Steel Talks Resumed By Negotiators

WASHINGTON (UPI)—Union and management negotiators resumed steel contract talks today. They discussed a scaled-down union wage demand designed to settle the 94-day strike.

The revised union proposal raised hopes of agreements to end the worst steel strike in the nation's history.

R. Conrad Cooper, chief management negotiator, led his four-man bargaining team into the hotel suite of Steelworkers' President David J. McDonald five minutes before the scheduled hour.

McDonald declined to comment on the new union proposal. He posed for photographs with Cooper for about five minutes before bargaining began.

Cooper reiterated that he knew nothing about the pared-down union peace offer.

Eisenhower was described as gratified at the resumption of negotiations.

"Naturally he is gratified at anything that indicates some progress," the White House said.

The resumption of talks marked the first direct union-management negotiation since both parties broke off bargaining Oct. 6. Both sides agreed Thursday to go back to the table at the urgent suggestion of Eisenhower's fact-finding board, to avoid a Taft-Hartley strike-stopping injunction.

The first hint of a break in the stalemate came after secret meetings between Edgar Kaiser, head of Kaiser Industries, and representatives of the union. Kaiser said later that he had made no commitment toward a contract.

Reliable sources said the union pared down its wage demands by a considerable amount in its latest peace offer. It was said to be a two-year proposal calling for much less than the 20-cent package the Steelworkers previously have insisted on in a two-year pact.

Two sources said the union is now asking about a 20-cent wage and benefit package spread over a two-year period.

U. S. Bureaucrats Hostile To Press, Editor Charges

LOS ANGELES (UPI)—Virgil M. Newton Jr., managing editor of the Tampa Times, charged today with showing a "hostility of attitude" toward the nation's press.

Newton said he doubted that he could find a single federal public servant who has come altogether clean with the people in the matter of the facts of government.

He spoke before an audience of journalists at the kickoff banquet for the 20th annual Newspaper Week.

Comedian Bob Hope and Red Skelton received special "friends of the press" awards at the banquet.

Newton said no records of the federal expenditure of billions of tax dollars are open to the citizen.

"Give the free people the truth," he said, "and an informed public opinion always will respond to the challenge, whether it be the need for more taxes or the danger of atomic fallout."

Newton said no records of the federal expenditure of billions of tax dollars are open to the citizen.

City Operations Impress St. Augustine Officials

St. Augustine city commissioners who inspected Sanford Wednesday were "very favorably impressed with our operations and our personnel," Sanford city manager Warren Knowles said yesterday.

The commissioners, headed by St. Augustine Mayor J. Earl Mickler inspected the town on the advice of local City Planner Jerry Duke who recommended Sanford as a place to see good city operations.

Finding that refuse disposal cost \$101,000 per year for St. Augustine's 16,000 people, while Sanford pays only \$33,000 to get rid of garbage and trash for more than 18,000 persons surprised the commissioners.

The Police Department, Civic Center, new fire station, recreation facilities and municipal stadium were inspected by the visiting commissioners. They liked the neat appearance of departments and said department heads were impressive, Knowles pointed out.

"They made me proud to be city manager in Sanford," he said.

California Brush Fire Still Rages

LOS ANGELES (UPI)—A gigantic brush fire raged unchecked in the Los Angeles foothills today and there was no immediate hope of bringing it under control.

About 30 to 40 homes were within less than a mile of the blaze and in peril. Several hundred other homes were in potential danger.

An estimated 80 persons were forced to spend the night away from their threatened homes in the big Tujuana Canyon in the flare-up area. Other residents were warned to be ready to flee at any time.

TV Industry Plans Own Police Action

WASHINGTON (UPI)—The president of the National Assn. of Broadcasters said today the radio and TV industry will take action to prevent the rigging of quiz programs.

There is no need for the government to step in, he said. Harold E. Fellows said the industry "has proved, in its four decades of service, it can clean its own house when necessary."

The NAB official made the promise in a speech to more than 300 radio and television executives holding a conference here.

He announced that the industry's board will meet Nov. 13 in Los Angeles to weigh the question.

"Should the television code require additional language to further safeguard the viewing audience against misrepresentation or deceit, in this or other areas of programming," he said, "the needed steps will be taken."

Fellows, however, blamed the recent scandal on outside packaging producers who "have hoodwinked the public and broadcasters whose facilities they use."

He said the NAB was recommending that the review board study the testimony given at recent congressional hearings on TV quiz shows to see what action was needed to clean up the situation.

At the same time, he warned that "this unfortunate episode in broadcasting" may result in a challenge to the industry's own system of voluntary self-regulation presumably by possible new legislation in Congress.

His pledge followed a warning from Earl W. Kintner, chairman of the Federal Trade Commission, that the government would police quiz shows unless the industry took steps "to keep radio and TV programs free of deceit and fraud."

Fellows said the congressional investigation of rigged quiz programs showed that broadcasters "like the public — had been naive."

He said the industry would "take every precaution to see it doesn't happen again."

Campaign Fight Expected To Name Gray's Successor

TALLAHASSEE (UPI)—Political experts predicted today that a hot campaign fight will be staged by those seeking to be the successor of veteran Secretary of State R. A. Gray.

The 77-year-old Gray announced Thursday he will not seek reelection. In poor health, he said he hopes to finish his term which ends in January, 1961.

Gray, who has been in public life nearly half a century, has served as secretary of state for 28 years. He said he will retire on the advice of his physician.

Gray disclosed he has gall bladder trouble and a heart condition. At least eight persons have been prominently mentioned as Gray's successor. Only one, Tallahassee salesman Edward G. Humby, has formally announced.

Gray defeated him in 1956. Others include Rep. John Shipp of Marianna, Sen. Tom Adams of Orange Park, Polk County Tax Collector Ray Clements, Hillsborough County Sheriff Ed Blackburn, former tag commissioner E. V. Fisher of Tallahassee, Railroad Commissioner Alan Boyd of Miami and John L. McMullen of Live Oak.

Gray said he will not take an active part in his successor's election. He added he wanted a "good man" for the job and said there are several likely ones being mentioned.

At his announcement, Gray assured his employees they would not be fired by the man who follows him "if you continue to do the same type of work you have always done for me."

No Danger Of Explosion Expected

HARDINSBURG, Ky. (UPI)—An atomic bomb-carrying B-36 Stratofortress collided in flight Thursday night with a KC-135 refueling plane and both planes crashed to the earth in flames.

Air Force disaster crews picking through the wreckage of a B52 jet bomber which collided with its tanker plane found the nuclear bomb it was carrying, today, and the Air Force said there was no danger of explosion or radiation.

An Air Force spokesman in Washington emphasized that the bomb was found intact and presumably would be removed from the area at once. He said that had the weapon been broken apart by the impact, there might have been limited radiation danger.

Five of the 12 crewmen aboard the two planes survived the crash. Bodies of three others were recovered and four more were missing, the Air Force said.

The crash between two giants of the jet age occurred about 8:45 p. m. 20 miles south of here in rugged, tree covered country in the rough River Dam basin.

Witnesses said the wreckage of the two planes seemed to fall in four flaming balls. Wreckage was spread over a seven mile area. The flash of the explosion was seen as far away as Evansville, Ind., about 80 miles to the northwest.

Both planes were from Columbus Air Force Base in Mississippi. Base officials said this was the first crash of its kind since the Strategic Air Command began its round-the-clock refueling program nine years ago.

The Air Force had cautioned away sightseers but said there was no need for an evacuation of the area. A helicopter search was being made for additional survivors.

The five survivors were taken to Ft. Knox Hospital. No interviews with newsmen were permitted.

The B-52 cost seven million dollars and the KC-135 costs more than four million dollars.

Logan Is Installed As Society President

Phillip H. Logan was installed as president of the Crippled Children's Society last night while Kenneth W. McIntosh, retiring president, was commended for "the outstanding job in guiding the local group through its first year."

Other officials installed last night were Dr. M. Vann Parker, first vice president and Edith Krygier secretary.

The Society was formed last October under the sponsorship of the Sanford Pilot Club. Prior to the organization of the society, all funds collected during the Master Seal Drive were pooled with the Central Florida Society of Crippled Children and divided among several counties.

The outstanding service rendered by the society was providing physiotherapy treatments in Sanford by Don Satterlee, physiotherapist.

Judge Alexander Says No Curfew Needed In County

Judge Alexander made the statement after Volusia County officials today ordered a curfew for all youths 17-years of age or younger.

Caribbean Squall Loses Intensity

MIAMI (UPI)—A suspicious line of squalls in the Caribbean diminished in intensity today, apparently ending any threat it might become the 10th tropical storm of the season.

A hurricane hunter plane radioed it found top winds in the disturbance at 25 to 35 miles an hour, compared to the 45 mile an hour peak Thursday.

At 11 a. m. the Weather Bureau said the easterly wave stretched from the western tip of Cuba south-southwest into the Gulf of Honduras. It was moving to the west at 15 to 18 miles an hour.

School Trustees To Run Again

Seminole County school trustees R. F. Cooper, Jim Birkenmeyer and Roy Mann qualified yesterday to run for reelection in the Nov. 3 elections. They have held the three trustee posts for the past two years.

Monday is the deadline for qualifying as a candidate for trustee. Candidates must be registered voters and pay real or personal property taxes. A petition which may be obtained from the county school office must be signed by five petitioners.

Acceptance of the school board's recommended eight mill tax levy for support and maintenance and two mills for the building and bus reserve fund will also be voted on in the election.

Art Center Proposed In County

Application to the County Zoning Board for a use permit has revealed a proposed arts and crafts center for Seminole County which would provide a clearing house for talent and art work.

The zoning board approved a public hearing on the application by Harold Walsh, who divides his time between here and Chicago and who said he expects to establish the art center on his property south of Highway 436 near Spring Lake Rd.

Walsh told the board that his proposed center would be similar to the Art and Research Institute at Maitland and would provide an outlet for the talents of "hundreds" of persons, especially those of retirement age, who do various forms of art work.

The center would display samples of their work and give them some workshop facilities, he said. There are only two other centers in Florida similar to the one he plans, Walsh said.

Semper Named To Realtor Post

William Semper, president of the Seminole County Board of Realtors was elected district vice president of the state board at the group's convention in Tallahassee.

Semper made a report of the convention at a dinner meeting of the local board last night.

Attending the convention with Semper were Wally DeLoach, Gladys Dawson, and Neal Farmer. At last night's meeting, the group also heard from Seminole County Zoning director who spoke on new zoning changes.

CROSSROADS

THE CHURCH FOR ALL... ALL FOR THE CHURCH
 The Church is the greatest factor in the building of character and good citizenship. It is a cornerstone of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verse
Sunday	Peter's	15	19
Monday	Deuteronomy	10	10-10
Tuesday	Psalm	67	1-3
Wednesday	Psalm	119	6-2
Thursday	1 Timothy	10	2-8
Friday	Hebrews	1	16-18
Saturday	Mark	1	16-18

Here's what happens when four super-highways meet—a far cry from that simple "plus mark" we used to call an intersection!

Life is becoming more complex, isn't it? No longer is it simply a matter of finding the right road. Today you can't even get on the right road until you find the right approach. And you had better be mighty sure of the direction you want to go, or you'll find yourself speeding away from your destination on a turnpike that permits no U-turn.

As life has become more complex, the value of a deep abiding religious conviction has become more evident. Against a background of confusion and uncertainty the confident assurance of Christian faith is sharply silhouetted.

And the millions who have turned to the Church for truth and guidance have made a thrilling discovery. The Way of Christ is still just as clear, direct, and inspiring as it was to those who heard it first by the Galilean road.

Lake Mary Presbyterian Church To Mark 65th Anniversary Sunday

The Lake Mary Community Presbyterian Church will celebrate its 65th anniversary Sunday, Oct. 18, 1959, during a period of service delay from 10 to 11 a. m.

A special program will be presented with two former pastors, the Rev. Lucian Scott, immediate past pastor, and the Rev. J. M. Thompson, during whose ministry the present church building was built, taking part in the morning services.

Organization of the church was started by a committee appointed by the Presbytery, with the Rev. Bennett, then pastor of the Upper Presbyterian Church, as chairman and the Rev. Keigwin and Elder Charles Ericson, assisting him.

Before the present church was built, the congregation worshipped in the building now used by the Church of the Nazarene in Lake Mary. That building was occupied from the organization of the church until 1928, when E. A. Sjoblom donated the property for the present location. The new church was dedicated March 30, 1930 and in 1944 the mortgage was burned in special ceremonies.

Since that time the church has grown with the community and a home also was built for the minister.

A new organ was installed in 1954 with the cooperation of many friends, who made this addition a community project. The following year the first plans for the Educational Building were drawn. The church charter was approved in 1958 and the church officially incorporated as the Community Presbyterian Church of Lake Mary.

The Rev. John Pilley has served the church since August 1958. Under his ministry attendance at the church services and in the Sunday School has more than

doubled, membership of the church has shown a marked increase, junior and senior high choirs have been formed, the building has been renovated inside and out, new pews have been ordered and will be installed in the near future.

Rev. Pilley will officiate at the celebration services Sunday, Mrs. Richard Keogh has been in charge of making the arrangements. The Junior Choir will present special music.

After the morning worship service, dinner will be served on the church grounds for the congregation. There will be a service of dedication at 1:30 p. m. for the new Cross on the church tower which was given by Mr. and Mrs. Harold Hockersmith. The prayer of consecration will be given by the pastor as the 1959

Central Florida Praised As 'Best Part Of State'

By GORDON J. TOLL
Manager, Security Associates, Inc.

If you haven't read the November issue of Holiday magazine, you've missed something quite interesting that strikes very close to home.

In a feature article entitled "Florida Lake Country—The Best Part Of The State," the author, Benedict Thelen, praises objectively our part of the state by saying: "Since to most people Florida means either the east or the west coast, the names of many of the places that lie in between are unfamiliar—Orlando, DeLand, Sanford, Winter Haven, Lake Wales all have their share of winter visitors and a fast route to the coastal playgrounds passes through them. But compared to Palm Beach and Miami and St. Petersburg they are obscure hamlets and the country surrounding them is unknown. Which is strange, because this inland region of lakes and hills contains some of the loveliest country in Florida. It is also the only part where man has enriched rather than wrecked its natural beauty." This type of publicity reaches far corners of the globe and no doubt will attract many curious people that have often overlooked us while wintering in this state.

Discussed in this column at some length recently was the British steel industry and the government elections which took place October 8. The victory of the Conservative Party gave the London stock market one of its heaviest trading days in history. Prices generally were up five to ten percent the day following the elections. Steel Company of Wales, which was reviewed here, rose about 45 per cent. Many sources maintain that this is the beginning of an era of prosperity for the British economy.

Shares of American MARC, manufacturers of diesel outboard motors and other products, also recently reviewed here, have been listed on the American Stock Exchange. The price change is up approximately 37 per cent.

The new government bond yielding five per cent has been a topic of constant conversation in the financial world. U. S. News and World Report says: "This much is now proved: A government bond, paying five per cent interest, will be grabbed by the public—by ordinary people with savings to invest. That's important. It shows that people will scramble to buy when they can get what they consider a fair return on their money. Congress earlier had balked at letting people get above 4.25 per cent on long-term bonds. The public scramble to lend their money at five per cent means that the U. S. dollar is regarded by ordinary people as still sound. Government can draw on people's savings to finance itself, does not need to depend on bank-created money. Inflation can be checked."

Five percent seems the "magic" return people want on their savings.

The Wall Street Journal reports that recent strength and activity in U. S. Borax was "accompanied by Street reports of sharp improvement in the outlook for earnings and the probability of a resumption of dividends during the year to end next September 30. J. M. Gerstley, president, said, however, that he has 'no comment at this time' regarding any dividend action and declined to estimate profits on the grounds he has no figures yet."

Comments O. Hooper of W. E. Hutton & Co.: "The steel strike is sure to put a deep hole in fourth quarter earnings of the steel, automotive, railroad equipment, machinery and motor parts companies and the idea that the stock market will celebrate when it ends looks more and more doubtful unless it is settled through a voluntary agreement between the companies and the union."

Area To Support Stetson Campaign

A Stetson University's drive for new buildings and a faculty salary fund got support from a Sanford-Seminole County fund committee this week.

J. Bralley Odham and Douglas Stenstrom presided at a meeting here to plan how the Sanford-Seminole part of Region I will join in the \$6 million drive. DeLand and West Volusia also are in this region. West Volusia also are in this region. Region I solicitation to be finished early in November.

Plans for a greater Stetson began last year at the university's Diamond Jubilee Convocation. Stetson trustees have decided that a new library building, the science center biology building and the faculty fund are the university's most important building needs.

Sanford-Seminole fund drive members at the meeting included W. A. Patrick, S. Joseph Davis, W. H. Martin, Thomas S. McDonald, Kenneth McIntosh, David A. Laude, B. T. Wheeler Jr., and Herbert E. Stenstrom.

The number of amateur musicians in the U. S. has risen from 14,300,000 in 1936 to an estimated 30,000,000 or more today, according to the American Music Conference.

Powdered Juice Not Feasible Yet

LAKELAND (UPI)—You can't squeeze blood out of a stone, but scientists can squeeze the last drop of water out of orange juice.

The result, powdered orange juice.

But it's not yet economically feasible, says Dr. James Bonnell. He was assigned by the Florida Citrus Commission to study the possibility of perfecting such a powdered juice.

Bonnell told a meeting of the commission that more research is necessary to cut the cost of manufacture.

The industry has long sought a powdered type of orange juice which would be particularly adaptable to overseas shipment in non-refrigerated ships and for sales to the military services.

The commission voted to authorize further research in the project and to seek the use of federal research facilities. It authorized its research director, Dr. L. G. MacDowell, to confer with Bonnell, Dr. Matt Beluhuis of the U. S. Agriculture Department at Winter Haven, and Dr. Herman Wright of the State Citrus Experiment Station at Lake Alford.

Alliance Church Program Stressed

The Alliance Church at Park Ave. and 14th Street is continuing its program of Sunday School Emphasis through the month of October. The program Sunday will stress the importance and value of visitation and personal soul winning. Two couples will portray in skit fashion how contacts in the home should be made.

Those who are not now attending another Sunday School are urged to come and make the Alliance Sunday School their own. There is a class for every age group.

Bruce Elected Assn. President

Wilbur Bruce was elected president of the Evergreen Cemetery Association at the annual meeting recently. Elected to serve with him were L. O. Sellers, vice president; and Kirby Sellers, secretary; Helen Snobgrass, secretary and Mrs. Rosa Lee Peterman, treasurer.

The same trustees, Mrs. Mary Padgett, Mrs. Bertha Hardin and Sidney Emanuel will serve another year.

The main item of business discussed during the evening was the installation of a water system. John Padgett, L. O. Hayman, Sidney Emanuel and Kirby Sellers were appointed a committee to draw up specifications and get bids before next meeting.

Ora E. Scott, 61, Dies At Residence

Ora Everett Scott, 61, died at his home early Thursday at 2643 Richmond Ave., Sanford.

He was a native of Springfield, Minn. and had lived in Sanford for 12 years.

Mr. Scott was a veteran of World War I and II and is survived by his wife Mrs. Ruth Scott.

Funeral services will be at 4:30 p. m. today at Evergreen Cemetery with Elder C. W. Beech officiating.

There are nearly 3,000 shopping centers in the U. S., according to the International Council of Shopping Centers.

Flynn's Death Brings Squabble Over Rites

VANCOUVER, B. C. (UPI)—Errol Flynn's estranged widow and his teen-age girl-friend wrangled today over where the screen idol should be buried.

Flynn's widow, dancer Patricia Wynmore, insisted the actor's body be taken to Hollywood for burial. Beverly Aadland, Flynn's 17-year-old "protege" and traveling companion, was equally insistent that Flynn be buried in Jamaica, "his beloved Caribbean home away from home."

Flynn, 36, swashbuckling hero of many films and a madcap world adventurer, died of a heart attack Wednesday night—an end he had predicted years ago when he first learned he was a cardiac case.

Despite the advice of physicians, Flynn never slowed down the pace of his mad-dash life as a two-fisted drinker, fighter and lover.

Miss Aadland, who rode to the hospital with Flynn's body "after vainly trying to breathe life into the aging actor after he was stricken, vowed she would fight to the death for Flynn's body. She said a burial anywhere but in Jamaica would be "over my dead body."

The actor's agent, George Shedd, backed by Miss Aadland and George Caldwell, Flynn's host during his visit to Vancouver,

Auto Knocked Through Sign

A car driven by Lewis Burris was struck from behind, ran diagonally across the French Ave. and 23rd St. intersection, knocked down the Armitage Court sign and landed in a field.

The 75-year-old Lake Worth resident had turned from the outside to the inside lane on French Ave. when a car in the inside lane, driven by Murray Bateman, 17, 411 San Carlos Ave., struck Burris' auto in the rear, according to Sanford police. Damage to Burris' car was estimated at \$600.

Bateman's auto received \$750 damage, police reported.

Paola Gospel Series Slated

Pastor Ezra Duncan, of the Church of Christ of Paola has announced a special series of gospel meetings to be held at the church next week. The Upsala Community Presbyterian Church young people's group will hold a song and prayer service Sunday at 7:30 p. m. John O. Andes will direct the service. An offering will be taken to buy robes for the church choir.

Mr. J. J. Heinrich Dies In Kentucky

Joseph Jett Heinrich, a frequent visitor to Sanford, died recently at his home in Lexington, Ky.

Mr. Heinrich was the son of the late Charles E. and Minerva Jett Heinrich of Sanford and brother of Mrs. L. E. Armstrong and Mrs. J. J. Duren, also of Sanford.

Surviving are his wife, Helen; a daughter, Mrs. James Childers, three grandchildren and his two sisters, Mrs. Armstrong and Mrs. Duren attended the funeral.

Guest Speaker

The speaker at the Congregational Christian Church next Sunday will be the Rev. Roy C. Helfenstein. Mr. Helfenstein is not a candidate for the pastorate but will supply the pulpit as guest minister for the morning worship service. He is a resident of Ormond Beach. The Congregational Church is at the corner of 24th Street and Park Avenue in Sanford.

VAH-9 Holds Party, Dinner, Program

A fall color scheme of colored leaves and assorted dried greenery was used for decorations at the get-acquainted all hands party given by the VAH-9 wives at the NAS ballroom.

A delicious buffet dinner of shrimp, turkey and roast beef, salads, french fries, relish tray and fruit was served.

An array of talent was presented throughout the program, both by the wives and local entertainers. Deanna's school of dance presented several dance numbers. Mrs. Barbara Dranden, presided and introduced the speakers, Capt. R. E.

Stutsman and Chaplain Hearn who told of the benefits available to navy dependents.

Julie Anderson played several numbers on her violin accompanied by Meg Urquhart on the piano. Irma Anderson played a number on the accordion. Highlight of the program was an imitation of the TV program "This Is Your Life," using Lucille Harris, wife of the commanding officer of the squadron as the unsuspecting guest.

Assisting with the program and helping to make it such a success were Lucy Yates, Libby White, Mrs. Irma Anderson, Mrs. R. Kennedy and Mrs. A. Burs.

ATTENDING THE GET ACQUAINTED PARTY, given by VAH-9 are, front row, left: Grace Adams, Shirley Youngblade, Meg Urquhart and Libby White. Back row, Mrs. LeGrande, Barbara Drayton, Mrs. Ellis, Lucille Harris, Margaret Hite, Lucy Yates, Tony Waters and Mrs. Aloha Franklin.

Palm Circle Enjoys Program On Shrubs

The first Fall meeting of Palm Circle of the Sanford Garden Club, was well attended, with only a few members absent because of illness, out of a membership of twenty-four. The meeting was held in the home of Mrs. Anne Erickson, Alta Vista, DeBary.

New members welcomed by Mrs. A. D. Roundtree, chairman, into the circle were Mrs. Robert Feth and Mrs. Arthur Lambert, DeBary. Mrs. David Runkel resigned as secretary and Mrs. Roundtree appointed Mrs. Einar T. Tideman, DeBary to fill the vacancy.

The program speaker was A. T. Cuth, Superintendent of Parks, Orlando, and his topic, "Year Round Color in the Garden," was most instructive. He suggested for first consideration, flowering trees, depending upon the space one had in his garden, and listed many trees with short blooming periods to intermittent blooming, with an assortment of white, blue, pink, lavender or yellow flowers.

Among these he mentioned Golden Rain Tree; Jacaranda; the Florida Orchid; the African Tulip Tree; Dogwood, Holly, Magnolia and the Tabebuia tree.

Shrubs were also discussed, and among these were recommended thyrallis, which has a yellow flower, crepe myrtle, orange jasmine, plumbago, allamanda, Brazilian pepper, Confederate jasmine, crotons and azaleas.

If interested in vines, he suggested bouganvillea, clerodendrum, also known as "bay vine," the pink vine which is colorful through summer and fall and the Pandora vine.

He recommended the caladium as the most showy in the bulb family. Tulips should be refrigerated from now until planting time, between Dec. 15 and Jan. 15.

This is also the time to plant annuals, suggesting the snapdragon, petunia, dianthus for bedding and sweet peas.

He told home gardeners desiring to plant sweet peas, to prepare the ground, trenching 12-18 inches deep with plenty of vegetation, rotted leaves and humus into the soil, and using bone meal as a phosphate; he suggested planting two seeds in a hole, about 6 inches apart.

In a question and answer period, he gave helpful information as to fertilizers and spraying.

Mr. Cuth urged members not to be discouraged by the "freezes," as many plants and trees come back, and, if they do not, to replant, and keep a tropical atmosphere in the gardens.

The next meeting of the Circle will be in November, at the home of Mrs. Harry Oakes, Sanford.

This will be the last night to pay dues for the year before they become delinquent.

Lake Mary Club Makes Lamps

Emphasis was on lamps and lamp shades at the Lake Mary Home Demonstration club meeting this week. The firehouse was turned into a workshop with Mrs. Mary Derringer of the Florida Power corporation conducting the class.

At the session's end all on hand agreed that they had accomplished an interesting mechanical operation and also acquired a very fine lamp.

Mrs. Ben Gray of the Longwood Home Demonstration club gave a plastic demonstration with proceeds going to the Lake Mary club. A covered dish lunch was served at noon with Mrs. Maude Post and Mrs. O. C. Kinnard as hostesses.

Guests attending were Mrs. Robert Martin, Mrs. Raymond Hall, Mrs. Kay Gehr and Miss Myrtle Wilson. Others present were Mrs. Carl Moss, Mrs. Grace Lindahl, Mrs. John Kahler, Mrs. J. Leon Taylor, Mrs. Mabel Brown, Mrs. Theo Stiles, Mrs. Virgil Mercer, Mrs. Carl Moss, Mrs. Elsie Stiles, Mrs. Jean Dalecki and Mrs. Olan Bouwell.

The next meeting will be Nov. 10 at the firehouse featuring a Christmas workshop.

Oviedo Garden Club members will pack up lunches and meet in front of the First Baptist Church at 9:15 a. m. to make a trip to Zellwood and make a tour of Mr. Vincent's nursery and greenhouses, Tuesday, Oct. 20.

A covered dish luncheon will be enjoyed by the members and visitors before returning home. Hostesses for the occasion include Mrs. Roy Weisenbarger and Mrs. C. R. Clonts Sr.

Trim off excess fat of meats cooked on the outdoor grill to prevent excessive smoke.

Officers Wives Hold Luncheon

Station - Fas Ron Officers Wives held their October luncheon recently at the Chimney Corner Restaurant in DeLand. Hostesses for the affair were Mrs. O. H. Phillips and Mrs. L. D. Moran.

Fall flowers were used attractively as table decorations. About twenty five wives attended.

Mrs. A. A. Williams was presented a baby gift from the group. Two new members, Mrs. R. C. Wood and Mrs. W. M. Hearn were introduced by Mrs. H. C. Hamilton, president of the club.

Door prizes were won by Mrs. W. O. Nelson and Mrs. Hamilton.

Parents Honor Steve At Party

Mr. and Mrs. Courtney Soderblom honored their son with a party on his ninth birthday at their home 3321 West First St.

The young guests enjoyed games and watched TV. Prizes were awarded to Joan Haisfield, Benny Davis and Pat Bethea. They also enjoyed playing in Steve's tree house.

The refreshment table was covered with a cloth featuring children's favorite characters. The birthday cake was attractively decorated with horses, cowboys and Indians. After everybody sang "Happy Birthday" to Steve they were served ice cream, cake, cookies and punch. Favors were given to each guest.

Others attending were Sally Ann Rews, Judy Mills, Linda Fay Stafford, Ann Doudney, Rebecca Patterson, Marjorie Gaines, David Lee, Jack Sandifer, Billy Ley, Jay Gaines, Danny Lee, Darrel Vodpich, Eddie, Freddie and Ernest Padgett.

Also attending and assisting with the entertaining were Steve's grandmother, Mrs. B. J. Hill, grandparents, Mr. and Mrs. K. G. Soderblom and two great grandmothers, Mrs. Jessie Barclift and Mrs. Laura Priester.

Sanford, Fort Myers To Clash

The Sanford football team will head a special team this afternoon and travel to the town of Fort Myers to cheer the Sanford football team.

The Sanford team will be looking for a second victory after suffering three defeats in a row. Last year a special team headed by the Sanford club sponsored team and watched the Seminoles pull out a stunning 9-0 victory over Fort Myers.

With the injury of fullback Larry Brown, the Sanford coaches have been busy adjusting the Seminoles' backfield to be in top form for this all important game against the big state AA school. John Lovinsky, who was injured two weeks ago has recovered fully and is expected to handle the running attack with his great speed. He will be running with the fullback Ray Lundquist and these two are expected to be Fort Myers' biggest problem to stop. It was in the Fort Myers game last year that Lundquist got his first start as a runner.

In an effort to strengthen the fullback spot, starting quarterback Mike Roberts has been

switched to that position with defensive star Alex McKibbin being brought to the signal calling spot. Roberts is a big lad with plenty of running power so he should be able to do the job. McKibbin is no stranger to the quarterback spot so he too should be ready to take charge. Roberts still will handle the punting and most of the passing however.

Since the Seminoles coaches have chosen to do away with the two player system for this tilt several of the offensive linemen will be seeing double duty. Big

Charles Hogan will be working both ways along with Burk Wynn, and James Marham. There will be several others that will be playing most of the time in an effort to patch up the staggering defense of last week.

Big Bill Phagan has been brought up from the JV squad and will be starting in the Defensive backfield tonight. He will be back there with standout linebacker Johnny Whistler, Lundquist, Roberts, and McKibbin who all will be seeing double duty.

Wilson-Maier won a best two out of three series from Roumillat's and took high series for the night with a 1,983 scratch and 2,238 handicap score.

This gives the furniture team the greatest number of pins felled this year in the women's league, 13,336, compared with 13,004 for the next closest team.

Records in the women's bowling league are now: Robson's, 14-3; Fryer's, 12-4; Pig N' Whistle, 11-1; Wilson-Maier, 10-11; Foodmart, 10-11 and Roumillat's, 6-15.

Women's Golfing Awards Oct. 28

Winners of the Sanford Women's Golf Association October tournaments will be given awards at the Association's Oct. 28 luncheon meeting at the Mayfair Country Club.

Winners in the Old Holes One Hole Handicap Tournament were: Class A, Mrs. Gene Witzel; Class B, Mrs. Ray Herron and Mrs. Robert Mahan; Class C, Mrs. Don Goodwin; Class D, Mrs. Ken Turbot; Low Putts, Mrs. John Crawford.

Wins in the Flag Tournament were: Miss Dot Powell in Class A, Mrs. Robert Mahan in Class B, Mrs. James Livingston in Class C, and Mrs. Angie Russell and Mrs. C. E. Phillips in the Low Putts division. Both tournaments were at the Mayfair Country Club course.

Local Net Play

Battling out the final match of the Sanford Recreation Department doubles will be Charlie Magnuson and Gene Tucher against Wendall Springfield and Phil Logan.

Tucher Morrison downed Leon Taylor and D. H. Piercy 6-1, 6-4.

Springfield-Logan beat Herb Harriet and Buddy Proctor 6-4, 6-2.

In the men's singles, John Beyer defeated Leon Taylor 6-3, 6-4. D. H. Piercy downed Al Dupigny 6-1, 6-0; Mike Siranni won over Phil Logan, 6-3, 6-2; and J. T. Farrell beat Herb Harriet, 6-0, 6-3. The semi-final pairings are Barlow vs. Piercy and Siranni vs. Farrell.

Mag Urquhart won the ladies' singles by defeating Madeline Ferral in the finals, 6-4, 6-4. Players in the city tournament hold the matches at their own convenience, except for observance of deadlines.

Sanford Group To Boost Navy

A Sanford Naval Air Station contingent will cheer for Navy when the Annapolis team meets Miami in the Orange Bowl tomorrow night.

Captains J. D. Ramage and Frank G. Edwards will be among the more than 90 NAB rosters who will make the trip to Miami by bus and private car. Most of the group will remain in Miami until Sunday evening.

U. S. Cars Ready

SEBRING, Fla. (UPI)—Three U. S.-built racing cars will compete in the first Grand Prix of the United States here Dec. 12. Racing against European formula-1 cars will be two Scarabs built by Lance Reventlow. Rodgers Ward, winner of the 1959 Indianapolis 500, will enter a modified Eldredge racer in the last event on the international circuit for the world's driving championship.

Peanut Bowl

Plans for the fifth annual Peanut Bowl will be discussed at a meeting of bowl officials Monday. It was announced today. The annual affair brings Pinecroft top junior high players together.

Largest Series Checks In History Mailed Out

NEW YORK (UPI)—The largest World Series checks in history are being mailed out today for the world champion Los Angeles Dodgers and Chicago White Sox—courtesy of the Los Angeles Coliseum.

Each of 20 Dodger players will receive a record full share of \$11,231.18 and each of 21 members of the White Sox will get \$7,273.17, also a record for a losing share.

The biggest jackpot in World Series history was announced by baseball Commissioner Ford Frick Thursday and the record total player pool of \$883,301.40 was made possible by the fact that more than 90,000 fans attended each game played in the coliseum.

Previous high for a winners' share was \$11,142.86 by the New York Giants in 1954 after they beat the Cleveland Indians in four straight games. The highest previous losing share was \$6,924.34 received by the Brooklyn Dodgers in 1956.

If the current Dodgers and White Sox aren't planning to cash their checks (fat chance), they might do well to frame them because the checks are bound to be the largest made out for a losing team.

Frick made it clear that "we won't be playing another World Series" in the spacious Los Angeles Coliseum.

"The Dodgers are sure to have their own park ready at least by the World Series time next year," he said "and if they win, they'll have the series there."

The Dodgers tried not to overlook anyone in dividing their million before the series started. They voted full shares to series hero Larry Sherry, Roger Craig and Maury Wills, all of whom reported to them after June 1. They also designated a full share for pitcher Art Fowler, released on Aug. 15.

Eight others, including veteran pitcher Carl Erskine who retired June 15, were voted half shares of \$3,815.59 by the world champs.

The White Sox did all right by Ted Kluszewski, obtained from the Pirates on Aug. 25. They voted him a half share of \$3,637.59 and remember, the voting was done before the series.

Larry Doby, let go on Aug. 1, also got a half share as did rookie John Callison, who didn't put in a full year with Chicago.

Trainer Ed Froelich was voted a full share by the White Sox while Dodger trainer Harold Wendler and his assistant, Bill Hamer, split a full share between them.

A full second-place share was worth \$1,808.16 to the Milwaukee Braves and \$1,799.84 to the Cleveland Indians. Among those cut in for a full share by the Braves was Red Schoendienst, who saw little action due to his convalescence from tuberculosis.

Robson Continues To Pace Loop Play

Robson Sporting Goods continued as the top team in the Sandspurs Bowling League this week, by winning two out of three games from Foodmart.

Robson's won the crucial third game and the match by two pins. Erv Rogers was high scorer for Foodmart and Libbie Whitehead speared Robson's. Irving Fryer insurance team took two consecutive games from The Pig N' Whistle squad, rolling 751 each time.

Wilson-Maier won a best two out of three series from Roumillat's and took high series for the night with a 1,983 scratch and 2,238 handicap score.

This gives the furniture team the greatest number of pins felled this year in the women's league, 13,336, compared with 13,004 for the next closest team.

Records in the women's bowling league are now: Robson's, 14-3; Fryer's, 12-4; Pig N' Whistle, 11-1; Wilson-Maier, 10-11; Foodmart, 10-11 and Roumillat's, 6-15.

Banks Named NL Player Of Year

NEW YORK (UPI)—Ernie Banks, homer-hitting shortstop of the Chicago Cubs, is the United Press International's National League Player of the Year for the second consecutive season.

The slender, 29-year-old slugger from Dallas, Tex., was voted the honor today in the annual balloting of the UPI's 24-man committee of NL experts. Banks received a total of 12 votes to beat Hank Aaron of the Milwaukee Braves, the league batting champion, who polled eight votes.

Ed Mathews of the Braves, who led the circuit with 46 homers, received two votes and outfielder Wally Moon of the Los Angeles Dodgers and rookie sensation Willie McCovey of the San Francisco Giants got one each.

The fifth-place Cubs didn't rate much banner-line space because of the three-cornered NL pennant fight but Banks made his own headlines.

—With 143 runs batted in he set a new NL record for shortstops and topped the circuit in that department for the second straight year.

—With 45 home runs he went over the 40-mark for the fourth time in his career and boosted his lifetime total to 228. Vern Stephens, who played 15 years and hit 247 homers, is the only major league shortstop who has hit more homers. Banks has played seven years.

—He continued as an old-fashioned iron man in all 155 Cub games. Although he carries only 175 pounds on a six-foot frame, Banks has missed only 18 games since he joined the Cubs in 1953.

Ratio-Riders Plan Meeting Thursday

The Ratio-Riders club will hold a special meeting Thursday 8 p. m. at the home of Jim Blythe, vice president, to discuss plans for their trip to New Smyrna on Saturday.

At the business meeting on Thursday, the club had the officers and some of the members of the Crepers Car Club as guests. They gave the local club helpful suggestions and information concerning the drag races which are now being held at the Daytona International Speedway.

Anyone interested in joining the Ratio-Riders club is invited to visit at the regular business meetings which are held the second and fourth Thursdays of each month, at the Recreation Building at 8:00 p. m.

Castillo Leads State PGA Play

NAPLES (UPI)—Henry Castillo held a two stroke lead going into the second round in the Florida PGA Golf Championships today.

Castillo, a 43-year-old teaching pro from Tampa, shot a six-under-par 66 in the tournament's first day of play Thursday at the Beach Club course here.

LYMAN FOOTBALL STANDOUTS Martin Barwick and Cal Presley will see action against Crescent City tonight. Barwick, has been playing well at end and Presley will be playing the halfback position.

Lyman Hopes To Learn Lesson From Grid Loss

Overconfidence nearly always leads to disaster and the Lyman Greyhounds learned this first hand in last Friday's game with Inverness. That the Greyhounds were overconfident was Coach Bill Proctor's only comment concerning the loss.

The Greyhounds travel to Crescent City tonight and they are confident that they can bring home a win. The catastrophic results of their last game has brought them back down to the fact that the right attitude is as essential as team work.

Sophomore halfbacks Cal Presley and Jesse Hitchcock have been moved up to the regular status and are working hard with the rest of the team for tonight's game. Coach Proctor cited senior end Martin Barwick for a steady job both offensively and defensively.

Lyman carries to Crescent City a record of 3-1.

Grid Stars Named To Hall Of Fame

NEW BRUNSWICK, N. J. (UPI)—Doak Walker, Doc Blanchard and Charlie Trippi, three standouts of the '40's, were the new members selected today for the National Football Hall of Fame to be constructed here shortly.

Walker starred for Southern Methodist in 1947, '48 and '49. Blanchard played fullback for Army in 1945, '46 and '47, and Trippi was a star halfback at Georgia in 1942, '45 and '46.

College Grid Powers Face 'Rugged' Weekend

United Press International Georgia Tech and Iowa are the mighty teams rated most-likely-to-be-upset this weekend on a heavy college football program but trouble is ahead for several more of the nation's top teams.

Unbeaten-untied Georgia Tech, ranked fourth in the nation by the UPI Board of Coaches, is only even money against an Auburn team that has been losing since he long unbeaten string was snapped in the first game of the season.

Once-beaten Iowa, No. 9 in the nation, has beaten Wisconsin three straight years but is only a slim three-point pick to do it again.

Among the nation's top 10 teams, trouble also is in sight for fifth-ranked Purdue, a seven-point choice over Ohio State; third-ranked Texas, a seven-point favorite over Arkansas; and sixth-ranked Southern California, an eight-point choice over Washington.

The football weekend gets off to a slow start Friday night with a slim air-tight schedule. In the top game, Navy (2-2) is a five-point favorite to regain the winning trail when it visits Miami of Florida, which may still be aching from a 27-3 loss to national champion Louisiana State.

Louisiana State, riding a 16-game winning streak, is expected to have little trouble as it opens its Southeastern Conference schedule as a 14-point choice over Kentucky, which took a 33-0 shellacking from Auburn last week.

Second-ranked Northwestern rates a 15-point choice over twice-beaten Michigan in a key Big Ten game. Seventh-ranked Mississippi, unbeaten-untied-and-un-

scored-on, is expected to romp over Tulane, and eighth-ranked Syracuse is a 19-point favorite over Holy Cross as it seeks revenge for the only loss it suffered last year. Penn State, 10th-ranked nationally and Syracuse's big rival for Eastern honors, is expected to drub Boston University.

The early-season emphasis on intercollegiate play virtually disappears this weekend as teams buckle down to conference warfare. Here's a quick glimpse of other top games in the nation:

East—Yale and Penn, unbeaten Ivy League newcomers, face different tasks—Yale is only even money against Cornell but Penn is a 14-point pick over Brown. Pittsburgh's Ivan Tostic is expected to prove too much for West Virginia.

South—Army a three-point choice to regain winning form as visitors at Duke. Tennessee, also rebounding, seven over Alabama with Florida over Vanderbilt and Georgia over Mississippi State by the same margin. But Wake Forest and North Carolina State are even.

Midwest—Notre Dame six points over Michigan State in the nationally televised game of the day. Indiana's six over Nebraska and Illinois seven over Minnesota.

West—SMU seven over Rice and TCU the same over Texas A&M in big Southwest Conference games. Oklahoma is a 10-point Big Eight pick over Missouri, but an upset could put the Tigers on the inside track to the Orange Bowl.

West—Unbeaten-untied Air Force Academy is a six-point favorite over unbeaten-untied Oregon, while Stanford is three over Washington State and UCLA eight over California.

THE HILL LUMBER and SUPPLY YARD Started In Business

Tremendous changes have taken place — in business and living — since 1873, when W. J. Hill opened the Hill Lumber and Supply Yard at 213 W. Third Street in Sanford.

The automobile was as yet only a fantastic dream; most of the west still a wilderness; baseball, football, the movies, electric lights, the telephone, water-mix paint, Nikita Khrushchev and thousands of names commonplace to this generation were as yet unknown.

Yes, 86 years is a long time. Four generations have grown up and the fifth is on the way. But the Hill Lumber and Supply Yard is still as youthful and vigorous today under the management of its Vice President J. H. Crapps as when the Founder W. J. Hill sold his first order of Lumber.

The old landmark that housed the business for so long, has been torn down and will soon be replaced by Sanford's newest, most modern salesroom. Watch for further announcements in this paper. And — in the meantime — Remember: WE'RE OPEN FOR BUSINESS AS USUAL DURING ALTERATIONS.

Here's One Interview That Won't Be On TV

NEW YORK (UPI) — The "Person-to-Person" television program has cancelled tonight's scheduled appearance of Mae West.

The Columbia Broadcasting System, in announcing the cancellation Thursday, said "it was felt that certain portions of the interview with Miss West, 66, might be misconstrued."

"Maybe it was too good, I was very honest," Miss West said in San Francisco.

In a private showing of the interview to the press, host Charles Collingwood introduced the stage, screen and nightclub personality as the woman who "made a career of kidding sex."

Miss West, never at loss for words on the subject of 'amour', told Collingwood she had written a book recounting her "private transgressions — that's a long word for sex."

"Ask me anything the law allows and I'll try to give a right answer," she said.

Collingwood attempted to steer the conversation to things litera-

ry—Miss West is the author of several books, including the current best seller "Goodness Had Nothing To Do With It."

Miss West said she read "biography, metaphysics and psychology," she replied.

"Straight fiction?" Collingwood asked.

"Never, I can dream up my own," she replied.

"Foreign affairs?"

"I've always had a weakness for foreign affairs."

"Man in space is a waste—of man I mean."

Before the interview ended Miss West also informed Collingwood that:

"There are no withholding taxes on the wages of sin."

"A man in the house is better than two on the street."

"I'd rather have life in my men than a man in my life."

He Was Charmer Of World, Errol's Ex-Wife Reports

PALM BEACH, Fla. (UPI) — The woman who gave up her career as a movie queen to marry the late Errol Flynn called him "the charmer of the world."

Lilli Damita Flynn married the screen idol after meeting him aboard the luxury liner Ile de France in 1935. At the time she was a famous French star and he was a bit stock player.

"I gave up my career to marry him," Mrs. Flynn said. "That was the way he wanted it, and that was the way it was."

"Most of the time we were happy. He was handsome, a great wit, intelligent and the charmer of the world."

Mrs. Flynn learned of her former husband's death at her recently completed Hawaiian style home here, where she lives quietly.

"We were married in 1935 and divorced in 1941," Mrs. Flynn said. "We hadn't seen each other for some time, but our contact was our son."

"Naturally Sean will attend his father's funeral services," she said. "If he is able to go alone, he will; if not, then I may accompany him."

Watch It Boys

LONDON (UPI) — Fashion consultant Jane Garnett said today that men who read women's magazines are no better than peeping toms.

"What right have they got to examine our secrets?" demanded the statuesque beauty.

"How is a woman supposed to be mysterious when any man who cares to, can discover all the tricks simply by going to a newsstand?"

Miss Garnett looked down—she's tall—with stormy eyes.

"Men have killed the strapless evening gown," she declared. "It was a lovely conception and a lovely, feminine thing to wear."

"But did men believe that it was held up by the bust—as they should have? Not those noney parkers (British for buttocks)."

They all knew after a while that it was mostly a matter of boning and wiring and padding.

"I used to be able to tell by looking at men at a formal dinner or dances which ones knew. They were so cynical, smug and superior."

Miss Garnett claims the modern male is an iconoclast by nature. (She knows long words like that and can say them in three languages.)

"He likes to tear down," she explained. "I know one famous restaurant here where the men play a game—seeing how many American women tourists they can count with plastic surgical noses."

"This is the type who reads about a new all-in-one foundation with an uplift bra and then spends the evening figuring out whether his date is wearing one and what sort of shape she would be in without it."

DEBBIE REYNOLDS and Glenn Ford find the road of love a bit rocky in a scene from "It Started With A Kiss," to start at Movieland tomorrow.

Movieland Has 'It Started With A Kiss'

The lopsided times brought on a G. I. by two raffle tickets, provide the comedy background for "It Started With A Kiss," which will run from tomorrow through Wednesday at the Movieland Drive-In.

When ex-soldier Glenn Ford meets and marries showgirl Debbie Reynolds; and then wins a \$40,000 futuristic car, all within 48 hours, keeping his wife and the car proves a problem.

Eva Gabor and Gustavo Rojo co-star in the M-G-M production.

Winchester 73, a story of "the gun that won the West," and of a sharpshooting frontiersman sent on

avenging his father's death is co-featured on the bill. James Stewart stars with Shelley Winters.

No More Bananas

JACKSONVILLE, Fla. (UPI) — A judge has ruled that a man spent two days in jail on a bad check charge here only because his name was R. A. Bennett and he sold bananas.

It developed police were looking for another R. A. Bennett who also sold bananas.

The innocent R. A. Bennett, of Jacksonville, said he had instructed his lawyer to file a false arrest suit.

Robert Andrews Bennett was ordered released from jail by Judge Albert W. Graessle, who commented it was "the first case of this type I've handled in my 18 years of law experience."

Cobb County, Ga., police issued a warrant for Richard A. Bennett of Smyrna, Ga., on a bad check charge. The Bennett wanted in Cobb County usually signed his name as R. A. Bennett and was in the fruit business.

A Georgia bondsman was trying to track down Bennett for skipping bond. In searching for his man, the bondsman found a bill of lading in Atlanta bearing the signature of an R. A. Bennett of Jacksonville employed by Donald Fruit and Produce Co.

The bill of lading actually was signed by Robert Bennett when he delivered a load of bananas to Atlanta last July.

A warrant was sent to Jacksonville, (Robert) Bennett was taken into custody and spent Tuesday and Wednesday in jail.

RICHARD HOLTZCLAW
Sanford Singer Appears In Show

Richard Holtzclaw, a native of Sanford, will be the star of "The Most Happy Fella" that will open a one day engagement at the University of Florida Gym in Gainesville Oct. 19.

The hit musical grabbed many awards while it played on Broadway in 1934.

Holtzclaw first studied singing at the Louisville University Opera School and landed an engagement with the San Carlo company after graduation.

After a brief hitch with the armed forces he joined the New York City Opera Company.

Lutheran Church Names Rev. Bolick As First Pastor

Ernest B. Bolick Jr. will be formally and officially installed Sunday as the first pastor of the Good Shepherd United Lutheran Church. Dr. Rowell A. Yount, president of the Florida Synod of the United Lutheran Church in America, will be the officiating minister, and will deliver the sermon.

Reading in Sanford for a little more than a year, Rev. and Mrs. Bolick first came to Sanford in 1957 as a survey team. Their work then was under the Board of American Missions Divisions of Survey and Research to ascertain the prospects for a United Lutheran Church in Sanford.

Conditions were found to be promising and Mr. Bolick was called by the Board to enter the field as soon as he finished his work at Southern Seminary in Columbia, S. C. Following graduation and ordination, the Bolicks moved to Sanford in July 1958. Services began in September in the Sanford Shrine Club and have continued to be held there.

The Church was officially organized in May 1959, becoming a member of the Florida Synod of United Lutheran Churches. Upon organization the congregation issued a call to Mr. Bolick, the mission developer, to become their pastor.

CLINT WALKER, John Russell and Ed "Kookie" Byrnes turn from TV to the movie screen as they star in the western, "Yellowstone Kelly," which starts Sunday at the Ritz Theater.

Ritz To Show Film Full Of Favorites

Television favorites come to the Ritz Theater screen Sunday in "Yellowstone Kelly," a western starring Clint Walker, Ed "Kookie" Byrnes and John Russell.

The action pictures tells the story of a Sioux Indian effort to halt the westward march of the early empire builders. Walker is the man who settles the war with an emergency act of kindness to an Indian girl, played by Andrea Martin.

The motor vehicle accident death rate in the nation's five largest cities—New York, Chicago, Los Angeles, Philadelphia and Detroit—runs about 30 per cent below the national average.

"Kookie" Byrnes of 77 Sunset Strip TV fame, plays a youth who tries to match Walker's ruggedness and does very well at it.

Nazi's Trial
JERUSALEM (UPI) — The Israeli government has asked the West German and British governments to help bring Nazi master executioner Adolf Eichmann to justice. Eichmann, said to have helped master-mind Adolf Hitler's program to annihilate European Jews, was last reported working as an oil expert in the British-protected Persian Gulf sheikdom of Kuwait.

South African Paces Golf Play
COSTA MESA, Calif. (UPI) — A South African who has won only \$470 as a professional golfer led the field today into the second round of the \$20,000 Orange County Open—two strokes ahead of his nearest rival.

Brian Wilkes, of Johannesburg, who joined the professional tour at Detroit in August, shot a six-under par 63 Thursday on the new Mesa Verde Country Club course.

Two strokes behind him were Ken Venturi, San Francisco, Frank Stranahan, Toledo, Ohio, and Crystal Rivers, Fla., and Jim Ferrer, also Crystal River—all with 67s. Thirty-seven broke par on the first day of the 72-hole tourney.

Largest Series Checks In History Mailed Out

NEW YORK (UPI)—The largest World Series checks in history are being mailed out today to the Cleveland Indians, Los Angeles Dodgers and Chicago White Sox—courtesy of the Los Angeles Coliseum.

Each of 30 Dodger players will receive a record full share of \$11,251.18 and each of 31 members of the White Sox will get \$7,373.17, also a record for a losing share.

The biggest jackpot in World Series history was announced by baseball Commissioner Ford Frick Thursday and the record total player pool of \$603,301.40 was made possible by the fact that more than 90,000 fans attended each game played in the coliseum.

Previous high for a winners' share was \$11,147.90 by the New York Yankees in 1954 after they beat the Cleveland Indians in four straight games.

The Dodgers are sure to have their own park ready at least by World Series time next year," he said "and if they win, they'll have the series there."

The Dodgers tried not to overlook anyone in dividing their million before the series started. They voted full shares to series hero Larry Sherry, Roger Craig and Maury Wills, all of whom reported to them after June 1.

Eight others, including veteran pitcher Carl Erskine who retired June 15, were voted half shares of \$3,615.50 by the world champs.

The White Sox did all right by Ted Kluszewski, obtained from the Pirates on Aug. 25. They voted him a half share of \$3,615.50 and remember, the voting was done before the series.

Larry Doby, let go on Aug. 1, also got a half share as did rookie John Callison, who didn't put in a full year with Chicago.

Trainer Ed Froelich was voted a full share by the White Sox while Dodger trainer Harold Wendler and his assistant, Bill Buhler, split a full share between them.

A full second-place share was worth \$1,808.16 to the Milwaukee Braves and \$1,799.94 to the Cleveland Indians. Among those cut in for a full share by the Braves was Red Schoendienst, who saw little action due to his convalescence from tuberculosis.

Robson Continues To Pace Loop Play

Robson Sporting Goods continued as the top team in the Sandspur Bowling League this week, by winning two out of three games from Foodmart.

Robson's won the crucial third game and the match by two pins. Eye Rogers was high scorer for Foodmart and Libbie Whitehead sparked Robson's. Irving Fryors insurance team took two consecutive games from The Pig N' Whistle squad, rolling 751 each time.

Wilson-Maier won a best two out of three series from Roumillat's and took high series for the night with a 1,369 scratch and 2,258 handicap score.

This gives the furniture team the greatest number of pins felled this year in the women's league, 13,336, compared with 12,094 for the next closest team.

Records in the women's bowling league are now: Robson's, 14-8; Fryors, 13-9; Pig N' Whistle, 11-10; Wilson-Maier, 10-11; Foodmart, 10-11 and Roumillat's 6-15.

Banks Named NL Player Of Year

NEW YORK (UPI)—Ernie Banks, homer-hitting shortstop of the Chicago Cubs, is the United Press International's National League Player of the Year for the second consecutive season.

The slender, 28-year-old slugger from Dallas, Tex., was voted the honor today in the annual balloting of the UPI's 24-man committee of NL experts. Banks received a total of 12 votes to beat Hank Aaron of the Milwaukee Braves, the league batting champion, who polled eight votes.

Ed Matthews of the Braves, who led the circuit with 46 homers, received two votes and outfielder Wally Moon of the Los Angeles Dodgers and rookie sensation Willie McCovey of the San Francisco Giants got one each.

The fifth-place Cubs didn't rate much banner-line space because of the three-cornered NL pennant fight but Banks made his own headlines.

With 143 runs batted in he set a new NL record for shortstops and topped the circuit in that department for the second straight year.

With 45 home runs he went over the 40-mark for the fourth time in his career and boosted his lifetime total to 228. Vern Stephens, who played 15 years and hit 247 homers, is the only major league shortstop who has hit more homers. Banks has played seven years.

Continued as an old-fashioned iron man in an airplane league by playing in all 138 Cub games. Although he carries only 175 pounds on a six-foot frame, Banks has missed only 18 games since he joined the Cubs in 1963.

Lyman Hopes To Learn Lesson From Grid Loss

Overconfidence nearly always leads to disaster and the Lyman Greyhounds learned this first hand in last Friday's game with Inverness. The Greyhounds were overconfident was Coach Bill Proctor's only comment concerning the loss.

The Greyhounds travel to Crescent City tonight and they are confident that they can bring home a win. The catastrophic results of their last game has brought them back down to the fact that the right attitude is as essential as team work.

Sophomore halfbacks Cal Presley and Jesse Hitchcock have been moved up to the regular status and are working hard with the rest of the team for tonight's game. Coach Proctor cited senior end Martin Barwick for a steady job both offensively and defensively.

Lyman carries to Crescent City a record of 2-1.

Grid Stars Named To Hall Of Fame

NEW BRUNSWICK, N. J. (UPI)—Doak Walker, Doc Blanchard and Charlie Trippi, three standouts of the '40's, were the new members selected today for the National Football Hall of Fame to be constructed here shortly.

Walker starred for Southern Methodist in 1947, '48 and '49. Blanchard played fullback for Army in 1945, '46 and '47, and Trippi was a star halfback at Georgia in 1942, '45 and '46.

LYMAN FOOTBALL STANDOUTS Martin Barwick and Cal Presley will see action against Crescent City tonight. Barwick, has been playing well at end and Presley will be playing the halfback position.

Castillo Leads State PGA Play

NAPLES (UPI)—Henry Castillo held a two stroke lead going into the second round in the Florida PGA Golf Championships today.

Castillo, a 43-year-old teaching pro from Tampa, shot a six-under-par 66 in the tournament's first day of play Thursday at the Beach Club course here.

THE HILL LUMBER and SUPPLY YARD Started In Business

Tremendous changes have taken place — in business and living — since 1873, when W. J. Hill opened the Hill Lumber and Supply Yard at 213 W. Third Street in Sanford.

The automobile was as yet only a fantastic dream; most of the west still a wilderness; baseball, football, the movies, electric lights, the telephone, water-mix paint, Nikita Khrushchev and thousands of names common-place to this generation were as yet unknown.

Yes, 86 years is a long time. Four generations have grown up and the fifth is on the way. But the Hill Lumber and Supply Yard is still as youthful and vigorous today under the management of its Vice President J. H. Crapps as when the Founder W. J. Hill sold his first order of Lumber.

The old landmark that housed the business for so long, has been torn down and will soon be replaced by Sanford's newest, most modern salesroom. Watch for further announcements in this paper. And — in the meantime — Remember: WE'RE OPEN FOR BUSINESS AS USUAL DURING ALTERATIONS.

Here's One Interview That Won't Be On TV

NEW YORK (UPI) — The "Person-to-Person" television program has cancelled tonight's scheduled appearance of Miss West.

The Columbia Broadcasting System, in announcing the cancellation Thursday, said "it was felt that certain portions of the interview with Miss West, 66, might be misconstrued."

"Maybe it was too good, I was very honest," Miss West said in San Francisco.

In a private showing of the interview to the press, host Charles Collingwood introduced the stage, screen and nightclub personality as the woman who "made a career of kidding sex."

Miss West never at loss for words on the subject of the former, told Collingwood she had written a book recounting her "private transgressions — that's a long word for sex."

"Ask me anything the law allows and I'll try to give a right answer," she said.

Collingwood attempted to steer the conversation to things litera-

He Was Charmer Of World, Errol's Ex-Wife Reports

PALM BEACH, Fla. (UPI) — The woman who gave up her career as a movie queen to marry the late Errol Flynn called him "the charmer of the world."

Lilli Damita Flynn married the screen idol after meeting him aboard the luxury liner Ile de France in 1935. At the time she was a famous French star and he was a bit stock player.

"I gave up my career to marry him," Mrs. Flynn said. "That was the way he wanted it, and that was the way it was."

"Most of the time we were happy. He was handsome, a great wit, intelligent and the charmer of the world."

Mrs. Flynn learned of her former husband's death at her recently completed Hawaiian style home here, where she lives quietly.

"We were married in 1935 and divorced in 1941," Mrs. Flynn said. "We hadn't seen each other for some time, but our contact was our son."

"Naturally Sean will attend his father's funeral services," she said. "If he is able to go alone, he will; if not, then I may accompany him."

Watch It Boys

LONDON (UPI) — Fashion consultant Jane Garnett said today that men who read women's magazines are no better than peeping toms.

"What right have they got to examine our secrets?" demanded the statuesque beauty.

"How is a woman supposed to be mysterious when any man who cares to, can discover all the tricks simply by going to a newsstand?"

Miss Garnett looked down—she's tall—with stormy eyes.

"Men have killed the strapless evening gown," she declared. "It was a lovely conception and a lovely, feminine thing to wear."

"But did men believe that it was held up by the bust—as they should have? Not those noseys parkers (British for buttnisks)."

They all knew after a while that it was mostly a matter of boning and wiring and padding.

"I used to be able to tell by looking at men at a formal dinner or dances which ones knew. They were so cynical, smug and superior."

Miss Garnett claims the modern male is an iconoclast by nature. (She knows long words like that and can say them in three languages.)

"He likes to tear down," she explained. "I know one famous restaurant here where the men play a game—seeing how many American women tourists they can count with plastic surgery noses."

"This is the type who reads about a new all-in-one foundation with an uplift bra and then spends the evening figuring out whether his date is wearing one and what sort of shape she would be in without it."

Hiring Actress Was No Gimmick, Dress Shop Says

TOPEKA, Kan. (UPI) — A Topeka dress shop denied it has hired actress Gene Tierney as a sales promotion gimmick.

Falmage's Ladies Apparel Shop said Miss Tierney applied for the job and in getting up a tremendous record sales. She started working regularly this week as a saleslady.

She has flatly refused to pose with "special items" of several clothing manufacturers who came to the store. She will not give an interview or discuss her job.

The 37-year-old actress spent eight months last year as a patient at Menninger Clinic, a psychiatric treatment center here.

She returned again last January and is now an out-patient and is reported to be looking for a house in Topeka.

No More Bananas

JACKSONVILLE, Fla. (UPI) — A judge has ruled that a man spent two days in jail on a bad check charge here only because his name was R. A. Bennett and he sold bananas.

It developed police were looking for another R. A. Bennett who also sold bananas.

The innocent R. A. Bennett, of Jacksonville, said he had instructed his lawyer to file a false arrest suit.

Robert Andrews Bennett was ordered released from jail by Judge Albert W. Graessle, who commented it was "the first case of this type I've handled in my 18 years of law experience."

RICHARD HOLTZCLAW

Cobb County, Ga., police issued a warrant for Richard A. Bennett of Smyrna, Ga., on a bad check charge. The Bennett wanted in Cobb County usually signed his name as R. A. Bennett and was in the fruit business.

A Georgia bondsman was trying to track down Bennett for skipping bond. In searching for his man, the bondsman found a bill of lading in Atlanta bearing the signature of an R. A. Bennett of Jacksonville, employed by Donald Fruit and Produce Co.

The bill of lading actually was signed by Robert Bennett when he delivered a load of bananas to Atlanta last July.

A warrant was sent to Jacksonville, (Robert) Bennett was taken into custody and spent Tuesday and Wednesday in jail.

Sanford Singer Appears In Show

Richard Holtzclaw, a native of Sanford, will be the star of "The Most Happy Fella" that will open a one day engagement at the University of Florida Gym in Gainesville Oct. 19.

The hit musical grabbed many awards while it played on Broadway in 1936.

Holtzclaw first studied singing at the Louisville University Opera School and landed an engagement with the San Carlo Company after graduation.

After a brief hitch with the armed forces he joined the New York City Opera Company.

Surprise Upset Scored By Torres

LOS ANGELES (UPI) —Raymundo (Battling) Torres of Rossmore, Mexico, scored a surprise second-round knockout Thursday night over seasoned Johnny Busso, the fourth-ranked lightweight from New York City, in a scheduled 10-round fight.

Torres, 136½, decked Busso twice in the first round and once in the second before finally knocking him through the ropes and out in 41 seconds of the second.

Busso, 137, was not counted out, but obviously was in no condition to continue when referee Charlie Randolph halted the fight. Under California rules, it was a knockout victory.

Fighter Finds Movies 'Real Easy'

By VERNON SCOTT
HOLLYWOOD (UPI) — Light-heavyweight champion Archie Moore pedaled barefoot around MGM this week for his slave role in the newest film version of Mark Twain's "Huckleberry Finn."
 Old Archie, as cagey on a soundstage as he is in the ring, carefully drew comparisons between acting and boxing.
 "They are both show business," he grinned. "Only in this job you have your thrown at you instead of punches. I like the cues better because I am not a violent man."
 No shrinking violet when it comes to publicity, Archie denied

he is a press agent at heart, explaining, "I'm a mass of intrigue and delayed actionism. I just made up that last word."
 According to Metro officials, Moore's screen test was one of the best in studio history. He was signed immediately following a showing.
 The praise hasn't changed Archie's ideas about fighting.
 "I can't say for sure if I'll become an actor when I quit fighting. And I don't find acting a big strain," he said. "But with a lot of work and study perhaps I'd develop into a good actor. I must have some natural talent or these

people wouldn't be bothering me."
 Overweight, but unmarked by his years in the ring, Archie is convinced he has many more good years as a pug.
 "I'll be fighting for some time yet," he said, indicating he would like a shot at Ingemar Johansson's heavyweight crown. "I hope to keep fighting until my wife, Joan, bears me a son. And maybe by the time my boy is 16 years old he can fight me for the championship."
 Only once since the cameras began rolling has Archie reverted to his fighting instinct.
 "There was a scene where Neville Brand is so mean to the boy Eddie Hodges that I wanted to take a sock at him," Moore laughed. "But then I realized he was only acting."
 Is Archie camera shy?
 "Heck no. I've never been afraid in the ring, so I'm not about to let a little old camera scare me."
 "In this picture I play 'Jim,' a runaway slave who floats down the Mississippi with Huck Finn. He's like me in one respect. He eventually finds what we're all looking for—freedom."

Animal Lovers, Here's New Pot

WASHINGTON (UPI) — Attention suburbanites: If you consider beagies are boring, parakeets passe and other conventional pets old hat, how about an honest to goodness buffalo to liven things up around your ranch-style home?

For the men who have everything, Rep. Thomas J. Lane (D-Mass.) suggests a live buffalo or elk to roam the backyard.

Lane says the animals are now available from national wildlife refuges at reasonable prices.

For example, you can buy one of the big game bison for \$140 to add a little realism to games of cow-boys and Indians.

Lane says the Fish and Wild Life Service is offering 303 buffalo and 91 elk as surplus animals.

Lane also has a solution for city dwellers who might have a tough time fitting one of the animals into an apartment. He says apartment dwellers may want to buy a bony buffalo for the kitchen range.

He says frozen buffalo meat will enable home owners to have "a good supply of meat on hand for the cold winter ahead."

A butchered, dressed and quartered buffalo carcass ranges from \$185 to \$200. Butchered elk goes for \$100 to \$180.

According to Lane, buffalo meat is tender but he has a warning for those who want to buy buffaloes on the hoof. He says they "are wild animals of uncertain temperament and should not be trusted."

Florida Getting Ready For Big Tourist Stream

TALLAHASSEE (UPI) — If predictions by the State Development Commission hold up, Florida resort areas will get a huge influx of sun-starved Northerners this winter.

The commission said Wednesday it has an outlook of "sparkling optimism" for the number of Florida winter visitors in 1959-1960.

Railroad, airline and bus system officials say they are having a record number of inquiries about travel to Florida during the colder months. To meet the expected crush, all commercial carriers have instituted cheaper package tour rates and special travel accommodations.

Nearly every air line and railroad is offering a low-cost package tour between Dec. 15 and April 15 that ties in both transportation and lodging at one price. Some offers begin at \$21.50 for four days and three nights or \$30 for seven days and six nights, double occupancy basis.

Major hotels and motels at Miami, Miami Beach, Fort Lauderdale, Hollywood, Beach, Clearwater and St. Petersburg will have the package deal available.

More than 120 kinds of fish are caught in California waters for commercial use.

Additionally, virtually every transportation service will put in "economy" fares to Florida starting Dec. 10. One airline will offer Jay coach service between New York and Miami for \$33.33 plus tax and night coach service at \$46.90.

Gaullists Split Over Peace Plan

PARIS (UPI) — President Charles de Gaulle's Gaullist Party was split Thursday over his liberal Algerian peace plan, but he still appeared master of the situation.

Political observers said Premier Michel Debre was still certain to win a vote of confidence tonight in the National Assembly when it winds up a three-day debate on Algeria.

The split developed when nine right-wing members of the party walked out in revolt because they feared an early peace in Algeria that would cost France the rich North African territory that is legally part of France.

The blow to Gaullist unity came as reports from Rabat, the capital of Morocco, said Algeria's rebels were setting up the basic peace terms they hope will end the five-year rebellion.

Assignment Washington

WASHINGTON — This is another untold chapter in the John Foster Dulles secret book of danger and tragedy.

Several days ago it was revealed here for the first time how the late Secretary of State suffered under the burden of an extraordinary 24-hour security guard in 1954 at his home and office when his life was threatened by a would-be assassin.

Now this writer has learned of an even more bizarre threat on the Secretary's life. This happened in November, 1956.

Mr. Dulles had put in one of his toughest years on the international front, climaxed by the Suez Canal crisis. When criticism against a devoted official mounts in public, as it did in this period, the crackpots start coming out of their holes.

However, on top of the international crises, Secretary Dulles faced another, a personal one. He learned the shocking news that he had cancer of the intestinal tract and that he would have to undergo an operation at Walter Reed Hospital.

He entered the hospital on November 3. As if the threat of cancer wasn't enough, the State Department received an anonymous letter warning that Mr. Dulles' life was in danger from another source — food poisoning.

Death Cell Author Gets New Hearing

SACRAMENTO, Calif. (UPI) — The man in "Cell 2455, Death Row" went to battle Thursday in one of his last chances to avoid an 11-year date with death eight days hence.

Several countries in South America and Europe have rallied to his cause, and he has gained support from opponents of capital punishment in this country.

The morbid history of Caryl Chessman — best-selling author, red light bandit, kidnaper, rapist, psychopath and genius — was laid before Gov. Edmund G. Brown. He now must decide whether or not to grant last minute clemency.

The 38-year-old convict is the author of four books, one the best-seller "Cell 2455, Death Row." He has an IQ of 136 which places him in the genius level—but he admits himself that he is a psychopath.

Chessman himself sat in his cell awaiting news of the clemency hearing. His latest execution date has been set for Oct. 23 in the apple-green gas chamber at San Quentin Prison.

In his 11 years on death row, Chessman has won six stays of execution. He appealed 16 times to lesser courts and seven times to the U. S. Supreme Court.

State Celebrates Double Beauty Contest Victory

VICKSBURG, Miss. (UPI) — Mississippi began celebrating Thursday its doubleheader victory in the Miss America contest.

Lynda Lee Mead, 20-year-old Natchez beauty, who won the 1959 Miss America title last month, arrives here today to start a round of appearances in her home state.

Lynda Lee succeeded last year's Miss America, Mary Ann Mobley of Brandon, Miss., for the first doubleheader victory for a state in the Miss America contest in a couple of decades.

Lynda Lee's arrival in Vicksburg created about as much excitement as the arrival of Gen. U. S. Grant 96 years ago.

The difference, of course, was that everyone was glad to see Lynda.

HAPPINESS THROUGH HEALTH
 BY DR. F. LEO KERWIN

This May Answer Your Question:

Someone remarked the other day that he didn't know Chiropractors could do anything for headaches. Similar remarks are made concerning stomach, trouble, rheumatism and a host of other conditions. Even patients upon recovery from one ailment through Chiropractic are sometimes unaware that a just-ments can also correct the cause of many other ailments.

The point is that Chiropractic is not limited to correcting backache, but is an all-around health service!

Chiropractors realize fully that there are conditions necessitating certain medication or surgery and will not hesitate to recommend their services when they deem it necessary.

Bear in mind, however, that most cases that come to the Chiropractor have tried everything and have turned to Chiropractic as a last resort!

One of a series of articles published in the public interest to explain and illustrate the practice of scientific Chiropractic, written by Dr. F. Leo Kerwin whose office is located at 201 S. French Ave. and his telephone number is FAirfax 2-7442.

Washington See-Saw

BY Wm FENNELTON

The biggest Fall get-together of politicians in Florida isn't really a political meeting. It just looks like one. We're talking about the annual home-coming game at Gainesville. This year's date is Oct. 24. That's the date for the game, but counting parties and receptions and all the trimmings, you must include the day before.

This year, the Gators will take on LSU, but the game will be secondary for hundreds who journey to Gainesville for the political atmosphere. Everybody who is somebody—everybody who thinks he is somebody—everybody—all will be there.

The number one question that will be asked at many a cocktail party is: "Who will be our next governor?" The answer to that may not be clear. You may not be able to pick him out of the crowd. But, one thing is certain—he'll be there.

We don't know how this tradition grew. It probably just worked out over the years because everybody else was going to be there. If you want to see your man about something—you can catch him at home-coming. It's always a great weekend. We recommend it to all. We are only sorry that we must miss it this year.

During the last few hours of the Congress when everyone was rushing to get on the road for home, some of the Florida members paused long enough for a word.

Congressman Byrd Eckhart: "I had to point to any one outstanding accomplishment of the first session of the 86th Congress, I would choose its action on labor-management reform. In this field, Congress, after a bad start, finally came up with good, sound, effective legislation in this exceedingly controversial field."

"And don't let anyone tell you that this is legislation to punish labor unions and that it was cooked up by the National Association of Manufacturers and the U. S. Chamber of Commerce. That's not so and the leaders of both labor and management know it. It evolved from a very real public demand, springing from the grass roots all over the Country."

(Syd will be back in Washington the first week in November for hearings before the House Ways and Means Committee on Social Security matters and on his own tax reform plan.)

Congressman Jim Haley: "I doubt if this 1st session of the 86th Congress will go down in history for the quantity of bills enacted, but it is quite possible it will be noted for the number of objectionable measures that were kept from becoming public law."

Congressman Billy Matthews: "I have tried to promote various projects in my District that are needed and have sound economic justification. Such programs as Post Office buildings; River and Harbor projects; Water Pollution and Sewerage projects; and housing. . . I believe our District shared proportionately with other areas of the Country in these programs of joint State-Federal responsibility."

Senator George Smathers: "The appropriations record of this session of Congress emphatically refuted the Administration claim that Congress is a 'spendthrift organization.' We have reduced the President's budget for the year by \$1.9 billion. I had originally predicted by a billion and a half. It is happy to say that we even succeeded that."

Doctors Lose Chance Studying Unusual Duck

CHICAGO (UPI) — A psychologist said today an opportunity for a rare study in animal behavior died with Hermann, a duck that took up the ways of a dog and was killed while chasing and "barking" at a car.

Hermann was a phenomenon worthy of study, Dr. Theodore Schaefer of the University of Chicago said, because he was well along in a duck's life before he decided to be a dog or began to believe he was one.

Because of Hermann's premature death under the wheels of an automobile last month, Schaefer said, scientists will never know whether he might have been persuaded to be just plain fowl again.

Hermann the dog-like duck lived on the farm of Alvin Schneider near Orlhann, S. D., for the first year of his life he was like any other drake.

When Hermann's mate died, he attached himself to Schneider's dog, Tony. He followed the dog everywhere, even after the annoyed pooch growled menacingly and seized the duck's head in his mouth as if to end the one-sided friendship then and there.

Gradually, Hermann began to behave like Tony.

When the dog chased cars, Hermann wedded madly after them, too. When the dog barked, Hermann tried to bark. When rain came down, Hermann huddled under shelter with Tony instead of enjoying the downpour.

Schaefer, attracted by a United Press International story about Hermann, went to the Schneider farm to see the duck while he was visiting in South Dakota recently. He spent several hours observing Hermann.

Schaefer said he was interested because Dr. Echarid H. Hess, one of his faculty colleagues at the University of Chicago, is a leading investigator of the phenomena of imprinting—when exposed to an animal or inanimate object early in life, "apes" & like a normal newborn takes after its mother.

New Book Reveals Queen Never Got Over Abdication

LONDON (UPI) — Britain's late Queen Mary never got over the despair and humiliation of her son's decision to abdicate and marry twice-divorced Wallis Warfield Simpson, but he remained her "darling David" to the end.

Further details of Britain's 1936 abdication crisis were revealed today with publication of the biography of the queen, widow of King George V.

Queen Mary, who died March 24, 1953, at the age of 85, overcame the first shock of the abdication of her son, King Edward VIII, but never the sorrow.

The biography by James Pope-Hennessy was based on official documents made available by Queen Elizabeth II, the princess "Lilibet" of per private papers and letters. One letter told of her shocked dismay when Prime Minister Stanley Baldwin told her of the abdication decision.

"Well, Mr. Baldwin, this is a pretty kettle of fish!" she exclaimed, her hands spread in a gesture of despair.

Queen Mary was to shed many tears, make many fervent pleas to David to change his mind.

GENE BARRY is back again this season as Bat Masterson, the western dude who carries a walking stick but is a real toughie when the action starts. The Masterson series is on at 8 p. m. Thursdays on NBC-TV.

TV Version Of Thriller Proves Interesting Fare

By FRED DANZIG
NEW YORK (UPI) — Thanks to late TV movies, the "Fallen Idol" has become as much a part of the TV screen as the test pattern.

And this familiarity apparently led to its taking its place in CBS-TV's DuPont Show of the Month drama anthology.

Since comparisons to the movie are going to be made all over the place, I'll say at the start that the 1950 British-made film was better. The TV version of Graham Greene's suspense story was not as subtle as the film, nor did it slide across the bumper seams in the plot very gracefully. However, the teleplay still made for an interesting 90 minutes, thanks chiefly to some unusual acting by Jack Hawkins and young Jacques Hirschler.

The story deals with a youngster who worships the family butler, Baines, but loathes Baines' naive wife. The lad becomes involved in the butler's side romance with a secretary and, when Mrs. Baines is killed, tells enough lies to put Scotland Yard on Baines' tail. Since this is, after all, a suspense vehicle, there are numerous overheard conversations, snooping, big lies and little lies to help the plot along.

A distinguishing feature in the teleplay was the performance of Master Hirschler, an 8-year-old who, we are told, never acted before. The youngster has one of those appealing little faces that is old and wise, sad and mischievous all at the same time.

Occasionally, his inexperience showed. He would stave quick sidelong glances off-camera; he was sometimes inaudible; some of his reactions seemed too flabby.

Yet, he came across as a most appealing little guy, a sturdy performer in a difficult role and a definite asset to the show.

Jack Hawkins, as Baines, was excellent. The more difficult the scene, the better he seemed to be. I was especially impressed with his discipline in a tea-room scene, where he was talking to his sweetheart while the boy listened.

In trying to get his meaning across without putting the boy wise, Hawkins displayed his love, pain and desperation superbly. Again, as he sought to explain his innocence to Scotland Yard, he

TV Plays Offered In Story Form

Three of the dramatized "actuals" that have been seen on the CBS "Armstrong Circle Theater" will be made available to the reading public in a Citadel Press paperback volume.

This is an unusual departure in that the book does not contain the TV scripts but short story versions of them written by Trudy and Irving Settel. The plays so adapted are "Buried 2,000 Years: The Dead Sea Scrolls" by Irve Tunick, "Thirty Days to Reconsider" by Roger Hilsen and "Junkies' Alley" by Mel Goldberg.

The next four guest stars on Ernie Ford's NBC program, beginning Oct. 22 are, in order, Cliff Arquette, Gordon Scott, Darrin McGavin and Minnie Pearl.

Lucy's Sidekick Starts Losing Ethel Mertz

By VERNON SCOTT
HOLLYWOOD (UPI) — For nine years Lucille Ball and Vivian Vance were a set — you rarely saw one without the other on TV, but with "I Love Lucy" taking a dive the girls are going their separate ways.

To lose her identity as the wacky, scatter-brained Ethel, Vivian has just completed a dramatic role in a horse opera, "The Deputy."

"The role is a far cry from that biddy Ethel," Vivian laughed. "The woman I portray is a strong individualist who rides horses and drives buggies. It's given me a new lease on life."

"In all the nine years I was with 'Lucy' I never appeared in a movie or TV show. Toward the end I thought I was getting tired of acting, but I was just weary of the same role. From now on I hope never to be seen wearing a Marcel and house dress."

Vivian wasn't being disloyal to the show. She happily admits the program has made her financially independent for life.

"You'd think after all those years people would call me Ethel, but I'm seldom recognized. Off screen I look entirely different," she smiled. "However, I'll be delighted when audiences realize I'm not really married to Bill Frawley, who played Fred Mertz on the show."

A close friend of Lucille off-screen, Vivian and her madcap buddy are planning an hour-long TV musical with Vivian playing second banana.

"I learned my comedy early in life on the stage working with such greats as Ed Wynn, Victor Moore, Bob Hope, Jimmy Durante and Bill Gaxton," Vivian said. "I think it's the most difficult part of acting."

"Right now I'm hoping to star in my own series. The pilot already has been filmed. It's the story of a couple who open a dude ranch in New Mexico. We've titled it 'Guestward Ho' with Leif Erickson co-starring."

So Vivian Vance is back in circulation, free of Ethel Mertz forever — or almost, anyhow. She has one more hour-long "Lucy" show to go and then she is on her own.

60 YEARS OF KNOW-HOW!

FIAT

Nothing is more valuable than experience when it comes to automotive engineering . . . and no auto manufacturer in the world can claim more experience than FIAT of Italy.

When you select FIAT . . . you select a car with a heritage that started 60 years ago, shortly after the invention of the motor car. Through these years . . . FIAT engineers and designers have researched, and progressed . . . turning out a succession of superbly refined automobiles.

Today's FIAT with its fine quality, supreme economical performance and advanced design is obviously no accident . . . it is the evolution of 60 years of know-how! Another important thing they've learned is that every buyer wants selection, so you are offered 6 series and 17 models which include sedans, station wagons and sports cars . . . priced from \$1098 Part of Entry. Transportation and pre-delivery servicing slightly extra.

Chief Urges Tighter Youth Driving Law

Juveniles who are given adult drivers' licenses should be tried in adult courts if they violate traffic laws, Sanford Police Chief Roy Williams said today. Sixteen-year-olds can get adult licenses in Florida, but cannot be tried in city or county courts until they are 17, the chief pointed out. "There's a gap there that ought to be closed up," he said. Juvenile traffic offenders cannot be jailed without an order from the county judge. Usually they are taken home to their parents, Chief Williams said. He emphasized the need for holding parents responsible for a child's auto accident until that child is at least 17-years-old. Chief Williams recommended either raising the licensing age to 17 or, lowering the age of trial in regular courts to 16. Juvenile court now handles traffic offenses committed by 16-year-olds. Names of these traffic offenders should be made public, the chief said.

Storm Threat Ends After Sudden Blow

MIAMI (UPI) — Tropical Storm Judith, which sloshed across Florida's midsection causing more insomnia than damage, claimed the broad Atlantic as her playground today. No casualties were directly attributed to Judith. The storm boiled up suddenly in the Gulf of Mexico late Saturday, routing thousands of West Coast residents from their homes.

Retaliation Urged Against Red Ouster

WASHINGTON (UPI) — A Republican senator says the United States should retaliate against the Russians by expelling a Soviet Embassy official unless they apologize for the ouster of an American on spy charges. Sen. John Sherman Cooper of Kentucky, a former U. S. ambassador to India, said Russia committed "an awful affront" by their expulsion of Russell A. Langelle, U. S. Embassy security chief in Moscow. The State Department already has denounced the spy charges as phony and accused the Russians of abducting Langelle in an unsuccessful effort to gain American secrets. "The only thing we can do, unless there is a very clear apology from the Soviet Union, is respond by asking one of their people to leave this country," Cooper said. "They should be strongly rebuked and told 'in no uncertain terms that we disapprove of this action.'" "I don't think he was spying," the former diplomat said. Senate Democratic Whip Mike Mansfield (Mont.) described the Soviet claim that Langelle was a spy as a "far fetched" excuse for ousting him. He said he thought it possible the State Department would retaliate in line with established U. S. Soviet practices. The United States accused Russia of seizing Langelle and trying by threat and bribe to force him to spy for them. The State Department said Russia ordered him out of the country when he refused to be a turncoat.

Marshall Rites Slated Tomorrow

WASHINGTON (UPI) — Gen. George C. Marshall lay in state at Washington National Cathedral today. Marshall, Army chief of staff in World War II and later secretary of state and secretary of defense, died here Friday. His body will lie in state at the cathedral until funeral services Tuesday. Thousands of persons, including high government officials, the military, members of the diplomatic corps and ordinary citizens, were expected to pay their last respects by filing past Marshall's closed casket in the cathedral's Bethlehem Chapel. However, according to Marshall's wishes, his funeral services will be a private ceremony in the chapel at Ft. Myer, Va. There will be no funeral march to the cemetery and no massing of troops behind a horse-drawn caisson at the grave. Only simple military honors will be rendered.

Truman Preaches Morals Sermon

DALLAS, Tex. (UPI) — Former President Harry S. Truman, a Baptist, preached in the Elmwood Methodist Church Sunday and said a national code of morals is the "greatest thing any country can have." "That's the trouble with the Russians," Truman said. "They have no morals."

Traffic Toll Tallahassee

TALLAHASSEE (UPI) — Weekend traffic accidents claimed at least 15 victims including four in Polk County.

'Improved With Age' Coburn Weds At 83

HOLLYWOOD (UPI) — Charles Coburn, moneted 83-year-old actor who believes that "sex appeal, like smooth brandy, improves with age," leaves today for a week-long honeymoon with his attractive 27-year-old bride. The chipper and gracious actor refused to reveal where he and Winifred Green Clements first were married. They were married in a surprise civil ceremony in Las Vegas, Nev., Sunday and returned here Sunday night for a reception at the home of his bride's sister, Mrs. Lawrence A. Dysart. It was the second marriage for Coburn and also the second for his bride. Both were widowed. He said they met about six years ago and had been planning the marriage for the past year. A stewardess on the plane which took them from Las Vegas said the couple "held hands like teen-agers" during the flight. While the couple was being married by acting jinx of the

Injunction Could Perk Economy

PITTSBURGH (UPI) — The nation's economy is expected to perk up slightly in the event that Taft-Hartley law is invoked in the 97-day steel strike which already has cost the nation billions of dollars. With President Eisenhower expected to invoke Taft-Hartley's 60-day cooling off provision, some facets of the economy were expected to feel an immediate nudge upward. However, in most industries it would be weeks, perhaps longer before any improvement could be noted. The auto industry, one of the hardest hit by steel shortages, was scheduled to lay off more workers this week and further curtail production of 1960 model cars. More than 40,000 workers in the auto industry have been idled by the strike. With more than 85 per cent of steel production choked off, nearly 250,000 workers in coal mines, railroads and related industries have been laid off because of the strike. These workers and the strikers have lost an estimated \$775 million in wages. Steel Magazine said last week that direct losses for steel mills and workers plus indirect losses for dependent industries would total an estimated \$4,500,000,000 by today. In the construction industry, builders said critical shortages in such materials as water heaters, nails, and especially structural steel, would develop within 15 to 20 days even if the strike ended soon. The Federal Reserve Board noted during the week end that the nation's industrial production dropped slightly last month because of the steel walkout. It said the pinch of steel shortages was felt in the auto, railroad equipment and ship building industries. Time was running out for shipments of iron ore on the Great Lakes during the ice-free shipping season. If the strike does not end before the freeze many ore boats would not be able to move out of ice-locked ports. The government last Friday ordered available steel supplies be channeled to the nation's missile and atomic defense programs. The action, in effect, diverted all available steel coming from mills not on strike from civilian use.

Area Fund Drive Hits \$6,687 Mark

The Seminole County United Fund received \$604 Saturday from 49 contributors. This brings the total amount contributed through Saturday to \$6,687.31, given by 365 donors. Paola has turned in \$118.96 from 28 firms and individuals plus a pledge from a construction firm. Heading the Paola solicitors team were Mrs. B. F. Ganas, and Mrs. Gordon Frederick. They were assisted by Mrs. Lucille Spivey, Mrs. Dorothy Steele, Mrs. Fran Abram and Mrs. Pauline Werfel. Chuluota has added \$186.21 to the fund from 48 contributors. Mrs. Joseph Armstrong and Mrs. Virginia Chadwick headed the Chuluota Drive, assisted by Mrs. Onie Carpenter, Mrs. W. R. Crossdale, Mrs. Morris Luther, Mrs. Margaret Norman, Mrs. L. M. Stiver, Mrs. Edna Spath, Mrs. F. Stumpf and Mrs. M. Mello.

County Board Postpones Meeting

The Seminole County Commission has postponed its regular meeting Tuesday in order to attend the State County Commission convention. The next commission meeting will be Oct. 27.

Russian Planning Limb Graft Experiment

LONDON (UPI) — The London Daily Herald reported today from Moscow that a Russian surgeon is preparing to graft a new right leg on a 20-year-old girl in the first such operation in history. Herald reporter John Mossman identified the surgeon as Dr. Vladimir Demikhov who previously won headlines by successfully grafting the head of a small dog

onto another, creating a two-headed animal. He quoted Demikhov as saying: "I can now take the limb from a person who has died and transplant it on to a living person. The girl is my first patient." The girl was described as a typist who recently lost a leg when she was hit by a train. Mossman quoted Demikhov as

saying, "She is pretty and when I have patched her up there should be a queue of young men waiting to marry her." Demikhov was quoted as saying he was "ready to operate tomorrow" but there were some "administrative matters" to be cleared first. Mossman, who said he inter-

viewed Demikhov at his Moscow research laboratory, described the grafting procedure as follows: "First the professor has to find a limb from a newly dead person of about the same age as the person undergoing the operation. For up to six months the patient will feel nothing from the new limb until the nerves and tiny

blood vessels have grown again." The Daily Herald, in an accompanying story, quoted "one of Britain's top surgeons," who was not named, as saying that if the Russians actually could perform a leg-grafting operation as described, "it means they are about 100 years ahead in the field of biology."

Ike Expected To Seek Court Order To Halt Steel Strike

RANDALL CHASE, B. L. PERKINS JR. DISCUSS PROGRESS

No Agreement Reached On Any Point, Board Says

WASHINGTON (UPI) — President Eisenhower's steel fact-finding board told him today that union and management officials do not agree on any major issue in the 97-day old steel strike.

The White House refused to say if the president will seek a court order to halt the walkout for 80 days under the Taft-Hartley Act. It said the president wants to study the report carefully "and there's no time limit on that."

A Justice Department spokesman had said earlier that he did not expect the government to go into court to seek an injunction before Tuesday. Steel Union President David J. McDonald said he will carry to the Supreme Court, if necessary, his fight against issuance of a Taft-Hartley injunction. McDonald reiterated that, if an injunction is issued, "We will live up to the law of our country." But he stressed that "we will oppose its issuance in every way—and we will exhaust every avenue of opposition."

While the board was reporting to the president, union and management officials held separate meetings. The fact-finding board, which began public hearings last Monday to clarify the issues and failed in 11th-hour efforts to settle the strike Sunday night, abandoned further mediation efforts. "We're going home," Chairman George W. Taylor told reporters after seeing the president. The 37-page report was accompanied by appendices detailing the union and company proposals for a settlement. "There are many issues in this dispute," the board said. "It is evident, however, that the major roadblocks to settlement are in the general areas of 'economics' and 'work rules.'"

"Their resolution would lead to the settlement of the strike." The three-man board summed up in these words: "As we submit this report, the parties have failed to reach an agreement and we see no prospects for an early cessation of the strike. The board cannot point to any single issue of any consequence whatsoever upon which the parties are in agreement."

Pre-Summit Talks Appear Certain

LONDON (UPI) — A Western pre-summit meeting is "virtually complete" but there is still some question as to how soon it will be held, responsible British sources said today. Official spokesmen here would not confirm reports that President Eisenhower has offered to come to Europe late this month to confer with Prime Minister Harold Macmillan, President Charles de Gaulle and Chancellor Konrad Adenauer. Other responsible British sources said Britain would prefer that such a meeting—if it takes place—be held immediately before the expected summit conference with Russia's Nikita Khrushchev.

U. S., Russia Near Cultural Pact

WASHINGTON (UPI) — The United States and Russia were reported near agreement today on a plan to extend and build up in the cultural and scientific exchange program. State Department sources said a team of four negotiators would go to Moscow shortly to put the finishing touches on the new program. The present two-year exchange expires Jan. 27, 1961.

New Pipeline

The Casseberry Utilities Commission is expanding its sewage facilities by laying a new pipeline. After the line is completed, the area in front of the Post Office will be paved.

California Fire Rages Through Seventh Day

LOS ANGELES (UPI) — Embattled firemen fighting the nearly week-old Los Angeles foothill fire today had to contend with a new brush fire which already has blackened 3,000 acres. U. S. Forestry Service spokesman Elmer Osterman said the new blaze—about 20 miles from the giant foothill fire—was being investigated to see if it was deliberately set. Both fires were in the spacious Angeles National Forest. Some 500 men had to be pulled off the giant foothill fire to battle the blaze in watershed and grazing

land about eight miles northwest of Castaic. No homes were threatened by the new blaze. The foothill blaze has burned a black scar in 13,000 acres of brush just north of the suburban communities of La Canada, Altadena and La Crescenta-Perimeter of the city. The blaze was estimated at 45 miles. More than 100 residents in the La Paloma and Vogel Flats areas in the big Tujunga Canyon above the tip of La Crescenta had to remain away from their threatened homes during the night. Osterman said the blaze was slowly working its way down Mt. Lukens to the homes, but he was hopeful firemen would be able to save them.

Lake Mary Man In Auto Mishap

A 30-year-old retired Navy commander who makes his home in Lake Mary was listed in serious condition today after he crashed his car on W. 8th St. in Sanford early Saturday morning. William Class is in Orlando Air Force Base Hospital after he broke six ribs, his collarbone and suffered other injuries as a result of the accident. Police reported that Class, traveling west on 8th St. slammed into an Atlantic Coast Line sign as he apparently lost control of his vehicle and turned over in a ditch some 2,000 feet off Perammon Ave. Police are still investigating the accident, Sgt. Ben Butler said.

Chessman Denied Execution Stay

SACRAMENTO, Calif. (UPI) — Gov. Edmund G. Brown today refused to save the life of Cary Chessman, a kidnaper-rapist and best-selling author who faces execution next Friday. "I have used the power of clemency before," the governor said in a formal statement, "and in proper cases I will use it again. I do not believe this is a proper case." Brown said several factors weighed heavily in his thinking not to grant mercy to Chessman. These, he said, included "a deliberate plan of robberies, sexual attacks, and the use of a loaded gun."

NAACP Asks Big Push On Pupil Assignment Law

TAMPA (UPI) — A Negro official has called for hundreds of thousands of applications by Negro children to the schools of their choice under the Florida Pupil Assignment Law. Dr. John A. Morsell assistant to executive secretary Roy Wilkins of the National Association for the Advancement of Colored People, spoke to the local NAACP chapter as the Florida organization opened its annual membership drive. Morsell predicted one of two fates for the Pupil Assignment Law. Either its administrators enforce it honestly and permit integration, or they will administer it dishonestly and it will be struck down by the courts. Morsell said either way school integration is doomed.

Reds Say Lunik Took Back Of Moon Photos

MOSCOW (UPI) — Man may get his first look this week at the mysterious back of the moon which has never been turned toward the earth. The Russians said photographs of 90 per cent of the lunar surface, made by the Soviet Union's Lunik III moon satellite, were transmitted Sunday when the satellite skirted the earth, 29,515 miles above the Solomon Islands in the Pacific.

The official Soviet Tass news agency said the pictures, taken about 11 days ago when the satellite was reported behind the moon, are now being processed by Soviet scientists. It said the information would be made public. One Soviet scientist predicted shortly after the launching of Lunik III on Oct. 4 that the pictures may disclose some "low form" of life on the moon.

"Photographs were taken of the other side of the moon which cannot be seen from the earth," the Tass announcement said. "The information of the scientific measurements and photographs are being processed and the results of the processing will be made public." It did not say when.

In skirting the earth Sunday, Lunik III became the first satellite to pass successfully around the earth and back toward the moon. If it stays on course the moon will fall within Lunik's orbit about every two weeks. One Soviet scientist said eventually Lunik III may burn up in the earth's atmosphere or fall onto the moon. Tass said the satellite now was hidden from Russia and that its next transmission of information is scheduled for Wednesday between 6 and 8 a. m. e.d.t.

News Briefs

GOP Drive FORT MYERS (UPI) — Florida Republicans began a fund-raising drive today with the announced object of getting enough money to campaign for every state office in 1960. State Party Chairman G. Harold Alexander said "this will be the most comprehensive program adopted by any Republican organization in the country."

Patience Urged WASHINGTON (UPI) — The chairman of the Federal Communications Commission said today the public should have "patience" with television's growing pains, including fixed quiz shows. John C. Doerfer said it wasn't necessary and perhaps dangerous for the government to step in and tighten its regulation of the industry.

Race To Campaign ORLANDO (UPI) — Charlie Race of Winter Haven, candidate for the office of Commissioner of Agriculture, campaigned in Central Florida today. Race, the first to announce for the office, will attend the State Association of County Commissioners here and later in the week will go to the homecoming celebration at the University of Florida in Gainesville.

Twin Report LONDON (UPI) — Court goings were reported speculating today that the child Queen Elizabeth II expects early next year may turn out to be twins. Twin births are not uncommon in European royal circles. Prince Philip's sister Margaret recently gave birth to twins. A number of the Queen's more or less distant cousins are twins, and she has twin grandsons on her mother's side of the family.

Red Tide Check ST. PETERSBURG (UPI) — A marine biologist said a plane would check the waters off Florida's southwest coast today to determine what effect tropical storm Judith had on the fish-killing red tide. Earlier, conservation experts said the storm could either help kill the tide by kicking up rough water, or make it worse by creating westerly winds that would wash thousands of dead fish ashore along beaches of the southwest coast.

U. S., Russia Equal On Atomic Power MOSCOW (UPI) — John McCone, chairman of the U. S. Atomic Energy Commission, said Sunday Russia and the United States appear to be at about the same stage in the development of atomic power for peaceful use. McCone told a news conference "there is no possibility of their getting far ahead of us" as they claim to be in rocket production.
