'Towering Inferno'

-- 600-Ft. Flames As Oil Tanker Blast Kills 49

BANTRY, Ireland (UPI) — Twin explosions tore through a French supertanker docked near Ireland's biggest oil terminal today, ripping the vessel in two and hurling dozens of crew members to their deaths in a sea of flaming oil.

Harbor officials said 49 men — 42 crew members and seven dockworker — died in what was believed the worst oil tanker disaster to date in terms of lives lost.

The blasts sent a curtain of flames 600 feet into the air.

The 121,432-ton French tanker *Betelgeuse* had unloaded about two-thirds of its more than 30 million gallons of oil when the first blast ripped the vessel apart shortly before 1 a.m. (8 p.m. EST) as it was docked at a Gulf Oil ocean terminal. A second blast immediately followed, shaking every home in the nearby town of Bantry.

First reports said the explosions appeared due to a gas leak.

"It was like looking into the flames of hell as the ship went up," one witness said.

Vivion O'Callaghan, owner of the Bantry Bay Hotel, described it as a "towering inferno" and said the "whole sky seemed to be in flames."

Donal O'Sullivan, another Bantry resident, said the explosion was "simply devastating. I thought a huge bomb must have been dropped until I saw the flames lighting the skies from the tanker."

By late morning, rescue workers said they had recovered nine bodies. A thin pall of smoke still hung over the bay, where a small

portion of the tanker's stern was still visible pointing upwards from the water.

Fire officials said there now appeared to be little danger to the 18 storage tanks on Whiddy Island.

French maritime experts said to their knowledge it was the first major disaster involving a French-flag tanker.

Police threw a cordon around Bantry to keep out unauthorized personnel as firefighters, doctors, nurses and rescue vehicles rushed to the scene from surrounding towns.

Seminole County Curb - Cut Policy Hits Roadblock With Bank

A long-standing practice of the Seminole County Commission to stop the state Department of Transportation (DOT) from issuing permits to land developers to allow access from state roads into private

property without prior county approval may have hit a roadblock, at least temporarily.

The roadblock may be the Barnett Bank which has applied for a site review approval to build a new \$700,000 banking

facility on a five-acre tract, north of SR 434, near Wekiva Springs Road.

After Lee Maynard, president of the Barnett Bank of Seminole County in Altamonte Springs, refused a request from County Commissioner Dick Williams to donate a strip of land to the county along the SR 434 frontage of the bank's property, the majority of the board turned down the site approval.

"We were somewhat surprised at the decision," Maynard said. He told commissioners that the property was too expensive to donate part of it to anyone.

Commission Chairman Bob French, who voted with Williams and Commissioner Bill Kirchhoff to deny the site plan approval, said the request for the donation of land is nothing new and not unusual.

He said rather it is a continuing effort by the commission to control actions of the DOT. "We do not want another SR 436 in terms of traffic and traffic control problems," French said. He explained if property adjacent to the right of way — even one foot wide — between the right of way and the land to be developed is donated to the county, county approval would have to be gained before cuts-access ways—could be granted by DOT.

He said currently the DOT sometimes asks the county for a recommendation before it approves curb cuts. As often as not, he said, however, the DOT does not adhere to the county's recommendations. French said numerous curb cuts cause both traffic problems and traffic control problems. He pointed as an example to SR 436 with its numerous traffic signals and numerous access ways to business via curb cuts.

"The DOT is not responsive to the problems here in Seminole County. We on the local level understand the problems better. If DOT had an office at SR 436 and I-4, something would be done about the traffic problems there. But their office is in DeLand, far removed from the problem," French said.

With the one foot or so of land donated to the public, he said, permission would have to be gained from the county for a curb cut. — DONNA ESTES

Meanwhile, H.L. Ingerman, traffic services engineer with the DOT, DeLand office, said all 12 counties in the fifth district have different access regulations, but he could not think of any other county attempting to control DOT in this fashion.

"We have a resolution from Seminole County asking us to restrict curb cuts in this vicinity and in recent times we have been obtaining comments from Seminole County and from the cities involved prior to issuing permits. We have been cooperating with them when we could. In some matters, we are restricted by law as to what we can do," Ingerman said.

French said today it is not unusual practice for the county to seek donation of a piece of property perhaps one foot wide and the length of the frontage to guarantee that an improper

number of curb cuts is not approved by the State Department of Transportation (DOT).

He said that previously the board approved a site plan for the bank and "they can pull a building permit tomorrow under that site plan." French said the bank is planning to develop only the southeast portion of the property, leaving an L-shaped piece of land to the north and west vacant. He said the bank may sell off that portion or develop something else on that vacant land in the future and want a second curb cut. The chairman said that currently a developer can go to the DOT and get permission for a curb cut without prior notification to the county and control should be on the local level.

With the one foot or so of land donated to the public, he said, permission would have to be gained from the county for a curb cut. — DONNA ESTES

OFFICE MANAGER DOT WADE

By DONNA ESTES
Herald Staff Writer

Dot Wade is an attractive woman. Bright, attested by the fact that she is carrying a 4.0 average in part-time studies at Seminole Community College (SCC).

She is also a power in the Seminole County Courthouse where she is office manager for the board of county commissioners with nine employees under her immediate direction in the board office and another six in administrative services.

At the same time she is a wife — and will celebrate her 25th wedding anniversary this month — and mother of three grown children — James Wade Jr., 24, a certified public accountant in the firm of Osburn and Henning with offices in Orlando and Winter Garden; Lou Ann, 23, a laboratory technician at Seminole Memorial Hospital and Jackie, 18, a student at SCC.

And, a dip into the political arena may be in Mrs. Wade's future.

In fact she is "seriously considering" the possibility of running for election in 1980 for the office of supervisor of elections, held by Camilla Bruce for the past 27 years plus.

"Some of the duties the supervisor of elections now has, under the recent revisions to the election code, were previously handled by the commission office," said Mrs. Wade. "Since March, 1974, I have conducted the election

She Just Might Wade Into County Politics

night returns — taking precinct totals by telephone and tallying the results in this office. I had thought I would like to be a county commissioner but I wouldn't like the telephone calls at one in the morning like some commissioners get.

"I am seriously considering running for the elections supervisor's office. (Mrs. Bruce has announced that she will not seek re-election next year.) "I am a Democrat and I probably won't change my party. I am not a party

'I had thought I'd like to be a county commissioner, but...'

person, however, not a strong Democrat. I guess my philosophy is a little of each party.

"I can run and retain my job here. I can use my vacation time to conduct my campaign and, if elected, I can resign my job with the county commission," she said.

One of the few native Seminole Countians in the courthouse, Mrs. Wade, who will be 42 this month, has worked in the county commission office for the past five-and-one-half years, beginning as one of three secretaries. She was assigned to Commissioner Dick Williams and later was

Dolphins' Schnellenger

U Miami Names Coach

MIAMI UPI — Howard Schnellenger, 44, the offensive coordinator of the Miami Dolphins, was named head football coach of the University of Miami today to succeed Lou Saban, who quit after two years.

Schnellenger was hired by Dolphins Coach Don Shula in 1970 as chief offensive strategist. Three years later, Schnellenger took over as head coach of the Baltimore

Colts, posted a 4-10 record his first season and was fired after the third game of his second season. Shula rehired him a short time later.

Saban's abrupt resignation to take over as head football coach at the U.S. Military Academy after two seasons with the Hurricanes triggered an intense search for a replacement.

He Got A Kick Out Of His Tag

DAVENPORT, Iowa (UPI) — About 100 people have turned their automobile license plates back into the Scott County courthouse in the last month because they don't like the three-letter prefix GAY.

State Department of Transportation officials issued 1,000 licenses with that combination this year — mostly in eastern Iowa.

The returns in Scott County were upset, officials said, because "gay" is a synonym for homosexual.

Among the people who returned their plates was one man who said two men in Chicago licked the sides of his car after seeing his GAY plates.

"He thought that if they were going to cause that kind of reaction he'd better return them," said assistant treasurer Henry Farber.

The uproar has even

caused state officials to consider eliminating the prefix when new plates go on sale in six years.

The state's plates traditionally include three letters and three numerals.

A check with Florida officials indicated that similar tag letters that might prove offensive have been eliminated.

but most of the potentially offensive combinations were not used.

Scott County treasurer William Cusack said he couldn't understand the decision to use GAY, when the state already had ruled out GAG, GAT and GEE prefixes for his area.

"Out in California, I'm sure there is a waiting line for GAY plates. But not in Iowa," he said. "I think it's unfair to our people. The people who put me in office are mad and, frankly, it bothers me."

For New Commissioner

From Euphoria To Apprehension

There was euphoria Dec. 19; humility last Tuesday and apprehension today.

These are all the emotions Dave Farr, Sanford's newest city commissioner, said he has experienced.

Dec. 19 was the day Farr won his seat on the commission by defeating A.A. McClanahan in a run off election.

Tuesday, Farr was sworn into office and at 7 p.m. today he attends his first commission meeting.

"I think the euphoria of winning was over with and the reality of what was beginning to happen was dawning on me," said Farr of his swearing-in Tuesday.

Farr was given an opportunity to speak at his swearing-in, but declined to do so.

"I didn't think it was time for me to say anything," commented Farr. "I thought the tenor of the meeting was one of praise for Mr. McClanahan and for his seven years of service. I thought it was not appropriate for me to speak. It was kind of Mr. McClanahan's meeting."

The change of one commissioner will probably not make a significant difference in the commission, according to Farr.

"There should be an easy transition. We're talking about just one commissioner,"

commented Farr. "This is not like the election of a new governor or president where sweeping changes are made and everybody must go."

"I spent about four or five hours going over the agenda to try to familiarize myself with the issues," noted Farr. "I had to do some background work on several issues."

The background work included inspecting several pieces of land to be discussed at tonight's meeting and conferring with city staff, Farr said.

"Pete Knowles has tried to answer every question and furnish information even when not asked and so has city at-

orney Vernon Mize," said Farr.

"I don't see my reliance on staff decreasing, I think it will probably increase," commented Farr. "I've found each city employee and department head more than anxious to sit down and explain issues and how their department is operated."

The future of development in the Hidden Lake Planned Unit Development (PUD) is one of the most important issues the commission will discuss tonight, according to Farr.

Specifically, Farr referred to plans by Complete Interiors, an Altamonte Springs development firm, to build homes on 33

acres just north of the currently developed area of Hidden Lake.

"That's important, because it's the first time the city has had an opportunity to see something new develop in Sanford for a long time," said Farr.

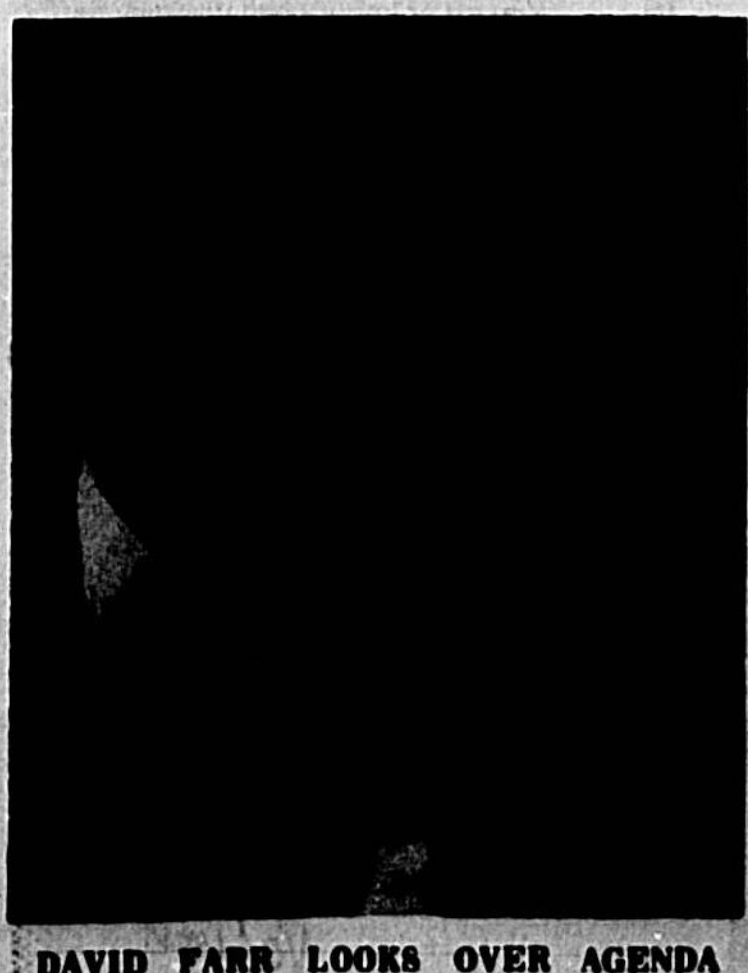

Though he has studied for tonight's meeting, Farr's apprehension is understandable in light of his feelings upon officially taking office last week.

"My first reaction to being in office was being very humbled by the whole thing. I felt somewhat inadequate," recalled Farr. "I felt, gosh David, you're here. Now, are you ready for it?"

'Now, are you ready for it?'

— David Farr to

DAVID FARR LOOKS OVER AGENDA

WORLD IN BRIEF

Anti-Shah Mob Hangs Pair To Defy New Regime

TEHRAN, Iran (UPI) — Anti-shah demonstrators today hanged two men accused of robbery, a military officer shot a boy and troops fatally shot at least five demonstrators in the second straight day of violence in defiance of Iran's new civilian government. Two young men — Afghans in their mid-20s — were hanged by a group of demonstrators in Qarchak, in southern Tehran, after police refused to arrest them, witnesses said. The police told those who complained, "Go to Khomeini, he'll stop them from stealing," said the witnesses, in what appeared to be police backlash against demonstrations against the shah's regime and in favor of his arch enemy, Ayatollah Ruhollah Khomeini.

Peking: Chairman Mao Who?

PEKING (UPI) — Memories of the late Chairman Mao Tse-tung are fast tarnishing in China but not those of Premier Chou En-lai, who died three years ago today. Thousands crowded into Peking's Tienanmen Square to lay floral offerings at a monument to the Chinese revolution in an emotional tribute marking the third anniversary of Chou's death.

A short distance away, the mausoleum displaying the body of Chairman Mao was "closed for repairs," according to Chinese guides who turned away those who wished to see it.

Beirut: Syrians Vs. Christians

BEIRUT, Lebanon (UPI) — Syrian troops and Christian militias were at alert today in the tense and battered sectors of Beirut where their forces confronted each other across a landscape of abandoned buildings and overturned buses.

The latest flareup of violence occurred Sunday in the Christian sector of Badaro, Dirwanah, Ain Rummaneh and Sin et Fel. Each side blamed the other for instigating the new round of fighting.

Dollar Loses in Europe

LONDON (UPI) — The dollar lost ground in all of Europe's money markets at the opening of trading today and finished the day in Tokyo off sharply against the yen. The price of gold opened mixed.

Ecuador Frees Sanfordites

QUITO, Ecuador (UPI) — Ecuadorian authorities have freed the 70-day prison ordeal of eight American amateur archeologists and allowed them to make their way to Quito to meet with U.S. Embassy officials today.

The Americans, thrown into jail in an apparent mix-up over digging Indian artifacts and an alleged assassination plot, were released in a surprise move Saturday.

"We feel just great," Clyde Nicholson, 61, of Sanford, Fla., said. "We're all in good health."

Nicholson said Sunday in Guayaquil that members of the group had been mistreated following their arrest, "but I don't want to talk about that until we get back to the states."

When first arrested, the Americans were interrogated about a supposed assassination plot against presidential candidate Jaime Rodriguez, which was never carried out.

In addition to Nicholson, members of the group are his son Perry, 25, of Jacksonville, Fla., and Tom, 27, of Jacksonville, Fla.; Neil Scarborough, 27, of Jacksonville, Fla.; Beverly Holcomb, 46, of Sanford; and Charlotte Kunk, 48, of Alafia, Okla.

Soviets: 'Joy To The World'

Viets Completing Cambodia Takeover

By ALAN DAWSON
BANGKOK, Thailand (UPI) — A Vietnamese invasion force captured the Cambodian capital of Phnom Penh and stormed westward today to complete its takeover of Cambodia.

About 100 Chinese diplomats fled to Thailand ahead of the fast-moving attack force. Peking, the fallen regime's major supporter, sent troops to the Vietnamese border and demanded U.N. intervention.

The Soviet Union, which supports Vietnam in the conflict, hailed the collapse of Phnom Penh as bringing "profound satisfaction and joy" to the world.

The United States sought to avoid involvement in what U.S. analysts regard as a "war by proxy" between the Soviets and Chinese. President Carter refused to comment and the State Department warned of the

"danger of wider conflict" in Asia. Radio Hanoi said the blitzkrieg invasion that captured Phnom Penh on Sunday, the 14th day of the lightning drive, was rolling up territory quickly in an attempt to capture the entire country.

The Vietnamese invasion captured Phnom Penh virtually without a fight Sunday, Radio Hanoi and the Vietnam-sponsored rebel radio station reported.

Although Vietnam says the war is being waged by Cambodian rebels, most observers believe the Vietnamese army won Phnom Penh with a spectacular, 15-day dash to the capital that ripped Cambodia's defending troops to shreds with superior firepower and heavy bombing.

Rebel flags — depicting the five golden towers of the ancient temple Angkor Wat on a blood-red background — flew over the capital

and on the Phnom, a temple-topped hill shrine in the center of the city. In Peking, former Cambodian Prince Norodom Sihanouk held a rambling five-hour news conference in which he criticized Cambodian leaders for their human rights violations, but acknowledged they represented "our resistance to Vietnam and our struggle for independence."

A statement from Peking said the Chinese government was "very much concerned about the grave situation" in Cambodia and said the fighting was "an important part of the Soviet drive for hegemony in Asia and the Far East."

Peking supported Cambodia's appeal for a U.N. Security Council meeting and for U.N. intervention. U.S. officials in Peking said China was shifting troops away from the

provinces near Taiwan toward its border with Vietnam. Radio Pol last week indicated in a 25-minute speech to the nation he would return to the jungle and launch a new guerrilla war against Vietnamese if they got too close to Phnom Penh.

The Cambodian rebels call themselves the National United Front for National Salvation. The group promised Sunday to repopulate the cities, restore freedom of religion and reopen the schools. It also vowed to reunite families and send captured leading Khmer Rouge officials to "re-education" camps for long periods.

Williams, she said, is the easiest to get along with. "If you make a mistake, Commissioner Williams assumes the blame himself, trying to think of something he may have done to cause you to make the mistake."

Commissioner John Kimbrogh was the most professional and business-like, but then Commissioner John Alexander was also very professional and business-like and was concerned about the citizens.

A product of the Seminole County school system, Mrs. Wade, from the time she was 10 or 11 years old, until she was 17, had a radio program on a local station. During those years she spoke before many civic groups. Her program every Saturday morning was on classical music.

"I couldn't go out and do the things other my age were doing. I worked instead, but I loved it. Marion Harman, an editor of the Evening Herald, then known as the Sanford Herald, helped me a lot," she said.

Mrs. Wade said Harman was not only her mentor, but at times wrote her show for her.

The blonde, blue-eyed woman is taking a trip to the mountains later this month to celebrate her 25th wedding anniversary. Later in the year, her husband has promised her a trip to Hawaii for a real celebration.

It makes a difference

It helps if a family going through a time of loss can have a source to turn to for information, advice, and help. We try to be that source in a discreetly concerned way.

GRAMKOW
FUNERAL HOME
130 WEST AIRPORT BOULEVARD
SANFORD, FLORIDA
TELEPHONE 322-3213
WILLIAM L. GRAMKOW

...Wade

(Continued From Page 1A)

named office manager. She worked years ago for land development entrepreneur Brantley Odham. After her family began arriving she stayed at home and was wife and mother full-time.

When the children began growing into their teen years, she wanted to go back to school and finally received her husband James' consent. "I had been talking to my husband for a long time about going back to school, but my family thought it was just a lark. They finally believed me when I came home from SCC one day and dumped an armful of books on the kitchen table," she said.

Mrs. Wade went to SCC full time, taking a variety of business courses, ranging from shorthand and typing to office machines and business management. She is again back at school taking even more courses. This time part time.

In addition to her homemaking and mothering responsibilities at home, she enjoys sewing, decorating — she recently redecorated the entire inside of her home — playing bridge, was an officer at one time in the Sanford Women's Club, likes to swim in her pool at home and likes to play tennis.

Mrs. Wade hasn't played tennis since she had back surgery a year ago, but will begin the sport again soon when she is no longer fearful she will hurt her back. And, she loves her work for the county commission.

AREA DEATHS

CLOIBNE BARTHOLOW

Clois C. Bartholow, 67, of Spring Avenue, Orlando, died Sunday in Orlando. Born in Fort Lauderdale, she came to Orlando in 1928. She was a housewife, a Presbyterian and a life member of the Order of the Eastern Star in Orlando.

Survivors are husband F. Bruce Bartholow, Orlando; son, Robert C. Daugherty, Casselberry; daughter, Miss Chas Daugherty, Ft. Worth, Texas; brother, Ervin Cannon, Winter Garden; sister, Mrs. Hazel Gourley, Sanford and seven grandchildren. Fairchild Funeral Home, Lake Ivanhoe, Orlando, is in charge of arrangements.

JAMES NOE SR.

James Edward Noe Sr., 64, of 2617 Magnolia Ave., Sanford, died Sunday at Florida

Hospital, Orlando

Born in Harlan County, Ky., he had lived in Sanford for the past 25 years.

Survivors include four daughters, Mrs. Nedrae Heaton, Mrs. Effie Kaufman, and Eva Blum, all of Lake Mary, and Mrs. Elizabeth Saylor, Fort Wayne, Ind.; five sons, James Edward Noe Jr., Lake Mary, Easton, Fla.; John, Lake Mary; Bennie Johnson, Niles, Mich. and Clarence and Julius Johnson, both of Harlan, Ky.; four sisters, Juanita Caldwell, Tampa, Ga.; Stella Thompson, Sanford, and Wanda Thompson and Thelma Conrad, Kenston, N.C.; five brothers, Francis and Junior Noe, Lake Mary, Charles Noe, Sanford, Lewis Noe, Klamath and Billy Noe, Sanford and four grandchildren. Gramkow Funeral Home is in charge of arrangements.

FUNERAL NOTICES

NOE, JAMES EDWARD, SR.—Funeral services for James Edward Noe Sr., 64, of 2617 Magnolia Ave., Sanford, who died Sunday in Orlando will be at 10 a.m., Wednesday at the graveside in Lake Mary Cemetery with Capt. Carl Phillips officiating. Gramkow Funeral Home in charge.

BARTHOLOW, CLOIBNE C.—Funeral services for Clois C. Bartholow, 67, of Spring Avenue, Orlando, will be at 2 p.m., Tuesday, from Fairchild Chapel with OES No. 131 officiating. Burial in Woodlawn Memorial Park, Orlando, in lieu of flowers. Friends may contribute to the American Lung Assn. Fairchild Funeral Home, Lake Ivanhoe, Orlando, in charge.

NATION IN BRIEF

Three Sheriff Deputies Killed in Jacksonville

JACKSONVILLE, (UPI) — Three members of the Duval County Sheriff's department were killed today when their department Cessna 441 crashed into a building shortly after takeoff.

The plane fell into a field after hitting a building on a used car dealership shortly before 10 a.m., killing the three officers on impact. No one on the ground was injured.

The names of the three deputies were being withheld pending notification of next of kin. Police said the plane took off from Craig Field at 9:45 a.m. The plane developed some kind of problem about five minutes into the flight and began to head back to the airport.

Snow, Freezing Rain, Winds

By United Press International
Snow fell in New England today, freezing rain and snow plagued the Tennessee Valley and Appalachians and bitterly cold north winds shot down through the Great Plains into Texas and Louisiana.

Rain continued along the Atlantic Coast, and freezing rain was scattered over West Virginia and Pennsylvania.

Auto Prices Up 6.5%

DETROIT (UPI) — Since last summer, the Big Four automakers have boosted 1979 prices nearly 6.5 percent, or \$450 over last year's models, and some industry observers say prices are likely to go even higher.

The industry now has raised its prices a full percentage point higher than price hikes on 1978 models. But because its initial 1979 price hike was overlooked under President Carter's anti-inflation guideline, automakers are well below the price ceiling.

Reorganizing On His Mind

WASHINGTON (UPI) — Awaiting President Carter's return from Guadeloupe Tuesday is the decision reorganizing — and changing the names of — the Departments of Interior, Agriculture, Commerce and Housing and Urban Development.

Recommendations on the future of those departments reported have caused fierce infighting within the part of the bureaucracy that is affected, but now are to be submitted when the Carters get back from their two-day post-summit vacation on the Caribbean.

4 Youths Charged in Murder

MIAMI (UPI) — Four Miami youths have been charged with murdering one man, shooting at 10 others and disfiguring a teenage girl in a brief crime spree in north Dade County shortly after midnight Dec. 13.

Arrested Sunday were Gary Henry Trawick, 20, Eddie Miller, 18, and two unidentified juveniles, ages 16 and 17. Police alleged Trawick was the trigger man and Miller the driver of the getaway car.

Poll: Cancer Cure Top Target

WASHINGTON (UPI) — Nearly half of those surveyed in a private poll believe a cancer cure should be the No. 1 target of scientific and technological research.

The 1,500 U.S. citizens surveyed said solving energy problems and the cost of consumer products should be the other top goals of scientific research.

Hit-Run Incident In Casselberry Motorcyclist, 19, Hit Twice, Killed

A 19-year-old motorcyclist who was knocked to the pavement when his bike collided with a car on SR 436 was hit by another auto and killed as he tried to get up.

The dead youth was identified as Anthony R. O'Brien of 1201 Sharon Place, Winter Park.

The accident occurred at 1:55 a.m. today on SR 436 at Ash Circle, the entranceway to Sundance Apartments.

Casselberry police Chief George Karcher said a car driven by Jennifer Northwick, 18, 340 N.E. Lake St., Longwood was emerging from Ash Circle onto SR 436 and collided with O'Brien's motorcycle.

The bike struck the left front of the emerging vehicle and O'Brien was thrown to the roadway, Karcher said.

While O'Brien was apparently trying to raise himself from the roadway, Karcher said, a vehicle proceeding on the highway struck the man and left the scene.

"We got the tag number and put out a local alarm. Altamonte Springs Police found the car at the Royal Arms Apartments and it was established the vehicle had been operated by a resident of the apartment complex," Karcher said.

No charges have been filed yet, but investigation is continuing and charges are expected, Karcher added.

A 38-year-old Orlando woman was treated and released Saturday from Seminole Memorial Hospital as a result of several knife wounds received outside a Sanford grocery store.

Julia Woodberry was stabbed in the head and cheek by Richard Pearson, 47, of Jitway Avenue, Sanford, who was charged with aggravated battery and held on \$5,400 bond in Seminole County jail.

Police said the victim had just left Eudell's grocery on Barclay Avenue in Sanford when she was assaulted by Pearson, who was going to cut her throat, according to reports.

She then hit Pearson with a walking stick and he pulled a knife and stabbed her twice in the head, once in the back of the head and once in the cheek, police said.

A 38-year-old rural Longwood man was stabbed to death early this morning during an argument over a 30-cent loan, according to the Seminole County sheriff's office.

The dead man, Herbert Bowie, went to the home of Tommy Lee James, 47, of rural Altamonte Springs about 7:30 a.m., and asked to borrow 30 cents, according to sheriff's investigators.

James ordered Bowie out of the house after refusing to loan him the money, investigators said. They said when Bowie refused to leave, James went to the kitchen and got a paring knife, then stabbed Bowie in the chest.

Bowie's body was seen in an open garage at the James home by passing neighbors who telephoned authorities, investigators said.

A spokesman for the sheriff's office said no charges have been filed in the murder, but that the evidence will be turned over to the state attorney's office and later presented to a grand jury.

STORE HOLDUP
An undetermined amount of cash was stolen Saturday from the Top Top Super Market at 1100 W. 13th St., Sanford.

The robber, wearing a pullover stocking cap, approached the counter with a package of apples. He then bent over as if he had dropped something and when he stood up he had a handgun and demanded all the \$30 bills, \$10 bills and 25 cents, reports indicate.

WINDOW BROKEN
About \$50 damage was done sometime over the weekend at Crooms High School, according

something and when he stood up he had a handgun and demanded all the \$30 bills, \$10 bills and 25 cents, reports indicate.

CHURCH THEFTS
Grace United Methodist Church in Sanford was the target Sunday night of two thefts.

The first theft was of three light bulbs which were taken from the church sign at Airport Blvd. and Woodland Drive and valued at \$12.

The second incident involved theft of a light switch valued at \$30 from the wall of the building located northwest of the main church, according to reports.

PAIR ARRESTED
Two Ormond Beach residents were arrested Sunday by Altamonte Springs police and charged with theft from Burdines of Altamonte Mall.

Albert Winters, 25, and Francine Gurdin, 25, were arrested after they were spotted placing a grey ladies top into a shopping bag, according to sheriff's reports. The two are in Seminole County jail on \$5,250 bond apiece.

Problem City... U. S. A.

Let's talk about Cleveland. Wait. Don't switch to another channel or leave the room, yet.

There are truths to be drawn and possibly lessons to be learned from the plight of a city, which its mayor sees in terms of a "natural disaster."

Cleveland's financial chaos and political bankruptcy are certainly disastrous. But an objective observer might be pardoned for seeing years of poor leadership coming to this result as the most natural aspect of the situation.

Possibly the most favorable thing that can be said of the city's present leadership is that it inherited most of the makings of the disaster - although it certainly is perfectly capable of having brought about something of the sort all by itself had it been given the opportunity.

Cleveland's basic problem, which has been most advertised and which it shares in varying degrees of disaster with a number of other cities in its industrial Northeast-Midwest neighborhood...

Population is also declining, professionals and skilled workers having departed for the suburbs and elsewhere. The exodus has left the city poorer to the semi-skilled and poor and the city government with shrinking revenues to meet fixed or rising service costs.

This, very briefly, is the Cleveland problem. But it is not the full Cleveland story. That deals not only with an aging industrial city but with the expanded metropolitan area of which it is the core.

The Cleveland Standard Consolidated Statistical Area, according to rankings based on 1975 figures, is the ninth largest in the nation with a population of some three million. While the city of Cleveland, which does not contain less than a quarter of the metropolitan population, is in decline and has not found replacements in the service and technological enterprises that could give it a new economic base.

As we know, this didn't happen. It was the result of a series of decisions, many of them made by Clevelanders themselves. Many of them were made by Clevelanders themselves. Many of them were made by Clevelanders themselves.

When it comes to the leaping variety, you probably would have a better chance of finding 12 Rudolf Nureyevs or a dozen Doctor J's.

Cowboys Simply Super, Leaving Rams Frustrated

LOS ANGELES (UPI) - For a record fifth time, the Dallas Cowboys are in the Super Bowl and the Los Angeles Rams, who are building a reputation as the biggest losers in professional football, are staying home.

The defending NFL champion Cowboys earned the right to face the Pittsburgh Steelers in Super Bowl XIII at Miami's Orange Bowl Jan. 21 Sunday when they turned a pair of third-quarter passes into interceptions by veteran Charlie

Waters into two touchdowns en route to a 28-0 victory over the Rams.

It was the Rams' fourth defeat in the past five NFC championship games and Los Angeles owner Carroll Rosenbloom, a man who takes defeat hard and who is frustrated beyond belief, did not make an appearance in the Ram dressing room after the game.

In addition to Waters' two interceptions, Pat Haden passes, the eight-year veteran strong safety from Clemson recovered a Rams' fumble in the opening quarter.

In all, the Rams committed seven turnovers, five of them pass interceptions - three by Waters and two by his successor, Vince Ferragamo.

Waters' two interceptions gave Dallas the ball on the Los Angeles 10 and 20. Even against a solid Ram defense, which went into the game as the best in the NFL, the Cowboys were able to score.

Their first touchdown came at 5:49 of the third quarter on a 5-yard run by Tony Dorsett and the second with 58 seconds gone in the final period on a 6-yard pass from Roger Staubach to Scott Ladlow.

After that, it was all over. Dallas added two touchdowns in the next three minutes - on an 11-yard pass from Staubach to Billy Joe DePree and a 6-yard pass on interception runback by linebacker Tom Henderson.

In Pittsburgh, the Cowboys will be playing their opponent of Super Bowl X in 1976 - the first rematch in Super Bowl history. The Steelers won that game 21-17.

A 147 loss in the rain at Los Angeles to Minnesota in the first round of the NFL playoffs cost Chuck Knox his job as the Ram head coach last season although Los Angeles won five straight NFC West titles. He wasn't officially fired but he did wind up at Buffalo.

It didn't rain Sunday although it threatened to and first-year Ram coach Ray Malavasi, who replaced George Allen after two exhibition games this season when Rosenbloom decided to make another coaching change, is expected to be back next season.

But Malavasi may wish he had a certain play back in the third quarter. With the Rams trailing 7-0 and the Rams on the Dallas 13 in a fourth-and-one situation, Malavasi gambled and lost.

Instead of going for a field goal, he had Jim Jodan run at the middle. Larry Bethea stopped him.

It could have been 7-3. Instead, it remained 7-0. "I wanted a touchdown," Malavasi explained. "I told the team the night before that we would go for it if we got in that situation. We had a shot to make it but our (back) didn't hit the right hole."

The Rams finished the game without a touchdown. Malavasi's second interception.

Actually, there were 10 turnovers in the game. Dallas made three of them and Staubach threw two interceptions.

Jacksonville Hikes Court Mark To 10-4

By United Press International Jacksonville University got its sixth straight win Saturday and Biscayne defeated Evansville in an otherwise dismal day for Florida college basketball teams.

The host Dolphins boosted their season record to 10-4 with an easy 84-52 triumph over visiting Hartford. Mike Hackett managed to send the game into overtime Saturday night to lead Columbia to an 81-78 win over Stetson, handing the host Hatters their seventh loss in 13 games.

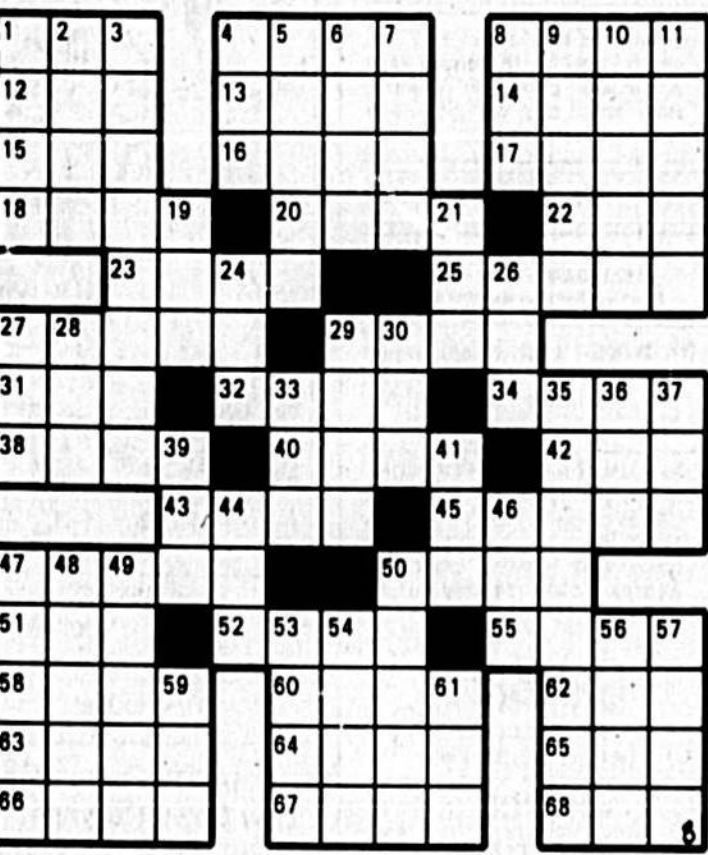

Stetson's Brad Weston managed to send the game into overtime with a 20-foot shot just before the buzzer, making it 68-68. But Columbia dominated the overtime, leading 71-68 at the end of the first half and then moved ahead.

HOROSCOPE

By BERNICE BEDE OSOL For Tuesday, January 9, 1979

YOUR BIRTHDAY January 8, 1979 You may not choose the easiest of courses to follow this coming year, but you'll enjoy every minute of the challenge you set for yourself.

CAPRICORN (Dec. 22-Jan. 19) Coworkers will find ways to leave their slates clean and place the blame of things going wrong on you today, if you assume a dictatorial position.

LEO (July 23-Aug. 22) Don't expect others to give more of themselves than you're prepared to give. You'll have to set the example if you want them to follow.

LIBRA (Sept. 23-Oct. 23) Although it's not like you, you might not have the courage of your convictions today.

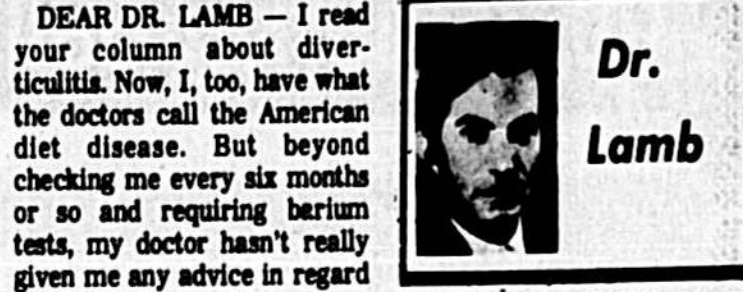

ARIES (March 21-April 19) Exercise tolerance if coworkers feel their interests should take priority over yours.

SPIDER-MAN GREAT DANCE! JUST ANNOUNCE IT! THE SPIDER-HUSTLE! HE INTRODUCES IT!

LOOKS LIKE IT'S TIME TO WISHEE WISHEE AGAIN!

TAKE AWAY ALL HIS CARROTS!

On Left-Sided Appendicitis

DEAR DR. LAMB — I read your column about diverticulitis. Now, I, too, have what the doctors call the American diet disease. But beyond checking me every six months or so and requiring barium tests, my doctor hasn't really given me any advice in regard to diet.

DEAR READER — First, for those who may not know what diverticulitis is, it's those pockets of the colon that are so frequent in middle age and in older people.

When the colon goes into a spasm, its contents above the area that is clamped off by the spasm stretches like a balloon.

Today most doctors believe that many people with diverticulitis developed the pockets because of increased pressure inside the colon.

WIN AT BRIDGE South won in dummy and proceeded to ruff a spade because there was no reason not to and maybe there might be some reason to play later.

ASK THE EXPERTS A Rhode Island reader asks if Josephine Culbertson was the first woman player of all time.

SANFORD CITY COMMISSION IN ACTION: CIRCA 1979

In Sanford Police Study Panel Dead (Thus) Farr

By MAX ERKLETTIAN Herald Staff Writer

David Farr, Sanford's newest city commissioner tasted a little victory and a little defeat Monday at his first official city commission meeting.

His "victory" came when he successfully revived an issue the commission at an earlier meeting tabled — Farr's move to have a blue-ribbon panel established to study the city police department.

His "defeat" came when a move to actually establish the panel was voted down 4 to 1.

Farr asked the matter be taken "off the table" and revived for discussion. Commissioners voted 4 to 1 to do so, with Commissioner John Morris opposed.

Once the matter was revived for discussion, Commissioner Farr said he felt the blue-ribbon citizens' panel should be created to "serve as a fact-finding and recommending body" concerning the Sanford Police Department.

When he formally moved to create the panel, it was defeated 4 to 1, with Farr casting the only "yes" vote.

Farr said after the meeting he still feels there is a need for such a panel, but expressed little hope it will come to pass in view of the commission's Monday night vote.

Farr admitted some of the goals he felt such a panel could accomplish have already been achieved by Morris, appointed two weeks ago as commissioner for police — a liaison position to improve communications between the commission and

at Miami Beach's Convention Center Saturday. "It was complicated, but successful. He caubed the club king, ruffed the good club queen in dummy, ruffed another spade and threw East in with his good trump. East led back the ten of hearts but South rose with the king and led his last trump. West had to unguard his queen of hearts in order to bring on to a high spade and the aces had worked."

By Oswald Jacoby and Alan Sontag Oswald: "Sometimes you wonder if an expert makes a particular play to show how smart he is or because he really believes he is giving the cards their best chance to favor him."

Sanford Mayor Lee P. Moore sets a pointed example of how to support National Volunteer Blood Donor Month as declared by President Carter. Next comes Volunteer Blood Donor Week Jan. 21-27. That's Linda Osburn, RN, supervisor of Central Florida Blood Bank, Seminole County branch, prodding hizzoner.

S. African Boxer Loses Round; KO'd From U.S.

WASHINGTON (UPI) — The State Department has revoked the visa of white South African boxer Kalle Knoetze, effectively preventing him from fighting in Miami Beach Saturday, following protests over his shooting of a black in his own country.

At Miami Beach's Convention Center Saturday. "It was complicated, but successful. He caubed the club king, ruffed the good club queen in dummy, ruffed another spade and threw East in with his good trump. East led back the ten of hearts but South rose with the king and led his last trump. West had to unguard his queen of hearts in order to bring on to a high spade and the aces had worked."

Sanford's Mystery House: The Search Is Still On

Since the old photograph of the mystery two-story house that belonged to Mr. and Mrs. William E. Murry in the 1900s appeared in last Thursday's Evening Herald, The Herald has received several leads.

But none has been identified as that mystery house. It all started when 75-year-old Earl Townsend Ware of Pine Grove, Calif., retired to visit Sanford for the first time in 70 years.

He brought with him the old photograph of his grandparent's home here and enlisted the aid of the Herald in locating it. Ware recalled only that the old homestead was on a five-acre piece that had an arctian well and a little creek that ran alongside the property.

Herald photographer Tom Nessel thought he had found the missing house, an old abandoned structure on West First Street. He snapped his camera and

rushed back to the darkroom, but on comparing it with the original, discovered his house had four upstairs windows while the Murry home had five. Ann Benson of 2826 Empire Place, Sanford, called with a tip. Her children had suggested a possible site.

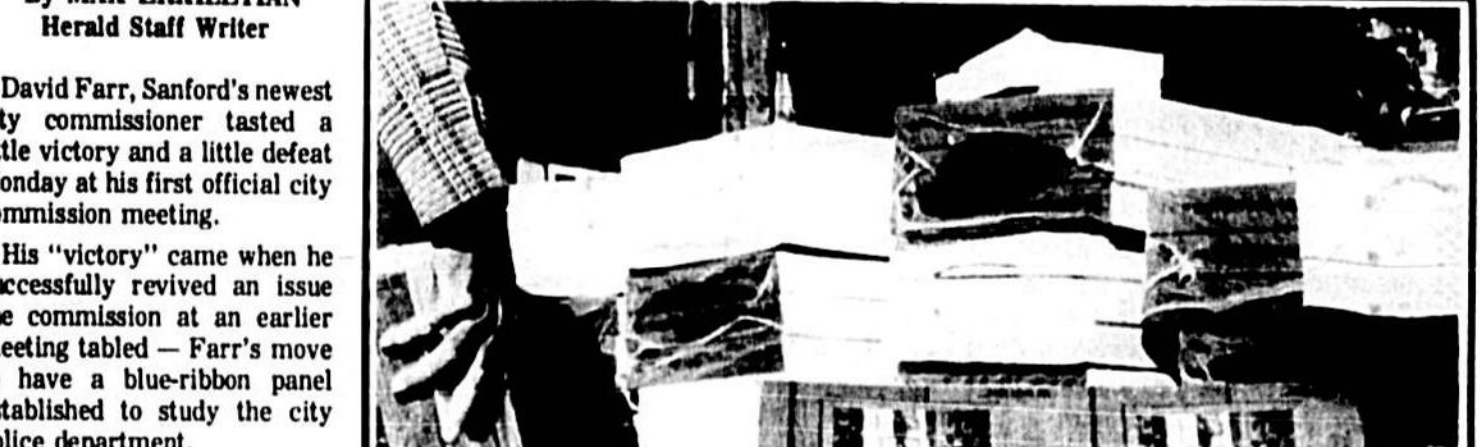

"My children said they knew of the foundation of an old building on the zoo property. It's near the picnic area to the right of the entrance and has an arctian well and a stream," she said.

But Sanford history buff William Vincent Sr. discounted that theory. "That's where Woodland Park used to be and the foundation was where the old dance hall stood," he explained.

Vincent thought he recognized an old house that stands near Ninth and Magnolia — but, alas, a closer check showed there were not enough windows and no creek.

Vincent suggested "Uncle Billy" Lefler, born in Sanford in 1887, might know where the house was located if anybody would. "Uncle Billy" said indeed he did see the picture of the old house in The Herald and he had been trying to remember where it might have been, but so far no luck.

Delivery of the Winter Park Telephone Company's more than 155,000 directories today to customers in South Seminole and the Winter Park-Maitland area will hopefully put an end to the confusion caused by the distribution of an unofficial directory in the area by General Telephone Directory Co. which was incomplete and contained many errors.
