SANFORD + Travelers heading to the Caribbean will soon be able to fly out of Orlando Sanford Airport.

Beginning Feb. 13. Wainwright's Vacations. headquartered in Pennsylvania, will offer flights to Grand Cayman, Jamaica, St. Marten, U.S. Virgin Islands and Turks and Catcos

Airport officials, who have been froning out the details of the deal for the past several months, said the partnership would Hons each week. Flights will be departing twice each day except on Wednesdays.

Local travel agencies that have brochures for those interested in pack-

age vacations, accertise free parking at the airport. Another carrier, Eastern Caribbean Air, which also had planned to fly out of Sanford, had its first and last flight last month. Because of problems with ticketing procedures, the airline will not be offering service out of Sanford, airport officials said.

Reno Air is currently the only scheduled domestic carrier leaving

from Sanford with service to Biloxi. Miss.

### Kozak named publisher of the Sanford Herald

By MARIA OREM Herald Staff Writer

SANFORD - Dennis Kozak has been named publisher of the Sanford Herald, which is owned by Republic Newspapers, Inc. of Knoxville, Tenn.

Kozak, 42, has spent 16 years in the newspaper business in positions ranging from advertising manager to editor to publisher. Prior to coming to the Herald, Kozak worked as general manager for Info America Phone Books, an independent com-

pany in Panama City. "I came up the advertising ranks," he said. "It's all been kind of like a natural progression for me.

What Kozak enjoys most about the newspaper business, though, is that it's different every day and gives him the opportunity to deal with many businesses and members of the community.

"It's never the same old, same old," he said. "And if we do our job right, we provide a service to the community by supplying the best local information available. We provide the detail that radio and

television don't have time to provide on their soundbites."

Kozak said there are plans to introduce some new things into the Sanford Herald in fairly short order. The best thing the newspaper can do for the community is to expand its focus, he said.

### The way we were: The war years

I thought you might enjoy reading of a few happenings in Sanford 60 and 55 years ago so I gleaned some events that occurred January 1938 and January 1943 from Sanford and the World War II Years: 1936-45 by Peter Schaal. If you're not familiar with his book, he gives a day by day chronology of life in Sanford during that 10 year period as reported in the Sanford Herald. As you can imagine, there is a wide variety of information in the book which even includes births, marriages, deaths, adoptions and birthdays.

Mr. Schaal is also the author of Sanford as I Knew It which covers the years 1912-1935. It's a shame he did not complete the two other books he had planned which would have brought us a history of Sanford through 1970. I know he was

### On the county's adult entertainment decision

Seminole County commissioners made a tough decision this past week when they designated two sites on the west side of Sanford for future adult entertainment sites. It's no surprise that not everyone was pleased after the airport area fell from the list of choices, leaving three acres on Rand Yard Road, near Central Baptist Church and Page Private School. It's pretty isolated property, as is the second site, 16 acres on the south side of the CSX Railroad tracks, north of Jewett Lane.

John Williams, vice president and general manager at Wayne Densch. Inc., located at Rand Yard Road and State Road 46, confirmed that Densch, Inc. has already bought the first parcel for expansion of the beer distributorship. "No need for anyone to worry about anything else on this property. We intend to stay," he said.

Sanford's county commissioner, Daryl McLain, and its mayor, Larry Dale, along with Sanford Commissioner Brady Lessard and others are convinced the industry will never locate to these remote and undesirable spots.

We aren't' prepared to take such an unequivocal stance. (Never say never.)

But we are convinced that the decisionmakers worked long and hard on this one. As painful as it is to those businesses, churches and schools that must wait and wonder if an adult entertainment establishment might open nearby, the county and Sanford were constitutionally correct to provide for diversity in our free country. A small consolation might be that all the cities in Seminole County must provide an avenue for legal businesses, including adult clubs, to operate within their borders. Sanford already had four sites, for which no interest has been expressed in the four years they have been available. Lake Mary, Longwood, Oviedo, Winter Springs, Altamonte Springs, Casselberry and Fern Park also have designated sites on which an adult business could open.

County commissioners face one last decision on this issue; what to do with existing adult businesses, now flourishing in Fern Park. Should they be grandfathered in or made to move to the new Sanford sites? We urge that Sanford not be made a dumping ground for all the ills associated with these types of businesses: prostitution and drugs in particular; Sanford has enough problems with these crimes.

Existing clubs must be allowed to operate where they have been for many years instead of forcing them to move to Sanford. The lawsuits that would follow forced moves would be a heavy burden on taxpay-

Although in designating two sites, Sanford officials have acquiesced to protect free speech and artistic expression, we believe the city that a few years ago resoundingly opposed as immoral gambling riverboats sailing from its port, has not opened its arms to embrace the adult entertainment

ORANGE COUNTY-I told you why I believe they wanted the penny tax...for the Light Rail, not for schools. Could I have been correct? Some still want to contend that the voters said yes even though they said no.

Seminole County high school students and their attempt to get support for their trip to Washington is a perfect example of the real interest in our students and education. I said it then, and I'll say it now, where are those very same people who wanted to support education and our children? Where are they!

If these students cannot raise \$3,600 in donations from the business community to attend Washington '98 representing our community and the State of Florida, how could we ever support the concept that these people care about schools and our children. Hang this on the refrigerator door so you'll have it when they come calling again for a tax increase in the name of our children. They spent untold amounts of money promoting how much they cared about our children. I told you the children were the balt. Was I right?

### The system: Super crime forecast

With our government in total control you wouldn't believe the lawlessness or political disorder, the destruction and confusion we're

Our local government leaders have become political spoiled brats who are vulture off of their supporters and taxpayers who contribute mostly to their system. It is much easier to believe in a lie than to face the truth.

Our role as voters and taxpayers is not only to believe in what is spouted from politicians' lips, but see that their hearts are with you. Let me share this with you. While our local government and political leaders are battling over City of Sanford police issues, based on the Florida statewide offense data annual report that was faxed to me by one of our state senators, we're actually in trouble countywide.

in 1992 Seminole County reported a total crime index of 18,245 to be shared among the nine entities of law enforcement. There were many classifications of crimes in the report, but I'll share two with you for comparison.

In 1992 there were 10 murders and 543 robberies, with 1,581 aggravated assaults. The Sheriff office had 4 murders and the Sanford Police and 2 murders. The Sheriffs Office had 188 robberies and the Sanford Police had 184 alone, with the Cheriff's Office having 867 aggravated assaults and Sanford Police having

Now in 1996 a total crime index of 15,938 hows that the county had a total of 17 murders with the Sheriff's Office having 9 on its tab and Sanford Police having 3 of the 17 murders. Out of 477 robberies, the Sheriff's Office shared 146 to Sanford Police Depts. 158 and finally out of 1,351 aggravated assaults the Sheriff's Office had 623 and Sanford Police Dept. had 358.

Even though Mr. Dillard wasn't chief during this era, it stands a fact that Seminole County needs an overhaul, not just the Sanford Police

### The sixth sense

We have all heard that old saying "when we lose the use of one of our body's senses, another one takes over." Although this may not be true in all cases, the simple fact is that when you do have limited use of one or more of your body functions which involves one or more senses, you do have to rely more on the other senses.

For example, have you ever noticed someone who operates a manual wheelchair as opposed to an electric one? If you have, you will find that their arms, particularly their upper arm area, are very strong and in some cases muscular.

While we will not review all the scientific or the psychological aspects of that thought, we will go over how this all relates to the disabled. A brief definition: The senses are body systems by which external or internal stimuli are received and transformed into perceptions or sensations in

That famous philosopher Aristotle classed five major senses: hearing, sight, smell, taste and touch. The last has many subdivisions including the senses of pressure, heat, cold, contact and pain. These have continued to be regarded as the classical five senses, although scientists have determined the existence of as many as 15 additional senses.

Another important member of the senses family is Kinesthetic Sense, the ability to feel motion through receptors found in muscles, tendons and joints. This is how many of life's creatures, including man, sense danger or trouble. Some call this a sixth sense.

This brings up another word. Adaptability. Adaptation is described this way: certain animals and plants develop characteristics that help them handle difficult situa-tions better than others of their species with their environment. This natural biological process is called adaptation.

What this is really about is not only a person's intuitive abilities, but also our ability to survive. As human beings, one of our greatest abilities is the ability to survive. Other life forms have also survived difficulties, but none other than humans has adapted so well.

Adaptability is strong in our species and this adaptability is stronger in no other group of people than the disabled. We've said it many times here at "Special People", disabled people not only survive, but thrive in their ability to adapt. This can also be described as one of our senses.

This is not to say that other groups haven't adapted to life's challenges. Anyone who is a member of any minority is obviously well versed in adapting to difficult situations. Although in many other groups, the problems usually are not quite the same or life threatening.

If you have a non-profit organization relating to the disabled and have a special event coming up, please tell us about it.

### Opposing adult clubs

I respectfully submit my feelings on the proposed entertainment facilities in our area. I will not refer to them as adult entertainment because I am an adult and am not enter-

tained by this type of business. This name certainly gives our young people a negative idea of being an adult and perhaps many of them assume that is all the entertainment there is for an adult. How sad that thought is to me and should be to you commissioners since you are I am opposed to any nudity in any club. It

doesn't sway me to be told that the government "says" there has to be certain designated areas for nude clubs or "almost nude" clubs. The commissioners are elected by the people to serve. Some of you may ask yourself are you a servant who will act boldly in the face of governmental opposition to serve the majority of your voters or are you a politician who enjoys the challenge of the win?

We are all diagnated by the amount of nudity and sex portrayed in almost all television programs, radio programs and music (although it is very hard to refer to "it" as music). Why do we keep on having to defend what is right and good and healthy for ourselves as well as the youth and children whom we represent. We have allowed certain entities (business, individuals, etc.) to expose us to degrading material whether we choose to read, listen or at-

I have a responsibility to myself to conduct myself in a manner that will bring honor. My desire is to bring honor to God and by doing so will bring honor to me and my family. However, I know I am speaking to some individuals who have never thought of bringing honor to themselves much less God so this concept is

difficult to understand. I am here to tell you that laws can be changed when bold people stand up and proclaim their desires whether these desires are for the positive or negative. Let us not assume cowardly that just because there is a law that

it is a good law. Let us go forth boldly and take a stand be-fore we lose our children and youth. I am embarrassed for them to think that nudity clubs is adult entertainment. There is nothing adult about "It"

Let us leave a heritage of responsibility as an adult to our children and youth. Let us not go with the people who are slowly becoming numb against violent sex on children and adults, violent murders on children and adults, drugs, excessive alcohol, and also numb about elective officials in high decision making positions because these people are falling fastiff Respectfully,

### Open letter

An open letter to Congressman Bill McCollum: Throughout your years in Congress you have given your total blind and unshakable support to largel and the largeli people. This support has been very unfair and blased. Your latest efforts with a handful of other congressmen. who most happen to be Jewish American, to

send an urgent letter to Prime Minister Netanyahu urging him to ignore the Clinton Administration is the most ridiculous and outrageous of all your actions while in Congress. Your letter supports a prime minister who is the least popular prime minister since Israel was illegally established in 1948.

Israel is 7,892 square miles in size. The United States is 9,191,802 square miles in aize. This makes the United States 1,164.7 times larger than larael. For each problem israci has the United States has 1,164 more

laraci has a population of 4 million people. The United States has a population of 260 million people. For each problem in largel, the United States has 65 more problems.

For each dollar of Israel deficit, the United

States has 65 times the deficit. See Letters, Page 5A

The average annual income of an Israeli citizen is more than the average citizen of Mississippi cams. One of America's poorest states.

Mr. McCollum, how many bills did you sponsor to help the poor citizens of our great country? How many bills did you sponsor to help the victims of floods and tornadoes of the Midwest? How many bills did you sponsor the help ease the overcrowding in the public school system? How many bills did you sponsor to get control of the drug problem in our country?

If you consider yourself a true and honest congressman, elected to serve the people, to serve the greatest country on this planet, you would not support a prime minister who's own foreign minister has abandoned him for being arrogant and militant. Should you elect to put your efforts into the betterment of the planet, it should not be toward Israel. Israel was founded by the British and should be left to the British and European countries to oversee. They are closer and understand the problems between the Jews and Palestinians better than

There are more noble causes in this world than to help Israel. How much help could we be to countries like Zimbabwe or Rwanda with the financial support we give Israel. Countries like these are so poor that their people are dying by the thousands from hunger and disease, human rights violations and emelty. Isracl does not need our charity!

Your record reflects that you have supported the annexation of Jerusalem into Israel. Why? The City of Jerusalem is the religious destination of more than 2.5 billion people of Christian and Moslem faith world-wide. The Jewish religion is the smallest religion on earth and you want to give the City of Jerusalem to israel, a Jewish faith. Does this make sense?

You blame the stalled Middle East peace process on the Palestinian authorities because they cannot control the commando activities in Israel. Why would you expect the weak Palestinian authorities to control something that israel with its mighty power could not control for more than 40 years? The blame should be placed with the people that have destroyed Palestinian homes and confiscated Palestinian land to build more Jewish settlements for Jewish immigrants, especially the Russian Jews. The Palestinian people have the same right to defend their country, their homes and their land just as we would if we were attached by a foreign invader. There is no authority on

this earth, not Palestinian, not the Israeli military, not the United States government and certainly not you that can stop the Palestinian people from protecting and liberating their own country until real peace and justice is well served upon the people of that area.

The American taxpayer is tired of supporting programs that are self serving to the politiclans to get votes and stay in office. A real American works for Americans, not for 7,892 square miles of land that is 9,000 miles from our shores

### Thoughts about medical care

Several months ago I had major surgery performed by Dr. Largen at Columbia Hospital in Sanford, and I want to publicly thank Dr. Largen, his staff and all the staff at Columbia who took such good care of me.

Outstanding, at least in my mind, was the fact that I was always called by Mrs. - not my given name. I believe it is only a courtesy to any adult to be called Mr., Mrs., Ms. or Miss (as the case may be) unless permission to do otherwise. Most seniors DO NOT appreciate being put on a child or teen level by being addressed by their given name, especially by 20-30 year olds. How does one get this across without being considered an "old fogey"?

As appreciative as I am to the hospital staff for taking such good care of me. I have a complaint against the accounting department. In due time I received an itemized statement showing the part the insurance had taken care of and on the opposite side were listed some items that I, as the patient, was responsible for, which was over \$1,200.

Since I belong to an HMO I decided to check it out before paying to see if I really owed all that. My HMO representative checked it over and said: "You don't owe ANY of it." Period. She said when a hospital takes an HMO patient they agree on a specified price.

Now, my question is, if this was an error in the billing department or is it done regularly? Many patients getting a bill from a doctor or hospital after illness or surgery, assume it is legitimate and pay it. Do you? Was this an erfor that occurs occasionally, or is it a regular practice by the hospital?

bringing into our county high paying jobs and is cost effective. The build-out of this county is not too many years away. What kind of bustnesses do we want and what kind of opportunities and salaries? You don't have to answer that question, it's an easy one.

Let's look further into the program. How does it affect you the taxpayer and homeowner in other ways? First, by creating clean bustness we have a cleaner and more attractive county. Secondly, because of the increase in the average wage, the property you own will increase in value and destrability should you wish or want to sell.

There is a much broader base for tax revenue. More money for schools. These are just a few of the spin-offs that benefit you directly! Now the important part of this scenario is to control taxes as we enhance and create higher real estate values in our county. My advice is to support the present economic development package but to be vigilant regarding tax increases and tax proposals. The present commission needs to be congratulated on it's efforts and the program created.

THE 17-92 CORRIDOR -- It's going to happen. A beautiful roadway from the south of Seminole County to the City of Sanford...our county seat! The only bug...bend in the road, ROAD BLOCK along the entire length of roadway is the City of Longwood. Is this political? I don't know.

COUNTY OFFICE EXPANSION -- The corner of Highway 436 and 17-92 would be a great place for an office park, possibly county of-

fices. It is a thought, placing everything along the 17-92 corridor.

JEB BUSH--I was right last week and Mortham stepped down. Bush was said to have made a small blunder. I agree, but a greater mistake may take place before you read this column. Looking at the "list" of who may be chosen doesn't excite me, or most.

Forgetting about Toni Jennings who, in my view shouldn't take the offer, there is plenty of opportunity for a major blunder. Bush is looking for a woman. The first didn't work out. He needs to look for a strong, no skeletons, running mate in Central Florida.

Some have said that Frency was Bush's downfall the last time around. Hog wash!! Bush lost the opportunity to become governor all by himself with the help of poor advisors. Will he do it again? Time will tell.

If by the time you read this column Starks is the new running mate, the governorship, in my mind, is in the bag. Welcome to the Capitol Mr. Bush. Jennings will go on to bigger and better things.

THE SCHOOLS -- I mentioned last week that students from Lake Howell High will be representing Seminole County in Congress '98 in Washington this next month. They will be in Washington from and including the 13th to the 15th of February.

Do you work for an airline? If you do, please let me know by contacting the Sanford Herald newsroom. This is a great opportunity for these students to learn about government and how it functions and for our school system to show it's support. This is an opportunity to showcase our talented students. I'll give you what I found about it throughout the book. On Jan. 25, 1937, city Commisstoner Leffler had become "father" of the proposed park along the lakefront as he urged the commission to make it that year's priority project. Then on Dec. 30, 1937 II was reported that the WPA had approved a \$30,000 park between Sanford Avenue and the Mayfair Hotel.

On Jan. 11, 1938, the Chamber of Commerce supported the DAR suggestion that the new lakefront park be named Ft. Mellon Park; the city commission voted 3-2 for this name on Jan. 24 meeting. Work was to begin when the Oak Avenue WPA Project was completed.

Ft. Mellon Park was officially dedicated on Feb. 8 in memory of Mrs. J.N. Whitner with Judge Housholder as speaker. Mayor Ed Higgins impressed the throng with his talk on

### Hard Rain: Not a shower of acclaim, but not all wet either

Hard Rain (R): Originally titled The Flood, Hard Rain finally runs its way into theaters. It is a mix of disaster film, shoot 'em up, heist film, and chase film drawing from the conventions of all three to form decent entertainment.

Christian Slater plays Tom, a restless youth trying to find a permanent niche in life. He doesn't mind the armored truck Job he shares with his Uncle Charlie (Ed Asner), but it's nowhere near what he wants, Tom and his uncle are doing a nun as Hard Rain opens, collecting money from banks closing up due to inclement weather and flooding condi-

As they try to make it through the torrential down pour, their truck gets stuck in the community of Huntingburg. Indiana, a low lying town conveniently placed next to a surging levee and, recently, evacuated due to rising waters. The two send out a distress call, and soon, a vehicle shows up to help...themselves to the \$3 million payload the truck is carrying. When Tom awakens with a bad headache, he finds himself sitting in the Huntingburg jail -how tronic seeing Slater behind defending himself against the charge of looting, a crime, i assumed, that is common during floods. However, when the local, disgruntled sheriff (Randy Quaid) hears of the money, the hunt is on to get the cash before the bandits do. And the sheriff doesn't care about returning the millions to their rightful owners either.

Screen Tests

The selling point of Hard with a natural disaster as its backdrop. There are marvelously staged sequences like the one set inside the water logged hallways of a high school, and a submerged shoot-out in the Huntingburg cemetery.

The characters must survive a barrage of bullets, barreling horny cops, gabby old women ings look more like embank-

with shot guns, and houses knocked off their foundations. Hard Rain is a film where you don't get to know the characters, but you sympathize with their plight. But then again, it is a rare occurrence in today's action films when you get developed characters that you know and can also feel for. I guess in Hard Rain's case, one out of two isn't bad.

The film is directed by Mikael Rain is that it is an action film Salomon (A Far Off Place), whose background is mostly in special effects and einematography. His credentials play an important role in the overall production design of Hard Rain He shot his film in an old hangar in California with five feet and five million gallons of water. He turns his set into runtrees, monstrous storm surges, ning canals where the build-

ments to steer boats around. It is an accomplishment since any filmmaker will tell you that water is probably the most unpredictable, difficult element to

work with. But Salomon pulls it off plausibly.

Luckily, I didn't prune, melt or drown from my experience with Hard Rain. Grant it, the

film may not be showered with acclaim when it is released, but it does manage to precipitate some excitement. Three

SANFORD - The Seminole Cultural Arts Council is aponsoring a fund-raiser at the Orlando Theatre Project production of Educating Rito on Thursday, Jan. 22, at 8 p.m. in the Fine Arts Theatre at Seminole Community

Tickets for the event are \$20 per person on sale at the Fine Arts Theatre Box Office at SCC. Funds raised from the event will be used toward cultural/historical advocacy in Seminole County.

During intermission, the new slate of officers of the Seminole Cultural Arta Council will be presented with Kathryn Hattaway, Walt Disney imagineering, as the incoming president of the Board of Directors and Brent Adamson, Rich Food Plan, as the outgoing president. Other incoming officers are Wayne Weinberg, Greater Seminole Chamber of Commerce, first vice-

Medicine, second vice-president; Pam Ohab, Ohab and Company, P.A., third vice-president; and, Bill Royster, Green, Dycus and Company, P.A., as treasurer.

The Orlando Theatre Project is a professional theatre company in residence at Seminole Community College.

Educating Rita is a delightful comedy about a young working-class wife who wants to better herself, refusing to accept both the cards that fate has dealt her as well as dusty academic thought. The play was adapted into a feature film in 1983, starring Michael Caine and Julie Walters. Academy Award nominations went to Caine for Best Actor and Walters for Best Ac-

tress that year. The London Times called Educating Rita 's marvelous play, painfully funny and passionately serious!"

## Special teachers for special students

By JEFF BERLINICKE Herald Staff Writer

One of them spends her days working with special children, trying to prepare them for kindergarten.

The other works with kids who aren't quite reading at normal elementary school levels.

It's a daunting task, one that would be overwhelming to most, but for Beverly Mitchell and Kathy Shorthouse, it's a labor of love.

Mitchell was voted Lake Mary Elementary School-related Employee of the Year Shorthouse took Teacher of the Year. Each was elected by their peers and spend their days working with kids who need a little extra attention. They don't seem to mind even a bit.

"It's such an honor because you're voted in by your peers." Shorthouse said. "It's about caring about children, but everybody on our faculty does more than their share."

They both found out about their honors in a unusual way. Mitchell was in a restroom while school officials went to her classroom to surprise her. Finally, she heard her name announced over

loudspeaker. Shorthouse happened to be in another classroom where no one could find her. Eventually, they

found out and both said they were humbled by the honor.

Mitchell works as an assistant to Jeff Stein with the pre-K kids, usually three- and four-year-olds who might need some extra attention before heading off to kindergarten. Most are physically handicapped and one student is in the hospital with a brain

Her day can be hectic. She helps with lessons and tries to get the kids to focus their attention on the daily activities. She's been doing it for almost two years.

"People ask me if I get tired at the end of the day but we see so many positive things." Mitchell said.

She described a little girl who had recently seemed inattentive and uninterested in the class but, last week, the girl went up to Mitchell and asked for help signing her

Another girl in the class, Sarah, recently served as flower girl in Stein's wedding. There are eight kids in the class, but Mitchell said as long as she takes things moment by moment, it's a rewarding experience.

Shorthouse works with kids ranging from second through fourth grade and has spent 25 years as a teacher in Seminole County. She is responsible for students who are below the recommended

### By COURTNEY LEFFEW Herald Correspondent When did high schools turn -

A prison for instance, has gates surrounding all openings, guards, and special ated areas. Take a look at any Seminole County high school and the similarities are overwhelming.

A normal high school does not make the students feel uncomfortable or trapped. It should however, have a warm atmosphere of beautiful campus grounds, and benches to sit and relax. Students should feel comfortable while there.

Before moving to Seminole County, I had never seen gates around the schools and a security system that could

double as the police force.

First of all, what kind of appearance does that give to people passing by? No one would think those buildings were schools maybe just juve-

nile delinquency centers.

The main goal for the gates I've gathered is to keep unwanted visitors off the campus. In achieving this goal, the schools have locked the gates throughout school hours, therefore, leaving stu-dents unable go from one side of the campus to the other. Students who are in the Early Release Program have to park in a particular lot to leave school grounds. Also, those students are unable to park

don't believe eighteen year old students have that yet. Most high school students however, hold jobs that require many responsibilities and lengthy hours. The schools need to place more faith into these students which soon will be

entering college. Security is also a major issue concerning schools but is an entire team needed to secure the campus? The county high schools have a police officer on duty at all times not to mention anywhere from two to five security officers. This personnel seems to spend more time disciplining the students and watching their tardiness rather than actually handling security mat-

Try to imagine a square box containing almost 2,000 students. Does squish and crowded come to mind? Schools try to take all the students and restrict them to one small designated area for lunch. sist, however, that the two siles are isolated, not economically viable and will never be used by the adult entertainment industry. They also say Sanford is in no danger of becoming an adult entertainment war zone.

"Sanford is safe," Insists Seminole County Commissioner Daryl McLain.

"We're not bringing these clubs in, we're keeping them out," says Sanford Mayor Larry Dale, who advises residents to keep the faith and remember that in the four years since the city of Sanford identified four of its own sites as part of an adult entertainment ordinance, there have been no callers.

"What people don't understand is that unless you identify areas, these businesses can come in anywhere they want," Dale said. "We've done something to protect ourselves from that. We've worked with the county to identify the least likely sites. I don't believe any of them will ever be used."

Michael Pinter, who owns Club Juana in Casselberry, said he agrees. "Sanford is not a good location," Pinter said. "Especially with those sites they've left. You could build the Taj Mahal on one of those sites and not do any business.

"It's just not a good location," Pinter said. "Mayor Dale and the Sanford people have got this thing figured out pretty well. The sites they've put out there are awful. They're not feasible for adult entertainment."

Sanford City Commissioner Brady Lessard said, "You couldn't sell boiled peanuts at the two sites identified here. Sanford is coming up smelling like roses,"

Ron Rose, president of the Greater Sanford Chamber of Commerce, said that the city and county officials did their homework and sought opinions from the community. The Chamber was against the airport sites, "I'm confident the decisions being made will keep this community free of negative influences." Rose said.

planned well," said John Williams, vice president and general manager at Wayne Densch, Inc., located at Rand Yard Rd. and Route 46. "They've seen what has happened in other communities. They seem to be focused."

Focused enough to identify a three-acre parcel on Rand Yard Road as one of the two sites that were picked Tuesday. Williams said that Densch, Inc., has bought the parcel and will use it for expansion purposes.

"We're putting our garage, drafting department and point-of-sales department in the new building," Williams said. "It's funny, but I've not noticed the county signs that were outside. No need for anyone to worry about anything else on this property. We intend to stay."

Dale said the other site - 16 acres on the south side of the CSX Railroad tracks, north of Jewett Lane - also isn't likely to attract any adult businesses. "No one is going to try to come in as remote a spot," Dale said. "Believe me, we're not giving anything away."

"Those sites are isolated as you can get," said former Sanford City Commissioner A.A. McClanahan. "I doubt anyone will try to open up anything at the sites. But I'm still upset about Sanford ending up on the ahort end of the stick. Let's hope they keep those clubs where they are now."

This is a victory - a major victory for Sanford," Dale said after the county commissioners rejected 150 acres of land near the Sanford airport - and identified the two westalde sites.

The airport acreage was an adult entertainment war zone waiting to happen, officials speculated. More than a million passengers came through the airport in 1997 and millions more were coming.

"If they left anything open, that would have been the area

of interest," said Pinter, who began Club Juana 32 years ago and intends to keep it in Casselberry. "I've opened one club and have no desire to move or open anywhere else."

Pinter expects the county commissioners will grandfather his and the other existing clubs rather than try to force them out of business or to move.

"Grandfathering has to happen," said Sanford City Manager Bill Simmons. "This will stabilize the adult entertainment industry in the county." Simmons and other city officials have worked together for more than four years to keep the adult entertainment industry out of the city.

The four sites they identified in 1994 include a small parcel near the Central Florida Zoological Park that has no access roads. Another is platted but undeveloped land at Silver Lake industrial Park. There are two lots which are part of the operational area at the airport. One of the lots is government owned and not for sale.

Mayor Dale visited the 33 acres at Silver Lake on Friday and said he expects once the roads are extended into the area there will be bids by companies to set up at the industrial park.

When the area was designated by the city as industrial siles, there was not much concern that any adult entertainment owners would have any interest. The key to this is the same as to the overall picture

of Sanford's efforts to reduce the chances of such activity and depends on whether the county grandfathers the existing clubs.

Simmons, for one, feels any other choice would be far too costly. Even if the county won court battles to make the extisting clubs move, it would be responsible for court costs and moving expenses. The greatest fear is about the time and funds that would have to be spent.

With the vote expected at the next meeting or early February, three of the five county commissioners seem to favor grandfathering.

"I'm disappointed we haven't done enough," said Commissioner Grant Maloy, "I've opposed and still oppose the total nudity that is allowed in these places. This isn't something that Seminole County can take much pride in - being a haven for total nude dance clubs.

"Now, we're about to grandfather these chibs while also opening the doors to a new war zone in Sanford."

Maloy, unlike the Sanford

officials, said he is concerned about what was down the road. He voted to keep the airport sites in Sanford rather than for the westside sites.

Time will tell who was right.

Buchanan's fingerprints were examined by the Federal Bureau of Investigation. The feds caught up with her and Seminole County deputies took her into custody at the John E. Polk Correctional Facility.

"This is a 'Go Figure' story," said Lt. Jack Cash of the Seminole County Sheriff's Office. "If not for the bus driver's job and the finger-printing process, this woman would probably still be free. Everyone has to be finger-printed, which is obviously a good rule.

"We doubt that the children were ever in any danger," Cash said. This wasn't a case of being around a pedophile. This woman hasn't caused any problems for some time, which is one of the reasons she remained on the loose."

Buchanan was residing at 1501 Indian Cypress Trail in Geneva at the time of her arrest. Cash said that she is a 5 foot-4, 145-pound white female with brown hair and

hazel eyes.

Buchanan will be held at the Seminole County jail pending her return to Tennessee.

### Winter Springs looking at a very bright athletic future

SANFORD \_ Do you hear that rumble coming out of Winter Springs High School? it's coming from the athletic department where the girls and boys basketball teams are turning into a potential threat to every one of Seminole County's powerhouses.

Sure, if you look at the records, they aren't that impressive. The boys' and girls' teams are getting beaten almost every time out, but let's consider a few things.

First, Winter Springs is fielding teams with nothing but ninth- and 10th-graders. Eventually those kids will grow a few inches and be seniors with experience.

That's when things could get ugly for the rest of Seminole County.

Take the boy's team.

Coach Jim Hogan started slowly, then things started to mesh. He might not be getting wins on the scoreboard but he's getting wins nonetheless.

Imagine his team two years from now. There is no doubt that big man Winston James will be the dominant player in Semi-nole County in the year 2000. James can rebound, pass, shoot and play defense. More importantly, he can lead a team.

James almost single-handedly kept the Bears in Friday night's game at Seminole. He had 12 points in the first half before Seminole shut him down.

These Wisler Springs proved it has more than 200 weapon as part of the Classes of 2000 and 2001.

The intensity of Brian Brown almost pulled the Bears back into the game. He can dish and there may not be a flashier or better sing team in the county than Winter

Springs. Defensively, Marcus Wiggins can guard almost anyone and Seminole had a hard time getting it past the Winter Springs back-

Will there be growing pains for the Bears?

Absolutely. A lot of people n the county thought it would be a good idea for the Bears to spend at least one year as a junior varsity team before taking on the big boys. That would have been the easy way out.

Instead, the Bears prepared to take it on the chin for a year. But look what happened.

SANFORD \_ It was a win, but not the kind Bob Traina would have liked.

His Seminole boys basketball team was taken to the limits by young Winter Springs last night before coming out with a 60-50 Seminole Athletic Conference boys' basketball win at Bill Fleming Memortal Gymnasium.

It wasn't pretty, especially as Arrow Force VI prepare for district play. Even then, Seminole is likely to end up with a low seeding because of rules that stipulate that a district team only has its first game count towards district standings since the schools are so far apart that it makes it hard to play a home-and-home series.

Arrow Force VI is actually 3-2 in district play but its record toward determining seeding in the tour-nament is 0-2.

That makes tonight (Saturday) an important test for Seminole which hosts Spruce Creek, a district rival

Two of the best underclassmen in Central Florida put on a show Friday night at Bill Fleming Memorial Gymnasium as Winter Springs' 6-foot-7 sophomore Winston James (left) scored game-high 18 points and Seminole's 6-foot-6 junior Cornelius Blue (above) netted a team-high 16 points.

way his team looked. Seminole knocked off Lake Mary and Lake Brantley last week but stumbled badly against Oviedo and never looked sharp last night.

"Let's give credit to Winter Springs," Traina said. "They out-hustled us completely. I'm not overconfident about our chances right now, that's for sure."

Arrow Force VI had a hard time

getting the ball downcourt against the Bears' scrambling defense and Winston James (18 points) dominated throughout the first half as Winter Springs took an early lead. The Bears have only two wins to their credit in their inaugural year of basketball, but the team has gotten steadily better and only lost by two to SAC power Lake Howell earlier this week. James is emerg-

ing as one of Central Florida's dominant big men, but Traina made adjustments at the half and held him to only four second-half points which proved the difference in the game.

Winston James did an excellent job in the middle," Traina said.

The Bears led after the first quarter, 11-9 as James had six points

ALTAMONTE SPRINGS \_ Following Friday night's Oviedo/Lake Brantley girls' soccer game at Tom Storey Field, both coaches were faced with the same dilemma: making sure their respective teams didn't make too much of the final outcome.

The Oviedo girls were so thrilled with the victory that their post-game celebration might have been mistaken for one by a team that had just won a state championship.

Brock and McCown also take responsibility off the court to ensure a team atmosphere. Last week, before taking on Lake Mary, Brock had the team over to spend the weekend and sleepovers and activities away from the basketball court are commonplace with the Lady Lions. Bieri is an employee with the Orlando Magic which means he's not around the Oviedo campus all day to monitor activities, so Brock said the

girls just take care of things themselves.

"We're very close knit," McCown said. "We always have a positive attitude toward each other.

It was easy to see as McCown and Brock constantly high-fived each other throughout a meeting with a visitor to the Oviedo campus as they discussed the team unity.

We never hesitate to help

each other through anything." Brock said. We have our conflicts but we always try to talk it out. We're like a family."

Brock has experienced winning before. She won several state titles on her AAU teams which included Lake Mary stars Lauren Bradley, Ashlee Ballance and Mary Leah Sutton

as well as Kris and Beverly Dedelows, the twin sisters who transferred to Winter Springs. Success taught her the experience of winning and expecting to win so she, along with McCown say they don't have any problem taking charge on the court when it comes down to crunch time.

"I'd like to think I can be pretty vocal when I need to McCown "All of us take charge sometimes," Brock added.

That comes in handy with Bieri on the sidelines. He can coach and he's also the most animated coach in Seminole County. He's known to throw an occasional tantrum on the bench but Oviedo said they

wouldn't want it any other way. "He keeps us loose," McCown said. "He makes us better friends off the court and makes us better players. I'm so used to Tom that, if he wasn't screaming at us. probably somebody was doing something wrong."

Brock added that she thought Bieri tried to tome his act down earlier in the season but it never worked. The toning down stopped and Oviedo has been nearly unbeatable ever

Johnston, of course, is a main part of the equation, but not the entire part. last season, Johnston came in and dominated as a freshman, but, despite being the youngest

player on the team, her teammates said it was never a problem turning the show over to a ninth-grader.

"We didn't resent her being a freshman," McCown said. "We all realized she was the best person for the job. It was weird at first but she never let it get to her head. She keeps us on the map in girl's basketball."

Nothing will keep them ion the map like a trip to states. Last year's stunning upset to Lyman in the districts still on everyone's mind.

"We were so upset after that loss, I can't describe how it felt," McCown said. "Tom didn't say much because he knew we didn't need to feel any worse."

Last week, Oviedo took out its frustrations, beating Lyman in a rematch of a game played earlier in the season and

less Lake Mary stumbles. If that happens, remember that someone is getting the ball to Johnston as she scored her 30th point of the night. Someone is playing tough defense and others are creating shots. Johnston gets the headlines, but Oviedo is definitely

not a one-man team.

Oviedo made no secret of the

The league, which plays on Sunday's, recently wrapped up their Fall Season and is preparing for the Spring Season that will begin in late February or early March at fields in Sanford, Lake Mary and Orlando.

From Staff Reports

LAKE MARY \_ Legendary baseball bitcher Satchel Paige used to have a say-ling. "Age is mind over matter." "If you don't mind, it don't matter."

Several Seminole County residents recently proved that old adage as they helped the Cardinals wrap up the Orlando Senior Baseball League championship at the Lake Mary Sports Complex.

The league, for players 40-years of age and over, played a 12-game schedule in the fall at the Lake Mary Sports Complex, Showalter Field in Winter Park, Edgewater then School and Seminole High School. The group is currently preparing for the Spring Season which will begin play in either late February or early March with sames again to be played at the above sites and possibly at Historic Sanford Memorial Stadium.

"All games are played on Sunday's and run nine innings (if a single game) or seven innings (if a doubleheader is played). If you want to put a team in the league, you can call Cardinals manager and league Treasurer Gilbert Vogler at 830-7749 for more information.

The Cardinals were the most heavily represented by Seminole County residents, with nine of the 14 players on the

roster calling the area home.

Five of the Cardinals, Dean and Robert Smith, Bill Gracey, David Cook and Nick Brady, are all Seminole High School graduates who are enjoying a return to the

Also on the team are Lake Mary residents Terry Frazier and Chris Gagliano, and Vogler and David Vendur from Alta-monte Springs and Longwood.

Other members of the Cardinals are aseistant coach Richard "Cappy" Capozzola, Gene Edgar, Wayne Hillburn, Mike Blan-ton and Mark Shetrone who are from Apopka, Orlando and the Titusville area..

The Cardinals got off to a slow start, losing their first two games and three of their first four outings, but came on to win six and tie one of their last seven games to pass the Braves and Yankees for the pionship.

The team was led by the hitting of "rookies" Robert Smith, Gagliano and Frazier and veterans Gracey and Hillburn and the pitching of Edgar, who is in his 60's and can still throw the ball in the 70's, and Brady, who still has the blazing fastball and sharp-breaking curve he displayed as a Fighting Seminole back in the carry 1970's.

The league has a counter of feminole backing the carry 1970's.

The league has a couple of former major league pitchers in the Brewers' John "The Baron" Von Achen (a member of the World Champion Oakland Athletics in the 1970'a) and the All Stars' David "Chopper" Campbell (Lyman High School's pitching

coach who was the ace closer for the Atlanta Braves in the early '70's and is still in the top 10 all-time for saves for the Braves).

Other Seminole County stars in the league are former Oviedo and Seminole High School coach Mike Ferrell, who played at Seminole High, Seminole Junior College, Rollins and UCF; Carlos Martinez, the assistant girls' softball coach at Oviedo High School; and Chris Spiliotis, who teaches at Seminole High School and is the voice of the Seminole High School baseball team.

Several of these players, along with cur-rent New York Yankees star outfielder Tim Raines, will be back on the playing field next Saturday as they take part in the annual Seminole High School Alumni Baseball Game and Cookout.

The event will start at 11 a.m. at Alumni Field in the Seminole High School Base-ball Complex and features a game, the cookout, a Home Run Derby, an auto-graph session and a table to by memora-bilia donated by Raines and other major-league players who live in Seminole County.

All proceeds raised from the event will go to help the Seminole High School baseball team.

Any former SHS player who wishes to attend the game, whether you can play or not doesn't matter, please call Mike Pow-ers at 320-5058 and leave a message and he will return the call with more informa-

Joyce Sammet, Laureate Alpha Tau

In keeping with tradition, the Sanford Beta Sigma Chapters are busy getting ready for the crowning of the Valentine Queen. Each chapter selects its Valentine Girl who, in turn,

competes for the queen title. Through the years, the queen was crowned at a glittering gala with the proceeds directed to charity. As the winds of change rage, the coronation format has also changed. This year, the queen will be crowned at a luncheon on Valentine's Day, beginning at 11 a.m., at Deltona Hills Golf and

Country Club.

All former queens are cordially invited and are asked to contact Laurel Tromblay , 323-

7247, for information. Kathleen Golden will host the Valentine Coffee at her DeBary home, from 10:30 a.m. to 1 p.m. when the Valentine Girls will be judged. Judges will be from the DeLand City Coun-

# Children surprise Mary Guy at 70th birthday celebration

Four score and ten is what is promised. The Lord has greatly blessed Mary A. McGill Guy.

Phyllis Senkarik, Laureate Delta

She was honored by her children at a surprise 70th birthday dinner and honor tribute, "Seventy Years-To God Be the Glory". The Woman's Club of Sanford was the site of over 200 family, friends, and church workers, who joined in to sing "happy birthday" on

Saturday, Jan. 10.

The honoree entered with a look of great surprise as she realized the guests were singing happy birthday and the celebration was in her honor.

Fannie Miller was toastmaster for the evening. Prayer was offered by Larry Cherry and Rev. Otis Raines read the 27th Psalm, the favorite scripture of the honoree.

Musical renditions were given by Mary DeBose and Minister Vernon Jones. "Jesus The Center of My Joy" was the selection that led and set the pace for an evening of Christian fellowship, thanks to a mother, child of the King, community friend and neighbor. This fit the popular song "Just Ordi-nary People". This truly de-

through hard times.
Sabrina Jenkins dedicated the song "He Looked Beyond My Faulty and Saw My Needs". Tributes of thanks, honor and love were extended to Ma. Guy by City of Sanford Com-missioner Velma Williams on behalf of the City of Sanford scribes the life of Mary Guy. and the Commission. Licente Minister Caroline Shine brought greetings from Pastor Preston Adams and the St. James A.M.E. church family where the honoree is an ardent and faithful member. Herbert People brought love from the usher board where Ms. Guy has served as a doorkeeper in the

house of her Lord. Pastor Paul Wright expressed his gratefulness as having been a child who grew up in the neighborhood (Castle Brewer Project) where Ms. Guy was one who loved children and was a parent who knew that it took a village (community) to raise a child.

The McGill family recognized their favorite family member by having their representative Congresswoman Corrine Congresswoman Corrine

ford for over 48 years. The oldest daughter Shirley Guy Williams and oldest son Jerome shared with their mother the true feelings of love, patience and Christ like teachings they received during

ognition and honor of their mother who has lived in San-

their growing up years.
In their special ways they all expressed their love and remembered that they were taught to love everybody, wait on the Lord and they said because of their mom they are better adults today. Jerome said that because of his mom he went through the school of life. He knew that her love was

divine. The Richardson children were orally adopted by Mrs. Ouy when their mother passed and Lorraine Richardson Whitaker expressed their love for the honoree.

The grandchildren were represented with love for grandmother Mary by the oldest grand Daryl, Sr. and Robert Jr. Daryl said that grandmother

often meant business when sh balled up her fist and had no smile on her face. Daryl, Jr. and LaTravia shared their love with grandmother Mary along with over fifteen other grand and great-grands.

The word of the Master was

given as a testimony of the life of Mary Guy in the creative dance of Geralyn Jones to the music of "I Love the Lord, He Heard My Cry."

The honoree stood as the guests gave her a standing ova-tion of love. Mrs. Guy thanked all of her children, friends and guests for her evening of love and joy on her 70th birthday. She thanked God for having and keeping the faith in him and being able to give out love to all and be able to receive

The evening of love was brought to a close by the stirring prayer of her son Minister Robert Guy, Sr. and the melo-dious voice of Patricia Merrit Whatley filling the building as all basked in the last tribute of the evening when she sang "To God Be The Glory". The spirit of the Lord was indeed in that place.

Special thanks and appreciation to all is extended by chili-dren Jerome, Shirley G. Williams, Edward, Patsy Guy. Beverly G. Johnson, Cynthia G. Marshall, William, Debra G. Glover, Jacquelyn G. Stephen, Robert Jr. and Charles. "My grandmother was there

### Artist's true passion is china painting

By SUSAN WENNER Herald Staff Writer

SANFORD - Since the 1970's Georgia Hepner has loved her hobby of china painting. Although she does dabble a bit in crochet, sewing, knitting and plastic canvas she admitted that her true passion is china paint-

ing..
I went to a show at the Winter Park Mall, she said. That is where I first saw the china painting. I asked some of the painters there where they took lessons and they told me about Gladys Phillips. I got into some of her classes."

Hepner shared that she also ordered some of the plates she has used from Phillips. Presently, she gathers much from her china from places such as "Marilyn China, Ryan China and Mr. and Mrs. of Dallas."

She briefly gave a run down of the involvement in her work. First you must wash and clean the plates," she said. Then you trace on the design you want. They must be fired in a kiln about one to seven times depending on the design. It's very tedious and time consuming but it's very enjoyable."

Although the china paint used comes in a powdered form. Hepner cited that they are mixed with oil or another painting medium. Turpentine is used to

'We used good, expensive, sablehair brushes," she said. They come in many sizes from fine line and up. The size of brush depends on the scene or

whatever you are putting on the plate. I like to use roman gold or liquid bright on the plates. You can't use those in the microwave though because gold is a metal."

Hepner cited that she has created plates with numerous scenes, roses and various other flowers, birds and animals. "I love it all," she said. Td like to try it all. I really love Dresden. It's the oldest art in the world. You actually use a fine pen, a quill point pen, for that work. We make our paints more liquid for

All in all Hepner said," I Just love china painting so much. It's so relaxing. I only do crochet, knitting and plastic canvas between my china painting. I might pick up other work while

I'm waiting for my work to be fired."

Hepner is a widow with four children, Carol, Brent, Robert and Patricia, 10 grandchildren and seven great grandchildren. She is a member of Upsala Community Church and is active in a monthly Bible study there. She is also a member of the Town and Country Garden Club.

Seminole County elementary students are bound to be the best readers in the state with all the tender, loving care they are getting from a group of volunteer reading tutors. The tutors are being organized by three VISTAs (Volunteers in Service to America)in Seminole County under the Retired Senfor Volunteer Program.

According to VISTA Jane Morgan, The Sanford Woman's Club adopted us as a part of their educational program."
The idea is for reading tutors to spend 30 minutes once a week with a third-grader who has trouble reading. The tutors go into the classroom and work with the children on a one-to-one basis," Jane explained.

When Gloria Black, RSVP director, wrote the grant, she asked for 100 volunteer tutors who must desire to want to help a child read, Jane said.

Sanford Woman's Club members who have volunteered as reading tutors are: Ruth Gaines, president, Betty Colbert, Mary Lou McDonald, Dorothy Anthony, Carrie Green, Faye Siler, Emy Sokol and Peg

Just ask any of these members how they feel about the program and you're apt to hear how rewarding it is. 'Helping a child learn to read is such an exciting experience," a member said.

Jane sald many volunteers are needed. For information, call her at 330-2283. Volunteers go through a brief training period before entering the class room. No special education skills are necessary \_ just a lot of TLC.

for me." My grandmother was there for me, in bad times and the good times. She cooks for me sometimes even in the times that she was tired. She hemmed my pants and me looked good.

My grandmother was there for me in the winter and in the spring, in the rain and in the sun, in the darkness, and in the light.

She has a garden of life, and in that garden there is a rose and it shine, shine, shine. And if that rose stops shining. I will cry, cry, cry and I would not know what to do. But I would not stop because I LOVE YOU. You have made a difference in my life.

### Mom mulls giving up custody

DEAR ABBY: I'm going through the most confusing period of my life. I am 18 and working both a full-time and a part-time job to support my children, a daughter who is 2 and a 1-year-old son. My crasy at this point.

Abby, I'm thinking about giving custody of my son to a couple at church. Why? Because raising two children is too difficult at my age. I'm a single mother and cannot sup-port two children financially.

I'm unable to give my son the love and care he needs, and I want him to be happy. I don't want to give him up, but I want the hest for him and I know I can't provide it. Abby, please help me. What should I do?

CONFUSED, CRAZY MOTHER

**DEAR MOTHER: Follow your** heart and give your son to par-ents who can provide what you cannot. It would be a generous

act of love.

I would urge you, however, to give the custodial parents a letter to your son that they can give to him when he begins to question the love of a mother ho would "give him away."

DEAR ABBY: My 21-year-old son, "Sam," dropped out of college and wanted to paint houses for a living. He needed a car, so I offered to find him painting projects around the house to earn \$500 — partial payment for the car. I paid him payment than the many rate and gave more than the going rate and gave him credit for more hours than he

When he came to me and wanted the \$500, I reminded him the money was for a car, and he could have it when he found one. (He's getting money from his mother to live on.) He picked up a bar stool and hit me with it, bruising me and breaking the tile countertop. On his way out, he broke a table and a bowl. I deducted \$300 for the damages and sent him a check, but he hean't apologised and says he never wants to see me again.

Should I have called the police and charged Sam with assault and battery to help him see that violence is not the way to settle a

A GRIEVING FATHER

DEAR GRIEVING FATHER: our sen has a serious problem entrolling his temper. He hould have learned by now should have learned by now how to channel his anger and frustration without reacting to viciones. I am undecided as to whether or not he was fortu-nate that you didn't notify the police and press charge. However, you were also wrong for having agreed to pay flam for painting your house, then to have withheld the

ADVICE

money he earned when he saked for it.

DEAR ABBY: Today I reed the letter from The Man Who Loves Her." I, too, was a smoker and can sympathize with both people in that letter. It took me - and me alone - to quit. Please, Abby, pass this on to those who are trying to quit: "DON'T GIVE UP!"

Maybe today you will quit for only a day, perhaps tomorrow it will be for two days. Just keep trying. I know it's not easy to stop something you enjoy, but after you have quit for a month or so, you will realise that you didn't really enjoy it - you were simply a slave to it.

In my mind, I finally decided what I wanted more than nicotine. I wanted to live. JILL DIAL, TITUSVILLE, PLA.

DEAR JILL Thank you for a powerful letter. He assured that it will inspire countless smok-ers to follow your example.

DEAR ABBY: My husband stops and picks up the local newspaper every morning from a vending machine on our way to work. The other morning, a girl who appeared to be about 6 was in front of him in line, buying the paper for her mother, who was sitting in the car. The child put the money for one paper in the slot and took two news-

My husband said to her, "Oh, this two-for-one day? The child did not reply. She just took the two

newspapers to her mother.

Abby, this is steeling, pure and simple. I wonder what this mether is going to think when her daughter becomes a teen and gets arrested for shoplifting at the mall? I suppose she'll wonder where her daughter got the idea that it is OK to take something without paying for it. I hope she reads this and recognizes herself. DISGUSTED IN DELMAR, N.Y.

DEAR DISGUSTED: The mother missed an experiunity to teach her child right from wrong. (No wender many of our newspapers are werried about declining circulation dellars.) If the child took the extra newspaper in error, the mother aboutd have instructed her to put it

back. However, if she put the child up to it - shame on her.

DEAR ABBY: I've heard brides nd mothers of brides) ponwhat to do with used wedding dresses. May I tell you what I did?

As the mother of daughters who were often saked to be bridgemaids and were eventually married themselves, I wound up with quite a collection of prom dresses, as well as bridal gowns and attendant dresses.

With my daughters' perm I called the local Little Theate they were thrilled to pick up the gowns to add to their costume wardrobe! I was delighted that they would be useful to someone. In addition, I gained valuable storage space - so everybody benefited.

MRS. C.D. DAVIS, **BAND SPRINGS, OKLA.** 

DEAR MRS. DAVIS: For th who are not emotionally attached to their special-occasion gowns, that's an excellent sug-gestion. I'm sure many readers will be inspired by it.

DEAR READERS: Have a happy, healthy and presperous 1986. And remember, if you're driving, don't drink; and if you're drinking, don't drive.

### The careless claim

By Phillip Alder

If you watch experts playing bridge, it is occasionally frustrating. Halfway and all the players will put their cards back in the board before you've had a chance to see the full layout. Usually, they trust each other. However, there is one time a claim is sure to be contested: when a defender still has a trump and the declarer doesn't mention that lurker.

Playing in the 1965 Bermuda Bowl, Peter Leventritt, who died last month at the age of \$2, lost a slam by being careless in this way.

Leventritt and Howard Schenken reached the good six-heart contract. West, Albert Rose, led the club king, taken by declarer's ace. Leventritt ruffed a club in the dummy, finessed the heart queen, and continued with the heart jack, which was covered by the king and ace.

the end. Momentarily losing concentration,

PHILLIP ALDER

Leventritt cashed the diamond king and led a second diamond. When the queen appeared, declarer claimed all 13 tricks. However, East objected, as declarer had made no statement concerning his trump nine.

The director ruled that declarer was barred from drawing trumps. He had to continue cashing diamonds. Now East, Maurice Harrison-Gray, delended perfectly. Having no club left, he couldn't afford to ruff until the fourth round of diamonds. Then he returned a spade. If declarer discarded his club loser, West would win the setting trick with the spade ace. And if South ruffed, West would get a club trick at

Whenever you claim, be careful to

make a clear statement, especially if an opponent still holds a trump.
