Morris Moyer; the DeMolay team, represented by its manager, Lewis Shipp and captain, Vic McLaulin; Oviedo Scouts, represented by Walter Carter and Alton Farnell, manager and captain. Monroe was represented by the league president at this meeting because they were unable to send their manager and captain. Officers for the league's first season were elected last night. George McCrory, who started the league, was elected president; Lewis Shipp was elected secretary, and Walter Carter, of the Oviedo club, was elected treasurer. Games are to be played on Tuesdays and Thursdays. Four umpires were appointed. Collections will be taken up and all of this money will be turned over to the league treasurer. The money will be used to buy balls for the league games. A schedule was drawn up and will be published later. By-laws were also drawn up by two of the club managers and the president of the league. Plans will be made immediately to secure uniforms. The first two games of the season will be Thursday, the DeMolay playing the Brotherhood of St. Andrew on the local diamond. Monroe will play Oviedo on the Oviedo diamond. The games will begin at four o'clock. Tolerance is the quality that enables us to feel kindly toward an unbeliever so long as he pays us a profit.

FOR THE MOVIE FAN

Another good one tonight. Dorothy Dalton in "Dark Secrets." Beautiful Dorothy Dalton as a spoiled darling of society suddenly swept to the depths and learning the real meaning of love and sacrifice, with the gilded palaces of the rich and a glamorous Oriental Cairo as the setting. There will be added attractions also. This is one of Dorothy Dalton's best pictures and you'll miss a treat if you miss this. And the honor guests tonight will be J. H. Hintonmaster and family, and will see "Dark Secrets" without cost to them, the treat being on the house. And don't forget tomorrow night, Katherine MacDonald in "Money! Money! Money!" with a comedy as a side-liner.

CELERY SEED

Pepper League organized! Four good live clubs in it. Oviedo, DeMolay, Brotherhood and Monroe, all of these have the county's best material. First games starting Thursday afternoon, DeMolay and Brotherhood playing on the home lot. Sanford has been needing a good league for some time and now since she is represented in two teams in the Pepper League she ought to have some good baseball games this season. Yesterday Gully, of the Lakeland Highlanders was stopped in his hitting rampage. He has hit safely in thirty-four consecutive games but rain stopped the game in the sixth inning yesterday before he had finished the game. The Herald for first class job work.

Humphries Pitches Fourth Straight

TAMPA, May 22.—Bert Humphries pitched his fourth straight shut out here yesterday, and gave his Orlando mates their tenth consecutive win. The Bulldogs won 2 to 0. Both Wilson and Humphries pitched pretty ball but Humphries got the better support, and consequently won. The score: Orlando 010 000 001—2 Tampa 000 000 000—0

ST. PETERSBURG, May 22.—In a lonesome played slugging match here yesterday, St. Petersburg with Charley Ollinger in the box, noosed out 9 to 8 victorious over Bradentown. Guy Moore's one hand catch of Nicholas' terrific drive to left center in the third robbed the visiting first sacker of a triple. The score: Bradentown 200 122 001—8 St. Pete 000 412 20x9

LAKELAND, May 22.—Rain in the sixth inning broke Gully's consecutive hitting streak, after he had hit safely in 34 straight games for a Florida State League record. Lakeland won the abbreviated contest from Daytona, 3 to 1, Luther outpitching Chapman from every angle. The score: Daytona 000 010 010—1 Lakeland 000 021—3

PITTSBURGH WINS OVER PHILLIES

PHILADELPHIA, May 22.—Pittsburgh took the opening game of the series from Philadelphia, 5 to 3, yesterday. Morrison opposed Behan and both were in fine form, two errors by Holke losing the game for the local lad in the ninth. Leo hit two home runs and drove in all three of the Philadelphia tallies. The score: Pittsburgh 021 000 002—5 5 2 Philadelphia 020 000 001—3 10 0 You are invited to be among the 444 at the First Baptist Sunday School at 9:30 Sunday morning. 45-26c The Herald delivered six times a week for 15c.

ORDINANCE NO. 51

AN ORDINANCE REGULATING THE CONSTRUCTION OF PRIVATE DRIVEWAYS OUT OF OR OVER THE PUBLIC STREETS OF THE CITY OF SANFORD, FLORIDA, TO PROVIDE THEIR MANAGER OF CONSTRUCTION; AND TO PROVIDE PENALTIES FOR THE VIOLATION THEREOF.

BE IT ENACTED BY THE PEOPLE OF THE CITY OF SANFORD, FLORIDA: SECTION 1.—That it shall be unlawful for any person, firm or corporation to construct any private driveway leading out of or over any public street of the City of Sanford, Florida, without first having obtained a permit so to do from the City Clerk, whose duty it shall be to issue such permits without costs upon application duly made therefor. SECTION 2.—All private driveways leading out of or over the public streets of Sanford, Florida, shall be not less than nine feet in width and shall have concrete or granite curbing on each side running from the street to the sidewalk and connecting with the street curbing, and shall be curved, having not less than five foot radius. SECTION 3.—All private driveways leading out of or over any public street of the City of Sanford, Florida, shall be paved with concrete, not less than four inches in thickness, constructed in compliance with sidewalk specifications. Or may be paved with brick on sand foundation, or asphalt on compacted rock base five inches in thickness. All materials, used and work done shall be in conformity to plans and specifications furnished by the City of Sanford, under the direction of the Street Department. SECTION 4.—Any person, firm or corporation who shall violate the provisions of this ordinance shall be punished by a fine of not more than \$100.00, or by imprisonment not exceeding 60 days, or by both such fine and imprisonment, in the discretion of the court. SECTION 5.—All ordinances and parts of ordinances in conflict with the provisions of this ordinance be, and the same are hereby repealed. SECTION 6.—This ordinance shall be published one time within ten days in a newspaper published in the City of Sanford, Florida. Passed by the City Commission of the City of Sanford, Florida, this 14th day of May, 1923.

Attest: L. R. PHILIPS, (SEAL) City Clerk.

ORDINANCE NO. 50

AN ORDINANCE PROVIDING FOR THE CONSTRUCTION OF AN ASPHALT PAVEMENT ON SECOND STREET FROM OAK AVENUE TO FRENCH AVENUE, THIRD STREET FROM SANFORD AVENUE TO MAGNOLIA AVENUE, AND FROM OAK AVENUE TO AVOCADO AVENUE, AVOCADO AVENUE FROM FIRST STREET TO THIRD STREET, FIFTH STREET FROM MAGNOLIA AVENUE TO MYRTLE AVENUE, NINTH STREET FROM CYPRESS AVENUE TO PARK AVENUE, THIRTEENTH STREET FROM SANFORD AVENUE TO FRENCH AVENUE, CENTRAL STREET FROM SANFORD AVENUE TO FRENCH AVENUE, PALMETTO AVENUE FROM CENTRAL STREET TO HUGHEY STREET, PALMETTO AVENUE FROM COMMERCIAL STREET TO LAKE MONROE, OAK AVENUE FROM TENTH STREET TO THIRTEENTH STREET, AND LAUREL AVENUE FROM SIXTH STREET TO THIRTEENTH STREET, AND PROVIDING FOR THE REBATE OF ANY SURPLUS OR EXCESS REMAINING UNEXPENDED FOR SUCH PURPOSES FOR WHICH ASSESSMENTS HAVE BEEN MADE AGAINST PROPERTY ABUTTING ON SAID STREETS AND AVENUES.

Whereas, a contract has been let to the Hutton Engineering and Contracting Company, for the paving and improving of the streets and avenues named in the title to this ordinance with asphalt, the distances and widths heretofore provided for and designated in a preliminary resolution regarding the improvement of said streets and avenues heretofore duly adopted by the City Commission, and Whereas, the City Commission has fully ratified, approved and confirmed the action of the City Manager of Sanford, Florida, in entering into said contract for the pavement of said streets and avenues with asphalt heretofore made and entered into by and between the City of Sanford, through its Manager, and the said Hutton Engineering and Contracting Company, and

Therefore, Be It Enacted by the City of Sanford, Florida: SECTION 1.—That Second Street from Oak Avenue West to French Avenue, Third Street from Sanford Avenue West to Magnolia Avenue, and from Oak Avenue west to Avocado Avenue, Avocado Avenue from First Street South to Third Street, Fifth Street from Magnolia Avenue West to Myrtle Avenue, Ninth Street from Cypress Avenue west to Park Avenue, Thirteenth Street from Sanford Avenue West to French Avenue, Central Street from Sanford Avenue west to French Avenue, Palmetto Avenue from Central Street South to Hughey Avenue, Palmetto Avenue from Commercial Street North to Lake Monroe, Oak Avenue from Tenth Street South to Thirteenth, and Laurel Avenue from Sixth Street South to Thirteenth Street, shall be paved with asphalt in accordance with the plans and specifications covering said proposed improvements of said streets and avenues now on file in the office of the City Manager of Sanford, Florida, and as incorporated in and made a part of the contract between the City of Sanford, Florida, and said Hutton Engineering and Contracting Company. SECTION 2.—Upon the completion of the pavement of the aforesaid streets and avenues, the City Manager shall rebate to all abutting property owners owning property on any of the aforesaid streets and avenues that have been specially assessed, the difference pro rata between that proportion of the proposed improvements heretofore assessed against said abutting property and the actual cost of the proportion of said improvements chargeable to the abutting property. Passed and adopted by the unanimous vote of the City Commission of Sanford, Florida, this 14th day of May, A. D. 1923.

Attest: L. R. PHILIPS, (SEAL) City Clerk.

Thereupon Commissioner Chase moved that the rules be waived and said ordinance be placed upon its second reading and final passage which motion was seconded by Commissioner Marshall and unanimously passed. Said ordinance was then placed upon its second reading and read by title only this 14th day of May, A. D. 1923, whereupon Commissioner Chase moved its adoption. This motion was seconded by Commissioner Marshall and upon vote the same was passed unanimously as follows: FORREST LAKE, City Commissioner and Mayor of Sanford, Florida. S. O. CHASE, City Commissioner of Sanford, Florida. C. J. MARSHALL, City Commissioner of Sanford, Florida.

Attest: L. R. PHILIPS, (SEAL) City Clerk.

"It Pays to Swim With the Current"

This is about two spark plugs. At the moment they are lying on the sales manager's desk in the establishment of a large middle-western hardware jobber.

One spark plug bears a name known wherever automobiles are used, the other a name seldom heard.

Both, says the sales manager, are good plugs. On the score of quality they run neck and neck.

"But," he adds, "we are discontinuing this line"—and he holds up the plug of unfamiliar name. "Yes, and our discount on it is larger, too."

"What's wrong with it? Not a thing. It's a good plug—mighty good plug, but—no one knows about it. It isn't advertised—the other one is. The demand is for the advertised make. And we've learned it pays to swim with the current, not against it."

More and more jobbers in every line of business are learning every day that

it pays to swim with the current of popular demand.

"Our job," said one jobber, "is to supply markets, not create them. Let the manufacturer make a market for his goods, and we will handle it."

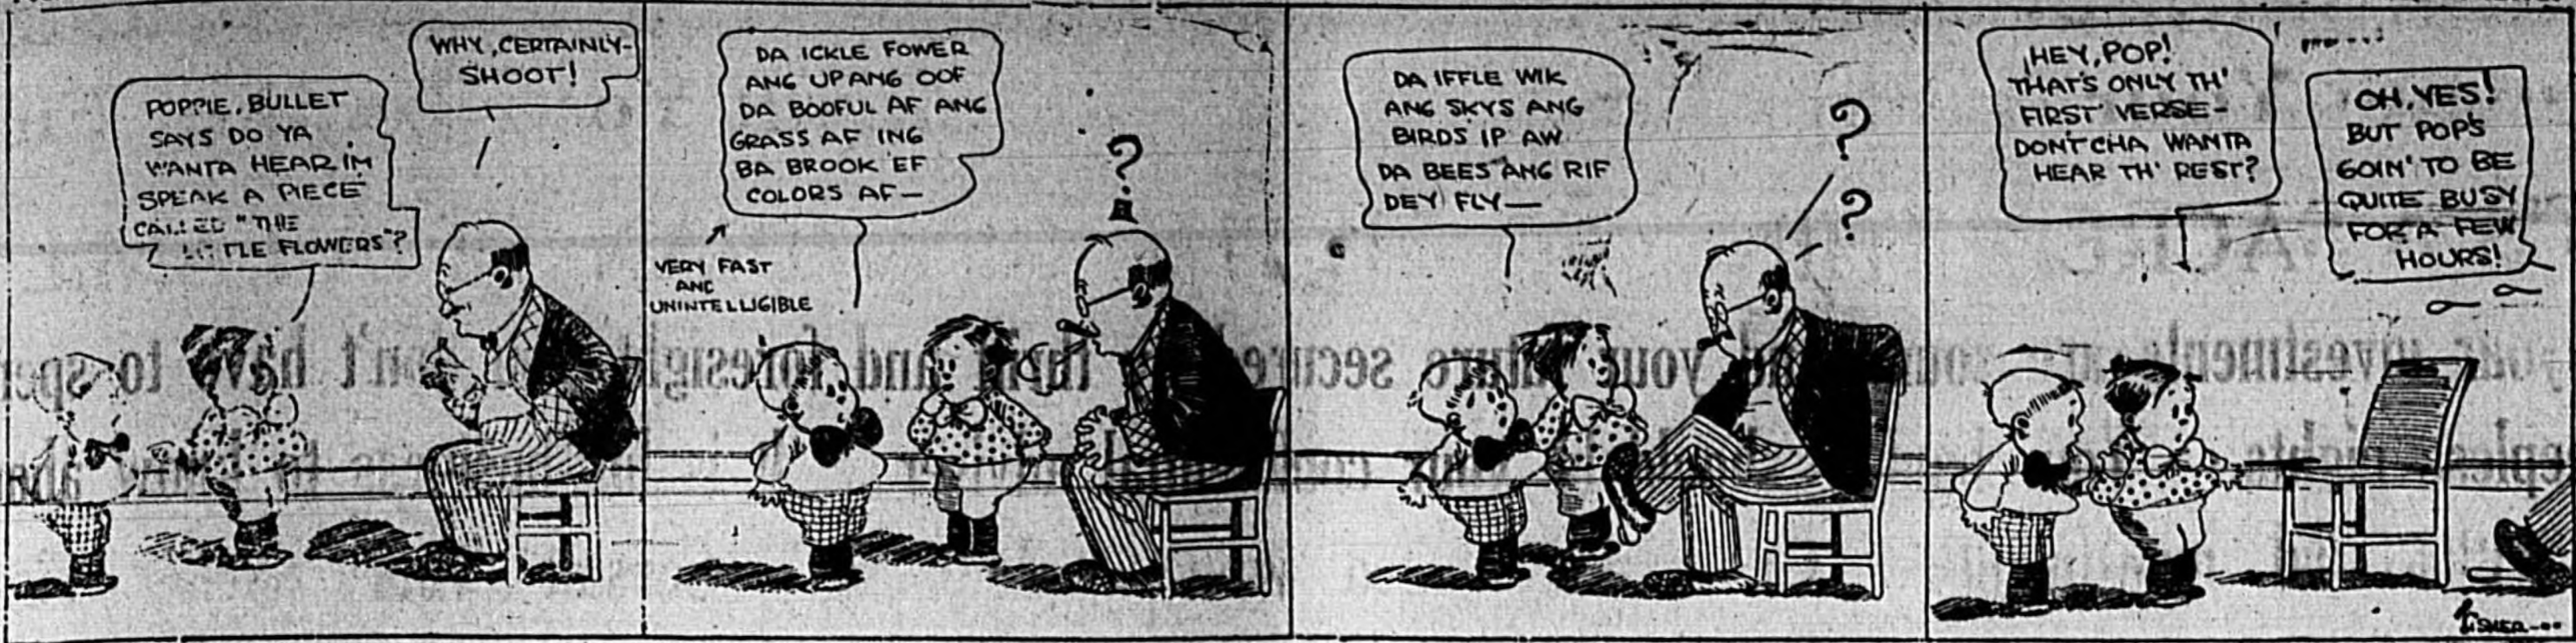

Said another—"Our salesmen carry a catalog with thousands of items in it. They haven't the time to push unadvertised goods. Their work is principally taking orders."

If you go among these wholesalers today to introduce a new product in competition with merchandise nationally advertised, unless the article is exceptional, you will be met everywhere by the injunction: "First go out and get a reputation for your goods through advertising."

The wholesaler knows by actual contact with dealers how they value speed of turnover, goods which move with a minimum of effort, goods people know about and ask for.

CONSUMPTION OF DRUGS FALLS OFF 500 PER CENT

WASHINGTON, May 22.—Per capita consumption of narcotic drugs in the United States has decreased nearly 500 per cent under administration of the Harrison drug act, said a statement by Prohibition Commissioner Haynes giving the latest official figures. These indicate the effectiveness of federal control, Commissioner Haynes declared, and also "refutes the charge so often made that drug addiction and the use of narcotic drugs are on the increase in the United States."

KIDNEY TROUBLE BECOMES SERIOUS

"Suffered with severe headache, backache and pains in my legs and under my shoulder blade. My kidneys and bladder were in bad condition. I was weak and nervous and felt tired and worn out. Walking made me short of breath. Every morning my face and hands were bloated. Medicine failed to help my condition and doctors advised an operation." writes Maggie Nelson, Mossdale, Fla. "Fortunately I read about Foley's Kidney Pills, tried them and got relief." Sold everywhere.—Adv.

Egg Flavor Depends On Feeds Given Hen

Fowls Forced to Forage Eat Foods That Taint the Eggs They Lay By SETH W. SHOEMAKER, Director, The School of Agriculture, International—Correspondence Schools, Scranton, Pa.

Most people believe that if an egg is reasonably fresh it will be perfectly satisfactory. Although freshness is a cardinal virtue in an egg, the quality of taste is almost equally important.

Fowls that are fed upon clean, wholesome food will seldom lay ill-flavored eggs. Eggs from hens that are compelled to forage over the farm and are supplied with very little grain are likely to be flat in flavor, except during the time of year when there is an abundance of green stuff. It is different when hens are kept in yards and have their feed supplied to them. Eggs become tainted when hens get their feed from manure heaps, or their drinking water from cow yards. Odors and flavors in an egg may even be caused by dirt that has gotten on the shell. For this reason, cleanliness in the nest and houses is essential.

Flavoring comes from feeds that contain volatile oils, such as onions, garlic, leeks, turnips, rape, etc. Onions, for instance, are a healthful feed for fowls, but if fed regularly and in large quantities they give the eggs an onion flavor. Prime, clean food and an abundance of pure, fresh water will almost always insure eggs of good flavor, if the fowls are healthy.

100,000 LEAVE GEORGIA FARMS.

ATHENS, May 22.—One hundred thousand persons have left farms in Georgia since last January 1, according to figures compiled by county agents throughout Georgia, grouped at the state college of agriculture and made public today by Dr. Andrew M. Soule, president of the institution. The figures include both white and colored farmers who, according to the figures, have abandoned more than 11,000 farms.

FLORIDA STRIKES AGAINST PACKERS IN A HOUSE BILL

TALLAHASSEE, May 22.—Florida consumers of meat would be "protected" against the arsenical possibilities of tick free cattle under the terms of a measure introduced yesterday by Representative Davis. Mr. Davis said that several states had come within their boundaries on the ground that it was tick infested, and that he wished the same protection against cattle that have been dipped and subjected to arsenic treatment. His measure would set up a board of three practical livestock men with the commissioner of agriculture as ex-officio chairman. Their duties would be to inspect all meat shipped into the state for which they would charge a fee.

THREE MISSING AFTER OKLAHOMA RAINSTORM

SAYRE, Okla., May 22.—Three persons are missing after a cloudburst which precipitated six inches of rain in 45 minutes Sunday night. Short Creek left its banks, and spread into a stream five blocks wide through the middle of the city. Nearly 300 farm laborers, oil field workers and their families were rescued from the tops of their tents, houses and trees. The water began receding at midnight after causing damage estimated at \$60,000. The railway station at Doxey, four miles east of Sayre, was early Monday stood in water seven feet deep. Hill stones larger than walnuts fell immediately preceding the rain and added to the confusion.

PIGGLY WIGGLY AT SAN ANTONIO, SOLD

MEMPHIS, Tenn., May 22.—The sale of the Piggly Wiggly unit at San Antonio, Texas, consisting of 17 stores, was announced here last night by Clarence Saunders, president of the Piggly Wiggly Stores, Inc., who stated the price was \$300,000.

Germany experiments with spinning kapok fibers into textiles as a substitute for cotton have been successful.

Wholesale Lumber Trade Continues Comparatively Slow

The wholesale lumber trade continues to be comparatively slow, though the volume of retail sales remains heavy and activity in most lumber consuming industries is great says the American Lumberman, Chicago. The reason is that retailers and factories bought very heavily during the early part of the year and, having received their lumber, are as fully stocked as they care to be at this time. The lumber market consequently is a trifle easier, but shows no signs of weakness anywhere. The easiness is shown largely in the willingness of mills to accept new orders more freely than they have done for some time. These orders are taken on at previously established prices, concessions being offered only on items in surplus, and such are few. Nor are the mills exerting any pressure for business, as their order files are still bulky, their stocks unimproved and prospects reassuring. Supplies in consumers' hands are being used up so rapidly that it is only a matter of a short time before they must be replenished. Production conditions have undergone no great change. Rains have continued to restrict logging in the south. Hardwood mills especially are rapidly cutting down their log reserves and many of them are already operating on a hand-to-mouth basis. This reduction in log supplies however, is no longer a great worry, as the fair weather season is at hand, when logging can be more consistently maintained and reserves rebuilt.

DETROIT, May 22.—A battery of pinch hitters took victory from Philadelphia and gave Detroit a 5 to 4 victory yesterday. The score: Philadelphia 100 100 200—4 5 3 Detroit 000 000 014—5 11 2

ST. LOUIS, May 22.—Overcoming an early lead, Washington won the second game of the series with St. Louis yesterday, 3 to 2. The score: Washington 010 020 000—3 8 2 St. Louis 020 000 000—2 5 0

HOUSE TURNS AMENDMENT SENATE AMENDMENT TEMPERANCE BILL

TALLAHASSEE, May 21.—The house yesterday refused to concur in a senate amendment to its search and seizure bill which would have made a dwelling almost immune from its provisions. The bill, one of the temperance committee's original thirteen, as amended in the house before passage, would have provided for forcible search of a dwelling at night. As amended by the senate the measure would have expressly prohibited the search of a dwelling at night for any purpose and would have permitted it during the day only for burglary or embezzlement, building was being used for the purpose of making or selling whiskey. The measure came back to the house yesterday and the lower body not realizing the full effect of the amendment, was in a mood to agree to it. A fellow member explained it to Representative Taylor of Highlands, chairman of the temperance committee, who immediately launched a fusillade against concurrence and the house didn't concur.

TEN DAYS INSTEAD OF SIX MONTHS FOR "TRAIN RIDERS" NOW

TALLAHASSEE, May 21.—The senate came down from its study of convicts yesterday to the lower chamber and treated him better than the house. In the consideration of a measure by Rep. Hendry of the house, prompted by the Martin Tabert case, it reduced the maximum penalty applicable to 10 days or \$10 fine. The house reduced the present penalty from a maximum of six months to 30 days, or a fine of \$25. Senator Phillips wanted to make the jail sentence limited to five days. Senator Stokes suggested 10 days and this was agreed to, the measure now going back to the house for concurrence. The bill was also amended by the senate to provide that no official would receive a fee for arresting train riders unless he was expressly requested to make such arrest by a railroad employe of the railroad. Sen. Stokes, author of this amendment, explained that it was intended to discourage the practice of officials watching especially for the class of vagrants. If the railroads didn't care to prosecute the train riders, he said, he didn't see why the county officials should be so concerned about them.

Will Use Willite For St. Pete Paving

ST. PETERSBURG, May 22.—To expediate the work of construction and to get the new streets paved in a year or less instead of 18 months and to give a thorough test locally to various kinds of paving material, as well as to open the way for competition in future paving contracts, the city commissioners have practically decided to use three types of paving. While it has not been definitely settled and final action has not been taken, it is said that the commissioners have practically decided to use Willite, asphalt block and brick. Sheet asphalt laid down according to the specifications laid down by the city will not be used. That has been pretty definitely settled.

YANKS WALLOP CHICAGO AGAIN

CHICAGO, May 22.—Waite Hoyt pitched in fine form yesterday and New York shut out Chicago, 5 to 0. Thurston pitched a good game for the locals but his support was ragged. The score: New York 010 020 011—5 12 1 Chicago 000 000 000—0 7 2 Hoyt and Schang; Thurston and Schalk.

DETROIT, May 22.—A battery of pinch hitters took victory from Philadelphia and gave Detroit a 5 to 4 victory yesterday. The score: Philadelphia 100 100 200—4 5 3 Detroit 000 000 014—5 11 2

ST. LOUIS, May 22.—Overcoming an early lead, Washington won the second game of the series with St. Louis yesterday, 3 to 2. The score: Washington 010 020 000—3 8 2 St. Louis 020 000 000—2 5 0

HOUSE TURNS AMENDMENT SENATE AMENDMENT TEMPERANCE BILL

TALLAHASSEE, May 21.—The house yesterday refused to concur in a senate amendment to its search and seizure bill which would have made a dwelling almost immune from its provisions. The bill, one of the temperance committee's original thirteen, as amended in the house before passage, would have provided for forcible search of a dwelling at night. As amended by the senate the measure would have expressly prohibited the search of a dwelling at night for any purpose and would have permitted it during the day only for burglary or embezzlement, building was being used for the purpose of making or selling whiskey. The measure came back to the house yesterday and the lower body not realizing the full effect of the amendment, was in a mood to agree to it. A fellow member explained it to Representative Taylor of Highlands, chairman of the temperance committee, who immediately launched a fusillade against concurrence and the house didn't concur.

MARKETING BILL PASSES HOUSE

TALLAHASSEE, May 22.—The house yesterday passed the so-called co-operative marketing bill which gives legal standing to those associations and confine them to actual producers. Three or more persons may form a co-operative association under the bill, with or without capital stock. Returns on the capital stock would be limited to eight per cent. All of the income after this would refund to the members. The measure, according to Representative McRae, who has charge of it, follows the approved lines under which co-operative associations now operate in 18 other states. A concession in Turkey is a small body of oil land entirely surrounded by hot water. Three sets of claws of different sizes enable a new hammer to pull a nail from many angles.

New York Painters Strike is Ended Get \$10 a Day and

NEW YORK, May 21.—A strike of 10,000 painters in New York and 22 neighboring cities, which was scheduled to begin today, was averted yesterday when employers met all union demands. The settlement was effected after a conference of three days. Under the new agreement, the painters receive a wage increase of \$1 a day and in addition was granted a five \$10 a day to continue to December 31, 1923. The remainder of the agreement continues to December 31, 1924, day week. The wage scale will be

OUSTED OFFICIALS MAY GET "REBATE"

TALLAHASSEE, May 22.—The house passed yesterday a bill by Representative Davis which would provide for a lump appropriation to reimburse officials who are removed from office by the governor but who are reinstated by the senate. The measure, which would eliminate action by the legislature on sundry claim bills of the nature at every session, would also provide that the reinstated officials shall be reimbursed for only the net emolument of his office during the time of his suspension, less the amount he has earned in some other pursuit.

Representative Hoeker vigorously opposed the bill, asserting that although he was aware that the constitution provided that reinstated officials be reimbursed for the money lost by their suspension there was no way of making the legislature reimburse them and he always voted against such claims. Representative Davis, along with Mr. Stokes, pointed out that under the constitution provision, there was nothing to do but reimburse and further the present system of paying officials restricted the payment to the actual monetary loss.

BROWN MAY QUIT SUPREME COURT

TALLAHASSEE, May 22.—Another vacancy on the supreme court was seen in the passage by both houses yesterday of a bill which will give the judicial circuit embracing Dade, Monroe and Broward counties, an additional judge. Coupled with the passage of the bill were apparently reliable reports that Judge Jefferson B. Brown of the supreme court was slated for the appointment, these reports having it that the justice wanted to return to his home at the clover end of the peninsula. Passage of the bill was accomplished with little difficulty, after a census had been taken only recently to bear out contentions that the circuit had more than the necessary 75,000 population which constitutional amendments ratified last November, entitles it to an additional magistrate. The senate yesterday debated a bill that would enable Chief Justice Taylor, who is in his eighties, to retire from the bench. The bill would provide for retirement of supreme court justices after reaching the age of 70, and after having served 25 years on the tribunal.

"Workmen have arrived and are now excavating and preparing for the work of constructing the new \$40,000 school building," says the Eau Gallie Record. "The structure will be of interlocking tile and reinforced concrete, two stories high, with ground dimensions of 94 by 104 feet. Among the features will be an assembly hall of large size." His Record is very naturally pleased over the actual beginning of work on the new school building. All Florida towns and cities are trying to get their schools in good condition and to provide ample and adequate accommodations for the rapidly growing school population. Correct this sentence: "The floor under her eggs was kept as clean as the exposed portions."
