C of C Necessary To Area Economy

By STAFFORD DERBY

What appears to be a decision by the Seminole County Commission, more specifically, its chairman, John Alexander, to do away with the Seminole County Chamber of Commerce and substitute a hand-picked committee of ten to control the public relations and promotion activities in this county must fail!

It has no support in the basic logic of either the professional, political or governmental professions.

It destroys civilian control and private initiative at a time when both are needed to be nurtured and encouraged.

It smacks entirely too clearly of personal animosities and personal ambitions. Its inception was such when it finally was brought into the daylight it sort of sneaked onto the agenda.

It bodes ill for the future of this county when the commission, already showing a grave inability to handle its own responsibilities with professional skills, takes step to destroy a proven asset and take on itself duties it is not prepared to discharge.

Of course, it is possible that the public hearing will show the commission that what it proposes to do is opposed in breadth and depth by the leadership in all regions of the county.

What is most disturbing is the indication that the thinking on the commission would entertain such a deliberate slap at the business community as the cutting off of direct dollar support for the Sanford Chamber of Commerce and the two active Jaycee organizations without first conferring with these Jaycees.

We do not need any such divisive actions. What we need and what we advocated is increasing cooperation, communication and implementation by every segment of the Sanford-Seminole area.

By this decision, however, the Seminole County Commission may be cutting the sinews which are needed and substituting a "Big Brother" committee which is uneeded at the present and threatening for the future!

Is This The Beginning Of The Chamber's End?

By BILL SCOTT

The Seminole County Commission, by its announced action to cut funds from the Seminole Chamber of Commerce and two Jaycee groups, may seriously hamper the future work of the Chamber and the civic clubs.

This fear was expressed this morning during a special 8 a.m. confrontation between the five commissioners and officials of the Seminole Chamber of Commerce, Sanford-Seminole Jaycees and South Seminole Jaycees held at the Chamber's Sanford office.

The chamber's conference room was packed for the session that heard conflict of view from John Alexander, commission chairman; John Krider, Chamber manager; George Toney, Chamber president; Sidney Viblen Jr., Jaycee president; and other commissioners and chamber representatives, over the county's proposal to take \$20,000 from the Chamber along with total \$4,000 from the two Jaycees groups.

Alexander said the approximate \$25,000 would be used by a publicity advisory committee of 15 members to recommend future expenditures of advertising and publicity money to the commissioners, beginning Jan. 1.

Approximately \$1,000 from last year's \$80,000 Chamber budget was used for publicity purposes and, according to Krider, the loss of these funds could seriously affect the chamber operation.

"If we go into Jan. 1 without a budget, this Chamber does not exist any more," was Krider's comment to Alexander.

Alexander said he was not trying to abolish the Chamber. "They have a function and I'm sure they will continue to function," he stated.

Commissioner Greg Drummond lined up with Alexander on the proposal, but said without the Chamber guidance, the advisory committee would fail.

Toney explained the Chamber's problem of trying to set up a budget operation for next year and negated the proposed committee as an extra gear that is not needed.

Viblen said Jaycees might have to close down the tourist information building, with one employee, situated on French Avenue. If present funds are not forthcoming, County Commission was expected to discuss the proposition some time today during its regular formal session.

Cobia's Boats For '70 Displayed For Dealers

By CHARNER LEONE

The boat set is swinging at the Marina this week as Cobia boat dealers from across the nation meet for their second annual boat show.

Over 100 dealers and their wives are here for a three-day introduction of the 1970 line of Cobia boats.

The nationally and internationally distributed boats are manufactured in Sanford.

Cobia, a subsidiary of Ashland Oil & Refining Company, is showing a full line of over 40 boats. The pride of the line is the new 22-foot mobile mini-yacht, a houseboat.

Cobia Boats, about 15 years old, moved to Sanford from Orlando six years ago.

About half the dealers in the country are in Sanford for the round of demonstrations, clinics, meetings and fittings being held at the Marina and Holiday Inn, where the visitors are staying.

The unique Buccaneers' Bash highlighted yesterday's events, with cocktails in the Cobia Cove, a feast, treasure hunt and musical entertainment.

Sanford's visitors a night to remember. Casual attire and pirates' costumes were brought from the rest of the nation for the event.

Comedian Roy Baunel, presenting a member of the group, delighted the audience with his antics. Prizes were given for the best pirate costumes, and the hunt provided treasures for all those attending, from wallets, luggage and watches to a color TV and radio console.

Tonight Miss Yonda Kay Van Dyke, Miss America of 1965, will present a performance that will be the grand finale to the Cobia Treasure Days.

Shopping Center Hearing Slated

By TOM ALEXANDER

Police were requested to be present after a meeting on the subject got out-of-hand last week with protesters by 103 residents of the Indian Hills subdivision, adjoining the proposed center site.

Indian Hills residents object to construction of the center on SR 456 at Kewanee Road in Casselberry. The eight-acre tract — with a price tag of \$240,000, or \$30,000 per acre — presently is zoned B-1, or residential single family. Casselberry zoning and planning commission last week recommended the site be rezoned to C-1, or commercial.

Julian P. Myrick, promoting the shopping center for the owners, said the shopping center, to cost \$300,000 if approved, would house a furniture firm, numerous small shops, food facility, community room for meetings, etc. Myrick said the center would be a "show place," complete with landscaping.

Dr. Jerry Grissom, president of the Indian Hills Association, told The Herald at a workshop meeting of the Casselberry City Council last night that his group is using every route possible to stop the center from being constructed.

Both groups appeared before the City Council last night but could not present their cases since the meeting was a workshop and not a formal public hearing.

Several hundred persons are expected to be on hand at next Monday's council meeting.

'Be Prepared'

NEW YORK (AP) — The Girl Scouts of America is suing a poster company for \$1 million for portraying a pregnant Girl Scout alongside the motto "Be Prepared."

In a federal court damage suit filed against Personality Posters Manufacturing Co., Inc., of New York, the Girl Scouts claimed the poster was a "wanton and malicious defamation of the scouts."

The Girl Scouts charged the full color poster of a smiling girl "in an advanced state of pregnancy, wearing the official Junior Girl Scout uniform" was "intended to inspire unchastity and moral turpitude to members."

Further, the suit said, the poster was designed to destroy the association of Girl Scouts among "truth, helpfulness, friendliness and kindred virtues among girls."

The Scouts, a 57-year-old organization of 2.7 million girls from 17 to 17, also sought an injunction against further production of the poster and confiscation of those already printed.

'Sunshine Law' Makes 'Connivers'

By RICH OPPEL

Associated Press Writer Public officials call it damaging, foolish and idiotic, but it's plain Florida's new "Government in the Sunshine Law" is shedding more light on the workings of state and local government.

"If it doesn't make liars out of us, it makes connivers out of us," said Paul Pickett, Orange County Commission chairman. He refers to a court order clarifying the law as "that idiot decision."

The 1969 law required all official boards to transact all business in public. At first compliance was slow and officials in some areas seemed convinced of the law provided, implicitly, certain exemptions.

Circuit Judge William A. Patterson of St. Petersburg first construed the law to have a narrow application, barring secret meetings only when official action on a matter is taken.

But subsequent court decisions removed all doubt as to the dramatic sweep of the law. Patterson's decision was thrown out when the St. Petersburg Times took its case against secret school board meetings to the Court of Appeals in Tallahassee. And the State Supreme Court provided the final word in a July 2 ruling which outlawed all secret sessions, whether or not formal action is taken, so long as a quorum of any board is present.

The order went so far as to apparently rule out the possibility of three members of a five-member school board and their wives from having dinner together without notifying the press.

A survey by The Associated Press revealed that changes across the state have been dramatic since the high court spoke. Some examples:

—The Orange County Commission, which April 17 had Orlando Sentinel reporter Bruce Dudley bodily carried out of its chambers by the sheriff, has changed its ways.

"The county attorney now informs us that due to the Supreme Court ruling we can no longer do that," said Chairman Pickett, who's not a bit happy about it.

—The Howard County School Board, which defended its claim to secrecy against reporter Barbara Duran Malone's lawsuit all the way to the Supreme Court, has also acquiesced.

"Every aid all meetings and get-togethers of the board where we have a quorum present are open to the press and the public," said Supt. Ralph Staten.

—The all-powerful state Cabinet's long-standing practice of breakfast at the Duval Hotel and coffee in the governor's office prior to the regular Tuesday meeting has crumbled.

Three Families Joyful As POWs Are Released

By THE ASSOCIATED PRESS
The families of three U.S. servicemen reported joyfully to reports of their release from North Vietnamese imprisonment. But the family of another captive could only look to the future.

"I don't think we really believe it yet," said Mrs. Lyle Rumble, of Oroville, Calif., mother of Air Force Capt. Wesley Lewis Rumble.

"We really feel at ease, we're waiting for the Air Force," she said. Rumble was captured in April 1967.

The three servicemen were identified by Renne Davis, an American pacifist who received custody of them in Hanoi. He said they would be flown to Laos today to Bangkok on Wednesday and to New York Thursday.

Davis said he met four other American prisoners who were not released, and they appeared to be in excellent condition.

He identified one as Air Force Capt. Anthony Charles Andrews, who was shot down Oct. 17, 1967. His wife, Gale, living in Wichita, Kan., was graduated from the University of Kansas on Sunday.

"We're overjoyed," she said. He said Andrews operated a hotel and motel in Clark, S.D. His son, Douglas, a Navy seaman, was reported aboard from the cruiser Canberra in April 1967.

"We've been waiting for this so long," she said.

The three servicemen were identified by Renne Davis, an American pacifist who received custody of them in Hanoi. He said they would be flown to Laos today to Bangkok on Wednesday and to New York Thursday.

U. S. Will Free Viet Fishermen

By GEORGE ESPER
Associated Press Writer
SAIGON (AP) — The U.S. government is negotiating secretly with Hanoi to arrange for the release of 10 North Vietnamese fishermen rescued by the U.S. Navy last week off North Vietnam, officials here said today.

The sources said the United States wants to return the fishermen as quickly as possible, particularly since Radio Hanoi announced Monday that three American fishermen held captive in North Vietnam have been freed.

It was not immediately learned where and how contact with North Vietnam was being made, but Vietnamese the likely place, U.S. officials said today.

The International Red Cross had been notified of the American desire to return the men as soon as possible if they want to go home.

Meanwhile, the hull in major action continued American and South Vietnamese forces reported 113 enemy soldiers killed in seven scattered skirmishes. Only nine rockets and mortar attacks were reported during the night, the lowest number since May 30.

The day's communications listed a total of nine Americans wounded and one killed. The U.S. Command also announced two more American helicopters were shot down in the Central Highlands, raising to 2,899, the total number of helicopters reported lost in the war.

The last North Vietnamese prisoners held by the United States, 14 seamen, were released last Oct. 21 during a 36-hour cease-fire agreed on for a strip of North Vietnamese coastline 2 1/2 miles long. At that time American bombers and warships were still attacking that part of North Vietnam, but the heaviest shelling previously reported of Britain weighed 224 tons.

POISED TO CARVE THE ROAST PIG at the "Buccaners' Bash" are (top left) Harold Slama, founder of Cobia; M. M. Bump, vice president of Ashland Oil and Refining Co.; and Carl Deeter, vice president and general manager of Cobia. Next to him is J. J. Hadley, Punta Gorda, winner of the Best Costume contest in her "Saturday" costume. Here she takes a nibble of cheese from the dagger of Herman Love, Sanford. (Bottom, left) from Pompano Beach, Gary and Linda Thompson, best dressed finalists, join in the spirit of the pirate's party dressed as they envisioned the pirates of old. Another hook for a hand was sported by Tom Jenkins, Atlanta, as he captures the attentions of the fair Lynn Prather, also from Atlanta.

Freed Yanks Fly To Laos

SAIGON (AP) — An International Control Commission plane left Vietnam, Laos, today for Hanoi to pick up three American military men freed by North Vietnam.

Officials at Vietnamese airport said the plane left 6:35 a.m. EDT and was scheduled to return 11:30 a.m. EDT.

The three prisoners who were turned over Monday to a group of American pacifists who had gone to Hanoi to bring them home. Renne Davis, leader of the group of pacifists, said the three were Air Force Capt. Wesley L. Rumble, 26, of Oroville, Calif.; Navy Lt. Robert F. Friseman, 29, of San Jose, Calif.; and Seaman Douglas E. Hegdahl, Watertown, S.D.

Rumble and Friseman were held for 14 months in North Vietnam, while Hegdahl fell off the cruiser Canberra or was washed aboard near the North Vietnamese coast.

Davis said the group planned to stay overnight in Vietnam, fly to Bangkok on Wednesday and leave for New York Thursday.

He said that all three men were in "excellent condition." They are the first Americans

BULLETIN

Sidney M. Richard Sr., 74, of 1109 French Avenue, director of Sanford's public works for 41 years will retire from his post on Monday, Aug. 14, after 40 years of service. He was born in St. Louis, Mo., and served in the U.S. Army during World War II. He has three sons, Sidney M. Richard Jr., and William R. Richard, and seven grandchildren. (Complete details in Wednesday's Herald.)

HEAVY SHARK
A group of North Vietnamese coast guard vessels on Monday captured a 430-pound shark and now the heaviest shark previously caught of Britain weighed 224 tons.

Weather Back Home

By THE ASSOCIATED PRESS
Fair and mild weather prevailed over most of the nation from the Rockies to the Appalachians today.

The pleasant pattern was sandwiched between an unseasonable chill in the Pacific Northwest and continued cloudiness and scattered rain along much of the Eastern seaboard.

Pockets of nighttime thunderstorms roared portions of the midcontinent, but these generally diminished before dawn.

Locally heavy rain hit some sections a nearly 8 inches soaked Chattanooga, Tenn., in one hour.

A tornado churned out of a thunderstorm late Monday over southeastern Nebraska and injured one person in the community of Dumar, 40 miles south of Omaha. Property damage was minor. Golfball-size hail hammered an area around Plymouth, Neb., south of Lincoln.

In Slayings Of Michigan Girls Tattooed Suspect Sought

By LOWELL MCKIRGAN
Associated Press Writer
ANN ARBOR, Mich. (AP) — Authorities investigating the slaying of seven Michigan college girls and a young woman pressed a nationwide hunt today for Andrew Manuel, 25, last seen in Salinas, Calif.

The FBI entered the investigation for the first time when a federal fugitive warrant was issued against Manuel Monday in connection with the theft of a house trailer in Michigan.

Manuel, tall and heavy, with a tattooed left forearm, was believed by authorities to have journeyed to California in June 1967. Manuel and Collins lived in the same Ypsilanti rooming house.

The trailer was found over the weekend near the Salinas home of Manuel's parents.

Three California girls murdered this summer—two near Salinas and one near Los Angeles—were similar in some respects to the seven in Michigan.

Senator Would Air War Gas Secrets

By JOE HALL
WASHINGTON (AP) — Two senators said today the light of public debate should be thrown on the military's shadowy war gas program and they proposed several restrictions on chemical-biological warfare weapons.

The senators' amendments would ban the procurement of delivery systems for lethal CBW agents, prohibit open air testing of nerve agents or any pathogenic biological organism, and guarantee consultation with Congress and foreign governments before deployment of CBW agents overseas.

The senators' move was the latest of several developments which have nurtured CBW into an issue of important proportions. Among them:

Nelson and Goodell said \$1 million a day is spent on CBW weapons and the United States provides CBW training for officers from 35 nations.

The senators' amendments would ban the procurement of delivery systems for lethal CBW agents, prohibit open air testing of nerve agents or any pathogenic biological organism, and guarantee consultation with Congress and foreign governments before deployment of CBW agents overseas.

The senators' move was the latest of several developments which have nurtured CBW into an issue of important proportions. Among them:

Planet Mars Will Show On TV Tonight

By RALPH DIGHTON
AP Science Writer
PASADENA, Calif. (AP) — Mars' 7 streaked across the Martian south polar cap today, snapping and storing pictures scientists said would give tonight's television viewers to their chairs.

Preliminary signals flashed on monitors at the Jet Propulsion Laboratory were evidence, a spokesman said, that the photographs as finally transmitted would be "beautiful," showing features of the planet's southern hemisphere never seen before.

Commented Dr. Robert B. Lighton, California Institute of Technology astronomer, as he viewed the incoming signals: "Wait until you see the full scale pictures of the polar cap—Wow! We are seeing the antipodes of Mars."

To transmit the signals were a confusing hash of white and gray squares. Scientists trained eyes, however, saw patterns which they identified as craters, large dark areas and the vast white polar cap.

In telescope photographs the cap appears amorphously circular. Approach pictures by Mariner 7 and its twin, Mariner 6, which swept along the Martian equator last Thursday, showed that the cap really has a ragged fringe and a dark spot in the center.

Scientists expected Mariner 7's closeup to help solve the puzzles created by these new findings, perhaps answering the question of whether the cap is made of ice or frozen carbon dioxide—"dry ice."

Mars' 7s fly-by pictures from 2,000 miles high were stored on tape for televising over three hours starting at 8:30 EDT tonight.

Legislator Aggravated By Pornographic Mail

By JIM ADAMS
Associated Press Writer
WASHINGTON (AP) — Congress should pass a law compelling in detail what constitutes obscene mail, the chairman of the House Post Office Committee said today.

"The problem of pornography has been with us for years, but control of snail mail has been aggravated in recent years by various court decisions," said Rep. Theodore J. Dulski, D-N.Y.

"In the matter of mailings into homes where there are minors, my bill has spelled out in quite graphic language so there can be no doubt at all—exactly what we mean in this legislation as being obscene."

Dulski was the leadoff witness at anti-obscenity hearings by a subcommittee on postal operations of the House Committee on Communications and Transportation. His bill, cosponsored by several committee members, would prohibit mailing to anyone under 18 any material depicting or describing nudity, sexual conduct or semi-masochism in a way "designed primarily to appeal to the prurient interests of the viewer."

Sanford Manor Offers Complete Facilities

New Wing Just Completed

The Sanford Manor Nursing and Convalescent Center has completed their new wing, bringing the total capacity of the modern and attractive facility to 105 beds.

Administrator John M. Jenkins saw need for the new wing when the Sanford Manor was full just 45 days after opening.

The Sanford Manor opened its doors on August 18, 1968, and will soon be celebrating its first anniversary. They have served 248 patients since that time. In less than a year, they have administered over 28,000 patient-days of care.

There are presently 70 patients, with 21 employees to care for them. Jenkins figures the Sanford Manor gives \$38,000 a month to the economy of the community.

Jenkins is especially proud of the ultra-modern kitchen at the Sanford Manor. With eight employees in the kitchen, it is staffed from 6 a.m. till 7 p.m. every day. Meals are served to all patients and to employees also.

The delicious and nutritious meals are served either in the comfortable and attractive dining room or in the room for the patients unable to be up and around.

Each meal has been prepared for the patient according to a doctor's prescription. There are eight basic types of meals served.

The kitchen has all the modern equipment for serving the patients. A large walk-in freezer and a huge dish washer are just two of the appliances on hand.

It is important that the meals stay hot until they reach the patient, but that certain items such as milk or juice be kept cold. To assure this, the Sanford Manor kitchen has several hot and cold carts.

with a compartment to keep washers, dryers, and ironers. Each room is equipped with black and white televisions as well as color televisions in the recreation rooms.

The spacious grounds of the Manor are conducive to quiet walks or sunning in the garden with a friendly smile and a hello as you enter. The entrance to the Manor is indicative of the atmosphere and treatment that the patient will find inside during his or her stay, as the staff is dedicated to providing the finest care available anywhere in the area.

Watch television in our air conditioned waiting room while we service you.

High Prices Are 'Out' At Noll's

Are you tired of paying high prices for furniture? Well, why not go out to Noll's Furniture on Highway 17-92 and take a look at their large stock of freight damaged furniture, factory seconds, and close-outs. Noll's carries many name brands, and all at discount prices. In order to store freight damaged pieces at their original condition, Noll's maintains its own repair and refinishing shop. A discount is also given on special orders for custom furniture in your choice of colors, patterns and fabrics. In addition to the bargain furniture, a variety of new furniture in top condition is available.

The Caselberry outlet opened in March of 1963 and now has a staff of 14 to serve you. Robert Walker is the manager of the Caselberry store. Other stores in the chain are located in Orlando at 6021 E. Colonial and 241 N. Orange Avenue, and S. Highway 411 in Leesburg.

Open Monday through Friday, 8 a.m. till 8 p.m., Saturday, 8 a.m. till 6 p.m., and on Sunday from 12-5 p.m., Noll's has a staff of 15 employees to serve you.

Noll's also offers free delivery. A large parking lot is provided beside the store for the customer's convenience.

Whether you are completely furnishing your home and need a bedroom, living room or dining room suite, or are just interested in occasional chairs, tables, or lamps to accent your present decor you owe it to yourself to try Noll's first.

For budget minded people, Master Charge is available, as well as a payment plan.

NOLL'S FURNITURE has all types of furniture at discount prices for your home. Here, William Marshall readies a piece of furniture to be delivered for another happy customer.

KNEE DEEP in OUTDOORS

by BILL VINCENT JR.

A lot of action on Specks this past week in the St. Johns river north of the Monroe bridge, approximately one mile down the river using live Missouri minnows. Reports are that the size is really BIG, with some small ones weighing from one pound to one and a half pounds. The bass are from one pound to one and a half pounds. The bass are from one pound to one and a half pounds. The bass are from one pound to one and a half pounds.

Florida hunters will have a new public hunting area during the 1967-70 season. The Jane Green area in Osceola County was established as a wildlife management in Ft. Lauderdale on July 17.

According to Dr. Richard Schulz, Commission Chairman, the new area, owned by the South and Central Florida Flood Control District, will be opened as a controlled hunting area. Due to the area size, 17,000 acres, hunting will be limited to a specified number of hunters per day.

In addition to Dr. Richard Schulz, Commission Chairman, the new area, owned by the South and Central Florida Flood Control District, will be opened as a controlled hunting area. Due to the area size, 17,000 acres, hunting will be limited to a specified number of hunters per day.

Commission members, upon recommendation of the Fisheries Division, adopted guidelines for use of certain toxic herbicides for control of aquatic vegetation and discussed enforcement of regulations governing introduction of exotic fishes, plants, and other organisms.

In other action, the Commission awarded a bid in the amount of \$2,500 for construction of a fishing lake in DeSoto County, and approved the purchase of a mobile home dwelling to be established on the J. W. Corbett Wildlife Management Area in Palm Beach County.

The Commission approved an agreement for a cooperative rough fish farming program with the County Commission of Lake County. The program will consist of a total of 100 tanks during a seven month period with the Commission supervising the operation, and contributing one third of the total cost of \$15,000.

The program will be limited to Lake County, and will include fishing on Lake Yale, Lake Griffin, and the Clermont chain of lakes.

The Commission members also heard a proposal by Ross Allen representing Florida Alligator Farms, Inc., regarding alligator farming, and requesting permission to capture problem alligators for propagation purposes. No action was taken on the proposal but the Commission did agree to study the request for future action.

According to the Commission Chairman, the Commission endorsed legislation that would allocate the 16 percent federal excise tax on the sale of handguns and ammunition to the states for game management and hunter safety programs. The tax on handguns paid by hunters and shooters now goes into general revenue.

In final action, the Commission named Wildlife Officer Dick Bryant of St. Petersburg as the outstanding officer of the year. Bryant will represent the Florida Wildlife Officers at the annual meeting of the Southeastern Game and Fish Commissioners at Mobile, Alabama, in October.

The next meeting of the Commission was set for September 12 at Daytona Beach where the Commission will hold a combined meeting with the Florida Wildlife Federation.

Major Coaching Changes Evans Takes Crooms Post

By TOM ALEXANDER
Herald Sports Editor

Evans was a Crooms' backfield coach in 1966 before John Greyhounds in 1967 as a backfield assistant. Evans was one of the major reasons for Lyman's fantastic success last year as the Hounds formed a spotless 16-0 record and won the district crown before being knocked off by state Class A runner-up Lakeland Kathleen.

Crooms has been in the rebuilding act for the past several years and as Crooms principal C. A. Blackbeard stated, "I am very enthused over Evans' return, he is a dedicated fellow."

Two other new coaches have also been added to Crooms. They include Howard Mable who coached last year at Bishop Duffy High School in Niagara Falls, New York and James DeWitt coming to Crooms from the University of Florida.

Luscomb 'Sprints' In Orlando Win

By FRED CONSON
Herald Racing Staff

Tom Waring battled Henry Pullen in a side-by-side duel in the last half of the early model feature race at Orlando Raceway Friday night. Waring pulled off a fender landing win in his No. 98 Ford. Nick Brant in his No. 11 finished third in the feature after a win in the consolation race. Dale Nixon won the consolation race. Dale Nixon won the consolation race. Dale Nixon won the consolation race.

Bob Luscomb ran off with the Modified Sprint feature race. He was for second place as Wayne Reutman, Roydon and Larry Brazil put on a great show. Luscomb started from pole position and took the lead on lap six. Bob got to No. 8 to stick and was two laps later. He jumped into the lead never to be headed. Larry Brazil won the consolation race in the beautiful Campbell sprint No. 71.

Early Models
First Heat: Don Narantoro, Tom Waring, Dale Nixon, Sean Hoff, Lonnie Suggs; Consolation Race: Nick Brant, George McChain, Bill Deaton; Feature Race: Tom Waring, Henry Pullen, Nick Brant.

Grudge Match Slated
George Holden.

Plant City's Gainer and Holden of Melbourne both thought they were the winners in a heavyweight bout here two weeks ago. But the fight scores judged it a draw.

Weight-in for tonight's matches is at 2 p.m., with the bouts to begin at 8:30.

Gainer weighed 206 last time but has been training with emphasis on roadwork and is expected to weigh in (Royal Motel on West Colonial) at well under 200.

Holden was 190 the last time out and will be about the same, according to his manager, Glen Moses. Their match is for eight rounds. One judge gave the fight to each of them last time and one judge ruled it an even draw. The points were identical. Each asked for tonight's rematch.

Also back after a six-week layoff due to an eye infection will be Irish Jack Ragan of Bithlo. He is booked to go six rounds against Dick Hall of Orlando in the heavyweight division.

(ST. PETERSBURG) — The first round of the Florida Junior Major League State Tournament was rained out yesterday. A full schedule is on tap for today with games scheduled at 10 a.m., 12 noon, 2 p.m., and 4 p.m., to complete the first round. The winners of the morning contest will then face each other at 6 p.m. in the first game of the semi-finals. The winners of the afternoon matches will play at 8 p.m.

Sanford will take on Ft. Walton Beach at 2 p.m., and if they win will play again at 8 p.m.

Cloudburst Spoils FSL Play

By THE ASSOCIATED PRESS
Cloudburst and wet fields combined to wash out the games scheduled for play Monday night in the Central Division of the Florida State League.

In the Southern Division, the leading Marlins made a clean sweep of their dominion over the other teams. A triple by Lew Beasley brought home the three-run combination in the top of the 11th that gave Miami its third win of the season.

Fort Lauderdale batters — 15

No More Days At Suffolk

BOSTON (AP) — Bill Veck, claiming that the denial of 24 extra racing days at Suffolk Downs will cost the state \$1,700,000 in lost revenue, has vowed to "take whatever legal steps are available to rectify the situation."

The colorful president of the East Boston track issued the statement Monday just a few hours after the State Racing Commission had rejected his application to stage a full thoroughbred meeting.

The commission's unanimous action came after an opinion by Massachusetts Atty. Gen. Robert H. Quinn that granting the extra days would be illegal.

Defense Plays A Key Role

By LEW FERGUSON
Associated Press Sports Writer

Liberty, Mo. (AP) — American Football League defenses, much maligned by outsiders since the league's berth but praised by the press covering the New York Jets' Super Bowl victory this year, have been getting better and better, one of the league's most veteran defensive backs says.

John Robinson 10-year AFL veteran safety from Louisiana State who is the last member of the Kansas City Chiefs to start with the Dallas Texans in 1960, also suggests the AFL defenses are on a par with the National Football League.

A year or two ago, veteran NFL observers would have scoffed at an opinion that the 1969 Super Bowl ended the scoffing, and now those like Robinson who coached the years of the AFL, realized they had to have top-flight talent to play professional defenses. Then, I think they started finding the boys who could play it and drafting them. Before they drafted offensive stars and if they couldn't make it on offense, they put them in a defensive line.

"I think we'd have to say," the articulate Robinson said, "that the defenses were weaker than the offenses in the early years."

"I think probably after the third or fourth year, the coaches realized they had to have top-flight talent to play professional defenses. Then, I think they started finding the boys who could play it and drafting them. Before they drafted offensive stars and if they couldn't make it on offense, they put them in a defensive line."

"Once they began acquiring the defensive players, it took several years for them to learn one in the caliber of talent," Robinson said in a brief 6 or 7-year process of building a defense.

One facet of policy making that was the last to come out of the shade was conferences between board members and their attorney. Many still feel bringing this out in the open violates "lawyer-client relationship."

"Under this idiot decision," said Commissioner Pickett, "we have a board meets with (litigation) hear our arguments."

Two schemes of circumventing the law have grown in popularity. One part of the system right up to the Supreme Court ruling.

Ridiculous To Sublime; NY Hit

By MIKE RECHT
Associated Press Sports Writer

After slugging their way into first place, Cincinnati hitters must have thought they earned a day off, but fortunately their pitchers showed up and did a day's work for a change. Going from the ridiculous to the sublime, the Reds followed Sunday's 19-17 victory over Philadelphia with a heavily 1-0 triumph over the New York Mets Monday night that must have left toting Jim Maloney wondering where everyone went.

Coming back himself from arm miseries, Maloney had his work cut out for him as his teammates managed only Alex Johnson's sacrifice fly of Jerry Kosman in the third inning.

The Giants fell back when their game at Philadelphia was rained out with the Phillies leading 2-0 in the third inning, and Montreal dropped the Braves with a 2-1 victory.

Los Angeles, in fourth place, went two games behind by losing to the St. Louis Cardinals 2-

1, and the fifth place Houston Astros fell three lengths back when the Chicago Cubs crushed them 9-3, in the only other game.

The Cubs' victory also increased their East Division edge to seven games over the Mets, who now stand only 2 1/2 ahead of the surging Cardinals.

In the American League, Cleveland blanked Baltimore 2-0 and Minnesota hammered Detroit 7-1 in the only games scheduled.

After pounding 25 hits Sunday, Cincinnati's best-hitting team in the majors could collect only six off Kosman, 8-7.

Maloney, 32, yielded only a two-out double to Wayne Garrett in the second and a single by Tommie Agee with two out in the sixth. He struck out three,

but his third walk, with two out in the ninth, ended his bid for his first complete game since his sophomore season against Houston April 30.

Pete Rose walked with one out in the third and took third on Bobby Tolson's single before Johnson hit his fly.

"We didn't have too many chances to win against Maloney's pitching. We can't win ball games unless we score runs," said Manager Gil Hodges of the Mets, who still is hit stumped at being the first team blanked by the Reds since June 25.

It was little consolation to tooman that he was the first pitcher to hold the Reds to less than two runs since June 22 and the first to lose a 1-0 game to them since Aug. 29, 1967.

BILLY LONERGAN'S mouthpiece comes flying out during Donato Padiano lands right during bout at Madison Square Garden, Padiano, a Canadian Olympian from Montreal, won on a sixth-round TKO.

Jets Having Upeaval

By SHEILA MORAN
Associated Press Sports Writer

The New York Jets aren't world champions, on the field or off. Their 26-24 victory Friday night over the College All-Stars was a pyrrhic one at best—and their defensive captain's run-in with the college's coach, Otto Graham, during the final minutes won't make it any easier for the Jets to restore their pride.

If Commissioner Pete Rozelle enters the picture in the Sample case, the Jets might be a little distracted when they take on the Cardinals in St. Louis on Monday.

Tripp-Meyer Nuptials Spoken

Pamela Jean Tripp became the bride of John Alvin Meyer at 8:30 p.m. on June 27, 1969, in the First Baptist Church of Brandon.

Dr. J. Harvey Sanders performed the double ring ceremony.

Liturgical gold tapers with palms and floral arrangements of white gladioli and mums formed the background for the ceremony. The couple stood before a lovely parlor with an artistically arranged archway and repeated their marriage vows to each other from memory.

The bride is a native of Sanford and the daughter of Mr. and Mrs. W. M. Tripp of Brandon.

The bridegroom is the son of Alvin Meyer and Mrs. Colleen Hoyle of Tampa.

Mrs. William McClann, organist, presented a program of nuptial music, including the traditional wedding marches and accompanied Walter E. Johnson, soloist, uncle of the bride, who sang "The Wedding Prayer" and the "Lord's Prayer."

The bride, given in marriage by her father, was radiant in a floor length, bridal gown of imported Chantilly lace. The gown featured a front panel of pearl de lace and lace. The long tapered sleeves were of lace and the back closed with organ matching buttons. Her shoulder length veil of silk illusion was attached to a pearl and iridescent tiara. The bride carried a Bible, present with silver candleholders.

Mrs. J. H. Lee, aunt of the bride, cut the cake, assisted by Miss Susan Harter.

From a similar table, punch was served from a silver punch bowl by Mrs. L. H. Tripp and Mrs. J. D. Seigler, aunt and

Planned Fun, No Maintenance Woes. Keep Life Jumping For The Retired

By VIVIAN BROWN
A Newsletter Writer
SOUTHBRIDGE, Conn. (AP) — Some retirement condominium communities are so swinging that couples move in years before they actually retire from their jobs.

A minimum age of 50 and no children under 18 is the basic requirement here at the 1,000-acre Heritage Village. "Leisure" doesn't mean retirement—more than half the 80 residents in a variety of condominium homes commute to their jobs, but they can relax when they get home.

As one executive explained: "Where else can you have a maintenance-free existence that includes a golf course, horse-back riding, fishing, swimming pool, tennis, ground keepers and maid? If you want them."

Then, too, the condominium offers a stabilized financial prospect to retirees since the fixed monthly sum covers practically all costs of running the home. This feature has made the condominium village popular in many areas of the United States.

The cheerful existence appeals both to people who could not obtain services to run large residences and to older retired couples who require a stabilized financial picture and maintenance-free housing. In the event they'll have enough energy to swing their partner at a square dance.

"It is like living in a country club," explained one 58-year-old woman as she packed her exercise suit and took off for the activities building. "In the evening, board, activate one or another piece of exercise machine, enjoy a sauna, loll in the whirlpool bath for a while. De pending on the day of the week, she could join a class in sculpt-

TOTAL LIVING — Fashion Show is just one of many activities held at Heritage Village's retirement condominium community.

ing, painting, dressmaking, needlework, knitting, ceramics, rug hooking, investments or South fish.

This particular day there was a luncheon and fashion show with residents modeling clothes from England, Italy, Spain, British Columbia as well as American designers.

The sophisticated audience of presidents, lawyers, engineers, college professors, (One distinguished Heritage Village resident is sculptor Harriet Frishmuth, who was a pupil of Rodin's for six years. Four of her pieces are in the Metropolitan Museum of Art.)

The fashions ranged the gamut—from bohemian suits in evening gowns, Hazel Mason, former bridal consultant, who wore a pink and blue gown with a fringed shawl, statuesque Barbara Campbell in a white sharkskin pants suit and Lynn Wittenbel in a white dress with a hare midriff looked like professional models.

Some of the women owed their new, vivacious appearance to a course conducted at the activities building by Beth Brown of Total Living. For 40 years, Mrs. Brown has been engaged in the cosmetics and modeling business, and has conducted traveling fashion shows in Indiana and West Virginia. Her experience led to the present endeavor, conducting "image courses" designed for particular groups—teenagers, career women, housing area residents.

"I teach posture, diet, skin care, make-up, and I explain to the ladies that the more they get put into life, the more they will get out of it," says Mrs. Brown.

Pilot Club Head Attends International Convention

By VIRGINIA COLLINS
Publicity Chairman
Sanford Pilot Club

Marion Rethwill, president of the Sanford Pilot Club, attended the Pilot International Convention recently held at the Sheraton Hotel in Chicago.

Hundreds of business executives and professional women gathered along with their presiding officer, Marie L. Newton of Jacksonville, to the formal opening of the convention with its discussion of fairs of all the states and of countries around the world where Pilot Clubs exist.

The keynote speaker, Chancellor Porter L. Fortune, Jr., of Kewanee, Ill., succeeds Mrs. Newton as president of Pilot International.

The convention approved plans for a contest to honor the employed handicapped woman of the year to dramatize the Pilot's part in furthering the crusade for environmental changes to benefit the physically disabled.

Miss Violet J. Parsons of Kewanee, Ill., succeeds Mrs. Newton as president of Pilot International.

MARIAN RETHWILL

NEW YORK (AP) — The average man loses his temper about twice as frequently as the average woman, according to a new study by researchers at Columbia University.

The report indicates that the average man loses his temper about six times a week, against about three tantrums for the average woman.

It is also noted that temper when someone has done or said something they consider disagreeable, men seem to take personal grievances rather calmly. Instead the stronger sex gets upset over things: flat tires, faulty repairs, traffic jams and so on.

Working through Care, the University of Mississippi, set goals in another dimension calling upon Pilots and all such service clubs to adopt speedily to inexorable change. He challenged the women to work with imagination, courage and fortitude for the realization of their age-old dreams of a world free of poverty, war, ignorance and injustice.

Pilots working in quiet ways locally and internationally toward such ends was evident from the president's and committee chairman reports.

FOUR SISTERS who had not seen each other for many years enjoyed a wonderful re-union recently. Mrs. C. C. Bedenbaugh, left, Sanford was hostess to her three sisters, Mrs. Jim Beck, of Columbus, Ga.; Mrs. George Webb, Decatur, Ga.; and Mrs. Forrester Harrison, Montgomery, Ala. Mrs. William Grady, a niece, entertained with a family re-union at her home in honor of the visitors.

Beauty after Forty
by Edyth Thornton McLeod

This is News
All "after forties" should be thrilled at this news. Ann Miller, at forty-six and after an absence from Broadway of thirty years is back starring in the famed "Mame." The critics are raving about her acting and her dancing. One very critical critic says, "Ann Miller has put new life in an aging musical."

Ann Miller looks wonderful and her legs are as beautiful as they were when she made her entrance in the world of dancing. She introduces a hip and a little bit of fashion, but the audiences love it.

Lace on the beach? Yes, and lots of it. Even beach dresses are fashioned of cotton lace and it looks attractive. Lace of any type is flattering and it packs well and travels beautifully. So

... by putting some pages between the lines of a fork and letting it hang out at the side. This works best if the book is propped up on a table.

DEAR POLLY—The aluminum arms on our lawn chairs made our arms black so I covered them with adhesive-backed paper in a wood grain pattern. They now look like wooden arms and are so easy to keep clean—MRS. W.A.F.

DEAR POLLY—The other day I was watching a woman eating lunch while trying to read a book. It is a problem to try to eat and keep a book open if you place a knife across the pages it will hold them open. I have gone one step further

Dear Abby: By Abigail Van Buren

DEAR ABBY: About four months ago, my husband brought home a parakeet, knowing that I am frightened to death of anything with feathers. Raymond tried to teach the bird to talk, but couldn't get a sound out of him, so he named him "Stupid."

Abby, I tried my best to overcome my fear. I fed and watered the parakeet and even cleaned its cage, but I was terrified every moment that bird was near me.

I finally couldn't take it any more, and I was Stupid like a neighbor.

When Raymond came home and found Stupid gone, he carried an axe and cut down and made me get him back, so now the fight is on again.

Raymond says I'm foolish because of her "coldness," he was losing his masculinity. He said that all he needed was a one-time affair to prove to himself that he was still able to satisfy a woman. He said he tried to have a one-time affair with a little girl, some sort of barn owl, or large hawk, landed on my neck and attacked me, and I've been terrified of anything with feathers since.

Raymond said he wouldn't ask me to keep anything that would put me in danger, and I suppose he's right, but do you think, having this thing about birds, I should be forced to keep and care for one?

AFRAID OF BIRDS
DEAR ABBY: No. Your husband should realize that even though the bird can do you no physical harm, it can do you much emotional harm, feeling as you do about birds. Yours is a very selfish and in-

considerate man. (P.S. And look who's calling whom "Stupid!")

DEAR ABBY: My older sister's husband dropped in unexpectedly to see me the other day. I am 28, happily married and have two children.

Abby, I was talking about rose planting and lawn fertilizer when he somehow started talking about sex. I felt uncomfortable and tried to change the subject, but he got back on sex again and I just sat there and listened like an idiot.

He told me he wasn't happy with my sister's years and five five children and he was afraid that because of her "coldness," he was losing his masculinity. He said that all he needed was a one-time affair to prove to himself that he was still able to satisfy a woman. He said he tried to have a one-time affair with a little girl, some sort of barn owl, or large hawk, landed on my neck and attacked me, and I've been terrified of anything with feathers since.

Raymond said he wouldn't ask me to keep anything that would put me in danger, and I suppose he's right, but do you think, having this thing about birds, I should be forced to keep and care for one?

Abby, I love my sister, and hate to think of her being married to such a rat. Should I tell her about this or not?

YOUNGER SISTER
DEAR SISTER: Keep your lip zipped. Your sister probably knows her husband for the "rat" he is. And if she

Horoscope Forecast

WEDNESDAY, AUG. 6, 1969
GENERAL TENDENCIES
The early part of the day is a beautiful time for logical discussions with influential men, both conservative and liberal. In the evening make sure you do nothing to stir up any enmity or opposition. Drive carefully and don't lose your temper.

ARIES (March 21 to April 19) Morning is the best time for corresponding and keeping an important appointment. Adopting new ideas to your present arrangement is fine to do later. Talk with a good friend about some plan; then take the initial steps.

TAURUS (Apr. 20 to May 20) Discussing with financial experts how to add to your present abundance will bring the right results and ideas. Take care later that you are not extravagant in any way. Go ahead with ideas you have on improving your property.

GEMINI (May 21 to June 21) Get out early to see the influential persons you know who can help you get what you want, instead of arguing with your associates who are in a peculiar mood. Entertain some key people and get the right results.

MOON CHILDREN (June 22 to July 21) Get the right answers to problems from experts. Try not to work too hard tonight. The afternoon is the best time for applying yourself.

LEO (July 22 to Aug. 21) It is important that your good friends know how much you appreciate them. Entertain them charmingly. The one who is fond of you may talk a bit. Know what you truly desire. The future need not be so full of conflict.

VIRGO (Aug. 22 to Sept. 22) A good day to get the advice you seek from one highly placed. Take care later that you do not do the opposite. South let the king hold and West is helpless. A space continuation would give South two space tricks and West stays out of that trap.

Not that it did him any good. He did shift to the five of hearts. South took his ace and trump, knocked out East's ace of diamonds and eventually discarded his spade-jack on one of dummy's long diamonds.

We mentioned earlier that South's four-club call was something in the nature of an underbid. The proof of that is twofold. North was under a lot of pressure. The bid of game and yet South could make a slam against any lead but a spade.

Jacoby On Bridge Jacoby and Son

UNLIKE other bridge plays, the Bath Coup covers one specific situation. You hold ace-jack and one or more small cards in a suit. The king is led and you let it hold. This gives you two tricks in the suit if your opponent continues it but that happens rarely. Your result doesn't take place often. Most of the time, your opponent will shift, whereupon the Bath Coup will merely have served to give you time to go ahead your business somewhere else.

East's jump to three hearts put a lot of pressure on South but he had the cards to withstand the pressure. If anything, his four-club bid was an underbid. The four-club bid put pressure on North also but North decided correctly that his two

made things easy for South but West had a natural lead of the king of spades. This set the stage for the Bath Coup. South let the king hold and West was helpless. A space continuation would give South two space tricks and West stays out of that trap.

Not that it did him any good. He did shift to the five of hearts. South took his ace and trump, knocked out East's ace of diamonds and eventually discarded his spade-jack on one of dummy's long diamonds.

SJC's Science Programs Made

Seminole Junior College has added Organic Chemistry, Geology and Linear Algebra to its math-science sequence.

Jay Whitson, Division Chairman, says that the new courses were developed to assist articulation with four-year colleges for mathematics or science majors. He says that the courses are being taught by faculty members and sophomores is now in progress for these and other courses.

Whitson, a year, the College hopes to offer Vertebrate Anatomy, Astronomy, Nursing Chemistry, and Chemical Technology as its catalog courses. Such differential equations will be offered if a demand is shown, Whitson said.

BUSINESS HIGHLIGHTS

UPWARD TREND

U. S. Steel's shipments in the second quarter continued on an upward trend and may be maintained at an unusually strong level for the third quarter. This would be in contrast to the normal seasonal decline that occurs during the summer vacation months and the automotive changeover, Edwin H. Gott, board chairman of U. S. Steel, reported today.

Data Lease Financial Corporation today reported a 250 per cent increase in earnings per share before extraordinary income for the nine month period ending May 31, 1968, compared to the same period a year ago.

Robert W. Morrow, a former fighter and test pilot who retired from the U. S. Air Force as a colonel, has been appointed manager of advanced programs for Symetries Engineering Corporation, Edward H. Broom, president and board chairman, announced today.

Maulo Industries, Inc. net earnings for the first half of 1969 showed a 23 per cent increase over the like period last year. It was reported today by Maurice A. Ferre, President of the Miami-based concrete products company.

FLORIDA CANNERS

Florida Canners Association members weekly movement of frozen concentrated orange juice totaled 2,022,222 gallons for the week ending July 26, 1969. This is down from the same corresponding week a year ago when 2,117,855 net gallons were shipped. Total season-to-date shipments of FCOJ are 67,829,428 net gallons which is one per cent greater than the 67,773,980 net gallons shipped during same period last season.

General Development Corporation today reported the highest sales and earnings for any six month period in the company's history.

Speaking for the Florida community developer, Charles H. Kellstadt, board chairman and president, said total sales for the first six months of 1969 reached \$4,580,583, an increase of 24.7% over the \$4,036,791 recorded in 1968.

Pan American World Airways, Inc. and its Consolidated Subsidiaries preliminary and unaudited statement for the quarter ending June 30 indicates net loss after taxes of \$1,881,000, or 5 cents a share, compared to net income of \$17,630,000, or 12 cents a share, for the same period last year.

Total operating revenues for the quarter were \$271,526,000, up 4 per cent, from \$270,264,000 for the same quarter last year. Total operating expenses were \$273,420,000, compared to \$262,921,000, for the June quarter last year.

GALV-WELD

Herbert F. Lewis, owner of Associated Zinc Services, P. O. Box 22751, Ft. Lauderdale, Florida announces that his company has been appointed distributor of GALV-WELD ALLOY for the State of Florida.

A low melting stick type repair compound, GALV-WELD ALLOY has been used extensively throughout the country for the repair coating of welded, burned off or otherwise damaged areas of galvanized steel for over 25 years.

A major reduction in fares between the United States and Far East, including a 23 per cent cut in the New York-Tokyo fare, will be offered by Pan American World Airways, subject to approval of the governments concerned.

The new fares will coincide with Pan Am's inauguration of New York-Fairbanks-Tokyo Great Circle service on September 1.

Pan Am's plan calls for lower Economy and First Class fares between the U. S. and Japan and Great Circle flights, and 14-21 day roundtrip Excursion and Bulk fares via all routings between the U. S. and Tokyo, Osaka, Hong Kong, Bangkok, Manila, Saigon, Singapore and Djakarta.

The nation's small and independent businessmen are looking toward September with skeptical interest.

The term of James Nicholson as a member of the Federal Trade Commission expires there. It is felt possible a new appointee could be named that would put some determination into FTC enforcement of the Robinson-Patman Act. But most small businessmen such a prospect seems doubtful.

Highest Paid Doctors Under Medicare

Heart Surgeons Earn \$200,000 Each

By JAMES R. POLK, Associated Press Writer

WASHINGTON (AP) — Two famous Houston heart surgeons, Dr. Michael E. DeBakey and Dr. Denton A. Cooley, each received about \$200,000 in Medicare payments last year, ranking them as apparently the highest paid doctors in the nation under the government program.

A special investigation now underway has found no indication of irregularity in the payments, which involved hundreds of difficult heart and blood vessel operations.

Investigators said the payments were mainly into a fund at the Baylor College of Medicine in Houston, rather than to the doctors personally.

Cooley has performed 20 human heart transplants, more than any other surgeon in the world.

DeBakey, the first physician to use an artificial heart pump on a human, has performed 11 transplant operations.

Washington officials said none of the Medicare money so far has gone for transplants, although one patient receiving government disability payments died in Houston while awaiting a new heart.

Official Medicare records list \$202,959 in payments for

DeBakey last year. Records were complete had listed the highest annual payment rate at \$191,000 to a Florida physician eventually identified as Dr. Murray S. Fox, a Miami osteopath.

DeBakey said the Medicare payments were meant to go into the general fund of the Baylor College of Medicine. He is president of the school.

A spokesman for the treasurer's office at the Baylor medical school said most of the money for operations by DeBakey and Cooley was kept by the fund, although part of it was paid to the two physicians under a fee arrangement with the school. He would not give other details.

Germany's Chief, Nixon To Confer

By FRANK CREPEAU, Associated Press Writer

BONN (AP) — Chancellor Kurt-Georg Kiesinger flew to the United States today for talks with President Nixon on European unity, East-West relations and divided Berlin.

There are no major outstanding differences between the United States and West Germany. But informed sources say Kiesinger will convey an attitude of caution and doubt about Moscow's willingness to enter negotiations on such basic questions as Berlin. Bonn remains skeptical despite Soviet Foreign Minister Andrei Gromyko's hints in a foreign policy statement July 16 that Moscow might be ready to talk about West Berlin.

Gromyko proposed talks on the divided city and said West Germany "has no fewer opportunities than other countries for developing normal relations with the Soviet Union."

The United States and West Germany reached an agreement last month under which Bonn will make payments to offset the foreign exchange cost of keeping U.S. troops in West Germany. West Germany, however, is concerned about mounting congressional pressure for a reduction of U.S. commitments abroad.

In the area of disarmament, West Germany has thus far refused to sign the nuclear non-proliferation treaty and there will be no action on it until after national elections are held Sept. 28. Nixon has said he understands Bonn's position.

Bonn does not share Rogers' carefully guarded optimism, but government sources feel that Nixon and Rogers have shown they are just as realistic as Bonn about the possibility of serious bargaining on Berlin.

In his talks with Nixon and other top U.S. officials, Kiesinger also is expected to seek assurances that the American government "in Europe will be maintained."

Three Youths Held For Drug Charges

Three youths, including a Sanford 17-year-old boy, were arrested late Tuesday afternoon by Sanford police and charged with possession of central nervous system stimulants.

Acting on confidential information and after a period of surveillance, Detective Tom Deppen, Lt. Edward Hayden and Patrolman Charles Tice arrested Bobby Lee Goid, 11, of 115 Pinecrest Drive, and Jon Skuli, 19, and David Michael Murray, 21, both of Rockledge.

The trio was in a van at the intersection of 20th Street and Magnolia Avenue when police stopped the vehicle and reportedly removed a quantity of LSD (hallucinatory) drugs from the vehicle.

Deppen said Murray is a former Sanford resident but had moved to Rockledge.

The trio was taken before County Judge Wallace Hall this morning and was expected to be boded at \$2,000 each on the charge.

Deppen stated that authorities had been keeping watch on the men for some time before deciding to move in for the arrest at 6:15 p.m. yesterday.

Left-over from yesterday . . . County Commissioners insist on being prudent re/saving the taxpayer's money, how in common sense can they "cut" the Jaycee's budget when "No commissioner has set foot in the Tourist Information Center in an official capacity during the past three years to study the operation there. No commissioner, likewise, has come to the Jaycee organization and requested information regarding the use of said funds."

Now we didn't say that quoted part . . . the Jaycees have indicted the Commission. It would be most interesting to get a reply, wouldn't it?

As has been quoted elsewhere in the recent weeks . . . "You haven't been telling us all the facts, gentlemen!"

You kid some people and before you know, they believe it. Take "Sandy" . . . Ooops — can't refer to him like that anymore.

Anyhow, the signature affixed to his correspondence now states . . . E. Pope Bassett — His "Royal" Highness.

County Delays Decision On \$\$\$ Chambers Win A Reprieve

By TOM ALEXANDER

Prodded by the pleas of leaders from throughout Seminole County the Seminole Chamber of Commerce and two county Jaycee chapters received a week's reprieve from the Seminole County Commission on cutting the three organizations' annual county allotment of \$25,000 in favor of an advertising publicity advisory committee, favored by the county fathers.

In the jammed pressure packed county commission chambers yesterday leaders of the three groups presented their cases, telling why the commission should not cut the annual county subsidy to the organizations.

First speaker in the two hour battle was George Touhy, president of the Seminole C. of C. which boasts a huge membership of some 600 businessmen. Touhy told the commissioners

that the Seminole Chamber has served this area with top notch publicity and advertising programs since the commission started giving the Chamber funds for this particular purpose 28 years ago. Touhy reminded the county assembly that the Chamber membership is composed of "people who are dedicated to the ongoing of this county." Touhy emphasized his remarks on this subject by concluding with saying "dedicated men."

The Chamber prey explained that the cutting of the annual \$25,000 per year allotment would handicap the Chamber considerably and again reminded the county board, "We have the best talent available in the county."

With an audience filled by interested people from throughout the county Touhy remarked to the commissioners, "Such an advisory committee would serve very little use."

ACTION-PACKED COUNTY COMMISSION CHAMBER

PRESIDENT George Touhy pleads the case of the Seminole County Chamber of Commerce, citing the financial support of that body in building area's economy and, therefore, need for financial support.

JAYCEES SPEAK

While the Seminole County Chamber of Commerce was asking the county commission not to chop some \$25,000 given to the chamber each year for advertising purposes, two county Jaycee organizations were on hand in an effort to save some \$4,000 allotted to them for running two tourist information centers in the county.

Representing the Sanford-Seminole Jaycees was Sid Vilhen, Jr., president of the organization. Vilhen took several punches at the commission for its actions to cut off some \$2,120 to the commissioners. "Such an advisory committee would serve very little use."

The Sanford-Seminole Jaycees have a quality tourist and information service and facility for 18 years for which the county has awarded only a fractional portion of the operating expenses and nothing toward the capital improvements of the building facility, office equipment, and grounds during these years." Vilhen continued his prepared statement, "The taxpayers and we remind you that we are not employees of the county but in fact are taxpayers ourselves and believe the county has gotten an extensive, vital, and valuable service for a ridiculously low cost."

Vilhen told the silent commissioners in his conclusion, "The Jaycees question this due to the lack of study the hasty change of policy." Vilhen pointed out in his conclusion that this is not good business practice.

JIM BUCKRIDGE . . . "vital to growth"

RANDALL CHASE . . . "you should not do this"

Young Mother Held For Child Torture

By BILL SCOTT

County Detective Tom Simmons arrested an 18-year-old woman Tuesday after receiving a complaint from the girl's mother that she had attempted to drown her 14-month-old son in the bathtub.

Virginia Joiner, 301 East Fifth Street, was booked at the county jail shortly after 1 p.m. yesterday after being charged with violation of Florida Statutes 828.04 which deals with the torturing and tormenting of a dependent child.

Simmons reported the mother was charged after an investigation revealed the woman had held Christopher, her son, under water in the bathtub and had to be restrained.

A civil rights official is investigating a local firm after a woman employ was fired for injuring her eye while on the job.

Did you read about the seven foot two inch tall basketball center "earning" \$75 a day as "consultant" to bring young folks onto the playgrounds? Artis Gilmore (that's the net-sweeper's name) is to start playing for Coacox's "come fall." But there are those who firmly believe that after the publicity of this lucrative compensation, the flow of funds to the "consultant" will suddenly dry up.

But come to think of it, since this is reported to be a common way of using athletic talent in the "off season," maybe Joe Sterling at Seminole Junior College could find some consultants to fill any existing vacancies!

Seminole Junior College trustees meeting last night approved a \$1,000 pay increase for President Earl Weldon and granted a year's leave of absence to Dean Robert H. Schreiber to work on a doctorate degree.

This puts Weldon's salary at \$21,000 and is considered average.

The board also approved at request of Dean Schreiber, a year's leave of absence to allow the educator to attend University of Southern Mississippi at Hattiesburg, Miss.

No replacement has been found for Schreiber, who expects to leave around Sept. 7 to return in July 1970.

In other SJIC action, the trustees:

Approved recommendation of Weldon and hired as full-time instructor Gary Minor and Julius Larney in English and audio-visual departments.
