

# River Of Air High Over The Earth Is Responsible For Erratic Weather

By FRANK CARLY

WASHINGTON (AP) — Unusual antics of the jet stream, a meandering, 300-mile-an-hour river of air coursing miles above the earth, are primarily responsible for the nation's erratic weather this winter, according to government meteorologists.

They say the jet stream, which hasn't behaved in its current manner for 20 years, accounts for such unlikely winter weather as:

Frequent unseasonably warm weather in the eastern third of the nation; unusually cold weather in the western third; erratic changes in weather in the remaining third.

What might be called reversed vertical weather, a frequent occurrence this season. The dividing line for cold and warm weather often has run in a roughly vertical pattern, more or less along the Mississippi River. In other winters, the line usually runs horizontally, separating north and south.

Relatively rapid changes in temperature for short periods of time, mostly in the Midwestern states. Examples are a 72-degree drop in temperature to 20 below zero in the Indianapolis area during 72 hours and a 32-degree drop to 13 below zero in the Duluth, Minn., area during 18 hours.

Resulting oddities during the fall and winter have ranged from circus elephants suffering frostbitten ears and feet in a major October snowstorm in Wyoming to the sudden blooming of Japanese cherry trees during the Christmas season in Washington.

## Contractor Wins Silver Beaver Pin

KISSIMEE — Johnny King, Sanford contractor, was awarded the Silver Beaver, highest award the Central Florida Boy Scout Council can give, Saturday night.

At a recognition dinner attended by 1,200 volunteer scout leaders and their wives, King and 10 others received the honors.

Walker Kee, chairman of the selection committee, in making the presentation said, "Johnny King is a self-sacrificing, dedicated worker of every community activity that benefits boys. He has, often alone, provided an outstanding program for boys of his race and has been an outstanding example of scouting spirit to all who know and work with him. It is doubtful that anyone else could or would have produced such an outstanding record of noteworthy service."

He is scoutmaster of Troop 103, sponsored by the Midway Fire Department.

Others to receive Silver Beavers and Silver Pawns were Russell O. Barnhart and Mrs. Marie Ogleby, both of Daytona Beach; Ralph H. Bosh, Leesburg; W. Glen Archer, Titusville; Paul H. Hise, Cocoa; Hartley Wells Archer, Mrs. Bernice H. Stuits and Mrs. Peggy Louree, all of Orlando; Mrs. Orfa P. Ackerman, Apopka; and W. L. Geizer, Winter Park.

David Warrington Hedrick, Orlando, was awarded the Distinguished Eagle Award by the national council.

## Headlines Inside THE HERALD

DAYTONA BEACH — On an 11th floor hotel balcony, a Jaycee wife sent a roll of toilet paper cascading to the street below while her husband and buddy tried to yodel over the sound of the surf. Such was the 14,000-strong Florida Jaycees' state convention. (Page 6)

BELFAST — The Irish Republican Army vows revenge after 13 civilians are killed and at least 17 wounded in a battle with the British army in Londonderry. (Page 3)

SAIGON — Waves of 50,000 North Vietnamese bulldozers along the 135 miles of South Vietnam's western frontier. (Page 3)

WASHINGTON — In his public "no politics" posture, President Nixon is giving Democrats an indication of what they're likely to face through 1972. (Page 3)

WEATHER — Yesterday's high 83 low 66 with 4.5 of an inch of rain this morning. Partly cloudy becoming mostly cloudy with scattered showers through Tuesday. Highs in mid 70s today and lower 70s Tuesday. Low tonight 48 to 55.

YESTERDAY IS GONE! The other day we should not worry about it TOMORROW, with its possible adversities, its burdens, its large promise and poor performance. Tomorrow is also beyond our immediate control.

This leaves only TODAY. Anyone can fight the battles of just one day. It is only when you add the burdens of those two awful eternities, YESTERDAY and TOMORROW that we break down.

It is not the experience of Today that drives men mad. It is remorse or bitterness for something that happened yesterday and the dread of what tomorrow may bring.

Let us therefore live but one day at a time. "Sufficient for the day is its own trouble."

Holy Cow... did you see "Love Bugs" floating around over the weekend? And we didn't even get around to starting that \$50,000 "study" yet either.

Oh well, it'll give our Legislators something else to gab about during their present session.

## Lady And Tramp On Plaza Screen

Two Walt Disney animations features are a show in a new format Saturday at the Sanford Plaza Screening Center. The first is "Lady and the Tramp," an animated feature, and "How to Succeed in Business Without Really Trying," a musical comedy.

## Dentist Asked To Identify Victim's Teeth

A bag of bones is literally the only remains of a youth, thought to be Karl C. Fulmer, 18-year-old Groves Point, Mich. The rest of the body was found in a ditch near the Little Wekiva River near Alamo Springs, looking for what a long-haired informant said was the body of Fulmer.

Based on the fact that a body was uncovered and the informant's statement that Louie Gattis, 24, former Winter Park resident and late of Inverness, was involved in the "strangulation" death of Fulmer, county investigators arrested Gattis and brought the cement company employee here on first degree murder charges.

Gattis is scheduled to be arraigned this afternoon before County Judge Wallace Hall. It was reported by Sheriff John Polk the accused has retained an Orlando attorney to represent him in legal proceedings.

A jaw bone was uncovered where the informant said Fulmer's body was dumped and according to Det. Lt. L. J. Kriz, the investigation is centering on obtaining information from a Groves Point dentist, Sheriff Polk said the dentist who had treated Fulmer was telephoned and copies of the youth's dental charts were to be dispatched immediately.

"We are expecting that information," Sheriff Polk said. (Continued on Page 2 Col. 4)

## Prison Says 'Full Up' Convicts Refused

Two men sentenced to prison terms Thursday in Circuit Court have been refused by state prison officials to serve their terms at the Lake Butler facility.

This was disclosed today by Sheriff John Polk who said he had been notified by prison officials under authorization from L. L. Wainwright, Florida prison director, that James B. Cain, sentenced to serve three years on a guilty plea to buying and receiving stolen goods, and Leon Jesse Hill, given five years after pleading guilty to carnal intercourse with an unmarried person under 18, could not be accepted "at this time due to over capacity."

Polk said the county does not have room to house state prisoners and stressed the state will have to build more detention facilities since the crime rate is rising and more convictions are coming from the courts.

At present the county jail has 68 adults in the 72 spaces reserved for older prisoners.

Although the adult women and juvenile confinement areas are not fully occupied, Polk stated there is no way he can take these 14 convicts to the state prison.

"I can't meet state criteria concerning juvenile prisoners," Polk said.

No one can be happy about the huge deficits that require an immediate infusion of \$50 billion in the debt ceiling, to \$480 billion, Means told the House Ways and Means Committee.

He said some of the unexpected red ink resulted from congressional action but, "our economic forecast for calendar 1971, on which the fiscal 1972 budget was based, was simply too optimistic."

"Total gross national product, personal income and corporate profits were all significantly below the forecast. As a result tax collections are falling short in most categories including the big items: personal and corporate income taxes," he said.

Both Connally and Budget Director George P. Shultz defended the 1973 budget, despite its expected \$23.3-billion deficit, as necessary to stimulate the economy and lead eventually to a balance. The deficit for the year ending next June 30, which Connally blamed largely on sluggish economic performance, is estimated at \$28.2 billion.

## Connally Says Limit Will Have To Go Up

Associated Press Writer WASHINGTON (AP) — Secretary of the Treasury John B. Connally asking Congress for the biggest single raise in the national debt ceiling since World War II, said today the borrowing limit will have to be raised again about a year from now.

# Wallace Accuses Nixon Of Breaking Promises

By THE ASSOCIATED PRESS  
Alabama Gov. George Wallace has accused President Nixon of breaking election promises to balance the budget, stop social housing, lower taxes and continue America's policy of refusing recognition of Red China.

In an interview on Miami television station WPLG Sunday, the Demo. ex. 116 presidential hopeful charged that Nixon copied Wallace's campaign planks in making his 1968 campaign promises, then failed to live up to them.

"A grass roots movement is going to change the Democratic Party," Wallace said after predicting he could win primaries in Wisconsin and Pennsylvania. He did not speculate on his chances in Florida's March 14 primary.

Campaigning for votes in the Florida race, Wallace said in an earlier interview on WCRT-TV in Miami that the Cuban airlift should be continued.

But he said Cuban refugees should be screened carefully "because I don't know how many agents he (Cuban Prime Minister Fidel Castro) is sending into this country."

Asked if his criticism of welfare spending included assistance to newly arrived Cuban refugees, Wallace said, "No sir. We're not talking about a situation of that sort. Not at all."

"I'm talking about the people who don't want to work, and there are thousands of them on the rolls from New York to California. I'm not talking about

# Jaycees Present Top Awards

By BILL SCOTT

The affair, emceed by Sen. William Gunter and honored with the presence of Gov. Reubin Askew and wife Donna Lou, a Sanford native, saw five other awards presented by the Sanford Jaycees, Oviedo and South Seminole Jaycees to persons giving outstanding community service.

The S. O. (Oz) Dorminey Faith in God Award was presented by Sanford Jaycee vice president Vic Gishler to Edward Joseph Sullivan of Sanford for his work as a case worker with the Florida Methodist Children's home.

Tom Freeman presented the Good Government Award, which was given to Seminole County Commissioner Sidney Viblen Jr.

Viblen is a Sanford Jaycee and county commission vice chairman, and was recognized for his efforts to stop pollution. Freeman called him the "leader of this generation."

Jaycee member George Crossley gave the "Outstanding Law Enforcement Officer Award" to Deputy Harold (Bo) Hagan for his efforts on developing a film fighting assaults on children by molesters, which is being shown at schools.

The lone female award winner was Nancy Jo McNamara, a teacher at English Estates Elementary School, who was honored as the "Outstanding Young Educator" for her work with school children. Cliff Jordan, South Seminole Jaycee president made the presentation to Mrs. McNamara.

"Outstanding Young Farmer Award" was given to Kelley Fore, by Charles Wall, Oviedo Jaycee president. Fore was cited for work as estate manager, grower and farmer in Seminole County.

Warren Brown, banquet chairman, welcomed the guests and Jaycees to the event.

# Aims At Area Youth SA To Expand Services

By JANE CASSELLBERRY

The Salvation Army, working out of its cramped quarters in Sanford, has served Seminole County for the past 42 years. In the past five years alone 10,669 persons have benefited from its services.

The time came when the department had to be made to either close down the inadequate dilapidated facility, when the need is greater than ever, and abandon the Salvation Army's work here, or to build a new facility where all its services could be expanded.

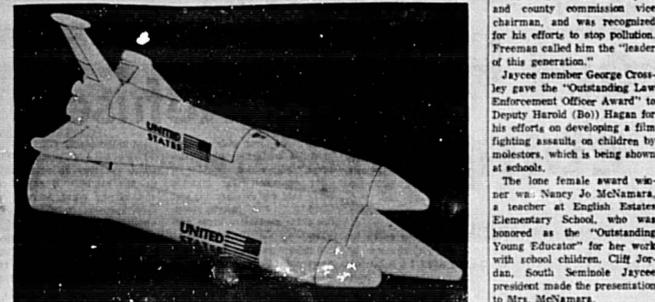

Fortunately for the community and the multitudes, who have nowhere else to turn for help, Capt. Billy Lyons and his advisory board were men and women of faith and vision who made the decision to build.

Proposed location for the \$25,000 community service center is 2.5 acres of land centrally located near French Avenue and 25th Street. The building will contain 12,576 square feet, and will be within walking distance of several schools.

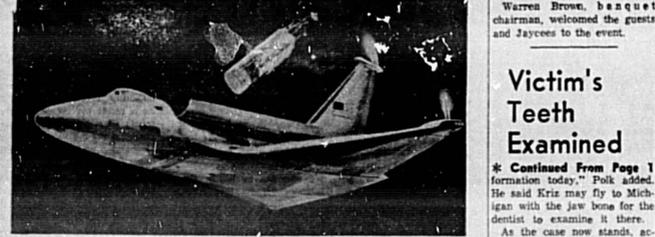

It will contain a gymnasium, chapel, youth activities center, counseling room, emergency supply room, band room, offices, kitchen and dining room, nursery and other related facilities.

The non-denominational center will be open to all races and ages, young and old. It will be dedicated to the service of mankind for the glory of God.

The new facility will enable new programs to be launched with a new dimension of service, such as, an expanded youth and character building program, a well supervised boys' club and girls' club program, an adult and family guidance program, educational courses in the form of self-help programs, in- under consideration for three

formation today," Polk added. He said Kritz may be in Michigan with the law done for the dentist to examine it there.

As the case now stands, according to various law enforcement officers, Fulmer retained a room from Gattis, who owns a Winter Park residence, in October after he obtained a job with Walt Disney World. A few days later he disappeared, leaving authorities to believe that Fulmer discovered stolen property in the Gattis house and was subsequently killed.

Sheriff Polk declined again today to release the name of the Orange County informant, who is thought to have "tipped off" Orange County law enforcement about Fulmer's death and tied in Gattis.

Polk also declined to give any information relative to the connection between the informant and Gattis.

"If we have to go back for further parts of the skeleton, I feel we will have proper equipment ready," the sheriff said, in commenting on the task of having to dam water at the site where the remains were found.

Efforts to locate two pumps owned by the county were unsuccessful but Polk praised the help given the workers by Wheeler Fertilizer Company of Oviedo, who brought equipment and workers to the scene to aid in the search.

The county also praised the cooperation given by the Alamo police and other groups, and especially news media, who adhered to his requests to "hold" the story until the arrest of Gattis.

# Two Dean Rape Trials On Docket This Week

Qualification of 109 veniremen began this morning in the trial of Joseph Kenneth Dean, charged with rape in two separate cases. Both cases will be tried this week, not being consolidated, as is some times the case.

Prosecuting for the state is State Attorney Abbott Herring. Defense attorney is James Russ. Occupying the bench is Circuit Judge Roger Dykes.

Dean, who is presently serving a life sentence for conviction in Orange County of the rape of an Orlando housewife in 1970, stared impassively ahead in his seat at the defense table. His only visible show of animation was to alternately finger his chin and dig at his fingernails.

Dean was neatly garbed in a gray checked sport jacket, a blue and white striped shirt and 35-year-old former barber, and handsome, is charged in the rape of a 25-year-old Longwood girl, who was abducted in the company of a nine-year-old girl on Feb. 20, 1976. Both were allegedly driven to a spot near Lake Mary by Dean and the older girl raped. Both were later released.

Dean is also charged in the rape of an 18-year-old pregnant Orlando girl, who was driven to Seminole County, allegedly raped, tied to a tree on the Longwood-Maitland Road and abandoned on May 11, 1976.

Dean at one time sought a City Council office in Longwood. He was a suspect in seven area rapes. He was initially scheduled for trial on April 6, 1977, but the case was removed from the docket.

The trials are expected to last all of this week.

# Land Use Density Will Be Debated

A continued discussion will be held at tomorrow's meeting of the County Commission relative to a proposed revision of the comprehensive land use density formula.

The subject has been under consideration for the past three weeks. At the initial discussion County Planner David Farr presented density figures which he said represented the maximum allowable densities according to the zoning ordinance. Lot size restrictions and which were based upon 20 per cent of the total plot area being devoted to rights-of-way.

In the various categories the figures are as follows: R-1, 4.14 units per acre; R-2, 7.74 units per acre; R-1A, 3.87 units; R-1AA, 2.97 units; R-1AAA, 2.98 units; R-C, 27 units; A-1, 41 units; R-2A, 16.8 units; R-3, 20 units and R-4, unlimited.

Also on the agenda for tomorrow is a report by Zoning Director Robert Brown on a below grade construction site at Druid Hills Park.

County Attorney Thom Humberger will report on a proposed, non-exclusive ambulance franchise, which also has been under consideration for three

Frank Laspee, 64, of 2426 S. Elm Ave., died early Saturday at his residence. He was a native of Chesilhurst, N. J., and had lived in Sanford for the past year and a half moving from Glendora, N. J. He was a paper cutter, a member of the Methodist Church and the National Rifle Association.

Survivors include a daughter, Mic Dale Laspee of Sanford; a son, Frank Jr., Mantua, N. J.; four brothers, Woodrow of Pittman, N. J.; Fred of Birmingham, N. J.; and William of Williamstown, N. J.

Funeral services will be held at 10 a.m. Saturday at the Oaklawn Memorial Park, 4 Miles West of Sanford.

# 13 Killed In North Ireland

BELFAST, Northern Ireland (AP) — The Irish Republican Army blew up a store, a bar and an electrical shop in downtown Belfast today. Security spokesmen believed the bombing was in retaliation for the killing of 13 civilians in a battle with British paratroopers in Londonderry on Sunday.

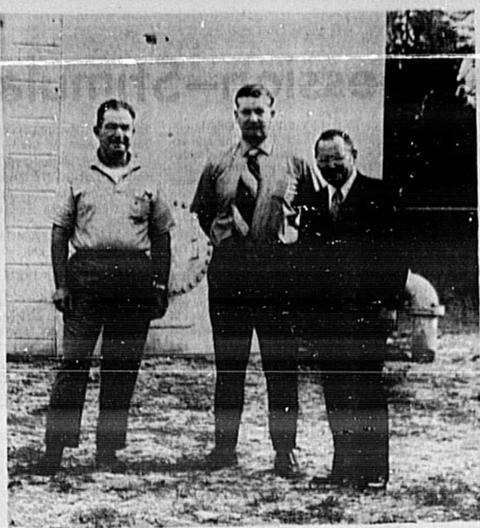

The British Home Stores was blown up by two gelignite bombs in a window cleaners' van that was parked just outside the store in a busy shopping arcade.

Ten persons were injured, one seriously, and dozens of neighboring shops and offices were damaged.

The 13 deaths in Londonderry raised to 232 the number of persons killed in the Catholic-Protestant warfare that has raged in Northern Ireland since August 1969. Fifty-nine have died this year.

The IRA charged that the paratroopers fired indiscriminately into a crowd of unarmed civilians, and the guerrillas promised a wave of soldier killings in revenge.

The army said snipers opened fire first. The IRA trouble began after some 10,000 marchers turned out in answer to a call from Roman Catholic civil rights leaders to demonstrate against the internment of suspected IRA terrorists without trial. The demonstration violated a government ban on parades.

WASHINGTON (AP) — The Agriculture Department is looking at 14 million faces and family names to see if people who get government food benefits are black, brown, red, yellow or white.

Millions of others, who share in USDA benefits ranging from farm subsidies to federal jobs, also are being classified and their names fed into computers as grist for the government's civil-rights mill.

Much information has been gathered since mid-1971, but a full report is not expected until July. Meantime, the biggest job involves the food-stamp and commodity distribution program.

# More Bombers Pound Red Supply Buildups

By GEORGE ESPER  
Associated Press Writer

SAIGON (AP) — More waves of U.S. B-52 bombers pounded North Vietnamese troop and supply buildups today along a 200-mile stretch of South Vietnam's western border, from the demilitarized zone to the central highlands. They were the heaviest raids there in four months.

About 20 of America's biggest bombers unleashed more than 500 tons of explosives on North Vietnamese positions inside the southern half of the demilitarized zone, at the northern entrance to the A Shau valley and west and northwest of Kontum, which U.S. advisers say may be one target of the anticipated offensive.

The heavy air attacks came as Gen. William C. Westmoreland, the U.S. Army chief of staff, told a Saigon news conference that North Vietnam is preparing for a multiphase offensive next month in South Vietnam just below the demilitarized zone and in the central highlands.

Westmoreland, who commanded U.S. forces in Vietnam in 1965-68, said the Communists may "have some temporary success." But he said he and top U.S. and South Vietnamese officers are confident Saigon's forces can handle any enemy offensive.

The South Vietnamese Command reported that its air force destroyed three North Vietnamese base tanks Sunday just inside the border, about 32 miles west-northwest of Kontum.

On the DMZ front, North Vietnamese forces bombarded South Vietnamese bases along the zone with more than 200 rockets and mortar shells, and four ground clashes were reported.

The South Vietnamese command claimed 34 North Vietnamese troops were killed and said government losses were nine killed and 22 wounded. It was the heaviest action along the DMZ since last fall.

In Vietnam, the Laotian capital, informed sources said half of a Laotian battalion is missing after being routed from positions 20 miles north of Luang Prabang, the royal capital.

Opening Of '72 General Session—Stimulating!

The formal opening of the 1972 general session of the Florida State Legislature tomorrow may have all the trappings of routine procedures, but there is every promise that the session will not be formal nor quiet.

Far from it. The legislators are confronted with such controversial issues as a reapportionment of the legislature to conform with the population statistics of the 1970 census, enactment of judicial reform, a house-cleaning in education, further steps to make state taxes reach the "fair share" level, and add three more representatives to Florida's voice in the Congress.

However, the most critical work will be in the field of reapportionment. This is true for the entire state. But for the counties in Central Florida it merits the greatest concern.

What voters in these counties, and especially in such geographically small counties as Seminole, where the population boom became statistically apparent in the '70 census, need to bear in mind is a single fact.

Poor Hunting

It is a bad season for Secretary General Kurt Waldheim to be making the rounds in Washington in search of financial help for the United Nations, which for all practical purposes is flat broke.

His hope is to raise \$45 million in advance payment of dues from U.N. members so the organization can meet its payroll in the months ahead.

In September, he promises to unveil a new plan for U.N. financing, presumably aimed at keeping the budgeting process first things first.

The Soviet Union and France, for instance, have never paid their assessments for the U.N. peacekeeping operation in the Congo.

Peace At Home

Well, not everything has been going badly for John Mitchell. Martha told a gathering of California Republican women the other day that she was very put out with him when a woman was not nominated for the Supreme Court.

Social Programs Not Starving

By BRUCE BLOSSAT, WASHINGTON (GNA).

The size of the federal budget has become so great that President Nixon finds it embarrassing to talk about it. In his newest budget message, he solves that dilemma by never mentioning it, except in a table halfway through.

But if this \$246 billion budget for fiscal 1973 has its mythologies, so do the budget critics have theirs. A favorite myth of the critics these days is that recent governments, both Democratic and Republican, have virtually "starved" this country's social programs while pouring out "shameful" billions for war and defense.

**FP&L Cooling Lake Is Catfish Farm**

A man-made lake, carved from a remote swamp, now is being filled with water to play a versatile role in power production, catfish "farming" and environmental protection.

The lake was built by Florida Power & Light Company as part of a cooling water system for two new generating units which will feed \$80,000 kilowatts into the lines to serve Florida's expanding power needs. The lake is at the FP&L plant across Lake Monroe.

Two miles long and a mile wide, the partially filled lake already is alive with water birds and stocked for a catfish "farming" operation that promises to be one of the largest in the country.

The body of water was created by building up a dike, making an elevated "water" with depth of from six to 10 feet. At its full volume of three billion gallons, to be reached in March, the water level will be 25 feet above sea level.

Water from the cooling lake will be used to condense the exhaust steam from the new generating units. The lake water will circulate through the plant's condenser, picking up the steam's heat and conducting it back to the lake where the water cools and is used again.

The nearby St. Johns River could have been used for the new plant's cooling water but, to avoid any possible harm to the ecology, the lake was built and water pumped up to it from the river.

The project helps protect the environment while meeting a public need, FPL officials note, and also is attracting wildlife and flocks of birds of all kinds to the area.

The lake, which added more than \$5 million to the cost of the plant, is an example of the company's rapidly rising environmental expenditures. FPL has spent \$63 million on environmental considerations since 1967.

While the new lake is helping to boost the power plant, it also is adding a boost to the economy and to the dinner table.

FPL has made an agreement with a commercial fish breeding group headed by Brock Steel of Maitland to stock the lake for the purpose of raising catfish.

Some of the catfish swim loose in the lake with other species of feeder fish. But the bulk of the harvest will come from "raceways," cages four feet square by 24 feet long. A series of these cages, each containing 7,500 fish will be lowered into the lake water, which re-cycles itself every four days. Most similar operations have to pump water through the cages.

Also, because the catfish feed best in water 85 to 90 degrees, they will eat more of their prepared protein pellet food and grow faster. Steel estimates that his fish will require only a year to grow from fingerling to marketable size.

A further advantage of the warmed water is that the fish, normally subject to seasonal temperatures, will spawn year round.

Biologists estimate that the lake will yield 200 pounds of fish per acre each year in the open part of the 1100-acre lake, or almost a quarter-million pounds of catfish. But with the raceway feeder operation added, the production should swell to over a million pounds of fish a year.

DEBARRY PLAYERS will present the musical comedy, "We Need An Expert," Feb. 11 and 12 at 8 p.m. in the Lake Mary School auditorium to benefit the Lake Mary Civic Association building fund to erect a community center.

 DAYTONA BEACH, Fla. (AP) — On an 11th floor hotel balcony, a Jaycee wife sent a roll of toilet paper cascading to the street below while her husband and buddy tried to yodel over the sound of the surf.

Before Vice President Spiro Agnew's dinner, the crush of the awaiting crowd was so unyielding a small but hardy band of drinkers was literally captive in an off-limits bar not an unhappy predicament.

While Sen. Henry M. Jackson was plotting how he would "confess" to Alabama Gov. George Wallace, a little old lady confused over just who was running for President asked a Miami Herald reporter for his autograph.

And then there was the mercenary emcee at Wallace's luncheon who time after time shouted "Who's number one?" to the crowd's refrain: "Agnew!" "Who?" "Why does he keep doing that?"

"Well," said John Meder Jr., of West Palm Beach, a restorable cheerleader, "it helps cure a hangover."

Such was the 34,000-strong Florida Jaycees' state convention. It was a weekend mecca for presidential candidates and for Vice President Spiro Agnew, one of the President's campaign stand-ins for the March 14 presidential primary.

"I really am a stand-in," deadpanned Agnew. "At the last minute John Connally couldn't come in."

**Yesterday's asparagus, tomatoes, leftover fish and Tommy's old sneakers. Tomorrow: clean landfill.**

For a world seeking to handle its huge volumes of garbage without harming the environment, imagination is creating new solutions. With the help of electricity.

One example is the growing pile of clean, odor-free material pictured below. This is the end product after 700 tons of garbage a week are processed at the Solid Waste Reduction Center in Pompano, Florida.

Electrically powered conveyors bring the waste to a huge pulverizer—also electrically powered. Metals are sorted out for recycling, cardboard and paper are pulled out for shipment to paper mills. And what comes out of the pulverizer is a shredded, dry material that has no detectable odor and cannot support fires or insect and rodent life. Another electrical conveyor carries it out, as shown below. And what once was offensive garbage will become useful landfill, restoring the soil and benefiting the environment.

Just as electricity brings you the convenience of home garbage disposal and a cleaner kitchen, it's helping with the job of cleaning up the world outside.

Electricity: part of the solution. **FPL**

# Dear Abby: By Abigail Van Buren

**DEAR ABBY:**—To keep my mind off my divorce, I decided to encourage married couples to do everything within their power to save their marriages. Lately, you give the impression that divorce could be the answer for some couples.

**FATHERLY READER:**—Why? DEAR READER: Because I think it's more important to save people than marriages. And in some cases, in an effort to save the marriage, people have destroyed themselves.

**DEAR ABBY:**—Our 7-year-old printed the following letter to Santa: "Dear Santa, all I want for Christmas is for my mommy to quit smoking because I love her very much and don't want her to die. If you bought more toys for me or little boy because all I want is a Mommy who doesn't cough anymore, and doesn't get nervous when she can't find a cigarette butt, thank you." BILLY:—His Mommy cried when she read it. But she's still smoking.

**DEAR DISGUSTED:**—Mommy's hooked. If she really wants to kick the habit, she can, but she'll need encouragement and understanding.

# Jacoby On Bridge

Oswald: "Losing bridge players like to complain about their bad luck. Luck does play a major part in your results in any one session. However, in the long run, luck tends to even out and it is the skill factor that determines the winners and losers."

Jim: "One class of players who suffer from this 'bad luck' is the one who rushes to bid no-trump when his holding calls for some other bid. Here is a good example."

Oswald: "With 14 highcard points the South hand needs one requirement for a two no-trump response. Unfortunately for the man who bid no-trump, it falls dismally in a most important re-

# Worry Clinic

By GEORGE W. CRANE  
Ph. D., M.D.

CASE 5385: Ellen D., aged 47, sings in a church choir. "Dr. Crane," she asked, "I minister always tells us to 'love our hearts and heads' when he starts to pray."

"But I don't understand why he talks about bowing our hearts."

"People don't bow their hearts any more than their stomachs or lives, can they?"

The Greek philosopher Aristotle was one of the greatest scientists of antiquity.

In fact, the wise men of all surrounding nations sent him their observations and raw data so he could compile them.

And as that time, mankind had no microscopes or other modern tools of science.

So a great debate developed as to where the seat of the soul was located in the human body.

Aristotle argued that if a soul obviously must be in direct contact with every square inch of the skin and also the internal organs.

Although the wise men of his day didn't perform the precise dissection or autopsies that we now routine in hospitals, they did know that the heart seemed to be connected with all regions of the human anatomy via blood vessels.

As a result, Aristotle decided that the heart was the center of our soul and consciousness.

"But, Dr. Crane," you may inquire, "what did he think was the function of the brain?"

Since it had very little blood and had a gray color, he deduced the brain as being the cooling chamber for the blood.

Thus, they would have compared it with the automobile radiator of today.

Another reason for placing the soul in the heart, was the belief that such a vital spot should be doubly protected, as by a cage of bones.

The heart is thus shielded by ribs, plus breastbone and backbone, which further supported Aristotle's viewpoint.

Although we now realize that the brain is the real center of consciousness (soul), Aristotle's ancient concept of the heart still shows up in modern language and current customs.

On Valentine's day, for example, candy boxes are often shaped like a big red heart.

Ang even Cupid is pictured as shooting his darts at the heart to produce romance.

# Horoscope Forecast

**TUESDAY, FEB. 1, 1972**  
**GENERAL TENDENCIES:** You may have minor delays and stumbling blocks in the path of your progress, but this is nothing to worry about. It can turn out to be a successful day by putting your finest efforts in whatever you are doing. Show that you have faith. Use more kindness and courtesy when dealing with your fellow man. Your abilities are particularly high at present.

**ARIES (Mar. 21 to Apr. 19):** You may be under the wrong impression as to your real position with associates, so double check and make sure. Being extremely careful in spending checks can save money for you. You need a better way to handle routine work so that you have more leisure time. Confer with experts who know all the shortcuts. Attend a social gathering tonight and have fun.

**GEMINI (May 21 to June 21):** You have to start early and delve into the work ahead of you so that you please higher-ups and gain what you want and need. Show that you think clearly. Relax with mate tonight.

**MOON CHILDREN (June 22 to July 21):** You are able to have delightful talks with friends today. Something very good can come of this. An evening spent among your favorite books can be most enlightening.

**LEO (July 22 to Aug. 21):** Your desire to please good friends in some way should be followed through, so that you gain more goodwill in the days ahead. Remember: "A friend in need is a friend indeed."

**VIRGO (Aug. 22 to Sept. 21):** An excellent day to buy or sell with astuteness and fairness, thereby resulting in satisfaction on all sides. Show that you practice what you preach. Have fun tonight.

**LIBRA (Sept. 23 to Oct. 23):** You think that you can now overlook your responsibilities and go off on a tangent, but this could make it more difficult to handle later on. Show that you have wisdom.

**SCORPIO (Oct. 23 to Nov. 21):** You are so intent on getting your own way now that you could easily antagonize allies and cause much trouble. In stead, show that you are a fair and just person. Use reason.

**SAGITTARIUS (Nov. 22 to Dec. 21):** You have confidential affairs that need to be handled in a conscientious fashion. Use your finest tact. Engage in the social fun you like in the evening. Take make alone.

**CAPRICORN (Dec. 22 to Jan. 20):** You have made some fascinating friends of late, but make sure not to annoy them with affairs they are not interested in. Put them into the right category. Take it easy tonight.

**AQUARIUS (Jan. 21 to Feb. 19):** You are interested in something of a civic nature and this is a fine day to pursue such activities and get excellent results. Making the right contacts can help you in the future.

**PISCES (Feb. 20 to Mar. 20):** You have some excellent ideas, but some persons may try to discourage you. Don't let this deter you from going ahead with them. Show your Piscean ingenuity. Relax tonight.

**IF YOUR CHILD IS BORN TODAY:** . . . he or she will be one of those children who is a human dynamo and will waste no way at any cost. This could be annoying. However, be patient. Be sure to give religious training early in life and express love. Then the chart here becomes successful.

"The Stars impel, they do not compel." What you make of your life is largely up to YOU!

# Julie & David

JACKSONVILLE, Fla. (AP) — Julie and David Eisenhower have scheduled a \$100-a-couple reception here March 22 to aid President Nixon's re-election campaign fund.

The chairman of the event, George Champion Jr., said the reception Club would be limited to 175 couples.

**Thos. Stafford**  
HOUSTON, Tex. (AP) — As-tro-naut Thomas P. Stafford became the youngest general officer in the Air Force Thursday night when he received a surprise call from Vice President Spiro T. Agnew telling him of his promotion from colonel to brigadier general.

Stafford's promotion is subject to Senate confirmation. "It will be quite a while before I'll be able to put on the stars," he said.

## Polly's Pointers

By Polly Cramer

**DEAR POLLY:**—To keep my mind off my divorce, I decided to encourage married couples to do everything within their power to save their marriages. Lately, you give the impression that divorce could be the answer for some couples.

**FATHERLY READER:**—Why? DEAR READER: Because I think it's more important to save people than marriages. And in some cases, in an effort to save the marriage, people have destroyed themselves.

**DEAR ABBY:**—Our 7-year-old printed the following letter to Santa: "Dear Santa, all I want for Christmas is for my mommy to quit smoking because I love her very much and don't want her to die. If you bought more toys for me or little boy because all I want is a Mommy who doesn't cough anymore, and doesn't get nervous when she can't find a cigarette butt, thank you." BILLY:—His Mommy cried when she read it. But she's still smoking.

**DEAR DISGUSTED:**—Mommy's hooked. If she really wants to kick the habit, she can, but she'll need encouragement and understanding.

# We The Women:

Some of the things children never learn even if you tell them and tell them and tell them.

That light switches turn OFF as well as ON.

That "taking a shower" does not necessarily mean the same thing as "use all the hot water." And that, "I'm just going to bed" doesn't mean the same as "running through the upstairs hall, throwing darts or spinning 83 glasses of water (one sip at a time)."

That we are willing to shoulder all the blame if they

are invited someday to go mountain climbing and are caught in an unpractical, unpractical, unpractical situation, like when you're going to clean your room.

That anybody who builds walls out of soft drink cans in their bedroom is crazy. (And that not one other mother in town is crazy enough to allow it.)

Some of the things we'd like to know about some children and are never (well, almost never) afraid to ask:

Why won't you come when called to the dinner table instead of sitting around like a guru studying a thorn in his foot?

Why do you want to repair mini-bikes in the living room and read books in the garage?

Why can't you think of a more original answer than "Tomorrow" if asked when you're going to clean your room?

Why can't you think of a more clever remark than "I'm out there when a parent is screaming over the discovery of a garden hose hooked up and running in the basement?"

## Highlights

80 (CBS) GUNSMOKE. "The Pretender" Claude Akins, a character actor whose specialty is playing the heavy, is right in form for this episode. Claude is an ornery guy with a vicious dog who terrorizes a widow. Jacqueline Scott, on her ranch, does one way the pet of her children, until it turned vicious.

89 (NBC) ROWAN AND MARTIN'S LAUGH-IN. John Wayne is back again in his role of a port-spouting, out-of-character misquoting, a la Henry Gibson. Medical Center's Chad Everett shows more attention to his nurse than the patient on the operating table. Dr. Ben Hunter and Jack Carter are other guests as the show takes a look at the nation's economy.

89 (ABC) PLIMPTON. ADVENTURE IN AFRICA. The world's leading amateur turns adventurer, takes his camera along and sets out in search of an elephant named Ahmed. He lived the world's largest living land creature. It's all part of a magazine assignment for George as he heads into Kenya with noted guide Simon Traher and Corporal Walter Walker, who is permanently assigned by the Kenya government to keep aware of the elephant's movements. Plimpton catches up with Ahmed and takes some impressive photos.

9:30-10 (ABC) MONDAY NIGHT MOVIES. "Where Eagles Dare." (PART II) It's action and suspense you expect Doris to patch up that romance.

10-11 (CBS) THE SONNY & CHER SHOW. In Tony Randall's dressing room at his "Odd Couple" set, the radio is always tuned to classical music, and Tony—not much of a singer but well versed on the music—sings along. Now he gets his big opportunity to sing light opera in public. He stars in "The Student Prince," with Sonny and Cher "co-starring." The Honey Cone, a female rock group, sings its first record, "One Monkey Don't Stop No Show," and Cher, having some fun playing notorious ladies of the past, Lady Chatterly and Sadie Thompson, and sweet Maid Marian.

10-11 (ABC) BANGLADESH. Winning independence from Pakistan was one thing, coping with the couple who rule. Then Doris discovers a horrible mistake: her boss wanted his sister to get her former fiancée and expected Doris to patch up that romance.

9:30-10 (ABC) MONDAY NIGHT MOVIES. "Where Eagles Dare." (PART II) It's action and suspense you expect Doris to patch up that romance.

## TV Time Previews

10-11 (NBC) MONDAY NIGHT AT THE MOVIES. "Deadlier Than the Male." Richard Johnson is building Drummond and his assignment is rather fetching since his partner is to find two attractive young ladies, Elke Sommer and Sylvia Koscina, whose beauty and charm help him in his profession—they are hired killers. Will he succeed and attention grabbing.

9:30-10 (ABC) MONDAY NIGHT MOVIES. "Where Eagles Dare." (PART II) It's action and suspense you expect Doris to patch up that romance.

OVER 65 ONLY: APPLICATION PERIOD ENDS MIDNIGHT THURSDAY, FEBRUARY 3, 1972.

# Here's where most folks over 65 find out...too late... what Hospital Medicare does not pay...

Now, for just \$1 for your first month's protection, you can examine 'on approval' this sensible, affordable Plan! New Elder-Care® pays you Tax-Free Cash — lifetime maximum benefits of \$50,000.00! After the initial deductible, this Plan covers major hospital expenses that Hospital Medicare leaves out! ■ only \$3 a month after the first month! ■ no age limit ■ guaranteed renewable ■ all pre-existing conditions are covered! Your first month is only \$1. And you get your dollar back if you're not completely satisfied.

### MEDICARE IS GREAT — BUT!

Wake up, friends. Blessing that it is, please realize that Medicare isn't everything many folks suppose. It has — deductibles, percentages and charges that you must pay out of your own pocket. And recent changes have increased those costs. You pay more! What a shock to find this out too late. Today, even with Hospital Medicare, a long siege of illness in the hospital could leave you with crippling financial debts.

### DON'T LEARN THE FACTS THE HARD WAY!

After you're laid up, it's a little late. Under Hospital Medicare today you pay the initial deductible for each "benefit period". That's the first \$68 of hospital expenses. Then from the 61st day of the period you must pay \$17-a-day. After 90 days this increases to \$34-a-day — \$238-a-week, \$1020-a-month — that you must pay. Plus you start dipping into your Hospital Medicare 60-day "Lifetime Reserve". And after your Lifetime Reserve is used up, Hospital Medicare won't pay you a cent for the rest of that period. Think what a long spell of illness could mean — the slow kind that older folks get more than anyone else! You could be stuck with unpaid bills that could wipe out retirement savings... and plunge you deep into debt!

### THIS PLAN IS A MUST FOR ANYONE OVER 65

If you feel Medicare charges are confusing, you're right — they are! Worse — they're expensive. Part A of Medicare is Hospital Insurance, designed primarily for in-hospital costs. Part B is Medical Insurance, for doctors and medical service bills. The Elder-Care Plan protects you for every eligible Hospital Medicare expense that Hospital Medicare doesn't pay. After your initial deductible, you're covered for all major Hospital Medicare hospital charges — with no time limit — no matter how much or how often you collect — until you receive \$50,000 worth of total lifetime protection! And no matter how Hospital Medicare charges increase in the future, you won't worry. This Plan fills in automatically! We believe there's no finer Plan in America today!

### YOUR MEDICARE CHARGES KEEP INCREASING

The law requires that Hospital Medicare charges must be reviewed each year — and if hospital charges change significantly, the money that patients contribute must be adjusted the following year. Well, it's no secret; it's already happened three times — in '70, in '71 and again in '72. In fact, hospital costs have TRIPLED in the past few years. And are still increasing! There's little doubt about it. You'll wind up paying even more. That's why our Elder-Care Hospital Plan makes so much sense!

### THE COMPANY BEHIND YOUR ELDER-CARE

Elder-Care is issued to citizens over 65 no matter what their present state of health by Union Fidelity Life Insurance Company of Philadelphia. A progressive old-line legal reserve company, Union Fidelity is recommended by both *Best's* and *Dunn's*, the insurance industry's leading independent rating authorities.

### IMPORTANT ANNOUNCEMENT

**MEDICARE COSTS JUMP AGAIN!**  
Now You Must Pay 13 1/3% MORE!

Effective January 1st 1972 Hospital Medicare payments increased again, by law! Just as in past years, amounts that patients must pay rose very sharply — up 13 1/3%! Fortunately ELDER-CARE covers increased hospital charges... yet it still costs just \$3 a month. Today your initial deductible is \$68 (up from \$60); after the 60th day you must pay \$17 per day (up from \$15); and your "lifetime reserve" contribution is now \$34 per day (up from \$30). These continuing annual increases make it more important than ever to protect yourself at today's rates! Send your Application NOW — before the postmark deadline.

### EVERY ADDITIONAL CHARGE IS ANOTHER PROBLEM FOR YOU

The Social Security Administration estimates that Medicare will pay less than half of your total health cost! That's why this Elder-Care Plan is so important. It assures you virtually complete hospital coverage no matter how much Hospital Medicare pays (or doesn't pay) in the future. It assures you will never be saddled (or saddle anyone else) with bankrupting hospital bills. It's like having up to \$50,000 set aside against a rainy day!

### HERE'S WHAT'S COVERED AND NOT COVERED

There are no tricky "catches" or "waiting periods". All pre-existing conditions (physical illness you've had or have right now) are covered in any recognized hospital, from the moment your medical or State Government facilities, mental institutions, sanitariums for alcoholics or drug addicts, and geriatric extended-care facilities like nursing or rest homes. Loss paid by Workmen's Compensation or Occupational Disease Laws is not covered. Your plan cannot be cancelled as long as you pay your premiums, and the \$3 rate cannot be raised, unless a general rate adjustment — up or down — applies to everyone in your state.

### 9 IMPORTANT QUESTIONS AND ANSWERS

- 1 Q. If I have Hospital Medicare, why do I need this Plan?  
A. Hospital Medicare, with its maximum limitations, was never designed to cover all hospital expenses. But the amount you pay gets bigger! \$17-a-day is up from \$15! \$34-a-day is up from \$30! Where will it all end! These increasing charges could cost you thousands of dollars. But Elder-Care helps relieve your hospital money worries until you receive \$50,000 in tax-free lifetime total benefits.
- 2 Q. How do I collect my benefits once I'm in the hospital?  
A. There's a simple form to be completed by you and your doctor — and that's all there is to it. As soon as your request reaches us, it gets immediate attention. Folks all over the country have praised the speed and efficiency of Union Fidelity's claim service.
- 3 Q. Can I apply if I'm not in good health?  
A. Yes you can. No matter how poor your health, there's no waiting period. And of course, any accident or future health condition is covered too.
- 4 Q. Can you cancel me, or raise my rates if I go in and out of the hospital, or if I collect thousands of dollars?  
A. Your Plan cannot be canceled as long as you keep up your premiums — no matter how often, or how much you collect — until you receive \$50,000 in lifetime benefits. What's more, the \$3 rate cannot be raised, or benefits changed, unless a general adjustment — up or down — applies to all Elder-Care policyholders in your state.
- 5 Q. Does this plan cover doctor bills?  
A. No. Private doctor bills are not covered by Hospital Medicare because they do NOT come under the hospital part of Medicare. For protection against doctor bills make sure you're signed up for the Medical part of Medicare through the Government.

## Salvation Army Buys Center Site

The new Salvation Army \$240,000 Community Service Center will be constructed on a four-acre piece of property located between 22nd and 23rd Streets. The property is one-half block off French Avenue and consists of a full block in width and a half block in depth.

Capt. Billy Lyons, of the Salvation Army, stated that the Army and its advisory board have been seeking suitable property on which to locate the center for over five years. He said the Army had studied Seminole County and the area served by the Army within the county to determine the best possible location for the new center.

Lyons said, "When the Salvation Army builds a new facility it must look ahead for the next 50 years."

## Lying Witness Put Two In Death Row

PANAMA CITY (AP) — The state's chief witness in the murder trial of Freddie Pitts and Wilbert Lee admitted that she lied at their first trial and the men who spent eight years on death row were innocent, the Miami Herald said in Tuesday's edition.

The Herald said the revelation came in a legal conference between defense and prosecuting attorneys.

No judge was present, but a stenographer recorded the conversation, the Herald said.

In a story by Gene Miller, the newspaper said witness Willie Mae Lee "changed her story and said none of her previous testimony was true, that Pitts and Lee did not kill Jesse Burkett and Grover Floyd, and she wasn't the alibi and had no personal knowledge of it," the newspaper said.

## Gov. Askew Opens Legislature

TALLAHASSEE, Fla. (AP) — Gov. Reubin Askew today asked the 1972 Florida Legislature to declare a moratorium on all executions in the state until July 1, 1973.

He said he had "serious doubts" about the necessity and rightness of the state taking action to approve sale, purchase or lease of the public lands. "Visibility and unrestrained public debate" should be preserved in the restructuring, he said.

Conceding that the Democratic governor also urged lawmakers to give him broad new powers in the areas of environmental control and regulation of public utilities.

He specifically proposed: — Creation of a new "Department of Environmental Affairs," which would be a consolidation of six existing agencies, placed fully under the control of the governor.

However, he said the governor and six member elected cabinet should sit as a state Lands Commission to approve sale, purchase or lease of the public lands. "Visibility and unrestrained public debate" should be preserved in the restructuring, he said.

Conceding that the Democratic governor also urged lawmakers to give him broad new powers in the areas of environmental control and regulation of public utilities.

# Robson Store Fire Loss Many Thousands

By GARY TAYLOR  
A wind blowing in the right direction, quick action by the Sanford fire department and a four-brick thick fire wall kept damage at two adjacent businesses, to a minimum, while the loss soared into the thousands of dollars at Robson's Sporting Goods as the result of a fire last night.

Fire Chief G. Manning Harriett reported three pumps, three engine companies and a hook and

EMBERS FLY IN HIGH WINDS  
Sanford skies were lit up last night as firemen battled a major blaze at Robson's Sporting Goods on East First Street. Firemen's actions and thick fire walls in the old building contained the inferno to Robson's, with only smoke damage to adjacent furniture store and auto agency.

## Culpepper Hits School Officials

By BILL SCOTT  
Dr. Stuart Culpepper, School Board member from Altamonte Springs, accused the school administration of mobilizing its staff to study the extended year (so-called 45 school plan) for implementation unless the South Seminole PTA civic officials and others become more involved in forcing a successful millage election.

In a letter to the school parents groups, city and civic officials, Dr. Culpepper said, "It is quite obvious that this plan will be adopted with or without community support unless you and your organization becomes more involved."

Culpepper said, "The Sanford-based power structure is not going to risk being voted in March and 'it appears to be adopted to solve an economic problem even though it may cost as much or more to set up than if we build needed schools and operate in a conventional way.'"

Culpepper urged the South Seminole groups to exert considerable political influence should they agree that the issue should be decided by a vote of the people.

"It appears at this time I do not have the political power to get this on the ballot in March or any other time unless the other School Board members change their positions," Culpepper continued. He added it would take a massive and unimpeachable effort by South Seminole County residents to approve a millage election should the question be placed on the ballot.

Culpepper concluded with the observation that a candidate for District Three, School Board, should be found for the November election.

## Gov. Askew Opens Legislature

# Death Row Moratorium Urged

TALLAHASSEE, Fla. (AP) — Gov. Reubin Askew today asked the 1972 Florida Legislature to declare a moratorium on all executions in the state until July 1, 1973.

He said he had "serious doubts" about the necessity and rightness of the state taking action to approve sale, purchase or lease of the public lands. "Visibility and unrestrained public debate" should be preserved in the restructuring, he said.

Conceding that the Democratic governor also urged lawmakers to give him broad new powers in the areas of environmental control and regulation of public utilities.

He specifically proposed: — Creation of a new "Department of Environmental Affairs," which would be a consolidation of six existing agencies, placed fully under the control of the governor.

However, he said the governor and six member elected cabinet should sit as a state Lands Commission to approve sale, purchase or lease of the public lands. "Visibility and unrestrained public debate" should be preserved in the restructuring, he said.

## Turner Charged

NEW YORK, N.Y. (AP) — Glenn Turner, an Orlando millionaire businessman, who has been accused of pyramid sales practices, ran into more legal action in New York and Pennsylvania Monday.

In New York City, Turner was ordered to show cause why he should not be held in contempt for failing to comply with a court order against his business practices in this state.

Manhattan Supreme Court Justice Edward T. McCaffrey made the order returnable Feb. 10.

A spokesman for State Atty. Gen. Louis J. Lefkowitz said Turner had failed to comply with two requirements of a court order obtained in December, 1970 — that he cease fraudulent operations and reimburse New Yorkers who had been victimized.
