SIBLE VERSE TODAY

THERE IS NO OTHER WAY TO ENJOY A CLEAR CONSCIENCE BE CAREFUL THAT YOU DO NOT WROG THAT YOU CANNOT UNDO. —Lk. 20:18

The Fair Deal

With most of President Truman's recommendations as presented to the 81st Congress in his state of the union message Wednesday, few of us can find much with which to quarrel.

Mr. Truman's other proposals are little less objectionable. He would have the federal government put up money for the schools.

To accomplish all this the President is frank enough to admit that some money will be necessary, and he does not resort to the customary political ruse of getting it out of a silk hat.

This is no small request to make. Federal taxpayers are already contributing ten times as much to the federal treasury as they did when the Democrats first came into power.

Even so, the taxpayers have not been able to meet all the expenses of the federal government. In fact, so enormous have they been in their contributions to the New Deal that the government has had to go into debt.

Mr. Truman has called his administration the "fair deal" to differentiate it from the New Deal of his predecessor.

The engagement of a New York young woman mentioned incidentally that she was a lineal descendant of David Dudley Field.

Both were outstanding, at least in fame, by their two brothers. Stephen W. of California was appointed to the Supreme Court by Lincoln.

When is a cake not a cake, and yet not a cookie? The question arose in a suit against five youths who sat down to eat in a restaurant at Newmarket, Ont.

The answer to any Scotch Canadian is simple. It is a date square, a curious concoction of oatmeal and ground dates, much relished in those parts.

The waiter had laid a box of the squares on the table, and the boys walked out with them.

"Your candor is refreshing," commented the magistrate. The solemn decision was made that it was date squares that were taken.

Silver Springs Dollar Revenue Records Are Smashed In 1948

SILVER SPRINGS, Jan. 7. (Special)— When the last glass-bottomed boat discharged its passengers at Silver Springs last Friday afternoon, the operators of Florida's largest and most heavily patronized scenic attraction were in a position to say that all previous annual records for passenger traffic and dollar revenue were smashed by a "satisfactory margin."

That was announced at the spring Saturday morning by W. M. Davidson, who with W. C. Ray, co-owner of a resort they have been operating for nearly 25 years as partners.

Passenger traffic for 1948 thru yesterday was nearly 3 percent ahead of 1947's remarkable high mark, while dollar revenue on the glass-bottomed boats was up nearly 5 percent over 1947, he reported.

Adding profit to lately heard claims that Florida is rapidly becoming an "all-year" state is Davidson's report that "more people paid to ride the glass-bottomed boats during June, July, and August of this year than they did during January, February, and March, the usually heavy months."

In sharp contrast to the war years when winter visitors were in the minority, 808 uniformed men and women had been favored with the concern's half-rate for the year thru yesterday, he said.

Davidson, known throughout Florida as one of its greatest believers in the value of advertising and publicity, revealed that approximately 1275,000 was spent in 1948 in a campaign aimed at producing record breaking revenue.

This is six times as much as we ever spent in any year before the war," he pointed out, "but there is reason to believe we have carried our message into 50 times as many homes around the world, with the benefits of 1948's expenditures to be felt for years to come."

While he did not elaborate, Davidson intimated that within 90 days we expect to make at least two announcements that will mean that additional thousands of people will be attracted to Marion county and Silver Springs.

In conclusion, Davidson, joined by Ray, pledged again that "Silver Springs will ever be operated in the highest possible manner so that all Florida can join with the people of Marion county in recommending it to the nation and the world as a worth-while attraction."

Sanford Forum

Greetings Forum. Recently I read where the Federation of Churches stated that when the New Testament was written, men were agriculturists and that it is not applicable today.

Rent Controls

The President also left it up to Congress to work out the method of putting into effect the labor law changes he has asked.

Mr. Truman asked in his state of the union message for repeal of the Taft-Hartley Act and re-employment of the Wagner Labor Relations Administration supporters in Congress are divided on the question whether that should be done in one bill, or in two or more.

A reporter sought Mr. Truman's view on that question. He asked whether Mr. Truman wanted his labor recommendations, including a rise in the minimum wage from 40 to 75 cents an hour, handled in one omnibus bill or separately.

The Chief Executive said that he had made his position clear on the need, that the problem of how to meet it was up to Congress. He said he would wait and see what Congress did.

The Capitol Hill dispute has revolved chiefly about a bill by Senator Elbert Thomas (D-Utah) to shatter the Taft-Hartley Law and restore the Original Wagner Act.

Mr. Truman stressed that the recommendation in his message Wednesday was that the government step in only if private industry failed.

His recommendation, he stressed, was that (1) Government loans be made available for plant expansion if private industry needed loans, and (2) Government construction of plants be undertaken if private industry did not want to go ahead.

The President expressed firm belief that this country can attain its goal of continuous "maximum employment, production, and purchasing power."

Federal Court

Amendment. Three other whites were allowed to register after being questioned on the Constitution. The court refused the negroes' petition for an award of \$100,000 damages against members of the Mobile board—J. Milton Schnell, Mrs. D. C. Randle and E. J. Gonzales.

Bunche Speech

The cease fire was ordered at 12:00 P.M. (7 A. M., EST.) found Israel's troops astride the only coastal road to Gaza, the port assigned to the Arabs by partition, and ringed in a half-circle around Egypt's frontier.

Someone wanted to know today if the State Department shift pre-empted any change in American foreign policy abroad.

As for the suggestion that Foreign, Marshall and Lovett had foreign policy ideas different from his own, he said foreign policy is formulated by the President of the United States.

## Key Club Sponsors Athenian Program

The Athenians, a talented group of singers and instrumentalists from Iceland, entertained a small but appreciative audience last evening at the Seminole High School auditorium in a program sponsored by the local key clubs.

Among the singers who were accompanied by Miss Lillian Vicky were Miss Alma Alexander, Miss Evelyn Lockhart, John Everett and Jerry Grooms of Stetson University. Instrumentalists included Andrew Preston, xylophone player from DeLand High School, La Verne Battle, pianist and Rutland and Frank Kurtz, violinist, Lorna Joyce Horne performed a ballet dance.

Outstanding solos by Miss Alexander, a soprano who has appeared in Sanford at a number of entertainments were "Gone With the Wind" and "The Gentle Lark" with little accompaniment by Miss Battle, and obligato with the Romney Life chorus with music by Victor Herbert. She also sang several Finnish numbers with Mr. Everett.

Evelyn Lockhart soprano sang "The Blue Day" from the Opera, "Madame Butterfly," "Where are You Walk" by Handel and "Someday" by Gerchow. Solos by John Everett, tenor, were "Tosca," "The Serenade," "Mother Machree," "Roses of Picardy" and "The Star." Jerry Grooms sang the Cole Porter tune, "Night and Day" and "Waiting for You."

Young Andrew Preston's deft performance of "Light Cavalry Overture" on the xylophone drew an encore, "Fiddle Faddle" on the violin. Frank Kurtz played "La Campanella," following up with the "Smoking Bird" with full effects. Miss Battle soloed on the piano with a Chopin C minor Etude.

The finale was a campfire scene with the following chorus: Alma Alexander, Fillmore Walt, Earman Holiday, John Everett, Frank Kurtz, Harold Eder, Evelyn Lockhart, Mary Owsen, Dolores Super, Nina Utch and Bernice McCluskey. Miss Wells directed the program.

## Assembly Of God Revival Ends Jan. 8

The Rev. A. S. Davis, pastor of the Assembly of God Church, Twelfth Street and Laurel Avenue, announced this morning that the revival being conducted at the church will continue through Saturday with Rev. William F. Beunes conducting the services.

Rev. Beunes was called to England to speak of the subject of prophecy at the 13th anniversary of the Advent Testimony and Prophecy Movement, organized by G. Campbell Morgan and R. F. Mills at the time General Allen took Jerusalem during the first World War. He spoke in the Kings Way Convention Hall in the heart of London and to great crowds and in Moody's Church in Edinburgh and in 30 other halls and Churches over the entire British Isles.

The second coming of Jesus is a message that is needed for today. Rev. Beunes stated, and added "Only through the message of prophecy can we understand the conditions on the earth today."  
Rev. Beunes edits a prophetic magazine called "The Midnight Cry." He has also served eight years as a foreign missionary in the West Indies and South America.

Services are held each evening at 7:30 and the public is cordially invited to attend.

## Good Weather

University band special carrying 500 bandmen and other students returning from the Blue Bird football game in Pasadena, Calif., arrived today.  
Nearly all highways in Colorado and Wyoming were open. But huge drifts blocked many routes through out Western Nebraska. Plains were being used to transport stranded motorists, and to drop food and supplies to isolated farm homes. Temperatures were well above freezing.  
The area hardest hit by floods in the Southern states was along the Tombigbee river system North of East Mississippi. The Food Process estimated about 200,000 persons were forced from their homes, mostly in the lowlands of the Aberdeen-Columbus stretch of the Tombigbee Valley. Backwater overflow in the north Mississippi delta added to the flood menace along the Tombigbee River.

### Southeastern Conference Tries To Produce Top Flight Gage Teams

By STERLING SLAPPEY  
ATLANTA, Jan. 7. (AP)—The Southeastern Conference annually a producer of prime football—is trying to do the same in basketball. Of 165 basketball players on the 12 Southeastern squads, nearly one-third are from states outside the deep south.

And still southeastern teams, excepting Kentucky and one or two others, generally get kicked around when they play Eastern and Mid-Western teams from like sized schools.

During the mid-twenties some Dixie teams began importing football players and for a few of them it paid off. Others stuck with home grown and they fared just as well.

Nearly the reverse is true in basketball. A majority of Southeastern colleges which recruit stars from the East and Midwest rank higher than the bulk of those relying principally on Southerners.

The shortage of court powers in the South partially can be blamed on the public's inability to work up interest. The large field houses which seat from 8,000 to 15,000 in the north are scarce down here. With the exception of students, newsmen and less than a handful of general citizens, few view the average college game.

Some schools plan large field houses but not many have them. The Kentucky Wildcats lead the Southeastern with a squad of two players from Indiana, one from Ohio, one from Illinois, one Mary

lander, one Alabamian and only four Kentuckians.

The Wildcats are a good cross-section of Dixie basketball talents—one-third native, a light sprinkling of other Southerners and the rest from the north.

At the other end of the standings—the lotton end—is Florida. The Gators' 16-player squad is all native.

Georgia is second to Kentucky and almost a half, the starting half, of the basketball players are from someplace else besides Georgia. Two players came down from New York, two from Indiana and one from Ohio.

Eleven Southeastern teams have 46 imported players. Indiana leads with 21, Illinois has seven, Ohio six and New Jersey three. Two each were supplied by Oklahoma, Pennsylvania, New York and California. Maryland supplied one to Kentucky.

Here's a breakdown of natives by squads: Tulane, only three; Louisiana State, 12; Tennessee, six; Tennessee Tech, 16; Alabama, seven out of 12; Georgia Tech, one third Georgian; Georgia, eight out of 14; Vanderbilt, just over one half from Tennessee; L.S.U., less than half Louisianaans.

Florida, all natives; Auburn, less than half Alabamians; Kentucky, one-third natives, and Mississippi, less than half from Mississippi.

Tanzler is in the section which offers pictures of one outstanding star of most of the collegiate teams of the country.

The lanky Jacksonville center has scored 36 points for Florida this year and will be in the starting lineup when Coach Ram McAllister's boys go into their fourth Southeastern Conference game against Auburn at Gainesville Saturday night.

### Seminole Cagers Meet New Smyrna Five Here Tonight

The Seminole High School Celery Fed basketball team will meet the New Smyrna Beach High School five at the Seminole High School court tonight at 7:30 in a twin bill.

The "B" squads of the two schools meet in the first game of the evening at 7:30 o'clock, and the varsity teams tangle immediately after the juvvy conflict.

Coach Fred Gians' five have not won a contest this season, and are pointing to take the game with the invaders tonight.

Seminole High cagers dropped games to Leesburg and Egmont in previous starts. Both teams are members of the East Florida Conference.

It is probable that Coach Gians will start Buck Thomas and Floyd Cooper at forwards, Bill Johns at center and Bill Thomas and John Keeling at guards.

The 1949 estimate, stamped with approval of the company's board of directors at a year-end meeting, is a part of the Florida Power & Light Company's program of improvements and new construction launched after the war and extending to 1951.

Initial estimates anticipated a total outlay of \$25,000,000 for the period. This figure has now been boosted to \$108,500,000, Smith said, as a result of additional improvements undertaken by the company and by soaring construction costs.

The utility executive reported that approximately \$14,000,000—or about half of the total financial outlay involved—would be devoted to expansion of generating plants, including enlargement of the Riviera plant, completed in 1947 on Lake Worth north of West Palm Beach, and the spanking new Culebra plant now under construction south of Miami.

### Florida Confidence Is Keynote Of F P & L '49 Building Program

MIAMI, Jan. 7. (Special)—Confidence in Florida's 1949 outlook was the keynote of a \$29,188,200 construction program announcement made here today by McGregor Smith, president of the Florida Power & Light Company.

The utility's plans for 1949, Mr. Smith said, include extensive betterments to its electric service facilities, expected to improve service to its customers, plus major additions to its power plants, substations, lines, etc., in anticipation of increased demands for electricity.

The New Year's announcement, issued in the midst of mixed economic forecasts, indicated that \$22,000,000 of the near-record total will be spent on improvements and new construction during the current year. The balance is for work to be started in 1949 that will carry over into 1950.

The anticipated 1949 outlay will be the largest, with a single exception, in the company's history. Only in 1948 was the expenditure of approximately \$25,000,000 on new plants, plant enlargements, line extensions and service improvements higher than the plus the previous year.

The 1949 estimate, stamped with approval of the company's board of directors at a year-end meeting, is a part of the Florida Power & Light Company's program of improvements and new construction launched after the war and extending to 1951.

Initial estimates anticipated a total outlay of \$25,000,000 for the period. This figure has now been boosted to \$108,500,000, Smith said, as a result of additional improvements undertaken by the company and by soaring construction costs.

The utility executive reported that approximately \$14,000,000—or about half of the total financial outlay involved—would be devoted to expansion of generating plants, including enlargement of the Riviera plant, completed in 1947 on Lake Worth north of West Palm Beach, and the spanking new Culebra plant now under construction south of Miami.

### Texas To Kick In With Gold For Golf

DALLAS, Jan. 7.—(AP)—Texas will kick in with quite a chunk of gold in golf this year.  
Five tournaments will offer \$56,500 with \$45,000 available for the PGA tournament travelers to shoot at. It's probably the biggest stake that will be offered by one state in the nation in 1949.

The money digging starts Feb. 10 with the \$10,000 Texas Open in San Antonio—the oldest big cash event in golf. The next week—Feb. 17 to 20—the touring pros will be at Houston for another \$10,000 open tournament.

Feb. 24 to 27 they will visit the \$10,000 Rio Grande Valley Open at Harlingen. The next big money event in Texas comes May 2-8 when the Texas PGA stages its annual open tournament at Dallas. The pot will be \$11,500.

The final tournament will be in late May when the Colonial Country Club at Fort Worth puts on its open invitation which offers \$15,000 and pays the golfer's expenses.

AUBURN, Ala. Jan. 7.—(AP)—The University of Alabama's Crimson Tide dented the Auburn Tigers here last night, 45-38, in a Southeastern Conference basketball game before 3,000 students.  
Forward Rebel Steiner sparked Alabama's opening lead when his first field goal put the tide ahead 5-3. From there out, the Crimson Tide was ahead, boasting a 20-16 half-time advantage.

NEEDS COACH  
KNOXVILLE, Tenn. Jan. 7.—(AP)—The University of Tennessee was in the market today for a new football line coach.  
Murray Warmath, line coach for the last three years and Coach Bob Neyland's first assistant, said he had accepted a similar position at West Point.  
"I hate to leave Tennessee but it is an opportunity I cannot afford to pass up," Warmath said in commenting on his acceptance of the Army post.

Stan Musial, St. Louis Cardinal star who led the majors in batting, hit safely in 124 of his 156 games.

Check the Price - check the Policy - "Buick's the Buy!"
EVER since this '49 Buick made its bow, we've been telling you it's a buy.
We've invited you to match it—feature by feature and dollar for dollar—with anything else offered to you. You can start with the delivered prices shown here.
But don't stop with that. Check the policy under which Buicks are sold—and see for yourself that Buick means a better deal as well as a better buy!
Briefly, our Four-Square sales policy is this:
1. NO PRICE PADDING! We guarantee our prices to contain nothing but charges that were standard practice in figuring prewar delivered prices. You receive an itemized bill of sale showing all charges. And we display our prices in our showroom.
2. NO "LOADING" OF UNWANTED ACCESSORIES. All cars are delivered with accessories as ordered. We pledge ourselves to add no "extras" you do not want.
3. NO COMPULSORY TRADE-INS. Selling used cars is part of our business. Naturally we like to take cars in trade. But you do not have to sell your car to us! We will take your order, and deliver your car, without requiring a car in trade!
4. NO COLLUSION WITH "GRAY MARKETERS." We will not knowingly be party to a sale of Buick cars to any individual who operates in the "gray market." Our interest is entirely in delivering cars to bona fide customers.
In other words—you know exactly where you stand when you buy a Buick. What you get—what you pay—all the details of the deal open and aboveboard.
So we repeat: Check the price. Check the policy. Buick's the buy any way you want to look at it.

## U.S. Acts To Ease Tension In Palestine

### Britain And Israel Are Urged To Consider Plane Incident As Regrettable

WASHINGTON, Jan. 10.—(AP)—The United States urged Britain and Israel today to treat the shooting down of five British planes as a "regrettable incident only."

A statement by the State Department expressed hope that the incident will not interfere with Palestine truce negotiations expected to open Wednesday on the island of Rhodes.

The department disclosed at the same time that the United States was informed in advance, but not consulted on the movement of British forces to the Trans Jordan port of Aqaba. Press officer Michael J. McDermott declined to say whether any American objections were raised to the move.

TEL AVIV, Israel, Jan. 10.—(AP)—Israel will accuse Britain before the United Nations of violating the U. N. truce in Palestine, a source close to the government said today.

The cabinet decided yesterday to send instructions to Aubrey Eban, its representative at Lake Success, to lodge such a charge the information said.

The Israeli government twice has refused to accept a British protest against the downing of five RAF planes in the Egyptian border area Friday, because the protest was not addressed to the government. Britain does not recognize Israel as a state.

The government will not ask the Security Council to define Britain's "unilateral" position in the Palestine conflict most seriously, the informant added. The protest will refer to Britain's aid to the Egyptian army in the Sinai Peninsula and the shipping of British troops to Aqaba, Trans Jordan port of the Red Sea. It also will accuse Britain of large-scale arms shipments to the Egyptians, the source said. Meanwhile Britain concentrates troops and warships in the Mediterranean while the cabinet apparently was considering the Palestine problem and how far she would go in a show of force in the tense Middle East.

Britain's protest reserved the right to demand compensation for the lost planes and to fall possible subsequent action. British government sources said the next step may be a demand to the United Nations Security Council that Israeli troops stay within their boundaries and that the truce government pay for the five planes.

At the same time, a Council of action. Britain is reported by a

## Forrestal Resignation Is Denied By Ross

WASHINGTON, Jan. 10.—(AP)—The White House denied today that Secretary of Defense Forrestal is leaving the cabinet this week.

At a news conference, a reporter told presidential Press Secretary Charles G. Ross that Robert H. Allen has published a report that Forrestal's resignation would be accepted this week.

"That is untrue," Ross said. Ross said all cabinet members offer their resignations as a matter of course in advance of each new administration. He did not know whether Forrestal's resignation had been received by the President.

January 20 is the date of Mr. Truman's inauguration. The one cabinet change that Mr. Truman has announced—replacement of Secretary of the State Marshall by Dean Acheson—is effective on that date.

## ELLIOTT RECOVERS

NEW YORK, Jan. 10.—(AP)—Elliott Roosevelt is recovering satisfactorily from a minor operation at LaRoy Sanitarium, a spokesman for the private hospital said today.

The late President's son was operated on Saturday. His family declined to comment on his ailment.

## Orlando Man Is Injured By Fire At City Airport

Henry D. Harden of Orlando, installation worker for General Fuel Service, was severely burned Friday afternoon at 4:45 o'clock in an upper room of the Administration Building at the Municipal Airport, when in attempting to light a heater that had been converted from city to butane gas, an explosion occurred, causing a fire.

Notwithstanding shock and severe second and third degree face, neck, arm and hand burns, Mr. Harden escaped from the room, secured a ladder, climbed it and attempted to put out the flames with water from a garden hose, said Fire Chief M. N. Cleveland.

At the time of the explosion, Harden had finished lighting other heaters. The door of the room, located in the upper north-east corner of the building now being used as a hotel, was blown out by the explosion, windows were shattered, and the roof was damaged. Two doors down the hall was also blown in.

Mr. Harden was taken to Fernand Laughton Memorial Hospital and his condition, despite fever, was pronounced as satisfactory by Dr. Orville Barka, attending physician.

## Cold Weather Does Little Damage To Most Of State's Vegetables

JACKSONVILLE, Jan. 10. (Special)—"Florida's share of the nation's cold weather during the past week did very little damage to the majority of the vegetables and probably was beneficial to some as well as to citrus," William L. Wilson, Director of State Markets, reported today in his weekly review of State Markets' activities. "Coming at a time when the fall crop was about over and just before the spring crop, with a few exceptions, had advanced far enough to be affected."

"Peanut reports serious damage to the beans remaining from the fall crop—90 to 95 percent loss, but cabbage and celery actually benefited from the cold."

Peanut estimated damage to beans at about 40 percent, including an increase in price over the previous week—prices averaging \$4.00 per bushel. Cucumbers lost 75 percent damage with prices of \$1.50 per bushel on the commodity market. Beans, which suffered 75 to 75 percent damage, but average prices rose to \$4.50 per bushel. Lima beans suffered 30 to 40 percent damage, mostly to the bloom, with the average price being \$4.50 per bushel. Practically no pepper damage with prices averaging \$2.50 per bushel.

W. L. Warren, manager of the Pompano Market, reports good growing conditions following the cold, and crops showing good recovery.

## Court To Keep Hands Off In 12 Reds' Trial

### Supreme Court Declines To Consider Attack On Part Of Taft-Hartley Law

WASHINGTON, Jan. 10.—(AP)—The Supreme Court today refused to interfere with the indictment and scheduled New York trial of 12 leaders of the American Communist Party.

The 12 asked the Supreme Court to compel the government to produce a list of prospective jurors from which their trial jury may be drawn.

The Supreme Court today refused to interfere in the case at this stage. It gave no reason.

The 12, all members of the National Board of the Communist Party in the United States, were indicted on charges of conspiracy to advocate the overthrow of the United States government by force and violence.

The high court's usual Monday opinion session was continued today by order.

Along with refusing to interfere in the Communist trial, the high court:

1. Declined to consider an attack on constitutionality of that section of the Taft-Hartley law which obligates employers to file self-protective affidavits to furnish names of Communist Party members.

2. Dismissed a labor union appeal attacking the validity of Tennessee's "anti-labor shop" law.

## Escambia County Deals Death Blow To Open Gambling

ESCAMBIA COUNTY, Jan. 10.—(AP)—Escambia County today dealt a death blow to open gambling in the county.

The county grand jury today returned a report listing 15 clubs and 10 night spots where gambling was taking place.

This was followed by six indictments. One operator pleaded guilty and was fined \$10,000 and placed on probation for six years, another was fined \$2,000 and put on probation for four years, and a third was fined \$1,000.

Later in December six more indictments were returned. Trial dates for these and the three returned earlier will be set in Escambia County Court of Record Jan. 24.

## FBI Probes Attempt To Wreck Train

HUMPHRETT, Tenn., Jan. 10.—(AP)—An attempt to wreck a fast New Orleans-Chicago passenger train was reported here today by Police Chief Luther Ellison.

Ellison said the Axleless, north-bound Louisville and Nashville train, was derailed down last Thursday night only a short distance from obstruction which had been placed on the tracks near the railway station here.

The police chief said the federal Bureau of Investigation had been called in to assist police in investigating the attempt to wreck the train.

## County Home To Get Registered Colored Nurse

The County Commission Friday afternoon directed Mr. Francis McDougall county nurse, to try to obtain the services of a registered colored nurse to care for patients in the infirmary at the County Home.

The action was taken by the Commission as an economy move after it was pointed out by Mr. McDougall that a patient now being cared for at Fernand-Laughton Memorial Hospital is costing the County more than \$100 a month.

Mr. McDougall said that a patient may be obtained by employment of a registered colored nurse who might care for them at the County Infirmary, he pointed out.

The woman referred to as a patient will soon be able to leave the hospital, but will require hospital nurse attention, said Mr. McDougall.

Mr. J. W. Collier, director of the local State Welfare Unit, stressed the need for state legislation in getting back into effect a law discontinued about four years ago.

## Orange Prices Go To \$2.75 Per Box On State Markets

ESCAMBIA COUNTY, Jan. 10.—(AP)—Escambia county orange prices today reached a record high of \$2.75 per box, the highest since 1947.

## Seaboard Derailment Hurts Three People

MELROSE, Va., Jan. 10.—(AP)—Three men were injured today when an Orange-Bloomington Special was derailed here today.

The dining car waitress was injured and was removed by ambulance to a hospital in Fredericksburg, Va. 20 miles north of here. Railway officials described her injuries as slight. No passengers were reported hurt.

Cause of the derailment was not immediately determined. Two of the cars which left the tracks had a bit but some of the seven only had one or two wheels off.

Three dining car waiters were injured, including two diners, in the all-Pullman train.

## \$734 Million Is Requested For Waterways Projects In Next Year

WASHINGTON, Jan. 10.—(AP)—If Congress follows President Truman's recommendations, the country will spend a record \$734,011,700 on waterways projects in the year starting July 1.

In his budget recommendations submitted to Congress today the President suggested spending \$504,787,600 for flood control projects and \$229,224,100 for rivers and harbors works.

Most of this, he said, should go to projects already under way—\$116,741,100 for flood control and \$112,983,000 for rivers and harbors works.

A year ago the President urged Congress to allot \$662,310,000 for the country's waterways. The economy minded Republican House and Senate trimmed this to \$574,229,800 for 1948-49, which established a new high for this type of spending.

## \$282.82 Is Your '49 Budget Share

WASHINGTON, Jan. 10.—(AP)—Your share in the cost of government, as proposed by President Truman averages out to:

\$2.82 for the 12 months beginning next July 1 compared with \$2.94 preceding 12 months.

Based on an estimated population of 148,000,000, that is the cost for each living American man, woman and child of the government's operations at home and abroad as reflected in the President's budget message today.

The composite cost in the year ended June 30, 1948, the last full fiscal year before Pearl Harbor, was \$3.03 per person. The population then was only 147,050,000.

## Snow And Sleet Hit California In New Freeze

LOS ANGELES, Jan. 10.—(AP)—Snow, sleet, and frost descended on Southern California in what four years ago today heralded a new cold wave which threatens to add to the \$25,000,000 damage done by citrus fruit in last week's freeze.

Thousands of acres of citrus trees were damaged by the freeze. The damage is estimated to be \$25,000,000.
