WILL HOHENZOLLERNS RETURN TO POWER

OKLAHOMA SENATE SUSPENDS GOV. WALTON

OKLAHOMA EXECUTIVE SUSPENDED FROM JOB OF RUNNING THE STATE

WALTON GETS PINK SLIP
BY OKLAHOMA
SENATE

PUTS HIM OUT

Direct Charge Was Corruption
Which Was Only One of
Many Counts of Walton

(By The Associated Press)
OKLAHOMA CITY, Oct. 24.—An effort to file two executive orders with secretary of state was made by clerk from office of Governor Walton. Miss Una Roberts assistant secretary state refused to accept papers in view of resolution adopted by state senate suspending governor from office. Observers incident may be made basis for court action to test legality executive's suspension.

OKLAHOMA CITY, Oct. 24.—Governor J. C. Walton was suspended from office at 6:40 when the state senate by a vote of 30 to 1, adopted a resolution temporarily relieving him of his official duties, following the submission by the lower house of a bill of impeachment against him.

Immediately after the house transmitted article three, charging the governor with preventing the meeting of a grand jury that was to inquire into his official acts, and the senate accepted it.

The senate notified the house that it would convene at any time to receive additional impeachment articles that might be adopted later by the lower body and then adjourned. The house ended its sessions almost at the same time.

The impeachment bill charged the executive with entering into a "corrupt agreement" with Dr. A. E. Davenport, state health commissioner, to place T. F. Edwards, the governor's personal chauffeur, on the payroll of the health department at \$200 a month; and that thereby "certain moneys were diverted from the statutory object and purpose for which they were appropriated by law."

The suspension resolution was introduced by Senator William M. Gallagher of Muskogee. A committee was named to inform the governor and lieutenant governor of the action.

Lieutenant Governor Trapp is in Sapulpa, Oklahoma, and was notified by telephone. The committee delivered their message to the governor in his office.

The text of the resolution suspending the governor follows:

"Whereas,

"The House of Representatives of the ninth Legislature pursuant to the provisions of the constitution has filed with the Senate articles of impeachment,

"Whereas,

"J. C. Walton, governor of Oklahoma, is charged with offenses made grounds of impeachment by the constitution, and,

"Whereas,

"The filing of the articles with the senate automatically suspends J. C. Walton, as governor and compensation ceases upon the lieutenant governor; "Now therefore, be it resolved by the Senate that the governor and lieutenant governor be advised as to their duties in this event and that the secretary of the Senate notify the governor and lieutenant governor of the proceedings thus had and to present to each of them a copy of this resolution."

The Senate will resolve itself into a court of impeachment today, it was said, Chief Justice J. T. Johnson of the state supreme court, will preside. Meanwhile, the House is to continue its session.

Troops Routed Chinese Bandits On Train Today

Attempt To Capture Train But Were Frustrated

PEKIN, Oct. 24.—Troops routed several hundred bandits who attempted to capture passenger train on Peking Hankon railway was it was passing through northern part of Honan Province northward. The train backed out of danger under fire. No passengers hurt.

SHERIFF HAND SPIRITED AWAY MAN WANTED

By The Angry Mob and
Put Him Where He
Will Be Safe For
Some Time

It seems to be the job of Sheriff Hand of Seminole to get the prisoners from other counties and from this county that are wanted by the mobs and to get them out of the county and away to safety. The big sheriff is constantly trying to have the law take its course and to outwit the crowds of men who would take the law into their own hands. Regardless of how he may feel in the matter it is the sheriff's duty to protect the prisoners and this is just what Sheriff Hand does. Monday night when he heard that the mob was coming over here to take out the man named Brown who was alleged to have killed a taxi driver in Daytona Sheriff Hand spirited the prisoner into another county as soon as he found out that the mob from Daytona might come over here and blow up or burn up our nice jail. Brown was left here for safe keeping by Sheriff Morris of Volusia county and it was the duty of Sheriff Hand to look after him and he did and the prisoner is safe for the time being in some of the other counties—just which one is the question and Sheriff Hand will not tell.

Sweaters you need this kind of weather. Churchwell's have them. See their advertisement.

LOANED MONEY TO DIRECTOR FORBES IS SAID

Sought Contracts With
Government At
Time

(By The Associated Press)
WASHINGTON, Oct. 24.—Principals of the Thompson-Black Company loaned \$5,000 to Charles R. Forbes while he was director of the Veterans Bureau at a time when the company was seeking a contract for construction of government hospital, Elias H. Mortimer of Philadelphia, former agent of the company testified today at the senate committee investigation of the bureau.

WATER WORKS FOR SANFORD WILL BE THE NEXT STEP FORWARD FOR A GREATER SANFORD

Test Wells To Be Driven And Adequate Water Supply Found

The City Commissioners of Sanford at their last meeting awarded a contract to the Layne-Southeastern Company, Inc., of St. Petersburg, to immediately begin the sinking of test wells as the next step in an effort to secure soft water for Sanford. Joseph E. Craig, a special engineer engaged by the city for this purpose, in his report submitted to the Commissioners, advised that a supply could be secured from shallow wells, if sunk in proximity to the many lakes adjacent to Sanford. The company to whom the contract was originally awarded guarantees obtaining a supply adequate for a population of twenty thousand and the water will be absolutely pure and soft. Mr. Craig has completed his appraisal of the utility plants owned by the Southern Utilities Company, and in addition, has submitted the costs for the construction of a new water works plant. The question of municipal ownership of public utilities in Sanford is rapidly drawing to a head and definite action on this matter cannot be further postponed.

A meeting of the Special Committee of the Chamber of Commerce will be held this week. The Committee will make an exhaustive study of this matter and make known its recommendations to the Commissioners, and it is proposed to vote a bond issue within the near future and in all probability, the issue will be for the construction of the water works system. The figures compiled by Mr. Craig show that but sixty-two per cent of the buildings within the city limits have fire protection. Mr. Craig estimates that the cost for a

CITY PLANNING COMMITTEE HAS BEEN APPOINTED HAVE BIG WORK AHEAD

Will Study Resources, Possibilities And Needs of Sanford

The City Planning Commission for Sanford, which was authorized at the last session of the Legislature, has been appointed by the City Commissioners, appointments as recommended by the Chamber of Commerce being made. The City Planning Commission consists of five members, two of whom are appointed for a term of two years. The mayor is an ex-officio member. The successors of the original appointees will be appointed for a term of two years. The members of the City Planning Commission are F. T. Williams, county and city engineer, E. A. Douglas, county clerk, S. O. Shinholser, contractor, G. D. Bishop, manager of the Crown Paper Company, and Mrs. Harry Heeren, prominent in the Woman's Club in connection with civic beautification work. The members of the board serve without pay. As soon as practicable after official notification of their appointment, a meeting will be held to elect a chairman and also a secretary, as well as arranging for designated dates for subsequent meetings. The board, with the approval of the City Commissioners, is authorized to employ any assistance which in its judgment is necessary.

Its work will be to study the resources, possibilities, and needs of Sanford, and prepare plans and maps for the systematic future development and betterment of the city, making changes in same from time to time when change is deemed advisable. The board is also authorized to sub-divide the city into districts or zones and have maps and plans prepared of such districts. It will have the authority to specify and govern the height, area and manner of construction of buildings which may subsequently be constructed in the different zones or districts, and designate the purpose for which the buildings and premises therein may be used. Its broad powers include the establishment of rules governing building lines. Any recommendations by the board are submitted to the commissioners for the latter's approval and adoption. The bill which authorized this commission also empowers the city commissioners to make provision in the budget for carrying out the provisions of the act; and also empowers the city of Sanford to exercise all its police powers in enforcing ordinances containing recommendations made by the City Planning Commission, which may have been approved by the city commissioners. The City Planning Committee of the Sanford Chamber of Commerce deserves fully the credit for the success it has achieved in giving to Sanford an opportunity for developing along comprehensive lines. With the introduction of the bill by Representative Forrest Lake and its final passage, Sanford received the distinction of being the first city in Florida applying for and receiving legislative authority to zone the city. The newly appointed commission at its first meeting will, no doubt, decide whether a professional city planner is to be engaged to assist in this work.

GOOD TALKS AT KIWANIS MEET TODAY

Club Will Put on Local
Talent Play in Near
Future

Today's meeting of the Kiwanis Club was opened with the usual exercises and the first business transacted was the decision to join with Orange county in the work of beautifying the highways of Seminole county.

A proposition from Manager George Brockhahn, of the Milane Theater to put on a local talent play for the benefit of the club was favorably acted on. Forest Lake and Schelle Maines immediately butted in and offered themselves for the parts of Romeo and Juliette, but their offer was kindly but very firmly turned down. The chair appointed Dr. Gardner, Sherman Lloyd and Ed Lane as the committee in charge of the entertainment which will be pulled off at a date to be announced later.

Connelly and Caswell had charge of the luncheon and, although Connelly was absent—he said he was in DeLand—Caswell had provided a program that met with the entire approval of the club. Dr. King, of the Baptist church, spoke on the motto of the club "We Build." He told of the Sunday school class being organized in his church to take care of the strangers who come to Sanford during the past few months and asked the aid and cooperation of all Kiwanians to see that all strangers were given a cordial welcome to our midst. Dr. Brownlee, of the local Presbyterian church, spoke along the same subject, telling of the dependence of one person upon the other and handled his subject in his usual masterful manner. He was also a talking advertisement for Sherman Lloyd's shoes and told all about how it was made and where the material in it came from. The writer does not know how much Lloyd came across with but the ad was worth it. Both speakers gave good, wholesome interesting talks which were greatly enjoyed by their hearers.

The writer cannot help saying a few words about the excellence of the menu provided by Mine Host Falck. It was all that could be desired and elicited many favorable comments from the members. The service also was greatly improved—the writer got his cup of coffee on time and without any scrapping.

Clean Up Week For Ft. Myers Last of October

FORT MYERS, Oct. 24.—The Chamber of Commerce, real estate board, Kiwanis and Rotary clubs, are collaborating with the other civic organizations of Fort Myers to make a success of Clean-Up Week here from October 29 to November 3. Organization of forces will be perfected at a meeting at the office of the Chamber of Commerce Thursday, October 25.

Look for Yowell's big advertisement in this issue calling your attention to the many new suits and coats and cloaks of all kinds just in from the markets and all of them right up to now. Yowell's have never sold so many suits and cloaks this early in the season and they are ordering a new shipment every few days in order to keep up with their constantly increasing orders. The reason for this is the excellent garments they are selling and the very low prices they are putting on them.

Another way to avoid insomnia is to tell your friend that you never sign notes for anybody.

FORMER CROWN PRINCE MAKES SIGNIFICANT TRIP IN CONNECTION WITH REICH

Third Degree Forgery
Charged To Hollway
Gets Five Years

Counterfeited Over Million In French
Certificates

ST. LOUIS, Oct. 24.—George V. Hollway was found guilty of third degree forgery in connection with counterfeiting of \$1,500,000 interim certificates for French government bonds and his punishment fixed at five years imprisonment.

Pinillas Federation of Woman's Clubs Will Cooperate

PASS-A-GRIFFE, Oct. 24.—Dr. O. T. Woodley, secretary of the Florida Education association, and editor of the State Educational Journal, will speak on plans of the state board of education, when the Pinellas county Federation of Woman's clubs holds its first meeting here next Friday. Mrs. Laurie Jean Reid, head of the bureau of child welfare of the state board of health, and County Judge John U. Bird, will be among the other speakers. Judge Bird will talk on social and industrial laws for women and children.

First Fall Of Snow In Southland

ASHEVILLE, N. C., Oct. 24.—Asheville tonight was covered in a blanket of snow and despite the predictions of the local weather bureau, the temperature is descending. The heavy snow fall breaks all previous records for this time of the year, although traces of snow have been reported here earlier in October. It was estimated that snow fell for a depth of two inches. Sleet and rain also fell during the afternoon while winds of high velocity added to make it the coldest day of the fall season.

Majorities may not always be right, but they get the benefit of the doubt.

RHINELAND MOVEMENT IS FAILING

Has Spent Its Force But
Hamburg Strike
Proceeds

(By The Associated Press)
DUESSELDORF, Oct. 24.—The Rhineland Republican movement has spent its first force, according to meagre reports received over crippled wire system, but the situation is still confused. The republicans took few additional villages and towns yesterday and last night, but cleared out of Coblenz, their "capital" and Mayence and reaction is apparent in a number of towns they still hold.

BERLIN, Oct. 24.—Heavy fighting is reported in advices from Hamburg this morning, to be proceeding in populous Barmbeck district, working class suburb, northeast of the city. Reports from Bremen said Proletarian militia tried to force a general strike in that port. They closed the dock yards and Vulcan Company, but otherwise response was half hearted.

BROUGHT VERY IMPORT-
ANT NEWS CONCERN-
ING ACTIVITIES

MILITARY PARTY

And Uprising In Various Parts
of Germany Assume
New Shapes

(By The Associated Press)
DORN, Holland, Oct. 24.—The visit which the former Crown Prince Frederick Wilhelm of Prussia is now making at Dorn castle is regarded as having considerable significance. According to information from several reliable sources and from persons close to the former Kaiser, the visit is connected with the return of Princess Hermine from Reich whence she brought very important news concerning the activities of the National military party and the chances of the return to Hohenzollerns.

COBLENZ, Oct. 24.—The pendulum in the bitter struggle, which has been swinging since Sunday between the Separatists attempting to install a Rhineland republic by force of arms and nationalists, communists and certain elements of the workmen's unions, opposing such action, is swinging back forth, with alternate advantages to the contending sides. But to the neutral observer it appears that the republicans have made little headway since their green, white and red was first raised over Aix La Chapelle's city hall three days ago.

By capturing Duisburg and Coblenz tonight, thus gaining their first foothold along the river Rhine, the Rhinelanders scored what was regarded as a telling blow until news was received that they had been expelled from Munchen-Gladbach and other previous occupied points and that their adherents were besieged in the city hall at Aix La Chappelle, with surrender imminent. The surprise element has disappeared from the movement, and the opposition of the nationalists has crystallized and is gaining strength. The presence of French troops has been of service to the republicans, because these troops, while observing strict neutrality, have proved a tower of strength to the Separatists as they only intervene when blood is shed, and the letting of blood occurs only when the opponents of the Rhinelanders attempt to prevent them from occupying public buildings as at Weisbaden and Mayence where the police have been disarmed.

The Separatist leaders, while studiously refraining from intercourse with the military leaders, General Degoutte and General Mordacq at Weisbaden, have been in constant communication with the inter-allied Rhineland commission here. The reply of Mr. Tirard, president of the Rhineland commission, to the emissaries from Dr. Dorten and Joseph Matthes, in which he notified the Separatists that he would hold them responsible for keeping order, is regarded in certain quarters here as virtually amounting to recognition.

Martial law has been declared at Weisbaden, the French troops taking control, as well as at Bonn, at the request of the burgo-master.

The principal functionaries at Coblenz refusing to adhere to the movement have been expelled; the others are under close surveillance, while a majority of the population is undecided and is awaiting developments.

Late this afternoon conflicting reports were current relative to the occupation of Ehrenbreitstein Fortress, across the river. This could only be occupied by the Separatists with the permission of the French, as a

Do your Christmas shopping early if you expect to send any gifts through the U. S. Mails.

That bunch of hold up men who shot the young lad in Daytona and threw his body out on the road should be hung by the neck until dead and they should be hung right now.

Orlando will have the circus Saturday but Sanford will have the football game between Rollins and Piedmont College. This will be a good one and should attract a big crowd.

Well, Mr. Governor Walton, you were not so large a man as you thought you were and you should always remember that you owe your office to the people and not to yourself. A little impachment here and there is not a bad thing at all.

The fifty mile northeaster that hit New York yesterday will make those good people think about Florida and we can look for a big bunch from this time forward. This winter will be a cold winter and this means a bigger tourist crop. Get ready for them by fixing up some rooms. Sanford can take care of hundreds of tourists and we should go after them.

Sanford needs more apartment houses and dwellings to take care of new people rather than more sturd rooms. We need more new people to give us new business and new money. If some one here could erect a half dozen real apartment houses it would mean several hundred people coming here to live and we are turning them away every day because they cannot find apartments close in.

SANFORD—THE UP TO DATE CITY.

Sanford is probably improving faster than any city in the state of Florida and this is going some when you note the fast growing cities of

this state. This takes in the fact that Sanford has not gone ahead in the past ten years as it should have done but once awakened this city has made wonderful strides in the past two years. Now that we have awakened we are doing big things and we are doing things that many other growing cities in the state are emulating. The City Planning and City Zoning ideas have been followed all over the state and our bills in the legislature were duplicated by many members of the house from other counties. This city will benefit by all of these new ideas and the Sanford of the future will be vastly different from the Sanford of the past. We intend to make this a big city and yet withal a beautiful city and this can only be done by the earnest cooperation of all the citizens—men and women—and Sanford is getting just that. Making a city is like building up a business—there is a turn in the road which taken either means success or failure and there are times when one must go the limit in finances or fall for the lack of nerve and faith in the business or in the making of a city. Improvements cannot be made without spending money and this spirit of false economy has held Sanford back in the past but it will not hold it back in the future for Sanford will have these improvements and Sanford will grow accordingly. Those folks who kick on high taxes and then go to neighboring cities and rave about the growth and the beauties of live towns should always remember that it takes money to make money and it takes money to make cities beautiful and prosperous and the money must come from taxes and the taxes must come from the people.

Therefore when it comes to making Sanford greater we intend to make it for the time is here when Sanford must either go forward with rapid strides or drop backward since no city or business or individual can stand still. It will take the united effort of all our citizens to put in force the many improvements contemplated and the biggest item before us today is the owning of the public utilities. This is a big question and one that needs all our cooperation and strength. We want plants that will take care of Sanford the next twenty-five years at least and we want the best plants that money can buy. Voting bonds for public utilities is voting bonds for something that will return to you in many ways and especially in financial ways. The utility plants will reduce taxes and utility plants are really the only means of reducing taxes outside of getting in new people to help pay the taxes. Utility plants will bring the money back to the taxpayers and utility plants all over the United States are paying dividends to the taxpayers where the plants are owned by the citizens. At present we are paying too much for this service. At present the water while pure is not the kind of water that the people or the visitors want. At present we are not getting the service that this city requires and only by the municipal ownership of the utilities can this be accomplished.

And municipal ownership means of all the plants and not just of the water plant and the people will not listen to any talk of owning just one plant. They want them all or none.

NATIONAL TAXATION POLICY.

Collier's Weekly has presented for discussion the national taxation policy proposed by a notable business leader and summarized below:

1. Taxes should be planned primarily for their social effect.
2. Every person should be encouraged to earn and invest as much money as possible during his lifetime.
3. Large fortunes should be broken up at death.
4. Abolish income surtaxes. They discourage productive effort.
5. If we do this, tax-exempt securities will have no special value for tax-dogging. This would make unnecessary the amendment providing against tax exemption.
6. Put a graduated tax on all gifts and inheritances, to be computed on the amount received by each beneficiary.
7. Exempt small gifts and legacies; tax lightly up to \$250,000; legacies of \$10,000,000 might pay as heavily as 50 per cent.
8. To prevent sudden depreciation in values, legacies of large sums should be given 10 to 15 years in which to pay the tax.

A MARRYING INCOME.

On what income can a man afford to marry? Just now this question is much mooted. We are in an era of high prices, extravagance and self-indulgence. For this reason the amount supposed to be necessary for a young man to support a wife is placed at a higher figure than formerly. And, after all, it depends upon the young man and the young woman he is to marry. A learned professor recently advised young men not to hazard marriage on an income of less than four thousand dollars.

The Miami Herald, commenting on this, says it would be interesting to know just what proportion of the young men of the country, single, but of marriageable age, are receiving four thousand dollars a year. It is certain that the proportion is small. If no one married on less the parsons could go out of the marrying business.

The truth of the matter is that no income is a safe marrying income for some people, and any income is safe for others. Whatever the declaration of independence may say about people being free and equal, and all that pleasant sort of thing, there are and always will be social classes. There will never be a time when the money demands on people will be the same for everybody. There are undoubtedly people who cannot live on four thousand dollars a year. There are others who live very comfortably and happily on much less than that. The minimum for a family is often less than half four thousand, and thrifty folk are getting along very nicely on twelve or fifteen hundred dollars, many times getting more out of life than their wealthier neighbors.

"The only safe basis for marriage," adds the Herald, "is a common willingness to work and save and live and laugh together."

LEGIONNAIRES GO ON RECORD FAVORING LAW ENFORCEMENT

Some of the paper seem to doubt the attitude of the Legion on the K. K. K., among them being the Tampa Tribune, which says that the vote was only 851 to 142. What more emphatic argument would you want as to the position of the Legion? The Legion boys, as well as every other red blooded American citizen especially in the west and northwest have awakened to the fact that something must be done to stem the tide of immorality and tendency that is sweeping the country. These same people realize also that the officers are not able to cope with the situation in most places and these same men, many of them Legion members, are tired of the insults that unprincipled men are heaping upon women and the west has taken it up and therefore the K. K. K. is sweeping that section like wild fire. A retired army officer made the statement in Orlando Friday before the Orlando Kiwanis club that the laws of the country do not seem able or sufficient to meet the situation and it remained for men who have any sense of chivalry left to assume the initiative and help clean the condition out. Oklahoma is passing through just such a stage now and has about conquered, putting the disloyal governor into the anarchist class where he belongs and it is all brought about because men with real rich blood in their veins have gotten tired of the insults heaped upon the women of Oklahoma unnoticed by many of the officers of the law in that state under the control and orders of their despotic governor allowing the condition to grow beyond their control or interest, until action was demanded and it was taken in face of all that the governor tried to do to stop it. Whether it was the K. K. K. or just plain, decent citizens, tired of this sham and

barrenness of the unprincipled men of that state, makes no difference, but here is this to say that if the condition continues the Tribune and every other paper organization that objects to men coming to the defense of the women of the land, will find pretty soon that the situation is almost unanimous instead of 851 to 142.

Whether the Klan is an issue or whether it is doing good or bad cuts no ice here but the principles for which it stands count for something today and while there are some things which may not meet the approval of everyone, yet there is not a principle advocated by that organization that is not the principle of every true, loyal, 100 per cent American today. There are some things which we do not approve as sanctioned by the Klan or that they don't do to suit us, but if there ever was a time for either men or organization to do something for the perpetuity of the nation and for the maintaining of the principles upon which this government was founded, it is right this very time and today, and whether they come from the K. K. K. or any other boys or group, we believe in stating that they are right and will be the only means by which this government will ever continue to progress and climb to the heights to which we all hope and aspire for her.

Yes, we would say that the "hooded the Legion and that a vote of 851 to 142 is pussy-footing and a very small majority. Maybe next time they will make it 999 to 1.—Lakeland Star Telegram.

TALLAHASSEE

Time was when the word Tallahassee meant everything that is slow out of date and non-progressive. For years, centuries, the city in the hills of Leon failed to make progress in keeping with the state. The people were content for the town to remain as it had always been.

A new day has dawned. A new, progressive citizenship has been born and the older citizens have been invigorated with the enthusiasm of the native younger generation and the newcomers.

Tallahassee still has the rose covered verandas and the many varieties of flowers; the historical spots are still preserved and held sacred, and the altogether charming men and women are still there, but the Tallahassee of today is as different from the Capitol City of twelve years ago as a paved road is different from a sandbed.

The Florida State College for Women is enough to inspire any people to their best efforts, and it was this institution that first aroused them. The avenue leading to the college was paved, and then other improvements were gradually insisted upon.

During the present year the new capital and the Cherokee Inn have been completed, the Leon hotel remodeled and a number of business houses constructed and remodeled. In addition to this there has been a united program of repainting and rebuilding of old residences and many new ones now appear where vacant lots were a short while ago.

When the present paving projects are completed, Tallahassee will be the best paved town in the state for its size.

What an object lesson to all West Florida towns is the new Tallahassee!—Pensacola Journal.

SERIOUS BLADDER TROUBLE
 "Could not stand nor sit and was forced to cry out from intense pain," writes Henry Williams, Tarkio, Montana. "The doctors said I had inflammation of the bladder and an operation was necessary. Tried Foley Kidney Pills and improved at once. Tell all my friends about 'Foley Kidney Pills' and perhaps, as in my case, a dangerous operation." Bladder and kidney trouble demand prompt treatment. Foley Kidney Pills give quick relief.

Ford Cars Lower Effective On Second According To Plan

DETROIT, Mich., Oct. 24. — Ford cars are today at a new low price level through an announcement effective Oct. 2, made by Edsel B. Ford, president of the Ford Motor Company, Detroit.

This reduction in the prices of Ford cars and trucks is in line with the well established policy of the company. It is notable also that this decrease closely follows the introduction of many changes and improvements throughout the Ford line.

The new list prices on Ford cars f. o. b. Detroit are as follows: Runabout, \$269 to \$285; with starter and demountable rims, \$350; touring car, \$298 to \$295; with starter and demountable rims, \$380; coupe, \$590 to \$525; four door sedan, \$725 to \$685; Ford chassis, \$235 to \$230;

one ton truck chassis, \$380 to \$370. The new prices apply to the Ford Weekly Purchase Plan. Persons enrolled under the plan and who have not yet taken delivery of their cars automatically benefit by the reduction in prices.

The last price reduction by the Ford Motor Company was made about one year ago, October 17th last, bringing the prices of the Ford cars at that time to the lowest level in the history of the company.

The big reduction in the price of the four-door sedan brings it within

reach of a large field of buyers. This type sedan was introduced in the Ford line a little over a year ago and because of its low, graceful lines, its roominess and its attractive fittings, it at once came into high favor as an enclosed car for family use.

The price of the Fordson tractor is increased from \$395 to \$420 f. o. b. Detroit.

No change is made in the price of Lincoln cars and none is contemplated, a company announcement says, stating that the Lincoln prices are considered fair in view of the num-

ber of improvements which have been made in the cars.

NEW HOME BUILT FOR OLD PEOPLE; CAMPAIGN IS ON

TAMPA, Oct. 24.—A new home for old people is the object of a campaign being conducted here to raise \$100,000 by January 1, next. The committee directing the campaign is composed of Col. Peter O. Knight, Col. W. F. Stovall and D. Collins Gillette.

STANOCOLA
Polarine

Is Made In Four Grades

but in only one quality. Different types of motors require different weights of lubricating oil, and in order to supply the finest quality of oil for every motor, Polarine is manufactured in the following weights: "Medium," "Heavy," "Heavy X," and "Heavy XX." The only difference between these grades is in their "body"—all of the oiliness found in the Heavy XX is also to be had in the Medium and other grades. There are two ways of being sure to get the right grade of oil for your motor—first, demand Polarine; and second, consult the chart of recommendations (on display at filling stations) so that you may be sure to get the proper grade for your car.

One Of These Grades Is Particularly Suited For Your Car

CROWN GASOLINE

Things Worth While Picked Up Along the Way; Some From Pens Long Ago Laid Down; Some From Pens of Later Days.

A THORNLESS ROSE

Be kind. The fault that looms so large
 In someone else
 May not be yours, but to your charge
 May lie one worse.

Be gracious. It is better far
 To overpraise,
 Than thoughtlessly some soul to mar
 With sharp reproach.

Be merciful. For after all
 Is said and done,
 Who thinks he stands may shortly fall
 And mercy need.

Be careful. Unwise speech will wing
 Both fast and far
 To unsuspected reals and sting
 With hurtful wound.

Be fair. Your judgment does not close
 The whole account;
 Another finds high praise for those
 You criticize.

In fine, the love that searches long
 Some good to note
 And helps to fill the world with song,
 Is like the rose.

'Tis true that on one bush there grow
 Both rose and thorn;
 Yet, in life's garden, kind hearts know
 A thornless rose.

—William Forney Hovis, in Kansas City Star.

Florida Produce During Past Season Filled Many Cars

83,942 Car Loads of Produce Were Shipped.

JACKSONVILLE, Fla., Oct. 24.—A total of 83,942 carloads of produce were shipped out of Florida during the 1922-23 season, according to the annual report of L. M. Rhodes, state marketing commissioner, which represents a decrease of 551 carloads as compared with the preceding season.

Citrus fruits, oranges and grapefruits showed substantial increases.

NAVY DAY CELEBRATION WILL BE CELEBRATED IN FLORIDA CITIES

MIAMI, Oct. 24.—Celebration of Navy Day here next Saturday, October 27, promises to be of more than ordinary interest.

DETROIT CAPITALIST DIES

RICHMOND, Va., Oct. 24.—Charles C. Jenks, Detroit, Mich., capitalist, died at a hotel here today of heart trouble.

Correct this sentence: "If you wish to shave dear," said the wife, "you'll find an embroidered linen towel in the top drawer."

New Park Commission Appointed Yesterday By City Commissioners

Sanford's new park commission was appointed by the City Commissioners at their meeting yesterday.

MEANS SECRETARY PLEADS NOT GUILTY

NEW YORK, Oct. 24.—Elmer W. Jarnecke, secretary to Gaston B. Means, indicted yesterday for wholesale bootlegging operations, today pleaded not guilty to three counts connecting him with his employer's alleged illegal activities.

ARMISTICE DAY AT PALATKA

PALATKA, Oct. 24.—Invitations to civic organizations, community clubs, and the like have been issued by the committee in charge of the Armistice Day observance here.

There is another nice thing about spending Sunday in meditation and prayer. You don't spend much else.

Sponsors Appointed For Confederate Reunion At Quincy October 17th

TALLAHASSEE, Fla., Oct. 24.—Announcement was made today by Col. W. A. Rawls, adjutant-general and chief of staff, Florida division, United Confederate Veterans, that members of the sponsor staff, appointed several days ago, had accepted the invitation to sponsor the Florida Confederate reunion at Quincy, October 17 and 18.

"Your commander takes pleasure in announcing to you that the following loyal ladies have consented to serve his Sponsorial Staff at our coming reunion in Quincy, October 17th and 18th, and they will lend to that occasion the charm and inspiration of their presence.

"Matron of Honor, Mrs. E. L. Carney, Ocala.

"Chaperone of Honor, Mrs. John Z. Reardon, Lloyds.

"Sponsor, Miss Elizabeth Munroe, Quincy.

"Maid of Honor, Miss Mary Maxwell Lowry, Tallahassee.

"Maid of Honor, Miss Elizabeth Gerald, Tampa.

"Maid of Honor, Miss Idyl King Warriner, Jacksonville.

"The Confederate woman," the general order continued. "Imagination cannot dwell too tenderly upon a theme so inspiring. Reverence cannot linger too fondly at so pure an altar. It took the civilization of an Old South to produce her; and it has been well said that history has produced no counterpart of the Confederate woman.

"Grateful nations raise monuments to their heroes, but woman's tears keep vigil for the vanquished."

By order of J. H. Harp, Major-General, commanding Florida Division, Confederate Veterans.

Official: W. A. Rawls, Adjutant-General and Chief of Staff.

PREVENTS INFECTION

The greatest discovery in flesh healing is the marvelous Borozone, a preparation that comes in liquid and powder form. It is a combination treatment that not only purifies the wound of germs that cause infection but it heals the flesh with extraordinary speed.

OKLAHOMA EXECUTIVE SUSPENDED FROM JOB OF RUNNING THE STATE

(Continued from page 1) thus consideration of the remaining 20 counts in the impeachment indictment.

Governor Walton was the last to leave the darkened state house last night. With a small group of friends he walked slowly down the stairway to the main floor.

"We still consider you our governor," one of the group said quietly.

The governor had no answer.

Only a few lights cast isolated rays through the long hall as the party moved toward the door. The governor halted briefly to read a copy of the Senate resolution suspending him from office which a press representative handed to him.

The vote was 36 to 1 for the resolution," the governor was told.

"What voted for me?" he inquired in a low voice.

"Senator Barker."

The executive inquired about three other votes, all of which had been cast against him.

"Will you have any statement to-night, Governor?" he was asked.

"Not a word," the executive replied.

A heavy cloud hid the moon and J. C. Walton was swallowed in the darkness, as he waited silently for his automobile.

The vote on the impeachment charges in the House came unexpectedly. After most of the session has been devoted to reading testimony taken by the investigation committee and one effort to suspend the oral presentation had been voted down, the House suddenly changed its course, cut off the reading and plunged into consideration of the second article in the impeachment bill. Consideration of article 3 followed at once. Article two, the second of the 22 specific charges against the governor made in the committee report, was approved without discussion by the House. It alleged that Governor Walton had diverted state funds to his own use by placing his private chauffeur on the state health department payrolls.

After one of the stormiest sessions it has had the lower house of the legislature adopted a resolution proposed by Representative Callahan, supporter of Governor Walton asking for investigation of who financed the recent attempt of house to meet when military dispersed the members. In warm exchange of debate Callahan said he would prove if given a chance that Ku Klux Klan financed the attempted meeting. In meantime both Governor Walton and Lieutenant Governor Trapp arrived at the capitol. The lieutenant governor said he intended to ask for opinion from the attorney general as to legality of the executive's suspension and be guided by it in the matter of his taking office.

FORMER CROWN PRINCE MAKES SIGNIFICANT TRIP IN CONNECTION WITH REICH

(Continued from page 1) large number of occupation troops are stationed there. As the situation stands tonight, the Separatists have a precarious hold on Coblenz and Duisburg; they are fairly well settled in Wiesbaden and Bonn; are solid in Hoechst, in the vicinity of Bad-Ems, Mayen and a few other villages but are losing ground at Aix La Chapelle where street fighting is going on.

According to reports reaching here the dead at Aix La Chapelle number nearly a score with sixty or seventy wounded, and the Separatist garrison is on the verge of capitulating.

It's stated Hermine herself is displaying great activity and that all her keen intelligence is directed toward object and hope of becoming empress. Moreover quite recently an officer of high rank from Dresden and political personage from Munich have been guests of former emperor. The Dutch have redoubled their guard about castle.

THE MOST BEAUTIFUL CAR IN AMERICA PAIGE

Luxury's Limit in Comfort, Performance 5-Foot Rear Springs—Unusual Power for Weight

THE thrill of eager performance—the luxury of rarely equalled riding ease—the satisfaction of smart appearance—all are yours in 5 or 7-passenger Paige Sedans.

Think of the riding ease of the Paige Sedan, with its rear springs more than 5 feet long, snubbers front and rear, and 131-inch wheelbase. However rough the road, no hostile bumps can ever pass these defenders of your comfort. And deep, softly cushioned seats invite relaxation. Rarely will you find a car that rides as smoothly as your Paige. Never a body squeak or rattle to annoy, for double strips of patent leather keep metal from touching metal or wood.

Both 5 and 7-passenger Paige Sedans are luxuriously finished—rich upholstery; silvered fittings; silk shades; elaborately fitted vanity case; walnut instrument board with all instruments under one oval glass. Nothing has been forgotten that adds to comfort and convenience. All those conveniences you must buy for a fine car, come with your Paige at no extra cost. See the list below. Compare the Paige with other line cars—add

the cost of this equipment to their prices—and you will realize the startling value of Paige. Truly Paige buyers benefit by the saving in Paige overhead, made possible by tremendous volume on the Paige-built Jewett. The car itself proves the saving for you.

Drive the Paige yourself to compare its performance with any car you've ever driven. You will be amazed at your perfect mastery over the great power of the smooth, silent Paige motor! Here is willing ability, under the daintiest guidance, to outperform most any other car. Pass others on the road if you like—leave them behind in traffic—flit easily up hills in high where others shift and stall.

Crawling through crowded streets at 2 miles an hour, throttle controlled, or flashing over the open roads as fast as you will ever want—Paige obeys your slightest command. Ball-bearing steering spindles—gentle, non-stalling clutch—quiet, easy gear shifting—give perfect performance under any guidance. Try it yourself. Drive the Paige in a demonstration. Call us, any time. (507-B)

Rollins To Play Piedmont Here Saturday

Tars Will Meet Piedmont Eleven On Hood Field Saturday.

That the Rollins College-Piedmont football game originally scheduled for Orlando, will be played in Sanford, this Saturday, is an announcement that will bring joy to the many lovers of the grid game in this section.

Hearing that there was some trouble in staging the game in Orlando because of conflicting dates between the Orlando High and Rollins schedules, a representative of the Herald issued an invitation to the Rollins Athletic authorities to play the game here and announcement of the acceptance was made today.

Rollins boasts an exceptionally strong team this year and while they lost to Florida by four touch-downs, three of these were made in the first ten minutes of play, before the Tars could "get going." After that Florida had her hands full as evidenced by their failure to score again until the last of the third quarter. Coach Van Fleet of Gator fame acknowledged that the Tars were far better than the score indicated and admitted that they had thrown a scare into him in more than one occasion. That Florida has the strongest team in the South there is little doubt and the showing Rollins made against them was exceptionally encouraging.

The Piedmont team is the strongest team that Piedmont has shown in the past ten years. Their line runs 180 pounds the back field runs 170 and has the reputation of being one of the fastest back fields in southern football circles. They held the heavy Camp Benning team to one touch-down, Camp Benning plays Auburn, Georgia Tech and all the large universities in the south.

"COME ON OVER"—SOMETHING OUT OF THE ORDINARY

Rupert Hughes has hit the bulls-eye of fun again with his new Goldwyn photo-comedy, "Come On Over," which will be shown at the Princess Theatre tonight—Wednesday. It is a companion piece, for its comedy, to his "Scratch My Back," and its characters are as human and lovable as those in his other master-piece, "The Old Nest." Its comedy is wholesome and persuasive and infectious, and through its course flows a vein of Irish wit that only Mr. Hughes has been able to bring to the screen in all its delightfulness.

Its story is simple, but has the freshness and breeziness of a sunrise over one of Ireland's greenest hills. The story starts in Ireland but soon jumps to New York and deals with the romance of Shane, who leaves his sweetheart, Moyna, behind when he seeks his fortune in the new world. When they meet in New York after three years, their love affair runs anything but smoothly, until a contest of old Irish dances is staged. The dance music gets into their blood, and their feet lead them together in the dance, and, once in each other's arms, everything is straightened out.

FLORIDA BASKETBALL SQUAD PLANS YEAR WITH MANY TEAMS

GAINESVILLE, Fla., Oct. 24.—Plans already are under way for the University of Florida's basketball squad for next winter, with games tentatively agreed upon that will take the team over much of the territory it covered last season. The schedule tentatively agreed upon so far includes games with Mercer, Georgia Tech, University of Georgia, South Carolina or Furman and two games in North Carolina, one at Macon and one at Albany, Ga.

This year's team, according to observers, looks to be superior to last season's five and prospects look bright for a winning season.

Opening probably in Macon on February 4 against Mercer, the team will play nine games before returning home.

The best test of the merits of public owned operated public utilities is the experience of cities trying the experiment. Haring water supply the verdict is unfavorable.

Paper and metal counterfeiters declining in activity. More money in liquid counterfeiters.

MUNICIPAL GOLF AT CLEARWATER (By The Associated Press)

CLEARWATER, Oct. 24.—Several new features are being added to the Clearwater Country club house at the municipal golf links, which will add to the comfort of golfers coming to this city this season. A new porch is under construction to give a view of all greens on the course. New furniture is being added and the locker rooms are completely fitted up.

SCOUTS ENJOY SHOW

Troop 3 and 4 B. S. of A. were the guests of the Milane Theatre and take this means of thanking the management for the good time enjoyed by all. The B. S. of A. are strong for clean things of life and the scout masters of Sanford are trying to set a high ideal for the boys in their troop. The play under the title of "The Hero" has the full endorsement of both scout masters.

According to the reports of the southern division of the American Red Cross at Atlanta, Florida's contribution to the sum for the relief of Japan was \$31,153.

SAN JUAN HOTEL HAS BEEN LEASED FOR 99 YEARS

Orlando People Lease Well Known Hotel Property

The Beeman Investment Co., Harry L. Beeman, president and Edwin P. Beeman, vice president, owners of the San Juan Hotel property yesterday leased it for ninety-nine years to S. Y. Way and I. N. Burman. The property front 240 feet on Orange avenue and includes the old building and the new nine story building, and 340 feet on Central avenue. The leases will take possession November 1. Mr. Burman stated yesterday that a manager had been selected but he did not want to make any announcements at the present time. The annual lease amount is not released for publication but it is said to be one of the largest ever negotiated in Florida for a property of this kind.

It has been current news for the past two weeks that the Messrs Beeman would lease their hotel property. The lease of the San Juan follows on the heels of six other properties that have been leased for ninety-nine years to the M. O. Overstreet property, corner of Main and Central, the V. W. Estes block, Orange avenue, the Charles Rock block, Orange avenue and Oak street, the Joe L. Guernsey corner, Orange avenue, the Phillips tract a property owned by Dr. P. Phillips.

The new leases are well known locally. Mr. Burman came here from Cleveland five years ago and is a part owner of the Orlando Steam Laundry.

FOR RENT—Five room furnished apartment, newly finished. Fine location. Reasonable charges. Twenty minutes from Sanford. B. T. Tiller, Paola. 168-tfc.

ALL IMMATURE CITRUS FRUIT WILL BE ATTACHED NOW BY CITRUS FRUIT INSPECTORS

Have Been So Order By The Commissioner of Agriculture

(By The Associated Press)
TALLAHASSEE, Fla., Oct. 24.—Citrus fruit inspectors in Florida have been instructed by the commissioner of agriculture to attach all immature citrus fruit in packing houses, or in cars, being prepared for shipment or shipped, either to points in the state, or outside of the state.

In issuing the instructions, Commissioner McRae called attention to provisions of state laws that specify penalties for packers or other persons receiving immature citrus fruit for the purpose of sale, or for shipment or delivery for shipment, and also for the owners of the fruit. "Strict compliance with this order will be demanded by the department of agriculture," said the letter of instructions, which ordered the inspectors to "not consider natural color in your tests, nor the percent of crystallized acid, nor report the same on your tests."

"You will, however, report 'artificial color' on all your tests of immature citrus fruit; sending immediately a sample of 12 representative fruit, together with your test, and the sheriff's receipt, in the package, to the State Chemist."

The standard requirement for citrus fruit, the instructions point out, is found in "Food Inspection Decision No. 182 (page 10) adopted by the United States Secretary of Agriculture, September 20, 1921, and adopted by the Commissioner of Agriculture and the State Chemist, August 10, 1922 (containing the standard for citrus fruit, one to eight for oranges, and one to seven for grapefruit)."

The standard adopted by the federal authorities, it is stated, "has superseded the state standard of 1.30 per cent crystallized acid for oranges and 1.75 per cent crystallized acid for grapefruit, and section 2049 (Revised General Statutes) pages 5 and 6; and is the governing standard." This is in full accordance with the ruling of the Attorney General, on page 29 and also the opinion of Attorney General West (now supreme justice) on September 15, 1915, and Attorney General Van C. Swearingen, August 12, 1918, "the letter of instructions continues and adds: "These opinions, and the judgment of the court, are to the effect that when the national standards, Food Inspection Decision 133, and 182, were

dry. He owns considerable real estate and several orange groves. Mr. Way is the senior member of S. Y. Way & Son and has lived here for forty years.

Mr. Beeman was the active head of the San Juan from the time of the purchase in 1894, until 1919, when he turned over the managerial duties to his son, Edwin.

He bought the hotel thirty years ago for \$19,300. Later he purchased the lot to the west of the original building for \$1,200, and later still the parcel to the north on which the new addition was recently built, for \$600.

Originally the hotel was three stories high, contained fifty-six rooms, and there was not a private bath room in the entire establishment.

In 1903 the hotel was raised to five stories. Last year the new San Juan addition was added, bringing the hostelry up to date in its appointments and making of it one of the leading hotels in the state.

The new lease takes in the entire San Juan holdings, including an Orange avenue frontage of 240 feet by 840 feet on Central avenue, which takes in the new Beeman building and the San Juan Garage property.—Orlando Sentinel.

Robs Calomel of Nausea and Danger

Medicinal Virtues Retained and Improved—Dangerous and Sickening Qualities Removed. Perfected Tablet Called "Calotab"

The latest triumph of modern science is a "de-nauseated" calomel tablet known to the drug trade as "Calotab." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity—purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headache and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening quality. Now it is the safest and most pleasant of medicines to take (one Calotab at bedtime with a glass of water—that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. But what you please. No danger.

Calotabs are sold only in original sealed packages, price thirty-five cents for the large family package; ten cents for the small trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs. (Adv.)
