

Daytona Cagers Again Defeat Sanford Quint

Paying a return visit to Sanford, the Daytona basketball team yesterday afternoon again defeated the Seminoles High School quint, this time by a score of 33 to 24.

Couch McLucas' boys put up a game struggle, but it was of no use, the Politis brothers were here again. It was the work of these brothers that figured largely in the football victory last fall over Daytona, over Sanford, and yesterday. The Politis especially, accounted for a lot of victory points in the basket.

Bill Fleming and Pete Brock did the scoring for the local cagers, between them snaring 13 of Sanford's 23 points.

HANDY MAN

BLACKSBURG, Va., Feb. 3.—John Masakas, an all-state football tackle at Virginia Polytechnic Institute, has his hands full. Masakas is Tech's heavyweight wrestler, and when the Gobblers comes on an opponent, Masakas is the team's heavyweight champion. He practices wrestling one day and switches to boxing the next.

Masakas hails from Monessen,

With Stomach Ulcer Pains?
Should Cleopatra Drink a Pearl?

An intriguing story of Cleopatra and the one where she drank a glass of wine and drank it again, when she suffered after-eating pains, who are distressed with stomach ulcers, gastritis, burning sensations, blost and other conditions, should be taken. The best medicine for your druggist. First must convince or return box to DODD'S, New York, N.Y.

DO NOT TAKE IT TO DISCUSS MEDICAL FACTS. Thousands of women and men take CARDIOL 4-way help, as tonic. It is purely propulsive, stimulates flow of digestive juices, thus aiding digestion and helping resistance. Starting days before the time, and as directed, it should help relieve much purely functional muscle pain. A 62-year record shows it may help.

German Forces In Russia Are Facing Black Sea Dunkirk

Sea-Borne Attempts Of Transports To Escape From Crimean Peninsula Fall

(By Associated Press) Axis troops by tens of thousands were apparently on the verge of being split apart by a Russian column driving toward the Sea of Azov. Red armies were already smashing at German transports as the invaders attempted a sea-borne escape from the Caucasus to the Crimea Peninsula.

Latest Soviet dispatches said upwards of 250,000 Axis troops were in danger of being split apart by a Russian column driving toward the Sea of Azov. Red armies were already smashing at German transports as the invaders attempted a sea-borne escape from the Caucasus to the Crimea Peninsula.

Other Soviet troops were officially reported to have captured Zelenodolsk, 22 miles north of Kursk, putting the Russians back on the line where Hitler launched the Spring offensive which ended in the staggering catastrophe.

An earlier triumphant special communique reporting the rupture of the Moscow-Kharkov artery also said of the capture of Kupiansk, key railway junction 82 miles southeast of Kharkov, and Krasnokovka, 48 miles below it on the main Caucasian railroad from Balaklava, in smashing victories on a 400-mile southern front.

A more potent threat to Rostov was made in the Wednesday communiqué, which reported that other Caucasian cities had been taken, 10 Soviet divisions had driven from the Donets railroad front to capture Krasnodar, 100 miles

from Rostov, and that the Moscow-Kharkov front had crossed Kursk and Orel. The Germans had swept eastward across the road in the first months of the war, had never been dislodged from it, and that area launched their 1942 campaign.

The last reported westernmost position of the Russians in that region was at Kursk, on the Kursk-Voronezh railway, 65 miles from the Donets front, which was captured Monday.

Other Soviet troops advanced 27 to 30 miles in a single day to encircle Kupiansk and Krasnokovka at the other approaches of Kharkov and Rostov.

With the occupation of Krasnokovka the Russians cut the last railway by which Axis forces estimated at 150,000 could retreat from the North Caucasus and intended the thrust to Rostov, gateway city on the Don toward which Soviet forces were driving from three directions.

**Stimson Says Lend
Lease Aid To Reds
Helped Out Nazis**

WA. BINGSTON, Feb. 4. (AP)—Secretary of Agriculture Wickard testified today before the House committee considering the extension of the lend-lease program and Secretary of War Stimson stated shipments of American aircraft and supplies to Russia with the aid of our allies in the Middle East were held back.

All this was evidence, Secretary Stimson maintained, of the policy of "a general withdrawal" by the Germans in the Caucasus.

Chairman DeWitt challenged the wisdom of the "skin-the-back" part of the aid to the author.

WA. BINGSTON—The administration tax on imports of aircraft and supplies to Russia was one of the "skin-the-back" parts of the aid to Russia.

WA. BINGSTON—The administration tax on imports of aircraft and supplies to Russia was one of the "skin-the-back" parts of the aid to Russia.

County School Trustee Board Meets Tuesday

Vocational Training Program Outlined By Mrs. Maxwell

An annual report, outlining the activities of the Sanford Vocational School, and of the training in business subjects, which has enabled many office workers, bookkeepers and stenographers to fill positions, was submitted Tuesday by Mrs. Maybell Maxwell, principal, at a meeting of the Sanford Board of School Trustees at Junior High School.

Bupt. T. W. Lawton told of the accomplishments during the past year by the Sanford School for War Production Workers, and extended to the board an invitation from Director Alex R. Johnson to visit the training school at French Avenue and Sixth Street, the Radio School, the Armory, and the new exhibit at the school on First Street.

Trustees were invited by Leonard L. McLucas, Seminole High School director of athletics, to see the basketball game with Daytona being held at the school gymnasium.

Present at the meeting were: John L. Galloway, chairman; S. O. Chase Jr., Mrs. C. W. Hutchison, Superintendent; Prof. G. E. McKey, Prof. Herman Morris, and Prof. Fred A. Arrington, and Prof. Fred Kipp, secretary.

Free Commodity Distribution To Be Stopped Soon

Announcing that school students will take parting from Mrs. Mildred Babcock will have an art exhibit and marionette show at the club house on April 7, Mrs. W. M. Scott, club chairman, expressed appreciation to Mrs. Babcock for exhibiting her landscapes and painting of flowers.

Mrs. J. W. Hall read a meditative poem she composed for the occasion. She dedicated it to me.

(Continued on Page Two)

Orlando, Feb. 4. (Special)

According to an announcement made by the State Welfare Board at its meeting in Jacksonville on Saturday, Jan. 10, 1943, the distribution of all commodities to individuals and families will be terminated on or before April 1, 1943 and greater emphasis will be placed on the free school lunch program.

This means that all individuals and families now receiving commodities will be discontinued on April 1. During the past few months there have been fewer requests for commodities coming to the attention of the local offices of the State Welfare Board.

It is not expected that many requests will be forthcoming between now and the termination date.

Mr. J. W. Hall read a meditative poem she composed for the occasion. She dedicated it to me.

(Continued on Page Two)

Workers Were Trained At A Local Defense Production School

Bringing back to Sanford a payroll estimated at over \$1,500 a week, 57 employees of the Babcock Airplane Company of the Land, commute daily to and from work there, according to Alex R. Tracy, director of the Sanford School of War Production Workers.

All who completed their training in aircraft wood working at the school

are now employed in aircraft factories.

This information, according to Tax Collector Jas. D. Jenkins, was given him recently by a State motor vehicle inspector, who requested that the public be informed of this ruling.

The inspector also requested that persons who have purchased their license plates, should be sure to see that the 48 minute plate is attached to the 48 plate, and that the sticker is pasted on the rear window of the car, Mr. Jenkins stated.

The 1942 license expired on Jan. 15, and there has been no extension of time on them since then, Mr. Jenkins added.

Nation-Wide Pleasure Driving Ban Is Near

WASHINGTON, Feb. 4. (AP)—Petroleum Administrator Harold Ickes said today that he favored the banning of pleasure driving throughout the Nation. He disagreed with the report that the supply outlook offered some hope for a relaxation of laws in the East by the end of March.

Chairman DeWitt challenged the wisdom of the "skin-the-back" part of the aid to the author.

WA. BINGSTON—The administration tax on imports of aircraft and supplies to Russia was one of the "skin-the-back" parts of the aid to Russia.

Connie Mack Is Optimistic About His Athletics

By HENRY LITTLEHALES
AP Features
PHILADELPHIA, Feb. 4.—Connie Mack, 80-year-old manager of the Philadelphia Athletics, remains an optimist despite the effects of war on his player talent, training facilities and spring training routine.

The venerable pilot of the A's admits frankly that he doesn't know how many players will return like the pennant-winning aggregations of 1929-30-31, but he thinks his club may be better than last year—when it finished in the cellar with only 55 victories and 90 defeats.

As for the travel angle—especially as it affects the click of the turnstiles—Connie predicts an increase in attendance at home games. The game ban, he says, will keep many Philadelphians at home. State park, where the major league all-star game will be staged July 13, is likely to attract by virtue of its beauty lines.

Although the Athletics will not return to Anaheim, Calif., for their spring training chores, they will go south for the first time in years—possibly to Wilmington, Del., just 27 miles south of city hall.

Connie sighs wistfully as he calls to mind the galaxy of talent which has left the A's to join the armed forces in the past two seasons. No less than 20 players have answered the call to colors. The list includes pitchers John Harris, Jack Keeler, Phil Marshall, Hank Johnson, Porter Vaughn, Joe Coleman, Dick Fewster and Cal McLean. Other players in service are Buddy Blair, Al Brancato, Sam Chapman, Eddie Collins, Jr., Orge Cooper, Harry Davis, Benny McCoy, Ray Poole, Don Richmond, Jack Wallace, Joe Gantenski and Jim Castiglia.

Other familiar faces missing from the roaster are infielders Bill Knickerbocker, Mike Koenig who was released in December, and outfielder Dee Miles, sent to Seattle in a trade for Joyce (JoJo) White, former Detroit outer gamemaster. Coach Al Simmons may keep his war plans quiet instead of returning this season.

Connie is rather definite at this time on his 1943 infield. The only holdovers are first baseman Dick Belter, who hit .360 last year, and shortstop Pete Suder, who had a .326 mark. Irvin Hall, rookie from Wilkes-Barre, is slated to take over at second base, while the best corner assignment will fall to Paddy Mayo, drafted from Los Angeles. The only infield replace-

Seminole Quint Is Again Matched To Play Daytona Team

YOU'RE HIRED

CAMP LEE, Va., Feb. 4.—(AP)—Private Paul Garner, one of the late Ted Healy's "hit me and I'll slap you-back boys," is in the Army now, and one of his favorite yarns tells 'is soldier buddies' is about when he had his audition.

"It might be a lot better—but it could be much worse. And we know that we're not the only team to be hard hit by the war. We'll go along with what we have and hope for the best."

Army Physicians Tell Soldiers How To Drink

Suggest Highballs Instead Of Cocktails; Food With Drinks

By FRANK CAREY
WASHINGTON, Feb. 4. (AP)—
soldiers who drink were told to
have the short slip "never
drink liquor 'straight' or directly
from the bottle."

You remember the old wheeze
about the governor of North Carolina
remarking to the governor of South Carolina that "It's a
long time between drinks!"

Well, Maj. Merrill Moore and
Lieut. Col. B. C. Chapman of
the Army Medical Corps say in
effect, "the longer the better."

"Make one drink last a long
time," the doctors advised sol-
diers in an article in the Military
Surgeon, adding that it's a good
idea for civilians to do likewise.

The experienced drinker,
the gentleman, if you like, is the
man who can make a few drinks
last an evening.

Here's how:

"Choose 'tall' drinks like high-
balls rather than concentrated
ones like cocktails," they suggest.
"The tall drink with its
charged water helps to cushion
the shock of alcohol on the sys-
tem. The water dilutes the al-
cohol so that it is not so concen-
trated."

They also listed the oft-repeated
advice that one should always
eat before and while drinking
because "food in the stomach—es-
pecially milk, cream, butter and
meat—slows up the rate at which
alcohol is absorbed into the sys-
tem."

Clarifying the problem of "the
soldier who drinks too much,"
Moore and Chapman said the chronic
alcoholic in the Army should be
treated as a physiologically and
psychologically sick man rather
than being punished temporarily
or discharged from service.

"Encourage him to find and use
substitutes for liquor," they sug-
gested to officers who might be

faced with the problem of the
two-faced drinker. "Anything else
can do." It should be encouraged
to say, "Milk, mine, sugar-cake,"
or "tomato juice," or "milk" or
anything else that contains no
alcohol whatever."

They said the chronic drunk
needs to have his self-confidence
restored. They explained that if
officers can teach a man of this
type how to do anything in which
he will be better, than some of
the other men, whether it is
doing the manual of arms, play-
ing checkers, or pitching horse-
shoes—one temptation to drink
is being removed.

Handling the chronic drinker
and steering him to the gingers-
ale stand is primarily the job of
junior officers, the doctors said,
but they added that the co-oper-
ation of non-commissioned per-
sonnel should be obtained in keep-
ing men in the ranks from be-
coming bar-hoppers.

"Particularly the first ser-
geant," they declared.

Drunkenness Cases Mark City Court

The docket at City Court Mon-
day evening was somewhat light-
er than during preceding weeks,
and consisted mostly of cases of
drunkenness and disorderly con-
duct.

In the case of Josephine Black-
man, negro, found guilty of
gambling, her \$36 bond was es-
timated by Judge Frank Miller.

The case of Fred Heath, negro
also charged with gambling, was
ordered continued at the next ses-
sion.

Cases of drunkenness by neg-
roes were: Robert Muncy, \$10
and costs or 30 days and for dis-
orderly conduct, \$10 and costs or
30 days; Henry Harvey, \$11 bond
estimated; Will Humphrey, \$11
bond estreated; Richard Jackson,
\$10 and costs or 30 days.

Disorderly conduct cases of
negroes included: Willie Nesbit,
\$18 bond estreated; James Sing-
leton, \$15 and costs or 45 days;
Richard Sherman, \$15 and costs or
45 days; Steve Williams, \$16
bond estreated.

California has one of the
nation's largest deposits of celeste,
the mineral used to illuminate
tracer bullets.

Allied Offensive In Pacific Seems Close

First Word Of Large Enemy Sea-Borne Attack Comes In Delayed Reports

(By Associated Press) — The first word of a large Japanese sea-borne force bearing down on Guadalcanal came today in delayed dispatches.

The rising tempo of Allied aerial blows touched off speculation that a United Nations' offensive might be imminent against Japanese strongholds in the Solomons.

American troops made further advances against the Japs on Guadalcanal Tuesday despite serial bombardment from the enemy, the Navy announced Thursday, while warships of the rival fleets apparently still skirmished throughout the Solomon Island area.

The American ground forces continued their advance to the west driving the Japs toward the end of the island. They occupied elevated positions west of the Benoi River, killed 80 Japs and captured considerable equipment.

The sea fighting, the Navy said, consists of "recurrent engagements" in which air forces of both sides have taken part since the sparing for position began several days ago.

Today radio reports that the fleet has started the imminent big battle were described at the Navy Department as false. The Thursday late communiqué said only:

"Details concerning recurrent engagements between U. S. air and surface forces and those of the enemy will not be announced as long as they do not affect the safety or morale of our forces."

Japanese planes bombed American positions Monday and Tuesday.

The strength of the attackers and the results they obtained were not reported.

American aircraft meanwhile hit twice at the Japanese. A fighter plane strafed enemy barges in Guadalcanal waters Tuesday and that same night Dauntless dive bombers and Avenger torpedo planes which also can carry bombs, struck the Japanese airfield at Munda.

The enemy barges strafed near Anzac Point, about 10 miles west of Guadalcanal, might have been seeking to land reinforcements for hard-pressed Japanese ground troops. However, one Navy man expressed the opinion that they were just as likely to have been removing men as bringing in new troops.

Fire and heavy explosions were seen at Munda after the dive bombers and torpedo planes dropped their loads on the Japanese airfield there. No details were given of the extent of the damage.

New Giant Nazi Tank Falls To Impression

(AP)—First battle estimate of Germany's new Mark V tank fell short of expectations last night, the weapon probably was of greater value defensively than for aggressive operations.

First mention of the new tank came from Tunis where only a relatively small number were believed in use.

The composite picture of the tank as gathered from British, French and German sources indicates the Mark VI weighs between 55 and 65 tons. The main armor belt is about seven inches thick and slightly more at the vulnerable spots. The heaviest gun is an 88-mm. The tank carries a crew of eight. Shells as about 12 miles an hour and undoubtedly produces enough fire power with all its guns.

Nelson Rejects Plan To Take Automobiles

(AP)—The members of Congress, Army and Navy, who had recommended that the government take over all motor vehicles and requisition all civilian automobiles for use in the war effort, have now withdrawn their proposal to be re-submitted to the Senate.

However, it is understood, the Senate will probably act on the proposal.

WASHINGTON, Feb. 5, (AP)—Opposing interests were being careful in delaying finalizing the construction of the Florida cross-state bridge across the Manatee of the St. Johns River and Harbor Commission said yesterday.

However, it is understood, the Senate will probably act on the proposal.

WASHINGTON, Feb. 5, (AP)—Opposing interests were being careful in delaying finalizing the construction of the Florida cross-state bridge across the Manatee of the St. Johns River and Harbor Commission said yesterday.

Guadalcanal Hero

War Captives May Be Solution To Labor Shortage

Labor Chief States Prisoners Could Harvest Crops

WASHINGTON, Feb. 5, (AP)—J. A. Walker, chief of the labor branch of the War Resources Administration, today said Axis war prisoners captured in Africa and Europe may be used in the United States to help harvest crops this summer to feed Allied armies. They would be used, he said, mainly in cultivating and harvesting commercial vegetables, raising fruit crops in an effort to help fill farm labor shortages.

Chairman Paul V. McNutt announced last night that the War Manpower Commission would take control of the hiring of labor in agriculture when steps to increase defense production to war industries or other tasks deemed essential.

Under the system, McNutt said, the Manpower Commission or agencies approved by it will furnish workers to employers on a priority system based on the importance of the employer in the war effort. New workers will be released to prevent workers shifting from vital occupations to less essential ones, and limits will be placed on the authority of employers to fire workers assigned to them through the Manpower commission.

The controls, it was announced, will not affect "as soon as practical in 180 regions which are scattered throughout the country and are classified 'critical labor shortage areas.' Officials said that many other areas, especially wheat-growing states, will be affected by the new controls in the discretion of the WMC's 15 regional directors.

The Pepper-Mitford Civilian War Mobilization Board was transferred to the State Military Affairs Committee last night after stormy debate in which its author, Sen. Claude Pepper (D-Fla.) charged the move was "un-American" by the Army and Navy.

The measure, designed to "smash once and for all the bottleneck choking the arms program," was drafted by Pepper and Sen. Harley M. Kilgore (D-Va.) on the basis of 10 days of hearings before the Senate Education and Labor Committee in the last Congress.

A government bill of lading, referring to 24,000 pounds of equipment for the new base, was sent to Camp to be set up for negro field workers at Eleventh Street and Jessamine Avenue, has just been received by County Agent C. R. Dawson.

Mr. Dawson said last night that he had been informed a representative of the Farm Security Administration would arrive soon, in order to supervise the setting up of the camp and tent equipment.

The camp will be maintained, under FSA direction, Mr. Dawson stated. Negro workers of which 117 are men and 20 women, brought from Mississippi to assist the labor shortage in celery harvesting, are at present housed with negro residents.

Work Gets Under Way On Homes For Colored Laborers

Finland Seems To Seek Separate Peace

WASHINGTON, Feb. 5, (AP)—Early concrete developments on the front in Finland are seeking a peace with Russia which were predicted last night after H. V. Arthur Schoenfeld, American painter to Helsinki, conferred with President Roosevelt and Finnish Minister Procopi met with Undersecretary of State Welles.

Schoenfeld made no statement after his White House call but it was believed he reported fully on the secret negotiations.

However, they said there was no indication that the army would impose a separate peace such as Japan did in Manchuria.

"They wanted to be dissolved," said one source, "each case,

they say."

However, they said there was no indication that the army would impose a separate peace such as Japan did in Manchuria.
