## ROAD CONSTRUCTION WORK ON UNFINISHED PROJECTS PROCEEDS IN USUAL COURSE

### BOARD MEETING OF STATE HIGHWAY DEPARTMENT SO REPORTS

### ONE ROAD DELAYED

No. 4 in St. Lucie County Not Progressing According to Agreement

(By The Associated Press)  
TALLAHASSEE, Fla., July 16.—By adjournment for lunch the Highway Board had taken no definite action. Several delegates from throughout the state were on hand to make requests on the board. Hugh Hale, who was chairman of the house committee that handled the Miller bill last session of legislature, came with Herando county delegation and said he would ask the highway department to take over the maintenance of the state road between Brooksville and Tarpon Springs and part of road No. 3 north from Brooksville to Citrus county line. Senator Elbridge of twenty-seventh district, Judge Bell, representative in the assembly from DeSoto and R. E. Gynne, commissioner of DeSoto, were members of delegation that came in connection with roads Nos. 2 and 18 between Bradenton and Fort Pierce.

TALLAHASSEE, Fla., July 16.—Members of the state highway board assembled here today to discuss work to be done by the department under provisions of the Miller bill designating roads upon which work shall be concentrated, until completed. Roads 1 and 2, considered by many as most important of list designated.

TALLAHASSEE, Fla., July 16.—Construction work on the several unfinished road-building projects has proceeded in the usual course, except for delays caused by excessive rains of the past two months, according to a report of operations by the State Highway Department since the last meeting of the board. The report, prepared by Chairman H. B. Phillips, was submitted at the board's meeting here today, the first since the new legislative act designating Florida roads to be finished before other work shall be undertaken.

One of the most important matters to be passed on at the meeting was that pertaining to projects already planned for "by agreement" or by "promise." It devolved upon the board to decide which constituted "agreement" and which "promise," the new law providing that work already undertaken should not be interfered with.

Only one piece of construction work is not progressing as it should be, Chairman Phillips reported; that on a section of Road No. 4 in Lucie county. The report follows:  
"The construction work on the several unfinished projects has proceeded in the usual course, except delays caused by the excessive rains of the past two months. Any detailed information as to any project desired by the board will be furnished by the State Highway Engineer."

"Work on the contract to the Maule Paving Company for the construction of a section of Road 4 in St. Lucie is NOT progressing as it should and your advice and instruction as to this matter will be sought."  
"Since our last meeting, in accordance with instructions given me by mail, I have awarded and executed contracts as follows:  
"On June 11th—Contract with the A. Bentley and Sons Company for the construction of Federal Aid Project 20; Sebastian River Bridge.

"On June 18th—Contract with Noll and Noll for the construction of Project 584, a section of the Melbourne-Kissimmee road, in Ocala county.  
"On June 22 contract was awarded to Noll and Noll for the construction of Project 584, the section of the Kissimmee-Melbourne road, extending from Melbourne to the St. Johns River, and contracts sent to this firm for execution but same were returned to this office with the request that the bond be divided. This request was granted and the contracts are now in the hands of the contractor to be executed.  
"On July 5th—Contract with Robert Magge Company for the construction of Project 583, Sulphur Springs Bridge, in Hillsborough county.

"An advertisement for the construction of the approaches to the Safety Harbor bridge in Pinellas county was duly made but NO regular bid was received. An informal bid by wire was received, but the same could not be considered on account of its terms."  
"Advertisement was made and one bid received on July 5th, for the construction of a marl surface on Project 589, Road No. 5, Lee county, eight miles. Contracts have been prepared and sent to the Board of County Commissioners for execution."  
"An advertisement was made and one bid received on July 10th for the construction of Project 584, Road No. 5, Charlotte county, extending from the Caloosahatchee river to the Charlotte county line. No award has been made and this matter is submitted for your consideration."  
"The State Highway Engineer has submitted to me a report as to certain projects with his recommendations as to the same. This report I submit for your consideration, and I ask your advice and instruction in regard thereto."  
"Advertisements for bids on the following projects have been inserted:  
"Project 37-E, Alachua county, Road 2, Pines Prairie to Marion county line; bids to be opened July 17th.  
"Project 523, Road No. 8, Oklawaha county, Oklawaha City to Kissimmee river; bids to be opened July 25th."

## ORGANIZATION OF GRAPEFRUIT CANNERS NOW

### Nat'l Cannery and Nat'l Grapefruit Cannery Get Together

(By The Associated Press)  
WASHINGTON, July 16.—Organization of a grapefruit section of the National Cannery Association and National Grapefruit Cannery Association is announced here following a conference of cannery representatives ninety-five per cent of canned grapefruit output of Florida, Porto Rico, Ralph Polk of Polk Company, Miami, was elected chairman of the grapefruit section, and Edmund Bushmore of Spanish American Fruit Company, New York, chairman, C. ## ELEVATED TRAIN HAS ACCIDENT, MANY INJURED

### TWO WOODEN COACHES ON AN L TRAIN TELE-SCOPED

(By The Associated Press)  
NEW YORK, July 16.—Two wooden coaches of a crowded elevated train were telescoped and crushed injuring seven passengers today when it crashed into the rear of an empty subway train in the Bronx. The collision occurred on the site of the Interborough parking yards where the elevated and subway trains travel on an overhead structure.

### SMALL BLAZE TODAY

The fire department was called to a fire on Cypress avenue today about three o'clock. The blaze was in the roof of a negro house and was extinguished without much trouble and little damage.

### TO HAVE BEARING

On Present Administration as to Whether LaFollette Shall Win or Not

(By The Associated Press)  
ST. PAUL, July 15.—Voters of Minnesota today are writing a verdict in unprecedented contest involving the selection of a United States senator in succession to the late Knute Nelson. In 3,520 polling precincts ballots are being marked determined whether the supporter of Harding administration shall go to the senate or if the state shall throw its complete senatorial strength to LaFollette group. While there are three candidates, it is between Governor Preus, Republican, and Harding adherent, and Magnus Johnson, Farmer-Laborite, and follower of Senator LaFollette that the real contest lies. James Carley, state senator, Democratic choice is third candidate but even close political friends counted him out of the race before the polls opened.

### WEEK'S WEATHER

Weather Outlook for the Period July 16 to 21, Inclusive

WASHINGTON, July 16.—South Atlantic and East Gulf States: Generally fair with temperature near or somewhat above normal; occasional and scattered local thundershowers probable.

And then if you are weary of this vain world you might stroll through southern Europe disguised as a premier.

## EAST COAST CANAL HOLDINGS WILL BE SOLD AT AUCTION ON FORECLOSURE PROCEEDINGS

### Looks Like New Deal to Take Over Canal for Inland Waterway

(By The Associated Press)  
TAMPA, July 16.—The canal's land franchise, wharves, machinery and other holdings of the Florida Coast Line Transportation and Canal Company, owners of canal along the east coast extending through counties of Duval, St. Johns, Flagler, Volusia, Brevard, St. Lucie, Palm Beach and Dade to headwaters of Biscayne Bay near Miami are to be sold at public auction at the court house in St. Augustine, September 3rd, according to a legal advertisement being published. The action is a foreclosure and is understood order for which dated July 2nd and entered in the circuit court of St. Johns county "in certain case therein pending wherein Rhode Island Hospital Trust company is trustee." The meaning of the action is not understood it is said. Reports have been current the company was to change hand and that improvement would be made in line of boats operated. Reported also the state planned to force forfeiture of company's contract but no action was ever taken.

FORT PIERCE, July 16.—The canals, waterways, wharves and other holdings of the Florida East Coast Canal and Transportation Company, owners of the inland canal extending along the east coast through the counties of Duval, St. Johns, Flagler, Volusia, Brevard, St. Lucie, Palm Beach and Dade, are to be sold at public auction in St. Augustine on September 3, according to a legal advertisement in today's issue of the Fort Pierce News-Tribune.

The action is a foreclosure sale, the order being entered in the St. Johns county circuit court July 2, 1923, in the case of the Rhode Island Hospital Trust Company as trustee "of and under the will of George L. Bradley, deceased," Peter B. McDonald, who has been engaged for several months in the organization of a company to take over the Florida Coast Line Canal, said last night that the foreclosure was a proceeding to clear the title preliminary to transfer of the property to the company now organizing.

## ROTARY CLUB ACCEPTS DEFT OF KIWANIS

### WILL PLAY BALL GAME NEXT FRIDAY AFTER-NOON

The Sanford Rotary Club had a fine meeting today at the Hotel Valdez with much business transacted and much pleasure and recreation. President Knight called the bunch together promptly at 12:30 and Will Carpenter asked the divine blessing on the concourse. After singing Will Carpenter brought up the matter of taking care of a family that needed it and the club promptly voted a certain sum for their immediate needs. After some other business had been transacted Harry Kent was given the gavel for fifteen minutes of entertainment and he stated that since Charley Britt had some New York talent last time he had gone far afield and secured a singer from London and one from New England and he then introduced Mrs. Leake, Mrs. Luella Aspenwall Takach and Mrs. Frances Aspenwall Woodruff the first soloists and the latter the accompanist. Mrs. Takach and Mrs. Leake then favored the assemblage with several solos and groups of songs and also sang a duet accompanied by Mrs. Woodruff. These popular soloists are too well known to need any compliments or praise for they are known far and wide as the best in their class and their music is always appreciated by Sanford audiences. After the songs Harry called on H. C. Dulose, better known as "Ham" to say a few words. Mr. F. P. Forster was on the program for this effort but could not be present and "Ham" while unprepared was ready as he can always be depended upon to say something good and he did. He complimented the singers and then said that he was given an inspiration today in the attitude of Rotarians toward giving to every good thing, that the club seemed to have two objectives, charity and the Boy Scouts and like the Boy Scouts they were always ready to do some good deed every day. Their actions speak louder than words in carrying out the real idea of service and their service to the community was filled with good deeds of every kind. Mr. Dulose is a fluent speaker and always has a message to bring to the Rotarians and his talk today was an inspiration to all. President Knight thanked Harry Kent for his excellent program and also thanked the ladies for their fine musical program.

D. L. Thrasher called upon for a report on the idea of giving \$100 to the orphans of the state said he had gone into the matter carefully and hoped the club would decide upon the institutions most worthy and it was voted to lay aside this sum and the recipients would be chosen later.

The challenge of the Kiwanis Club to play another game of ball was accepted and it was decided to play the game next Friday and the proceeds will go to the Woman's Club.

## FLORIDA NEGROES NOT OVERLOOKED IN EDUCATION

### TALLAHASSEE, Fla., July 16.

(By The Associated Press)  
Florida's educational authorities are not overlooking the negroes of the state as the plans for improvements in schools and school methods progress from day to day. The legislature provided appropriations aggregating \$8,000 for summer schools at the State Agricultural and Mechanical College, located here, for the years 1923-24. This is an increase of more than 100 per cent, it is stated.

The negroes are showing their appreciation of the provisions for their benefit and have entered an enrollment of 194 at the local summer school this year.

### CATTLE DIPPING WAR IS ON IN MISSISSIPPI

(By The Associated Press)  
JACKSON, Miss., July 15.—Armed with machine guns and rifles federal forces has "dug in" in Amite county where "cattle dipping war" is in progress according to reports reaching here.

## FRENCH PREMIER'S ADDRESS MERELY RELATED ATTITUDE OF FRENCH GOVERNMENT

## CONDITION OF CONVICT CAMPS IS ADJUSTED

### And Getting Better Every Day Says McRae

(By The Associated Press)  
TALLAHASSEE, Fla., July 16.—Conditions in Florida convict camps are being rapidly adjusted to the new order of things brought about by abolishing the lash, it was stated by Commissioner of Agriculture McRae in charge of administration of convict laws. No special reports received detailing unusual conditions since the law became effective, he stated. Such conditions as need correcting indicated in the regular reports are given immediate attention.

## DELAND PARTIES ARE HERE TODAY INSPECTING ROADS

### OFFICIALS AND PROMINENT CITIZENS LOOKING AT STREETS

About twenty-five citizens of Deland are here today on a junketing trip looking over the streets and roads with the view of making many miles of new streets for that city.

Mayor Campbell, Earl Brown secretary of the Deland Commercial Club; Clayton Cadgrington, editor of the Deland News, and other prominent citizens and officials of Deland are in the party.

## Comptroller's Office Busy This Week With Auto Titles

### And Also Investigating Bids And Letting Contract.

(By The Associated Press)  
TALLAHASSEE, Fla., July 16.—In addition to the rush incident to the title certificate law, the automobile department of the state comptroller's office has been dealing with the department heads also are busy investigating bids and letting contracts for license tags and supplies.

A contract for license tags calling for an initial shipment of 175,000, with envelopes to match, has been awarded to an Ohio firm at a cost of approximately \$18,000.

Three thousand chauffeur badges have been ordered at a cost of 8 cents each.

### WAS NOT INTENDED AS A REPLY TO RECENT REPARATION SPEECH

## PREMIER BALDWIN

### Made and an Explanation Was Made to Official Circles Today

(By The Associated Press)  
LONDON, July 15.—Premier Baldwin announced in the House of Commons he would communicate to the United States for its information the draft of his reply he is preparing to German reparation note. Baldwin's statement was made to J. Ramsey McDonald, leader of labor opposition in reply to latter's question.

PARIS, July 15.—Premier Poincare's address at Senle yesterday was mere reiteration of French government's policy and not intended as reply to recent reparation speech of Premier Baldwin of Great Britain, it was explained in official circles here. The entire address with exception of a few paragraphs, was written before the British Premier spoke, it was stated.

SENLEIS, France, July 15.—Premier Poincare yesterday proclaimed the French government's unalterable decision resolutely to stand for the complete execution of Versailles peace treaty with the German debt at 132,000,000,000 gold marks as agreed upon by the allies at the London conference, against any international financial committee to replace the reparation commission.

M. Poincare said France had finished the making of concession to Germany. She was tired of temporizing with that country. The premier's strongly worded address while carefully refraining from mentioning the speech of Stanley Baldwin, the British prime minister, in the house of commons last week, is considered as the French government's preliminary answer to the British position with regard to the occupation of the Ruhr.

### DELINQUENT GROUPS IN COLLEGES FOUND TO FAVOR EASY LIFE

(By The Associated Press)  
EVANSTON, Ind., July 16.—Too little sleep, too much play, not enough study, too much leisure; fast eating and diversified thinking are factors that demoralize students and are responsible for the "delinquent groups" found in every university, according to a report made public by Prof. Delton Thomas Howard of Northwestern University.

In Northwestern alone, out of 1,435 students in the college of liberal arts, Professor Howard has found a "delinquent group" of 265 composed of 106 men and 99 women. In other words, he points out, 16 out of every 100 students do not "pass." But delinquency does not necessarily imply lack of intelligence, the professor found.

"No result of our study," the Northwestern professor writes, "is more significant and interesting than the discovery that the average intelligence of the so-called delinquent 'The probationers,' the investigator reports, 'devote more time as a whole, by their own confessions, to athletics, social activities, outside work, leisure, than do the freshmen; less time to sleep, campus activities, meals, classes and studies.'"

"These are boys who have, for the most part, been reared under easy circumstances and who have never been required to view life seriously. Such students have a distinctly childish attitude towards their class-room work, have no intellectual interests, no definite ambitions, no sense of responsibility. In most of these cases, as might be expected, high-school preparation has been superficial and inadequate."

Illness, family troubles, and financial worries are among other causes leading to students being put on probation.

## BELOVED SOUTHERN POET

Robert Loyman, noted southern poet whose death occurred recently is also said to have possessed a lyric note which at times held the singing quality of Shelley and Keats. He was spoken of as second only to Sidney Lanier among the poets the South has produced. He was a romanticist and a singer, and there are in the world of verse-makers, but few singers.

It isn't raining rain to me,  
It's raining daffodils;  
In every dimple drop I see  
Wild flowers on the hills;  
The clouds of gray engulf the day,  
And overwhelm the town;  
It isn't raining rain to me,  
It's raining roses down.

It isn't raining rain to me,  
It's raining clover bloom,  
Where every buccaneering bee  
May find a bed and room.  
A health unto the happy!  
A fig for him who frosts!  
It isn't raining rain to me,  
It's raining violets.

## INTERESTING STORY OF MRS. WOODRUFF'S HALF YEAR ABROAD.

Mrs. Beth Woodruff, who returned Wednesday night from a six months' trip abroad, is enthusiastic about certain parts of Europe which she visited recently for the first time, and talked most interestingly yesterday morning upon some of her experiences.

"You can not imagine," she said, "the luxury in which one can live in Germany for a nominal amount. Why, for a dollar a day, one can live as the ex-kaiser lived when he was the kaiser."

Mrs. Woodruff, who has visited all the European countries before her present trip, spent more time in Spain and in Germany than any of the other countries. Spain she found most delightful and visited many of the prominent places there, among these Madrid, Seville, San Sebastian, Granada and Racoria. She was fortunate enough to reach Seville just at the time of the large fair that occurs here each year. To this fair families come from all parts of Spain and build little shacks and enjoy the festivity of the carnival week. To this fair the king and queen of Spain also come and open the bull fight which is the big event of the week. Mrs. Woodruff was fortunate enough to witness a bull fight while in Spain and sat in the box next to that occupied by the royalty. Aside from the novelty of the occasion and the picturesque

style of the immense crowd she found little to admire in the exhibition.

Mrs. Woodruff found parts of Spain very similar to parts of Florida. San Sebastian, with its famous casino, more beautiful than the casino at Monte Carlo, its beaches and tropical foliage reminded her of St. Augustine. The streets in the Spanish cities are like the narrow picturesque streets of the old part of St. Augustine, and it is amusing, she said, to drive through the streets in a car. At the sound of the horn the persons standing in the tiny streets scatter into the doorways of the shops that line the sides because there are no sidewalks upon which to take refuge.

As souvenirs of her stay in Spain she brought home several stunning pieces of Spanish embroidery. One of these is a silk shawl beautifully embroidered in gay colors and with a long silk fringe. The shawl is reminiscent of descriptions of the famous Spanish shawl which is the dominant note of Hergersheimer's "The Bright Shawl." Another piece which Mrs. Woodruff brought back was a white lace mantilla such as is worn by the Spanish women at festivals and on dress occasions. These mantillas are entirely of lace and are made completely by hand.

Germany, as interesting as Spain in its own way, was entirely different. In Germany, according to Mrs. Woodruff, there is the most appalling contrast in the living conditions of various levels of society. There are those who are wealthy and who live in superlative luxury and there are those who are living in abject poverty and misery. The American dollar is highly in demand among all classes and its purchasing power is enormous. Coupled with the cheapness of commodities in Germany there is a surprising abundance in the supply of goods. The shops are beautiful and the most lovely things can be gotten for almost nothing.

Mrs. Woodruff considers her trip one of the most enjoyable she ever experienced but is glad to be home and among Floridians once more. —Orlando Sentinel.

THIRTEEN BRIDGE CLUB  
Among the pleasant social events of the week, was the lovely bridge party given yesterday by Mrs. D. P. Drummond at her attractive home on Magnolia avenue. There were three tables of players.

The rooms were adorned with quantities of pink roses combined with ferns and the color note of pink and silver prevailed.

After several exceptionally interesting games of bridge were played, scores were counted and the prize, a dainty fan, was awarded Mrs. Claude Howard, for high score.

Refreshments consisting of moulded salmon salad, potato chips, pickles, nut bread sandwiches, iced tea and pineapple mousse were served at the conclusion of the game.

Mrs. Drummond's guests were: Mrs. R. J. Holly, Mrs. George Knight, Mrs. P. E. Roumillat, Mrs. Claude Howard, Mrs. A. B. Wallace, Mrs. David Caldwell, Mrs. A. P. Richardson, Mrs. B. L. Perkins, Mrs. M. S. Wiggins, Mrs. Hal Wight, Mrs. W. A. Pitts and Mrs. Ben Caswell.

## LOCALS

And yet it rains on and on and on.

On Saturday we could dispense with some of the wetness.

But these rains do make it cooler and we have to take the rain with the sunshine.

And when those big dollar day sales come along it will be better weather and plenty of business.

Morris Spencer is some proud and happy father. He was presented with a fine daughter last night and mother and child are all right—but Morris had to buy a larger hat today.

Sanford Elks are home again tired but happy. They advertised Sanford everywhere and made a good showing at the meetings. They all say that Atlanta is some fine city and a grand hostess.

Office fixtures for the new quarters of the First National Bank are being installed and when completed will represent an expenditure of \$25,500. It is expected that Sanford's first skyscraper will be ready for occupancy September 1st.

The Milano theater, Sanford's handsome new moving picture and playhouse, is expected to open by August 1st. It will have a seating capacity of 700 and its stage has facilities to handle the largest road companies.

B. F. Whitner, cashier of the First National Bank, purchased a new Franck & Bach piano from the Hintermeister Piano Company of this city. The Hintermeister Piano Company now have the agency for these high grade instruments and will glad to show you at any time the different styles of this fine make of piano.

The Semipole Printery, corner Ninth and French, have made several changes in their printing plant. An addition has been built on the west side, giving them one-half additional space, and also a good lighting arrangement. A new 12x18 Chandler and Price new series press with

variable speed motor is being installed. This press is, of course, the standard job press of the world. Besides being capable of speed, this press will turn out much larger work than the press formerly had.

The Lu-Beth Cafeteria greets you again today with one of the finest menus you have seen in a long time. Cooked in every style and all the good things to go with it—in fact it is an extensive menu and contains everything needed to give you one of the finest dinners ever. Glance over this elegant menu in this issue.

The weather will be clear this afternoon and tonight and you will enjoy coming down town to Churchwell's and getting you a pair of ladies or gent's shoes at prices that will astonish and please you. Look at the prices in this paper.

Here is the Seminole Cafe with a menu that will tickle your palate even if the weather is warm. This springtime in the Seminole with all the fans going and the efficient waitresses to serve you at the Seminole they just do on real service. And then the menu for tomorrow. Yes, they will have turkey tomorrow as usual and all the good things to flank the great American bird. See the menu in the Herald.

S. A. Smith of Madison is in the city for a few weeks' visit with Judge and Mrs. Sharon. Mr. Smith is one of the largest planters in the Madison section having hundreds of acres in cotton and corn and forage crops and also a big tobacco acreage. His family were pioneers in Madison and he has many friends all over Florida where "Alec" Smith is known and loved as a friend.

L. C. Moore and J. A. Robinson, of the Dixie Motor Company, which has the agency for the well known Hanco automobile, departed yesterday for Atlanta, where they will arrange for a big shipment of this popular car to this city. The Dixie Motor company has the distribution of the Hanco over a big territory and will have something of interest to tell Herald readers about their plans next week.

## Atlanta Says Farewell to Thousands of Elks

Nearly 3,000 Attend Watermelon Ball Thursday

ATLANTA, July 14.—Atlanta Friday bade goodbye to thousands of Elks, who a week ago, came to the Georgia capital from every state in the union, from Alaska, Porto Rico, and the distant Philippines, to attend the 59th annual grand lodge reunion and convention of the Benevolent and Protective Order of Elks.

All outgoing trains carried full quotas of the antlered tribe, homeward bound after a week of crowded business sessions and intensive jollification, and all singing the praises of southern hospitality. By nightfall all but a mere handful of the visitors had "checked out" and the city was returning to the even tenor of its way.

Although the gigantic parade on Thursday afternoon marked the close of the convention's official program, the local entertainment committee provided plenty of amusement for those Elks who chose to remain in the city over the week-end.

Nearly 1,500 couples were entertained at the Watermelon ball given in the large civic auditorium Thursday night. During the evening John McClelland, general chairman of the entertainment committee, presented the prizes to winning bands, which competed in the band contest Wednesday.

## DO YOU WONDER?

Asks This Lady, "That I'm a Believer in Cardui?"—Had Been So Weak She Had to Go to Bed.

Oswatimie, Kans.—Mrs. E. E. Keast, formerly of Illinois, residing here, says: "We moved to this state eleven years ago, and I had good health for a long while; and then some year or so ago I had a bad sick spell."

"I got so weak I couldn't go, I couldn't stand on my feet at all. I had to go to bed. I supposed a great deal. I was so nervous I felt I couldn't live. I tried medicine, and everything; had the best of attention, yet I wasn't able to get up. I lay for three months, not able to do anything."

"My husband is a bill poster and has circulars distributed. One day there chance to be a Ladies' Birthday Almanac among his circulars. I read it and told some of the family to get me a bottle of Cardui."

"I quit all other medicines and took it (Cardui) faithfully, and two weeks from the time I began to take Cardui I was out of bed—better than for months."

"I kept it up and continued to improve until I was a well woman."

"Do you wonder that I am a believer in Cardui? I certainly am! And I am sure there is no better tonic made for women than Cardui." NC-151

### Turkey Will Set Up Her Seat of Gov't at Jerusalem if Possible

Says Evangelist Dudley And Calls Attention to Fact.

"Turkey will eventually set up her seat of government at Jerusalem. At that time there shall be a time of trouble such as never was since there was a nation, even to this same time. At that time Michael shall stand up for the Great Prince which standeth for the children of thy people. Turkey will come to her end and none shall help her. This will wholly change the world's map," said Evangelist Dudley at the big tent on Palmetto avenue last night.

With the fall of Turkey there is involved a most solemn event: The standing up of Michael, the coming of Christ.

"The Dardenells have been the bone of contention for centuries. Turkey would not have retained this strategic point if she could have been removed without a conflict among the other powers over who would get his place. Therefore she has been suffered to remain in Europe in spite of all her meanness. But the Scripture says she shall come to her end and none shall help her. Different nations have assisted the Turks when it seemed that he was about to go. Many persons said the Turk would be driven from Constantinople at the close of the war which ever side should win. But he is still there; and now more defiant than ever. One object of the allied powers was the liberation of the population subject to the bloody tyranny of the Turks; rejection out of Europe of the Ottoman Empire as a foreign to Western civilization." But this has not been accomplished.

"Instead of the allies declaring terms of peace to the Turks when they declared terms to the Germans they dismissed the Turkish delegates with a scolding and wanted 14 months before making the treaty of Versailles. The treaty of Versailles would have turned the Turk out of Europe. This treaty kindled the Moslems fires and the allied powers were afraid to enforce it. At one time when the English were bombarding Constantinople they withdrew when the Turks had only six rounds of ammunition left.

"The question now to be asked," continued the evangelist, is "why has the Turk not been driven out of Europe? The answer is God has interposed for the world's sake. Before the end of time there will be a struggle between the Western civilization and Mohammedan. This will bring the great time of trouble mentioned by Daniel which will be settled at the battle of Armageddon when Christ comes to put an end to sin."

Subject Tuesday night, Armageddon.

### SAVINGS DEPOSITS IN U. S. BANKS SHOW INCREASE OVER 1922

NEW YORK, July 15.—Increased savings were reported throughout the country in figures compiled and made public yesterday by the American Bankers' Association. Savings deposits in banks, as of June 30, 1922, the last available date, were announced at \$17,500,000,000 compared with \$16,620,000,000 the same date the previous year, or 4.1 per cent increase.

California led the list in the amount of individual savings.

In mutual savings banks the average balance on June 30, 1922, was \$189, in New England; \$716 in New York; \$670 middle Atlantic states; \$495 Washington; \$958 California and \$590 for the 62 mutual savings banks in the 17 states reported.

In state banks and trust companies the average savings account was \$364 in New England; \$441 in New York; \$352 Middle Atlantic states; \$349 Washington; \$640 California, and \$530 for all state banks and trust companies reported, which included 20,308 state banks and 1,480 trust companies.

In National banks the average savings account was \$376 New England; \$526 New York; \$293 Middle Atlantic states; \$336 Washington; \$673 California, and \$394 for all National banks in the United States.

### CHICAGO WILL START BUILDING GREATEST HIGH SCHOOL IN U. S.

CHICAGO, July 15.—Construction will begin in October of the largest high school in the United States. It will be situated in Chicago and is planned to cost \$4,000,000, according to Charles M. Moberly, president of the board of education who announced plans for the structure today.

The building will cover an eight and one-half acre site and will be a combination of Tudor and Gothic architecture. Plans call for a seating capacity of 4,076 pupils. The building will be completed in 1925.

## Russian Homes For Children Show Marked Improvement As Americans Raise Standards

The American Relief Administration is leaving Russia, but it is leaving behind food enough to care for its several million of rescued children for the hungry months between the time of its departure and the harvesting of the great grain crops that are sure to yield Russia food enough to feed its entire population and probably leave a surplus for export.

Incidentally the American Relief Administration is leaving the children's homes, maintained in every Russian city for the waifs and orphans, in a far better condition than it found them. There are sheets and blankets on the beds, supplied by the A. R. A., there are medicines in the medicine closets, and there is soap. It is wonderful what a difference a few tons of soap will make in a children's home, even a Russian children's home, particularly if an inspector drops in occasionally to report on whether or not the soap is being effectively used.

The home where the above pictures were taken is known as the "Second Child City" at Odessa. One picture shows a few of the 1600 children which the American Relief Administration has been feeding in this particular institution, and the other shows some of the girls at the home locally fashioning garments

from material contributed by the American Baptists through the A. R. A. In addition to its feeding, the A. R. A. has supplied this particular home with 900 blankets, 680 sheets, 300 pillow cases, 800 children's gowns, 900 yards of muslin, 880 towels, 600 pounds of cod liver oil, 2,644 pounds of soap, 1,000 pounds of calcium chlorinate, to say nothing of other disinfectants, first-aid equipment, bandages and medicines. And this is only one of some 15,000 institutions, including hospitals, that the A. R. A. has equipped and supplied with such necessities. Had it not been for the aid extended many of them would have been forced to close their doors. But perhaps even more important than these tangible gifts of supplies and food, is the better management that the A. R. A. has brought about, through its careful and frequent inspections and its grading of the various institutions by which higher standards of sanitation have been set and better care secured for the patients and inmates.

### SAYS THE STATE MARKETING BUREAU

Persons who work out in their gardens find that the soil may be kept from under finger nails by wetting the ends of the fingers and drawing them over a wet cake of soap, forcing the soap under the nails. This will keep the dirt out and the soap can easily be removed with hot water.

Irving T. Bush, president of the New York State Chamber of Commerce, is back from a trip to Europe, and says that France is holding back the recovery of affairs on the continent, and that country is enacting the closing scenes in her life as a great power. He thinks Poincare, the premier, will fail and become the most hated man in France. The great coming country of Europe, he believes, is Russia, that country being the only rival of the United States as a producer of grain crops.

There is always a good demand in the eastern markets for select eggs. Eggs from Petaluma, California are shipped from the western to the eastern coast and compete in the New York City market with eggs pro-

duced in Florida. Quality is the one thing that enables these western producers to ship eggs across the continent and top the best market in the United States. It is possible to produce the same quality in Florida and at a much lower cost.

What pasture plant is adapted to Florida conditions? In answer to it, W. E. Stokes, grass and forage crop investigator of the Florida Experiment Station, says that no grass is better than Bermuda from the standpoint of a general all around plant for this state. The rainy summer months is the best time to establish Bermuda. Write him at Gainesville for full details.

Many persons act upon the theory that horses and other animals understand human speech. Horses can be taught to understand a few words, and to teach them the owners should be regular and exact in the use of the words they employ to direct the animal's movements. A dozen words will be enough. To start the horse say "Go," to stop say "stop," or "whoa;" to have the horse move faster say "Faster," to slow up say "slower," to turn to the right say

"Gee," to the left "Haw," etc. By the systematic use of these or other words in connection with the whip gently applied, the horse will come to understand and will obey and command without having the lines jerked or being whipped or yelled at. Teach your horse a short vocabulary and explain it to the buyer should you ever sell the horse or mule. Dogs can be taught words that will in time have meaning to them. Children and even adults will scream and use language to animals which has no more meaning than to yell a line from a Greek poem at them. By being sensible and practical with animals, the owners will as a rule find that they are easy to manage. Gentleness will persuade mankind much easier than violence and the same rule will apply to the animal world.

### Real Joy For This Screen Actress To Play Flapper Role

Pauline Garon of "You Can't Fool Your Wife" Defends Her Sex

Pauline Garon has won her spurs as the American screen flapper. And it isn't a bit strange, for having flapped through Cecil B. DeMille's "Adam's Rib" and at present doing a thorough bit of flapping in George Melford's latest Paramount picture, "You Can't Fool Your Wife," which will be shown at the Princess Friday and Saturday of this week, she deserves the title.

Miss Garon with her blonde hair, bobbed, and her blue eyes, snappy, looks the flapper every inch of her five feet, one, height. She has a snappy manner, a "make-it-snappy" attitude, and a walk that suggests much pertness and sophistication.

In "You Can't Fool Your Wife," Waldemar Young, author and scenarist, has given her a "smart" role. She is the life of the party and when the older folks slow up Pauline jazzes up the show in lively style.

And Miss Garon is defender of her sex who are sometimes slurringly referred to as flappers.

"You know, if more people in this world had the flapper's attitude toward life there would not be nearly so much sham," she said. "The so-called flapper is not a 'yes' individual. She goes straight at the real meaning of things and is not afraid to say what she thinks. There is no camouflage for her. She doesn't bow to the will of the crowd because she has the courage of her convictions."

"I'm for the flapper and I am glad that I look like one and can play on the screen. It's a joy."

### MAN'S BATTLE WITH SELF IS BASIS OF FILM

"Trifling With Honor" at Rialto Said to Be One of Year's Best Pictures

How a man's deal personality can lash with itself, stripping one side of his nature bare of its grossness, reminding it with the fire of his better self, is pictured, vividly in "Trifling With Honor," the Universal Jewel production which is at the Princess tonight.

It is the story of a professional baseball player who had won the distinction of being the crack hitter of his league and held the esteem of every fan who had ever seen him play, but whose memory was darkened with visions of gray days spent within prison walls.

But not so his old self. There was bitterness toward mankind in Bat Shugrue's heart, and he felt no thrill in the baseball world's applause, although it did please his vanity.

A newspaper article on his life, which pictured him as the ideal type of manhood that his work on baseball field expressed, awakened Bat to the realization that every kid who hero-worshipped him for his ability to hit the ball would read the article and believe in him.

A messenger boy who championed him overheard a bit of conversation which hinted strongly of intrigue, with Bat Shugrue in the role of double-crossing his own team.

How Bat was brought face to face with the biggest decision of his life, with the trust of a boy balancing an iron gate barring his freedom, presents a gripping human interest drama.

Bat stayed true to the faith of the boy, and out of the horror that had gripped his soul grew the first real moments of happiness that he had ever known.

A "he-man," as we understand it, is one equipped with an unusually efficient bragging apparatus. In the U. S. Department of Agriculture, Mr. Willis is the first stockman and probably the first farmer to obtain a United States trade mark for his farm. There is nothing in the law to prevent it but apparently no one thought of it before.

### Thousands of new friends for MERRY WIDOW FLOUR

Sales of MERRY WIDOW Flour in 1922 were \$1,725 bags more than in 1921. It is not only holding its old friends, but is making new ones at a rapid rate in spite of the many imitations now on the market.

No wonder MERRY WIDOW Self-Rising Flour is such a favorite. It already contains the right amount of pure ingredients for making delicious biscuits. You save the usual time of mixing, and good results are assured. Better still, it reduces the cost of good bread to a minimum. Think of it, a nickel's worth of MERRY WIDOW Flour makes at least 33 biscuits, regular size.

MERRY WIDOW Self-Rising Flour is made by the Ford Flour Company, millers since 1856, the originators of self-rising flour. Try it. You will never change. Ask for it by name. Ford Flour Co., Nashville, Tenn. Note to Dealers: If your jobber doesn't handle MERRY WIDOW Self-Rising Flour, write us the name of jobber nearest you who does.

Dempsey and Gibbons May Fight in Tampa at South Florida Fair

TAMPA, July 16.—A second fight between Jack Dempsey, holder of the heavyweight boxing crown, and Tommy Gibbons, challenger, sometime during February of next year in this city.

That was the substance of an article appearing in one of the local papers early this week. Apparently the boxing contest is to receive the endorsement of financial and business interests as the paper stated that the question is being freely discussed by bankers and merchants.

It is proposed to hold the fight in connection with the South Florida Fair and Gasparilla Carnival which takes place early in February. It is also being suggested that the fight be held under the auspices of the local National Guard outfit as this is the only manner, the paper believes, in which it can be handled. There is a law in this state prohibiting prize fights but for a number of months the local Guardsmen have held weekly bouts in their own arena.

It is the opinion of several large business men that an arena capable of seating from 50,000 to 75,000 would be constructed and a purse of sufficient size to be attractive provided.

During the early months of the year South Florida and especially in the vicinity of Tampa there are thousands of visitors and tourists and those in the "know" are of the opinion that Tampa is the logical place in which to hold the "quarrel."

The legality of holding the scrap on a military reservation will of course be considered by those fostering the movement and it is the opinion of some that it can be done in a way which will be legal and within the law.

The city of Tampa can well provide for the large crowd which would necessarily travel a long way to a return engagement between these two men.

DUVAL'S BOND ISSUE OF THREE MILLIONS IS O. K.

(By The Associated Press) JACKSONVILLE, Fla., July 16.—Duval county's \$3,000,000 bond and bridge bond amounting to \$3,000,000 have been approved by John C. Thompson, New York bond attorney. The bonds were voted in an election June 15, and it is expected they will be placed on the market and sold between September 1 and 15.

Yanks' Excellent Pitching Staff is Getting Results

NEW YORK, July 16.—The all-star hurling corps of the New York Yankees, much the same as that which twirled them to their American League title last season, looms again as the factor that promises to swing the tide in favor of Miller Huggins' men for the third straight year.

Crippled in their catching and out-fielding departments for several weeks, the Yankees, by the aid of their hurling excellence, have run roughshod through most of their western opponents.

Yesterday's victory over Cleveland put Babe Ruth and his clan twelve games in front of the Indians with St. Louis, showing improvement in form, now third after passing Detroit, Chicago and Philadelphia.

The New York Giants, in the National, have found the western invasion troublesome though three out of five were taken from the dangerous Pirates during the last week. Yesterday McGraw's men dropped one to the Cubs, reducing their lead over the Cincinnati Reds to three and a half games.

The St. Louis Cardinals, who won six out of eight games during the week, follow the Cubs to the Polo Grounds.

Cincinnati had the best record of the week in the National, grabbing seven out of nine games against the weaker eastern opposition, while the Yankees and Indians, in the American each took six out of eight games, the latter handing the Philadelphia Athletics four straight setbacks.

NO OVERPRODUCTION IN STAPLE CROPS

(By The Associated Press) TALLAHASSEE, Fla., July 16.—The general crop outlook is fair but there is no evidence of over-production of cereal crops as compared with the 1917-21 average, according to the monthly agricultural review of the United States Department of Agriculture received here. Decreased production as compared with the five-year average is shown in the case of wheat, corn, oats, and rye. Increases are estimated for barley, apples, and peaches. An accumulation of meat animals is also reported.

FOR THE MOVIE FAN

An all-star cast tonight in "Trifling With Honor."

This is one of the most enthralling, most exciting dramas in months.

It is an epic of the great National Game—in which all the underlying drama of the game is expressed, as well as its comedy moments!

It is the story of a girl's great love for a man who in the eyes of the world was an outcast—until through the power of her love he was brought back.

Also Buster Keaton in "Convict No. 13."

And the honor guests tonight will be J. L. Miller (of Butter-Nut bread fame) and family and will see this excellent picture without cost to them. This is your ticket, bring it along.

Tomorrow—Roy Stewart, Marjorie Daw, Jennie Walker and Wallace Deery in "The Sage Brush Trail." Also round four of the "Leather Pushers."

Wonder when the Rotes and Kl-wanis play ball again?

They don't have a definite schedule—they play as fast as they get over the ill effects of one game and are able to play another.

Sanford's Semi-pro team will play the Orlando Independents here on Thursday afternoon on the Ninth Street diamond. The game will start promptly at 3:30.

Orlando Independents are considered a pretty strong aggregation despite the fact that they lost a easy game to the Kissimmee Cowpunchers last week.

Johnny Kilbane, former world's featherweight champion, says that he will now enter business. His friends estimate his wealth to be near a quarter of a million dollars. So we guess that Johnny wasn't so bad off when he returned home and only a few loyal fans met him at the depot.

Roumania now has a golf course! So just look how much use the athletics will be in preventing foreign wars! Roumania's war heads will be so busy yelling "fore," etc., at each other that war will be the same as playing marbles with them—if they ever did such a thing.

American League pitchers are still shy of Babe Ruth! Yesterday the big Bambino received his 100th free transportation of the season. Or is it poor pitching? We are inclined to believe the former reason more acceptable to baseball fans.
