# of my threat"

"Two Southern traditions are oratory -and good tobacco. Lucky Strike shows me how to include in both. For this light smoke not only pleases my taste but leaves my throat in condition. Last fall in North Carolina-when I made over 100 speeches-I visited the Lucky Strike factory. I believe I discovered, in the Lucky Strike 'Tousting' process, the secret of what makes this cigarette so considerate of my throat. I have been more than ever an advocate of a light smoke since seeing the extra care and expense devoted to making Luckies easy on the throat."

Rolf. R. Reynolds

THE FINEST TOBACCOS-"THE CREAM OF THE CROP"

## In a recent independent survey, an overwhelming majority of lawyers, doctors, lecturers, scientists, etc., who said they smoked cigarettes, expressed their personal preference for a light smoke.

Senator Reynolds' statement verifies the wisdom of this preference and so do leading artists of radio, stage, screen and opera, whose voices are their fortunes, and who choose Luckies, a light smoke. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on your throat.
