#### Work, Not Dole

One of the nation-wide campaigns now getting under way for the purpose of relieving unemployment and of tak- BY LABOR HEAD ing care of those who otherwise would be charges of charity, is the "National Clean up and Paint up Campaign". Using the slogan "An Hour of Work Beats a Dollar of Dole" as an excellent war cry, the Wasnington bureau of this organization is urging charity associations, as well as cities and counties, to give jobs, merely cleaning things up if nothing else is available, instead of supporting bread lines where food may be obtained without work.

Wherever the free lunch counter has been maintained, whether in ancient Rome, or in modern England, its effects upon public morality, initiative and self respect have been disastrous. One cannot live off a public "dole" for any length of time without becoming a permanent object of charity. Workingmen in this country, unable to obtain work hours and assured employwork, do not want gifts; they want work. Unfortunately ment were demanded yesterday by dent had failed to call a conference there are not enough jobs to go around at the present time, but jobs can be created with a little careful thinking on the part of those in authority.

Almost every city in the country has its full share of vacant lots, covered with weeds and refuse of all kinds, its stagnant pools of water, mosquito hatcheries, and countless eyesores, which if not breeders of disease, are at least revolting blotches on what might otherwise be a beautiful landscape. While there are hundreds of able men with nothing to do, who must be fed by the general public, er shall they say, Lo here or, there is a wonderful opportunity for putting our towns in there! for, behold the kingdom perfect order, for making them as spic and span as a perof God is within you. - Luke fect housekeeper's kitchen, and at comparatively little ex-

Give men something to do and taxpayers will not have to worry about a dole. Workers want no charity, if they O Lord, wide-circling as the can find work. Paint up! Clean up! And relieve unemploy-

#### Safe Motoring

The railroads of the country are spending a great deal of time and money in a enovement to educate the motoring public to the importance of careful driving. They are trying to reach the automobile driver before the accident oc-curs, realizing that it does little good to preach caution to a man who has already been run over by a freight train. So the Atlantic Coast Line Railway has recently issued some two hundred thousand cards to school children with the request that they be turned over to their parents. The cards make the following suggestions:

1. Before passing over railroad tracks make sure no and municipal sources. train is approaching. Look out for signs and signals indi-

2. Control of your car insures safety. To be safe, horn and brakes should be maintained in perfect condition. 3. Courtesy of the road demands respect for rights of

others. Give driver behind you proper signal before coming 4. It is not safe to pass another car on a curve, or

while ascending a hill. 5. Unnecessary hurrying is one of the greatest breeders

of accidents. A few moments delay may save a life. 6. Your best efforts can be used in developing and crystallizing public opinion in favor of strict and sensible regulation, uniformly enforced.

7. Careful driving is the salvation of highway street traffic. Won't you please be careful?

ONE FORMULA for relieving business depression has been successfully tried out during the past few months and is now in operation throughout the country. The formula is lower prices, and in proportion to its adoption there has been an increase in the circulation of trade money and a gradual return of better times. The formula has not been fully adopted in some parts, particularly in a few of the larger urban centers, the result being a continuance there of the business depression, sluggish money circulation, increased unemployment and unsettled conditions generally. The majority of people of the country, have money. The amount of it that has been put out in sound investments is notable. For example, the amount invested in life insurance the first half of this year is \$ 250,000,000 more than the same period last year. Most Now that Calvin Coolidge has spending. When they buy now they expect a fair price. No select the property of the pleasure of the price assured of at least one vote. more inflated values. Prosperity will return, but it will be on an economy basis:—St. Petersbury Independent.

Beer was described by Green as the "spark" which would accelerate industry and "lift us out of depression, just as the automobile took us out of the bad times of 1921.

Wage maintenance, shorter the executive council of the American Federation of Labor to meet winter unemployment which it

estimates at 7,000,000. proval before the federation convention here, the council said it foresaw modification of the Volstead Act. It promised to continue its fight for 2.75 percent beer. First on its legislative program for the coming session, it placed basic date bearing on wage earna measure to limit the use of court injunctions in labor disputes. diOpposition to a sales tax was volced along with approval of higher taxes on "great wealth."

Phillippine independence was favored, as was a federal coal commission to regulate the bi-tuminous coal industry. Bankers "repeatedly urged upon the presiwho advocate wage cuts were dent of the United States that he sternly criticized.

Wage maintenance was scribed as a levee against further unemployment, but there was no among several leading industries, progress against retrogression. In its program for those out of Norman Linesay, need for rellef, but made no reference to federal funds in this

It said ample provision for the needy should be made in every community "both from private

From a summary of compul insurance sory unemployment systems in England and Germany, the council concluded such legislation was "unsuited" to the American wage earner.

Coupled with this, however, went blasts at owners and employers of industry for failing to offer either a plan or a remedy for the evil of unemployment."

They would be the blame, the council said, if compulsory unemployment insurance laws were en-"It must be work or unemploy-ment insurance," the council said,

asserting much of the trouble in the nation's industrial mechanism was due to the "unequal distribution of the nation's income. Only 1,000,000 persons would remain to be taken care of this winter, it was concluded, if the 3,000,-

000 employers, excluding farmers,

would only employ on an average of two additional workers each. Extension of the public build-ings program, the strengthening of employment agencies, preferences for workers with dependents were additional steps suggested to alleviate the unemployment

The federation has already gone

seeking to bring that about.
"It is generally understood that

next session of Congress providing for some such modification of the Volsteed Act sa has been repeathigher plane. Our program is edly proposed by the American more than a definition of evils or Federation of Labor," the council

Adding it would give such legislation full support, the council said indications were that pubopinion was undergoing a marked change and that the Volstend Act would be, amended to permit beer "at the forthcoming session or a' some furture ses

of bituminous coal miners and operators was expressed and support pledged to a bill to put the iniation

The industry, the council said, "has shown by its sordid performance" that it is unable to "rescue of cutthroat competition." A federal labor board to gather

ings and to make constructive suggestions was proposed. Comprehensive planning to

avoid future depressions was stressed. The council said national economic conference would disclose the way.

call a national economic conferde- ence to find the way forward."

Here in America is the stupenmention of recent wage cuts dous conflict of opposites, of

### S. Y. CROSS PICKS 14 WENNENG 11'S IN GRID CONTEST

#### Hinlaw, Houk AlsoWin Tickets To Theater; 70 Fans In Contest

Exactly 70 Sanford experts, entered in the Herald's seventh anmail Pick-The Winner contest last week, made a better than average string as compared with last goat's selection, but only one "exputt" Sam Y. Cross, local cunpractor, was able to pick 14 out of a possible 15 winners, Mr. Cross greened right on every game ext and 10 yards for touchdowns, copt that played between Car- and of young Shaw Buck, the Panegle Tech and Washington and latks wonder, whose 75 yard dash Jefferson College, Carnegie Tech through the entire N. C. State was the favorite, but, the game feet to W. & J in a surprising up

Mr. Cress, together with Stinson Kinlaw and H. W. Houk, winfep-their ability at guessing the tough game with North Carolina to one touchdown in the first half two tickets to the Milane Theat r. modt number of winners. Mr. Kinwho selected 13 out of 15 winners, come out in front easily, His selection was the third handed in Mr. Cross's was the fourth handed in, while Mr. Houk's was the sixth handed in. The moral therefore being, get that list in

Mr. Kinlaw selected Carmgie Tech over W & J and South Care line over W & J and South two-line over Georgia Tech, both being wrong guesses, while Mr. Houk-pleted W & L over Davidson shill Carnegle Tech over W & J.

Theh of the 70 persons entered ash week are expected to continue their solictions during the coming weeks. A ticket to the University of Florida-University of Kentucky football game at Jacksonville, Doc, 8, awaits the winner of the souther at the end of the season. All farm who did not join the contont last week, have this week in which to make up their chance of winning the football tirket, but this is the last week to compete for that prize. The awar, will be board on the percentage of wins a his Seminola High team are recontestant has for the season, not on the number of games he picks correctly. Let's have about 30 more contentante.
