

Mrs. Cooke Makes Advance In East Hampton Tourney

EAST HAMPTON, N. Y., July 22.—Mrs. Sarah Falfrey Cooke of New York, winner of the East Hampton tournament last week, defeated the home club champion, Mrs. J. H. McElwaine, 6-0, 6-0, in the first round of the 16th Annual East Hampton Invitation women's tennis tournament yesterday. She is top-seeded.

Zivic, Cochrane Bout Slated For Tonight

NEWARK, N. J., July 22.—(AP)—The welterweight title fight between Champion Fritz Zivic and Freddie (Red) Cochrane, of Elizabeth, N. J., scheduled for Empire stadium last night, was postponed late yesterday afternoon because of rain. It will be held tonight, weather permitting.

Don Mead Rides Triple Winners At Saratoga

SARATOGA SPRINGS, N. Y., July 22.—(AP)—Rain spoiled opening day at the nation's oldest race course Monday as Mrs. Charles S. Payson's Amphitheatre romped to an easy victory in the \$6500 Flash Stakes before a sparse gathering of 6267. Five of America's top two-year-olds performed in the day's feature attraction marked by a new low for betting at a New York race track under the pari-mutuel system—\$252,386.

Riggs And Kovacs Climb For Finals Of Meadow Club

SOUTHAMPTON, N. Y., July 22.—(AP)—Bobby Riggs of Clinton, S. C., and Frank Kovacs of Oakland, Calif., favored to meet in the finals for one of the many championships Don McNeill is advertising this year, advanced to the second round of the 51st annual Meadow Club invitation tennis tournament Monday.

Sarah Falfrey Cooke shown at the Seabright, N. J., Lawn Tennis and Cricket Club, where she competed in the 54th Invitation tennis tournament, Mrs. Sarah Falfrey Cooke is regarded as a strong contender for the national women's title this season.

Nine Cases Are Listed At City Court Session

Nine cases appeared on the docket of the Municipal Court at its regular session Monday afternoon at the Police Station. Charges against white persons were: Raymond V. Hasty, charged with speeding, arrested a \$5 bond. Oris Wright, accused of speeding, was convicted and fined \$5 or 15 days. W. A. Stapler, charged with drunkenness, was transferred to the County. Charges against negroes: Russell Singleton, charged with larceny of a bicycle, was transferred to the County. Harvey Murry, accused of larceny of a bicycle, also was transferred to the County. Alberta Green, accused of failure to report an accident, was convicted and fined \$5 or 15 days. Joe Jones, charged with breaking and entering, was transferred to the County. James Lodge, charged with being drunk and disorderly, was found guilty and fined \$10 or 30 days. Leola Baker, charged with assault, was found guilty and fined \$10 or 30 days.

Excessive Speed Is Undoing Of Salmon

TACOMA, Wash., July 22.—(AP)—Miss Bonnie Scott and two friends walking along a Puget Sound beach saw a king salmon chasing a herring towards the shore. Going full tilt, the salmon snared his prey at the water's edge—but was going too fast to turn around. He landed high and dry on the sand, nearly two yards out of water. In proof, Miss Scott displayed the salmon, weighing 11 1/4 pounds. 4:30 Organ Melodist 4:45 Wings Over Jordan 5:00 The Lone Ranger 5:30 Doc Sellers True Life Stories 5:45 The World Today

## Nazis Claim Army Drives Near Moscow

### Force Advancing Beyond Smolensk Is Said Within 130 Miles Of Capital

### Russians Claim Surge To West

### Operations Continue As Planned, Say German Officials

Adolf Hitler's newspaper asserted today that German troops knifing 100 miles beyond Smolensk had advanced within 130 miles of Moscow, while the Russians declared the Red Army tide is surging west and that the Nazi tank spearhead had been driven back 100 miles from their deepest penetrations.

The Soviet newspaper "Pravda" asserted today that German troops were "reluctant" to rescue trapped forces east of Smolensk, but asserted the Red counter-offensive was being crushed with heavy losses.

Elsewhere on the bloody 2,000-mile battlefield, the Germans said "operations continued according to plan."

The Soviet command declared early today the Germans had been driven from their newly-dug trenches in the Smolensk sector protecting Moscow, and other Soviet informants asserted that at those points Nazi units had been thrown back as much as 100 miles from the most advanced positions reached by invading troops.

These claims of spectacular successes for the new Russian counter-offensive were abruptly at variance with general Nazi statements.

The early morning communiques of the Soviet general staff did not include these details. Aside from its report of bitter and, for the Russians, successful action at the Smolensk center, it told of a resumption of heavy fighting below Leningrad—the line in the vicinity of Nevelsk.

Russian reports on the situation ahead had reflected yesterday a growing confidence while the Germans again stressed what they termed the success of operations to destroy Red troops rather than to occupy Soviet territory.

The Soviet command in its communique for Tuesday, having already claimed that the German offensive was falling apart, reported continuing counter-attacks which were said to be being launched on every sector in the beginning of a major Red counter-offensive.

## House Opposes Bill To Extend Service

WASHINGTON, July 30.—(AP)—The House today agreed not to take up the bill to extend the military service of conscientious objectors.

## Knox Says Destroyer Dropped 3 Bombs

WASHINGTON, July 30.—(AP)—The destroyer USS "Cannon" (DD-392) today dropped three bombs on a Japanese submarine off the coast of the Philippines.

## Jury's Bribery Charged In White Slave Trial

MIAMI, July 30.—(AP)—One of four persons pleaded guilty today to a bribery charge in the trial of a woman charged with running a white slave ring.

## Canada Will Cut Auto Production

OTTAWA, Canada, July 30.—(AP)—Canada will cut the production of passenger automobiles for sale in Canada in 1942 to less than half of the 1940 figure.

## Water Blast Ties Up Subway

Inspectors explore the huge crater which was left at 125th Street and Lexington Avenue, New York, when an 86-inch water main exploded, sending bricks, stones and water flying high in the air. Fifty subway trains were trapped between stations as the power was cut, due to the break. Passengers escaped through emergency exits.

## Sanford Swelters In Heat But No One 'Does Anything About It'

If it weren't for the strong influence that Mark Twain still exerts over American life, things might be different today. It was Mark Twain who said of the weather, "Everyone talks about it but no one does anything about it." Since then it has become accepted as a fact that no one can do anything about hot weather, and consequently no one does.

## Regular Weekly Meeting Is Held By Kiwanis Club

In place of an entertainment program, members of the Kiwanis Club at their regular luncheon at the Valden Hotel today discussed the waning attendance at meetings and concluded that it was a regular summer slump and that there is nothing to be discouraged about.

Ed Randall presided in the absence of O. P. Herndon, president, and Basil Moore led the singing. Father J. J. Kullaghan was welcomed back after several weeks absence due to an injury.

More variety in the program was urged by Edward F. Lane, chairman of the inter-club committee and a past president. Mr. Lane pointed out that most of the reports on their activities were in general, without specific details.

Speaking to committee workers, Mr. Lane told them to make prompt reports on their activities to assist Sidney Nix, secretary, and if they were not able to work to inform the president so that he might appoint some one to their place.

Member Kullaghan, who is a member of the music committee, suggested that a regular pianist be obtained to provide music for the club and Howard Long added, "I'll show you an active one."

It was J. D. Jenkins, also a member of the Kiwanis Club, who pointed out that the lack of attendance was probably due to so many persons being out of town, and said he saw no cause for alarm.

One member, Earl E. Henshler, remarked that there was only one way to beat the heat. "Get out in the country," he explained, "beside a stream. Then pull an old hat over your eyes to keep out the sun, arrange your fishing hole so you won't have to hold it, and just pray the fish don't bite."

But a little questioning produced the information that Mr. Henshler in another one who talks of the heat and really does nothing about it. He has just volunteered for the Army and will be sent to Camp Blanton, which, if possible, is better than Sanford.

## Price Ceiling Is Requested By Roosevelt

WASHINGTON, July 30.—(AP)—The House Military Committee by a 13-7 vote today approved legislation to retain selectees, National Guardsmen, reserve officers and enlisted personnel of the Army for military training beyond one year.

WASHINGTON, July 30.—(AP)—President Roosevelt, asserting that inflationary price increases were threatening to "undermine our defense," asked Congress today to authorize him to establish ceilings for prices and rents.

"We face inflation, unless we act decisively and without delay," he said.

## U.S. Gunboat In Chungking Damaged By Japanese Bomb; Premier Asks Preparedness

### Jap Troops Quickly Take Over French Indo-China Bases Near East Indies

### U. S. Fleet Reported Bound For The Orient

### Sister Ship Of Panay, Sunk By Nipponese Action In 1937, Is Victim

### Embassy Is Hit During Air Raid

### All On Board Vessel Escape Injury As Missile Falls Near

WASHINGTON, July 30.—(AP)—The United States government today announced that a U. S. gunboat, the USS "Pangloss," was damaged by a Japanese bomb in Chungking, China, today.

The United States river gunboat Pangloss, stationed at Chungking, China, sustained a minor damage today when a Japanese bomb fell only a few feet away.

A dispatch from Chungking said the residence of the United States embassy was hit during an air raid.

No one aboard the Pangloss was injured.

The Pangloss is a sister ship of the USS "Panay," which was sunk by Japanese action in 1937.

President Roosevelt said yesterday the outlook in the Far Eastern situation is an uncertain status "requiring penetration of the truth to the public."

Asked at his press conference to elaborate on this country's economic offensive against Japan inaugurated over the weekend by his order freezing Japanese assets, Mr. Roosevelt said the international situation including Acting Secretary of State Welles' sharp denunciation of Axis interference in Latin American affairs.

Wells issued his blast at his news press conference less than a half hour after he conferred with the President.

Wells also reassured Tokyo that Japanese vessels can enter Chinese waters without fear of being detained. The ships, including the USS "Pangloss," were warned in advance that Anglo-American economic reprisals were imminent.

The acting secretary said that while the vessels would not be detained, their cargoes can not be disposed of without special licenses from the treasury which is charged with enforcing the freezing order.

He told reporters, too, that United States relations with the French Vichy government would not be affected by Vichy's acquiescence to Japanese occupation of French Indo-China.

Wells' denunciation of Axis activities in South America coincided with dispatches from Berlin stating the German government soon would publish "sensational revelations" regarding United States "economic penetration of South America by black mail methods."

## Collection Of Aluminum Goes To 1,475 Pounds

Sanford's contribution of aluminum to the nation's defense totaled 1,475 pounds, it was reported today from Tampa, where piles of the scrap metal from surrounding counties were collected and weighed.

Ten tons of aluminum, six of them collected in Hillsborough county alone, were dumped into a warehouse to await shipment to a smelting center.

Sanford's aluminum was collected during slightly more than a week of campaigning by the Seminole County Defense Council, with Harris Anderson as head of the drive. An amount collected during a previous drive was added to the pile collected Monday night.

## Paralysis Cases Increase In South

MONTGOMERY, Ala., July 30.—(AP)—Alabama's July outbreak of infantile paralysis gained two new cases today, bringing the month's total to 167.

Today's new cases were from Butler and Lauderdale counties, though most cases have been reported in Jefferson, Pickens, Walker and Tuscaloosa counties.

The number of infantile paralysis cases in Georgia increased to 275 today with two new cases being reported in Harrow county and one each in Twilacott and Calcoosa counties.

The second day's total in Atlanta remained unchanged at 70.

## New Army Air Force Setup Revealed

WASHINGTON, July 30.—(AP)—The War Department announced Tuesday the creation of a new type of Army air force organization, to be known as an air support command to provide close air support for ground forces.

The new unit—five have been formed—will include all sorts of aerial weapons used directly in conjunction with ground operations. Among them are dive bombers, light bombers, observation planes and balloons, photoreconnaissance planes, gliders and air transports for parachute troops and airborne infantry.

## Odd Items Disposed Of In Bartow Will

BARTOW, July 30.—(Special)—Odd items disposed of in a will filed for probate recently were a 1924 Chevrolet and four head tires, a woman bequeathed \$100 and her automobile to a friend, and "all my chickens and any livestock I may own" to another cousin.

The livestock inventoried at one chicken, two cats and one mongrel dog. The balance of the estate, consisting of about \$3,000 in cash and a citrus grove, was left to the Florida Methodist Orphanage at Benson Springs, according to the Polk County Democrat.

## City News Briefs

The Lion's Club will hold its regular dinner meeting at the Valden Hotel tomorrow night at 7:30 o'clock.

The Board of Deacons of the First Baptist Church will meet tonight at the church at 8:00 o'clock.

Sanford's playground baseball team won a team from Maitland yesterday afternoon by a 2-1 score.

## Eddie Leonard, Comedian, Dies

NEW YORK, July 30.—(AP)—Eddie Leonard, 70, black face comedian whose halting rendition of the song "Ma, Heave An Apple Cider" was imitated throughout the country during the heyday of minstrel shows, was found dead Tuesday in the Hotel Imperial where he had lived at the height of his fame.

Almost 24 hours before the discovery of his body in a bedroom, his wife had reported to police the veteran comic had not returned to his suite in the Hotel King Edward after visiting his dentist. Examination indicated death was due to natural causes.

## LOCAL WEATHER

Continued warm, fair to partly cloudy tonight and Thursday with only a slight possibility of a few showers scattered afternoon showers.

## U.S. Fleet Reported Bound For The Orient

WASHINGTON, July 30.—(AP)—The United States Pacific Fleet, bound off Hawaii, American Gibraltar of the Pacific, reported today that the fleet has left its Hawaiian base and is heading for the East Indies.

The fleet, which includes the USS "Pangloss," is reported to be en route to the East Indies to support the American and British forces in the region.

The fleet is expected to arrive in the East Indies within a few days.

## Collection Of Aluminum Goes To 1,475 Pounds

Sanford's contribution of aluminum to the nation's defense totaled 1,475 pounds, it was reported today from Tampa, where piles of the scrap metal from surrounding counties were collected and weighed.

Ten tons of aluminum, six of them collected in Hillsborough county alone, were dumped into a warehouse to await shipment to a smelting center.

Sanford's aluminum was collected during slightly more than a week of campaigning by the Seminole County Defense Council, with Harris Anderson as head of the drive.

## Brief Points Out Strategic Value Of Road Three

Pointing out the strategic value of State Road 3 and U. S. 17 from commercial and military standpoints, a brief prepared by the St. Johns River Trail Association for presentation to the United States Bureau of Roads, the National Defense Council and the State Road Department, Edward Higgins, president of the association, said today.

In the brief, which reports on the widening of the road and improvement of the bridge, it is stated that nearly 50 percent of Florida's total citrus shipments and over 60 percent of the vegetable shipments pass over No. 3.

Connections with the numerous Army and Navy bases in Florida via State Road 3 are also pointed out in the brief.

Another important point which has been brought out in the brief, Mr. Higgins said, is that with the opening of the new roads from Kissimmee via Okechobee to Miami, the highway will have to carry a large volume of the business that originates on the Florida East Coast.

Stressing the value of Road 3, the brief states: "Highways adequate and practical for the use that will be made of them for the ready transportation of men, supplies and equipment are of major importance and definitely essential to our national defense program, especially when statistics show that such movements can be effected with 40 percent greater efficiency over suitable highways in comparison with roads not adequate."

Figures on the volume of citrus and vegetable shipments passing over the road were checked by the Florida Road Guard Station and supplied by the Florida State Marketing Bureau. Citrus equivalent (62,356 carloads—49.8 percent of the state's total shipments) moved over the road, while vegetable and all fruits except citrus totaled 14,508 carloads, 61.2 of the total out of Florida.

## U. S. Interference Is Hit By Germans

BERLIN, July 30.—(AP)—German diplomatic representative Tuesday distributed to South American countries an official reminder, which might be considered a warning of the Nazi side to Berlin denouncing the publication of the German minister there and attributing it to the interference of a "third power," clearly the United States.

German authorities, complaining of an "unpleasant" anti-Nazi activity in South America, promised "sensational revelations" regarding United States economic penetration by black mail methods.

## Stimson Apologizes To Senator Wheeler

WASHINGTON, July 30.—(AP)—Secretary of War Stimson Tuesday night apologized to Senator Wheeler, (D. Mont.) for interfering last week with the lieutenant leader intentionally circulated soldiers in training with post cards opposing war.

### FOR A BRITISH FLYER

(From The Saturday review of  
Literature)  
Familiar of the sky, you have  
known  
The white cloud meadows, the  
dipping and moving  
Horizon line; you have flown  
Into the canopy that covers the  
ancient world.  
Found what things above Olympus,  
what night arches over  
the Nile.  
Where the embryo of Shelley's  
wild west wind curled,  
And rough going over the sharp  
columns of Leat  
That the great deserts pile.  
Steady of the hand, you have  
commanded speed,  
And the heart-lifting shake-off  
Blindly of the eye and ear  
You have, turned to the west,  
from magnetic ground,  
ther warning, and cleared  
The lightning, the wing-breaking  
ice,  
The blizzards blinding,  
Measured the earth wind  
And shrinking space, and speed  
for a delicate landing,  
O reader of the elements, fami-  
liar of the sky  
Is its peace-time beauty and  
terror  
Lover of the wing of light metal,  
Of strong feathers, the wing of  
the free clear mind,  
Now you are plunged into fiery  
hells  
Flyers with savage skill,  
Flying exhausted and blind,  
Hunting and hawking, searching  
the wide horizon,  
May the steady hand and eye  
stay with you  
And the unswerving elements be-  
friend you  
In the hours of danger and harm,  
For out of the blackness that  
covers the world, in the  
swarm  
Of evil, above the great lanes,  
The free hall of England,  
breathless we watch you  
Rise a thin wing  
In the face of enormous storm!  
Katherine Garrison Chapin

### What Is "Freedom?"

As long as half the world is today fighting for free-  
dom and the United States appears likely to be soon en-  
gaged in the same struggle, it might be well to consid-  
er just what this "freedom" is we all want so much. It is  
not easy to describe and almost everyone has a different  
definition, but one of the best we have seen comes to us  
from the Louisville Courier-Journal by way of the St. Pe-  
tersburg Times. It was written by Miss Hazel Parker,  
as follows:  
"Freedom is made of simple stuff.  
"From the archives of broken peace we are bringing  
out old words and dusting them off for use again as shin-  
ing lanterns to lead us through the darkness of another  
war.  
"Words like freedom, justice and truth—all of them  
hard to define, none of them used more frequently than  
freedom.  
"You cannot say what freedom is, perhaps, in a single  
sentence. It is not necessary to define it. It is enough to  
point to it.  
"Freedom is a man lifting a gate latch at dusk and  
sitting for awhile on the porch, smoking his pipe. Before  
he goes to bed.  
"It is the violence of an argument outside an election  
poll; it is the righteous anger of the pulpits.  
"It is the warm laughter of a girl on a park bench.  
"It is the rush of a train over the continent and the  
unafraid faces of people looking out of the windows.  
"It is all the howlys in the world, and all the hellos.  
"It is Westbrook Pegler telling Roosevelt how to raise  
his children; it is Roosevelt telling them raise themselves.  
"It is Lindbergh's voice raised above a thousand  
hisses.  
"It is Dorothy Thompson asking for war; it is Gen-  
eral Hugh S. Johnson asking her to keep quiet.  
"It is you trying to remember the words to "The  
Star Spangled Banner."  
"It is the sea breaking on the wide sands somewhere  
and the shouglers of a mountain supporting the sky.  
"It is the air you fill your lungs with and the dirt  
that is in your garden.  
"It is a man cursing all cops.  
"It is the absence of apprehension at the sound of  
approaching footsteps outside your closed door.  
"It is your hot resentment of intrigue, the tilt of your  
chin and the tightening of your lips sometimes.  
"It is all the things you do and want to keep on doing.  
"It is all the things you feel and cannot help feeling.  
"FREEDOM—it is you."  
"FREEDOM—it is you."  
"FREEDOM—IT IS YOU."

### AT A BUFFET supper at Harpo Marx's home in Hol- lywood, guests were inconvenienced to find no napkins, but Oscar Levant "covered up" for his friend. "Due to the high cost of living," he continued, "there are no napkins —but from time to time a woolly dog will pass among you."—Readers Digest.

### LOSS OF LIFE in bombed England actually is less than in peacetime, according to James B. Furgan, chair- man of the Chicago chapter of the American Red Cross. "By taking automobiles off the highways, by enforcing cautious in the home and in industry, by improving diet, by safeguarding self and community from the threat of epidemics through sanitation, vaccination and immuniza- tion, the English are saving more lives than their com- rades are able to take."—AP

### DISPELLING THE FOG By CHARLES MCGEE

It would be interesting to learn  
just what set of ideas would be  
the outgrowth of the opponents  
of America's defense policy.  
They would not want an arm  
heavily armed against an on-  
slaught.  
The American people and others  
of the American group throughout  
the world are inclined to an ex-  
aggerated sense of security and  
complacency. They are not aware  
of the danger of a surprise attack  
by an opponent of America's  
policy.

### To What Purpose?

The suggestion of Senator Clark of Idaho that the  
"good neighbor policy" with South America has failed and  
that his country should proceed to set up "puppet" gov-  
ernments in all the other nations of the Western Hemi-  
sphere "which we could trust" is just the kind of stupid  
and irresponsible chatter which one might expect from a  
member of the narrow isolationist group of senators and  
which is doing more to plunge this country into war than  
all our aid to Britain and China.

There was a time when it was a part of the policy  
of this country to regard itself as something of a police-  
man empowered to maintain order in the countries of the  
Western Hemisphere and upon more than one occasion we  
have actually sent Marines and soldiers among some of our  
Latin American neighbors to protect our interests, natu-  
rally arousing the suspicion of all of them as to our ag-  
gressive designs and seriously prejudicing many of them  
against the United States.

It has taken many years of constructive effort on  
the part of the Roosevelt administration and those im-  
mediately preceding it to correct this impression and to  
gain the real friendship of these other American nations.  
It has taken a good deal of time, money, and diplomacy  
on the part of our government to convince these Latin  
American countries of our goodwill. Even now there are  
many important citizens there who doubt it.

German agents are constantly at work seeking to  
stir up prejudices against the United States and direct  
opposition to its policies. The best arguments they have  
are based on the Marine landing in Honduras and the  
Pershing expedition into Mexico and the implication that  
sooner or later the United States will seek to dominate  
all the nations of the Western Hemisphere. Naturally Latin  
American nations would relish such domination little  
more than German control.

This suggestion of Senator Clark is not the first  
time such a proposal has come from the isolationist  
group. It has been made so often that one gains the im-  
pression its main purpose is to supply Nazi agents with  
propaganda. Charles Lindbergh in one of his first public  
utterances on this issue insisted that while the United  
States was in no danger of attack from abroad it should  
take over Canada and Mexico for its own protection.

The potentialities of such arguments are enormous.  
If the Latin American countries can be made to fear the  
United States more than they fear German aggression,  
we will have the basis for a real hemispheric struggle.  
It would seem that the United States has trouble enough on  
its hands without those, who claim to be the real apostles  
of peace, trying to stir up more.

### and took over the country?

Would the anti-administration  
Senators in such a case insist  
that it was none of our business?  
It is only a hop from Iceland to  
Greenland and thence to Cana-  
da. It requires no military strength  
to figure out the implied  
menace to this country.

We are engaged in a huge ef-  
fort to protect this country  
against possible extension of the  
Nazi conquests. Our occupation  
of this base before Germany  
could use it is just as plainly an  
element of national defense as  
our doubling navy and build-  
ing a modern army. We are  
planning to occupy the base at  
the termination of the confer-  
ence that brought our marines  
or whatever troops are required  
there, to Iceland.

We don't want the Azores, or  
Cape Verde or Dakar, but we  
might want them if they would  
be a threat we could not ignore.  
It is not a question of hemi-  
spherical limitations. Holland and  
France, both conquered by Hit-  
ler, have possessions on this side  
of the Atlantic. The Axis forces  
are using French and Dutch ports  
as their chief bases in their  
attack on England. Doubtless they  
would use Martinique or French  
Guiana in a similar way, espe-  
cially as attacking points on the  
coast of South America.

It is not a question of hemi-  
spherical limitations. Holland and  
France, both conquered by Hit-  
ler, have possessions on this side  
of the Atlantic. The Axis forces  
are using French and Dutch ports  
as their chief bases in their  
attack on England. Doubtless they  
would use Martinique or French  
Guiana in a similar way, espe-  
cially as attacking points on the  
coast of South America.

The eastern end of Russia  
projects far into the Western  
Hemisphere. Does anybody sup-  
pose that if Germany succeeds in  
conquering France and Denmark  
and other European countries  
that she will not attempt to  
take the North Pacific? That  
Soviet troops being out in Ber-  
ing Sea would be most conven-  
ient in a West attack on Vanco-  
uver and other Canadian centers  
on the Pacific, so that Hitler  
could still—if he gained Siberia  
—insure that his campaign was  
against the belligerent British  
Empire and not just a threat  
against the United States. Who,  
even among the isolationists,  
would really believe this?

The Icelandic enterprise is part  
of the general theory of Ameri-  
can expansion. From New  
foundland to British Guiana.  
When we made the trade of over-  
age destroyers in exchange for  
bases on British lands there was,  
of course, some limitation, with  
the exception of Greenland. The  
value of the new ports was so  
clearly obvious that that was  
settled.

Now comes the question of ex-  
tending these attacks. Our re-  
sponse and action do not  
begin to be sufficient enough to  
British adequate defense for  
these national entry ports, with-  
out utterly abandoning the con-  
cept of bases on the west coast.  
The General Board, the Army's  
Chief of Staff, come to Congress  
and urge that the training period  
of the solution, the National  
Guard and the Reserve officers  
be prolonged by the 12-  
month period specified in the  
draft law. With ample money,  
the General Staff proposed  
that a reform to do this "might  
be one of the things that  
the United States should do."  
The chief would be to have this  
country practically destitute of a  
trained army for at least a year.  
That is how the isolationists  
are proposing and charging that  
the United States is to be  
destitute of a trained army for at  
least a year. That is how the

### Division Of Property After Divorce Decreed

TALLAHASSEE, July 30 —  
(AP)—The Supreme Court Tues-  
day decreed equal division, af-  
ter divorce, of property held  
jointly by a couple during what  
is called 17 years of a "hawk  
and buzzard" marriage.  
Justice Glenn Terrell, who  
wrote the opinion, said it was  
the first time the court has  
ruled on disposition—in event of  
divorce—of property owned in  
the joint names of husband and  
wife.  
The ruling reversed a Dade  
county circuit court decision re-  
quiring Charlotte E. Strauss to  
sign over her share of the prop-  
erty to Harry Strauss when  
they were divorced.

Brown, Mrs. J. Y. Brown, Mrs. J. Z. Brown.

Friends of Miss Gilbert Williams will be glad to learn that she is recuperating from an operation which was performed at the Central Florida Memorial Hospital on Monday.

Mrs. W. E. Haines and wife, Mrs. W. F. Haines, returned home last night from Knoxville, Tenn., where they have been spending the past month.

Mrs. G. R. Hays and son, Ronald, Jr., have returned to their home in Baywood, N. E., after spending the past 30 days with the former's parents, Mrs. T. Denton, and mother, Mrs. J. J. Minor.

Mr. and Mrs. W. M. Thigpen, Jr., of Atlanta were the guests yesterday of Mr. and Mrs. W. M. Thigpen, Sr., at their home on Manolia Avenue. Mr. and Mrs. Thigpen are spending a honeymoon on the coast.

Major Harold Washburn returned to Camp Blanton after spending a four-day leave here. Mrs. Washburn plans to visit him at camp Thursday before he leaves on Friday for Louisiana.

Mrs. Ollie Bryan has returned home from a month's visit with relatives in Whitwell, Tenn., Altoona and Birmingham, Ala. She was accompanied home by her mother, Mrs. A. L. Rankin of Whitwell, who will be her guest for awhile.

Mrs. J. O. Laney is expected to return tomorrow from Opelika, Ala., where she has been visiting with relatives. She will be accompanied by her sisters, Mrs. J. D. Graves and Mrs. Charles Lyberty, and son, Charles, Jr., of Opelika.

Mrs. J. M. Cameron and daughter, Marty, who have been spending the past three weeks with Mrs. Cameron's parents, Mr. and Mrs. W. P. Stone, have returned to their home in St. Petersburg. Mr. Cameron drops up to accompany them home.

Mrs. M. L. Raborn and daughter, Ann, plan to leave tomorrow for Springfield, Tenn., to visit with relatives for two weeks. Marion Raborn, Jr., who has been visiting there for several weeks, will return home with them.

Bus Drivers Are Lauded For Safety

TAMPA, July 30.—(Special)—"My hat is off to the bus drivers of Florida," said Asher Frank, director of the Florida Safety Council, recently. "In our campaign to reduce accidents this month, which we called 'Safety Month' by Governor Hilland in a proclamation, we had splendid co-operation from all the bus transportation companies of Florida.

"Bus lines at Florida during the holiday period of July 3, 4 and 5, carried over 40,000 passengers a distance in excess of 150,000 miles without a single accident of any kind. The Florida Motor Lines alone carried 24,243 passengers a distance of 197,243 miles; Tamiaki Trail Tours handled 2,650 passengers and covered 18,000 miles.

Rosemary LaPlante, 19, poses prettily with her trophy after being named 'Miss California' at American Legion luncheon in the Coliseum in Los Angeles. She defeated 17 other hopefuls to win the title and the right to compete at Atlantic City for the 'Miss America' crown.

Trio Tells Of Trip To Bahama Islands

Exclaiming it was the most wonderful trip in the world, the Misses Charlotte Hamilton, Myrtle Haines, and Kathleen Crawford, yesterday recounted some of their adventures recently through the Bahama Islands. Leaving for Nassau, Fla., July 24, they motored to Miami via the East Coast and on Monday afternoon of that date boarded the boat, "Empire State," making its first stopover at Nassau about 100 miles south of Miami, on the following day, at which time British officers came aboard ship and checked the passengers out.

While the craft lay at anchor in Nassau harbor little black boys swam around, crying, "Maay, throw a penny." Going through the city of Nassau the girls were impressed with the appearance of the stores looking very much like the stores in the states, only more crowded and having colored and white girls as well as a prominent night club, the British flag, thereby making it open to attack at any time which fortunately did not happen.

While the girls were impressed with the appearance of the stores looking very much like the stores in the states, only more crowded and having colored and white girls as well as a prominent night club, the British flag, thereby making it open to attack at any time which fortunately did not happen.

Bus Drivers Are Lauded For Safety

TAMPA, July 30.—(Special)—"My hat is off to the bus drivers of Florida," said Asher Frank, director of the Florida Safety Council, recently.

"In our campaign to reduce accidents this month, which we called 'Safety Month' by Governor Hilland in a proclamation, we had splendid co-operation from all the bus transportation companies of Florida. Bus lines at Florida during the holiday period of July 3, 4 and 5, carried over 40,000 passengers a distance in excess of 150,000 miles without a single accident of any kind.

Advertising On Road Signs Is Limited By Act

TALLHASSEE, July 30.—(Special)—No person shall engage in the business of outdoor advertising in Florida, outside the corporate limits of any city or town, without first obtaining a license from the chairman of the State Road Department. The regulation was an act of the 1941 Legislature.

The further provision, Mr. Hill said, that with certain exceptions, no person shall construct, erect, operate, use or maintain any outdoor advertising sign on the corporate limits of any city or town, without first obtaining a permit from the chairman of the State Road Department.

A copy of the outdoor advertising act will be forwarded to any person who is interested in its provisions. Your co-operation in this further endeavor to make the highways of this state more safe and attractive will be appreciated by all citizens of Florida.

Growers Of Limes Find Army Camps Are Good Buyers

JACKSONVILLE, July 30.—(Special)—Lime growers are finding the Army Quartermaster at Jackson County, Fla., a good buyer during the summer months. Purchases will be made according to an order issued by William L. Williams, director of State Farm Products.

The Jacksonville Quartermaster received the substitute requisition for limes on the 24th of July. The requisition is now being taken by the Quartermaster Market Order at Columbus, Ga., and distributed to the Jacksonville center for distribution and prices on limes for 5,000 boxes for the month of August, and 88,000 boxes for Camp Shelby, Miss., state placed.

A request for prices on an additional 88,000 boxes for shipment next week to Camp Shelby was also received. Camp Shelby has received a total of 10,000 boxes during last week. Prices on the above shipments ranged from one-half cent to one cent per lime depending upon destination. Limes on the 27th of July were \$2.75 to \$3.00 per bushel, the report stated. The State regulation of 40 percent juice by volume, plus the natural strength and flavor of the Florida limes, will be a quality product.

The Jacksonville center has received that limes be included in the Third Army menu to be allowed by all manufacturing troops during the months of August and September, and has been informed that this suggestion is receiving serious consideration.

The entire trip came at the conclusion of the picture when the audience stood while the picture of the King of England was flashed on the screen and the national anthem of England was sung.

Returning to the boat in the evening the passengers were entertained by Bahamian singers, rendering the songs of the islands and also negro spirituals.

"The next lap of the cruise took us to the island of Abaco and the outer islands. All of the outer islands had to be reached by sail boats. At Cherokee Sound, the party went ashore and viewed the remains of what was once a prosperous town, with concrete roads and beautiful homes. Where the population was once thousands, it is now only around 200 in some of the islands.

"The smaller island of Eleuthera was also visited, and many interesting things seen there. At some of the islands we met Buddy Amoroury, who played in the picture, 'Bahama Passage' with Madeleine Carroll and Stanley Hayden.

"When asked about the food, the girls remarked that it was delicious and well prepared. Conch salad and turtle served in many varied ways were the main items on most of the menus. 'Oh, yes,' they exclaimed, 'when a boat docks on any of the islands, the townspeople meet it with home made ice cream for all the passengers and crew, by way of greeting.

Josephine P. Winter

Josephine Porter Winter, 25, an American ambulance driver from St. Louis, who was held in jail at Figueras, Spain, for eleven days on suspicion of being a spy, returns to the United States at Jersey City, N. J. All pretty blondes, she said, are suspected as spies in Spain. She had gone to Spain when France collapsed.

Photographing Jap Will Be Released

TAMPA, July 30.—(Special)—Detective Chief W. D. Bush said yesterday he would release a 36-year-old Japanese who was arrested here and suspected of taking pictures of Tampa harbor activities.

The alien had two cameras with him when nabbed and reports reaching police indicated he had photographed shipping centers. But a checkup showed that film in the movie camera had not been used and the pictures on a roll of film in a still camera were blurred except for one picture of Bayshore Boulevard.

TWO ARMY FLIERS KILLED

SHREVEPORT, La., July 30.—(AP)—An AT-8 trainer from Hanksdale field crashed and burned in a field six miles southwest of Washport, Texas, Tuesday morning, killing two men identified by Army officers as Lieut. Raymond J. Todd, 21, and Flying Cadet David W. Hancock, 25.

NAMED ASSOCIATE DEAN

GAINESVILLE, July 30.—(AP)—Dr. W. H. Wilson, assistant dean, has been appointed associate dean of the college of art and sciences of the University of Florida. President Tigert, announced Tuesday. Dr. Towles R. Leigh is dean.

### Cochrane Cops Zivic's Crown By Decision

NEWARK, N. J., July 30—(AP)—Freddie (Red) Cochrane, a rugged redhead with a left hand that works overtime, won the world welterweight championship from Fritz Zivic last night in a rough and tumble 15-round brawl at Ruppert stadium. Zivic weighed 145; Cochrane 142 1/2.

The husky little redhead who earned his A-B-C's of fighting as a neighbor of Mickey Walker took everything the highly favored Zivic had to offer and then charged back for more as he landed left hooks off Fritz's legs all evening and then served up an occasional right.

"Before a good-sized crowd in this ball park of the New York Yankees' International league farmhands, Cochrane won the decision of Referee Joe Mangold as the hearts of every fan by the way he stood off Zivic's closing rush to protect his lead. There are no judges in Jersey and the referee has the whole say. The bout was as close as it was rough. At the finish the Associated Press score card showed each fighter with seven rounds and one scored even.

Charley Wright, promising Ne-

### Dorothy Bundy Fights Hard To Keep In Tourney

EAST HAMPTON, N. Y., July 30—(AP)—For the second successive day Dorothy Bundy of Santa Monica, Calif., had a fight on her hands to stay in the running for the Madisonclub women's invitation tennis title Tuesday.

The defending champion, No. 8 on the seeded list, was extended all the way before downing Jane Stanton of Los Angeles, 6-4, 6-1. The victory put Miss Bundy in the quarterfinals with the other ranked contenders—Mrs. Sarah Paley Cooke of New York, No. 1, who beat Judy Atterbury, Locust Valley, N. Y., 6-0, 6-1; Pauline Betz, Winter Park, who turned back Barbara Bradley of Los Angeles, 6-3, 6-2; and Virginia Wolfenden of San Francisco, 6-3, 7-5 winner over Katherine Winthrop of Boston.

Louise Brough of Beverly Hills, Calif., and Hope Knowles of Philadelphia advanced in the upper half of the draw with Mrs. Cooke and Miss Wolfenden. The California girl put out Nellie Sheer, Miami Beach, 6-1, 6-0, and Miss Knowles upset Nina Brown of London, 6-1, 6-2.

Surviving with Miss Bundy and Miss Betz in the lower half were Mary Arnold of Los Angeles, on an 8-6, 6-3 conquest of Mrs. Helen Pedersen Ribbany, of Boston and Stamford, Conn., and Shirley Catten of Alameda, Calif., who first beat Valerie Scott of London, 6-0, 6-2, and then ousted Mrs. Martha Barnett Andrade, Montauk, N. Y., 7-5, 6-4.

Wolfer, his wife, et al. are defendants, the undersigned as Special Master, will within the legal hours of sale, on Monday, the 31st day of August, 1941, offer for sale and sell to the highest and best bidder for cash at the front door of the Court House in Seminole County, Florida, in Sanford, Florida, the following described lands and premises situate in Seminole County, Florida, to-wit:

### Parasang Wins 3rd Consecutive Stake At Saratoga

SARATOGA SPRINGS, N. Y., July 30—(AP)—C. V. Whitney's Parasang, a son of Halcyon with a great liking for soft looking, chalked up his third straight stakes triumph Tuesday in scoring a front-running victory in the 12th running of the Wilson mile here.

Before a crowd of 4940, the Whitney colt led William Woodward's Fenelon, a very slight choice over the winner, to the finish line by a length and a half, with William duPont's filly, Fairy Chant, a bare head back in show. R. Sterling Clark's Trois Pistoles was a distant fourth and last in the small but smart field.

Over a slow track Parasang's time of 1:34 4/5 was creditable. He led Fenelon by a narrow margin until midway of the turn, where he made it a length. Fenelon then came up with one last try through the stretch but wasn't good enough as Parasang drove along and Fairy Chant just missed beating out the favorite.

Parasang closed at 6 to 5 and Fenelon at 11 to 10.

City Talk, winning the seventh race at \$9.90, gave owner F. J. Buchanan, Trainer J. W. Healy and jockey Johnny Longden a triple.

In accordance with orders of the Nazi invaders, these civilians of the Soviet city of Minsk—three women and a man—are surrendering firearms to Nazi troops, according to the German censor.

### Governor's Hunting Control Is Approved

TALLAHASSEE, July 30—(AP)—Governor Holland's program for developing State-controlled public hunting grounds was endorsed by the Game and Fresh Water Fish Commission yesterday.

Lands may be acquired later in various sections of the State. Governor Holland said public hunting grounds are becoming necessary because rangelands are being fenced and pastured in development of the cattle industry.

### Officials Discuss Shortage Of Silk

WASHINGTON, July 30—(AP)—Standards of silk hosiery may be affected by a meeting here Tuesday called by the office of Price Administration and Civilian Supply to consider a silk shortage as a result of relations with Japan.

Price Administrator Henderson called in representatives of the silk trade to consider first the effect of a proposed ceiling on the price of raw silk, which skyrocketed recently after developments in the Far East, but the question of civilian supply was a chief topic.

### 'Big Bill' Thompson Pulling For England

CHICAGO, July 30—(AP)—William Hale (Big Bill) Thompson, Chicago's three-term Mayor, who once threatened to punch the late King George of England "in the snoot" if the monarch ever came to Chicago, said yesterday he hoped England would emerge victorious against Germany.

The veteran of nearly 40 turbulent years in Chicago politics told an interviewer he favored aid to Britain "because I believe that in so doing we are helping the defense of this country."

**F-M HORIZONTAL EJECTOR**  
gives an extra volume of water at low pressure

Here's a new type of pump which fills a definite need by supplying an extra volume of water at low pressure and also provides an ample supply as normal tank pressure. Extremely quiet in operation, the F-M Horizontal Ejector pump has but one moving part. It produces greater water capacity for its motor size than any other design of pump. An ejector jet and tube built into the suction side of the motor, increases the capacity of the pump and develops a high pressure discharge. A heavy constructed bronze impeller makes the pump less subject to wear from sandy water. Come in today—we will be glad to give you complete details on this F-M Horizontal Ejector Water System.

## Japan Quickly Apologizes In Boat Incident

### Foreign Minister Assures Ambassador Army Was Told To Use Utmost Care

Patience Of U. S. Is Sorely Tried

WELLES Declines To Say Whether Payment Was Sought

WASHINGTON, July 31.—(AP)—Acting Secretary of State Sumner Welles said today the Japanese apology for the bomb-bombing of the American transport ship, the *Albatross*, was a "sincere and complete" reply to the American representations made here last week.

The Japanese government representative in the U. S., Ambassador Nomura, said before he could make representations.

SANFORD, Ind.-China, July 31.—(AP)—Japanese troops have formally entered here. Observers say it is a first-class army.

Far East tension eased today as Japan quickly apologized for bomb damage to the U. S. gunboat *Tuttle*.

Japanese Foreign Minister Toyoda assured Ambassador Joseph Grew that the forces were instructed to use the utmost care with American property.

Acting swiftly and in a manner to show that its patience was sorely tried, the United States called Japan to account yesterday for a new attack on the American gunboat in the Yangtze River delta.

The Japanese representative apologized for the incident and said it was a "mistake."

The *Tuttle* was damaged by a bomb which narrowly missed the ship's superstructure.

The Yangtze River patrol was damaged by a bomb which narrowly missed the ship's superstructure.

After the news reached Washington, President Roosevelt approved the bombing with Sumner Welles, acting secretary of state, apparently in answer to a summons from Welles the Japanese ambassador, Admiral Nomura, called at the State Department.

Emerging from his brief conference with the ambassador, Welles announced at his press conference that conversations had been made to the Japanese government.

He declined to say whether he had indicated personally a severe rebuke to the ambassador, as he did last week in his interview with the press.

With tension in the Pacific already high as a result of the Japanese move to take over military and naval bases in French Indo-China.

Welles refused to say whether any indemnification was demanded in the case of the sinking of the *Tuttle* in the Philippine Sea on Dec. 18, 1937.

He said the United States government had received a letter from the Japanese government.

## Race Track For Miniature Autos Being Built At Fort Mellon Park

Miniature auto races will be featured in Sanford soon as the city has begun construction on a concrete track at Fort Mellon Park, just south of the shuffleboard courts, to be sponsored by the Sanford Model Flyers Club, W. D. Hofmann, an executive committee member of the club, said today.

The track is to be a 56-foot circle with a three-foot running surface, the official size track as set by the American Miniature Racing Car Association, Mr. Hofmann explained. When it is completed it will be probably the finest track in the state and races here will draw the best of cars over the state, it is believed.

The little cars run in a circle at the end of a cable anchored in the center of the track and obtain very high speeds, Mr. Hofmann said. The world's record for the cars is 87.37 miles per hour, though an unofficial speed of 91 miles per hour was obtained by a racer several days ago.

Stars of from one-fifth to one-third horse power drive the small cars that have a wheel base from 12 to 14 inches. The autos weigh about seven pounds and their overall length runs from 18 to 24 inches.

As soon as the track is completed, about the middle of next week, Park Superintendent James Moughton estimated, races will be held with boys-owned cars from towns nearby.

Dayton Beach has quite a group of enthusiasts, Mr. Hofmann said, though the nearest track is at Orlando.

The boys of the model airplane club have been clearing and laying out the track preparatory to the city paving it, Mr. Hofmann explained. Five of the members have racing cars already.

At the same time the city is preparing to plow up, harrow and level the east end of Fort Mellon Park in preparation to planting grass, Mr. Moughton said. Later the tree area will be covered with mulch. The same swimming pool and soft ball diamonds and the trees will be changed according to the plans for the completed work.

## Gun Club President Relates His Experiences At Jacksonville Shoot

Byrd J. Goode, president of the Seminole Gun Club, yesterday related his experiences at the Southeastern Regional Pistol Championship matches held in Jacksonville at the Duval Hotel July 25, 26, 27, and 28, from which he has just returned.

Mr. Goode served as an instructor in the pistol shoot before the matches and acted as range officer and team captain for the Seminole team in the matches. He gave thanks to James Webb, Ned Smith and C. E. Marshall for "carrying on" at the Gun Club and at the Defense Force drills during his absence.

Concerning the pistol matches, Mr. Goode said:

"One of the features of the Southeastern Regional Pistol Championship matches was the high caliber of the contestants. C. A. Wilson, petty officer of the U. S. Coast Guard cutter *Pandora*, and C. A. "Smitty" Brown, Florida state champion, Wilson won the title of champion with a score of 1135. Miami Beach and the Tampa police were third at 1111, the Jacksonville police scored 1101, and a pick-up team of the Seminole Gun Club members who attended the match made a score of 1043. Members of the Seminole team were Jasper Wolf, William Brooker, Captain Ralph Stetten and J. M. Tappan.

"This was a difficult course of 50 yards slow fire, 25 yards fast and rapid fire, without any practice at all for the match. The scores made should be considered very creditable indeed."

"At a banquet held in the polo field at the Hotel Roosevelt after the matches the medals, trophies and honors were presented to the prize winners," Mr. Goode said. "The prizes consisted of a manager, hand the awards and announced that the entry list of this year's shoot was the longest in history."

"Hal W. E. Hubbard, detective chief, who is the Jacksonville police force who is now on leave to serve as a major at Camp Hedden was unanimously elected president of the Florida West Coast Gun Club. He was presented with a letter of commendation for his service as a major officer for the meet."

"Some Sanford friends selected a good team to not hearing a sound of gunshots, and they were the Sanford team. From Camp Hedden they were accompanied to Jacksonville for one of their matches in the Tampa area. The Sanford team was very successful and they were the champions of the Tampa area. The Sanford team was very successful and they were the champions of the Tampa area."

## 1400 Men Return To Jobs In Key West

KEY WEST, July 31.—(AP)—Full-scale construction of 60,000,000 worth of naval defense projects was resumed Wednesday as 1400 workmen ended their six-day work-out after an unacknowledged compromise of wage de-advancement.

Eight hundred striking laborers accepted a 50 cents per hour basic wage scale, representing a 10-cent increase, with overtime pay at time and one-half on Saturdays. The strikers originally asked for 14 cents an hour to coincide with the scale paid similar workers at Miami.

About 600 carpenters, plumbers and painters, who had walked out in sympathy with the laborers, decided last week to return to work.

## Music Controversy Appears Near End

NEW YORK, July 31.—(AP)—Return to the National Association of Broadcasters' American radio stations playing new music was announced today by the National Association of Broadcasters. The association said it had reached a tentative agreement with the Musician's Union, which had been demanding that radio stations play only music by composers who are members of the union.

The agreement was reached after a long and bitter struggle. The Musician's Union had demanded that radio stations play only music by composers who are members of the union. The National Association of Broadcasters had resisted this demand, arguing that it would limit the variety of music available to the public.

The tentative agreement allows radio stations to play music by composers who are not members of the union, but only if the music is "of a type and quality" that is comparable to that of the union members. The agreement also provides for a system of royalties for the non-union composers.

## Gas Stations Are Asked To Close Nightly

### Ickes' Request Will Become Effective On August 3 For 7 Days Each Week

WASHINGTON, July 31.—(AP)—A board to guide the war effort activities of federal agencies in economic defense was created today by the President, with Henry Wallace heading and with the Secretaries of State, Treasury, War, Navy, Agriculture and Commerce and the attorney general included. It will advise the President on essential defense functions.

WASHINGTON, July 31.—(AP)—In a move toward compulsory gasoline restrictions, Secretary Ickes today asked the oil industry to close 100,000 service stations in all the Eastern States from 7:00 P. M. to 7:00 A. M. seven days a week, effective Aug. 3.

The House began three days of debate on the \$3,529,200,000 tax bill yesterday and approved an Administration-sponsored curb on the number of amendments that may be offered to the unprecedented measure.

Republicans denounced the procedure as "gag rule" which they contended had no place in "the last bulwark of democracy," but it finally was adopted by a roll-call vote announced by 203 to 168.

Before this action was taken, however, a modification of the originally-planned procedure was agreed to by the leadership to permit Ickes to announce the provisions which would require married couples to file joint income tax returns and thus prevent them from escaping higher surtaxes by dividing their incomes.

As a result, the house will get a chance to vote for or against that provision, designed to yield about \$223,000,000, but the only other changes which it will be permitted to make are in the rule which will be those suggested by the ways and means committee.

Chairman Doughton of the committee and other leaders told the House it would be dangerous to throw the bill wide open for amendments and some Republicans conceded such a course would be unwise.

## Dog License Deadline Set For August 9

### Owners Must Have Animals Vaccinated To Prevent Rabies

Dog owners in Sanford will be required to obtain licenses for their dogs and to have them vaccinated for rabies beginning Aug. 4, H. N. Bayer, city clerk said today.

City ordinance No. 168, usually enforced either during July or August each year.

Dr. C. W. Baker, veterinarian, will have charge of the vaccination of the dogs. He will be at the City Hall each day from 10:00 o'clock in the morning until 12:00 o'clock noon beginning Aug. 4 and continuing through Aug. 9 for the vaccination. Cost of the injection will be borne by the City out of the cost of the license, Mr. Bayer said.

The City Commission has instructed Chief of Police Roy Williams to enforce the requirement of the ordinance. After the Aug. 9 deadline expires, Chief Williams will be authorized to pick up all dogs running at large that have not been vaccinated or are not muzzled, and to bill the stray dogs and impound those he believes the owners would call for.

"It has been customary during the past several years to enforce this requirement either during July or August of each year," Mr. Bayer explained. "For the past two years the City did not enforce the ordinance, and a number of dog owners neglected to muzzle a hound and have their dogs vaccinated," he added. The City Commission decided to enforce the ordinance at its meeting Monday night.

## Eden Warns Japan On Present Policy

LONDON, July 31.—(AP)—Foreign Secretary Eden called upon the Japanese today to "reflect while there still is time, which their present policy is leading them."

In a major British diplomatic attempt to steer Japan off a course of military expansion which may lead to a collision of the world powers in the Orient, Eden told the House of Commons "I cannot believe that statesmanship in Japan is entirely dead or falling."

## MacVeagh Nominated As Iceland Minister

WASHINGTON, July 31.—(AP)—Lincoln MacVeagh of Connecticut was nominated by President Roosevelt to be Minister to Iceland. Recently MacVeagh returned as minister to Greece. Iceland formerly only had a consul.

# Germans Report Destroying Seven Red Army Divisions

U. S.-Made Flying Fortress Off To Bomb Germany

These pictures were made as one of several huge U. S.-made Boeing B-17 flying fortresses left an undisclosed British airport for a raid on the damaged Nazi ship *Gneiseau* in port at Brest, France. Flying at a height which made them "certainly inaudible,"

## Thousands Of Prisoners Reported Taken by Nazi Forces In Leningrad Drive

### Trap Tightens, Reich Declares

#### Russians Said Firing Forests, Fields After Naphtha Spray

LONDON, July 31.—(AP)—A counter offensive by more than three million soldiers on the Russian front from Leningrad to Kiev was predicted in military circles here today. They say it might begin within two weeks and be one of the largest in history.

MOSCOW, July 31.—(AP)—The German forces declared today the Germans had been held to a standstill and are wearing themselves out in futile assaults as the Soviet defenses. Informants said the war had developed into a battle of attrition with the Reds using their weight to sap the Nazi strength.

No Associated Press German smashing Leningrad-ward reported today they destroyed seven Red divisions (about 105,000 men) on the northeast front after encircling and taking thousands of prisoners.

Nazi pressure from the south and Finnish pressure down the Karelian Peninsula are "growing," Soviet defenses.

The Nazis say the Russians are firing forest and fields north of Leningrad after a naphtha spray.

German fighting units on the British-Russian aerial attack on Moscow yesterday was a "total failure."

Hitler's headquarters asserted the trap is tightening on the Smolensk and Simons areas. The Reds are defeated in the Ukraine. The Reds indicate no change in the line.

Italian troops have reached the Russian war front.

The Nazis claimed early today that Leningrad, one of their three major objectives in the Russian campaign, was apparently caught in a fatal trap and that a major breakthrough at the Smolensk salient toward Moscow, objective since last November.

The Russians and this, too, was an unofficial offer of an altogether different picture, one also continuing Red counter-attacks which were declared not only generally but to have turned them in some areas into costly forced retreats.

Reliable private advice received by the Associated Press in New York stated that the German High Command expected the fall of Leningrad at any time.

Official reports from both sides were full of the heavy restraint that sometimes forbids announcements of the utmost importance.

The Nazi war bulletin spoke only of continuing and futile Russian attempts to relieve Red forces said to be encircled at the center about Smolensk, and dismissed operations elsewhere with a description: "according to plan."

Yesterday's Soviet communiqué offered only the bare information that there was "continuous stubborn fighting" in the Nevsk-Smolensk area and about Zitomer in the Ukraine, although reporting the kind of heavy and continuing Red aerial action which ordinarily supported offensive rather than defensive actions.

Again this morning, the official Soviet war bulletin spoke only of heavy action at the center and below Leningrad, reporting heavy German losses.

The official communist party newspaper *Pravda*, which speaks with considerable authority, insisted that the three key German efforts to reach Moscow, Leningrad and Kiev—had now been defeated without question and that German losses in men, morale and supplies had been tremendous.

## Mechanics Class Will Be Offered At Seminole High

Boys attending Seminole High School next Fall will have an opportunity to take a mechanics course which is designed to prepare them for further training after school in national defense production, Alex Johnson, who will be the instructor, said today.

Known as the farm mechanics course, the training was offered last year for the first time. It will be given again this year with more emphasis on machine production.

It is a new trend in high school curricula, and Mr. Johnson says he knows of no other course like it in Florida.

All present members of the Seminole Chapter of the Future Farmers of America are painting and overhauling the shop at the Seminole High School Farm Building so that it will be ready when school opens.

Students will be preferred unless in the course are:

Circular saw, jointer, jig saw, band saw, high speed grinder, mortising, drill press, forge work, welding, wood lathe, mill work, electricity, pipe tools, paint and brushes, work drawings and bills for materials.

Students taking the agriculture course at the high school will receive part of the training to be offered in the farm mechanics class, Mr. Johnson said.

As stated by the instructor, the purpose of the "experimental class" is to enable the advanced high school student to find his ambition along mechanical lines.

## AAA Cuts Out Celery Program For Next Year

Vegetable and Cover Crops Not Included In Cancellation

No celery program will be carried on for 1941-42 by the Agricultural Adjustment Administration, a communication from Washington through the state office at Gainesville has revealed.

C. E. Dawson, county agent, declared today.

No advice has been received as to a change in the vegetable allotment program and the cover crop program but farmers are advised that they will not be paid for cutting their celery acreage this year, Mr. Dawson said.

"Payment earned on the immediate past celery crop will probably be paid but the coming crop will not be subject to any celery program," Mr. Dawson said.

No explanation was made on the change, Mr. Dawson stated in a letter addressed to all celery growers in the county, but as soon as further information is received it will be given out.

Payments on the celery and vegetable program amounted to about \$40,000, according to figures compiled by the office of the county agent. Some 1,174 work sheets were made out by farmers in the county in compliance with the AAA program covering about 16,263 acres of tilled land.

The celery allotment for the county last year was 3,422.8 and a total of 3,423.3 acres were put into production of celery, showing a close adherence to the program. The vegetable allotment of 5,757.5 acres was not nearly used as only 1,800.1 were actually planted in vegetables, according to the report.

The total of \$10,000 paid out for compliance with the AAA program was paid during the year 1941 for crops of 1940, the report stated.

It is expected that celery acreage in the Everglades section will be increased next year though indications are that the increase will not amount to more than 1,000 acres, Mr. Dawson explained.

## Formula Is Found For Fixing Dispute

BUENOS AIRES, July 31.—(AP)—A formula for settling the border differences between Ecuador and Peru today was said to have been arranged by representatives of the disputing neighbors, Brazil, Argentina and the United States, are expected to be announced soon.

## Highway Patrolmen To Attend School

TALLAHASSEE, July 31.—(AP)—Thirty Florida highway patrolmen will learn how to examine applicants for state driver's licenses at a two-week training school beginning Monday in Lakeland.

Director J. J. Gilliam said they will receive courses in how to conduct tests of driving ability, vision and knowledge of traffic signs and road rules.

The new license law requires examination of all drivers applying for the first time for a Florida license and of those who have been driving recklessly.

## Committee Approves Equipment Seizure

WASHINGTON, July 31.—(AP)—The House Military Committee approved 14 to 4 today a bill authorizing Roosevelt to seize military or naval equipment, supplies, munitions, machinery and tools for making, servicing or operating such as a "raid and just compensation."

## Egyptian Cabinet Resigns As Unit

CAIRO, July 31.—(AP)—The Egyptian cabinet of Premier Hussein Sirry Pasha resigned as a unit today to reorganize on a broader basis, including five new ministers of the *Saadat* party. The *Saadats* are an offshoot of the dominant *Waf* party.
