

Political Circus Capital Better Than Barnum Show

Wage And Hour Law And Rearmament Head Varied Bill

WASHINGTON, Apr. 25.—(AP)—The biggest show on earth this week is not the circus, but Washington. Its three rings are the executive, legislative and judicial branches of government.

(1) Executive—"Men are not prisoners of fate, but only prisoners of their own minds," says President Roosevelt. And his peace plan to Europe, Secretary Hull declares, has rallied public opinion—"the most potent of all factors for peace."

That done, Mr. Roosevelt turned to domestic affairs. He said he would resume conference on taxes and send Congress a message regarding WPA.

He reviewed his administration's attack on crime and urged enforcement officers, conferring in Washington, to co-operate with the federal government in strengthening the prison parole system.

He withdrew his nomination of Thomas E. Amlie for the Interstate Commerce Commission at Amlie's request. Opponents had dubbed Amlie a red, so Mr. Roosevelt wrote him: "A quarter of a century ago, I, too, was called a Communist and a wild-eyed radical because I fought for factory inspection, for a 54-hour-a-week bill for women and children in industry, and similar measures."

And he admonished young Democrats: "The progress of Democratic political education is helped by the clamor of the non-drivers."

He said he would have a message ready for you may think it will be the other fellow's message. Chairman Farley added a reminder that Democrats should be counted on a 1940 landslide.

(2) Legislative—Excerpts from much ado about defense and neutrality follow:
Sen. David I. Walsh—"We can no longer defend a two-ocean navy."

Sen. Hamilton Fish—"If President Roosevelt had refrained from meddling in England and France... would have long ago reached an agreement... to solve their own problems."

Blackbridge Long, ex-envoy to Italy—"I am thinking of... what will keep this country out of war and that is why I am supporting the 'cash and carry' proposition."

Norman Thomas, Socialist—"Like myself, the Germans (if they attacked America) would probably get lost in Brooklyn."

The Senate voted to spend \$64,000,000 on naval bases. The House stayed plans to train 15,000 civilian stevedores and debated extension of New Deal monetary powers.

Relief remained an issue. The Senate took up two Byrnes bills: One would merge WPA, PWA, CCC, NYA, the public roads bureau and the treasury's public works agency; the other would liberalize social security benefits. And House WPA inquirers found that David Lasser, Workers Alliance head, does not consider his organization subversive, but Herbert Benjamin, its secretary, is a Communist.

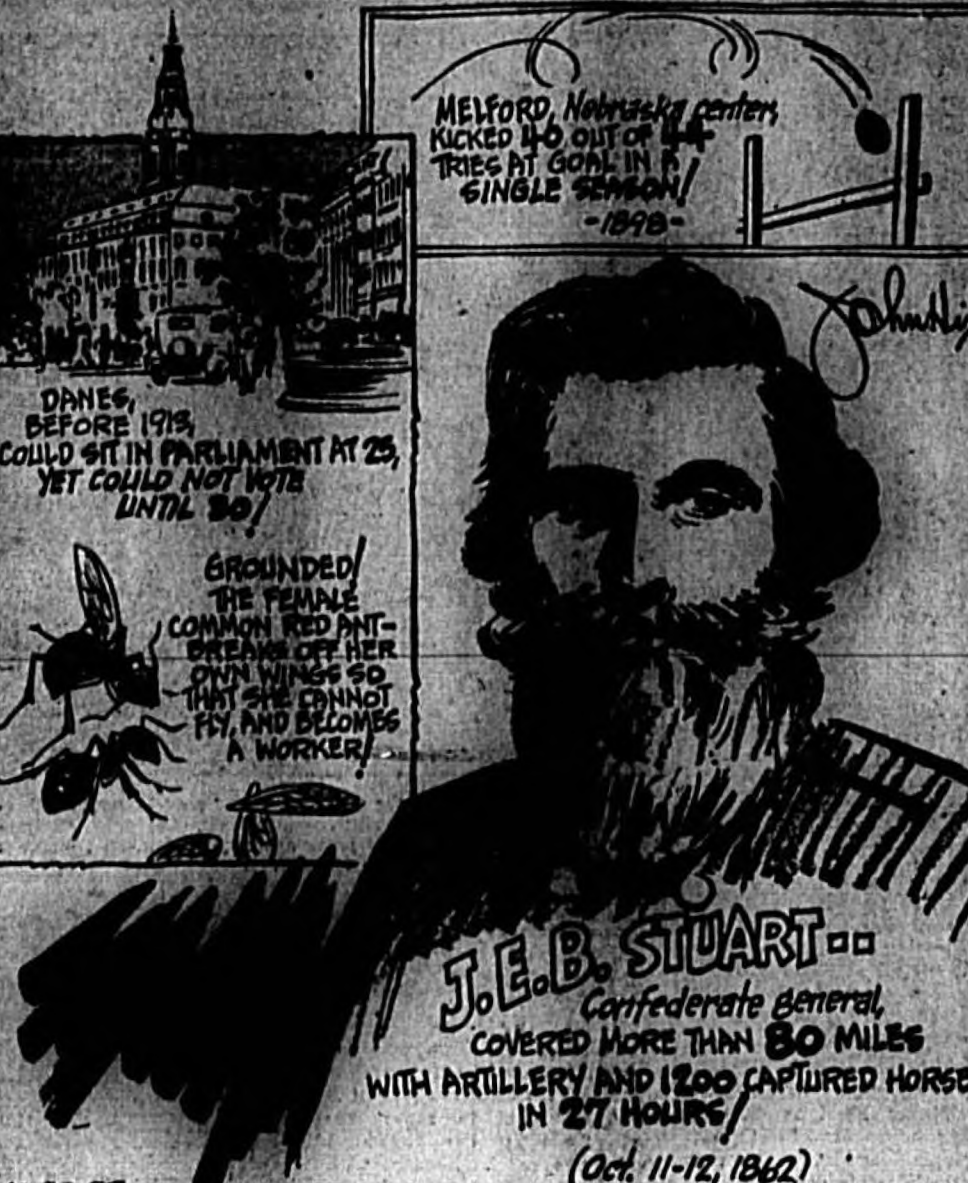

(3) Judicial—Joseph O. Birecker of Hot Springs, Ark., is an ex-convict who came to America in 1925, became a Communist in 1926, dropped out later, and was pardoned in 1934. But the Supreme Court held Monday that his past membership in the Communist party was not grounds for deportation. "I fight for democracy," said Birecker. And he is known now, largely because Labor Secretary Perkins likened his case to that of Harry Bridges, Washington-born CIO chief on the Seattle coast, and refused to try Birecker's case even when the government was in possession of incriminating evidence.

Gov. Frank B. Rowland, Republican of the former 1934 gubernatorial election, is expected to be a candidate for the 1939 term.

Gov. Frank B. Rowland, Republican of the former 1934 gubernatorial election, is expected to be a candidate for the 1939 term.

J. E. B. STUART Confederate General, COVERED MORE THAN 80 MILES WITH ARTILLERY AND 1200 CAPTURED HORSES IN 27 HOURS (Oct. 11-12, 1862)

STUART'S MARCH

One of the most amazing feats in military history was the speedy return of General J. E. B. Stuart to Virginia after a successful raid on Chambersburg, Pa., a Union stronghold. General McClellan's command, chasing Stuart that night, all of his cavalry horses broke down, rendering him almost indispensable in 1862, with 1,800 men. Next day before he could advance on the military supplies of the Union Army, and captured 800 good cavalry horses.

VOTING IN DENMARK

A strange Danish law, before 1913, permitted men to run for parliament at the age of 25, and at the same time prohibited anyone under 30 years of age from voting. The theory behind this was that the average voter develops late in life, but that an exceptional person might rise at an early age with sufficient ability to manage affairs of state. Today, 25 is the legal voting age in Denmark.

MARKET REPORT

Daily report of sales of fresh fruits and vegetables at the San Francisco market. Wholesale market for fresh fruits and vegetables, other than for a 24 hour period ending at 12:01 A. M. today, as reported by J. J. Mitchell, Manager to the Federal-State Market News Service.

They had a hard time for each other when they were in the same line, but now Dorothy Lamour, former-tanana actress, and her husband, leader-actor, Charlie Kay, are posing in Hollywood.

Old-Nation Collector Has 1700 Classified

INDIANAPOLIS, Apr. 25.—(AP)—A man who has been collecting old newspapers has gathered 1,700 of them since the start in 1934 and is still going strong.

Sin Is The Root Of World's Troubles, Says Bishop Wing

Whips Form To Freedom Human Spirit, Diocesan Head Says

Warning Issued On Own Errors

War Is Said To Be Born Of Covetousness And Greed

Declaring that the root of all the world's troubles today is sin, and that the totalitarian concept of the state is a menace to the "dearly bought freedom of the human spirit," the Rt. Rev. John D. Wing, Bishop of the Episcopal Diocese of South Florida, spoke at a joint session of the delegates to the 17th annual diocesan convention and the Women's Auxiliary at the Mayfair Hotel this morning.

"Turning from a review of the activities of the Diocese during the past year which he termed most successful, Bishop Wing said "let us lift our eyes for a moment to a wider horizon. How sad the comparison with our peace and quietness appears the condition of the world as a whole today. War clouds dark with death and destruction, cast a gloom over the earth. The real persecution being suffered by helpless people, innocent of their race or religion, causes us to shudder with horror.

Townsendites Plan Interesting Meet On Thursday Night

A brief business session is promised at the Townsend Club Thursday evening at the Court House because of plans being made for the entertainment program which will follow.

The meeting is scheduled to begin at 7:30 o'clock and President W. J. Hughes has announced he is anxious to have as large attendance as possible, as plans are being made to send a record delegation to the national convention.

There will be music by the Townsend orchestra and readings by local talent. Judge James G. Sharon, national deputy for Seminole County, will be the speaker. On Friday, several Townsendites will accompany Judge Sharon to Lake Mary for the purpose of organizing another club.

Orlando Invitation Accepted By Woodmen

Several applications for membership were approved and an invitation from the Orlando camp to conduct an initiation was accepted at the regular meeting of the Woodmen of the World in the Woodmen Hall last night.

During the meeting, presided over by Council Commander J. J. McClendon, the following applications of new members were approved: ...

The information has been received by the Florida Citrus Commission from Rep. J. Bardin ...

Whether or not the Secretary of Agriculture would consent to a favorable report by the special committee was still undecided ...

JAPAN'S TROOPS 'LIE DOWN' ON JOB FOR SAFETY

This dramatic photo shows Japanese assault troops sticking tightly close to the planks of a wrecked bridge as they wait for the signal to advance. It was taken as the Japanese prepared to attack a strategic point near Honyang Lake.

Banquet For Episcopalian Delegates To Be Tonight

Citrus Shipments Pass Volume For 1938-'39 Season

LAKELAND, Apr. 26.—Shipments of Florida oranges this season should pass the total shipments for the 1937-'38 season sometime this week, according to a compilation announced by the Florida Citrus Commission. There still remains approximately two months in which valencies will move to market in substantial volume, with a tapering off expected in June and a few carloads still remaining for final marketing in July.

Seminole Measures Presented In House

Three bills concerning Seminole County were introduced in the House yesterday by Representatives Leonard and Lehman of Seminole County. One measure relates to the compensation of the Circuit Court clerk for services performed in the circuit or county court.

Congress May Get Report On Med Fly

LAKELAND, Apr. 26.—The report of the special congressional committee which investigated losses incurred by Florida citrus growers during the Medley and Citrus fly campaign 19 years ago should be presented to Congress in the next few days, and there is a strong possibility that it will admit the federal government's responsibility for much of the trouble.

Herndon Warns End Of Murphy Act Is Nearing

Clerk Says Hundreds Of Certificates Still Unredeemed

There are hundreds of parcels of land in Seminole County, including many homesteads, title to which will pass to the State unless the owners apply immediately for cancellation of the delinquent tax certificates outstanding against the property under the provisions of the Murphy Act, County Clerk O. P. Herndon said today, reminding these owners that the deadline for filing these applications is rapidly approaching.

Fakir Fails To Leave Jail Via Magic Route

Mohame Khan, who gave his address as northern India, last night failed to unangle the bars of the City jail with the ease with which he unites handkerchiefs, knots, and performs other routine hocus-pocus of an itinerant magician.

PROCLAMATION

WHEREAS, on Thursday, April 27th, 1939, our neighbor City, Orlando, visits us for their first baseball game here during the current season, and WHEREAS, it is our desire that we welcome our friends from Orlando at that time in a fitting manner.

NOW THEREFORE I, Edward Higgins, by power vested in me as Mayor of the City of Sanford, Florida, hereby proclaim Thursday, April 27th, 1939, to be Orlando Day throughout the City of Sanford and urge all that can possibly do so, to attend the baseball game to be held here on the evening of that day and show our Orlando friends that we appreciate their visiting with us.

Done this 26th day of April, A. D. 1939. EDWARD HIGGINS, Mayor of the City of Sanford, Fla.

Britain Resorts To Compulsory Military Service For Youth

Proposed Hike In Shipping Cost Gets Disapproval

Revision Of Estimated Container Weights Meets Opposition

WASHINGTON, Apr. 26.—(AP)—An Interstate Commerce Commission examiner today disapproved the proposal by the railroads to increase substantially charges for transporting citrus fruit and vegetables from California, Arizona, Texas and Florida to destinations throughout the country.

The railroads proposed to revise the estimated weights on the products loaded in containers. The weights would have been based on the actual weight of the loaded containers as determined by tests made under the supervision of the Association of American Railroads.

All containers are now moved on an estimated weight basis. Examiner Paul O. Carter in effect approved the proposal but said carriers should not be allowed to adopt a new plan "in the absence of proof that the resulting charges will not be unreasonable or otherwise unlawful."

He estimated the increased transportation charges would exceed \$3,800,000 annually in the four states.

House Holds Firm On No Compromise Policy For Taxes

Sale Of Delinquent Property To Wipe Out Taxes Proposed

TALLAHASSEE, Apr. 26.—(AP)—"No compromise" tax policy held firm in the House today in an effort to recall and kill the proposed constitutional amendment that would limit adjustments failed by a vote of 52 to 12.

The proposed amendment, requiring a two-thirds vote in the Legislature to compromise, adjust or cancel taxes legally assessed and levied, passed the House Monday 57 to 33. It is not applicable to municipal or drainage district taxes.

If the Senate concurs, the amendment will be submitted to the voters in the 1940 general election.

The county reconvened, Rep. Butt of Broward said the amendment, if ratified, might bring about a sales tax.

The House Finance Taxation Committee endorsed a bill authorizing the public sale of property on which the taxes are delinquent. The sale should wipe out all taxes and the proceeds would be divided among governments.

Maude Ramsey Is Named Head Of Badminton Club

Miss Maude Ramsey last night was elected President of the Badminton Club at an organization meeting held in the City Hall Auditorium. Ralph Bagwell was elected secretary-treasurer of the club.

Because of the additional recreational facilities recently placed in the City Hall Auditorium of the Seminole County Chamber of Commerce, members of the Badminton Club voted to extend their membership to take in 25 new players. This will increase the membership to a total of 40.

Any one interested in joining should contact the Chamber of Commerce office immediately, or come to the City Hall at 8 o'clock Thursday evening of this week. Officers of the club announced dues are \$1.00 per year, with a life assessment for each month.

Club members are privileged to use the auditorium Tuesday, Wednesday and Thursday evenings of each week also during the day each week, and all day on Sunday. Play on nights other than those scheduled may be arranged by calling the Chamber of Commerce.

Following the meeting last night, the members of the organization used some of the newly installed equipment, including the table tennis outfit, and the two shuffleboard courts which were completed yesterday.

Members of the club present at the meeting included, Jean Adams, W. A. Adams, Mildred Bridges, H. James Gut, J. C. Higgins, Dr. and Mrs. T. F. McDaniel, Clyde Parker, Maude Ramsey, Mr. and Mrs. Don Ulrey, City Recreation Director Robert Hardaker and Ralph Bagwell.

New Angle In Race Track Tax Squabble Given

TALLAHASSEE, Apr. 26.—(AP)—Washington County put a new angle into the race track tax suit yesterday by suggesting the money is a voluntary contribution by those who attend races and that may be given to Florida counties without violating the State Constitution.

The county intervened here in a suit by which Charles E. Wiggins of Miami has impounded about \$700,000 in race track taxes, divided equally among the 67 counties since pari-mutuel betting was legalized in 1931.

Wiggins contended the race track tax is a State tax, and the Constitution prohibits its division among counties for county expenses. A temporary injunction issued by Circuit Judge J. H. Johnson restrained distribution of the money several weeks ago.

Washington County, through Harry H. Wells, its attorney, filed a motion to set aside the injunction which is against Comptroller J. M. Lee who distributes the race track taxes. Wells said he would seek to show that no person is required to attend races, or to bet at them, and that therefore the taxes paid are contributions and not taxes enforceable against the public generally.

Carrying out this theory, Wells said he would show that the State merely acts as an agent in taking the "contribution" from the race track bettors and passing it along to the counties.

Judge Johnson will conduct a hearing today on Washington County's case and then will have a hearing Friday on the Wiggins suit. If the Wiggins suit is dismissed, Comptroller Lee would have authority to divide the impounded money among the counties.

The Legislature, now in session, has employed a committee to investigate the reasons for the Wiggins suit.

LOCAL WEATHER

Partly cloudy and mild tonight and Thursday.

City News Briefs

Violators of City ordinances will be tried in Judge Miller's court at 4:00 o'clock this afternoon.

William Shriner and Madeline Gill, both of this city, were married in the office of Judge R. W. Ware this morning.

C. E. Bradshaw, backer of the Sanford Lookouts, is reported to be recovering following an attack of influenza from which he has been suffering, officials of the club stated today.

Lions To Attend Meet In Kissimmee Tonight

The regular meeting of the Lions Club has been dispensed with for tonight since a large number of the members of the club plan to attend the charter night meeting of the recently organized club in Kissimmee, according to Secretary J. L. Galloway.

The Kissimmee club is the fourth to be organized in the last few weeks. Mr. Galloway said, adding that others have been formed in Deland, Mr. Dorn, and Winter Park.

Maxwell Stewart, past president of the local club, will preside at the Kissimmee meeting as district deputy governor.

All Men Of Ages 20 To 21 Are Called To Colors For 6 Months Of Training

Hitler Indicates He Will Push On Heavy New Taxes Are Drafted In England To Meet Emergency

These men who were born during the war will be given the honor of joining the territorial army of the army reserve.

This break with Britain's tradition of voluntary service was designed as a warning to Italy and Germany and as an assurance that she is prepared to back her guarantees of their independence by drastic measures.

Nazi Germany looked with considerable suspicion on Britain's use of the draft to increase her fighting forces. Berlin appeared, however, not fully to have made up its mind whether to regard the conscription as purely for British defense or for reasons of international policy.

A Berlin spokesman emphasized that Chancellor Hitler will not (Continued on page six)

Receiver For Hearst Publications Asked

WILMINGTON, Del., Apr. 26.—(AP)—Three stockholders asked the United States district court here yesterday to appoint a receiver for Hearst Consolidated Publications, Inc. The suit charged neglect, mismanagement and waste.

The receiver, the full of complaint says, would "take possession of all the money, assets and properties" and conserve them pending final determination of the litigation.

An accounting also is requested. The suit was filed by Hugh M. Morris and S. Samuel Arch on behalf of Mary S. Lanford and Julia J. Harter of Washington and Everett L. Mier, whose address was given only as Illinois.

Named as defendants are the Hearst Consolidated Publications American Newspapers, Inc., Hearst Enterprises, W. R. Hearst, members of his family and officials of Hearst companies.

Knights Templar To Be Inspected Friday

The annual inspection for the Taylor Commandery of Knights Templar will be held in the Masonic Temple Friday night, according to Frank L. Miller, who added that the inspection will be preceded by a dinner in the Valdez Hotel in honor of the inspector, J. T. E. Dickinson and other officials of the Florida lodge.

Mr. Miller declared that it is absolutely essential that members who desire to attend the dinner make reservations with him not later than Thursday. He also urged as many as possible to wear uniforms for the inspection.

WFA SLASH PLANNED

JACKSONVILLE, Apr. 26.—(AP)—State Administrator Roy Schroeder said yesterday a slash in Florida's WFA rolls next week would be less drastic than at first reported.

T. L. Tilden of Orlando, president of the Florida Citrus Exchange and Chairman of its Board of Directors for the past two and one half years, resigned last week and is succeeded by C. H. Walker, prominent citrus grower of Avon Park.

The fact that much of the criticism which has been directed against Col. Charles Lindbergh during the past few years has been based on a large amount of misunderstanding, and indeed misinformation, concerning his plans and activities, is fully exemplified by the change in public sentiment since his return to this country and his employment in the U. S. air service.

It is now clearly apparent that Lindbergh had not turned "traitor" against this country when he took his family to England and then to France, or when he visited Berlin and accepted a German decoration from the hands of Field Marshal Goering. Nor was he on a joy-riding expedition when he toured the air fields of Europe.

He was busy gathering valuable information on the relative strength of all these nations in the air, on the number of their planes, their speed in the air, their durability and maneuverability, on the size and number of airfields, the quality of their research laboratories where improvements are made, and the facilities for reproduction which their airplane factories boast.

Because of his prestige, he had access to fields, planes, factories, and even many secrets of state, which would have been carefully guarded from more obscure secret service agents, or from the prying eyes of the ordinary aviation enthusiast. He is probably the best informed man in the world today on the air strength of all the various nations of Europe.

In the light of current world conditions, the prospects for war, the part which aviation will play in any such war, and the probable superiority of the German air service to that of any other country in the world, Lindbergh's knowledge thus becomes of prime importance, not only to this country, but also to England, France and all the other democratic nations whose existence depends upon the strength of their defense against aggression.

It is more than likely that as events develop during the coming years Col. Lindbergh's worth to his country will become even better appreciated, and that his eccentricities, if a desire for a small amount of personal privacy be regarded as eccentric, will be dwarfed to insignificance.

Col. Lindbergh's Work

The fact that much of the criticism which has been directed against Col. Florida's Highways

One of the main reasons for the increasing number of highway accidents is the increase in the number of automobiles which are using the highways. The solution to this problem is of course to build more roads, but in the face of the increasing need for more highways, funds for their construction in this State are actually being reduced.

The Bradenton Herald declares that Florida's highway system which for years had something for all Floridians to brag about as far in the lead of most other states, is now falling behind our sister commonwealths. Other states are rapidly outpacing Florida in the construction of new and better highways.

"The reason is not far to seek," says the Bradenton paper. "First, only three-sevenths of the gasoline tax in Florida goes to the State Road Department for maintenance of existing roads and bridges, and new construction. Second, because Florida is smaller in population than any of its neighbor states federal aid for roadbuilding is proportionately less. The first of these situations can be cured by more liberal appropriation for roads from the gasoline tax, but the second can be cured only by time, which will bring our population up to that of any of our neighbors—for Florida is outpacing all states in percentage of growth save California.

"The principal road problem in Florida is rehabilitation of lightly constructed roads built before large trucks were designed. These roads—and they run into the thousands of miles—must be rebuilt and strengthened to take care of traffic in the future.

"What the State should do is adopt a road construction plan to cover the next ten years, and make provision to work up to it."

SITTING IN WITH THE LAW MAKERS

Well, folks, we're kind of clearing up the situation and seeing we can get down to solving some of the major problems in another week or so.

The very problem is out of the way. (Hall) Warren raved and belabored for an hour or more but it was all rebuffed. The opposition (like about) said to have the bills and come and their constituent children could not down on the highways for another two years or so.

Some of the members have already announced that they will be absent for a week or more. They didn't even have time to say good-bye to their constituents.

HARRY HOEKING WILL BUY A BIRD IN IOWA

The Sanford Forum

EDITOR: The Herald

A short time ago I noticed Mr. C. E. Mason wanted to protect panthers and polecats.

I am a sportsman and do everything I can to protect wild life. Speaking of hawks and owls, which Mr. Mason wants protected, I will say they do just as much good as they do harm, although they eat some game birds and animals they eat their share of snakes and rodents.

Getting back to polecats and panthers, I can say the panthers do not grow upon small things such as mice, frogs, and green-boppers. Wouldn't a panther have a fine time chasing a rat across through the grass?

The panther lives on deer, turkey and other large wild life. I am sure the tourists do not come down to Florida and spend thousands of dollars annually to hunt panthers and polecats. They come for only the game which these two destroy. As for polecats I am certain it would be a great help to wild life to have them protected especially the birds so dependent on the polecat's food to come to the ground. Polecats don't have any special food, they eat anything, especially to quail, turkeys, whippoorwill and bull bats. Our whippoorwill and bull bats are becoming scarce and thousands of mosquitoes and flies, which are...

Persons do not see a few insects but they are continuously searching for them. They don't want young birds or a farmer's hen house to be steeled upon. May I ask which you had rather see the words...

full of polecats or full of both whites and other birds. While hunting last season I noticed that the rattlesnakes are getting very scarce and believe it would be wise to get a law passed to protect them as I am sure everyone loses in one snake-killing everywhere. Surely they are as much help and good to mankind as the polecats are to the birds we love. —WILLIS BROWN

In a bill designed to curb racketeers, Senator Pat Whitaker proposes that it shall be unlawful for firms or individuals to employ any name that would imply state ownership or sponsorship such as "Public Service Commission of Florida," "Florida State Publicity Service," or "Florida Development Commission." Passing the Senate unanimously, the bill is now in the House.

It is a big hearted gesture and sounds swell on its face, but if such legislation were passed it would reduce the state's revenue from the gas-tax about 25 percent. Of course officials of political subdivisions, as well as farmers, boat owners and writers, are HONEST and are receiving tax-free gas for their tractors, police cars, garbage trucks, planes or boats, would not think of using a drop of it in the family automobile or allow Cousin John to "fill his tank" so he wouldn't run out or something.

However, such legislation should tend to stimulate the sale of

turns last and treated. I know where I could get a few boxes of hand-pans for little or nothing and arrange to have an automobile acquire a pass of ownership that would make my car a few dollars of gas with a few hundred dollars. I really don't see it in my automobile, but if it is in my hand if the car is made a mistake it would be an awful nuisance to have the tank and refill it with gas, especially if I happened to be in a hurry.

Our tourists and water visitors would be sure to make until they found out that there were so many cars with tanks that would be a big help to the dramatic traffic. A few months ago I was in a city and saw a car with a tank that was a big help to the dramatic traffic. A few months ago I was in a city and saw a car with a tank that was a big help to the dramatic traffic.

TOO LATE TO CLASSIFY

From all reports, the present session is the quietest and best behaved in years. From the very beginning legislators have shown an inclination to really work to the point that compared with previous sessions, they are getting terribly behind with "ear-jockies" and the like.

Ordinarily the lobbyist overruns the capital like madmen—do a business house kitchen, but this session they are compassed by those houses. Where two or three dozen high-power boys used to get together in the name of this or that interest, sworn all over the lobby, which was perched and exert their so-called INFLUENCE generally, this session we find one or two more or less mark observers.

Just why the lobbyists are laying off, no one seems to know, unless in stalling up the culture of the legislators this time they figured it would be a waste of time and money.

Those who contended that Governor Fred was all washed up and would be out of the picture this session, now realize how badly they were mistaken. Fred's influence is being felt and his "we don't need no more taxes" which rang out at the beginning of the party, met a resounding West and most legislators appreciate this fact.

Bills recently introduced would relieve cities, towns and villages of the state from the payment of gas-tax; another bill would remove the tax from gas used in farm tractors, airplanes and boats.

It is a big hearted gesture and sounds swell on its face, but if such legislation were passed it would reduce the state's revenue from the gas-tax about 25 percent. Of course officials of political subdivisions, as well as farmers, boat owners and writers, are HONEST and are receiving tax-free gas for their tractors, police cars, garbage trucks, planes or boats, would not think of using a drop of it in the family automobile or allow Cousin John to "fill his tank" so he wouldn't run out or something.

However, such legislation should tend to stimulate the sale of

turns last and treated. I know where I could get a few boxes of hand-pans for little or nothing and arrange to have an automobile acquire a pass of ownership that would make my car a few dollars of gas with a few hundred dollars. I really don't see it in my automobile, but if it is in my hand if the car is made a mistake it would be an awful nuisance to have the tank and refill it with gas, especially if I happened to be in a hurry.

Our tourists and water visitors would be sure to make until they found out that there were so many cars with tanks that would be a big help to the dramatic traffic. A few months ago I was in a city and saw a car with a tank that was a big help to the dramatic traffic.

It is a big hearted gesture and sounds swell on its face, but if such legislation were passed it would reduce the state's revenue from the gas-tax about 25 percent. Of course officials of political subdivisions, as well as farmers, boat owners and writers, are HONEST and are receiving tax-free gas for their tractors, police cars, garbage trucks, planes or boats, would not think of using a drop of it in the family automobile or allow Cousin John to "fill his tank" so he wouldn't run out or something.

I really don't see it in my automobile, but if it is in my hand if the car is made a mistake it would be an awful nuisance to have the tank and refill it with gas, especially if I happened to be in a hurry.

MERCURY OWNERS WRITE AN AD!... All these statements are actual quotes from letters by owners of the new Mercury 6. During the last 30 years I have owned and operated many different types and makes of automobiles, but I have never yet experienced the thrill and ease of operation that I have with my new Mercury... First car I have ever owned whose gasoline mileage exceeded my expectations... with the speed ranging from 50 to 70 miles an hour, the gasoline mileage was 18.4 miles per gallon... All cars, of course, have their special points and features, but I don't believe that I have ever before found one that combined all of the desirable features of the Mercury... I am of the opinion that in the Mercury I have small car economy with big car performance, riding qualities, safety and elegance. The way this car handles... is amazing... I have owned both lighter and heavier cars than this but none that exceeded the Mercury in roadability... fulfilled every promise... about 15.8 miles to the gallon... a marvelous performance... I drive along the streets and roads, my speed... and ease of getting... into my favorite parking lot was... the privilege of... driving it...

Sanford Nine To Play Senators In Orlando Tonight

Veter To Get Hurling Assignment Against Last Place Team

Tonight Sanford's undefeated lookouts will hop to Tinker Field where they will attempt to run their string of consecutive wins into eighth when they tangle with Johnnie (Crying-In-The-Whisperer-For-Aid) Gansel's seven-trodden little legislators who are now solidly ensconced at the bottom of the league with a record of two wins and six defeats.

Manager Alexander has indicated that he plans to start the veteran hurler, Claude Gansel, who to date has won two games in two starts. Clipping the DuLand Reds 14-4 in the season opener there and then coming here to hold out to a win in a 12 inning season opener.

Sanford Senator hurler, is expected to take the mound against the visitors. Gansel has credited both of Orlando's wins while charged with one of the visitor's losses.

CLAUDE GANSEL, veteran hurler, will start tonight.

Lookout, Angler Go Is Postponed Because Of Rain

G-Men Win From Palatka 7-3 In Only Loop Game Played

The ghost of Miss Stoute, the female rain-maker from Little-Dribbles-On-The-Roof, Arkansas, or Oxford Miss. or points north, east, south, and west, must have been lingering amissly over the sodden ball parks of the Florida State league last night.

Out of four contests scheduled for last night, only one materialized when the Gainesville G-Men showed the Palatka posies down another notch in the loop standings when they slugged them with a 7-3 defeat, playing errorless ball behind Nobilit, who permitted the Azaleas 11 blows over the nine inning route.

The G-men fired a like number of safeties against the posie pitcher levy, who went the full route for Palatka.

Around the rest of the circuit, old men stormy weather held out in his own right.

At Leesburg last night these rollicking, league-leading lookouts sat about disgustedly shooting a 1000 percent in the bull circuit before finally crawling aboard Lockout Jr. and heading for Sanford.

At Deland the Saints kept their toes out of the sea of mud commonly known as Conrad Field, at Tinker Field in Orlando the Daytona Beach Islanders look one look at the field, and left their uniforms packed where the ghost of the little old rainmaker brought the raindrops out across the already soggy field.

ORLANDO NIGHT

Mayor Edward Higgins, in recognition of the ancient rivalry between Orlando and Sanford, today issued a proclamation, officially declaring the first appearance of the Little Senators here tomorrow night "Orlando Night."

This game will be the second of the first two-game series of the season with the Washington farm which to date has a record of six defeats against two wins.

Mayor Higgins stated, "In view of the long time rivalry between these two clubs, I take pleasure in issuing this proclamation which declares tomorrow night to be 'Orlando Night' I hope the people of Sanford will come out to support a fine ball club and a fine manager."

PUBLISHED NOTICE OF RESOLUTION TO DISSOLVE.

STATE OF FLORIDA, COUNTY OF SEMINOLE, SS: Public notice is hereby given that at a special meeting of the stockholders of Wheeler and Morgan, Incorporated, a corporation organized and existing under and by virtue of the Laws of the State of Florida, and held in the office of the Company on the 17th day of April, A. D. 1939, at which meeting all the stockholders representing all the capital stock of said corporation were present, the following resolution was unanimously adopted by said stockholders, all the votes represented by the whole stock of said corporation being cast in favor of the adoption of said resolution:

"Whereas this corporation has no indebtedness of any kind or character, all of its liabilities having been fully discharged and satisfied, and the assets of said corporation having been duly distributed to its stockholders legally entitled to receive the same, and

Whereas further said corporation is no longer engaged in active business,

"RESOLVED" be it resolved by the stockholders of Wheeler and Morgan, Incorporated, in session duly assembled pursuant to legal notice thereof, that this corporation be dissolved and its charter and franchise be surrendered and that the officers of the corporation

take the necessary and proper steps to effectuate the dissolution of said Corporation.

That a record of such proceedings signed by the president of the corporation, verified and attested by the secretary of said corporation, under its corporate seal has been duly recorded as required by law.

Dated this 25th day of April, A. D. 1939.

T. L. LINTON, Secretary

We need a better road system... but how can we get it without overburdening the taxpayer?

The answer is... **LIMEROCK** Limerock-base roads cost less to build — less to modernize than any other permanent type road. Built with Limerock — and save present and future taxes!

A Clear Call for LIMEROCK

Limerock bridges the gap between Florida's urgent need for a better road system and the taxpayer's insistent demand for thoughtful economy in spending tax-dollars.

Limerock provides the way to have new roads and to modernize old roads... yet to enjoy the double thrill of an immediate saving in construction expense and a future saving in the cost of modernizing.

It takes fewer tax-dollars to build a Limerock-base road than it does to construct any other so-called permanent-type highway. And because Limerock is everlasting because it simply does not wear out, break up or deteriorate with age, Limerock roads cost less to widen and modernize.

For riding comfort Limerock-base highways have no superior. Their traction-textured surface treatment gives the highest known degree of non-skid safety. They require only low cost maintenance necessary for any type of pavement, yet no properly constructed Limerock-base highway has ever failed in service. Insist that all new roads built in this section of Florida be constructed with a Limerock base. Get the double economy of Limerock. Make your tax-dollars work forever.

Send Today For FREE Booklet ABOUT LIMEROCK. Informative, educational, strikingly illustrated.

Roosevelt's Peace Pleas Welcomed By Prime Minister

Chamberlain Expresses Satisfaction Over Appeal For No War In 10 Years

Anglo-Soviet Talks Continue

Europe Awaits Hitler's Reply To President Apr. 28

Prime Minister Neville Chamberlain in a brief statement of foreign affairs, told the house of commons today that Britain welcomed "with great satisfaction" President Roosevelt's appeal to Italy and Germany for a 10-year peace agreement.

Chamberlain added that the conversations were continuing with Soviet Russia in an effort to get Russia into the British-French defensive alliance.

An expected announcement of the British-French pledge to fight for Turkish independence, if secured, was delayed, it was understood, until the Russian conversations were completed.

It appeared Europe was in for a period of waiting—until Chamberlain's appeal to Hitler, President Roosevelt's appeal, and a meeting of Reichstag Apr. 22.

The German fleet, meanwhile, sailed for maneuvers off the Spanish coast.

Demobilization of the Spanish generalissimo, Franco, ordered the 11st group of 300,000 to return home. The bulk of the southern forces remained under arms, however, awaiting the victory celebration to Madrid next month.

In Paris French authorities reported last night that Great Britain and France had reached a complete agreement with Soviet Russia for a tripartite pact, pooling the warplanes of the three nations under an extension of Europe's armed peace front.

At the same time the Soviets were said to have notified France that they were prepared to sign a mutual assistance pact with Britain and harness it to their

Report Of Fire Department Shows Increased Losses

The monthly report of the Fire Department released this morning by Fire Chief Mack Cleveland showed the department averaged 17 alarms, also of them 10 were for fires.

Damage last month was \$748,000, principally as a result of a fire at the hall of the Industrial Order of Odd Fellows, a large apartment on the corner of Broadway and First Street.

The department officials stated that the fire started from a combination of an open match box and a gas leak in the building.

Losses of the fire were listed as follows: contents of the hall, \$748,000; contents of the hall, \$748,000; contents of the hall, \$748,000.

The 15-day order dissolved re-instated the Florida Citrus commission, Federal marketing agreement for export.

It was presented by Jay L. Harris, an spokesman for a committee of the real estate board, at a closed conference in the mayor's office, attended by City Attorney McMillen and a majority of the board of aldermen.

The order dissolved in January, 1938, the Florida Citrus commission, Federal marketing agreement for export.

City Bankruptcy Hearing Put Off By Judge Akerman

Walker Named To Investigate Validity Of Wilcox Statute

The hearing on the bankruptcy petition, filed in January, ended abruptly yesterday when Federal Judge Alexander Akerman asked a preliminary report on the validity of the amendment to the Wilcox Bankruptcy Law which the City has invoked to force holders of unrefunded bonds to participate in its refunding program.

The matter was referred by Judge Akerman to Allen E. Walker of Winter Haven, special master in the City's proceedings, who will prepare the report and also investigate other legal questions involved.

This is the first time that the amendment to the bankruptcy law has been invoked and it was stated that many other Florida cities would seek to complete their refunding programs under the provisions of the statute if Sanford is successful in its attempt.

The City hopes to get all of the outstanding bonds refunded in order that it may liquidate the huge bond debt of approximately \$5,000,000 over a 40-year period without levying an excessive millage which would be necessary to pay the interest on the bonds.

Notice was given by the Seminole County Bar Association yesterday that this group would present a bill to the Legislature to amend the City Charter to provide that the judge of the Municipal Court "shall be a duly qualified practicing attorney."

The proposed amendment would also fix the term of office for the municipal judge and provide for his compensation.

Although the public notice was given, as required by law, that the bill would be presented to the Legislature, Sidney J. Nix, secretary of the association, said the measure would not be introduced against the desire of the City Commission.

He said that representatives of the association will meet with the Commission next Monday night for a discussion and a decision on the matter.

The association previously voiced objections to a proposed Charter amendment to be offered by the City which would increase the maximum penalties of the Police Court from the present \$200 and 90 days maximum to a fine as high as \$500 or imprisonment for a period of six months.

The Commission unanimously voted to seek adoption of the measure after Chief of Police Roy G. Williams submitted a report showing that many other municipalities have similar charter provisions and that in the absence of such provisions a State statute would provide a maximum penalty of \$500 and 90 days imprisonment.

The weekly meeting of the Woodmen of the World will be held in the Woodmen-Hall tonight at 8:00 o'clock.

The regular meeting of the Masonic Lodge No. 62 F. and A. M. will be held in the Masonic Temple tonight at 7:30 o'clock.

The weekly drill, sessions of the three local National Guard companies was held in the Armory last night. Guardsmen were dismissed early in order that they might attend the baseball game.

The Seminole County Grand Jury for this term of the Circuit Court will convene at 10:00 o'clock tomorrow morning.

It was presented by Jay L. Harris, an spokesman for a committee of the real estate board, at a closed conference in the mayor's office, attended by City Attorney McMillen and a majority of the board of aldermen.

The order dissolved in January, 1938, the Florida Citrus commission, Federal marketing agreement for export.

Aggressors Are Named In Peace Appeal

Lage Agrees Hitler, Mussolini Designated As Attackers In Prospective War

WASHINGTON, Apr. 18.—(AP)—William Potter Lage of New York, writer on international affairs, asserted today he was "inclined to agree" that President Roosevelt in his peace appeal to Hitler and Mussolini had named aggressors in a prospective war.

He made the statement at a hearing before the House Foreign Affairs Committee on neutrality legislation.

Also in the field of foreign affairs, Chairman Pittman (D-Nev.) of the Senate Foreign Relations Committee, disclosed that the "cash and carry" provision of the neutrality act would be allowed to expire Apr. 30 despite the European crisis.

Senator Borah (R-Idaho) asserted, meanwhile, that imposition of economic sanctions the violators of treaties with the United States would constitute act of war.

President Roosevelt called in his advisers today to survey tentative plans as to the conduct of security and commodity markets in the event of a European war. Officially, said the question already had been discussed in a preliminary way by department officials directly concerned.

Mrs. Kendall Is Speaker At Meet Of Civic Group

Home Demonstration Agent, and County Chairman of the National Clean-up Week For Seminole County, yesterday morning spoke to the members of the Women's Civic League of Commerce.

She, as the only unattached woman in the room, in answer to her letters asking cooperation and aid of the various organizations, in the clean-up campaign which is slated for the week of Apr. 30—May 6 as a part of a national campaign.

Mrs. Eudora Curlett, chairman of the committee, told of the recent Miami convention of the State Federation of Garden Clubs where she was the only unattached woman on the program, she was asked to tell of the progress being made on the proposed "The Tree" park.

Those present at the meeting yesterday, besides the chairman, included Mrs. Martin Bram, Mrs. Roy Tillis, Mrs. Pearl Hanson, Mrs. J. O. Anderson, Jr., Miss Irene Hix, and Mrs. Gladys Kendall.

The weekly meeting of the Woodmen of the World will be held in the Woodmen-Hall tonight at 8:00 o'clock.

The regular meeting of the Masonic Lodge No. 62 F. and A. M. will be held in the Masonic Temple tonight at 7:30 o'clock.

SCOUT SPEAKER

W. H. Klusmann, assistant national director of camping and activities for the Boy Scouts of America, was the principal speaker at the meeting of the Central Florida Council of Boy Scouts of America held in the Junior High school here last night.

Salvation Army Concludes Drive Short Of Goal

Capt. Rose Reports Only \$1845 Is Collected In Campaign

Although only little more than half of the \$3,500 quota estimated by the Advisory Board as necessary to carry on the work of the Salvation Army during the coming year has been raised, Capt. E. E. Rose, commanding officer of the local Citadel, said today that the general campaign for funds had been ended. He added, however, that complete reports have not been filed by all of the workers.

Capt. Rose said that only \$1,845 has been raised to date but that this total may be boosted somewhat when all reports from rural and city workers are made.

G. E. Rollins, chairman of the drive, urged those workers to make their reports as quickly as possible in order that the annual drive may be consummated. He also urged those who have made no contributions to the work of the Salvation Army to do so within the next few days. This assistance, he pointed out, would make it possible for the Salvation Army to carry on its work properly during the ensuing year.

Commending Chairman Rollins for his cooperation during the drive, Capt. Rose said that he and all those connected with the local post "desire to express our sincere appreciation for the splendid co-operation, the moral and financial support of Chairman Rollins and Vice Chairman J. W. Hall and also that of all the citizens in this county who have assisted in the campaign this year."

Chairman Rollins said that those desiring to make contributions to the Salvation Army should leave them at the headquarters on Second Street. Workers' reports should also be filed there, he added.

L. O. F. Seek World Convention For Miami

Members of the Patriarchal Council, L. O. F., passed a resolution yesterday asking other lodges of their order to concur with them in asking the sovereign grand lodge of the world to hold its 1940 convention in Miami.

The meeting would mean the attendance of between 18,000 and 25,000 delegates.

Action was taken at the initial session of the patriarchal council, annual state meeting, being held here in conjunction with the grand encampment, grand lodge and Hebebebe.

BUSINESS MEN MEET

The officers and directors of the Business and Professional Men's Association will meet at the Chamber of Commerce Building Thursday night at 8:00 o'clock to discuss the proposed closing of stores on Thursday afternoons during the summer, and also to review the answers to the cards which were distributed some time ago by the Association, requesting suggestions for the improvement of Sanford business institutions, and their relations to customers.

Pension Bill For Teachers Passes Senate

Measure Vetoed By Cone Two Years Ago Is Approved Without Debate

TALLAHASSEE, Apr. 18.—(AP)—Without debate, the Florida Senate today passed a new Teachers' Retirement Bill to take the place of the one vetoed two years ago by Gov. Fred P. Cone.

The sponsors said the new measure met the Governor's objection to the original bill. They said a quick House passage had been assured.

The Senate vote was 32 to 4. The vote came not long after the Senate had debated—then postponed—bills designed to release the \$700,000 in impounded race track tax money that otherwise would have been distributed equally among the counties.

The House passed today a new series of bills designed to safeguard the impounded money.

The retirement proposal would permit teachers to retire at 60 and would compel their retirement at the age of 70. Each teacher would make an annual contribution to the fund. The state would appropriate \$200,000 annually to the fund and \$12,500 for the expenses of administering the plan.

Senator Kanner of Stuart, (Continued on Page 21)

W. H. Klusmann Is Speaker At Meet Of Scout Council

Outlining the necessity of camping and other activities to youth, W. H. Klusmann, assistant national director of camping and activities for the Boy Scouts of America, was the principal speaker at a meeting of the Central Florida Council of Boy Scouts of America in the Junior High School auditorium last night.

During the session presided over by H. V. Pace of Orlando, executive of the Central Florida Council, Mr. Klusmann listed the necessary sanitary and other precautions which should be taken in connection with outdoor camping.

He also said that scout leaders always sleep in their tents and that they are never transported to their camps by automobile. They hike instead, he said.

Members of the council present for last night's session were Sidney J. Nix, W. W. Gotsch, J. N. Tenhet, J. L. Galloway, Joe Meisch, Sam Highleyman, Julius Dingfelder, Karl Nordgren, E. L. Kelsey, A. C. Madden, R. G. Fox and H. E. Morris, all of Sanford; W. H. Lindsey, W. R. Lupton, and C. H. Monaghan of Daytona Beach; J. S. Pope and Dr. A. B. Whitner of Orlando, and C. H. Williams of Clermont.

Tampa Cuba Peddler Gets Fine Of \$750

Johnson, convicted negro bootlegger, was sentenced by Judge Himes in criminal court yesterday to pay a fine of \$750 or serve five months in jail.

Cyrus W. Fields, of defense counsel, said an appeal would be taken.

The penalty was the same as that imposed by Judge Himes in most bootleg cases where the evidence showed the defendants were peddlers, not the actual operators of the game.

Johnson was arrested last July by Constable Culbreth, who had seized a handful of bootleg and New York bond tickets.

School District No. 6 To Vote For Trustees

Citizens in School District No. 6 will vote for trustees for the next two years and the school millage levy for the same period at a special election to be held on Tuesday, May 16, Superintendent T. W. Lawton said today.

The clerk for the election at Lake Monroe will be C. E. McKinney while Lee Keller, George Morris and Cy F. Masoy will serve as inspectors.

The clerk for the polls in Paola will be George Smith and J. V. Jameson, J. W. Turner and H. T. Richardson will be inspectors.

PRESIDES

John H. Conrath, national organizer for Dr. Francis E. Townsend, presided over the district meeting, called by the father of the pension plan, which was held here Sunday.

Power Sought To Prepare For Work On Canal

\$500 Appropriated To Probe Old Navigation District

In order that everything may be in readiness for immediate commencement of work on the proposed St. Johns-Indian River Canal, if funds are allotted, the Board of County Commissioners of Seminole and Brevard counties have agreed to expend \$250 each to investigate the powers of the old Upper St. Johns Navigation District which was formed for the purpose of acquiring rights-of-way and other incident business in connection with construction of the canal.

This district was established by a bill adopted by the Legislature about 30 years ago which granted the district its powers and provided for a bond referendum to pay the costs of constructing the outlet to the Indian River.

This district has been kept alive by holding annual meetings of its directors but the legality of its powers has been questioned since the bond election failed to carry.

County Attorney E. F. Houlihan has been designated to investigate this matter and if he finds that the district no longer has the power to transact the business incident to construction of the canal, a bill will be submitted.

In explaining the work of the publicity man, Mr. Lehmann emphasized three important points which should characterize every article of news if it was ever to find its way into print, as follows:

1. Brevity. Most articles, he said, are too long, and could be better told in fewer words. It is better to write a single paragraph, he said, and get it in than a whole column and have it thrown into the trashbasket for lack of space.

2. Editorizing. Many articles fail to find the light of day, he said, because they are not news stories, but merely represent the writer's opinion. The public wants facts, Mr. Lehmann declared, suggesting that editors be left to the editor.

3. Timeliness. News which is turned in a week old, Mr. Lehmann said, is not likely to be regarded as news by the editor. A poor story given to the newspaper on time is more likely to get into print than a good story several days late.

Pointing out that it is difficult to draw the line of distinction between news, publicity, and downright propaganda, Mr. Lehmann said that it is often merely the difference in an editor's liver, but he added frankly is a splendid adjunct for any publicity man and that no one should attempt to deceive an editor as to publicity. It can't be done, he said.

"Frankness and honesty in dealing with an editor is as important as in dealing with a board of directors," he said. "The surest way to get in dutch with the newspapers is to try to put something over on them."

Outlining plans for the summer, Horace Smith of Ocala stated that his organization planned to launch an extensive advertising program this summer, and to inaugurate a tourist school for the instruction of various local groups in proper methods for selling Ocala to visitors. He also called attention to the new radio station, WTCU, which John Alton, Jr. (Continued on Page Two)

Annular Eclipse Of Sun Will Be Visible In West

NEW YORK, Apr. 18.—(AP)—In California the color of the sunlight is likely to look slightly greenish around 8:00 A. M. on Apr. 19 and the same thing will happen in Wisconsin about 10:30 A. M.

This will be about the only noticeable effect in the United States of an annular eclipse of the sun passing at those hours across Alaska and heading for the north pole.

An annular ring-shaped eclipse is one in which the edges of the sun appear all around the moon's face.

In the United States only a partial eclipse will be seen and that only with dark glasses. In California half of the sun's diameter is to be obscured, but without glasses, it is unlikely that the moon's disc can be detected. The change in color of the sunlight, though, may be seen without glasses.

In Wisconsin two-fifths of the sun's diameter will be covered. Other predictions are Idaho three-fifths, Texas one-fifth, New York one-fifth, South Carolina seven percent.

The predicted hours of the partial eclipse are: eastern standard, 11:00 A. M. to 1:00 P. M.; central standard, 9:30 A. M. to 11:30 A. M.; Pacific standard 6:45 A. M. to 9:00 A. M.

Summer Work Is Discussed By Chambers

Activities For Dull Months Planned At Council Breakfast In Mayfair Hotel

Address Is Given By Karl Lehmann

Beach Conrath Is Elected President For Ensuing Year

Discussion of projects for the coming summer to prevent their individual communities from going to sleep during the dull season of the year was heard this morning at a breakfast of the Central Florida Council of the Chamber of Commerce secretaries at the Mayfair Hotel.

"The Relationship of the Publicity Man to the Press" was the subject of the principal address by Karl Lehmann who lauded his remarks by pretending he had just been appointed state News Editor of the Times-Union, and by explaining what his policies would be if he occupied that position.

Beach Conrath of DeLand was elected president of the organization for the ensuing term. Other officers elected were Franklin N. Sawyer of Ocala, vice president; Ralph Bagwell of Sanford, secretary. It was also voted to hold future meetings quarterly with annual election of officers.

H. H. Coleman, treasurer of the Seminole County Chamber of Commerce, delivered the address of welcome to the visiting secretaries and B. A. Carpenter, treasurer of the Orange County Chamber of Commerce, responded. The meeting was presided over by H. E. Hunnell, president of the council, who is also president of the East Coast Chamber of Commerce.

In explaining the work of the publicity man, Mr. Lehmann emphasized three important points which should characterize every article of news if it was ever to find its way into print, as follows:

1. Brevity. Most articles, he said, are too long, and could be better told in fewer words. It is better to write a single paragraph, he said, and get it in than a whole column and have it thrown into the trashbasket for lack of space.

2. Editorizing. Many articles fail to find the light of day, he said, because they are not news stories, but merely represent the writer's opinion. The public wants facts, Mr. Lehmann declared, suggesting that editors be left to the editor.

3. Timeliness. News which is turned in a week old, Mr. Lehmann said, is not likely to be regarded as news by the editor. A poor story given to the newspaper on time is more likely to get into print than a good story several days late.

Pointing out that it is difficult to draw the line of distinction between news, publicity, and downright propaganda, Mr. Lehmann said that it is often merely the difference in an editor's liver, but he added frankly is a splendid adjunct for any publicity man and that no one should attempt to deceive an editor as to publicity. It can't be done, he said.

"Frankness and honesty in dealing with an editor is as important as in dealing with a board of directors," he said. "The surest way to get in dutch with the newspapers is to try to put something over on them."
