BOARD OF TRADE WILL CHANGE THE NAME OF CHAMBER COMMERCE

Enthusiastic Meeting of The Board of Trade Members Last Night

AFTER NEW CHARTER

WILL BE ARRANGED TO TAKE EFFECT SOME TIME IN NOVEMBER

About fifty business men, members of the Sanford Board of Trade, met in the court house Tuesday night to lay plans for the organization of the new Chamber of Commerce to supersede the Board of Trade and get on a bigger and broader basis for the betterment of the city and county. Vice-President T. W. Lawton presided in the absence of President Miller and stated the object of the meeting and several suggestions made by a special committee of the Board of Trade were read and acted upon as it was decided that the old Board of Trade would have to hold over for thirty days or more, or until the new charter for the Chamber of Commerce could be arranged. It was decided to vote upon the names of nine men for governors and the highest man to hold the office of president of the Chamber of Commerce until the regular election in January. The result of the ballot was the election of the following in the order named: J. G. Ball, R. C. Bower, John Meisch, who will be president, first vice-president and second vice-president respectively, and the following as governors: A. P. Connelly, R. R. Deas, F. P. Forster, R. J. Holly, G. W. Knight, and H. R. Stevens.

Judge Housholder was instructed to take up the matter of the new charter and within the next thirty days the new Chamber of Commerce should be organized and working. Meantime the Board of Trade will continue to function and Secretary Pearman, who has been engaged for this important position will get busy on the many things that Sanford trends putting over. Mr. Pearman gave a most interesting talk to the members at the close of the meeting Tuesday night and he was most cordially received into the greatest club of boosters in Florida and with the assistance of the members of the board of governors Secretary Pearman can put Sanford on the map with large letters.

For the interim President Miller will continue with the Board of Trade and the good work that has already been started and in this connection it would be well to remind the members that the next banquet of the Board of Trade will be held next Tuesday night at the Valdez Hotel at seven o'clock sharp and after the banquet the members will adjourn to the Lyric Theatre to hear the election returns. If you want to attend the banquet it will cost you \$1.25. If you want to attend the banquet and take your wife to the returns it will cost you \$1.75. If you have no wife and want to attend the banquet and the returns it will cost you \$1.50. In other words the banquet is the regular price of \$1.25, the returns at the theatre 26 cents extra or for two 50 cents.

You can get your tickets at the banks or from President Miller at the store of T. J. Miller & Son.

HEALTH DICTATOR APPOINTED FOR POLISH PEOPLE

WARSAW, Oct. 26.—A health dictator has been appointed by the Polish government to fight the typhus plague. He is Dr. Emil Godewski, known throughout eastern Europe as an expert in hygiene. His writings on the subject are a textbook in nurses' schools and hospitals. Under the Polish Ministry of Health he has set up an office in Warsaw where he has been given the widest powers. The American Red Cross has placed two of its best physicians at his disposal and one of the first results of their cooperation was the decision to send out a series of dispensary trains, staffed by Polish and American personnel.

WOMEN TO HAVE FULL VOTING POWER IN LUTHERAN CHURCH

(By The Associated Press.)
WASHINGTON, Oct. 27.—Resolutions requesting the United Lutheran church to give full voting privileges to women on all boards was presented to the convention by the Women's Missionary society. It was referred to the executive board.

COAL STRIKE WILL END IS REPORT

LEADERS OF MINERS IN ENGLAND WILL ACCEPT GOVERNMENT TERMS

(By The Associated Press.)
LONDON, Oct. 27.—The coal miners strike is expected to end tonight as it is reported the miner leaders have accepted the government terms and will submit them to conference of miners delegates.

ALBANIA IS FREE AT LAST

WITHDRAWAL OF STATION TROOPS MEANS INDEPENDENCE FOR LITTLE STATE

(By The Associated Press.)
SCUTARI, Albania, Oct. 27.—With the withdrawal of Italian troops from Avlona and the cessation of hostile invasions by the Serbs and Montenegrins, Albania is free of foreign occupation for the first time in history that they have reached the goal of their national independence. Their undying love of liberty which has persisted through all their centuries of struggle against the Turk and Christian, is particularly quick and hopeful today. The people hope that the great Powers will protect them from future designs on the part of selfish foreign countries.

Perhaps never before was there such a state of tranquility within the borders of the little Albanian state. In the streets of Scutari one sees the Albanian colors displayed for the first time shrdlu shrdlu shrdlu shrill in a time, and listens to patriotic demonstrations by local groups of citizens and societies. Enthusiasm and patriotic fervor are at a high pitch. Even the native tribes, who usually are engaged in factional combat among themselves, are living in a state of peace. This peace is based upon nothing more than a word of honor given with the approval of the people between two or more chiefs.

The Albanian's word, which he calls "bessa," is absolutely binding. It is customary for families within a tribe, for tribes and for large groups of tribes to arrange between themselves a "bessa"; that is an agreement by which all matters of personal vengeance are suspended for a given length of time.

Except in a few communities in the South, the Albanians live in tribal organizations, in scattered communities in the mountains, where each man defends his home and his rights with his rifle, which he never lays down when out of doors. They are governed by a sort of common law, which is known as the Law of Lek. Lek was a more or less traditional law-given by the once powerful family of Dqandjini.

GOVERNOR COX ON NATIVE HEATH WILL REST TODAY

(By The Associated Press.)
MIDDLETOWN, Ohio, Oct. 27.—Governor Cox is campaigning with home folks, going from here to Dayton where he will speak and rest at night's end for an address at Indianapolis tomorrow.

FUNERAL OF MRS. DOYLE TOMORROW

The funeral of Mrs. Doyle will be held from the late home on Oak avenue tomorrow morning at ten o'clock.

PRES. WILSON HOLDS FIRST POLITICAL LEVEE SINCE SICKNESS

RECEIVED DELEGATION OF REPUBLICANS WHO FAVOR LEAGUE OF NATIONS

(By The Associated Press.)
WASHINGTON, Oct. 27.—President Wilson received at the White House a delegation of pro-League Republicans. It was the first political reception the president has held during the campaign, and the first speech since the president was taken ill.

WASHINGTON, 2:30 today.—President Wilson declared "the so-called Americanism which we heard so much prating about now is spurious and invented for party purposes only. There is only one way to assure the world of peace and that is by making it so dangerous to break the peace that no other nations will have the audacity to attempt it." He warned his hearers not to be deceived into supporting imperialistic schemes which ended with Germany's defeat. "There are other nations likely to be powerfully moved or are already moved by commercial jealousy, by desire to dominate and have their own way in politics and enterprises and it is necessary to check them and appraise them that the world will be united against them as it was against Germany if they attempt any similar thing." He said the war was fought in vain and an immense sacrifice thrown away unless we complete the work begun. The delegates said they were deeply

touched by the physical appearance of the president who received them sitting and plainly showed the effects of his recent illness. His voice choked off referring to the soldiers and mothers.

BARNETT CHANGES FIGURES ON NUMBER SPIGGOTIES KILLED

(By The Associated Press.)
WASHINGTON, Oct. 27.—Brigadier General George Barnett, former commandant of the Marine corps told the naval court of inquiry he was "terribly shocked" by conditions in Haiti as disclosed at the trial of two privates last year. He said there existed a "state of mind which might make it possible for any one to be killed." He said 2,250 natives were killed instead of the previous announcement of over three thousand. Officer of casualty record office said only a few had not fallen in action with Marines or native troops.

FELLOW PRISONERS OF ALFRED COCCHI SAYS HE IS GUILTY

(By The Associated Press.)
BOLOGNA, Oct. 27.—Aldo Dessai, a fellow prisoner of Alfred Cocchi on trial charged with the murder of Ruth Cruger in New York City in 1917 testified Cocchi told him he killed a girl after mistreating her.

FOREST LAKE CHAIRMAN STATE BOARD

Hon. Forest Lake, of Sanford, may be obliged to move his residence to Tallahassee, having been yesterday elected to the position of chairman of the Florida State Road Department, at a meeting of the board at the Hillsboro Hotel.

Mr. Lake was elected temporary chairman and announced that the first business would be to select a permanent chairman, and he was immediately nominated by Commissioner W. A. Holt of White Springs. Commissioners Ed. Scott of Arcadia, and J. D. Smith of Marianna, also being nominated for the office by roll call and Mr. Lake declared elected, receiving three votes. On motion of Commissioner Scott, it was voted to make election of the chairman unanimous.

The newly elected chairman made a short speech in which he said that he had at times been accused of being a politician, but that he is far from it, and had tried very hard to induce Governor Catts to reappoint M. M. Smith, former chairman, to the board "in fact," said Mr. Lake, "I nearly broke with the governor in my efforts to induce him to retain Mr. Smith, but he positively refused to do so, and told me that if I did not accept his appointment of myself he would find someone else, but he absolutely would not retain Mr. Smith. As chairman of this board I shall ask the co-operation of all the rest of you and there will be no politics in it. I have no enemies to punish and no friends to reward." Assurance of co-operation were given the chairman by the other members of the board and the meeting was declared ready to proceed to other business.

Commissioner Scott moved the reading of the minutes of the last meeting and the secretary started on the job, but after reading some twenty or so pages, and in answer to an inquiry from the chair stating there were forty more, it was voted on motion of Commissioner Tutwiler to dispense with the reading, and that copies be printed and sent to the members.

Mr. Scott explained that he wanted the minutes read "to refute the slams of certain of the leading newspapers in the state which wanted to make it appear that the board was not doing anything or putting out any money, except in the south part of the state."

J. E. Taylor, chairman of the county commissioners of Clay county, appeared at the meeting to inform the

board that the appropriation for that county has been used up and, as the board had voted money for the building of certain roads in that county, which money has not yet been received, he desired assurance that it will be forthcoming before the work is forced to stop. He was told that his county might use the auto tax money to keep going on, to be reimbursed a little later.

W. P. Farrar, county commissioner of Manatee county, informed the board that the funds in his county are now available, and work ready to start, and that if the board will send its engineer to that county to get things under way, the commissioners will provide the necessary machinery.

A. M. Roland, an attorney of Bushnell, stated that he represented Sumter county and a part of Marion, and that these counties have money all ready to put into a road from Ocala to the Hillsborough line toward Plant City, for a distance of seventy-two miles, which they will build at their own expense provided the board will list this as a state road, but do not want State Road No. 5 which the state board has planned. He said, furthermore, that Pasco county felt the same way about it and would put up money for a share of the road, which was borne out by remarks from C. A. Lock of Pasco county who was present.

Mr. Roland said that Sumter county has the funds with which to build this road, but that the proposition was made last year and turned down by the board. In consequence the citizens of the county are practically without exception against the bond issue, but if this road could be assured they might change their minds. Mr. Scott explained that this road would run almost parallel to State Road No. 5, which will serve as an outlet to Tampa, and should be built. It was voted that this matter be gone into again at the next meeting.

The chairman read an invitation from the mayor and chamber of commerce of Jacksonville, signed also by the Jacksonville Kiwanis and Rotary clubs, asking that the next meeting be held in that city, and it was voted to accept the invitation and meet in Jacksonville on Thursday of next week, proceeding from there Thursday night to Tallahassee and holding a meeting, which according to Chairman Lake, will take three or four days to go into all the matters which are likely to come before it.—Tampa Tribune.

REGISTERED VOTERS NAMES WILL APPEAR IN WEEKLY HERALD

KICK ON SUITS WORN BY SWIMMERS IN THEIR CONTESTS

(By The Associated Press.)
NEW YORK, Oct. 27.—A protest against the scanty suits worn in the swimming contests will be considered at a convention of amateur athletic union in New Orleans today.

Supervisor of Registration Getting Them Out Now

WATCH THE PAPERS

FOR THE DUMMY BALLOT AND THE LIST OF REGISTERED VOTERS

The Board of County Commissioners met this morning to strike off the names of those who have moved away or have died or for some reason or other have lost their chance to vote in this election and this list of stricken voters will appear in the Weekly Herald and if possible in the Daily Herald this week. In the Weekly Herald will appear the names of those who are qualified to vote—those who have complied with the rules and regulations and are eligible to vote next Tuesday—and their names will appear in the precincts in which they are to vote. Every registered voter, man or woman, should scan the list of registered voters in this week's Herald that will appear Friday, and see that your name is on that list. That you are in the right precinct. In case there has been some mistake and you are not on the list you should see the supervisor of Registration, H. C. DuBose, and he will set you straight.

Owing to the doubling up of the registration list this year the work of compiling them has been a big undertaking with the small force in the office of the supervisor and it was impossible to get the lists ready for the newspaper last week. It is coming in now and will be set up as fast as it can be brought to the printer and will appear in this week's edition of the Herald.

As soon as the ballots can be procured from the state printer they will be set up and duplicated in a dummy ballot for the benefit of the voters and will appear in the Daily and Weekly Herald. Those delays have been made this year on account of the length of the ballot and the fact that there has been more work connected with the registration than ever before. The Herald is anxious to print all that pertains to the election and to instruct the voters but will not print any instructive ballots in the paper until the real ballot can be procured as there should be no mistake in any part of it and every candidate will be marked with his party.

DON'T TIE HANDS WITH SENATORIAL NUTS GOVERNOR COX SAYS

CINCINNATI, Oct. 27.—Plans for election of senatorial candidates favoring the league of nations were made by Governor Cox yesterday in a tri-state tour touching West Virginia and Kentucky and closing last night with an address here where he began his career, as a newspaper reporter twenty-five years ago. The Democratic presidential candidate, reiterating that he would construe his election—in which he expressed utmost confidence—as "a positive mandate" for American entrance into the league, asked support for Democratic candidates, here in Ohio and in Kentucky also, whom, he said, stood "four-square" upon the league issue.

"Don't tie my hands by electing a hostile senator," he urged, reiterating statements, made in his formal announcement yesterday, that he believed he would "reach an agreement with the senate regarding the league." "I have found that America is not so much concerned in the words we use in keeping our pledge," said the governor, "as it is that the meaning be clear and that the only possible step now available be taken to keep wars from being in the future."

WOMEN VOTERS—ATTENTION!

Don't forget the public meeting at the Woman's Club tomorrow afternoon at 3:30 o'clock. This is a non-partisan meeting for instructing the women in the ballot and every woman in the county is invited to attend.

REPUBLICAN PROSPECTS ARE AT SEA

(Continued from page one)

before the 1916 election, for their candidate, Charles E. Hughes. When the returns were counted Hughes actually received 254 electoral votes and Woodrow Wilson was elected.

Just before the 1916 election, William R. Wilcox, chairman of the Republican national committee, predicted a Republican landslide.

"The people," he said, "have made up their minds in favor of Mr. Hughes and that is all there is to it."

Among the states which he claimed with the utmost assurance, would give large Republican majorities were California (went Democratic by 3,800); Kansas (went Democratic by 36,000); and Ohio (went Democratic by 89,500). California, Mr. Wilcox asserted, would go Republican by 250,000, citing the fact, as evidence, that 307,793 Republicans had voted in the state primary and only 77,830 Democrats.

Charles W. Farnham, campaign tour manager for Hughes, reported to the Republican national committee on October 18, 1916, that Hughes was assured of 300 electoral votes, and, probably, 105 more. Among the states which he predicted would certainly be carried by Hughes, were Delaware, Ohio, California, Kansas, North Dakota, Utah, Idaho, Wyoming and Washington, every one of which went Democratic, and in the "probably for Hughes" column he placed Arizona, Nevada, Montana, New Mexico and Nebraska, all of which were carried by Mr. Wilson. In the "possibly for Hughes" column Mr. Farnham placed Colorado, Kentucky, Maryland, Missouri and Oklahoma, all of which returned substantial democratic majorities.

The late George W. Perkins, another Republican campaign leader, was so confident of the election of Hughes that he said: "This election was over 60 days ago, when the returns from Maine came in. The whole issue was fought out there;" and Myron T. Herrick said, in claiming Ohio for Hughes "Ohio often goes wrong, but invariably ends right," an assertion which was borne out when the Buckeye state went Democratic by 89,500.

Mr. Hays declares that in November the Republicans will carry all of the New England states, New York, New Jersey, Pennsylvania, Delaware, Maryland, West Virginia, Ohio, Michigan, Indiana, Kentucky, Wisconsin, Illinois, everything west of the Mississippi except Arkansas, Louisiana and Texas, and that they have a splendid chance to carry Tennessee and North Carolina. He thus graciously concedes South Carolina, Florida, Georgia, Alabama, Mississippi, Arkansas, Texas and Louisiana to the Democrats. Even these, however, are more than the two states, Utah and Vermont, which the Republicans succeeded in carrying in 1912.

ITALIAN AMBASSADOR TO WASHINGTON

ROME, Oct. 26.—Senator Rolandi Risci, it is reported, was appointed Italian ambassador to Washington today.

Sanford Groceries
 108 PALMETTO AVENUE

STRAWBERRY PLANTS MAY BE SET UP TO NOV. 10

It is not too late to set strawberries, especially in the southern part of the state for home use, altho most growers have already set. Under favorable conditions good crops may be grown when planted as late as November 10. In fact some growers prefer to set late as they have less difficulty in making the plants live.

If the soil is of the average type, a good quantity of stable manure will result in a strong plant that will bear late in the season. Strawberries should be planted on moist, rich soil. The plants should be set about 10 inches apart in 24- to 30-inch rows. Set them just a little above the level, so that when heavy rains occur the sand will not cover the buds, as this retards their growth.

As to varieties, the best growers prefer the Missionary or the Klondyke. Good plants can be secured from growers in the state, and it is better to secure them as close as possible to avoid delayed shipment.

In addition to the stable manure or humus that should be in the soil, strawberries need a liberal supply of commercial fertilizers. Average land should have an application of from 1,500 to 2,000 pounds per acre; one-third before the plants are set, one-third about six weeks later and one-third when the first blooms appear. Plants for home use should have an additional 100 pounds per acre of nitrate of soda, applied in the spring after the plants have been bearing two or three weeks. A. P. Spencer, vice-director of agricultural extension in Florida, says that nitrate of soda lengthens the fruiting period.

It pays to fertilize strawberries liberally. A small plot of these plants, if well cared for, will supply an average family with fresh fruit for two or three months, during a time when such fruit is hard to secure.

ROOSEVELT URGES ALL NEWS-PAPERS TO PRINT TEXT LEAGUE COVENANT

HYDE PARK, N. Y., Oct. 25.—Franklin D. Roosevelt, issued a statement at his home here tonight appealing to all newspapers of the state to publish without "partisan interpretation" the full covenant or the league of nations in order to make the "solemn referendum of November 2, a fair proposition."

"After several days in the state of New York," he said, "I have realized that many thousands of voters who wish to read the covenant or the league of nations for themselves have been unable to secure copies or to find it printed in the newspapers," the statement said.

Several addresses have been scheduled for him in New York City tomorrow. He will spend Tuesday campaigning in Brooklyn and then will go to Maryland for a day. Thursday will be spent in New Jersey and the rest of the week in West Chester county and possibly in Connecticut.

ANOTHER HUNGER STRIKER IS DEAD

(By The Associated Press)
 CORK, Oct. 26.—Joseph Murphy, of the hunger strikers in Cork jail, died last night.

The death of Murphy occurred at 8:35 p. m. He was twenty-five years old, unmarried.
 Murphy was a member of the Irish volunteers and was well known as an athlete.

PROHIBITION PARTY FILES EXPENSE ACCOUNT

(By The Associated Press)
 WASHINGTON, Oct. 26.—Reports of the National Committee of the Prohibition party filed with the clerk of the House of Representatives showed expenditures of \$13,000 in the presidential campaign. Treasurer Wheeler reported it was filed under protest as activities of educational and charitable rather than political.

Follow the true course of your life, but keep your eyes open for all beautiful sights, and the ears responsive to all harmonious sound, as you go steadily forward.

A Day's Meals.

When it is not possible to have fresh fruit for the morning meal, or when a variety is liked, a dish of well stewed prunes with very little sugar is a most wholesome fruit. They can always be kept on hand at any season, and are a storehouse of medicinal as well as food value. In buying prunes it is never economy to take the small ones as they are usually all pit. Examine the stones or pits and buy the kind that has the least waste; you will pay a higher price, but they are worth it. Wash them well in warm water and then soak them over night. Simmer until tender in the same water in which they were soaked. They will require little sugar, for which, these days "we are very thankful."

Whole wheat right from the granary is especially good for growing children. When well cooked, and served with top-milk it is the ideal breakfast food for the whole family. It will need to be soaked over night then cooked all day at a low temperature to soften the grain.

When a small supper dish, something hot is desired, try Escalloped Celery.

Cook the outer stalks cut in small pieces until tender, drain and add to a rich white sauce. Bake until thoroughly heated and serve from the baking dish. Another which is very good is Cheese and Crumbs.

Take two cupfuls of soft bread crumbs, a cupful or less of grated cheese, one and one-half cupfuls of milk, one egg and salt and pepper to taste. Soak the bread five minutes in the milk, add the other ingredients and bake. Serve hot.

Filled Cookies.

Take one-third of a cupful of butter substitute, one cupful of sugar, two teaspoonfuls of cream of tartar and one of soda, half a cupful of milk and three cupfuls of flour. Salt and flavoring to taste. Roll out and place a filling (cooked) of half a cupful of sugar, a tablespoonful of flour, one cupful of chopped raisins and half cupful of water with the rind and juice of half a lemon. Cover with another cookie and when all are covered bake in a hot oven.

FOR HEADACHE, LIVER TROUBLE

Black-Draught Is The Best Medicine This Lady Ever Used. Says It Is Only Medicine She Gives Her Children.

OTHER day one frien I gotta ask me eef I like play da pool game. I never been dat game before and I dunno wer moocha bout. I no like da baseball and I tella my frien eef pes anyting lika dat one I no wanta go.

My frien say was greata sport so we go one place where was whole lot greata beega table and some leetle balls. My frien geeve me longa stick and tella me breaka da balls. I aska heem wot for he wanta me breaka da balls? Mebbe he try getta me starta rougha house, I dunno. I feegeure eef I breaka dat balls I gotta plents trouble.

But he say I gotta wronga idee. He say alla gotta do for play dat game ees shoot. And he tella me shoota sp harda I can. I no gotta gun for shoota weeth and I no wanta shoot anyway. My frien explaina weeth me dat eef I shoot I can putta some dat leetle balls een da pocket. Dat balls no belonga weeth me so wotell I wanta putta een da pocket for? I tella heem I never steala smatning alla my life.

One time my frien pusha ball weeth da beega longa stick. He say he putta too moocha Engleesh on da ball and da shot ees no good. I tella heem eef he putta leetle Uniteda States on insteada da Engleesh mebbe he gotta more luck.

But I no gotta moocha use for dat game. Ees too tough-rougha house for suita me. Firsta ting gotta d ees breaka somatng den shoota somatng and den putta somatng een da pocket wot no belonga weeth you. I tink pool ees gooda game for da crook or da Bullsbevek.

Wot you tink?

Cherry Village, Ark.—In telling of her experience with Theford's Black-Draught, Mrs. Lottie Ellis, R. F. D. No. 1, this place, said: "I used Black-Draught as a laxative, also for headache, torpid liver and indigestion. It is the best liver medicine I have ever used and is the only medicine I give my children."

"I feel like it has saved me a lot in doctors' bills, for when the children complain of feeling bad or have a cold, I just give them a good dose of Black-Draught and they soon get all right. It certainly cleans the liver and clears up the skin and they are soon out well again. I wouldn't be without it for anything."

Seventy years of successful use has made Theford's Black-Draught a standard, household remedy. Every member of every family, needs it, times the benefit that Black-Draught gives in helping to cleanse the system and to prevent or relieve the troubles that come from constipation, indigestion, and a lazy liver.

To keep well, your stomach, liver and bowels must be in good working order. To help keep them that way, take occasional doses of Theford's Black-Draught. Thousands of homes are never without it.

For sale by all druggists. The genuine has the name, Theford's, on the label. Insist on getting what you ask for.

WHISKEY SMUGGLERS GETTING BRAZEN AROUND SPOKANE

(By The Associated Press)
 SPOKANE, Oct. 26.—Armed guards were sent to East Port, Idaho, as a result of attacks upon trainmen by alleged whiskey smugglers who are reported as saying "the world shoot their way through," if denied access to freight cars to transport liquor from Canada.

Halloween is the next big festivity.

And then Thanksgiving and the turkey, maybe.

Greetings to the new Chamber of Commerce. Long may she wave.

But we also drop a tear for the old Board of Trade. We had some happy hours together and many good things were accomplished in that time.

There is nothing in a name, however. It is the men behind the gun that count—the well, the stuff that makes things grow—you know what we mean—and if the right men will stand behind the Chamber of Commerce and our fine little secretary we will do things in this smiling valley of the St. Johns.

The people are coming, heigho, heigho, and we should be getting ready for them, believe us. There are more people coming into Florida this year than ever before. The high price of coal, the cold weather, the uncertainty of getting to Europe on tours, the Republican party and many other calamities are driving them this way. Hold out the glad hand to them they will come here and be one of us.

With the death of McSweeney and King Alexander we pine for something to fill up the front page. These boys want and played out on us too soon just when we were counting on filling up at least a half a column every day with their family history, previous condition of servitude and other matters of interest all culled out for our careful readers. And then Frank Miller gets counted out of the commissioner's race and the election will soon be over and what chance have we in the newspaper business?

BOTH SIDES OF ELECTION DAY

"Good citizenship means team work and it is an all-the-year-round job, not merely a campaign stunt. It is not enough to let our candidates know that we are checking up both sides of election day; we must back up both sides of election day as well. Watch the legislature, the congress, the bench and the executive chair to hold up their hands as well as to uncover their records. Good government is a co-operative affair. The vigil doesn't end for the citizen with the counting of the ballots any more than for the candidates. The tone and quality of the citizenry mark the measure of the government's achievement. Official heads can not be much better than the rank and file; they dare not be much worse. Freedom is a growing thing which is forever being won anew, with each new fight, with each new law, with each new institution. The citizen—every citizen—has a stewardship as well as does the public official. The welfare of our country checks our account. Together with it we are on trial, and perhaps, in this hour, we women most of all. For ours is the new consecration, the long and special preparation."—Mary Stewart in November Good Housekeeping.

FLORIDA AND THE PAPER INDUSTRY

The world war and the profiteers have been responsible for many things but it looks as if Florida was to be the gainer in many ways.

As the result of high prices and scarcity of materials the eyes of the world have been turned to Florida, seeking materials to supply a demand for products that are unavailable elsewhere.

Sugar was one of these products and now we are well on the way to a big sugar industry which will bring a hundred million dollars to the state annually in the near future. For this purpose hundreds of thousands of acres of lands that were unused are now being placed under cultivation.

Next in importance is the development of a great paper industry in Florida. With a world shortage of material for paper pulp staring the paper manufacturers in the face the final proof that saw grass is better than wood many times over as a fibre for paper manufacture, must have come as a godsend. With millions of acres of saw grass on mostly inundated lands that will not be drained or placed in cultivation, for many years, the supply is almost unlimited, as from two to four crops a year can be cut from these limitless acres of saw grass.

Experiments have been carried on for years but it has only been since the world war and as a result of the known scarcity of wood pulp and the extremely high prices of paper that a concentrated effort has been made to manufacture paper from the vast fields of saw grass in Florida. But it has actually been done. By crude methods the Grass Fibre Pulp and Paper Corporation, which is capitalized at one million dollars, produced sufficient pulp at its temporary mill on the Withlacoochee river to make a run of splendid paper reaching over 40,000 feet in one of the large paper mills of the country at Hoochie Falls, New York. This was done in the presence of a number of large paper manufacturers and users and much to the surprise of the manufacturers, who had predicted that it would probably take two weeks to get this run of pulp in shape to make complete paper, the first complete run was made within eighteen hours of the time when the pulp was placed in the vats and the quality of the paper produced was pronounced very superior in quality and toughness.

The company has disposed of about a hundred thousand dollars' worth of its stock, much of it being taken by large publishing houses, and the first pulp mill is being installed at Leesburg, where about 45,000 acres of saw grass on Lake Griffin and Lake Harris and along the Ocklawaha river are under lease to the company for a long term. This acreage alone would supply sufficient material for twenty pulp mills the size of the first one, which will have a capacity of from 25 to 35 tons a day of pulp, which will produce an equal amount of finished paper, approximately, and the company has the right from the Internal Improvement Board to cut from all state lands the saw grass growing thereon and this means millions of acres and an unlimited supply for an indefinite period.

The company will proceed with the erection and equipment of pulp mills, shipping the pulp to large paper mills for manufacture, until it is in a position to produce sufficient pulp to supply a large mill of its own when such a mill will be erected in Florida, probably in Jacksonville. This certainly sounds good to us and we feel like shouting our joy that another waste product in Florida has been discovered of such great use and will come to the rescue of the publishing business of the entire United States as we can grow enough saw grass to supply all the paper used in the country.—Times-Union.

IS HOMEMADE LIQUOR INCREASING INSANITY?

A recent bulletin of the state board of health dealt with the possibility of Florida's insanity rate being increased because of the making and drinking home brew and moonshine. It showed where considerable progress towards overcrowding Chattahoochee had already been made. And to those who are inclined to partake of the various concoctions which have recently sprung into prominence we wish to recite the sad experience of a fine Florida youth.

A young man who has relatives near Orlando, and who belongs to a South Florida family, prominent as a large cattle owner, with several relatives took a trip to Hot Springs this summer. While the young man was in town he ran across some "corn brew", he later got hold of some mountain "shine". In a short time he came down the street discarding one garment after another, he sat upon the porch of the hotel clothed only in those garments of nature gave him. The police were notified, and he was taken to the lockup, where it was found he was, to use a common expression, as plain nut. There was no semblance of violence about him. He apparently had lost his sense of reasoning and was a child brought into the world without his mental faculties.

His relatives at the hotel were notified and he was soon, on his way home, but upon reaching Jacksonville he was taken to Chattahoochee, where this otherwise physical fit young specimen of manhood may spend the rest of his natural life.

We have known of more than one case of temporary insanity caused from drinking "shine", and we ask: Is it worth the probable results?—Reporter Star.

Six Kinds of Safety

Have you every paused to consider the safety of the bank where you deposit your money?

The first consideration is the capital, which should be ample to meet the requirements of the community the bank is to serve.

The next question to consider is the officers in charge. They should be men of experience, high character and successful. Without men of ability no institution can succeed.

Then there is the question of confidence. The public should have confidence in the officers and in the bank.

These three principles determine the success of a bank. We adopted these principles in the outset of our career and we expect to live up to this high standard and increase our usefulness to the community as the years go by.

We Offer You:

1ST: LARGE CAPITAL AND WORKING RESERVE.

2ND: TRAINED MEN IN CHARGE—MEN OF SEVERAL YEARS EXPERIENCE.

3RD: THE CONFIDENCE OF THE PUBLIC, WHICH IS PROVEN BY THE DAILY ADDITION TO OUR LINE OF DEPOSITORS.

4TH: PROTECTION BY TWO EXAMINATIONS EACH YEAR BY THE STATE BANKING DEPARTMENT, TWO AUDITS EACH YEAR BY AN INDEPENDENT RECOGNIZED PUBLIC AUDIT COMPANY AND TWO SWORN STATEMENTS SUBMITTED TO THE STATE COMPTROLLER BY THE CASHIER, GIVING THE BANK'S CONDITION IN DETAIL, ALL OF WHICH INSURES REGULAR, SYSTEMATIC AND THOROUGH OPERATION OF THE BANK.

5TH: THE ADVICE OF A COMPETENT BOARD OF DIRECTORS, WHO MEET WITH THE OFFICERS REGULARLY EACH MONTH AND ADVISE THEM AS TO THE OPERATION OF THE BANK.

6TH: INSURANCE OF ALL DEPOSITS EVERY DAY OF THE YEAR. THIS IS A PROTECTION NOT COMMONLY FOUND IN BANKS AND IS AN ABSOLUTE PROTECTION FOR YOUR FUNDS, IN ADDITION TO ALL THE OTHER USUAL SAFEGUARDS.

THESE ARE REASONS WHY YOU SHOULD DO BUSINESS WITH US, AND WE BELIEVE THAT NO BANK CAN OFFER BETTER INDUCEMENTS.

KITE BALLOONS

With the ever developing production of helium and the continued experimentation upon rigid-type airships, the possibilities of the balloon service in the Navy are just being tapped.

Captive kite balloons have rendered very valuable service to our battle-ships and have proven of great value, during big-gun firing, in noting the accuracy of the shots. There is telephone communication at all times between the basket attached to the balloon and the various stations on the ship. Since the balloons have been co-operating with the ship's gunners, much better results have been obtained.

Captive, by the way, is too tame a word to describe this type of balloon, for, like the captive animal, it is continually squirming and straining at its leash and it takes a mighty good sailor to be comfortable and not "feed the fishes" when he is up in one.

DEMOCRATIC CONTRIBUTIONS BREAK ALL RECORDS

NEW YORK, Oct. 26.—A new record for campaign contributions received in a single day was announced by Democratic national headquarters here last night after Treasurer March had checked in \$74,000 in gifts in small denominations. The treasurer's announcement asserted that "never in the history of the Democratic campaigns had such a flood of contributions been received."

Buy your post cards at the Herald office. Beautiful views, 1c each.

BOLD THIEVES STEAL WHISKEY FROM DRUG HOUSE

(By The Associated Press.)
CHICAGO, Oct. 26.—Thieves with motor trucks broke open a wholesale drug house here today and stole a thousand dollars' worth of whiskey.

The DeFuniak Springs Herald has reported that the alleged finding of oil in west Florida was a hoax. A good quantity of lubricating oil was found on little creek, and oil leases were traded in wildly for a few days until it was discovered that the oil was piped to the creek.

SMALLER THAN MAN'S HAND ARE THESE ALLIGATORS

WOMAN'S FISTS ROUT BANDITS

Young Hold-Ups Pick Tartar When They Tackle Mrs. Bradway.
When two young men stopped Mrs. Lewis Bradway under the shadows of a tree at Radcliffe and Washington streets, Bristol, Pa., and tried to snatch her handbag, they picked a "tartar." Mrs. Bradway gave one of the fellows a right swing to the jaw that sent him reeling and running, and at almost the same moment kicked the feet from beneath her other assailant. He went sprawling to the pavement, and while he was down the woman administered several healthy kicks in the ribs. The young man finally scrambled out of the way of his viciously fighting "victim," and dashed away after his companion. Mrs. Bradway then notified the police.

HEN HATCHES ALLIGATOR

Insists on Sitting on Eggs Until She Sees First Result.

A hen owned by Dr. W. E. Willis of Corpus Christi, Tex., is suffering from something akin to nervous prostration, according to the physician. Doctor Willis found a nest filled with alligator eggs while on a hunting expedition recently. He brought six of the eggs home with him.

A sedate hen in the doctor's barn yard was determined to set, and although the sun would have hatched the alligator eggs Doctor Willis decided to humor the fowl and put the eggs under her. Biddy waited for only one egg to hatch, according to the doctor, and then left the nest on a dead run, cackling wildly.

Crap Game on Tracks Held Up Train Employees in a road gang of the Baltimore & Ohio railroad held up a passenger train by shooting crap on the main line train near Holloway, O. Engrossed in woeing "sevens and 'evens" from the dice, the workmen paid no heed to the approaching flyer and the engineer was compelled to stop and "shoo" them away before proceeding.

PLANS INSTRUMENT TO TALK TO DEAD

Edison at Work on Apparatus That Will Cause Sensation If Successful.

Thomas A. Edison is now at work on a delicate apparatus which he has designed to effect indisputable communication between those whom death has removed from this earth and those who yet live.

It is Mr. Edison's hope to complete the instrument within a few months, and he himself realizes what a tremendous sensation it would create should it prove to be successful.

Announcement of Mr. Edison's experiment is made by B. C. Forbes in an article in the American Magazine, in which he quotes the inventor at length respecting the apparatus. Mr. Edison, however, does not disclose anything of the character or physical aspect of his new device.

"I am proceeding," Mr. Edison says in the article, "on the theory that, in the very nature of things the degree of material or physical power possessed by those in the next life must be extremely slight, and that, therefore, any instrument designed to communicate with us must be super-delicate—as fine and responsive as human ingenuity can make it.

"For my part, I am inclined to believe that our personality hereafter will be able to affect matter. If this reasoning be correct, then, if we can evolve an instrument so delicate as to be affected or moved or manipulated—whichever term you want to use—by our personality as it survives in the next life, such an instrument, when made available, ought to record something."

Mr. Edison, commenting upon the mass of material being written these days about spiritualism, says it is "a lot of unscientific nonsense."

MISS KATHRYN WILKEY, Editor. Phone 423

SOCIAL CALENDAR FOR THE WEEK

Wednesday—
Literature and Music Department of Woman's Club.
Welfare Department, Woman's Club.
Thursday—
Duplicate Luncheon Club with Mrs. D. L. Thrasher.
Every Week Bridge with Miss Wilkey.
Evening: Hallowe'en Social, Catholic Rectory.
Friday—
T. N. T. with Mrs. Sherman Lloyd.
Saturday—
The Widow's Club with Mrs. Henry Purden.

Because of the death of Mrs. Doyle the Hallowe'en dance to have been given at the Woman's Club last evening was called off.

The Woman's Guild of the Episcopal church is making great preparations for the Bazaar to be held in the Parish House December the first and second.

Mr. and Mrs. Fenley Hodges, of Orlando, were the guests of Mr. and Mrs. Dan Hodges yesterday.

Mr. and Mrs. Robert Herndon, Mr. Ed. Higgins and Mr. C. F. Williams left Tuesday on a business trip to Palm Beach.

Mrs. C. M. Vorce returns today from a visit with Mrs. Francis Martin in DeLand.

Mr. O. P. Swope, of Oveido, was in Sanford yesterday.

Mr. and Mrs. George C. Chamberlain have returned to Sanford after a very pleasant summer in Daytona Beach.

Miss Norma Herndon is home from Stetson, called by the death of her grandmother.

Mr. and Mrs. F. W. Wilmott and assistants are here getting their store in the Bishop block ready for the opening on the 29th. See their advertisement in the Herald tomorrow.

Elton Moughton was here a few hours today calling on home folks. Elton is now living in Ocala where he is with a big contracting firm and is doing the architectural drawings for the firm. He is at present engaged on some big work in Lake county and ran over to see his old Sanford friends again.

Mrs. C. E. Barnes and little girl arrived today from Lakeland much to the joy of Charlie, who is the efficient make-up man on the Daily and Weekly Herald. Mr. and Mrs. Barnes will make Sanford their home and the Herald adds another family to the city.

We want every bit of local and society news that is going on and if you will phone it to the society editor, Miss Wilkey, or to the Herald office it will get in the paper and help us to make the Herald a real newspaper. Send it or phone it. We want it.

If you don't get your Daily Herald promptly by carrier boy phone 481 and Fred Rines will send you a copy at once and will also find out why you are not getting the paper. It is difficult to get every copy to your door but we aim to do that very thing and a prompt report of a failure to get the paper will be doing Mr. Rines a favor.

GIRLS' FRIENDLY SOCIETY

Good news for the larger and smaller girls of the city comes in the announcement of the forming here of a Chapter of the Girls' Friendly Society in Holy Cross Parish.

The Girls' Friendly Society is a National and International Society doing a work among the girls of the country, a similar work as the Brotherhood of Saint Andrew among lads and young men.

The Girls' Friendly is a society having the highest ideals, morally and religiously to develop all that is the very highest in womanhood. It believes in a normal life of soul and intellect and body. So, it also recognizes in the leading a Christian life that it is possible to be most happy and to have those recreations which in themselves are good.

Locally, the girls of the Girls' Friendly will share at appointed times in the advantages of the Bowling Alleys, the athletics suitable for girls in the Holy Cross Parish House

and all other of the many privileges of Holy Cross Parish.
Mrs. John Leonardi, who is especially adapted and trained in such work will be the directress with other most capable assistants.

All girls from 10 to 20 years of age, whether members of Holy Cross Parish or not, will be welcomed, provided that they have the consent of their parents to come.

The meeting for organization will be this Friday afternoon after school in the new room of the Parish house. All invited.

FRUIT AND VEGETABLES ARE MOVING NORTH

Perishable shipments continue to leave Plant City in increasing quantities. Four cars of grapefruit were shipped from here to New York Sunday. Two cars of grapefruit were shipped to Seattle Saturday, and a car of oranges left Plant City Friday for Cincinnati.

Shipments of perishable matter handled by the express company since the first of the month total 3,000 packages.

Outside of citrus fruit, cucumbers and squash have been the main products selling on the local market in the last few days. One hamper of Irish potatoes has been bought so far. Egg plants are still coming in in good quantities. Other vegetables being bought on the local market are pepper, okra and beans.

Shipments by the express company since October 20th total about 1,000 packages as opposed to 2,000 packages between October 1st and October 20th, showing an increase of 100 per cent since October 20th.

House Brothers sold a car of apples in Plant City Monday.

Prices quoted by local buyers: Beans, \$2.50; cucumbers, \$3.50 to \$3.75; egg plants, \$2 to \$2.25; grapefruit, \$2.50 to \$3; okra, \$3; oranges, \$3 to \$3.50; Irish potatoes, \$2 to \$2.50 and \$3.00; peppers, \$3 to \$3.50; squash, \$2 to \$3; tangerines, \$4 to \$4.50. No tomatoes have come in lately.—Plant City Courier.

DEPUTY LORD MAYOR SAYS THEY DO NOT SOLVE THE QUESTION

(By The Associated Press)
LONDON, Oct. 27.—Deputy Lord Mayor of Cork reported as saying, "The English government may think they have stifled us but there will be reprisals and soon."

LONDON, Oct. 27.—Deputy Lord Mayor O'Callaghan, of Cork, informed the Associated Press this afternoon that it was his personal view that the hunger strike as a weapon of protest would be abandoned after the present experiments involving the remaining Cork hunger strikers.

He declared, however, that the spirit of the Irishmen is no more broken than was that of Lord Mayor MacSwiney and the determination of Ireland for complete independence was never more earnest than now.

Sylvia Pankhurst, the militant suffragette, in a letter to Nikolai Lenin, the bolshevik premier, which is now in the hands of the government, is said to have made the interesting comment:

"I expect six months imprisonment. I have considered the hunger strike but I am afraid that weapon has been destroyed, since the government is letting the Irish hunger strikers die."

Miss Pankhurst was arrested last week charged with publishing seditious literature. She was admitted to bail pending trial.

Several years ago Miss Pankhurst was among the first of alleged offenders against British law and order who went on hunger strikes and thus obtained their release from prison.

MOLINE TRACTOR PULLS 10-IN. TREES AT HOWEY

Remarkable Work of Sturdy Little Tractor in Clearing Land of Stumps and Trees

The Moline Tractor is being put to one of the hardest tests a tractor could be subjected to, that of clearing land of trees and stumps. This tractor is pulling trees up to 10 inches in diameter on straight pull as fast as the cable can be hooked to them. It does the work quick and with apparent ease, though on some of the larger trees which have immense root systems the tractor will bury itself to the axles, and then pull itself out and fill the hole at the same time. This is one good feature about the tractor, as it leaves the ground fairly level, no matter how many times it digs in.

The Moline Tractor is being demonstrated under the personal supervision of Henry J. Earnest, of Chicago, who has had years of experi-

ence with all makes of tractors and says there is no light tractor that can compare with the Moline. Mr. Earnest is very much pleased with the tractor and will purchase several of them to clear 60,000 acres at Howe for which he has the contract. Mr. Earnest was paying \$32.00 per acre to have this land cleared by hand. He figures that with two Moline and one caterpillar tractor, the caterpillar to take out trees larger than 10 inches, he can clear the land ready to plow at about \$5.00 per acre.—Leesburg Commercial.

VERY CHIC IN SERGE.
Alluring and graceful is this one-piece costume for semi-formal wear. It is carried out in dark brown serge of fine quality. The waist has the fronts extended at each side, the extensions falling to the bottom of the skirt, where they are tucked under. This odd arrangement is further emphasized with a dainty border of embroidery and the trimming is repeated on the sleeves and round neck. Medium size requires 3 1/2 yards 48-inch serge.
Pictorial Review Dress No. 9061. Sizes, 34 to 46 inches bust. Price, 35 cents. Embroidery No. 12468. Transfer, blue or yellow, 35 cents.

WEATHER REPORT

For Florida: Thunder showers this afternoon or tonight, cooler tonight north portion, Thursday fair and somewhat cooler.

Mr. and Mrs. J. M. Wallace have returned after visiting friends in Tampa for several days.

Miss Gra-Howard has accepted the position of stenographer in the office of D. C. Marlowe.

The county commissioners are in the city today on special meeting work connected with the election.

You may buy me for a plaything I know now you are an enemy of Love! See "Everywoman" at the Star Friday and Saturday.

Mr. and Mrs. Pagenhart left today for Jacksonville in their car. Mrs. Pagenhart will consult an eye specialist as she is having serious trouble with her eyes lately.

Many of the Sanford girls and boys attending the different state institutions, will be home on Armistice day to help celebrate.

J. L. Miller was taken to the Fernald hospital today for an operation for hernia and will be confined to that institution for several weeks. His many friends hope for his speedy recovery.

Within the magic of a maiden's mirror I make my home. My name is Flattery. See "Everywoman" at the Star Friday and Saturday.

Dr. Hyman, of the Baptist church, is busy making arrangements for a number of good attractions that he will have here this season. When Dr. Hyman has an attraction it is bound to be good.

Hon. Forest Lake has returned from Tampa where he was called for a special meeting of the State Road Department and at which meeting he was elected chairman of the State Road Department.

As your friend and neighbor, let me advise you—seek not love boldly, for true love comes unsought. See "Everywoman" at the Star Theatre Friday and Saturday.

Charles Bernard, advance man for the Sparks circus, was in the city today looking after the locations of the circus and bill posting privileges and other arrangements for the big show that will be here in November.

Every woman longs for true love, but where it may abide is known to Nobody. See "Everywoman" at the Star Theatre Friday and Saturday.

You may trust the wisdom of Youth—Passion is the King Love whom you seek. See "Everywoman" at the Star Theatre Friday and Saturday.

Mr. and Mrs. Winch, of Pennsylvania, are in the city for a few days the guests of Mr. and Mrs. J. A. Harold. They were here last year and expect to locate in Kissimmee.

Mr. and Mrs. E. M. Hunt expect to return to Sanford on the first of November and will make this city

their future home. Mrs. Hunt will be remembered as Miss Muriel Harold.

I have heard of the Love of Gambling. Perhaps you will find the way to your King in the Temple of Chance. See Everywoman at the Star Theatre Friday and Saturday.

CIRCUS IS COMING

Good news for the little boys and girls and many of the older ones. The Sparks Circus is coming and will be here about the 22nd of November. The first advance man, Chas. Bernard, was in the city today looking over the situation and the second advance man will be here in a few days to give us the exact dates and do some posting of bills and advertising. A circus now and then is fine for all of us and a circus like Sparks that is positively clean in every respect is good news to everyone.

BARGAIN WINDOW

In this issue of the Herald is the advertisement of Henry McLaulin, who calls attention to the fact that he is putting on a big Bargain Window every Saturday. Here you will find all kinds of bargains in jewelry, China ware, novelties, etc. Watch this paper for announcements each week and watch the window for the display. It will pay you.

GOLD SEAL FOR VALDEZ

Mr. O. G. Husband, state hotel inspector, of Tallahassee, was in our midst the other day inspecting the local hostleries and yesterday Manager C. H. Campbell was greatly pleased to receive from the Hotel Commission the Gold Seal inspection report which is now posted in the front office of the Valdez Hotel, which is required by law.

The traveling men were all giving it the once over last evening and complimented Manager Campbell on his untiring efforts to have his hotel rated with the very best.

AT THE VALDEZ

Registrations, Tuesday, October 26th, at the Valdez were: B. U. Young, Pittsburg; C. N. Harlow and wife, New York; M. Dreeben, New York; Morris Halizer, Tampa; C. L. Dobarganer, Jacksonville; M. A. Kelly, Jacksonville; M. N. MacDonald, Rochester, N. Y.; W. H. Righton, Savannah; Lew Mervis, New York; A. H. Lewis, Tampa; Miss M. McNally, New York; H. T. Wellock and wife, Cleveland, Ohio; Mr. and Mrs. Winger Surrency, Jacksonville; A. B. Bennett, Jacksonville; W. C. Wilson, Jacksonville; J. R. Morrisett, Philadelphia; F. T. Hornbeck, Jacksonville; D. G. Hartman and wife, St. Petersburg; F. L. Reed, Jacksonville; F. O. Rouse, Jacksonville; J. M. Ogilvie, Gainesville; J. H. Saxon, Gainesville; Harry Aretsky, Tampa; F. M. Lanier, Tampa; E. M. Eiseman, Jacksonville; P. L. Feuchel, Savannah; T. C. Brown, Tampa; T. W. Lyon, Jacksonville; W. A. Ames, Leesburg; R. P. Seaton, Philadelphia; Saul Koven, Charleston, S. C.; Wm. Livingston, New York; T. C. Ruffner, Jacksonville; I. L. Taylor, Jacksonville; R. G. Schinsock, Jacksonville; E. C. Harnage, Tampa; G. E. Drenner, Philadelphia; B. E. Ballerd, Tampa; Richard S. Coltrin, New York; C. J. Barnes, A. C. L.; T. C. Parker, Jacksonville.

NOTICE TO ALL NAVY MEN

There will be an important meeting Wednesday night at the Court House at 7:30 p. m. of all navy men for the purpose of planning for Armistice Day. Every man is expected to be there ON TIME. You will miss something if you are absent.

FAMOUS ENGLISH STAGE PLAY MAKES DELIGHTFUL FILM

Sir Arthur Wing Pinero's "Sweet Lavender," one of the English dramatist's most appealing plays will be at the Star Theatre today (Wednesday). It is a Mary Miles Minter starring production for Realart.

Realart has done a very splendid thing in preserving practically intact the full, wholesome savour of the original play. Some slight changes were necessary to adapt the English story to American audiences but they are of a nature that add rather than detract. A delightful comedy is the result.

Miss Minter shows that she combines real ability with her beauty in the character of Lavender. The story concerns a girl whose happiness is menaced by her own father who, ignorant of her identity, refuses to allow her engagement to his stepson.

The famous character role of Pheryl is well interpreted by no less a personage than Theodore Roberts. Mr. Roberts gets the last ounce of "meat" from this very lovable part. Sylvia Ashton is excellent as usual in the role of a rich vulgarian, Harold Goodwin makes an attractively youthful college lover. In the role of Horace Weatherburn, the father, Milton Sills upholds his reputation as one of the best and most versatile players in filmdom.

The smooth and faultless flow of the story makes the direction of Paul Powell particularly deserving of mention. He shows in the production the same careful technique exhibited in "Pollyanna" and a score of famous films. Beulah Marie Dix prepared an excellent scenario from the Pinero play.

"EVERYWOMAN," MADE INTO GREAT MOTION PICTURE, IS COMING

Big Allegorical Play Has Been Filmed on an Elaborate Scale

The famous morality play, "Everywoman," has been made into a motion picture and will be shown at the Star Theatre Friday and Saturday, matinee and night. The story is declared to have been filmed on an extremely lavish scale and to abound in beautiful settings, lovely women attired in handsome gowns, and spectacular effects. Against this extravagant background Walter Browne's celebrated allegory of life and its temptations is acted by an extraordinary cast of players. The role of Everywoman is played by Violet Heming, a beautiful actress well known on the stage and the screen and Monte Blue has the part of Love, Wanda Hawley is Beauty, and Theodore Roberts is Wealth. Others in the company include Margaret Loomis, Mildred Reardon, Bebe Daniels, Irving Cummings, Raymond Hatton, Noah Beery, Charles Ogle and Tully Marshall. The picture was directed by George H. Melford and is released as a Paramount-Arcraft photoplay.

ATTENTION TAX PAYERS!

The City Tax Roll for 1920 is now complete and the books will be open for payment of Taxes November 1st at the City Office. All taxes paid in November will be subject to a discount of 2 per cent. All paid in December to a discount of 1 per cent.

All who possibly can should take advantage of this discount. Save money for yourself and at the same time help public affairs by making funds available for urgent needs of the city.

DENUDE AFRICA OF WILD GAME

Destruction Rivals Extermination of Wild Life in West.

LION IS ONLY A MEMORY NOW

Panther Almost Extinct in French North Africa, and the Hyena Is Very Rare—No Ostriches Have Been Seen for Several Years—Vast Army of Hunters With Improved Firearms Make Game Laws a Joke by Heavy Slaughter.

According to Colonel Henry W. Shoemaker, a member of the New York Zoological society, the destruction of wild life in Africa, Italy and France is proceeding at a rate rivaling that which marked the extermination of our western wild animals, and unless remedial measures are taken the institution of hunting will soon be but a historical memory for the lack of game to keep it alive. Colonel Shoemaker recently made a trip through Morocco and Algeria, traveling also in Italy and France, for the purpose of studying forestry matters and devoted particular attention to the condition of hunting and game.

"Excellent game laws prevail," he says, "but the great number of hunters has made wild life as scarce in French North Africa as in the western states at home."

"Of the larger mammals the lion is gone, and even as a tradition is barely remembered. I visited the grave of Jules Gerard at Bouira, who to my surprise I found survived down to our time, dying in 1911, in his eighty-ninth year. The panther is extinct in all except two localities. Judging from the number of women wearing jackal furs, a terrible slaughter has been meted out to these animals. The hyena is very rare.

"The mouflon is gone from all sections of Algeria, but one, and is scarce in Morocco. Formerly at Bliska horns of the mouflon, addax, gazelle, etc., were on sale everywhere. This time I found only one very old pair of mouflon horns, a few very inferior gazelle horns, no addax, and no panther skins. From forty to fifty English sportsmen hunting each year for forty years (all observing the game laws) have wiped out the mouflon at El Kantara. At Bouge, where panther claws were sold as charms at five francs apiece, none is now to be had at any price; none being killed there.

"In the Sahara, Mahomet Szhr, a character famous at Bliska, says: 'The game is all gone. Occasionally one sees an old skin; that is all. No ostriches have been seen for several years.' The bubal hartebeest (Bubalis boselaphus) is gone, even as a memory. The Barbary partridge is almost gone. On our trip we actually saw three, and one squirrel, two foxes, two jackals and a tame young wild boar.

Game Laws Scraps of Paper.
"Game laws are mere scraps of paper in the face of an army of well-armed and indefatigable hunters. Unless hunters can content themselves with small kills there will be no game in the future, anywhere.

"When I was here in 1913, the leopard was considered in no danger of extinction. Now it is practically gone. The gazelle is far from plentiful. This winter English and American sportsmen have made big bags, and they will have it all gone by 1925. The wild boar will last the longest, as it haunts the deep, forest covers. The decrease in bird life is most noticeable. Many birds which we class as insectivorous, and try to protect, are subject to open seasons here. Apart from the loss to sport and agriculture by the destruction of these interesting forms of wild life, it is a sad fact that such of the picturesque charm of these countries is gone from them by their passing.

"Before leaving Algiers, Edouard Arnaud, the best known guide of American and English hunting parties for mouflon and gazelle, said: 'In the Sahara Desert, about Bliska and Tugurt, the gazelle will last probably three more seasons. It is very scarce now, and thirty to fifty parties of English and Americans go out after it each winter, to say nothing of local and native hunters, all of whom make big kills. The mouflon has been completely exterminated in the mountains of El Kantara. The gazelles have been all killed off since the war in the Little Sahara at Bou-Saida. In Morocco, since the French occupation, the gazelles are disappearing fast in the plains about Marrakesh. I know of only one place in Algeria where the mouflon and gazelle can be found in favorable numbers, and that is because it is too difficult for tourists to get in to them.

"In the Cevennes mountains wolves are still to be found, and wild boars are so numerous that one hunter near Anduze killed five in one month. Since the wolves have been destroyed over the greater part of France the boars have increased enormously, and now they can be killed at any time and in any way. In some sections there is a bounty of fifty francs for mature boars, and smaller premiums for younger ones.

Bird Life at Low Ebb.
"In Italy we found bird life at a low ebb, and an awful slaughter going on at all times. I spent some time with a taxidermist in Turin, watching boys who were coming in with beautiful in-

sectivorous birds, in their nesting season, to be mounted. The taxidermist said: 'Apart from birds, wild life still exists in the Italian Alps. The ibex is still protected as royal game, and though the heads are deteriorating owing to the easy life which these animals lead since their natural enemies, the wolves and lammergeiers, have been killed, they still exist in fair numbers. The chamois still is to be found, also a few deer; and wolves and bears are sometimes met with; also the wildcat. Game birds have been shot and trapped steadily, as have all other birds, and there seems to be no way to create a public sentiment to save them. In Sardinia the mouflon is fast disappearing, owing to the demands for its horns.'

"In France bird life is much in need of assistance, due to years of non-protection, though all French scientists are anxious to have something done. The only bird we saw in an extensive tour of the country was the pie, or magpie, and now there is talk of putting a bounty of five francs on it to get it out of the way. We saw a hawk kill a magpie in the open road near Arles, so they have their natural enemies also. The French sporting papers are deploring the absence of game and birds, and so are the leading agricultural journals. They advocate bounties to bring back the game, a thing which never happened since the world began. The vanished species must be restocked by man. Vanished dead birds never come back themselves.

"In Paris a few 'pigeon ramier' still are to be noted in the parks and gardens, but not one where there were ten before the war.

"In conclusion, I do not think that the war has changed the condition of wild life either forward or backward. A steady decrease of everything has been and is going on, due to the vast army of hunters with improved firearms, who make game laws a joke by the immense volume of their lawful slaughter. Nature's balance has been upset everywhere by the destruction of predatory animals and birds, hence bounties are placed on the animals or birds which these creatures formerly preyed on. This means the wiping out of species formerly overlooked by the hunter.

"For example, in Algeria (in the Kabylie country,) since the forest rangers have well-nigh exterminated the leopards, wild boars have greatly increased, and now they can be killed at all seasons. One native has killed sixty boars this winter, hunting them with dogs; and such slaughter soon will wipe them out."

MONGREL SAVES SIX

Dog Awakens Family When House Catches Fire.

Nellie, a mongrel dog, saved the lives of six persons in a fire and then burned to death. The dog awakened Mr. and Mrs. Isaac Koval and their four children by frantic barking when their house in Philadelphia was in flames.

A fire of unknown origin started in the first floor of the store shortly after two o'clock. Nellie gave the alarm and succeeded in arousing the family. Then the dog ran down the stairway through the blaze. Losing track of the family, she dashed through the fire once more.

Meanwhile the Koval family had been rescued from their perilous position.

Firemen battled their way to a bedroom, where they discovered Nellie dead, she having succumbed to flames and smoke.

The next step to be taken by Tampa in the change from the aldermanic to the commission-manager form of city government is the election of five commissioners. A white municipal primary to select these five men will be held on Nov. 15.

NEWLYWEDS BEAT WAY

Short of Funds, They Take to Road to Get Home.

Attired in a man's shirt and overalls, Mrs. Martha Rendulch, sixteen, of Kansas City, Kan., was picked up by police in the railroad yards near Gibson, Neb. Mrs. Rendulch was accompanied by her husband, Anthony, twenty-two, who told the officers that he and his wife were "beating their way" to their home at Kansas City, because they were short of funds. He said that he had married the girl four months ago and had been employed since at a ranch at Alliance, Neb. Unable to save any money because it had taken all he could make on the ranch to support his wife, who lived in town, the two had decided to return to Kansas City.

Nursery in a Silk Plant.

The Stehl Silk company of Lancaster, Pa., has established a nursery in its plant where a score of children, some mere tots, are cared for while their mothers earn their daily wage at the looms in the huge plant. The nursery is in charge of a woman skilled in the care of children. The youngsters are permitted to play during the morning, and in the afternoon are bathed and put to bed. After waking they are dressed in fresh clothing.

Take Cow on Auto Trailer.

Carrying a cow on a trailer on an automobile trip may seem strange to many, but a Utah family now touring Nevada will attest to the fact that a bossy is mighty good company. The travelers are making a real event of their tour. The cow is unloaded at the various camping grounds, turned out to grass and then milked.

Puppies Born in Plane in Air.

The first aerial birth in history is now a matter of record. "Follette," the pet dog of Henri Roget, the French air minister, gave birth to nine puppies while she was flying in her master's plane 12,000 feet above Rome. The puppies are getting along nicely.

If an individual is less effective working alone than when working with his fellows, is not sound reasoning that a single organization is less effective working alone than it would be working with its fellow organizations? There is growing tendency for farm organizations of all kinds to pull together for the betterment of the farmers.

Whether a man is handling farm machinery or livestock he will accomplish more if he understands how to take proper care of his property. This is true of machinery, from the wagon to the tractor, as it is to the hogs and horses on the farm. Too many farmers have allowed themselves to depend upon good luck and the veterinarian when their livestock have become sick or injured.

A new fast train is to start late in November between Jacksonville, Tampa, St. Petersburg, and Sarasota, in addition to the regular Seaboard tourist trains.

God has not promised us a gay and happy life always with out a shadow of pain.

The assessed valuation of Palm Beach county is now put at \$9,000,000.

"Ouija! What's the good word?"

MY YOUNG sister,
HAS A Ouija board.
AND SHE believes it.
AND TALKS to Noah.
AND I think she talks.
TO HER best fellow.
WHO'S DEAD but doesn't know it.
AND I used to give her.
THE LOUD, rude laugh.
BUT I'm sorry now.
BECAUSE LAST night,
I WAS home alone.
SO I got the board.
AND PUT in a call.
FOR JOHN Barleycorn.
AND OTHER departed spirits,
BUT THE line was busy.
FOR NOTHING happened.
THEN I cheated a little.
AND IT spelled this.
"GRAMMASHOTTA SEVEN."
SO I shut off quick.
TO HEAD off any.
FURTHER FAMILY scandal.
THEN I stopped to smoke,
A CIGARETTE.
AND AFTER a while.
I CRANKED up weejie,
AND ALL of a sudden,
IT STARTED off.
AND QUICK as a flash.
IT SAID something.
"THEY SATISFY."

"SATISFY!"—that's the good word. Just light up a Chesterfield and see what experts can do with fine Turkish and Domestic tobaccos when they blend them in that can't-be-copied Chesterfield way. You'll say "they satisfy."

In packages of 20 protected by special moisture-proof wrapper. Also in round AIR-TIGHT tins of 50.

They Satisfy Chesterfield CIGARETTES

Lightly Blended Tobacco

PROFITEERING IN TURKISH CAPITAL

Greeks and Armenians Enjoy Great Commercial Prosperity.

MIXED RACES ARE EXPLOITED

Every Nationality Has to Have its Own Churches, its Own Schools, Orphanages and Hospitals—Even the Small Children of Various Nationalities Cannot Be Put Together Without Serious Friction—Hotel Rates High.

Foreigners, or so-called foreigners, are enjoying great commercial prosperity in Turkish cities, especially in Constantinople. Turkish officials have been easily corrupted. Business men who were not too scrupulous in their methods have found Turkey a profitable field.

In spite of all the propaganda which has been circulated about the appropriation of Christian property by Mohammedans, the stubborn fact remains that Greeks and Armenians own a disproportionate part of the best business property on the prominent streets in Constantinople, and many of them have been more successful at war profiteering than Turks.

Hotel Rates High.
The leading hotel of Constantinople is owned by a Greek, who made a great fortune selling supplies to the German army. He has invested his money in hotels in various parts of Europe. The Constantinople hotel cost him \$200,000 a year ago. In a single year the hotel has paid for itself. He charges \$3 a day for a small single room without bath and the cost of meals is in proportion. The only other hotel run on European lines is owned by an Armenian, and his prices are equally high.

Turkish officials are not permitted to regulate prices. The Germans did it when they were in control of Constantinople, but the entente high commissions make little attempt to check profiteering, because such efforts only intensify the friction which exists between the various missions.

Constantinople is really a group of religious principalities, which are more political than religious, and acknowledge the authority of no government.

The Greeks are under their patriarch, the various religious faiths of the Armenians have their patriarchs, and the Jews have a grand rabbi.

All these races hate each other nearly as much, apparently, as they do the Turks. Westerners are unable to comprehend the hatred in which the rival nationalities of the Levant have stewed for centuries. Entente high commissioners now have some appreciation of the task Turkish officials had to try to administer such mixed populations.

Every nationality has to have its own churches, its own schools, orphanages and hospitals. Even small children of different nationalities cannot be put together without serious friction.

American relief workers who have been trying to assist refugees of all races, regardless of religion, find the task almost impossible. Armenians complain if Turks are fed. Greeks allege favoritism to Armenians and the relief committees of the various races and religious heads take up the walls of individuals and waste time of relief administrators in considering petty quarrels.

Pin Faith on Children.
Broadly speaking, foreign relief workers have little to say for the adults of any race in Turkey, but pin their faith to the children and urge child welfare work and education as the most hopeful fields in this land of hate. Foreign relief workers who came to Turkey expecting to find Greek Christian minorities had a rude awakening.

The Greek and Armenian bandits and outlaws are just as wild as the Mohammedan bands. Relief workers have learned that "Christian" means a man who is not a Moslem. It is a political term, and does not necessarily imply that the man so designated practices the Ten Commandments.

Hotel men in Miami state that they are looking forward to a wonderfully successful season, especially for the larger hotels. They look for the smaller houses to suffer, because many of moderate means will be deterred from traveling, owing to increased railroad rates.

U. S. BABY CROP IS BEST IN HISTORY

Infant Mortality Rate Declines to 87 to 1,000, Vital Statistics Show.

America's baby crop in 1919 was a new record, says the American Child Hygiene association.

An annual preliminary report on vital statistics by that organization, covering data from 260 cities with an aggregate population of 31,000,000, shows the infant mortality rate declined to the "encouraging figure of 87 deaths per 1,000 babies," a saving of nearly 12,000 babies over the 1918 rate and 7,000 fewer deaths than in 1917.

In the cities covered by the report, 630,000 births were recorded, while in the entire country it is estimated there are 2,500,000 newcomers annually. All of the cities included have populations of 10,000 or more.

Babies seemed to thrive well in some of the larger cities, where formerly the death rate was very high. Among the 24 cities of more than 250,000 population reported, ten were below the average for the 260 and the death rate for the group was 85, two points below the general average.

"Ten years ago," the report said, "it was the aim of many a department of health to see this rate fall below the 100 mark. In 1910, only four of the twenty-four larger cities were above it."

One of these was Pittsburgh, the "Smoky City," where the rate was 115. Buffalo with 107, Kansas City, Mo., with 103, and Jersey City, N. J., with 102 were the others.

Houston, Tex., was the best baby-raising ground among the cities of more than 100,000 and less than 250,000, with a mark of 61. Berkeley, Cal., had a baby mortality rate of 44, while Brookline, Mass., with a population of less than 50,000, led all the rest with the healthy percentage of 40.

New York city registered 82. St. Louis scored 75, Los Angeles and San Francisco registered 67 and 65, respectively, Minneapolis 61 and Seattle 54.

El Paso, Tex., had the worst showing with 245. Burlington, Vt., was next with 150. El Paso, however, is not in a birth registration area, according to the report.

BIG IRRIGATION PLANS

Pacification of Yaqui Indians Solves Big Problem.

Recent pacification of the warlike Yaqui Indians of the Mexican state of Sonora has allowed the state authorities to turn from one of their worst problems to new tasks of developing irrigation projects and providing homes and crops. Gov. Flavio A. Berquez of Sonora recently told the Associated Press:

"Pacifying the Yaqui Indians solves the greatest problem Sonora has had to meet," he said. "These Indians have been a thorn in the side of the Sonora and the Mexican governments for 85 years."

"Yaqui chiefs recently conferred with me here and assured me that the Indians are completely pacified and ready to settle down and grow crops on reservation lands we have provided for them. The government has set aside between 20,000 and 30,000 acres of the finest land in the famous Yaqui valley for their use as a reservation. Many of the ancient irrigation ditches have been rebuilt by the government so the Indian can have water. New ditches have been opened and more will be built with federal and state funds.

"Irrigation is the basis of Sonora's welfare. Water only is needed to reclaim vast areas of Sonora land which is as rich as the Nile bottoms and as good and even better than the famous Imperial valley.

"Schools are as vital to the welfare of Sonora as water and we are making extensive plans for school extension. Included in our new budget is \$2,500,000 for schools."

MORE "DOPE" ON BIG DOINGS ARMISTICE DAY

The commandant of Carlstrom Field has wired the local committee in charge of arrangements for the day, saying that one of the big planes now stationed at Arcadia, will fly over Sanford and cut some stunts for the benefit of spectators, during the parade. The committee is very well pleased with the co-operation which they are receiving from every source.

The Facts of the Telephone Situation in Florida

By J. EPPS BROWN, President.

SOUTHERN BELL TELEPHONE & TELEGRAPH CO.

Securing and Training Skilled Workers

All telephone employees are skilled workers.

They are taught, trained and given practical experience by the Company.

The Company maintains schools to teach and train new employees, paying them while in the schools.

Telephone service can not be furnished without this training and experience.

Prior to the war the Company had a sufficient number of skilled workers.

Approximately two thousand of our employees, most of them highly trained technical expert workers, went into the army and associated war work.

Many others went into other enterprises.

Few returned to our service. Most of them found employment in unregulated private businesses whose profits are not restricted.

The Company lost their services when most needed, and the time and money spent in making them skilled workers.

When the property was returned to the Company on August 1, 1919, after one year of government possession and operation:

Forces were depleted in numbers;
The morale was upset; and
There was general mental unrest.

Immediate steps were taken to cure these vital defects.

Training schools were enlarged and additional schools established.

An organized, intensive canvass was made throughout this, and other states, for additional workers.

This cost money, time and effort.

It was a necessary undertaking, which has become a permanent part of our organization.

A larger number of workers are employed today than ever before. Applications for work approximate normal times. The schools are full, but time is required for training and experience.

We maintained an adequate and efficient force in the past; we shall do so in the future.

The morale of an organization is even more important than its number. Efficient service requires a high morale among those who furnish it.

Many of our employees have spent their lives in the service of the Company. They neither knew, nor thought, of any other work.

None of them wanted a government job.

When the government took possession of the property, they were bewildered and dismayed. None knew what the future held for them.

The morale of our forces was shot to pieces.

The return of the property to the owners has removed the cause of their alarm.

Today, our morale is higher, finer and upon a sounder basis than ever before. Our workers know themselves and each other better. They have a new and better appreciation of the work and their obligation to the public.

Like all others, the telephone workers are the victims of the high cost of living, and the profiteer.

No one can do good work when living costs equal, or exceed their income.

There was but one thing to do—the employees' wages had to be increased to meet the costs of living.

The interests of the public, and the interests of our workers, equally, required that this be done.

Between January, 1916, and January, 1920, the Company's monthly wage bill has increased from \$228,548.21 to \$554,742.98 an increase of 142 per cent.

Since January, 1920, the monthly wage bill has been further increased at the rate of \$597,132.00 per annum.

These wage increases were paid to the workers on the firing line, to those who actually furnish the service; less than one-third of one per cent of these wage increases going to the general officers of the Company.

The supply of labor is not sufficient for all. The Company must compete with other businesses, regulated and unregulated, for the services of men and women.

In addition to the wage increases already made, still further increases must be made by the Company this year. That for Florida alone being at an annual rate of \$60,394.00.

All wages must be paid out of the earnings of the Company. Wages are not paid out of the capital of a company.

The gross earnings of the Company must be sufficient to protect the employees, and to insure service to the public.

The next advertisement will tell of other increased costs of operation.

Fla.

50 HOMESEEEKERS PASS THROUGH JAX MONDAY

The first party of fifty "homeseekers" from the North destined for Moorehaven, Florida, will arrive in Jacksonville Monday at 8:30 a. m. on

the Dixie Flyer, with six hours to look over the city before resuming the trip, according to A. Rice King, Florida passenger agent of the N. C. and St. L. railroad.

The party is headed by R. C. Healy, president of the National Farm Es-

tate, a syndicate holding large tracts of reclaimed Everglades lands in the Moore Haven district, which is conducting parties of prospective buyers from the north.

On arriving at Moore Haven the party will be taken in automobiles

over the reclaimed districts that are now suitable to intensive garden farming. The party will return north after a stay of two weeks. These excursions will be continued every week throughout the tourist season.—Jacksonville Metrolite.
