How long ago seems that time in Mizmi when the Republican National Convention presented the spectacle of a successful candidate for the nomination win his victory with a surprising assist from Senator Strom Thurmond of South Carolina,

True that was 1968 and this is 1970. Surely the record of the administration's attitude towards the prime issues which such as Senator Thurmond accept as of the highest importance: Change in the direction of the United States Supreme Court and the slowing down of actions which would end any kind of segregation, encouraged the interpretation that the Nixon leadership was fulfilling its obligation, if

Other meetings have been held in Washington where the split, headlined by Senator Thurmond, had been foreshadowed.

It was at these that our own Senator Edward Gurney of Winter Park stood up and by his fellow-Republican Senator Thurmond. This alliance is one which could have important reparcussions in Florida with Gurney a major backer, supporter and fundraiser for the Carswell candidacy for the United

But this development does have implications which reach ahead two years to the presidential election in 1972. Whether they will survive during the changes which will take place in political affairs during these years of crisis, is very debatable.

But what must now be taken into consideration is a political phenomena which has shown and does possess a vitality and an ingrown strength that entirely too many politicians are prone to discount,

This is the remarkable figure of the Gov-elect of Alabama - the redoubtable George Wallace, His was the candidacy in 1968 which shook the nation. His was the threat of upsetting the usual procedure of electing a president through the electoral college and sending it into the Congress which sent shudders

throughout the political world. Thus there must be a whole let of re-assessing going on among the GOP strategists who now have some changed conditions to think about when they think about their strength in the south and the Wal-

A Gallup poll has disclosed a statistic which shows Governor Wallace with just about the same percentage of voters supporting him as a third party candidate as did in surveys since 1968.

He is given a "highly favorable" rating nationwide of 14 per cent. In March 1969 it was 13 per cent. But when the south was polled this jumped to 28 per cent, exactly what it was in March 1969. Such a hard core of supporters is a political

lace support has been and is measurably high. Yet when Rogers Morton, GOP national chairman sits down to map GOP strategy, he has some reports which indicate that the Nixon administration must look to where the Republican gains can best be expected now and in 1972.

The Ripon Society (liberal GOP) report defines these areas as where "urban and suburban moderates, newly enfranchised blacks, the young and the aroused poor whites" live. This is, indeed, a change. Yet, as the Prussian

statesman Otto van Bismarck observed: "Politics is not an exact science!" Change, therefore, is the O yes! One voice which has not been heard and

which evidently has not felt it was the time to make this "perfectly clear" is that of the President. This is the decision which must be awaited Chances are it will not be sounded, but what takes place will have to be accepted as showing Nixon's

Mafia Alarm!

With the rash of exposes appearing in print lately in national magazines, books, and newspapers the spotlight has been falling on the previously shadowy dealings of the dreaded Mafia. Consequently you may have noticed it is replacing sex and the weather as the most

Are we justified in feeling that the ancient Greek, Diogenes who sought for an honest man carrying his lantern at noonday, would be hard ressed to locate one in some of the hallowed halls of justice and legislature?

For some time now Life Magazine has been exposing the corrupt dealings of officials from various parts of the country with their Mafia bosses. THE CHURCH FOR ALL ... ALL FOR THE CHURCH The Church is the greatest factor on earth for the building of charac-ter and good citizenship. It is a store-

are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself When each new experience springs forth like a jack-in-the-box which needs his moral and material ... and your fondest possessions are toys ... and your chief concern support. Plan to go to church regularly and read your Bible daily. is to squeeze out of every hour the last ounce of amusement-then it's fun to be surprised.

But when you've grown too old for toys . . . when life is laced with serious challenge . . . when happiness depends on a thousand social, economic and moral decisions—then surprises can be devastat-

It is elementary that our early education must prepare us for the later surprises. The knowledge, habits and skills we acquire must be adequate for meeting the unexpected as readily as the expected. And because religious faith and moral fortitude are men's chief resources in the unheralded crises of adult life, we must nurture their development in every child.

Support, encourage, serve your church in its vital efforts to mold the character of today's youth - tomorrow's adults.
