H. T. Hodgkinson Is New Manager of The Local Buick Agency

The Sanford Buick Company today announces that H. T. Hodgkinson, formerly of Tampa, has been secured as the manager of its sales station and garage in this city. Mr. Hodgkinson, who for the past five years has been connected with the Fernan Motor Company, of Tampa, as manager of its Lakeland branch, assumes his new duties today. He succeeds Edward J. Harwell, who resigned recently. Mr. Hodgkinson is thoroughly familiar with the automobile business having engaged in it for a period of 25 years. For the past 12 years he has been connected with some of the largest firms in South Florida. He is a big booster for the Buick and says "you can't go wrong when you buy a Buick." The new manager of the local agency comes to Sanford for the first time in five years. He expressed surprise and astonishment at the remarkable growth of this city. The paved streets, he added, are a wonderful asset to Sanford as well as the St. John's river.

Disease Causes Much of Tropic Legarth

HONOLULU, May 15.—Victims of the languorous life of the tropics are more to be pitied than censured, according to the view expressed before the Pan-Pacific club here by E. E. Baker, for ten years a resident of the Philippine Islands. Mr. Baker asserted that there is little foundation for the opinion that the tropics produce laziness, adding that what is apparent laziness is nothing more than the effects of tropical disease. The control or elimination of these diseases will bring the peoples of tropical countries into a more even competition with those residents in temperate climes, he held. Referring to the resources of the Philippines, Mr. Baker declared that there are in a tropical land worth two in a temperate country.

Club Doors Open To Denim Clad Laborers

LONDON, May 15.—The Carlton Club, said to be the most exclusive club in the world, a citadel of aloofness which houses the nobility of the land, has opened its doors as a host to a party of 30 laborers. These men have been engaged for the last year in refacing the front of the club house in Pall Mall. Lord Younger, as chairman of the house committee, presided at the luncheon and delivered a short speech in which he said the time had arrived for a more congenial feeling between various classes of Englishmen, and closer cooperation for the good of the empire. The Carlton Club, is the only London Club which does not admit strangers.

VOTE SEEKERS GIVE OPINIONS AT LONGWOOD

(Continued from page 1.) Sheriff Hand and Raymond L. Allen were also speakers in behalf of their candidacies. John D. Hinks seeking re-election to the office of county tax collector, gave a short talk, but his opponent, R. C. Maxwell, although present, did not speak. The next speaker was Judge E. F. Householder, who is seeking the office of county prosecuting attorney. He reviewed his record as county judge, pointing to the large number of cases over which he had passed sentence. He declared that he is thoroughly familiar with the duties of the office and if elected he will be able to give the citizens the best of service. Gorg G. Hering, the other candidate for this office, was not present. Vance E. Douglas and H. H. Chappell, candidates for clerk of the circuit court, were the next to speak. Both gave short talks urging support of their candidacies. The last speakers on the program were those for the office of county commissioner of district three. C. W. Estaminger, incumbent, and W. B. Ballard also seeking the office, spoke for a few minutes. The next meeting will be held next Monday night at Monroe, it is announced.

M'ADOO WILL BE RETURNED VICTOR IN JUNE PRIMARY

(Continued from page 1.) reactionaries of the Republican party, will vote for this greatest American since Wilson and Roosevelt. If our workers stay vigilantly in the field until June 3, I will be a McAdoo walk-away. Only over-confidence can lose. When we win, it will be Florida's greatest victory. She will wield an influence in the New York convention second to no State in the Union. The voters are going to insure that victory. Do we want to do our Democratic duty. We do with McAdoo."

Presbyterians To Educate and Give Relief To Pagans

SAN ANTONIO, May 15.—Presbyteries of the General Assembly of the Presbyterian Church in the United States have under their care 646 candidates for the ministry and mission service, exclusive of women candidates for mission service, said the report of the executive committee of Christian Education and Ministerial Relief, made today before the assembly in session here. The committee aided 452 candidates for the ministry and mission service in the year just closed, 29 more than in the previous year, the report stated, and in this connection spent \$77,962. "In our campaigns for equipment and endowment funds for schools and colleges of the church, the \$1,550,000 sought for schools in Texas is becoming a reality," continued the report. "Collections amounting to more than \$8,000,000 in other synods are reported. This endowment fund for ministerial relief is now more than \$1,470,000, and in keeping with the request of the assembly, effort is being made to increase this fund to \$2,500,000. The total amount received from the endowment fund the past year was \$21,521, which is \$31,141 less than the amount received the year before. "Total receipts from all sources were \$351,150, a decrease of \$41,730."

MARKETING EGGS

ORLANDO, May 15.—Mrs. N. Taylor, home demonstration agent for Orange county, reports that the poultry association sponsored by her department is making progress in marketing eggs. Forty-three cases were sold in one week recently, with several restaurants serving guaranteed eggs supplied by the association.

BIG HAUL FOR BANDITS

NEW YORK, May 15.—Bandits held up Samuel Chasstein and wife as they stepped onto the porch of their Brooklyn home, on returning from the theatre early today and escaped with ten thousand dollars worth of rings and four hundred dollars in currency.

BAPTISTS DECLINE

ATLANTA, May 15.—The Southern Baptist Convention today declined to authorize appointment of a special peace committee to prepare a paper for presentation to a convention next year setting forth the Christian teaching in regard to war.

JACKSON MAY BE PRESIDENT

SAVANNAH, May 15.—An election of officers of the American Railway Development Association set for today was postponed until tomorrow at which time Jess W. Jackson, General Agricultural Agent for the Central of Georgia Railway, will probably be named President.

PRESBYTERIAN CHURCH

SAN ANTONIO, May 15.—The election of a moderator and the reading of the annual reports featured the opening session here of the 64th General Assembly of the Presbyterian Church in the United States.

Washington News

The senate oil committee tentatively closed its hearings. Details of campaign expenditures were considered by the senate Mayfield committee. A compromise farm relief bill was introduced by Senator Smith, Democrat, South Carolina. Further steps were taken by the administration to obtain postponement of Japanese exclusion.

School Is Opened For One Alaskan Family

SEATTLE, May 15.—Uncle Sam has opened a school to give an education to one family of 15 boys and girls, the largest in Alaska, according to Jonathan Wagner, chief of the Alaska division of the United States Bureau of Education, who stopped in Seattle en route to his headquarters in the Northern Territory. "Nikaly, Indian chief of the Knik tribe of Central Alaska, heads the largest family in the territory," declared Mr. Wagner. "Owing to a government ruling a school must be provided where there are 15 or more persons in one district. Several years ago Nikaly and his family, which was slightly smaller in number then, settled near the Matanuska coal fields. No natives had previously located in that district. But when Nikaly's family increased to 15 the government was compelled to establish a school for the chief's benefit."

Major Van Fleet Will Depart From Florida; Maj. Tifton Succeeds

GAINESVILLE, May 13.—Maj. J. A. Van Fleet, who has served the University of Florida for the last three years as head of the military department, during which time he has become endeared to all who are connected with the university, will be succeeded by Maj. A. C. Tifton, Maj. Van Fleet's connection with the university will terminate on June 1 of this year. Maj. Tifton is a native of New Mexico, and was admitted to West Point from that state in 1901, graduating with the rank of second lieutenant in 1905. He resigned in 1909, but re-entered the army upon entrance of the United States into the world war as a major in the adjutant-general's office. From this he was promoted to lieutenant-colonel in 1919 and in July 1920 received his commission as major in the infantry. At present he is on duty at the Staff and Correspondent School at Fort Leavenworth. He will report at the University of Florida for duty upon completion of his term there about June 21, next.

Water Pipe Line to Be Extended Over Keys

MIAMI, May 15.—Plans for the construction of the water pipe line from Florida City to Key Largo and probably to lower Metacumbe which is half way to Key West were announced today following a permit obtained by C. J. Hesselkamp and associates yesterday from the county commissioners to build in this county. A similar permit is to be asked for in Monroe county. Water on the Florida Keys is at present caught in barrels or from supply transported in railroad cars. It is understood in real estate circles here that a chain of hotels and resorts are to be built along the keys and this will be made possible by the construction of the proposed overseas auto highway and water supply both of which it is claimed eventually will reach Key West. The route to be followed will adjoin that of the Florida East Coast Railway.

Maternal Discipline Is Very Pronounced Among Seal Families

NINILCHIK, Alaska, May 15.—Maternal discipline is as pronounced among the hair seal families as among human beings, according to men who have spent many years along the shores of Cook Inlet and have studied aquatic life there. From the time a baby seal is laid snugly within a bed of dry seaweed until he receives a final spanking and directed to rustle for himself, he is subjected to unrelenting discipline. Contrary to popular belief, a baby seal is as helpless in the water at birth as a human baby would be. It must be taught to swim and instructed in all the lore of seal life, including how to hunt, food and escape its enemies. Charles Coach, who has made hair seal hunting a business for years, says he has watched a mother seal teaching her baby to swim. The mother would flounder out on the rookery, gather the baby under her pinnie and slip carefully into the water. Suspending the baby on her flipper, she would bark, grunt, whine and wheedle to indicate what was desired. If the baby refused to perform, it was effectively spanked with the mother's flipper. The young seal gradually learns to swim by floundering a few strokes at a time, with the mother snatching it from danger every time it becomes exhausted or starts to sink.

Civilians Expect Take Stand on Immigration

MIAMI, May 15.—A definite stand on restrictive immigration as a part of the national policy is expected to be taken by the international convention of Civitan Clubs which opened here today. It was stated by Ernest Greenwood, president of the organization. The delegates continued to arrive and more than 2,000 are expected.

Dividend Declared

NEW YORK, May 15.—Directors of the Atlantic Coast Line today declared an extra dividend of one per cent on common stock in addition to a regular semi-annual dividend of three and one-half per cent.

Work Begins Soon

FORT MYERS, May 15.—Plans are on the way here in construction of the \$100,000 municipal gas plant, work will be well under way within few days, according to a statement by an official of the engineering firm that will build the fifteen miles of gas mains, pipe coated and wrapped or laid providing for five house connections, and the well will have a generating capacity of 125,000 cubic feet every day.

SANFORD'S MARKET BASKET

Active Alligator Well Acquainted With Year Seasons

Alligators, contrary to common belief, are sensible and possess a keen understanding concerning the things which are owned by them. It is proven in the case of one which is owned by a Mr. Callahan of Clifton Forge, Va. The question has been the matter of its Virginia owner for many years during which time it has been observed to do the things that are set forth in an article from the Daily Review in that city. The article, which was published some years ago this month, tells of the alligator, named "Jake", which was brought to the Sanford Hotel, Fla., in 1894. Mr. Callahan, who is now 71 years old, has lived at Gladys Inn and has a fine home in Sanford. "Jake" is now 30 years old and is 18 feet long and 7 inches wide at the widest part of its body. It has a head which is 18 inches long and 4 inches wide. It has a tail which is 10 feet long and 4 inches wide. It has a body which is 18 inches wide at the widest part. It has a head which is 18 inches long and 4 inches wide. It has a tail which is 10 feet long and 4 inches wide. It has a body which is 18 inches wide at the widest part. It has a head which is 18 inches long and 4 inches wide. It has a tail which is 10 feet long and 4 inches wide. It has a body which is 18 inches wide at the widest part.

Switchmen's Union In Esch-Cummins Parley

DENVER, May 16.—Revision of the Esch-Cummins transportation bill, providing for the elimination of the so-called "politician group," the representatives of the public on the board, and a general discussion of wage and working conditions as they now affect the switchmen on the railroads of the country, are some of the matters to be touched upon by the delegates to the triennial convention of the Switchmen's Union of North America here this week.

WORLD PEACE IS PURPOSE OF BOYS' FRIENDSHIP TRIP

NEW YORK, May 16.—Embarking June 21 on a "friendship trip" through Europe, 20 American boys will constitute the first group of this kind to advance international friendship in accordance with a resolution adopted by the League of Nations Assembly. The tour, which will occupy ten weeks, will be under the auspices of the Young Men's Christian Associations of North America. The boys, ranging in age from 16 to 19 years, are selected on the basis of outstanding leadership qualities. The choice, for the most part, has been in the hands of state and local Y. M. C. A. and I. Y. Clubs, although other groups, including the Grand Council of the Order of DeMolay, Hill School of Pottstown, Pa., and the Brick Presbyterian Church of New York are sending representatives. The DeMolay Council is choosing its delegate, whose name will be announced early in June, from a group of 50 boys from various chapters whose records show special achievement and promise of unusual leadership. His expenses will be paid by the order. In nearly all other cases the trip will be financed by the boys' families. Special arrangements have materially reduced the usual cost of such a tour.

Mrs. Kellogg Sought To Open London Fairs

LONDON, May 13.—Mrs. Kellogg, as the wife of the American Ambassador to England, has accepted several invitations to open charitable bazaars and exhibitions during the coming social season in London. Although she has been in London only a few months, Mrs. Kellogg has become most popular in diplomatic and social circles and is in constant demand as patron and hostess for the many public functions now being held.

Retiring Chief Always Goes Through Figurative Death, Looking on at Tribal Ceremony and Feasting.

PAGO PAGO, American Samoa, May 15.—Samoans of their own folk hold rehearsals of their own funeral rites. Many chiefs have built their sepulchres, to be certain of a comfortable and becoming resting place. When a Samoan chief desires to review his funeral rites, he announces his intention to his family. He first selects and appoints his successor in title, and assures himself that after his death there will be no opposition to the new chief from members of the family. Preparations for the death ceremony then are made. The retiring chief goes through a figurative death, looking on at the tribal mourning and feasting. A few years ago a leading orator, named Mago, decided it was time to die, and attended a rehearsal of his funeral. He still lives, and looking nearby for an old man, he spends most of his time reading his Bible and attending church services. He refuses to take part in affairs of a temporal nature connected with his family or village. He is a veritable example of a "living corpse." The Samoans show great reverence for their dead. The ceremony attending the death of even a person of low rank are elaborate and expensive to the family of the deceased. In the days before the introduction of Christianity, in 1830, and for many years afterward, when the Samoans worshipped their tutelary gods, there was greater funeral ostentation than at present. Members of the family held vigil over the body, fasting in silence for many days. The body was wrapped in many folds of native tappa cloth, and to relieve any cadaverous appearance the face was tinged with tumeric. Outside the house, all the night before the funeral, there was lamentation and gashing of bodies with knives and stones, while the people kept up a dirge. Relatives and friends brought presents of fine mats or expensive cloths, which were piled on the corpse, so that the spirit of the departed would be justified in carrying to the unknown world the tidings of his importance on earth. The funeral of a chief, the villagers participated in, consisted of cutting down trees and coconut palms. After the funeral there was prolonged feasting, all the pigs and poultry of the deceased chief's family being slaughtered. Sometimes the feasting lasted 15 days. Fine mats were distributed among the visiting relatives, and this ceremony was not without occasional bitterness, as the different ones contrived by strategy to obtain the oldest and hence the most important mats. The burial ceremonies of today

SAMOAN CHIEFS REHEARSE OWN FUNERAL RITES

NEW ORLEANS, May 16.—The custom of releasing two prisoners long ago that the originator and the reason therefor have been forgotten, was adhered to as usual this year. No one knows how long the custom has been in vogue, but it has been noted down ever since the years and so far no one ever has offered objection. The superintendent of the prison picks out two among those serving short sentences who have been quiet, industrious and in general model prisoners. This year they happened to be a man serving thirty days in lieu of a \$10 fine for drunkenness and another serving a similar term for refusal to pay a taxi-cab bill.

Kind Hearted Jailer Pays Prisoner's Fines

TALLAHASSEE, Fla., May 16. The supreme court has dismissed the writ of error in the case of J. W. Young, et al., plaintiff in error, vs. H. F. Lambert, et al., defendants in error from Dade county, for the reason that no final judgment is shown by the record to have been entered in the lower court to support the writ of error. The case involved collection of insurance on a damaged automobile. By memorandum decision without opinion, Division B of the Supreme Court has affirmed the order of the circuit court for Lake county in the case of Robert E. Moore, appellant, vs. H. H. Holder, Jr., appellee.

Supreme Court of State Hands Down Several Decisions

Division B of the supreme court has reversed the circuit court of Dade county in the case of Lucille Pero, plaintiff in error, vs. C. J. Corley, defendant in error, because the declaration does not wholly fail to state a cause of action in sustaining a demurrer. The case resulted from the death of T. Pero from injuries sustained in an automobile accident when Corley's car is alleged to have collided with the Pero family machine. By memorandum decisions without opinion, Division B of the supreme court has affirmed the decrees of the circuit court for Polk county in two cases entitled Patrick Bannan and Annie Mary Bannan, his wife, appellants, vs. Haines City, appellee, in a suit involving payment of taxes by the Bannans. SAN ANTONIO, May 14.—The sixty-fourth General Assembly of the Presbyterian Church in the United States, generally known as the Southern Presbyterian Church, convenes here May 15 for a week's session. The two outstanding features are the election of a moderator to succeed Rev. Alexander Sprunt, of

Marriage and Birth Rate Increase In The Free State of Ireland

DUBLIN, May 14.—The latest Free State statistics show that the births for the three final months of last year were 14,716, equivalent to an annual rate of 18.6 for each thousand of the estimated population of 3,165,000. The births exceeded the deaths by 4,493, and the death rate was only 12.9 for each thousand of population. There were 4,663 Free State marriages, a slight increase on the average of the previous ten years. The excess of births over deaths is hailed with much satisfaction and compared with London and France. In France the excess for each 10,000 of population was 23; in London it was only 18, while in the Free State it was 57.

Governor Hardee receives a Part of Washington Elm

TALLAHASSEE, Fla., May 16. Florida has received its piece of the Washington Elm, which stands in Cambridge, Mass., for over 200 years, and under George Washington first charge of the American army. A block about five inches in a fair state of preservation has been received by Governor Hardee, and is being held in the Capitol building. The tree has for generations symbolized the principles of law, liberty and patriotism which we all so dearly prize and has been the shrine at which people from all over the world have revered for more than a century. An enduring monument, suitably inscribed, is to be placed on the spot that has been marked for many months. You will recall that you a letter a few months ago in which I outlined a plan to erect a monument, to inaugurate an essay contest for the high school students of the state, and to have the purpose of stimulating interest in the movement.
