Crooms-Seminole Merger Decision Pending

By Michael Bels
Herald Staff Writer

Seminole County School Superintendent Robert Hughes will make a recommendation April 6 on a proposed merger of Crooms and Seminole high schools in Sanford.

The Seminole County School Board will make a decision on the proposed merger at its April 13 meeting.

The issue of combining the ninth graders at Crooms with the 1,200 10th, 11th and 12th graders at Seminole has been controversial, with the advisory committees of the

two schools plus the advisory committees of Sanford and Lakeview middle schools supporting the plan and members of the black community in opposition.

The school advisory committees cited high costs for operation of the Crooms building at West 13th Street and limited opportunities for the ninth graders in comparison to students at other county high schools.

School officials have calculated that operation of Crooms costs about \$2,200 per student annually. That figure is about \$600 more than

at Seminole and Lake Mary high schools.

Additionally, the school advisory committees claim Crooms students do not have the opportunity to take advanced classes at Seminole unless the classes are offered during first and last periods when school district buses carry students from Crooms to high schools. Those buses cost the district an additional \$50,000, officials said. Band members, club participants and students on athletic teams must also be transported in Crooms if the programs they are involved with are not offered at Seminole.

But representatives of a group calling themselves Concerned Citizens of Seminole County opposed the merger plan, claiming that the advisory committees misrepresents facts and figures about the plan.

The group's spokesman, Willie King of Sanford, said Crooms students are offered a wide variety of classes, clubs and athletic opportunities.

Other blacks said the merger of the two schools isn't the biggest issue, the continued use of the name Crooms is more important. If board members will agree to

continue using the name Crooms, the merger would not be unacceptable.

Board member Jean Bryant, a supporter of the merger, has stated that the naming of a new elementary school in Sanford by the agenda for the April 13 meeting.

At the hearing, Hughes kept the door open to the possible continued use of the Crooms building. If the building itself "has a lot of credibility."

But he emphasized that the school is very expensive to operate as a ninth grade center because the students are isolated and have

special programs are not offered at Crooms. Those programs help bring the operating costs down, he said.

Crooms, named after Dr. Joseph N. Crooms, was named Seminole County's first high school. When desegregation was ordered by federal judges, Crooms was designated as a ninth grade center because Seminole had insufficient space to house all of the students.

Then when other high schools were built in the county, it remained necessary to keep Crooms open to ensure state funds for construction, school officials told the board.

Midway's Cleanup Is Now Under Way

Residents of the Midway area east of Sanford on State Road 46A are busy participating in a massive cleanup. Volunteers from throughout the Midway community have launched the cleanup effort, which is expected to continue most of this week.

Residents and their friends are cleaning up debris, weeds and even a few sheds. With the help of donated Seminole County equipment, several Midway residents Saturday got a good start on the cleanup, moving truck loads of trash out of the area. In the photo above, Barry Dixon leads a truck with old tin from a burned-out house. Above it right an unidentified volunteer uses a Downer's Land Clearing Co. front-end loader to clear a lot of overgrowth along Spies Avenue. At right is a partially cleared out area also along Spies Avenue at Midway Avenue before an old hot water heater and other discarded items were hauled away.

Knowles And Harriett Get New Chores

By Deana Bates
Herald Staff Writer

Sanford city engineer-utility director Mark Lacy's last day on the job will be Friday. Lacy announced his resignation weeks ago, saying he has accepted the \$39,000 annually salary post of engineer at the Sanford Airport Authority.

After Friday, City Manager W. Peter Knowles will be acting city engineer while Assistant City Manager Steve Harriett will be acting utility director until a new person is hired.

Knowles is a graduate engineer.

"It may be some weeks before a new utility director takes over," Knowles noted in a memo to various department heads. The city has advertised in various papers, but the closing date for receipt of applications was set for April 1.

Knowles noted the interim measures in the memo, adding that screening and interviews of candidates can take some time.

He said he is working out arrangements with Lacy to use his talents after Friday as city engineering functions while the Knowles continues as acting city engineer.

Commissioners Eddie Keith and David Farr brought up the additional holiday at the last meeting of the City Commission. Both said city employees approached them on the issue of having a giving an additional holiday over the right already approved would cost the city \$18,000 in salaries, Social Security and pension and would cause the loss of 2,181 work hours to the city.

In a memo to the commission, Knowles said adding holidays "cost the taxpayers money plus low work production. It also means recheduling of refuse and added vacation comp time for fire, police, utility plants and personnel on 24-hour shift work."

Knowles also advised that holidays should not be used as a gift. He said added holidays are indicated by a reduction of sick days since Sanford's sick days are more than all other agencies.

The city manager is suggesting that further consideration on the matter be tabled until it can be discussed with all department heads at a staff meeting and the commission can review the matter at Budget time to include added cost.

It is expected the commission will approve the transfer of ownership of the old post office in the county contingent upon city recovery of ownership if it is not used as a public library at some future time.

Knowles has recommended the commission agree to pay one-third of the costs of the "red" signal to be placed at the Airport Boulevard-Southeast intersection. A "red" signal is indicated, Knowles said.

The manager said the county estimates the cost of the signal at \$30,000. Knowles estimate the cost at \$17,194, noting the city's share of the cost will range from \$9,597 to \$10,000. The city and county are to share the cost.

Court Rejects Death Penalty Appeals Of 4

WASHINGTON (UPI)—The Supreme Court Monday rejected death penalty appeals from four convicted murderers, including a Mississippi prisoner who killed two schoolgirls on their busney route.

On a 7-2 vote, the justices refused to hear appeals from Kenneth William Wheat of Mississippi, Ronald Lee Martin of Florida, and Gary Nelson and Floyd Ernest Hill of Georgia.

Wheat was convicted of murdering John and Teresa Meyer of Kentucky while they were on their honeymoon in Gulfport, Miss. in July 1979. The

couple's bodies were found in a wooded area with their hands and feet tied behind them. Hill had been shot in the back of the head.

Martin is on Florida's death row for helping kidnap, rob and kill Patricia Greenfield, a commerce store clerk, in June 1977.

Nelson was sentenced to die by electrocution in Georgia for raping and killing 6-year-old Valerie Armstrong in February 1978.

Hill, who is also on Georgia's death row, was convicted of killing Auntie, Ga., policeman Greg Mullins in a street gun battle in February 1981.

GOP Honors Merer, Stelling

Deana B. Bates
Herald Staff Writer

Alto Meyer of Alachua Springs, a long time party worker, and Jim Stelling of Fern Park were named outstanding Republicans of the year at the annual Lincoln Day dinner, sponsored by the Seminole County Republican Executive Committee.

The dinner was held at Lord Churchill's Pub in Altamonte Springs Saturday night.

Mrs. Meyer was presented with the eighth annual "Virgil Cordell" award, given each year to a long-time member of the GOP who has worked faithfully for the party in a myriad of tasks.

It was noted that Mrs. Meyer has worked behind the scenes of party activities for the past decade, doing whatever needed to be done, in-

cluding helping with preparing the award over the years including, John and Ann Laffler; Phil Hagerty; Ruth Bourwell; Streetman; Dot Mouders, local party treasurer; Maryanne Martin; Mrs. Merer; and Mrs. Stelling.

The award was presented by the first Mrs. Ruth Bourwell Leadership Award to recognize those persons who in most recent years have taken roles of exceptional leadership, said Streetman.

Stelling is currently president of the Seminole County Young Republican Club and is president-elect of the Greater Seminole County Chamber of Commerce in Altamonte Springs.

Others who have received the award over the years include: John and Ann Laffler; Phil Hagerty; Ruth Bourwell; Streetman; Dot Mouders, local party treasurer; Maryanne Martin; Mrs. Merer; and Mrs. Stelling.

The award was presented by the first Mrs. Ruth Bourwell Leadership Award to recognize those persons who in most recent years have taken roles of exceptional leadership, said Streetman.

Stelling is currently president of the Seminole County Young Republican Club and is president-elect of the Greater Seminole County Chamber of Commerce in Altamonte Springs.

Mrs. Bourwell was an active Republican in Seminole County for 20 years before her death two years ago. She was lauded for her work in the party with the "Red" signal.

Nearly 300 party faithful turned out for the annual event.

Guest speaker was former U.S. Rep. John Rowland of California.

Current economic recovery and the importance of continuing the work in that direction. He urged Republicans to resist cuts in national defense.

Rowland said that the percentage of the federal budget in social welfare programs is continuing to grow. There have been no cutbacks, just a reduction in the rate of growth, he said.

July's Social Security Checks To Be Trimmed by Rescue Plan

IN BRIEF

White Mob Boss Mondale, Black Mayoral Candidate

CHICAGO (UPI) — An angry white mob, booing and shouting racial slurs and epithets, surged here today to confront former Vice President Walter Mondale and black mayoral candidate Harold Washington to cut a campaign appearance.

A Washington spokesman blamed the hostile demonstration by some 150 people on racial prejudice. He said the mob's remarks epitomized the charge "disinguishing."

Washington and Mondale were greeting pack members Sunday night at the Lincoln Park Church on the city's white ethnic Northwest side. Washington was wearing Episcopalian robes and banners, pushed into the church's vestibule. Police quickly escorted Washington and Mondale away. No arrests were reported.

Soviet Attack Downplayed

WASHINGTON (UPI) — Administration officials contended a sharp attack by Soviet leader Leonid Brezhnev last week was a "rehearsed" drive by President Reagan to sell his defense budget increases and new military programs.

The administration Sunday sought to play down the significance of Brezhnev's charge, published in the Communist Party newspaper Pravda, that Reagan led in describing Soviet nuclear power in a "biased" speech last week.

Defense Secretary Casper Weinberger appearing Sunday on NBC's "Meet the Press," described the Soviet attack as "a standard Soviet disinformation that's been pointed out for years," intended "to secure world opinion on their side."

Gas Prices Headed Up?

LOS ANGELES (UPI) — For eight months gasoline prices have fallen nationwide, but oil industry analysts said numbers say prices downward trend is tapering off and that is a harbinger of a possible price increase in a summer months of demand.

Sanford's latest nationwide survey of 17,000 stations revealed Sunday prices for all grades declined by less than 1 cent in the past week. Prices last week, compared to a penny a week since the beginning of the year.

Louisburg said its 100 stations of price cuts augurs higher prices as the oil industry tries to recoup revenues lost in recent months.

WASHINGTON (UPI) — The first pinch of the \$165 billion Social Security rescue bill will be felt by the 26 million recipients of monthly July checks "as late as Thursday, 24-27," President Reagan will say today.

Next year, the nation's employers will shell out an estimated 90 cents more per job each week because of higher payroll taxes. The 106 million employees will not feel the pain in 1984 because of an automatic tax cut.

Next century, Americans born in 1938 or later will have to retire later to collect full Social Security benefits — from two months to two years after the current 65-year age.

The Senate gave the 36-page final congressional approval Friday on a 38-14 vote after many members left for the Easter break. The House approved the bill Thursday, 243-102. President Reagan will sign the bill — modeled after proposals of a national commission he appointed — next month.

The bill is a compromise effort.

—The cost-of-living hike usually paid in July would be paid next January, and in January thereafter. A single person's \$418 monthly check would lose \$112 by year's end as 0.3 percent inflation, as predicted by the national commission, and \$103 at 4 inflation, which would be the bill's maximum effect.

It would more likely. A couple with a \$700 monthly benefit would lose \$222 by year's end and \$ 535 percent less, or \$158 at 4 percent inflation. The would compound to more than \$1,100 by decade's end.

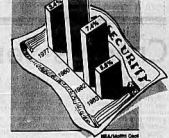

—Taxes rise faster than scheduled this decade for 106 million retirees and their employers. Average Social Security job pays the average employee would pay \$1.21 per week each next year, reduced to 90 cents because it can be deducted from income taxes.

Workers do not pay next year's increase because they get a tax credit. The commission says the net cost of increases: \$268.89 will be a 4 or 5 percent rise per job. The tax rises to 7 percent of wages next year, up from the scheduled 6.2 percent. The utility industry would be hit by 7.67 percent each for employer and employee — more than 15 percent of a worker's wages.

—About 8 million self-employed workers, who now pay three-quarters of the employer-employee rate, will pay full freight beginning next year. But they will get an offsetting credit — 2.78 percent — in 1984, 2 percent in 1985, and 2 percent from 1986-89.

—As of Jan. 1, about 730,000 employees of non-profit companies and their employees will be required to pay into Social Security, at an estimated average cost of \$15 a week each. Coverage is now optional.

—Anyone who takes a federal government job after Jan. 1 will have to begin paying into Social Security. So will the president, vice president, cabinet secretaries, Social Security commissioner, members of Congress and other high-ranking officials.

—Half of Social Security benefits will be taxed if they boost total adjusted gross income to \$6,400 for singles and \$12,000 for couples. About 4 million beneficiaries will have to pay. Congress linked with the formula at the last minute, but earlier Aging Committee estimates indicated the average extra tax would be \$18 a week.

—The age at which full benefits may be collected, now 65, would rise to 66 by two months a year from 2003 to 2006. It would rise again, to 67, by two months a year from 2021 to 2027.

Public Hearing On Water, Sewer Rate Hike Wednesday

The Public Service Commission has scheduled a public hearing on Wednesday, March 31, at 7:00 p.m. Longwood will give customers of North Orlando Water and Sewer Corporation an opportunity to ask questions and comment on the utility's application for rate increases totaling 8.4 percent. The utility provides water and sewer service in Seminole County.

The information customer meeting will be held at the Family Life Center of the First Baptist Church, 830 E. Bay Ave., Longwood. Testimony will be presented at 8:15 a.m. on an afternoon session at 4 p.m.

OSC staff members will present background information on the case, summarize the preliminary results of their investigation and answer questions. Customers can comment on the utility's rate increase request, the quality of service, or other matters pertaining to the case.

"The utility is requesting a hike of \$67.114 for water service and \$404.172 for sewer service, for a total of \$471.286, or a rate increase of 8.4 percent. Customers can comment on the utility's rate increase request, the quality of service, or other matters pertaining to the case."

Humane Society To Launch Fund Raising Drive In April

The Humane Society of Seminole County will undertake its first major membership campaign in April in a drive to raise funds to complete the new animal shelter on U.S. Highway 1902 at County Road 10.

Present society members will be the first to receive appeal letters. Others will follow in April. The society is asking them to join in meeting the challenge of providing a vastly improved animal welfare facility and services to the community.

5 Charged After Drugs, Firearms Seized

Three Sanford people, including a car dealer and his wife, and two others were arrested in a sweep by undercover agents after a five-month investigation into firearms and drug dealing.

The investigation, which spread from Seminole County into Orlando, Orange County, Brevard and all 16 Florida counties, involved a total of 561 firearms, including seven handguns, three machine guns and a number of rifles.

The arrests were made by agents from the Bureau of the Seminole County Sheriff's Department and the county drug task force, at its own property used car lot in the county. A "cover" operation was suspected that people involved in "setting" stolen property were connected with the used car lot.

FLORIDA

IN BRIEF

Delegate Selection Plan Gives Askew Advantage

TAMPA (UPI) — State Democratic officials are holding a long and a more complex delegate selection plan for the 1984 Democratic primary than in previous years.

"We have a favorite son," said Leon County Democratic Chairman John A. Austin of Orlando. "We all know about our favorite son, and I think it is very likely for a state party to go against a favorite son."

In the past, state Democrats have not held balloting until the candidates have been named by the national convention. Delegates to the national convention were only elected by the popular vote.

But after one plan, which was adopted by the State Democratic Central Committee Saturday, results for Florida 143 delegates to be voted on directly by state Democrats during the general primary election will be used.

Chiefs of the plan clarify the way a vote on the state party will be used to elect delegates to the national convention. It is not clear how delegates will be awarded by their presidential preference.

In theory, no presidential candidate could win almost all the delegates.

Tamik May Be Used Again

ORLANDO (UPI) — A legal technicality could open the door for Florida voters to elect again the controversial young man who lost last year's election.

It is not unusual for states to depart appearances on residential laws. But the heavy rains of recent months are forcing states to seek dry refuge.

Given recent weather conditions, officials said it would not be unusual for states to be found under beds, in car engines or in second-story apartments and reports of snake sightings are running ahead of past springs.

Junkets In Congress' Easter Basket

WASHINGTON (UPI) — Members of Congress are using their Easter recess to take off on trips around the globe. China apparently the most popular junket stop.

At least 30 members of Congress are visiting China this week and Europe and the Soviet Union all have a few visitors.

Some members of Congress, pointing concerns about their constituents' views of such travels, prefer not to announce travel plans in advance, so their junkets become known only accidentally or through expense reports.

Speaker Thomas O'Neill, D-Mass., and 14 other House members — mostly committee chairman and senior Republicans — are in China this week. "I met with a number of high-level officials," O'Neill's office said.

Several spouses and staff members are also on the trip that includes a stop in Singapore, where "trade and defense matters will be priority items for discussion," O'Neill's office said.

Rep. John Dingell, D-Mich., and chairman of the House Commerce Committee, taking a break from his investigations of the Environmental Protection Agency, is leading a 10-member delegation to Europe.

The group was invited to visit China as guests of the government of the People's Republic of China to discuss energy development, international communications and health issues. "Dingell's announcement said, "Rep. Robert Byrd, D-W. Va., is visiting in China with Rep. Robert Torricelli, D-Calif., San Patricio, R-Va., and Ed Bohne, R-Ark., in talk about international finance. Patrick is chairman of the House Banking subcommittee on international financial institutions, which deals with World Bank.

Rep. Frank Murkowski, R-Alaska, chairman of the Senate Foreign Relations subcommittee on East Asian and Pacific Affairs, is traveling to Japan and China. Part of the trip will be in the company of members of the Alaska Loggers Association, who want to talk about support for the Alaska timber industry.

Rep. James Oberstar, D-Minn., Bill Richardson, D-N.M., and Jim Jeffords, R-Vt., visited El Salvador to report the nation's agrarian reform program and investigate the arrest of two American journalists.

Rep. James Oberstar, D-Minn., Bill Richardson, D-N.M., and Jim Jeffords, R-Vt., visited El Salvador to report the nation's agrarian reform program and investigate the arrest of two American journalists.
