

Mexico May Have 'Juan Doughboy' Just Like Ours

Army Observers From Below Rio Grande Like What They See

LEBRANON, Tenn., May 21—Mexican counterpoint Johnny Doughboy, if Mexican Army observers sent here to witness second Army maneuvers, have their way.

and milk to reduce the heat during the summer months.

As a matter of fact, said Captain (2nd Class) Jose Gonzalez Garcia, his colleague, "the Mexican soldier would probably consider every item in Johnny Doughboy's diet as a luxury."

The manner in which the mobile laundry units pumped water from a stream, washed the soldier's clothes in boilers and washing carried on a trailer, and dried them with huge dryers fueled with crude oil, absorbed the party's attention.

Chances Are Good For Marriage Vary Before End Of '43

By VIVIAN BROWN AP Features Writer

If there's a man lurking around your doorstep, or if you have your correspondence list, start off Granny's wedding dress, girl—the chances are he'll propose this year.

Here are two of the German generals captured during the grand climax of the battle of Africa. They are General Cramer, commander of all Panzer armies in North Africa, and Gen. von Broth, commander of the Tenth Armored Division.

Secretary Ickes Excellent Choice to Deal With Lewis Coal Troupe Seen as Minor Concession to Government

WASHINGTON, May 21 (AP)—William Green announced Wednesday that John L. Lewis' United Mine Workers had filed a formal application to return to membership in the American Federation of Labor.

252 Candidates To Graduate May 24 From University

GAINESVILLE, May 21 (Special)—The University of Florida will close out its 1942-43 year on May 24 when 252 candidates for bachelors degrees are expected to receive their diplomas.

BITZ Today and Saturday - 2 Features THRILLINGLY... TENSELY COURAGEOUSLY... Holmes outwits the GESTAPO! SHELOCK HOLMES AND THE SECRET WEAPON

Your Herald Carrier Will Call To Collect Tomorrow! Saturday is collection day with him and is the day he's required to pay his paper account. He is counting upon his customers to cooperate with him by having his money ready when he calls.

It wasn't a surrender, but certainly it was a miners' concession. The notion was to give John Lewis and Harold Ickes time to agree if John had stayed bumpy up to the final instant, it is understandable that President Roosevelt might have denounced him as a reconciler.

Among the candidates are: St. Augustine—Clifford S. Athey, BPA; Raymond F. Cole, Jr., BAC; John A. Crookshank, Jr., BCE; ST. PETERSBURG—Francis H. Auermann, BBBA; Wilbert R. Canning, BBBA; Robert J. Cummings, BIE; Lemuel E. Cunningham, BSA; Irving Cypen, LLB; David W. Miller, BBBA; Charles M. Phillips, Jr., BA; David M. Walker, BBBA; Randolph T. Weddings, BBA; SANFORD—Walter M. Turner, BSA; Edward A. Lang, BBRRA; SARASOTA—Morton L. Augustine, BME; Randolph W. Wherry, LLB; Ingle, BSA; STUART—Howard N. Edis, BME.

OCALA—Sam L. Pyles, BA; George H. Wessel, Jr., BA; OGDEN—LAWANA—Hertwig A. Hummel, BA. ORLANDO—Hartwig Achenbach, BS; Robert J. Bishop, LLB; Austin A. Carrus, BBA; Bennett A. Donald, Jr., BSA; Harold W. Goforth, BBBA; James C. Robinson, BA; Louis C. Trapp, BBBA.

RIDIN' DOWN THE CANYON ROY ROGERS IN PEACE OR IN WAR... THERE HAS NEVER BEEN A PICTURE THAT STIRRED THE HEART SO DEEPLY!

SAFETY FOR THE FUTURE Personal Sgt. Major in an anti-aircraft unit here.

Today's greatest drama inspired by the book that shook the world! The concertina was invented by an Englishman in 1829.

If we wish to be free, if we wish to preserve inviolate those inalienable privileges for which we have been so long contending - we must fight!

Jap Bombers Attack Ships Around Attu

Chinese Report Jap Preparation For Major Offensive In The Yangtze Area

In the Aleutians, the Japs made the first counter-thrust of the American occupation of the island, sending over 15 bombers which were driven off in an attempted attack on American warships. The Americans are still engaged in mopping up the remnant of Jap forces pocketed in three areas.

After Leading Raid On Wake

Standing before his Liberator bomber at a South Pacific base is Col. C. F. Levy, of Hartford, Wis. He is pictured shortly after his return from the recent raid on enemy held Wake Island. He was flight leader of the forces that blasted Jap installations on the strategic island. (International newsphoto)

Levee Breaks As Flood Hits Record Level

Mississippi Reaches 38.9 Feet Near St. Louis, Mo., Highest In Nearly 100 Years

Levee breaks along an extensive part of the swollen Mississippi River today forced the evacuation of hundreds of more families and inundated thousands of more acres in the flood ridden middle west.

Fight Gas Tank Fire After Bomber Crash

Smoke blankets a burning gas tank on the site of a bomber crash after it went up in flames when a four-engine Liberator bomber crashed into a field near the Municipal Airport about 10 miles from Sanford. The plane was attempting to land on the runway after the illuminating gas tank exploded. The bomber was en route from a wide area of international South America.

Greatest Raid Of War Made On Germany

Over 2,000 Tons Of Explosives Dropped On Key Rail And Canal Hub Of Ruhr

A mighty fleet of RAF bombers made the greatest air raid in all history last night, dropping over 2,000 tons of bombs on Dortmund, a rail and canal hub of the industrial Ruhr Valley, leading strength to Churchill's hint the Allies might try to bomb Germany out of the war.

Sunlit Matrimony

Dilworth Lupton, newspaper columnist with twenty years in the ministry behind him and unusual opportunities to study humanity, is alarmed by the news that in some areas divorce has been granted faster than marriage...

First, to say that a couple should not rush blindly into marriage but with intelligence. Courtship should have plenty of sunlight as well as moonlight.

He wants them to marry with a mind set for permanence, prepared to endure difficulties together as well as joys. Marriage should be launched with a religious ceremony, not chaperoned with a hasty, tawdry visit to an unkept office of a justice intent only on the fee.

Third, marriage should be based on real comradeship. In the long run, marital happiness does not depend primarily on money, health or sex, but rather on good fellowship.

Last is to remember the vow to honor each other. Marriage needs respect, mutual support, encouragement as well as affection. Husbands and wives must be tolerant of each other's blunders...

If the boys and girls now marrying in droves would stop to think of these points, they might turn the tide against hasty marriages and hasty divorce, into permanent unlit matrimony.

How Old Is An Egg? Here's an experiment with eggs and geometric angles. Better to find out whether your egg's fresh before you eat it...

Colonel Majure Is Not A New Rank

CAMP BLANDING, Fla., May 21. (Herald Staff) — It is no longer the nickname of an officer of Blanding's Infantry Station, but confusion continues when members of the staff are heard calling "Colonel Majure."
Promotion of Major Ernest O. Majure, to the rank of lieutenant colonel in the Medical Corps will be announced in the near future. Majure is currently serving in the Medical Corps at the Wetumpka, Alabama, medical center when used with his rank is still a problem. He has been one ever since he came on active duty here as a lieutenant in November, 1940.

Stimson Tells How U. S. Treats War Prisoners

Wouldn't Mind Being One Awhile; Geneva Terms Are Given

WASHINGTON, May 24.—Henry L. Stimson, Secretary of War, declared today that the consideration and fair treatment being given to prisoners of war captured by American forces are such that "it'd like to be a prisoner myself for a while."

Although he said this with a smile there was no mistaking his earnestness as he stressed the favorable terms embodied in the plans for disposition of Axis prisoners, some of whom, he admitted, were already at work on American farms.

After telling a press conference that the Tunisian campaign alone netted a total of 267,000 Axis prisoners, many of whom will be sent to America, Mr. Stimson said that employment of these prisoners as well as others to be taken in the future will be based on terms of the Geneva Convention, and that "the humane and considerate treatment that War Department policy will accord to America's prisoners of war will be reflected in similar treatment of American soldiers who are prisoners of war of the Axis powers."

Asked if the Axis prisoners would be put to work in industrial plants, Mr. Stimson said they might, but not in war-munitions factories. He declined to reveal the location of the prison camps, but added that they are sufficiently large to handle this catch and some more.

In response to several questions as to what agency will handle the employment of the prisoners and the various kinds of work they will be put to, Mr. Stimson said these problems are still under study. They will perform types of labor permissible under the articles of the Geneva Convention, he said, but emphasized firmly that "they will not be used as strike breakers."

Under the Geneva Convention prisoners must be afforded protection against violence, abuse, public curiosity and exposure of any kind. Prisoners of war, except officers, may be required to work at any project not directly connected with military operations.

Prisoners employed by the Federal government will be paid at the rate of 50 cents a day, Mr. Stimson said. When working for a state or private contractor, their pay will be at a rate determined by the contract between the employer and the prison camp commander concerned. The rate, however, may not be less than that of 50 cents a day paid by the Federal government.

Officer prisoners may not be compelled to work. The Geneva convention provides that they must be paid, nevertheless, in accordance with their grade and in line with specific arrangements between the enemy powers.

The allowance for German and Italian officer prisoners will be the equivalent of \$30 a month for warrant officers and first and second lieutenants; \$36 for captains, and \$40 for those in the grade of major and above.

Unlisted men among the prisoners who are not provided employment will be given a monthly allowance of \$5. Non-commissioned officers will be assigned to supervisory work only, and work of this nature is not available and they specifically requested a remunerative occupation.

Prisoners may not be made to work longer hours than the civilian population engaged in similar work in the locality, which, except in emergency, will not exceed an hour beyond counting the time consumed in going to and from work. In all respects, prisoners will be treated with the respect due honorable soldiers, Mr. Stimson said. The crew members, according to United States troops.

The Geneva convention stipulates that crewmen must be provided to officer prisoners from among the captured prisoners. They will receive pay at the rate of 50 cents a day.

Prisoners will be required to wear the clothing they had at the time of capture, unless it suits for use.

Prisoners will be given the same food as the civilian population of the locality, Mr. Stimson said.

GIANT R.A.F. LANCASTER BOMBERS struck a crippling blow at German water power when specially trained crews blasted the Mohne and Eder Dams. The Mohne Dam is shown (left) just before the mines and bombs fell. A 200-foot wide gap opened, devastating territory (closeup, right) that are sweeping through the Ruhr Valley wrecking industrial centers and flooding transportation points. According to a report from Switzerland, at least 6,000 persons are dead and 150,000 homeless. See in the World picture book. (International Radiophoto)

Pfc. Silver Dollar And J.P. Morgan Are Both At Camp

SECOND ARMY MANUEVER HEADQUARTERS, BOWLING GREEN, TENNESSEE, May 24.—J. P. Morgan doesn't make much of a dent in the monthly payroll of a Red signal company now on Second Army maneuvers in Middle Tennessee. For that matter, Pfc. Silver Dollar of the same company is leading J. P. Morgan for Army salary honors inasmuch as he draws \$54 a month to Private Morgan's fast fifty.

But that doesn't bother telephone lineman J. P. Morgan; he ditches out the wisecracks while Silver Dollar, a cook's helper, ditches out the show to him.

"Hi-o, Silver!" begins the badinage barrage, as Dollar steps up for a meal bit of edibles.

"Well, if it isn't J. P. Morgan—begging for food again," is Dollar's prompt retort.

"Boum yourself on a counter, Silver Dollar; you have a phoney ring," says Morgan.

Dollar, who lives at 2840 Howard Street, Redwood, Calif., isn't the brightest point in his family's constellation. The neighbors call Silver Dollar the Almighty Dollar.

Rather than adopt a more conventional name in civilian life, Dollar capitalized on it. He had it prominently displayed on his business card, which he presented to prospective customers while making rounds as a telephone salesman. The customer usually curious about the unusually large name would call Dollar up on the telephone.

Gunder Haegg, The Flying Swede, May Surprise American Runners

By DILLON GRAMAM AP Feature—Sports Editor

NEW YORK—A Swede seems to believe Gunder Haegg, the swift Swede, will run over our homebred gallopers in his upcoming race here. He may, but very few foreign track stars have been able to boast of their performances in America.

The so-called "superman"—Nurul and Kobalstian—could, but most of the others would just as soon forget their lives.

Haegg possibly is another superman. All evidence indicates he is. He has never run on such a record-breaking speed as the Great American, but he has run in two months. And he has won the record, he has been in by the name of Gunder Haegg.

Jess Willard Says Louis Firpo Was Best Of The Lot

By HAROLD V. RATLIFF AP Feature

DALLAS—The big guy looked back through tempestuous years—the savage heat of Havana, the bloody gore of Toledo, the night one mighty blow sent the great Jack Dempsey flying from the ring—and acclaimed as the greatest fighter he ever saw: Luis Angel Firpo, the Wild Bull of the Pampas.

Jess Willard, gray about the temples, but still keen-eyed and with a voice that roars like a cannon, passed his accolade on to the man who never was champion.

"Firpo was the best fighter of them all," he mused. "Sure Jack Johnson was good. Dempsey was great. Joe Louis is a fine boxer. But Firpo was big, tough and game, and he could hit hard enough to drill a hole through you."

"He really won over Dempsey and if he had gotten what was coming to him would have been a great champion. You know Dempsey was helped back into the ring that night he went on to knock out Firpo. It's against the rules of boxing for a fighter to be helped by the crowd."

"Few, if anyone, ever listed Firpo at the top. There probably will be few to agree with big Joe today, but Willard ought to know he was there. The 50-year-old former world's champion fought the gainst of the Argentine, in addition to two men rated among the greatest of all time—Johnson and Dempsey. Of course the fight with Firpo came while the stinging comeback.

Willard, then 48—was attempting to make a comeback. Willard said he was in Dallas conferring with lawyers relative to claiming profits he says should be his from the showing of the Willard-Dempsey fight picture, taken at Toledo July 4, 1919. Jess said he still owned a fourth of that picture and he figured its use brought in at least \$5,000,000. Jess is serving a greater at a cell here.

"I'm getting along pretty good," the 225-pound Jess grinned when asked his financial status. "I made a million and a quarter and give them rollers' deductions."

His two sons, Jess, Jr., and Alan, are in the service—Jess an ambulance driver at an air field at Amarillo, Tex., and Alan with the 8th troops at Leadville, Colo. He also has three daughters.

Willard looked hale and hearty. "I must be in pretty good shape," he commented. "I fall on the ice a couple of months ago and broke my neck. It took me only three weeks to heal."

Could Jess beat Dempsey? Jess said he won the title from Dempsey at the Havana at the age of 28, but in four years he was defeated. If he had any other fight in four years—with Dempsey, he would have won. He said he would have won if he had any other fight in four years—with Dempsey, he would have won.

Abortion Rise Laid To Fear Of Loss Of War Job

Birth-Control Group Reveals How Plants Penalize Pregnant

NEW YORK CITY, May 24.—(AP)—Fear of being discharged as a penalty for becoming pregnant has led to an increase in abortions among women workers in war plants in the South, according to a survey by Dr. Gladys Q. Pierce, medical director of the Planned Parenthood Federation of America, Inc., pioneer of the birth-control movement led by Margaret Sanger.

Dr. Pierce, reporting the results of her survey last week at the offices of the federation, 501 Madison Avenue, said abortions were responsible in large measure for increasing absenteeism among women in the nation's war plants.

"Abortion is classed as 'sickness' and 'sick leaves' are responsible for as much as 90 percent of the absence in some factories," he said. Women workers, he added, were found to be absent 76 percent more than men in many plants, although the average has been put at 35 percent.

Dr. Pierce, long associated with the United States Public Health Service, declined to disclose the names of plants which she investigated discharged pregnant women as soon as their condition became apparent. Only twenty-six kept records of the number of pregnancies, and of these, one employing 10,000 women, reported that 18 percent of its women employees had been pregnant, 25 percent resorting to abortions and the rest giving birth.

Dr. Pierce pointed out the danger of abortions. The illegal operations prove fatal to 3,500 to 10,000 women annually, he said, and "at least eight women are rendered sterile—never more one who dies." He believed the figures would increase as a result of the industrial penalty against pregnancy, and of these, one employing 10,000 women, reported that 18 percent of its women employees had been pregnant, 25 percent resorting to abortions and the rest giving birth.

The federation, which is campaigning for "drastic revision of industrial health policies in many plants, is advocating nationwide adoption of four 'practical' suggestions for improving maternal health conditions in our stepped-

up war industries?"

1. Abandon the practice of dismissing expectant mothers as soon as pregnancy is reported.

2. Permit expectant mothers to work as long as their health permits under adequate medical supervision during time on the job. (Women can work up to the eighth month of pregnancy without endangering health if the work is not too strenuous, it was said.)

3. Give assurance of re-employment after the baby is born and of the retention of seniority privileges.

4. Give fully supervised child-spacing information to those married women who wish to postpone pregnancy either because of poor health or inability to care for another child at the time.
