

THE LEGISLATIVE GRIND

Law Makers At Tallahassee And Their Doings—Brieflets Of Legislative Nature By Special Correspondent

Tallahassee, Fla., May 16.—The morning was consumed in the House over a bill to require county commissioners and members of boards of public instruction to give bond. Representative Worley spoke strongly against the measure, declaring it to be unconstitutional. It was Gornto's measure, and he strongly defended it and the bill passed. Adkins called the attention of the members to the fact that Clopton's bill of similar import had passed the House by an almost unanimous vote a few days ago and some of the members now speaking against the measure had voted in the affirmative, which caused a ripple of merriment.

The labor commission bill was further amended in the senate. It has been so emasculated that the labor advocates are much displeased.

The governor signed several local bills, and posed for a photograph with a number of western cowboys who are on a twenty thousand mile horseback tour.

It is up to the Supreme Court to decide the status of the Trammell-McRae incident, it being a mere matter of law and from the expressions given out by the attorney general's office and the governor himself, it would seem that everything is going to come out as it should be, that Secretary McRae holds his office; he was the choice of his people at the primary and technicalities in procedure are getting sort of antiquated. The question before many bar associations during the past year has been aimed at the demolition of technical deviation and this is but one of these cases. Secretary McRae has filed his bond, was nominated and elected by the people; the bond has been accepted and that should close the incident and doubtless will.

Tallahassee, Fla., May 16.—Recommendation by the county committee of Seminole county as to the appointments to be made in that newly created district office but when seen about the matter stated that other business was too pressing to take up this feature. Since the creation of Seminole county, everybody down there has been overflowing with exuberance and a desire to wait a subsidence of this excitement.

Robert J. Holly, editor of the Sanford Herald and one of the principal factors in the efforts of the secretaryship of the county executive committee, and T. K. Bates, who acted as press agent for the delegation, has been named as tax assessor. E. A. Douglas, another prominent and persistent worker for the cause, received the plum of the clerk of the circuit court, of course all of these subject to the ratification of the governor. According to custom, though, it is up to the executive to make these appointments when the county executive committee so recommends.

Monday evening was given to a discussion before the members of the legislature of the Panama Canal question in its various relations to trade opportunities by two authorities on the subject—one by Hon. Guyt McLendon, of Georgia, one of the best informed men on transportation problems, and the other Hon. T. Sambola Jones, of Baton Rouge, special commissioner for the Panama Pacific Exposition.

Without having any apparent connection of purpose these two speakers chimed in and said much that was enlightening. Mr. McLendon's argument chiefly was against the free toll idea; he gave the figures of cost in construction and maintenance and gave the volume of transportation, which he said at first would not be large in proportion, and then pointed out the absolute necessity to have the revenue that would be derived from other free tolls in order to produce the necessary money to pay for the maintenance and bonded obligations. Incidentally, Mr. McLendon said that Florida ports were bound to benefit largely by the opening of the canal, and that Jacksonville had taken a great step forward by providing for necessary municipal wharfage. He placed Jacksonville's progress in this respect far ahead of the conditions at Savannah, and he said it would be a matter of a few years only when Jacksonville would be the greatest naval stores port in this part of the world.

Judge Jones pictured the advantages of having a newly opened market in the east—the far east and the Pacific West for Florida products, and stated with emphasis that the opportunity for Florida to get before the world in this way—through an exhibit at California exposition, was so rare that it should not be overlooked.

Capt. A. V. French, of Sanford, is working in the interest of an exhibit to be made at the San Francisco exposition. He has had large experience in exposition work, and if an appropriation is made he will likely be named as a member of the commission, or chairman of it.

The senate relaxed its dignity long enough this morning to put up a good joke on Chic Acosta. Senator Watson

was in the chair and the senate had under consideration House Bill No. Z, a measure in which Chic was very much interested. Chic was in the chamber and as the roll call proceeded it soon became very evident that a majority of the senators were voting against it. Chic's face suddenly grew very long and rushing up to Senator Blitch he enquired what was the matter. About this time senators began changing their votes from one side to the other and back again and such confusion reigned that no one could tell where the bill stood. About this time Chic tumbled and he fell started to leave the chamber, but he was cornered by several senators until their mirth was spent. The roll was again called and the bill passed unanimously and Chic left with a radiant expression on his genial face.

The senate resumed the consideration of the Bryan primary bill this morning. There seemed to be prevailing in the senate this morning an entirely different attitude toward the bill from that exhibited yesterday. This may have come—and probably did—from the fact that all the senators, except Senator

Lindsay, who displayed such an eagerness yesterday to amend the bill, were absent from their seats this morning. Senator Conrad has been back in his seat for two or three days, after an absence of several days. Senator Conrad is one of the most popular senators at Tallahassee.

One of the first things to reach the senate Saturday morning from the house of representatives was the bill providing for the extension of the city limits of the city of Palatka. It has been customary at this session for bills of this nature to go on the calendar without reference to a committee, especially when there was no contest. But this bill went to the committee on corporations, where it is expected that a great contest will be waged by the warring factions of Palatka.

Senator Fletcher was an interested visitor at the capital Saturday morning. He was constantly surrounded by a number of admiring friends.

Baby Show

One of the opening features of the Carnival to be held at the corner of Park avenue and Fifth street, on May 26th and 27th, will be a Baby Show. Babies will be divided into classes, and a prize awarded to the one receiving the most votes in each class.

It is desired that every baby in town, under five years of age shall be entered,

and all applicants must send names to either Mrs. S. O. Chase or Mrs. J. E. Dickens by Saturday evening. The babies will be on exhibition from 7 to 8 p.m. on May 26th.

Sanford in Moving Pictures

The Sanford Celery fields will be shown at the Imperial Theater on Friday and Saturday nights. You will not miss this picture as you will be able to recognize many who you know.

This picture was taken some time since by the Kalem Company. Mr. J. F. Karpatz manager of the Imperial was in Atlanta and made special arrangements to exhibit this famous picture.

The prices will be same, and it will be shown on Friday and Saturday nights of this week, May, 23 and 24.

Spirit Appeared to Brother.

In recent years no African explorer has gripped the popular imagination more than the ill-fated Capt. Boyd Alexander, who was done to death in a gallant effort to induce certain native tribes to live at peace with each other. The story of his last expedition to the Dark Continent has been published in a book containing the explorer's diary of the expedition, this, curiously enough, being the only diary he ever kept, having been accustomed on former occasions to trust to his carefully drawn maps, and his retentive memory. The book has been edited by the explorer's brother, Mr. Herbert Alexander, who relates a strange dream, which should be of interest to students of the occult. "I saw Boyd," he says, "illuminated from the darkness of night, standing up, surrounded by angry natives, who were armed. He was trying to speak to me, but I did not hear his voice, rather it was as if the whole air was echoing, 'I am in their power.' Then suddenly he was swallowed up in darkness."

Proved His Chivalry.

Visitor—"You say that old reprobate over there used to be one of the politest men in town? I suppose he'd give up his seat in a street car to a woman." Nattie—"Polite? Say, stranger, that man gave up his seat in heaven for a woman."—Satire.

suits that compares to advantage with the made-to-measure product at much higher prices. Young men are pointing the way to real clothes-value and economy.

When you buy these goods you get all-wool fabrics, a distinction which is unique in these days when cotton mixtures are the rule. You get special style designing, tailoring unexcelled, correct fit.

You'll find suits here as low as \$18 and \$20; good values.

Look at the \$25 suits anyway.

May Recital

The opening event of commencement week the delightful May Recital given annually by the students of Mrs. Fannie Stenbridge Munson in honor of the graduating class of the Sanford High School was enjoyed Monday evening, May 19th, by one of the largest and most appreciative audiences ever assembled in the auditorium of the High School.

If it is a well known fact and one appreciated with pardonable pride by every citizen of the town that each and every one of these recitals are characterized by a very high standard of musical excellence and ability, consequently a delightful order of entertainment is always appreciated and realized, for neither Mrs. Munson or her students ever disappoint the highest expectations.

The stage Monday evening, besides the two pianos was simply and solely decorated with handsome ferns.

With the opening number, each selection on the fine program was charmingly and perfectly rendered by each performer, who on her individual and well sustained effort, contribute largely to the artistic tone and perfect success of the beautiful program, and delightful entertainment of the evening.

Miss Allen as mezzo soprano and Miss Buttorf as accompanist were valuable and appreciated additions to the recital. Miss Allen, though but a young girl student of Prof. John W. Phillips, of Stetson University, shows promise of a very beautiful voice in her delightful tones and pleasing interpretations. She sang with fine feeling and good taste—her soft tones were particularly enjoyable—a rare finish in even the mature student.

In addition to the pleasure of her voice Miss Allen won her audience by her simple, unaffected, girlish charm of manner.

The many friends of Miss Maud Alice Wagner were delighted to have the pleasure of hearing again such a remarkably talented and proficient young artist, and they with others predict a brilliant future for her in the musical world.

The performers and students of Mrs. Munson's piano class, each and every one rendered their selections so charmingly and perfectly, that special mention and worthy deserved praise accorded them would probably take up too much space; other than to say that Mrs. Ernest Tolar's remarkable performance of the "Andante de Finale (Lucia di Lammermoure)" with her left hand only, was worthy of more than passing notice and evoked much surprise and praise of her wonderful ability.

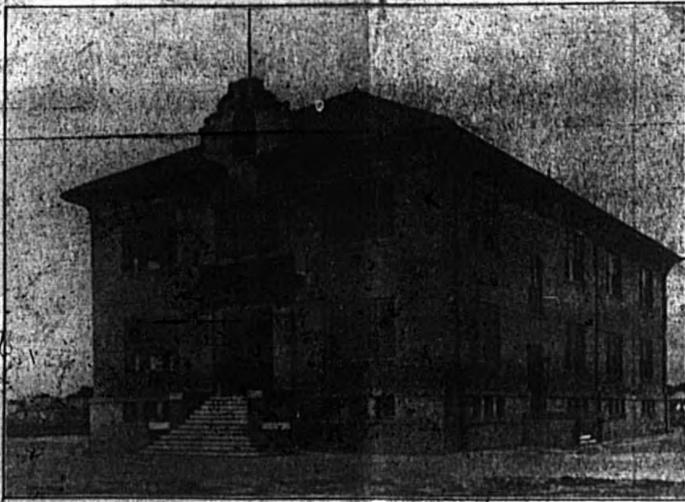

The following excellent selection of program with its variety of music, and best of music enjoyed Monday evening by all those whose good fortune it was to be present.

The Deacon's Second Wife

The annual play given by the literary societies of the Sanford High School was presented Tuesday evening, May 20th to a large and thoroughly pleased audience who were united in their praise of the clever young actors. "The Deacon's Second Wife," a fine character study was in every way up to the usual standard of excellence.

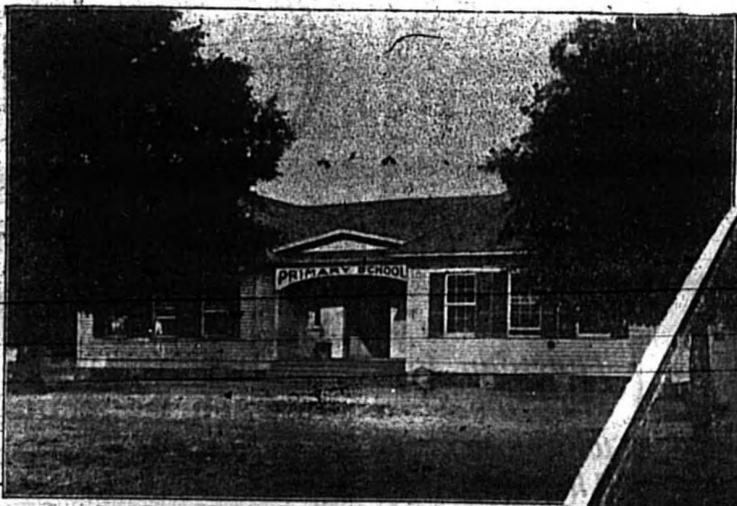

The personnel of the play seemed an unusually happy selection, and in the interwoven harmony of their interpreta-

tation of every day rural life on a farm, in the amusing three act play, nothing was left to be desired on the part of the spectators, of the mimic-serio-comic drama, through which the thread of the two pretty romances was pleasingly and happily woven.

Following is the program and cast

SYNOPSIS OF SCENES

- ACT I—Sitting room in Deacon Fritz's farm house
- ACT II—Deacon Fritz's dooryard.
- ACT III—Sittingroom, rearranged.

CHARACTERS

Malvina Fritz	Alma Pagenhart
Deacon Barachias Fritz	Wallace Crosby
Milton George Washington Fritz	Benjamin Whitner, 3rd
Nancy Melissa Fritz	Junnie Stunton
Mrs. Brown	Adelaide Higgins
Kate Rollins	Claire Walker
Jno. D. Bullock	George McLaughlin
Mrs. Bullock	Margaret Davis
Dorothy Bullock	Lucea Chappell
Hartley Bullock	Tenney Deane
Ernest Rench	Harry Kanner
Philip Gamboge	Bertie Pattishall

The play opens with Mrs. Fritz' departure on a short visit to relatives and the arrival of Kate Rollins, a niece of the deacon's on a visit to the family at the farm, and the farewell visit to Mrs. Fritz, of Mrs. Brown, a typical country neighbor, who always has a convenient ailment to nurse.

While Kate Rollins is amusing her little country cousins, Nancy Melissa and Milton George Washington by dressing up as an old woman, with a white wig, and before she can take it off the room is invaded by a party consisting of Mr. and Mrs. J. D. Bullock, their daughter Dorothy and son Hartley, rich city people, seeking summer board in the country. They mistake Kate in her masquerade for Mrs. Fritz, and will have no refusal from her or listen to any explanation of the situation, especially as Nancy Melissa insists that there is plenty of room in the house and her husband has made the list of cooked things left by their mother. The deacon's timely arrival relieves Kate of further responsibility—and though he had been specially charged by his wife not to let any summer boarders come in, the house, the tempting pecuniary offer of the party and offer to help on the farm, the deacon decide to brave his wife's anger and set up a boarding house without her.

The second act sets forth many of the trying as well as amusing experiences of Kate Rollins, in keeping up the role of being the deacon's wife, as supposed by the boarders—a situation of which the deacon is entirely ignorant.

The efforts of the boarders to help in the home and farm work, presents a number of humorous situations.

The arrival of Phillip Gamboge, an inexperienced artist, with many unsold pictures and large expectations of fame and fortune, the lover of Dorothy, who is not approved by her parents deepens the interest in the unfolding of the plot.

In the third scene the sitting room is rearranged by the boarders and an artist's easel set up. In the midst of the enjoyment of a cup of tea Mrs. Brown comes in and is indignant at the changes made during Mrs. Fritz' absence, of which she will not approve when she returns. The boarders are puzzled by the reference to Mrs. Fritz' return, and will not stop talking long enough to hear Mrs. Brown's explanation of the situation in the farmhouse. Kate is questioned when Mrs. Brown takes her indignant departure and in the confusion speaks of the Mrs. Fritz mentioned by Mrs. Brown as Aunt Malvina. In attempting to correct her contretemps she said that Aunt Malvina was the deacon's first wife—as the inference was of course that she, Kate, is the second wife. About that time Mr. Bullock receives a telegram announcing a rise in the stock market requiring his presence. Phillip Gamboge receives a fine offer for one of his pictures. Ernest Rench is slightly wounded with a pitchfork and is placed on the lounge for repairs. He says he likes farm life and Mr. Bullock proposes to buy a farm and set him up in business.

The deacon offers his farm and as the bargain is about to be closed before the summer boarders leave, Mrs. Fritz returns unexpectedly, because her letter announcing her return had fallen in the water and been kept in the pocket of her son, Milton George Washington until it dried.

Explanations were in order all around. Mrs. Fritz' indignation was appeased by the sale of the farm. The sale of the picture changed Mr. Bullock's views and he gave his consent to his daughter's marriage to Phillip Gamboge. Kate and Mr. Rench found that they had a mutual attachment. Mrs. Brown was disgusted with Malvina and everybody, while Milton George Washington took from his pocket and ate with relish the last doughnut Ma left for them, as the curtain descended on the finely acted play.

Graduating Exercises of the Grammar School

About 10 o'clock Wednesday morning the auditorium of the Sanford High School was filled with the parents and friends of the pupils of the Eighth Grade, who with pleasure and pride in their hearts were present to witness the graduating exercises of the large class of forty-nine girls and boys, the pupils of Misses Flora Walker and Gertrude Speer of the Grammar school.

While a march was played, Misses Walker and Speer marched at the head of the class of girls down the right aisle of the auditorium en to the stage, while Prof. Perkins, Messrs. D. L. Thrasher of the county school board, L. R. Phillips and C. P. Walker of the local school board, Capt. George Lynch state inspector of rural schools and Rev. A. S. Peck preceded the class of boys down the left aisle to the stage, where they were seated in the chairs arranged for them.

Miss Fannie Reba Munson took her place at the piano and the exercises were very sweetly. "Who Knows What the

COLLECTED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain

A new bank has been organized at Lake Worth and it is understood that the new institution will be in full operation in less than sixty days. A large number of Lake Worth citizens are stockholders in the new financial concern.

Ocala has extended its limits, taking in Silver Springs, with the purpose of creating and operating municipally owned docks, for waterway traffic, and Congress has been memorialized to deepen and strengthen the channel of the Oklawaha river. If the scheme goes through, Silver Springs will become a shipping point for one of Florida's prosperous cities.

Dr. Reuben H. Huddleston, pastor of Miami physicians died at his home in that city a few days ago. He was 74 years of age and had lived in Miami for more than thirteen years. He is reported to have been one of the best informed professional men in that portion of the state. A year ago Dr. Huddleston suffered a stroke of paralysis and was compelled to give up his practice. Apoplexy was the cause of his death.

A new corporation is mentioned in the St. Petersburg Times as having been organized for the raising of poultry in that neighborhood. The new company will have a capital stock of \$15,000 and purpose to raise poultry for the market on a large scale. The best modern methods will be employed and the plant will be up to date and planned especially with regard to the climate and conditions. Times-Union Short Talks.

MELVAINE LECTURES

Dead in Sleep And Are Not In Torment as Often Taught

Evangelist M. L. Melvaine of Jacksonville spoke to two large audiences at the Imperial Theatre Sunday. In the afternoon he spoke upon the subject: "Where are the Dead?" and in the evening: "The Day of Judgment." The people manifested intense interest in the lecture by paying the strictest attention to every word spoken.

The speaker gave brief examination to the prominent theories and creeds, to see where they placed the dead, and in fact said: "It will be noticed that all these theories are based upon the assumption that death does not mean death—that to die is to be more alive than before death." In Eden it was God who declared to our first parents, "Ye shall not surely die." It was Satan who disputed this saying, "Ye shall NOT surely die." This is the first lie recorded and gained for Satan in the Scriptures the title of "father of lies" (John 8:44). This, dear friends, has been our common point of mistake. We have followed the wrong teacher when we, as Christians accepted the Platonic theory of immortality of the human soul and tried to harmonize this heathen philosophy with the Word of God, and to persuade ourselves that death was a friend and a gateway into freedom and happiness.

Death Not Torment, the Penalty
Note well the mistake made in assuming eternal torment the wages of sin, when the Scriptures explicitly declare that "The wages of sin is death" (Rom. 6:23). We search the Genesis account of man's fall and the sentence imposed, but find no suggestion of a future punishment but merely a death penalty. Repeating it a second time the Lord said: "Thou shalt be cursed above all beasts thou shalt return to dust thou shalt return." (Gen. 3:19). But he said not a word about devils, fire and torment. Note the fact that none of the prophets

tained only by those who forsake all and follow in the footsteps of the Master, faithful unto death. These must be of a character like copies of God's dear Son, must overcome the world, the flesh and the devil during the gospel age, the acceptable day of our service for the life with Jesus; when evil Bourishes and the righteous suffer persecution. This company of overcomers are not numerous; the Scriptures call them a "little flock" and say straight is the gate and narrow the way, and few there be that find it. These are a kind of firstfruits unto God of His creatures.

The first resurrection does not exhaust God's love and power. Jesus Christ by the grace of God tasted death for every man. "In Adam all die, so all in Christ shall be made alive," but every man in his own order. The great majority, those that have done evil, the disapproved, come forth to judgment. On being awakened the privilege will be theirs of rising up, up, up out of present degradation, mental, moral and physical to the glorious perfection which father Adam enjoyed in the image and likeness of his Creator. This up lifting work St. Peter refers to as the "restitution of all things which God hath spoken by the mouth of all His holy prophets since the world began (cts 3:21). The prophet (Isa. 35) calls it the "highway of holiness, so plain that a wayfaring man though a fool need not err therein."

Not Universalism Either
Nor does this trial mean universal everlasting life to all. The Scriptures declare that such as refuse to profit by the glorious opportunities of the Millennium shall be destroyed from among the people in the second death. They shall be as though they had not been (Obad. 16). To those already the Lord's consecrated saints, I say, Lift up your heads and rejoice and realize more fully than ever before the fullness of the heavenly calling of which you have been made partakers. To others who have the hearing ear I say, Let the love of God constrain you and become disciples indeed of Jesus, laying aside every weight and every besetting sin, and enter the race for the prize of glory, honor and immortality to be found at the right hand of Jesus Christ.

About that Canal
State authorities will complete the East Coast Canal between Jacksonville and Miami, in time for use by winter tourists and other boat owners next fall. Contract has been let for widening the canal to 50 feet, dredging it to 5 feet in depth. State engineers estimate that this will require the removal of 44,000 cubic yards of earth and 3,500 cubic yards of rock. The state has on hand a fund of \$75,000 given it by the canal company in settlement of its contract. Of this \$75,000, all but \$5,000 will be used for the work now under contract. An effort will also be made to dig a canal from the upper St. Johns to the Indian river, thus giving a round

trip from Jacksonville to St. Augustine, Orlando, Daytona, New Smyrna, Titusville, West Palm Beach, Miami and back. East Coast Canal and river to the sea cannot be opened in the upper St. Johns about Lake Washington through Lake Worth, Lake Okechobee, Lake Manatee, Lake Monroe and back to Jacksonville via Sanford, DeLand, Palatka and Ocala, Lake Springs. The St. Johns is not all the way, the only thing being necessary is to stake out the channel so that it can be found during high water. This would give one of the most beautiful and longest motor-boat courses in the world and would be used by thousands of motor boats owned by tourists during the winter and by home people in the summer.

Sanford, DeLand, Palatka and Jacksonville Boards of Trade should get busy about the opening of the canal from the upper St. Johns into Indian river, and ought to have this done by next season. DeLand News.

Oviedo is growing by leaps and bounds and many new buildings are being constructed.

Seminole county will be in the Fourth Congressional district instead of the First as at first supposed.

The average temperature of Sanford for this month is given in another part of this issue.

Seminole county will not need a court house for many years to come and suitable quarters will probably be rented next month.

A local weather forecaster in Seminole county predicts that the rainy season is to begin about the tenth of June.

If Orlando could succeed in her ambition to become the capitol for the new state when Florida is divided, she could well afford to lose the territory that created the new county of Seminole.

Having made the grand and glorious new county of Seminole, in the distribution of the rich rewards Editor Holly

of the Sanford Herald has been made secretary of the new county committee a job that does all the work without pay.

The state senate in session Tuesday afternoon, passed by a vote of twenty to seven, a bill which if it become a law, will compel saloons to close up each night at nine o'clock.

TYING UP LEGISLATION In the closing days of the Florida legislature there are many good bills side tracked for selfish motives.

Representative Tomlin, in the debate Tuesday, over an amendment, stated that the liquor interests were tying up legislation to the exclusion of other bills.

MORE BRICK STREETS The work of laying the brick on Ninth street from Park avenue to the new depot, on Crown street started this week.

NOW FOR A LAKEFRONT At a recent meeting of the city council the matter of bulk heading the lake front was taken up and The Herald has it from Alderman Runge that the exact status of the lake front will soon be known.

Take three chorus girls and three men and soak in champagne till midnight, squeeze into an automobile, add a dash of joy and a drunken chauffeur, shake well and serve at seventy miles an hour. Coroner's request is the chaser.

ELAGLER IS DEAD

Great Florida Developer Will Be Buried Today

Henry M. Flagler, Florida's great developer and one of the world's greatest builders, passed away at the home in Palm Beach Tuesday morning at 10 o'clock, after an illness extending over several weeks. First news was brought to St. Augustine in a message by Vice-President James E. Ingraham of the Florida East Coast Railway.

Mr. Flagler has been ill three months, having suffered a relapse several weeks ago when he sustained an injury to his hip when he slipped and fell on a stairway at his Palm Beach home. The end came peacefully Tuesday, the great man apparently sinking away in peaceful slumber from which he never awakened. By his bedside were his wife and son, Harry.

Deep sorrow was caused in St. Augustine as well as throughout Florida and the United States by the news. Mr. Flagler was known everywhere and the great work to which he devoted his later years in the developing of Florida has especially endeared him to every citizen of this state. Not only does America mourn him but the world as a whole. The funeral will occur today from the Memorial Presbyterian church of St. Augustine.

Reading Circle

The regular meeting of the Reading Circle of the Missionary Society of the Methodist church was held at the home of Mrs. J. D. Jenkins Tuesday afternoon, in charge of Mrs. H. V. Perry, third vice-president of the missionary society. After the devotional exercises the ladies began the study of their new book which the circle will use for the present, "China's New Day," by Jeanne Taylor Headland, Ph. D. After reading and discussing a portion of the first chapter delicious refreshments were served by Mrs. Jenkins.

Oppose Drainage Bill

Tallahassee, Fla., May 22.—Thomson's drainage bill to bond for six million dollars to drain the Everglades was introduced by Bussey, and met with strong opposition in the house including Speaker Ferris and Worley, an Everglades member. They claim the amount is not sufficient and propose to wait until the trustees of the improvement fund receive a report from the special drainage commission now at work. A special session of the legislature is likely to be called to consider the measure. The bill is set as a special order for Monday.

One of the opening features of the Carnival to be held at the corner of Park avenue and Sixth street, on May 26th and 27th will be a Baby Show. Babies will be divided into classes, and a prize awarded to the one receiving the most votes in each class.

It is desired that every baby in town, under five years of age shall be entered, and all applicants must send names to either Mrs. S. O. Chase or Mrs. J. E. Diehls by Saturday evening. The babies will be on exhibition from 7 to 8 p. m. on May 26th.

Ladies Plan Mock Carnival

Among the many interesting and attractive entertainments which you will have the pleasure of enjoying at the Mock Carnival to be held by the Ladies' Guild of the Episcopal church, on the lawn of Mrs. C. M. Hand, corner Sixth street and Park avenue, Monday and Tuesday evening, May 26th and 27th will be:

Genuine Baby Show. With prizes to winners.

A Genuine Incubator Baby. The nurse in charge will explain the handling of these cases in detail.

A Genuine Fabrics/Madam Swastika, a graduate under the famous, Madam Sterling.

Old Plantation Minstrel.

Living Pictures.

Art Exhibit.

Genuine Booth, where will be sold the best of coffee, sandwiches and home made candy.

Rain Garden, where you may enjoy a dish of ice cream, cake, etc., etc.

The ladies have gone to considerable expense and trouble in securing these attractions and expect a large attendance. The giving of an entertainment of this kind by a church society is something unique and new to this section. No skin games, raffles or games of chance will be permitted, the entire entertainment being for and conducted by ladies and gentlemen. Don't fail to attend, else you miss a treat.

Rollins Commencement

The people of Sanford and the surrounding country are invited to attend the exercises connected with the 28th annual commencement of Rollins College, May 23-29. CLOSING DAYS OF SANFORD SCHOOLS

EXERCISES MOST INTERESTING VISITORS ATTENDED

(CONTINUED FROM FIRST PAGE)

Bells Say? Immediately after the song, Miss Marian Phillips advanced to the front of the rostrum and in a very clear voice and calm, composed manner gave the audience a very fine, comprehensive and entertaining review of the "History of the Louisiana Purchase."

"To the Fairest," by H. W. Petrie, a very pretty piano solo was well rendered by Miss Antoinette Luke.

Gilbert Herring, in a very interesting and instructive paper told many of his attentive listeners very many things and facts about "The Philippines," which they are doubtless to busy to read for themselves.

Miss Fannie Reba Munson entertained the friends in a very attractive one exceptionally well played piano selection, the "Mountain Stream" by Sidney Smith.

"Uncle Sam's Smallest Islands," their names, locations, people, products and possibilities were entertainingly presented in a fine paper by Robie Laing.

A conversation which was supposed to have occurred between two ladies who met "At the Milliner's," revealing an individual peculiarity true to some natures was charmingly given by Miss Lucille Rines.

The exercises by the class concluded with a duet, the "March of the Dwarfs," most excellently performed by William Runge and Raymond Philips.

Professor Perkins in a kindly expressed tribute introduced to the class and audience Rev. Arthur S. Peck, rector of the Episcopal church, who after gratefully acknowledging his appreciation of the expressed courtesy, said that instead of the announced address he preferred to talk with the with graduating class instead of to them. The wise and helpful suggestions which followed were more like a heart to heart talk between friends, the keynote of which was "Opportunity," great and small to be many of the little things in homely everyday life. The speaker cited several instances where small things had led to great discoveries and inventions, and closed his talk by exhorting the class as individuals to be ever on the alert to see and utilize opportunity.

Capt. Lynch was next introduced by Prof. Perkins. In his happy response Capt. Lynch in his kindly expressed praise of Lucky Sanford, its present success, unlimited possibilities and future greatness, as the county seat of Seminole county, quickly ingratiated himself in the good will of his listeners, who applauded him to the echo. Capt. Lynch's talk to the graduates was replete with wise counsel and kindly suggestion to let nothing deter them from seeking and acquiring the education which could enable them to meet and fulfill all of life's obligations to live happily and well in their ability to do something worth while.

After the close of Capt. Lynch's instructive and appreciative talk the certificates of graduation were presented to the members of the class by Prof. Perkins in a few words of commendation and the interesting occasion was over.

Class Day

The exceedingly attractive and always interesting Class Day exercises of the Senior Class occurred on the campus and north steps as usual of the High School building Wednesday afternoon at 5 o'clock. And although a note of sadness pervaded the pretty exercises they were witnessed with pride and pleasure by a large crowd of admiring friends, relatives and parents of the graduates.

To the notes of an inspiring march with the handsome banner of green and white with the date 1913 and with their class color badges the Freshman class marched down the steps and stationed themselves in a semi-circle at the right of the steps, next to the building. The Sophomores followed with black and gold banners, with 1913 and long badges of black and gold and took their places in front of the Freshmen. The Juniors with class colors of green and gold, and with 1914 on

their handsome banner, placed themselves in front of the Sophomores. Lastly the Seniors in gray caps and gowns, class colors and banners of purple and gold on which the date 1913 was inscribed, took their places on the steps, and in the doorway of the building, and the High School chorus, "Let the Hills with Songs Resound," was sung.

The address of welcome was made by Tenney Deane, president of the class, who also reminded his classmates that they had reached the parting of the ways. After four years of close and pleasant association as classmates, and with their kind and patient teachers, who in their capacity of instructors had ever been tender, faithful friends, and to whom, as with each other, they must now say farewell.

In closing his address the president, in the name of the Class of 1913 presented to the school and board a handsome and large bust of the goddess Diana, on a pedestal.

The gift was accepted for the school and board by Mr. C. R. Walker, in a brief, appropriate and well chosen response.

The bust was then unveiled by Mr. Deane.

The touching ceremony of "Planting the Ivy," by the side of the building, by the class president as a memento of the Class of 1913, was symbolically tenderly and lovingly compared by Miss Albine Frank to the love in the hearts of the class for each other, their teachers and school, and which would, like the ivy withstand the vicissitudes of Time and environment, and continue with the years to grow into the vigor and strength of undying and tender memories of each other, their teachers, of this Class Day and graduating exercises and their loved Alma Mater.

"The Strenuous Life," a humorous and entertaining dialogue by the class, which was led by Miss Grace Iserman, who while trying to finish and write her graduating essay, after the valiant struggle of Teddy Roosevelt was annoyed by the persistent interruptions of her classmates, seeking her assistance in the preparation of her essays and graduating poems was cleverly given and enjoyed by the audience, especially its concluding class yells.

The beautiful, though sad exercises were concluded with the class song, the words of which were composed by Wallace Crosby, and arranged to music by Miss Margaret Davis. The last line of each beautifully appropriate verse was the class motto, "Non Sibi Sed Omnibus," which was also outlined in gold letters over the doorway in which the class was grouped.

The members of the graduating class of 1913 are: Tenney Deane, president; Margaret Davis, secretary; Alma Pagenhart; Selma Erickson; Albine Frank; Grace Iserman; Eleanor Roberts.

Alberts Pattishall, treasurer; Harry Kanner. Following is the program

PRESS GANG WILL MEET

Editors Will Hold Annual Meeting in Tampa in June

Tallahassee, May 20.—The executive committee of the press association met in the office of State Printer T. J. Appleby and the secretary was instructed to issue the official call for the meeting at Tampa June 26, 27 and 28. The first night which will be the first session, will be taken up with the usual addresses of welcome, interspersed with a musical program to be arranged by the Tampa editors.

Hon. Frank E. Harris, editor Banner, Ocala, will respond to the address of welcome. The following assignment of places on the program was made:

Part of Program

"A Newspaper Man and His Conscience," Wallace F. Stovall, Tribune, Tampa.

"Letting the Other Fellow Run Your Business," R. R. Tomlin, Courier, Plant City.

"Boosting Your Home Town," A. K. Wilson, Tribune, Fort Pierce.

"Day Dreams in the Newspaper," Clarence E. Woods, Larke Region, Eustis.

"Does Good Printing Pay?" Oscar C. Conklin, Herald, Miami.

"What the Merchant Expects from the Newspaper," Lew B. Brown, Independent, St. Petersburg.

"The Cost System," James M. Burrow, Pensacola.

"Free Press Stuff," C. E. Howard, Citizen, Orlando.

"Making the First Page Attractive," Marey B. Darnell, Citizen, Key West.

Typothete To Organize

In addition representatives of the United Typothetae of America will be present and follow up the cost system instructions begun last year at Palatka and a state typothetae will be organized in connection with the Press Association. There is every indication of a large attendance at the Tampa meeting, whose Board of Trade will arrange a series of entertainments that will not

interfere with the business of the association. Resolutions of sympathy for Flagler's widow offered by Russell passed unanimously.

Talking About Lake

Tallahassee, Fla., Tuesday.—Much has been said of the apparent waste of time during the present session of the legislature, but Forrest Lake of Sanford delivered some cutting remarks yesterday. He began by summing up some foolish bills which had been introduced by reason of which time was used without result. "He had just voted for the primary bill or that part of which has to do with expenses or actions of candidates and said, 'I voted for that bill merely to make it possible to get it before the people; it is foolish in the extreme and I want the whole state to get a chance to see what is in it.' Continuing, 'What the senate will do is a plenty to it but don't you realize that something must be done to eradicate these freak measures.' Representative Lake does not drink

but he tiraded against some measures introduced in the senate and house.

Representative Lake is not crazy either but he went up in the air about a mile on the matter. The gentleman from Orange county was within a few inches of being made speaker and frequently presides when Ion Farris wants to step out and have a smoke.

Forrest Lake was an important factor in the creation of Seminole county, and together with "Bob" Holly of Sanford, the deal was put through with ease.

The member from the Celery City has the meanest look of any man in the house but when he unbends and cracks a smile, the change is delicious. Ferculous and forbidding, austere and chilly on the surface, but get close to him and he is one of the most companionable fellows you ever met."—Pensacola News.

Why does the News want to reflect upon the good looks of one of the most doltful members of the house? If he does at times possess that "meanest look," it was certainly not when he prevailed upon Mrs. Lake to become his companion.—Tallahassee Democrat.

SANFORD'S TEMPERATURE

Not Even County Division Raised the Average Temperature

The Herald weather man had an idea that the first few weeks of May in Sanford were more nearly perfect than any other part of this mundane sphere and the temperature caused us to get the official statement from Observer Dultose, and the same is very interesting when the temperature of the northern state where the extremes of cold and hot weather at the same time.

From the first day of May to the twenty-first day, the maximum temperature was 85 degrees.

The average minimum temperature was 60 1/2 degrees.

The average dry temperature was 71 degrees.

These readings were from the official government thermometer and taken at the official time in the early mornings. A comparison of this statement with the temperatures farther north would clearly demonstrate that Sanford's climate is ideal.

Prominent Educator Here

Prof. George M. Lynch of the University of Florida and supervisor of the rural schools of Florida, was in the city several days this week attending the High School commencement exercises and looking after the school affairs in Seminole county. Capt. Lynch also made an address to the scholars of the High School at the exercises Tuesday morning. He is one of the foremost authorities on educational matters in the state and the many compliments paid to the Sanford schools by Prof. Lynch were greatly appreciated by the school authorities and patrons.

Woodland Park Notes

Nearly a hundred children and grown-ups took part in the picnic held last Saturday at Woodland Park by the scholars of Miss Carrie Ensminger's and Mrs. Polk's classes.

The Mamie brought two big loads, besides others that came by land. Though the day was cloudy there was no rain to interfere and the children had a rip-roaring day of it. How they got outside of all that lunch is a mystery, but it did not interfere with their movements in the afternoon. They enjoyed

the pool and all the amusements to the utmost and were kept in good control by the ladies in charge.

Sunday a medium lot of visitors came. The Mamie brought one load and others came by auto, wagon and buggies.

The date of Miss Whitner's picnic has been changed from Saturday to Monday.

The launch service has been scant lately, the Mamie being used for the Enterprise ferry trips, owing to Capt. Tuttle's sickness, but this has been remedied as Capt. Preston will make regular trips to Woodland Park with the Viola hereafter.

Cameo Bridge Club

Mrs. G. F. Smith was hostess of the Cameo Bridge Club Wednesday morning. Mrs. Robert Newman made the highest score and will wear the cameo brooch until a higher score is made by some other member of the club next Wednesday. Mrs. Smith's guests were Mrs. C. M. Vorce, Mrs. W. R. Ann, Mrs. C. O. McLaughlin, Mrs. A. P. Connelly, Mrs. B. W. Herndon, Mrs. Robert Newman.

ATLANTIC BEACH

THE NEW CITY BY THE SEA

Where do you spend your summers?

Why should you go to Northern resorts when you can find rest and recreation within a few hours of home?

Why go to the mountains when you can find surroundings quite as healthful by the ocean?

Why spend your money for the discomforts of crowded hotels, when for less money you can have all the comforts and conveniences of your own home?

Why not own a home of your own designing at Atlantic Beach, fitted up with your own belongings, electric lighted, plenty of good water, good sewers and perfect sanitation, good neighbors and good surroundings, five minutes walk from the finest beach for ocean surf-bathing on the South Atlantic coast, miles of good smooth roads for your automobile, the coolest of summer breezes, good stores for marketing, good transportation, and all the comforts that make a summer in the South ideal?

These things are possible at Atlantic Beach. It is only seventeen miles from Jacksonville with which it is connected by one of the finest hard surfaced roads in the South, by a convenient steam railroad schedule, and by the promise of an electric line within a short time.

It is not an expensive proposition. The cost of the summer vacations in distant northern resorts will pay for a home here and furnish it in a few seasons. You can occupy it for half the year and rent it the other half.

Atlantic Beach is a new city. It adjoins the famous Continental Hotel, one of the finest resorts in Florida, and its building is opening up to permanent residents the wonderfully attractive features of this seaside place.

This property extends for five miles along the finest ocean beach in the country, and extends back over hundreds of acres of wonderfully beautiful palm and oak hammock. Historic spots, Indian mounds, and shell mounds are scattered through it, and magnificent drives lead to them. There is no more interesting place in the South.

Come and see it. If you cannot come, write for information. Find out about it. It is the most important home building development ever taken in the South. Strong men with abundant capital are behind it.

THE LEGISLATIVE GRIND

Law Makers At Tallahassee And Their Doings—Brieflets Of Legislative Nature By Special Correspondent

By R. J. Holly.

Since coming up here I learn that Seminole county will not be in the First district, as first reported, but will be in the new Fourth district and with our dear friend, Jacksonville and right now we people of South Florida should be looking out for ourselves before the capacious maw of the busy city of Jacksonville swallows us up whole. Everything in the state at the present time revolves around Jacksonville and it was my fondest dream that Seminole county would not be placed in the same district as the small county eater. However, we can only hope that all the counties of the new Fourth will stand together and attempt to keep the great body of perpetual candidates from Jacksonville getting all the plums. There are some mighty good men in the new Fourth district and they do not live at Jacksonville.

It hardly seems possible that the office seekers would come to Tallahassee of all the places on earth to put forward their claims for their positions that have no bearing upon the state, but such is the case and many of the Big Ones have been here this session pushing their claims for recognition and their ideas of what they should do while holding down the job at Washington. Up here at the state capital there were many rumors of who is who and who will be who in the state in the next four years and they have made up many slates, even Harry Floyd being mentioned for Governor. If Harry Floyd was Governor now he would have some fun with Seminole county and sometimes I wish he was because he would find some people down there wanting jobs who could beat him to the trough any day.

Tallahassee is the same old place and while it is some lonesome to what it was in the good old days of county division, when the bunch of Seminole Indians were at large and off the reservation it is just now in the first stages of the summer lethargy that I imagine will prevail after the bunch of legislators have wended their way homeward after their arduous labors of making and unmaking laws. Tuesday morning the law makers passed a bill or something of that sort that would hold night sessions three nights in a week to work up the local bills threatening to take up the greater part of the valuable time of the present legislature. It begins to look like now to a rank outsider that the last days of the legislature will be the best and the boys are getting down to work in earnest and with the determination of getting through and cleaning up the calendar. Representative Tomlin of Hillsborough this morning made the motion that the liquor interests were in a measure responsible for the clogging of the machinery at the capitol and the delays in the bills that might affect the traffic. There is one thing certain and one with half an eye can see the writing on the wall. If the liquor interests of Florida are not very careful there will be another campaign for state wide prohibition and it will pass the next time. To many of those people who are local optionists and are more or less apathetic over the liquor question the matter seems to be a desire of the liquor interests to ride rough shod over the people. This desire on their part will gain more support for the prohibitionists and the best thing for the liquor interests of the state is to play dead and nothing else. The majority of the people at the last election voted for local option and most of us are willing to let it go at that but we do not want the liquor interests to attempt to block legislation or rear their heads above the better interests of the state. That old saying of letting well enough alone holds good and while there is comparative quiet along the firing line the liquor interests had better keep in the background.

Some time ago I mentioned the fact that if Seminole county did not win out in county division the advertising would amply repay us for the loss and I still hold to that claim. The many office hunters "down home," who have lost sight of everything else have not stopped to think about this feature, but to the one who is in this business the vast amount of advertising that our county has received is certainly of some benefit. On my visit to the capital this week the cheery greeting of the members was "Hello, Seminole," and all of them want to know how the new county is getting along. They did not ask me who expected to hold this job and that job, but what they wanted to know was about the progress of the new baby, which they had created. Sanford and Seminole county have received greater recognition than ever before and the delegation that came up here on county division will never be forgotten. Even the head waiter at the Leon Hotel wanted to know about Mr. Forster and when he will be in Tallahassee again, and I half suspect that Mr. Forster must have tipped him at some time or other. The people here certainly miss the Sanford bunch and

the old Leon Hotel is not the same lively place that it was in the days of county division.

Tallahassee, May 20.—Among the more important bills of a general nature passed by the House of Representatives during the present session are the following:

Providing for the establishment of a State Fire Insurance Rating Board.

Bills creating a Bureau of Labor Statistics, amending laws relating to employers' liability, prohibiting the employment of minors in certain occupations and prohibiting employers from discriminating against employees who belong to or desire to join labor unions.

Appropriations for a monument to the women of the Confederacy and for a statue to General Edmund Kirby Smith to be placed in the National Hall of Fame.

The creation of three new counties, Bay, Seminole and Broward.

Making the burglary of occupied houses a capital crime.

Submitting a constitutional amendment abolishing the office of county treasurer.

Requiring county commissioners and members of county board of Public Instruction to give bond.

Bills appropriating funds for the state institutions of higher learning, for county scholarships in same for summer training schools for teachers. Also for Corn Clubs and Canning Clubs.

Providing for compulsory school attendance in counties voting for same.

An anti-lobbying bill.

The general revenue bill.

The Trammell bill abolishing the convict lease system.

Bryan primary bill and a corrupt practices act to restrict campaign expenses and prevent illegal practices in elections.

Dividing the state into four congressional districts.

Providing for the election of the United States senators by direct vote of the people.

An amendment to the pure food law. Providing for the distribution of the state school fund by giving each county the amount it pays in.

Providing that damages may be recovered from telegraph companies for mental anguish caused by their failure to deliver telegrams relating to the illness or death of relatives.

Many other bills of general interest but of less importance have been passed by the House, as well as a large number of local bills of a great benefit to the localities affected by them.

Ninth Street Now Being Paved To New Depot by the City Force

French Avenue and Oak Avenue Will Follow Also Part of Seventh Street to be Paved

The long looked for paving on Ninth street has started and a large force of men are at work this week grading the street and putting down the brick.

A new wrinkle is being worked on this paving, as the force is all home talent and the paving brick is the flat, the brick laid the flat side instead of the narrow way of the other streets.

This new brick covers more surface and seems to lay faster and has the appearance of standing the traffic longer.

Ninth street will be twenty-five feet wide from Park avenue to French and from French to the new depot will be 24 feet to take care of the increased traffic that will come from French or go out that way from the depot.

Cutting the width this trifle enabled the city to build a nine foot street on French avenue and this street while narrow at present will be so constructed that at any time in the future it can be made wider.

The work on Ninth will be pushed and the council hopes to have this street in fine shape in time for Sanford's big Fourth of July celebration, as most of the traffic for that day will pass out Ninth coming and going from the new depot.

At the rate of the force today it will not take long to complete the work on Ninth and then French and the remaining part of Oak avenue will be finished, and Sanford will then be one of the best paved cities in the entire south.

In a few weeks the county road work will also start and this will include the streets adjoining up with the country roads and there will be an unbroken chain of some eight miles of city brick streets and one can ride any where in the city over good brick streets.

Supplementary to Sanford's good brick streets will be the brick roads through the great celery delta of some twenty-five miles of brick country roads. There is nothing in the south to compare with this great work of paving.

Sunday Morning Fire About 12:30 Sunday morning the prolonged blowing of the fire alarm whistle at the water works plant startled the inhabitants and a bright blaze in the eastern part of the city brought the crowd to the corner of Sanford avenue and Second streets, where the old Windsor Hotel building was found to be fiercely burning in the roof of the house.

This is one of the ancient landmarks of the early city of Sanford and like all ancient landmarks burned slowly enough to be extinguished by the department before any large amount of damage was done.

Louis Paine, who occupied the lower room for a grocery and meat market suffered the greatest loss, as all of his stock and fixtures were at the mercy of the volume of water that were poured into the upper part. Several negro families who occupied the upper stories were forced to seek other quarters.

The Big Picnic Thursday The big Sunday school picnic at DeLeon Springs next Thursday promises to be the greatest affair of the kind that has ever been pulled off in this section.

The train will leave the new station at 8:20 and returning will leave the springs at 5 o'clock. The fare will be 50 cents for adults and 25 cents for children. The baggage coach will be left at the old depot on First street for some time early in the morning for the folks to leave their lunches and baskets and other baggage.

Everybody is invited to attend the picnic and all the stores except to close and make the day a gala occasion. Come out and enjoy yourself for one day.

Crowd at Woodland Capt. Fulton of the yacht Ramona took a jolly party to Woodland Park Sunday afternoon. Those in party were Mr. and Mrs. Gray, Mrs. Helen Davis, Mr. and Mrs. Buck Davis, Mr. and Mrs. Wemmer, Mr. and Mrs. Jaa. Harris, Messrs. Norwood, Woodruff, Sean and Tilden. All report a most enjoyable time. Woodland is getting to be a very popular place for Sanford folks on a hot Sunday afternoon and last Sunday there were sixty-two people in the pool at one time.

The Sanford section has been blessed with some fine showers the past few days.

POST OFFICE CLERKS

National Association of Florida Will Meet in Our City

Next Thursday and Friday Sanford will entertain the National Association of Postoffice Clerks of Florida and the city will be crowded for two days with the people who for twelve months in the year look through the barred windows of the various postoffices of the state.

The officers of the Association are as follows: Frank Sanford, president, Fort Tampa, W. H. Wright, vice president, Sanford, Fla.

A. P. Gilmore, secretary, Ocala, Fla. W. C. McLean, treasurer, Orlando, Fla. Organization Committee: C. M. Drubaker, chairman, Jacksonville, Fla.

Finance Committee: H. E. Ross, chairman, Jacksonville, Fla. W. H. Wright of this city, the popular vice president was instrumental in urging the clerks to meet here this year and it will be up to the people of Sanford to assist the local branch here in showing the visitors a good time while they are in the city.

There will probably be about seventy-five or more in attendance at the postoffice clerks like other slaves are obliged to be on the job at least thirteen hours out of the twelve and many of them will be unable to get to the meeting.

A trip up the river and fish fry at Fort Florida has been promised the clerks while here and they will also be shown over the city and celery delta and the new site for the Sanford government building, the new court house and the new officers of the county.

The twenty-five men who have been endorsed for the postmaster's job here will also be at the meeting and deliver messages on the way to manage postoffices from the outside of the window.

Married at Monroe Miss May Priester and Mr. L. H. Coward were united in marriage at the home of the bride's grandparents, Mr. and Mrs. R. T. Wynne at Monroe last Sunday afternoon at 3 o'clock. Rev. H. T. Gaines of the Methodist church officiated and a large number of relatives and guests were present to witness the ceremony.

While Mrs. Gibson played the wedding march the bride and groom stood before the minister accompanied by Misses Helen Jaerman and May Aughton and Messrs. Harry Allison and Robert Priester while the solemn words that made them one were pronounced.

Both of the contracting parties are well and favorably known in this community, the bride having been a resident of Monroe for many years and the groom having taught school at Monroe last term where Cupid shot his darts at them and the wedding resulted.

After congratulations the happy couple came to Sanford, leaving for Orlando tomorrow where they will make their future home.

Mr. Coward expects to engage in the real estate and insurance business and The Herald joins their numerous friends in well wishes for a long and happy life.

Twenty Million Mortgage Pensacola, May 22.—Through their attorneys, Vans Agnew & Crawford of Kissimmee the Southern Utilities Co., the corporation which recently purchased a number of public utility plants, such as ice plants, refrigerator plants, electric plants, water works, etc., in various cities throughout the state of Florida, has filed in the court a mortgage involving \$20,000,000. This mortgage was filed following the sale of twenty-year bonds to this amount, bearing interest at the rate of 5 per cent.

The mortgage to the United States Mortgage and Trust Company is one of an issue of coupon bonds and of registered bonds, known as first mortgage sinking fund 5 per cent, twenty-year gold bonds, limited to the principal amount of \$20,000,000.

This is one of the largest mortgages ever filed in the office of the circuit clerk in this county.

Seventy-eight new members have been added to the board of trade in Jacksonville as a result of a membership campaign that is being waged in that city. No doubt this number will be greatly swelled before the contest is over.

Bonds amounting to \$750,000 have been sold and the money is in the bank for the extension of the Tampa and Gulf Coast railway to St. Petersburg and other West Coast towns, making a short line from Tampa to the Pinellas metropolis.

Junior Reception And Graduation

Mark the Closing Epoch of the Sanford High School For 1913

Two Brilliant Events in the History of Participants, Parents and Friends

The crowning event of commencement week was the beautiful and impressive graduating exercises which occurred Friday evening, May 23rd in the auditorium of the Sanford High School, when in the culmination of the life work and representing especially the last four progressive steps and years of High School work the class of six young ladies and four young gentlemen reached the goal of their hopes and ambitions, and received in the presence of their teachers, schoolmates, parents, relatives and friends their diplomas, with kind words of commendation and congratulations from the hands of Professor Perkins, superintendent of the schools.

While the Stumon orchestra played one of their fine selections George McLaughlin, grand marshal of the occasion, carrying a cane decorated with the High School colors, green and purple, preceded the faculty, school board, orator, minister and graduates down the right aisle of the auditorium to the rostrum where they took their places. Professor Perkins, Miss Clara Louise Guild, Miss Alice Tetherly, Miss Lillian Gibson, Miss L. Josephine Dameron and Mr. Roland Wildman, the High School faculty, on the right of the rostrum. Messrs. C. R. Walker, L. R. Phillips, B. F. Whitner, Jr., the local school board; Rev. G. B. Waldron of the Congregational church and Dr. William Fremont Blackman, president of Rollins College, Winter Park; on the left. The graduates, Misses Margaret Davis, Alma Pagenhart, Grace Isgrman, Selma Erickson, Eleanor Roberts and Albine Frank were seated in the front row of chairs, with Tenney Deane, Wallace Leland Crosby, William Albertis Pattishall and Harry Kanter on the second row of seats in the middle of the rostrum. The graduates made a very distinguished appearance in their grey caps and long grey gowns.

The invocation was made by Rev. G. B. Waldron, following which the Girls' Glee Club came upon the stage, and with Miss Lucre Chappell at a piano sang very delightfully, "Welcome, Sweet Spring Time," by Rubenstein and "Doan Ye Cry Ma Honey," A. W. Noll.

When the young ladies had returned to their places in the audience Mr. Wallace Leland Crosby advanced to the front of the stage and delivered an exceedingly interesting essay on the "Progress of Mechanics," particularly the most noted and helpful inventions and the centuries in which the mentioned inventions and improvements came into use as helpful adjuncts in the economy of progress to the present time, when the mechanics of the world are one of its greatest assets. Mr. Crosby's essay evidenced much of care, thought and research in the preparation.

Mr. William Albertis Pattishall followed Mr. Crosby with a subject of equal importance in its instructive interest, the "Seven Wonders of the Modern World," which Mr. Pattishall designated as forces and not objects or places like the seven conceded wonders of the ancient world. With convincing arguments these modern wonders were enumerated as the telegraph, wireless telegraphy, telephone, aeroplanes, radium, antiseptic and antitoxins and the X-ray. What the world owes today to these marvelous inventions and discoveries and the limitless scope of their future usefulness to mankind and world progress easily prove the correctness of Mr. Pattishall's assumption in his finely written essay.

Miss Margaret Davis' beautiful and well delivered essay on "The Influence of Music" appealed not only to the intelligence but to the souls of her listeners. Her tender, loving tribute to music was a re-echo from the heart of a musician upon the altar of which burned the "Inner Light," dedicated to the divine art which we know as music, and which can, with its influence awaken a slumbering soul when all other efforts have failed. Miss Davis concluded her charming essay in effectively demonstrating the influence of music by seating herself at the piano on the rostrum and playing with tender interpretation "Wagner's Evening Star."

In a few remarks congratulating the school, the board and the audience on their great good fortune in having Dr.

Woodland Park Notes The pupils of Miss Nellie Furen's Grammar School class had a big time at Woodland Park last Friday. First came a number of heralds on wheels to announce "We left them behind," finally three wagons and several buggies full of boys and girls, accompanied by a number of their parents and chaperones, rolled in. By the time Miss Furen got off her hat the children were in the pool. Lightning change articles could get some pointers from them in the art of quick undressing. The absence of life jackets, etc., at first alarmed Miss Furen, but after she and some of the other ladies dived in and explored all the deep places and found no undertow, sharks, etc., confidence was restored. All the amusement devices were kept going and though rain threatened a good deal it held up until everybody had arrived at home.

Sunday the Ramona brought a Party of men and ladies, most of whom are regular visitors, who like their Woodland pool.

H. E. Tolar and family motored out for a swim and others came in buggies. It was a nice day and everybody enjoyed the outing.

The park will be open Thursday, May 29th and only occasionally on week days this summer as the demand requires.

PRaises FOR TOLAR

Cashier of Peoples Bank is Commended for Advertising

The following from the American Banker is not only a commendation for Cashier Tolar but demonstrates that good advertising advertises even the banking business and is advertising the banking business advertises Sanford: Anything that will make the usual dry-as-dust statement of condition advertisement in the local press readable to the public should be of vital importance to the up-to-date banker.

There are few people even amongst the customers of the bank who read such a statement unless some untoward matter has happened to make them watch for it. The mass of figures mean nothing to most people and are seldom understood even by the more educated part of the community.

H. E. Tolar, cashier of the Peoples Bank of Sanford, Fla., has solved the problem in a clever and eminently practical way. In the last statement published by him under the heading of "total resources" he takes each item, names the amount and then tells exactly what that item means. For instance, he says, "LOANS AND DISCOUNTS, \$176,392.96: Showing the amount of money we have loaned for the upbuilding of the community at large, through the individuals. The larger portion of this is secured by collateral which is easily convertible into cash. In fact, our connections are such that should the occasion arise, we could realize on the entire amount at once."

Then again "CASH AND DUE FROM BANKS, \$114,635.28: It is with pardonable pride that we state the large amount of capital. Far from being idle funds in the common acceptance of the term, a large amount of this money due from banks is also a source from which the bank is able to draw revenue, being one of the most acceptable forms of investment because it is subject to our immediate demand without notice."

Under "Total Liabilities" he takes each item in the same way and tells what it signifies. For instance, under "Capital Stock, \$30,000.00: This is the amount that was paid in by our stock holders at the organization of the bank, and at a time when capital was not easy to obtain. This simply represents their investment in the bank and asserts their confidence in the community."

Any person, even a child, could understand such a statement and it becomes at once a valuable advertisement for the bank. If this advertisement were displayed in a better way from an advertising standpoint it would almost be an ideal ad.

Bankers should remember that 75 per cent of the people that are appealing to in most cases are ignorant, semi-ignorant or indifferent people and that it is positively necessary to make even the simplest advertisement so plain that be who runs may read.

This idea of Mr. Tolar's is a valuable hint to bankers which they may carry out not only in their newspapers statement advertising but in their printed periodical matter as well.

Big Fourth of July Celebration at Sanford

Seminole County Will Come Together on this Great National Holiday

Committees Appointed to Take Care of the Many Interesting Events

Come to Sanford on the Fourth. There will be something doing every minute and every minute will be a trifle more than sixty seconds and the entire twelve hours that constitute an ordinary day will be stretched some to accommodate the big crowd that will assemble here several days in advance and probably stay here several days after the celebration because the bars will be down and the gates wide open and everybody that comes here will receive the glad hand as only Sanford people know how to extend it. The Fourth of July at Sanford this year will be just a trifle different in that it will be an old fashioned picnic and barbecue and good time not only for the little boys but for the big folks, although the big folks will be young again and unbend for the day. The mayor and police force expect to take the blinders off for at least twelve hours and the town will be turned over to the crowd. Of course there will be no rough stuff and while having all the fun necessary it will not be safe to get too gay for the police will preserve order, no matter how painful.

However, there will be something doing and from early sunrise when the cannons roar salute and the bells usher in the day to the midnight hour of the Fourth and the populace and the visitor have a license to turn themselves loose in one grand celebration. Jim Herndon, Mayor, will be announcing the glad event and will soon be busy getting them up in every nook and corner of several counties and the crowd will follow, because they know that Sanford will give them one big day.

There will be parades, music, games, contests, ball games, boat races, athletic contests, tournaments, plenty to eat, fireworks and amusements for the evening. Seminole county bids the world to come to Sanford and help to celebrate the birth of America and the birth of the new county.

Following are the committees appointed: Finance Committee: B. W. Herndon, Chairman; J. A. Harrold, F. E. Houmillat, N. H. Garner, H. C. DuBose, B. G. Smith, Oviedo.

Transportation Committee: W. F. Shelly, Chairman; W. E. Watson, T. W. Lawton, Oviedo, W. H. Abernathy, J. H. Huddleston, Geneva.

SANFORD AND OCALA TRAIN

Marion County People Want to Join Hands With Us

The following from the Ocala Star is worthy of notice and action by the Sanford Commercial Club: As aforesaid, the present A. C. L. schedule is not convenient for Ocala or the people either north or south. The morning train comes through too soon and the evening train returns too late to suit the convenience either of Ocala people who want to go to Jacksonville or the lake, or the lake residents who have business in Ocala.

It is hardly to be expected that the schedule will be changed this summer. It has been arranged to suit the people of the Pinellas peninsula and the A. C. L. connections at Jacksonville, and Ocala doesn't cut enough ice with the railroad people to have her wishes consulted. So far as that system is concerned Ocala has been a reheaded step daughter since old man Plant died.

It would pay the railroad, however, if the train which now runs from Leesburg to Sanford and return every day had its starting and stopping point in Ocala instead of the Lake county town. Its 84 miles to Sanford, and a train leaving Ocala at 7 a. m. could reach the Calvary City before noon, and returning leave Sanford at 4 o'clock, arriving in Ocala at 9. This schedule would be convenient to hundreds of Ocala people who wish to visit the lake either for all day or the afternoon, and would also suit many others not only for this city but all the country round about who have business in Leesburg, Sanford, DeLand and other Volusia county points, who owing to the present chameleon-like arrangement of the state can't go from one side to the other without going scores of hundreds of miles out of the way, and taking days for distances that should be covered in hours.

The Star has a straight tip that the railroad would consider the matter if it was presented, and so recommends the Board of Trade to take action.

Sanford's Water System "Sanford will soon be able to boast of having the finest water system in the state, not only in service but in the quality of the water," says the Herald. This is a strong statement, but the Herald follows it up with some of the details of the improvements proposed in Sanford by the Southern Utilities Company, which recently purchased the water plant in that city. It is claimed that \$40,000 will be spent in the work, which has already begun. A mammoth standpipe will be erected and a system of aeration will be established that will meet the odor of sulphur which has been objected to in the past. Two large motor driven pumps will provide the pressure desired to force the water wherever desired and to make it particularly effective in case of fire, when the new system is introduced. Sanford will have the best kind of fire protection.—Times-Union.
