TINKER FIELD, ORLANDO

Charlie Atwater, lanky right-hander, hurled the Sanford Lookouts to a 7 to 6 decision over the Orlando Senators before 1000 persons who crowded Tinker Field to see the two teams even up a two-game series at one each.

Atwater went the entire route for the Lookouts as he held the strong Senator aggregation to nine hits, four of them in the fourth when the Senators gathered five of their six tallies.

Facing the Lookouts on the mound for Orlando was three hurlers. Bill Montsinger started for Orlando, but retired in the fourth in favor of John Berry who hurled until the eighth when Major Bucky Buscher replaced him with Futch Mathias. The Lookouts collected eight hits off the three hurlers for their seven runs. They secured seven free passes, three from Berry and Montsinger and a lone walk off Mathias.

Bill Schiro of the Senators walked off with the plate honors when he hit safely in three official appearances at the plate. Bonner, Smith and Buscher of the Senators recorded a pair of bungles each while Leon Addy of the Lookouts captured his club's honors with two hits.

The Lookouts lost the services of Don Contreras, little Cuban catcher, when he was badly spiked by Schiro on a play at the plate. Schiro was on second and two men were out as Alabama Smith singled to center. Mihalic shot the ball back to the plate and Contreras made a beautiful play nabbing

Schiro as he came into the rubber. Schiro spikes clashed. Contreras came severing a forearm artery.

The Lookouts started the scoring in the third frame as Rodgers and Contreras walked and were sacrificed to the next bases by Atwater. Ruggiero tried to short home, but Punch McDonald's single to center base sent both men home. They had the lead in the fourth when Orlando collected five runs. They succeeded mostly by Buscher, Cole and Pender to play by Smith, an error by Rodgers and a walk by Schiro to make five times.

The Sanford aggregation came in with four passes of the fifth to score twice again when with one out Contreras grounded to home when he threw over Holdstock to beat allowing the Cuban to advance to second. Atwater went out before to Holdstock but Joe Ruggiero singled to deep left in front of Contreras. McDonalds worked Berry for a walk and Addy singled to center to score Ruggiero. Brown walked but Mihalic fended out to first.

The Senators added another hit in their half of the sixth when Bonner singled, went to second on a sacrifice by Smith, and scored when Buscher singled to left.

The Lookouts came back to take one run lead in their half of the seventh when Ruggiero walked and went to second when McDonalds was safe on an error by Keller. Addy dropped one down the third base line that was good for a hit filling the bags. Brown grounded to Joe Ruggiero at second and Brown was thrown out at first by Keller. McDonalds advanced to third on the play. Mihalic singled to left field to score McDonalds. Ley singed to center to send Mihalic to third. Rodgers lined out to right field to score Mihalic but Contreras grounded to short forcing Rodgers on second.

In the Senators' half of the eighth they nearly knotted the score as Schiro singled to right and was sacrificed by Smith. Bonner flew out but Buscher singled to center and Mihalic

Boost In Tax Rate Shocks British Nation

Sir John Simon, Chancellor Of Exchequer, Delivers Annual Budget Message

Duties On Tea And Oil Will Be Upped

Virtually Every Pockethole In Land, Rich And Poor, To Be Hit

LONDON, Apr. 26.—(AP)—The British government jolted the nation today by boosting the income tax from 25 percent to 27 1/2 percent to help pay the costs of the staggering rearmament program.

Sir John Simon, Chancellor of Exchequer, in an annual budget speech before the shocked House of Commons, announced the income tax would be raised from five shillings in pounds to five shillings six pence (from \$1.25 to \$1.37 1/2 in \$5). In presenting the budget bill for the 1938-39 fiscal year, Sir John announced the government's total needs at \$41,398,000 pounds (\$4,731,900,000), an increase of \$1,500,000 pounds (\$147,500,000) over the previous year.

The Chancellor also announced an increase in duties on tea and oil.

The higher tax on tea will reach into the pocketbook of virtually every family in the land, rich or poor, and the higher incomes and oil taxes will also hit most of them.

Sanford Observes Memorial Day With Appropriate Rites

Flags bedecking the streets of Sanford today in homage to those who sacrificed their lives for the cause of the Confederacy.

In commemoration of these war dead, the Sanford Atlantic National Bank closed its doors and a number of railroad workers were given a full holiday. Special programs were given in some of the schools and the local Chapter of the United Daughters of the Confederacy sponsored a program held on the Municipal Pier this afternoon.

Although May 30 is National Memorial Day at which time the entire nation pays homage to those who have sacrificed their lives for the American cause, Florida, Georgia, Alabama and Mississippi pay tribute to their Confederate dead on Apr. 26, the anniversary of the surrender of Sherman, near the close of the civil conflict.

North and South Carolina observe the anniversary of the birth of Stonewall Jackson on May 16; Louisiana the birth date of Jefferson Davis, president of the Confederacy, on June 3; Tennessee the second Friday in May and in Virginia, all confederate organizations observe May 30.

In honoring the graves of their fallen partners and compatriots, women in the area's encampments many difficulties, history reveals in regard to the origin of Confederate Memorial Day. Military orders to meet places established the observance of the day, but other women arose at the call to render the tributes, thereupon assuming the vigilance of the local civic authorities.

Yacht Basin Project OK'd By Commission

Electric Contractors Request Code; Merchants Protest Against Peddlers

A WPA project for construction of a retaining wall for a yacht basin adjoining the Municipal Pier was given the approval of the City Commissioners last night. City Engineer Fred T. Williams was instructed to submit the project to WPA officials for their approval and the signature of the President.

The project which was prepared by the City Engineer, provides for a total expenditure of \$41,572 with the City sharing \$15,300 of this amount.

The retaining wall will be made of reinforced concrete and will be constructed on a foundation of piles following the line of the old retaining wall which was constructed of palm logs.

The basin, according to the City Engineer, will afford ample docking facilities for the largest yachts that can ply the St. Johns River.

Following the presentation of a petition signed by several residents and electrical contractors of the City, requesting the adoption of an electrical code, "for protection of residents as well as local electrical contractors," Mayor Edward Higgins appointed a committee composed of Com-

English-French Political Rally Pact Is Designed To Thwart Nazis

Candidates Will Be Invited To Speak On Friday Night

Premier Daladier To Leave Paris For London Conference

By Associated Press

An Anglo-French alliance designed to check Nazi Germany's ambitions in Europe was in a formative stage today while anti-German fighting raged on in Spain and China.

Premier Edouard Daladier, developing his plans for an Anglo-French agreement to erect a military and diplomatic bulwark against Germany's aspirations in central Europe, leaves Paris tomorrow for conferences in London with Prime Minister Neville Chamberlain and other British leaders.

Two steps have already been charted to offset Germany's absorption of Austria and Reichsfuehrer Hitler's purported designs on Czechoslovakia.

The first entails the Anglo-French move to draw Italy away from her alliance with Germany. The second involves the exclusion of Germany from a contemplated friendship pact taking in Italy.

Reinforced Japanese armies driving southward from Shantung province in central China today were still advancing, despite stubborn Chinese resistance.

The Japanese were reported only 12 miles from the vital east-west Lungan railway.

In Spain, the insurgents reported they had absorbed Gov.

A Fertile Field For Taxation

President Roosevelt's appeal to Congress for the enactment of legislation doing away with the tax immunity of federal and state bonds and salaries makes one wonder how such tax immunity ever came to exist anyway, but once realizing that it does exist, the people will be all the more determined that it should be abolished immediately.

By what right does the government tax the income of the farmer who earns his money by the sweat of his brow working in his own fields, and collect not one cent of taxes from the salary of the state employee? By what right does it tax the income from industrial bonds almost to the point of extinction, and passes up the other fellow who has his money invested in municipal securities?

"I think it is fair to say," said the President, "that these exemptions have violated the spirit of the tax law itself by actually giving a greater advantage to those with large incomes than to those with small incomes. Men with great means best able to assume business risks have been encouraged to lock up substantial portions of their funds in tax exempt securities."

Needed more than anything else in this country today is capital willing to assume the risks of private enterprise. But as things stand today the laws of the government itself discourage private investment, reduce the chances of profit to the vanishing point, and wherever any returns do result, they are absorbed by taxation.

Investors can put their money into state, county or municipal bonds, be assured of four or five percent interest, do not have to worry about depreciation of plant or equipment, or fears which sometimes burn up office buildings, and when their neat little profit is received at the end of the year, they do not have to give one cent to the federal government. Pretty nice, isn't it?

Taxation of city, county and state bonds by the federal government will drive capital into new industries putting men back to work in private enterprise. Men with large blocks of tax exempt securities, once these securities are taxed, will begin to look for other places to put their money, may build stores, office buildings, or houses to rent, or lend money to commercial interests with which to expand their business.

Taxation of local bonds by the federal government will open the way for taxation of federal bonds by the local governments. And such taxation will also make it more difficult to sell such bonds, thus tending to keep the burdens of the taxpayer from increasing. Also much needed revenue by both the federal and local governments will be found in a fertile field for exploitation.

Whose Propaganda

Whether or not it pays to advertise, Uncle Sam is certainly convinced as to the value of free publicity. Anyone who has ever opened the mail of any newspaper office knows that about half of it is propaganda from the various bureaus, boards, and commissions of the various governmental units.

Not long ago, the Palm Beach Post points out, the LaFollette Civil Liberties Committee announced that the American Manufacturers Association had spent \$750,000 putting its case before the public in the form of paid advertising and radio time. This discovery led to an investigation by inquisitive congressmen of the propaganda departments of the government.

"It was revealed," the Post says, "that there are 270 highly-paid press agents flooding the mails with printed propaganda boosting the New Deal. The Brookings Institution estimates that during one three-months period of 1937, the government's various 'press' bureaus released 4,794 newspaper articles, and distributed a total of 7,185,457 copies, or an average of 95,192 copies for every working day of that period.

Representative Thomas of New Jersey estimates

that the annual cost of mailing New Deal releases is about

\$32,000,000 for 669,352,060 pieces mailed out of the executive departments, and which weighed 91,125,145 pounds.

He understood that the cost of the paper alone totaled

\$22,000,000; and he declared: 'Departmental franking has

been increased almost 100 percent in weight and nearly 300

percent in lost revenue under the New Deal administration.'

"No doubt exists that \$750,000 is a considerable sum

for manufacturers to expend in exploiting their ideas and

in defense of the manufacturer, who has been held up to

the country as the big, bad wolf, but who feels that his

existence has been threatened. He is presumed to be

unreasonable and callous with his employees, deaf to

the welfare of the nation, and whose sole purpose in life is

squeezing enormous profits out of his workers and the

public."

"Yes, according to testimony before the House Appropriation Committee, the Department of Agriculture alone

spent \$2,000,000 for radio time during the fiscal year of

1937, while the lowest estimate made for Federal publicity

is \$20,000,000 in that time."

High School Latin Club Gives Banquet

Personals

Mrs. Glenn Brown spent today in Sanford as the guest of her mother, Mrs. J. R. Ellis.

The banquet, an annual celebration of the Latin Club, was held in honor of Julius Caesar, and his return to Rome after the conquest of Gaul, and the guests were appropriately dressed in Roman costume. Arthur Beckwith took the role of Caesar, and Miss Esther Strange that of Calpurnia. They were elected by popular vote of the Latin Club.

"Caesar's" generals were: Arthur Branson, Jr.; Laberius; Charles Cameron; Proculus; Harry Brownless; Crassus; and James Trawick, Considius.

The masters, second year Latin students, lounging Roman style at the guest tables, were served by the slaves, first year Latin students, costumed in the Roman slave fashion. The slaves were later served in separate compartments.

The parish house was elaborately decorated with flowers and ferns, and trellises were used intertwined with these.

The program offered was as follows:

Toast Master—Arthur Branson, Jr. A Welcome to Caesar—Charles Cameron.

Response—Julius Caesar (Arthur Beckwith).

Vocal Solo—Miss Elizabeth Pippin

Acrobatic Dance—Miss Beverly Westman

Vocal Solo—Miss Marion Aiken

An Oration—"Value of Latin," by Cicero, (T. W. Lawton)

Flute Solo—Miss Mabel Chapman

Songs—"Canio Patria" (American)

"Popina Est" ("A Tavern in the Town")

"Memories"

"School Song"

Special guests for the occasion were the following: Mr. and Mrs. G. E. McKay, Mrs. R. R. Pippin, T. W. Lawton, the Reverend Martin J. Bram, and Bernard Schirard, and alumni, Douglas Sternstrom, Volte Williams, Jr., Branton Huntley.

Altamonte Springs

The faculty and students of the Seminole Rosenwald School were honored during the assembly hour on Wednesday when Miss Zora Neal Hurston entertained the group with a number of selections taken from some of her books.

The applause of the audience showed the appreciation of the manner in which the stories were presented. The occasion was the most appreciated in view of the fact that Miss Hurston is popular throughout this and other counties.

Miss Jeanette H. Glover, Jeannes Supervisor of Seminole County was largely responsible for bringing Miss Hurston to the school.

The students of the school were entertained for a second time with a program presented by members of the First Grade under the direction of Mrs. A. D. Hamilton.

Riddles, songs and readings were features of the program which was a resume of their study of homes.

Visitors at the school during the past week included Supervisor J. H. Glover, Miss Zora Neal Hurston, Miss Estella Hillman, and Madames M. Mason, M. Simmons, S. Brown, V. Smith, and E. Lockhart. Also C. M. Simmonds, and William L. Hamilton, principal.

Gondoliers Win From Lookouts By Score Of 5 to 1

Local Nine Hit Jake Bunch For Only Five Blows

Hunucker Is Nicked For 12 Hits In 1st Tilt' With Leesburg

Lookouts went down in defeat last night at the Memorial diamond when, limited to five hits by Jake Bunch, the Leesburg Gondoliers claimed a 5 to 1 victory before a small attendance.

On the mound for Sanford was Robert "Diamond" Hunucker, who gave up 12 hits, but kept them scattered although netting the visitors five runs of the 12 blows, five of them were scratchers and two of the five runs were unearned.

The star of the game was without a doubt the fleet-footed Bobby Groat, Mohawk Indian center fielder for the Nellie Bunch managed outfit. He recorded a single to center, a double to right, and a triple to deep right field in four official trips to the plate. He batted in a pair of runs and added the Lookouts of three long hits which made exceptional good catches in the outer gardens.

The Gondoliers began scoring in their half of the first when Groat singled to center and stole second base. He advanced to third when Lewis grounded out to Rodgers but scored when Risk grounded out to Addy.

The Lookouts recorded their lone tally in their half of the first when with two men out, Addy singled to short left, and went to second when Brown walked. Miholic singled to short who made a great catch but threw wild over Risk's head at third when he attempted to force Addy and the Lookout second anchor scored on the play.

Hunucker and Bunch bore down to hurl a great four inning pitching duel. However, in the fifth the tie was broken as Groat singled to right; he was sacrificed to second by Groat and he scored when Lewis doubled to right.

The first player to be put out of the legal park this season was Frankie Drews, shortstop for the Gondoliers. Drews was ejected by umpire Jack Boyd in the fifth inning when he and Umpire Boyd

JOE STARTS OFF TO JOIN YANKS

Clutching a newspaper which headlined his signing the \$25,000 contract offered by Col. each was safe on a fielder's choice and Baggerly's throw to the plate to nab Groat was late.

The visitors tallied once again in the sixth when Clemmons singled to right went to second on a balk by Hunucker. McGowan hit safely to center. In the ninth the Gonds scored when Bunch singled to right field. He was sacrificed to second by Groat and he scored when Lewis doubled to right.

The first player to be put out of the legal park this season was Frankie Drews, shortstop for the Gondoliers. Drews was ejected by umpire Jack Boyd in the fifth inning when he and Umpire Boyd

Independent High School Ball Club Has First Drill

Twenty Men Report For Practice At Ninth Street Park

The newly organized independent high school baseball team held its initial practice today on the diamond located on Ninth Street Park.

Robert Howell, temporary manager of the team reported that 20 men came out for the initial session and also announced that Coach Russell McCracken is planning to assist the club in every way possible.

Practice drills are going to be packed with action during the next few days since the local congregation is scheduled to open the Lakewood High school June 1 on the Ninth Street diamond Friday or Sunday afternoon.

Plans are still underway to get some local organization to back the team during the month of June. They are planning to go into this section as a test to see if it is worthwhile to have a hall club representing the local high schools in baseball prep school circles throughout the state after opening State and Regional tournaments each season.

Another practice is slated this afternoon at the park and at each afternoon when there are no games scheduled.

Those that took part in the workout today were Red Williams, Jim Rivers, Douglas Strom, Fred Tyson, Robert Howell, Darrell Fenton, John Morgan, Bobby Groat, Buck Peterson, Fred Gaines, Sam Williams, Leslie Howard, Ray Dunnigan, Ralph Newman, Letroy Cooper, Jim Young, Ralph Pezzell, Jim Brown, Bill Culbert and Charlie Lovett.

FALLEN BUILDING YIELDS ONE OF 105 VICTIMS

Grim-faced rescue workers are shown removing a limp body from the wreckage of a cafe building that collapsed at Phenix City, Ala., killing or injuring at least 105 persons. Twenty-four hours after the tragedy, the rescue workers, still toiling, had recovered 22 dead and 83 injured.

A Lesson in Zoology—For Drivers

A car is like a cat, according to a new highway safety booklet entitled "Death Begins at 40" recently issued by The Travelers Insurance Company.

It is quiet, except when it is a-purring and pawsing. Its padded tires are like padded feet. It has powerful eyes that shine at night. And when it is allowed to run wild, it gives an awful screech at the moment before it does its victim to death.

Ed Davis, charged with drunkenness, was dismissed. James Jackson, charged with disorderly conduct, was sentenced to pay \$10 or spend 30 days in jail.

J. B. Jackson, charged with drunkenness, was arrested on a bond of \$10. Ardster Walker, held for investigation was dismissed.

Henry Ford Is Guest Of FDR In White House

President And Industrialist Talk Over Matters Pertaining To Business Needs

Big Businessmen Pledge Support

Record Peacetime Appropriation For Naval Building Okeyed

WASHINGTON, Apr. 27.—(AP)—Henry Ford today came to the White House for a luncheon conference with President Roosevelt. A meeting was arranged on the sunny portico off the President's White House office.

White House officials announced that Hall Roosevelt, the President's brother-in-law, who arranged the conference, was added to the list of the President's guests.

It was believed the President soon would invite the 16 top-ranking industrialists and financiers, who pledged co-operation with the Administration's efforts to aid business, to a similar conference.

Prior to the Ford luncheon, the President conferred with Solicitor General Robert H. Jackson in connection with a message to be sent to Congress soon on monopolies.

Earlier the President approved a record peacetime appropriation of \$540,866,494 to finance the Navy for the next fiscal year. The measure, distinct from the "big navy" bill being debated by the Senate, carried a provision authorizing work on two new battleships, two cruisers, eight destroyers, six submarines, one minesweeper, one submarine tender, one fleet tug and one oiler.

It also provided cash to continue work on two battleships, three aircraft carriers, eight cruisers, 45 destroyers, 16 submarines, seaplane tender and destroyer tender.

Another Administration effort to hurry Senate action on the \$1,166,000,000 naval expansion bill was blocked by Senator Holt (D-W-Va.) who objected to a proposal by Senator Barkley (D-KY) to limit debate.

Sixteen big business men offered President Roosevelt their help yesterday in establishing a system of continuing consultation between government and business for the prevention of overproduction and periodic depressions.

In a joint statement they said that all should "resolve to encourage the President in every effort he shall make to restore confidence and normal business conditions." Significantly, they added, however, that "legislation based upon unified social and economic theories should be avoided."

Noting that Mr. Roosevelt himself had indicated a belief that "America's continued prosperity requires closer co-operation between business and the Government," the statement said the "over-production to which he referred would be substantially alleviated if the Government engaged in continuous consultation with business leaders and encouraged them to take the initiative to develop and stabilize their respective industries."

We pledge ourselves to aid to the full extent of our ability in our efforts of consultation and cooperation."

Through the initiative of John V. Hansen, "Wall Street banker to the business and financial community," the board of directors of the Chamber of Commerce and Manufactures, Chamber of Commerce, Chamber of Commerce and Chamber of Commerce of Central Florida, and the Chamber of Commerce of Orange County, have joined in Chartering the new organization.

Two guilty pleas were heard Monday by County Judge E. W. Ware, records at the Court House showed today.

Wesley Williams pleaded guilty to a charge of indecent assault and was sentenced to pay \$100 fine and costs or spend 30 days in the County Jail.

Morris Foster pled guilty to a charge of operating a motor vehicle without a license and was sentenced to pay \$100 fine and costs or spend 30 days in the jail.

Three Miners Known Killed In Explosion

Rescue Workers Seek To Recover Others Trapped In Shaft In Affected Area

POTTSVILLE, Pa., Apr. 27.—(AP)—An explosion and fire today killed at least three coal miners and raised fears for others trapped underground.

Rescue workers struggled desperately to work in the shafts at the St. Clair Company's mine, four miles from here. They sent up word they were hampered by "black damp."

An emergency call was sent out for state rescue equipment.

Four hours after the blast, six of the 28 miners in the affected level had been brought out alive and taken to hospitals; five were burned and in a critical condition. The fate of those remaining was uncertain.

Those known dead were Frank Montgomery, 38; Paul Mikra, 40, and Vasilij Horovac, 45, all of St. Clair.

Their bodies were brought to the surface.

Miners had entered the levels to begin the day's work shortly before the blast which occurred about two miles from the main entrance to the mine.

Flames shot up after the explosion, believed caused by gas and spread to the mine chambers where the diggers toiled.

Some miners were enveloped in flames and their clothing burned off.

Garland W. Powell, director of the state radio station WRUF at Gainesville, was elected governor of the 39th district of Rotary International at the annual convention in Ocala. The district is composed of Florida clubs of the civic organization.
