Official Arrested For Embezzlement

WASHINGTON, Nov. 8 (INS)-H. Clay Powell, assistant chief field deputy of the International Revenue Bureau, was aressted today, charged with embezzlement of \$2,500. The warrant was served while Powell lay in a sickbed in George Washington Hospital suffering from appendicitis. Galen L. Taitt, Collector of

Internal Revenue for the Washington district, removed Powell from office a short time before following an investigation which he said involved "certain reprehensible matters." U. S. Commissioner Turnhage visited the hospital and put Powell under \$5,000 bond to appear for a hearing Dec. 8.

EASTERN STATES WRANGLING OVER RIGHT TO RIVERS

Battle Between Connecticut And Massachusetts Starts Over Latter's Efforts To Divert Water For Boston

HARTFORD, Conn., Nov. 3 (INS) The states of Massachusetts and Connecticut are at odds again. The army has been appealed to, the surreme court has been asked to take a hard. But it is not a serious affair, at that. The only question at issue is whether a state has the righ to increase its supply of potable water by diverting its rivers so they will no longer flow through another state.

The army's part in the affair is to decide whether navigation will he affected. The supreme court is asked to halt the diversion of rivers now flowing southward through Connecticut so that they will keep their waters in Mass-

Seminole's Trucking Possibilities

The Herald has had a great deal to say lately about the agricultural wealth of Florida in general and Seminole County in particular. We have stressed the need for a more extensive development of Seminole's back country and we have pointed out the importance of exploiting our farming possibilities. There is greater potential wealth to be found in Seminole County's soil than in any other established commercial activity. This fact we should point to with a great deal of pride.

Few counties in the state can boast of the agricultural output of Seminole County. Not only is it the center of the celery production for this state but it ranks with other sections in the growingt of other vegetables. Each year millions of dollars are brought into this county from its soil and millions more should be added to the wealth that is now pouring into our coffers. Last year a gross total of \$5,447,100 was derived from celery and other products. This large sum was ing a rich man and a former cabinet realized despite the extremely poor market conditions ex- officer accused of bribery, said, perienced by the celery crop throughout most of the season,

A survey of last year's vegetable shipments for Seminole that he expected, when the case County and the entire state has recently come into possession as long as a city block." of The Herald. It revealed that twelve carloads of beans were shipped from Sanford with a return of \$7,800. Thirtyone cars of cabbages brought approximately \$15,500. Semin- ially the very rich, are supposed ole shipped thirty-nine cars of eggplants for an income of to set a good example. At least over \$15,000. With 456 cars of lettuce, this county shipped they are incerested in maintaining one-third of the state's output and its income from these then, first of all. shipments was \$228,000.

Local growers shipped 187 cars of peppers and received average mint when a detective \$130.900 for them while five cars of potatoes brought \$3,500, agency "trails" members of the Thirty-nine carloads of tomatoes brought \$31,200 and sev- Fall-Sinclair oil jury, plainly seekenty-seven cars of mixed vegetables enriched Seminole bought. County growers to the extent of \$30,800. Out of a total of 7,677 cars of celery, from Florida, Seminole shipped 6,576 for a total return of \$4,922,000. Miscellaneous shipments, total- went about examining rich men's ling 103 cars, brought in a revenue of \$61,800. Altogether this houses to find how burglars county shipped 7,525 cars of vegetables, which was about one-sixth of Florida's output.

That there is already an increased interest in Seminole interest of high tinance is differeth; and I am withered like grass. soil is shown by a recent survey that revealed that 244 more ent from a burglar's attack on But Thou, O Lord, shalt endure for acres of truck crops have been planted this season than last year. This information is significant when we consider that the increased acreage represents a potential wealth of thou- centil of J. P. Morgan & Co., is sands and thousands of dollars. With our acreage continuing learning about other political meto grow, Seminole County should soon occupy its rightful thods in Mexico. Three days ago he place as center of the vegetable producing section of Florida, vas cating ham and eggs on Presi-

In the train, going to the party I could never smile again, after crying with that poor woman, But I went to the party and danced all woke up in the morning, ashamed to think how easily I had forgot-

Poor Marceline, now on his cold stab, learned also that the world forgets easily.

THE REV. G. A. S. Kennedy, British , says, "Britain stopping famines and plagues in India has sent the population from 100 ; 20 millions. Now Hindus want ! get into Africa, where there nore room."

European races in South Africa are attending to that.

Absence of plagues and famines Asia has increased population there also. And they are anxious to get into the United States. That also will be attended to.

THAT NEED NOT worry yo Henry George reminds you that if a puppy dog's tail kept on grow. ing as it grows when he is a pupry each old dog would have a tail 30 feet long. No dog has such a

To begin with Texas could feed the 1,800,000,000 people now on earth, under intensive cultivation. In the second place, flying machines will enable people to live with plenty of room for ten billion humans, on hilltops and mountains with no inhabitants today.

And in the third piace, when people became highly civilized they will have fewer children. Providence leaves nothing important to chance.

Greece, disturbed by assorted ism and Heaven knows what, requests our government to tell the Greek government how we "control

George A. D. Cottes placed the maximum bond issue advisable at this time at \$100,000 and \$350,000 as a more conservative figure.

Aside from the mounting figure which Mr. Shinholser warned the commision might reach \$1,000,000, Mr. Douglass' chief objection to a county issue was the fact he believed it would not be approved by the voters, while he said 90 per cent of the voters in Districts One and Two would favor the district bond issue for finishing the boulevard alone. Commissioner Boston Steele said he agreed with Mr. Douglass that the issue would not carry before the entire county.

Mr. DeCoties told the Commission in his opinion the district bonds would not get the approval of national bond attorneys, and even if they did would bring an extremely low price. He said five and one-half per cent county bonds should sell at a premium if the issue did not exceed \$400,000.

The completion of the boulevard through the sale of district bonds an emergency measure, Mr. Douglass told the Comission in presenting the plan. "He said the \$300,000 already spent there would

Citrus And Flowing Well Acreage Longwood District

We wish to announce to the public and to prospective settlers, that Mr. R. S. Entzminger, Bank Building, Longwood, Florida, has been selected to handle the sale of the Overstreet Properties in Seminole County, comprising over 3,000 acres Wekiwa River flowing well celery and vegetable lands and more than 7,000 acres hillylake region citrus fruit and poultry lands. Most of the hill land are underlaid with clay, making them desirable for grape growing in addition to citrus fruit. There are a number of clear water, sand beach lakes within these properties and paved highways penetrating in all directions, including the new 100 feet wide Black Bear Trail with considerable frontage on both new and old trails in the vicinity of Robinson Springs and Spring Hammock,

This is perhaps the finest body of land in Seminole County and will be sold by Mr. Entzminger either in large tracts for actual development or in small parcels to bona fide settlers on reasonable terms.

Drive out to Longwood and take a ride with Mr. Entzminger over Central Floridas most beautiful hill and lake region section.

When watching the races did you realize the care, selecting and breeding that had been done to produce a winner? No doubt you did, The same principle applies just as fully to the breeding of fine seed. Our BRED RIGHT is just what the name sign fies. It means that years have been spent in careful breeding, selecting and re-se's ecting, rogueing, right planting, cultivation, handling, cleaning and grading the seed stock, which is thus bred up to the very Highest Standard, thereby insuring th grower a crop of greater vigor, productiveness, purity, trueness of type, freedom from disease, and uniformity of plant-growth.
