

# Noted Racing Dog, Worth a Big Sum, Dies At Longwood

## Waltz King Had Been In Only 11 Races; Cost Owner \$1,500

Waltz King, that sensational imported, two-year-old greyhound who was too good for the rest of the dogs at Longwood greyhound race track, died late yesterday of complications following disampir. Announcement of the death of the popular favorite of hundreds of regular customers served to overshadow most of the events at the track last night where a crowd of around 1000 spectators and women enjoyed another card of 16 fast events.

Purchased for a price reputed to have been \$1500, Waltz King had started only 11 races during his two years of life. He won eight races, came in second twice, and finished out of the money in his first race.

Ten races will be presented again tonight, starting at 8:15 o'clock.

# Campaign Opened By B. F. Paty In Lengthy Address

## WEST PALM BEACH, Jan. 24

(AP)—B. F. Paty opened his campaign for the Democratic nomination as governor last night with a rousing address to the state administration, which he termed a reign of terror.

Calling the appointment of legislators to other state jobs "perhaps the most invidious and treacherous practice which has appeared in this state in recent years," Paty said he favored a constitutional amendment to outlaw such employment.

He said he would enforce the laws, but "would never advocate nor give my approval to any law, no matter how attractive in hypothesis, if there was a good reason to believe that it would be in practice or executed, because that kind of a law is much worse than none at all."

"No person can truthfully dispute the fact," Paty added, "that this state within the past few years has been thrown wide open to gambling, vice and crime, and in open defiance of the laws of this state. That condition is proof positive of the fact that protection is given by those sworn to try to prevent that which they are permitting."

The former chairman of the State Racing Commission said he favored for schools "a certain and definite appropriation from proven tax sources to insure full terms with liberal pay for teachers."

He said he would like to see regulation of all public utilities through a reorganized railroad commission.

# Jackson Day Dinners Of State Democrats Raised Over \$8,000

TALLAHASSEE, Jan. 24.—(AP)—President B. F. Paty of the Florida Young Democrats reported that Jackson Day dinners in this state netted \$8,231.97 toward paying the debts of the National Democratic Party.

Fifty-two dinners were held and 5800 guests attended. Mitchell said. They paid about \$12,000 for the privilege, he said, but out of this came the costs of preparing the dinners.

Jacksonville led the state with \$2,400.11 out of 648 dinner tickets, while Gainesville was second with \$680.50 from 246 tickets.

Other leading cities were listed as Ocala, \$406.50; Tampa, \$345; Tallahassee, \$316.50; Brooksville, \$215; Sarasota, \$215; Jasper, \$230; Pensacola and Orlando, \$200 each, and Miami, \$196.

## 11 Candidates Enter In Race For Governor

### Half A Dozen Others Said To Feel Urge To Seek Position At June Primaries

TALLAHASSEE, Jan. 25.—(AP)—Eleven men have made formal announcement of their candidacy for governor in the Democratic primaries this year, and half a dozen others have been mentioned prominently as prospective candidates.

If all of them qualify by paying the \$375 fee required, it will be a record field of candidates for the office.

Governor Dave Scholz is prohibited by the Constitution from seeking re-election for a successive term.

The field of candidates for governor is followed, in point of numbers, by five aspirants for the post of state superintendent of education.

Those who have made formal announcement for governor are Grady Burton of Wauchois, Stafford Caldwell of Miami, Jerry W. Carter of Tallahassee, Dan Chappell of Miami, Fred Cone of Lake City, Raymond B. Gautier of Miami, W. C. Hodges of Tallahassee, Carl Maples of Wakulla, B. F. Pate of West Palm Beach, W. Raleigh Pateway of Tampa, and Peter Tomasello of Orlando.

Unlike the campaign four years ago when two former governors were candidates, there is no former governor in this year's list of Democratic aspirants.

Three men have announced their candidacy for state treasurer. They were W. V. Knott, the incumbent; Cyril Baldwin of Sebring, and Samuel W. Gessen of Bushnell.

So far, R. A. Gray, secretary of state, and Cary D. Landis, attorney general, are unopposed for re-nomination.

### License Fee On Cars Must Be Paid State By Part Time School

TALLAHASSEE, Jan. 25.—(AP)—Motor Vehicle Commissioner H. F. Misset was told today by Attorney General Landis that state license fees should be collected from automobiles used by the Riverside Military Academy in its three-month school term at Hollywood, Fla.

Misset requested an opinion on the question, saying the academy, located at Gainesville, Ga., conducted a three-month period of school at Hollywood and brings into the state several motor vehicles used in the transportation of the students and for the transportation of freight and other goods, required in the general operation of the school.

Such vehicles, the attorney general answered, are subject to the state license requirements.

### Al Smith's Address To Be Broadcast At 10 O'Clock Tonight

WASHINGTON, Jan. 25.—(AP)—Alfred E. Smith's address before the Liberty League dinner tonight will be broadcast over all Columbia Broadcasting Company stations for an hour, beginning at 10 o'clock EST.

WASHINGTON, Jan. 25.—(AP)—With heavy snow still blanketing the window, President Roosevelt said he was hopeful of making his annual brief fishing cruise in southern waters this winter.

## Baby Identity In Hauptmann Case Doubted

### Criminologist Will Raise Question As Hoffman Asks Use Of A Lie Detector

TRENTON, N. J., Jan. 25.—(AP)—Lieutenant Robert W. Hicks, Washington criminologist, announced today he would use the report of the Lindbergh family physician to challenge identification of the body believed to be the kidnapped Lindbergh baby.

Hicks, hired by the Magazine of American Astrology, skeptical that Bruno Richard Hauptmann killed the Lindbergh child, quoted from a report given on May 4, 1933 by Dr. Phillip Van Ingen eight days before the body was found. That report said: "Both little toes were slightly turned in and overlapped the next toe."

Hicks said this differed materially from a description of the feet given by physicians who examined the body after it was found.

Governor Harold G. Hoffman today invited prosecutors and defense counsel to agree to a lie detector test. Legality of such a move is uncertain. Some authorities said legislation would be needed to make results binding on the state and the defense. Others said a lie detector test might be classified as mental examination for which the law provides.

Both defense and prosecution lawyers will be present if a lie detector test is given to Bruno Richard Hauptmann in an attempt to learn the whole truth about the Lindbergh baby murder, Gov. Hoffman said.

The governor conferred Thursday with the lie detector and claims it is 100 per cent efficient in getting confessions from guilty persons.

### No Danger From Frost Is Seen By Weather Man

LAKELAND, Jan. 25.—(AP)—Florida citrus and truck crops will not be damaged by temperatures in prospect for tonight and Sunday morning, the Weather Bureau here said today. Temperatures above 23 were forecast for the district.

The nation north of Florida still suffered from the worst cold waves of many years, with resulting deaths set at more than 150. With thermometers still registering below zero in many sections a new sub zero plunge was reported on its way from the Northwest. Lincoln, Neb., had 14 below zero with temperature dropping steadily. In Minnesota the two cities of Minneapolis and St. Paul had warmed up to 20 below zero, but snow and colder was predicted.

### Park Avenue Paving Between 7th And 8th Finished This Week

One block of pavement full width of the thoroughfare was laid on Park Avenue this week. The completed block is between seventh and eighth streets, including the intersection of seventh Street. Paving crews are now working today and they will not work Monday, but on Tuesday they will start in again at Eighth Street and work toward ninth. The brick pavement is to be completed to seventh street where it will join with the asphalt pavement before any brick is laid on Park Avenue in the down town section.

Another paving crew on first avenue completed laying brick to the Park Avenue intersection late yesterday. Work on that street is due to be resumed Monday.

### Orlando Man Killed In Fall From Roof

## Casualties Conceded By Italy; Victory Is Claimed By Ethiopia

### Sheriff Orders The Arrest On Monday Of Any Motorist Driving With 1935 License

Deputy sheriffs were today instructed by Sheriff J. F. McClelland to arrest on Monday any motorist found on the highways of Seminole County driving a vehicle with a 1935 license tag. His orders are to arrest such drivers, not simply to warn them to get the new 1936 plates.

"Arrest them all, I don't care who they may be, even the governor himself," declared Sheriff McClelland. "Don't make any exceptions, don't show any favoritism. Enforce the law strictly without fear or favor."

Enforcement in this County of the law providing that new license plates must be obtained before Jan. 15 was delayed by Sheriff McClelland until a ruling was received from Tallahassee as to whether license tags for the fall year must be placed on the old type school buses which must be discarded at the close of the school year. Information was received today that there is no provision for part-time licenses and that drivers of the old buses must obtain new plates good for the whole year even though they can operate the buses for only half of the year.

The sheriff said today that it had been the practice of some persons who owned more than one car to buy only one plate and to switch that plate back and forth taking it off a car left in the garage and placing it on the car in use that day. But such practice "won't go," he said. "Every car must have a 1936 license," he declared, "and it must bear such a license if it is to travel the roads of Seminole County."

### Impartial Discharge Of Duties Promised By Sanford Lawyer

From now on, if elected, to give an "honest, faithful, impartial and conscientious discharge of the duties of the office," Robert W. Ware today announced his candidacy for the office of judge of the Seminole County Court. He said that he hopes to be able to personally see every voter of the county, especially those with whom he is personally acquainted, and to have an "honest, conscientious and heart to heart talk" with them before the election.

Mr. Ware was born and reared on a farm in Lincoln county, Georgia; was educated in the public schools of Georgia, and at Piedmont College and University of Georgia; taught school for some years in Georgia, and was superintendent of schools for Warren county, Georgia, for eight years. ### Grocers To Increase Advertising 20 Pct.

CHICAGO, Jan. 25.—(AP)—H. A. Sweeney, advertising manager of the National Retail Grocers Association, announced yesterday the organization would increase its newspaper advertising by 20 percent during the coming year. Last year, he said, about \$2,000,000 was spent.

"Grocer's advertising by individual grocers has proved ineffective," he said at the association's annual convention. "Newspaper advertisements more readily reach the consumers and are less expensive."

The association adopted a resolution pledging the 20,000 members to urge their customers to read the newspapers in order that newspaper advertisements would be more widely read.

### Two Italian Fronts Taken By Ethiopia, Government Claims

(By The Associated Press)  
The Fascist high command on the northern Ethiopian front reported today casualties of 763 men in the Tembien offensive in which 5000 Ethiopians died. The Italians claimed that 4000 Ethiopians were taken prisoners.

At Addis Ababa the Ethiopian government said its troops surrounded the City of Makele, wiped out two Italian columns, and killed, captured or wounded thousands more of the enemy in the region. The Ethiopians claimed the capture of 10 Italian cannons and 100 machine guns. Ethiopian government claimed tonight the biggest battle of Ethiopia with two important Italian fronts taken.

League of Nations members awaited action next week of a committee of experts designated to canvass the effectiveness of existing sanctions against Italy. An assembly of all experts has been called for Feb. 10 in London to discuss the possibility of the abolition of an oil embargo against the Fascists.

Ethiopian authorities claim the Tembien battle, southwest of Makele, had cost 1700 Italian lives and 800 Italian soldiers, many of them of Austrian extraction, had surrendered to Kassa's men.

Associated Press dispatches confirmed the occupation of the deserted town of Neghelli, capital of Galla Borana Territory in the South, by Gen. Ruffolo's troops. The "hell on wheels" column—the climax of a six-day drive through Ras Desta Deme's army which gave the Fascists possession of all the water holes within 250 miles of De'e.

New British King Once Crowned By Indian Tribe

By HERBERT PLUMMER WASHINGTON, Jan. 23.—(AP)

Edward VIII probably is the first British king who also is chief of an Indian tribe in Canada.

Some years ago when the Prince was visiting his ranch in Alberta, the Stony tribe of plains Indians with appropriate ceremonies inducted him into their tribe as "Chief Morning Star."

This country knows Edward, Prince of Wales, well. He has made two visits to the United States. In 1919 he spent three days in Washington, visited other cities, too, and in 1924, he returned for a brief visit to the nation's capital.

President Wilson received the Prince on his first visit. They met in the President's bed chamber, where Wilson lay ill from a paralytic stroke. Afterward, the President's physicians said the Prince's visit did more to cheer Wilson than anything they had been able to do.

A private home was placed at his disposal while he was in the capital. A dinner in his honor at the British embassy climaxed his stay. The second visit was made at a time when the prince was traveling incognito. He called then, on President Coolidge.

His ranch in the Eden valley of Alberta is one of Edward's hobbies. He specializes in the breeding of fine cattle and horses.

The last time he was in Alberta was in 1924, but he keeps up an active interest in affairs there. In fact it is said that he originally purchased the property, known as the "E. F." (Edward, Prince) ranch, to set an example for other Britons.

"It's great fun to be a rancher, even if it is expensive," he once said.

When on the ranch, he wears ranch clothing, and enters eagerly into the day's work. His men there were astounded at first by his command speak of energy.

The "E. F." ranch was purchased in 1915. Mr. Speck, working there for the Prince, spoke of him as "H. H. H."

Supreme Court To Reconsider Taxing Of Chain Stores

New Hearing Given Because Member Of Bench Was Absent

TALLAHASSEE, Jan. 25.—(AP)—The way was opened for further dispute over Florida's much-disputed chain store law last night as the Supreme Court granted a motion for rehearing of its former decision which upheld major parts of the law.

The action throws the entire law back into the open fight, and subjects it to the possibility of a new decision which might even declare it altogether invalid. Generally, however, the court on rehearing a case adheres to its original decision.

Court officials said the motion for rehearing was granted because Justice W. H. Ellis did not participate in the original case because of illness.

In the former decision, four justices held the law was valid in levying a tax of one-half of one per cent on the gross receipts of all retail stores, and graduated occupational licenses, ranging from \$10 to \$400 according to the number of chains in a unit, did not violate the Constitution.

In that holding, three justices and Circuit Judge Frank A. Smith of Orlando, who substituted for Justice Ellis, concurred. Justices Rivers, Buford and Armistead Brown dissented in part.

The decision was in a case filed directly in the Supreme Court, and it was not on an appeal from a decision by which Circuit Judge J. B. Johnson of Tallahassee held the entire law invalid. That decision was appealed to the Supreme Court yesterday.

As originally written by the Legislature, the law was contemplated to produce \$4,000,000 to \$4,500,000 for the state's public schools. That estimate dropped to \$2,500,000 or \$2,750,000 when the Supreme Court ruled the Constitution would not permit a gross receipts tax scale graduating up to five per cent on companies operating 16 or more stores in a chain.

Earlier yesterday, the court heard arguments on all undecided questions about the chain store tax. It is not covered in its former decision.

The main point at issue was when the tax was effective. Counsel for chain store operators argued it was effective when the courts ruling becomes final, while the state contended it was effective last July 1, as stated in the law.

Also argued yesterday was whether the act applies to lumber companies, furniture stores, restaurants, and tire and tube dealers, on which special occupational taxes are levied.

Decision on all such questions will be foreclosed the background until the court makes its ruling on rehearing the entire law and deciding which parts, if any, should be upheld.

Still to be considered is the question whether the chain store law was enacted before the end of the Legislature's constitutional 60-day session. Proceedings have been filed under the claim it did not so pass, and the Supreme Court refused to dismiss the case after a preliminary hearing. A final hearing has not been held.

Meanwhile, Judge Johnson's decision invalidating the whole law remains in effect, but it applies only in favor of the firms which brought the suit on which he ruled. They have an injunction restraining Comptroller Lee from collecting the taxes from them.

Informed of today's court action Governor Sholtz said the schools had nothing to fear.

"Regardless of the Supreme Court's decision on the act, schools will get \$9,000,000 this year as already advised," he said.

Hodges Formally Opens Campaign In Miami Speech

Homestead Amendment Supporter Is Governor Candidate

MIAMI, Jan. 25.—(AP)—Listing himself as "Homestead Bill," William C. Hodges, Tallahassee attorney and president of the 1935 Senate, formally announced his candidacy for governor last night.

First of ten planks in a platform on which he will seek election, Hodges said in an address broadcast by radio, was "the preservation and enlargement of the homestead exemption amend-ment."

Hodges, ardent supporter of the amendment adopted in 1934, declared homes would be restored to tax rolls and the "amendment destroyed" if a governor, who is "hostile" to the measure is named.

An unfriendly governor, Hodges asserted, could name court judges who might misconstrue the original meaning of the amendment.

Warning Florida "should not be turned over to either private or public grafters," Hodges said his platform called for creation of old age and mothers' pensions; opposition to a sales tax, and nuisance taxes on cigars, cigarettes and amusements; abolition of "useless" boards and commissions; reduction of automobile tags to \$5 except on trucks and buses; abolition of taxes on gasoline used by fishermen; simplification of state laws; support of labor interests, and provision for a nine-months' school term.

The candidate claimed a nine-months' school term could be financed "without either levying a sales tax, a single nuisance tax or in anywise destroying the homestead amendment."

Highlands Assessor Is Candidate For Treasurer Of State

SEBRING, Jan. 25.—Cyril Baldwin, Highlands county assessor, officially announced today that he will enter the race for state treasurer, subject to the Democratic primary.

He was first elected to office in 1908 and served twelve years as tax collector of DeSoto county. Since 1921 he has served as tax assessor of Highlands county, being appointed to the office when the county was formed from a part of DeSoto county. He served on the governor's tax committee in 1930 and 1931 and as co-receiver of the Southern Sugar Company at Clewiston.

Meeting Of Suspects In Miami Recounted By Alleged Kidnaper

LONDON, Jan. 24.—(AP)—Harry Sawyer, testifying in his own defense against charges of conspiracy in the \$200,000 Edward G. Brewer abduction, admitted he knew several persons mentioned in connection with the crime but denied any connection with the abduction itself.

Sawyer told of meetings with Edna Murray, acquitted in a previous trial in Sandusky, Ohio, and Miami, Fla., and with Willie Harrison, slain member of the Barker-Karpis kidnap syndicate, in St. Louis, 1934. He said he also met McDonald there, while he was considering purchase of a night club.

From Miami, he returned to St. Paul, in November, 1934, Sawyer continued, going thence to Des Moines, Iowa, and to Bellaire, Neb., where he and his wife took a cabin. Later they went to Omaha, where Sawyer saw Eugene O'Sullivan, his attorney, and then to Mississippi where Sawyer was arrested in May, 1935.
