

Record Crowd Expected At Opening Of Season Here Sunday

Fans Are Urged To Help Win Gold Cup

Play Against DeLand; Game Begins At 3; Manager McCrone Announces Lineup

Who Are The Men On Sanford Team Of State League?

The newly organized Florida State League of organized Class D baseball opens the 1934 season in Sanford Sunday with a game between the Sanford Lookouts and the DeLand Reds, and from then on until Aug. 26 there will be games nearly every day, including Sundays. Three games a week, sometimes four, will be played in Sanford.

Here are the men who Stuff McCrone, manager of the Sanford Lookouts, will start in tomorrow's game with the DeLand Reds, the opening game of the season.

Slone, center field. Played center on the DeLand team in a year and at the close of the season was accredited the honor of being the best fielder in the league.

Bonner, shortstop. Played with Leesburg last year. A favorite with the fans here because of his hustle and ability to cover a lot of ground.

McCrone, first base. Manager of the club. Played with the Jacksonville Tars last season, manager of the Daytona Beach Club the year before. Fast.

Swindell, left field. Played the outfield with Sanford last season.

Cates, third base. Played on the Sanford Club last year in outfield.

Harnes, right field. Loaned to Sanford by the Chattanooga Lookouts and considered by the big club as one of its best prospects.

Wagner, second base. Seventeen years old, from Kirkwood, Mo. Made a record on high school nines.

Blistruff, catcher. Played third base on the Jacksonville Tars last year, one of the high standing men in the Northeast Florida League.

Veal, pitcher. Played on the South Georgia League last season.

Loper, pitcher. Pitched for Sanford last year.

Hardin, pitcher for Sanford last year.

Tom Simpson, president of the Seminole County Chamber of Commerce, will pitch the first ball in the opening game.

As the visiting club, the DeLand Reds will go to bat first.

"We've got a good team," Stuff said, "and I honestly hope we'll have a smashing big crowd out at the field tomorrow to encourage the boys and give them a good send-off at the start. That helps a lot, you know. And if we do turn out a crowd we'll stand a mighty good chance of getting that attendance trophy, I've always considered Sanford as one of the best baseball towns on the circuit."

The bats for the club arrived today and it is hoped that the caps and Sox for the players will show up before tomorrow noon. They were shipped several days ago.

Managers Predict Upsets In Junior League Next Week

Two Games Scheduled By League-Winning Seminoles 3rd Week

TEAM	Won	Lost	Pct.
Seminoles	3	0	1000
Yankees	3	1	.750
Pirates	2	1	.667
Cubs	1	2	.333
Red Sox	0	2	---
Giants	0	3	---

Here's the dope from the managers of some of the clubs in the Junior League: There will be some upsets next week, the third of the season.

The second week closed yesterday with the Seminoles still ace high without a single defeat to mar the escutcheon of their banner. Also, the week closed with the Giants in the cellar without a single, solitary victory to their credit.

But next week! The Seminoles are scheduled to play twice, on Tuesday against the Pirates and on Thursday against the Cubs. The Pirates have won two games and lost one, and Manager Maxwell Stewart thinks they have a good chance to help topple the Seminoles from their lofty throne. The other Seminoles game, with the Cubs, who have lost one game, might also result in a Seminoles defeat. Such should be the case, Manager St. Clair Cameron of the Cubs thinks.

The Pirates won yesterday's game by default. They and the Red Sox were tied, 11 and 11, in the sixth inning with Captain Alvin Othem of the Sox left the field. The game was therefore forfeited to the Pirates.

Fans To See Score On Electric Board At Sanford Field

An electric score board, the latest thing in score boards, is being built at Sanford Field. It may not be completed in time for the opening game tomorrow, though construction is being rushed today. The score board will be operated from the grand stand and fans will be able to see in light, how many strikes and balls have been called against the man at bat.

Score by innings will be recorded by big painted letters on a big board.

There's also space for advertising on the baseball fence, directors of the Sanford Baseball Association announce, and anyone wishing that kind of advertising is asked to get in touch with Henry Watson, telephone 720.

Giants, Red Sox, White Sox Retain Perfect Standing

One In National And Two In American Haven't Lost Game

The New York Giants in the National and the Boston Red Sox and the Chicago White Sox in the American League still retain their 1,000 standing in the percentage column of the major leagues. Neither has as yet lost a game.

The Giants yesterday defeated the Philadelphia Phillies 4 to 3 in a 10 inning game; the Red Sox defeated the New York Yankees 8 to 0; and the White Sox defeated the Detroit Tigers 5 to 3.

In the National League, Pittsburgh is in second place; Philadelphia, Cincinnati and Chicago are tied in third place; St. Louis is in fourth place, and Boston and Brooklyn are tied at the bottom of the ladder.

In the American League, Washington is in second position, Cleveland third, Detroit fourth, New York fifth, and Philadelphia and St. Louis are tied in the cellar with only one game each to their credit.

Local Team Will Enter Tournament For State Honors

Only 2 Matches Lost To Visiting Team On Sanford Courts

Sanford defeated Orlando at tennis yesterday by the decisive score of 5 to 2. The matches were played on the Randall Chase private courts, and the local high school team lost only two of them, one single and one double.

This is the third tennis match Sanford has won this season and as a result the Sanford team will enter the state tournament in June. Sanford first tied Apopka and DeLand, but in return matches the local team defeated Apopka 5 to 1, and defeated DeLand 3 to 1.

Scores in yesterday's tennis matches were as follows: Billy Zachry of Sanford defeated Higginbotham of Orlando 6-2, 6-1.

Herbert Smith of Sanford defeated Wally of Orlando 6-2, 6-3. Charles Robinson of Sanford defeated Swope of Orlando 6-4, 6-3.

Jim Morgan of Sanford defeated Hunter of Orlando 7-5, 8-4. Julian Adams of Sanford lost to Cerros of Orlando 2-6, 5-7.

In the doubles play, Zachary and Smith of Sanford defeated Higginbotham and Swope of Orlando 6-2, 6-0; and Robinson and Morgan of Sanford lost to Cerros and Wally of Orlando 6-8, 4-6.

The Sanford tennis team plays New Smyrna next Thursday night.

Scouts Eye Kansas Relays As Cradle Of The Decathlon Team For The 1936 Olympics

LAWRENCE, Kas. Apr. 15.—(AP)—The search for super-men to represent the United States in the 1936 Olympic decathlon tests at Berlin begins in earnest at the 14th annual Kansas Relays here next week-end.

Dees, Kansas who set a shotput mark of 81 feet 3 3/8 inches last year, is the only 1935 Kansas Relays champion out of competition. Iowa, which shattered two relay marks last year, will be back with two members of the record-breaking teams—Briggs and Dogey—still running.

It was this outdoor track and field carnival, the Midwest's major circuit path premier each spring, which created all three U. S. decathlon stars who sprang to the colors with marked success at Los Angeles in 1932.

The all-Kansas delegation four years ago was headed by James A. Bausch, the "Jarring Jim" who swept on from his Kansas Relays triumph to win the Olympic 10-event test and establish a new world record.

The other members of the 1932 U. S. trio trained by Brutus K. Hamilton, an Olympic decathlon contender himself in 1920 and 1924, were Wilson (Buster) Charles of the Haskell Indian Institute here, and Clyde Coffman, then of the University of Kansas. Hamilton, then the Kansas track coach, now is head of the same department of the University of California.

The Kansas carnival, in common with several other meets, has been authorized as a preliminary try-out for Olympic team contenders, with several events popular to the Olympic added to the program. These include the 400-meter hurdles, 3000-meter steeplechase, and the hop, step and jump.

Indiana, which sent the record-breaking medley relay quartet here last April, will be represented again, along with Illinois, Minnesota and Northwestern, also of the Big Ten Conference. The Big Six and western schools have nominated ready for the starter's gun. In the special events, Elwyn

Pat Shedy of Tallahassee, national A. A. U. handball committeeman, announced he would send entry blanks to any player who asks for them. Four-wall singles and doubles matches will be played in the Los Angeles tournament.

Mr. Angel suggested that those owners who lived in the vicinity of one of the suburbs, namely: Apalachicola, Boca Grande, Fernandina, Fort Pierce, Jacksonville, Key West, Miami, Panama City, Pensacola, Port Keverides, St. Augustine, and West Palm Beach apply to the deputy collector in charge for the application blanks. Those located in other sections who have not been notified of the change and supplied with cards should apply to the collector at Tampa.

\$10 Penalty Is Fine For Operating Motor Boat Without License

The deadline of Apr. 1 set by the Department of Commerce for the re-numbering of small motor craft with the customs department has passed. A. J. Angle, collector of customs for the state, reports.

"A great many correct applications have been filed by the owners for which new numbers have not yet been assigned. In such cases it undoubtedly would be recommended that no penalty be imposed for failure to have the new numbers on the boat. However, those who have made no effort to secure the new numbers are liable to a \$10 penalty as there has been no extension of the time."

Mr. Angle suggested that those owners who lived in the vicinity of one of the suburbs, namely: Apalachicola, Boca Grande, Fernandina, Fort Pierce, Jacksonville, Key West, Miami, Panama City, Pensacola, Port Keverides, St. Augustine, and West Palm Beach apply to the deputy collector in charge for the application blanks. Don't Be An Ethiopian

Shortly after the last war the world was hearing a great deal about national security. The League of Nations was in the process of formation and the statesmen of the leading countries were telling us that at least a means had been found to prevent strong, greedy nations from gobbling up their neighbors. Everyone was to be invited into the League and then if one nation jumped on another, all the other members of the League would pitch in and punish the aggressor.

The nations were thus induced to repose confidence in the League. Their national security was to be guaranteed. It would no longer be necessary for them to maintain large standing armies and to devote huge sums of money to national defense. Reduction of armaments was the order of the day. They were told they could depend upon the League of Nations to protect their independence. They could devote their national revenues to the arts and sciences, to social legislation, to the pursuits of peace. They would not have to worry any more about their enemies.

That was fifteen years ago. Since then the world has seen the race for armaments begin, reach unprecedented proportions. It has seen Japan attack and subjugate Manchuria and parts of North China. It has seen Italy attack and overwhelm Ethiopia. It has seen Germany violate the League of Nations agreement with respect first to rearmament and then to remilitarization of the Rhineland, with nothing done about it. It has seen Austria violate a treaty pledge against rearmament. It has seen Turkey tear up the Treaty of Lausanne and begin the fortification of the Dardanelles.

In what position does all this place the smaller nations of the world? How does little Austria feel, bordering as it does on the north of Italy, when it sees the powerful Fascist military machine in the process of destroying another little member of the League? How does Belgium feel, bordering on Germany, as Germany again reduces its treaties to scraps of paper? How do little Czechoslovakia, Yugoslavia, Rumania, Switzerland, Holland, Denmark and Lithuania, depending upon that super-government, the League of Nations, for their national security, feel, as they see the League steadily destroyed?

But almost paradoxically, as national security comes to be more and more a matter of independent action, of strong armies and natural alliances, devoid of dependence upon the League, we are beginning to hear a great deal about social security. While they are now ready to admit that no nation can depend upon super-government for its security, our politicians are insisting that the individual can now depend upon the government for his own security. While every government is obviously failing to protect us from enemies without, it is undertaking to pledge itself to protect us from such enemies within as unemployment, hunger, old age, sickness, disease, and death.

People are being told everywhere, not only in this country, but in practically every country of the world, that hereafter there will be nothing for them to worry about. The government will provide for them. They do not have to save anything for their old age because the government will pay them pensions. They do not have to save anything out of their incomes in order to educate their children; the government is going to see to that. Sickness, maternity problems, and all the other misfortunes of life are to be adequately provided for by the government. That is social security.

It is a magnificent objective. No one can have any criticism of social security as an ideal. But wise men will be slow to take it too seriously. Social security is something which has been promised to the people ever since the days of the Pharaohs. But there never has been a time when the people were secure except insofar as they made themselves secure by hard work, individual initiative and foresight, thrift and self reliance.

Believe, if you like, in the aims of social justice. Vote for social security. But don't forget to save for a rainy day. He who has his own nest egg will be doubly insured when the time comes to collect government insurance. Don't follow the example of Ethiopia and renounce too much confidence in the power of the super-state to protect you. Remember that God helps those who help themselves.

The Tampa Candidate

Among various prominent candidates planning to speak in Sanford in the near future is Judge Raleigh Petteway of Tampa. Up to this time a number of gubernatorial candidates have made their appearances here and have spoken to a fairly large number of people. The campaign has about reached the point where the people must come out and get acquainted with the candidates if they expect to know who to vote.

Speaking of our next visitor, the Tampa Tribune says: "Judge Petteway's campaign headquarters have been opened and established in Tampa, and a strong local organization formed. While the Tampa candidate has been difficult during the state, his home town supporters are taking care of the local and neighborhood situation and express great encouragement at reports from other sections. Judge Petteway may be depended upon to make a clear, direct and high class campaign, free from clapnet, demagoguery and compromise. He is that kind of man and therefore, that kind of a candidate. Unquestionably, whatever may be the situation to arise, he is now among the leaders in the race."

Louis McK. Howe, President's Aide, Dies In Capital

Friend And Advisor To Roosevelt Had Been Ill For Year

WASHINGTON, Apr. 20.—(AP)—New Dealers from the President on down to the last lieutenant of the Democratic high command were saddened by the passing of one of their shrewdest counselors, Louis McHenry Howe.

Mr. Roosevelt's long-time confidant died late Saturday night at Naval Hospital. He was 65 years old and had been in precarious health for more than a year. Death was caused by heart and chest complications.

For more than 20 years Mr. Roosevelt's first assistant and advisor, "Louie" Howe, often was called the "master mind" of the Roosevelt campaign in 1932. Despite his closeness to Mr. Roosevelt, however, Howe remained in the background as much as possible.

After the election, Mr. Roosevelt in his first public utterance said Howe and Chairman James A. Farley, of the National Committee, were more than anybody else, were responsible "for the great victory."

The friendship between the President and Howe started in Albany, N. Y., when Mr. Roosevelt was a youthful state senator and Howe a newspaper reporter.

Girl's Recovery Ends Long Vigil Of Mongrel Pup

MARION, O. Apr. 20.—(AP)—Fritz, a mongrel straddle-shoulder puppy, ended a 13-day vigil happy.

His mistress, 16-year-old Elizabeth Stinson, nursed him through a serious illness once. So when she came down with appendicitis, he tried to respond in kind. He sat outside the hospital door in darkness and in sunshine, in snow and bitter cold. Nurses persuaded him to eat after a few days, but he showed little interest in food.

When Elizabeth was wheeled out to go home, Fritz leaped joyfully on the stretcher. He yelped all the way home behind the ambulance. At home he took up guard at her bedside.

Pace of Tallahassee, that the five candidates meet on a platform at the home of each for "the purpose of presenting to the people in each other's presence our respective qualifications, records and policies."

Treasury Plans To Cut Red Tape For Bonus Vets

WASHINGTON, Apr. 20.—(AP)—The federal government in making cash payment of the bonus this summer, intends to proceed on the theory that all war veterans are honest men.

Those in charge of the machinery now being set up in the postoffice department virtually have decided to omit final formalities such as taking veterans' fingerprints.

As explained by one high government official, every effort will be made to simplify the procedure. When it is considered that treasury officials estimate if the bonus bonds to be issued were sold to the public, they would reach from New York to London and then at 90 on an agent in Moscow, the tremendous amount of routine involved in their handling is easily understood.

There is a sentiment of psychology in the decision of the government to remove as much red tape as possible in the issuance of bonus bonds which may be treated for cash.

Everything possible is being done to persuade the veterans to retain their bonds as long as possible. If treasury officials could figure out even approximately what would be done with this bonus money a lot of their troubles would be removed.

Fiscal experts, however, are so against something entirely new in government financing as banks and business men. A fraction of an advance in the interest rate on government securities will cause billions of dollars' worth of bonds to be sold by the market. The market is less than \$1,000,000,000.

The treasury is supposed to be the issuer of bonds, but it is not to be made a market for them. The treasury is supposed to be the issuer of bonds, but it is not to be made a market for them.

Oviedo Citizens To Spend Holiday Cleaning Up Park

Thursday half-holidays are observed in Oviedo as well as in Sanford and other communities of Seminole County, but next Thursday afternoon is going to be a work day for the population of Oviedo in the citizens' club's proclamation issued by Mayor Joseph Leinhardt.

The mayor's proclamation calls upon all citizens to assemble at Sweetwater Park for the purpose of cleaning up the underbrush and making a general cleanup of the park. His action follows a request made by the Men's Club of Oviedo at a recent meeting when it was decided to request the co-operation of the citizens in this work through a proclamation of the mayor. Everyone is expected to take along some tool to work with and a hearty response is anticipated.

It is understood that work will begin on the swimming pool in Sweetwater Park about July 1, and the cleaning up work started by the Men's Club is being done so that the park grounds may be used for holding meetings of a public nature prior to the starting to work on the swimming pool.

G. O. P. Senators Ready To Debate Tax Bill Motive

By HERBERT PLUMMER
 WASHINGTON, Apr. 20.—(AP)—Politicians here are convinced the hearings on the Administration's tax bill before the House, restricted as they were, have laid the groundwork for what is expected to be the focal point in the crucial battle over the measure in the Senate.

If it is whether the proposed bill is intended to be a vehicle for increasing revenue or one of reform. Pressed on this point by Republican members of the House and Senate committee, Herndon O'Day, general counsel of the treasury and credited with being the brains behind the proposal, declared flatly:

"This is not a reform bill; this is to satisfy the Republicans. They are a tax bill."

His statement, however, failed to satisfy the House. He wanted to know if Mr. O'Day, as chairman of the federal reserve board, was consulted; if Professor Tugwell was brought into conference; if Professor Felix Frankfurter of the President's alma mater and credited with a close administration advisor was consulted.

O'Day himself, a former professor, was quizzed on his former academic connections. O'Day steadfastly denied that any of the so-called "brain trust" figured in the picture; insisted the proposal originated in the regular way, in the treasury and bureau of internal revenue.

Opponents of the bill, unconvinced, point to what they call the vagueness and uncertainty among its sponsors as to its revenue-raising possibilities.

They also call attention to the fact that it is estimated around \$50,000,000 more will be levied on individuals in the large income brackets under the proposed bill than under the existing law.

And they refer to the claims voiced from the White House down the line that inequalities which now exist will either be removed or ameliorated under the new bill.

These criticisms are certain to be heard at greater length in the Senate. Strict rules of the House imposing limitations on debate prevent representatives from having their full say, but nothing of the kind prevails in the Senate, where a full and free airing of views is the rule.

Changes served at Administration "brain trust" however, especially if they come from the Republicans, may prove to be a boomerang in view of the latest

move of Henry P. Fletcher, chairman of the G. O. P. national committee, in setting up a similar organization.

While Fletcher is careful to point out that his group of professors is a "research staff—not a group of politically ambitious college professors with preconceived ideas" he will have a lot of difficulty in making that label stick.

Picture At The Ritz Is Full Technicolor

In Walter Warner's production of "The Trail of the Lonesome Pine," which opened last night at the Ritz Theatre, the first motion picture actually filmed outdoors in full Technicolor was shown.

Directed by Henry Hathaway, "The Trail of the Lonesome Pine" is a warm, glowing, and poetic presentation of John Ford, Jr.'s classic of the Cumberland mountains with Sylvia Sydney, Fred MacMurray and Henry Fonda heading a large and well known cast.

The film, which tells of the primitive mountain folk and their instinctive distrust for modern civilization, has its action entirely set in the thick wooded hill country of Kentucky, which has given Technicolor photography a magnificent opportunity to bring to the screen all the natural color and beauty of the magnificent scenery.

The color photography, with admirable restraint, has entirely avoided flooding the production with gaudy, harsh colors, a fault which was found with many earlier attempts to bring color to the screen. In "The Trail of the Lonesome Pine," the color has the simplicity and the naturalness of the true outdoors; it is never too blatant, but rather always easy and understandable. Very often one can feel that the action is really taking place before his eyes, rather than on a screen.

Every member of the cast, from Miss Sylvia Sydney, MacMurray and Fonda down to the smallest role, is magnificent, but special mention is deserved by the little four-year-old newcomer, "Specky" McFarland, who captures the hearts of the audience by his portrayal of "Rudie."

pushed night and day was threatened by a new rock fall and that hopes of the rescuers to get their way to the trapped men "have been blasted for the present."

It was predicted confidently earlier yesterday that the men, suffering from exposure and starvation for more than 165 hours would be brought out within 21 to 48 hours.

The last communication from the entombed men said they were "all right" but that water was pouring into their cramped refuge. They asked that medicine and concentrated food extract be lowered to them.

Hundreds of expert miners relieved each other in brief shifts, digging night and day to reach the prisoners.

Comment From The Sidelines

If (and that's a big word for only two letters) it had not been for that fatal fourth inning in yesterday's opening game of the Florida State League, Sanford might have won the game. If the breaks had been with Loper...

But you'll have to hand it to the Sanford Lockouts for their refusal to admit defeat. They worked harder than ever in succeeding innings, though DeLand scored a run in the fifth...

And they're youngsters, too. As announced from the Hoffman sound truck, all of the men on the Sanford team are under the age of 22 years, with the exception of Stuffy McCrone, manager...

Speaking of youngsters, there's a fine lot of them in the Junior League being sponsored by the Sanford Lions Club. One of the big ideas the Lions had in sponsoring the League was to teach the lads sportsmanship...

Looks like Billy Zachry is "going places" with that tennis racket of his. But there are other good players on the Sanford team—Herbert Smith, Charles Robinson, Jim Morgan, for instance...

Mighty few are the plate glass windows in down town Sanford and other towns in the County that don't display the big red stars, which signify that the owners of those business establishments are supporting the Sanford Baseball Club...

Dave Newell, who has written an article for the May Field & Bureau magazine on panther hunting in Florida "knows his stuff." He has written several books, one of them on panthers and cagars in Florida...

Maybe before another baseball season the players will be provided with a better dugout. Now they have to wade through water to get to their dressing rooms. They naturally wonder why a most, so easily filled with water was dug just inside the entrance, and why they have to climb over a high cement hurdle to get there...

It's seven officials of the Sanford Club had paid admission to Sunday's game the attendance would have been 1,000. But maybe it will be determined that Sanford had the largest opening day crowd anyway.

PERRICONE 'QUADS' TURN BASEBALL MASCOTS

There's certainly no shortage of mascots for the baseball team way down at Beaumont, Tex. This club in the Texas League has four mascots—and what's more, they're the famous Perricone quadruplets. Here they are dressed and waiting on the bench in the dugout. Left to right: Anthony, Bernard, Carl and Donald. At least, that's the way the homefolks identify them. As for us, we couldn't tell which was which. (Associated Press Photo)

Lookouts Play In DeLand Today And Daytona Tuesday

Sanford Club Plays On The Home Field Again Wednesday

Sanford Lookouts are playing the DeLand Reds in DeLand this afternoon, will play the Daytona Beach Islanders at Daytona Beach tomorrow, and return for their second game on Sanford Field on Wednesday. They will play here again on Thursday (half holiday) with St. Augustine, meet the Saints on their home field Friday, and play here again on Saturday, and go to Palatka next Sunday.

Stuffy McCrone, manager of the Lookouts, expected to put Vel in the pitcher's box in the DeLand game today, and intends to start Jones again tomorrow. Moses Sanford has now been seen in the pitcher's box in Thursday's game here with the Saints.

Comments on yesterday's game, Stuffy calls attention to the fact that the boys on the Sanford team are much younger and better than most of the DeLand and Daytona teams that had something to do with their losing the opening contest. But the main reason that DeLand won yesterday, he said, was because the Reds have had more practice. The Reds had five or six exhibition games during the training season, while the Lookouts had only one exhibition game in which to get some real practice before the season opened.

"We've got a good team, and we'll forget it," said Charlie Ward, president of the Sanford Baseball Association. "Just be sure we lost the first game, don't let anything else happen. A little while and you'll see our boys out in front."

Daytona, Palatka Victors In First Game Of Season

G-Men Lose To Beach And St. Augustine Beaten By Palatka

Daytona, Palatka and DeLand were the three winners in the opening games of the Florida State League yesterday. Daytona Beach Islanders defeated the Gainesville G-Men 3 to 1, and the Palatka Azeas defeated the Saints of St. Augustine in a close 8 to 7 game.

A large crowd including G. E. Gilliland of DeLand president of the league, attended the season's opener at Daytona Beach. A cold wind blew across City Island Park and made it uncomfortable for the spectators.

St. Augustine left fielder, was the batting star of the day, collecting a homer, a double and a single in four times at bat. In the sixth, the Islanders scored their other two runs. Hosinski was a base on balls, Morton doubled, sending him to third. Dillingham then knocked one along the third base line and Hosinski came home, McDougal, Gainesville pitcher, let a throw from the outfield go through him and Morton all home safely.

The Azeas picked up a large early lead in the game at Palatka, but Lefty Larsen was reached by the Ancient City rivals in the two closing frames and the count was tied at 7-7. Owens, St. Augustine catcher hit a home run. A large crowd turned out for the game.

Three Prizes Won In Game Sunday By Sanford Lookouts

Touction drug store prizes were won in Sunday's game by Bistruff, catcher, for making the first three-bagger, by McCown, pitcher, for the first double, and Wagner, 17-year-old second baseman, for the first single. Similar plays were made by DeLand Reds earlier in the game, but members of the visiting team were not eligible for the prizes.

New York Giants Finish Week With A Perfect Score

The New York Giants of the National League finished the first week of play in the majors with a perfect score, the only big league starting the second week with 1000 percentage. The Giants defeated Boston yesterday 4 to 1. In the American League, the Chicago Cubs went into yesterday's game with a 1000 percentage score, but they were shut out by Detroit, which scored five runs and so lost their perfect score. Two clubs in the American—the Philadelphia Athletics and the St. Louis Browns—remain in the cellar with only a row of goose eggs in the percentage column. Cincinnati defeated Chicago 5 to 4 and Philadelphia defeated Brooklyn 4 to 1 in the National League Saturday. The New York Yankees and the St. Louis Browns games were called off because of the cold. Yesterday, Boston defeated Philadelphia 2 to 1, Detroit defeated Chicago 5 to 2, New York defeated Washington 9 to 1, and Cleveland defeated St. Louis 13 to 6.

Junior League To Start Third Week At 5 P. M. Today

Red Sox And Yankees Play Once; Others To Get Two Chances

Junior Leaguers start their third week at 5 o'clock this afternoon when the Red Sox meet the Cubs on the Grammar School diamond. The Red Sox are in the cellar with the Cubs one step above. Should the Sox win they will be on a par with the Cubs. Tuesday will see the long-time winning Seminoles in the fray again, this time with the Pirates, now in third place. If the Pirates win they'll tie with the Yankees in second position. Should the Seminoles win as they have done consistently since the season opened they'll be more "cocky" than ever.

Mackmen, Browns Yet Have Only A Row Of Goose Eggs

The losing Giants on Wednesday. The Giants have played three games and lost three games. Thursday the Seminoles return to the field for the second time this week, playing against the Cubs. The Giants get another chance to better their league standing Friday when they cross bats with the Pirates.
