

Key Democrats Warn Against Debt Increase

WASHINGTON (AP)—Key Democrats said today President Eisenhower will be inviting a major debt increase if he proposes an increase in the \$75 billion dollar debt limit in this session of Congress.

Senators George (D-Ga) and Byrd (D-Va) joined Democratic leader Lyndon B. Johnson in Texas in predicting the Senate will reject any increase at this time.

And Sen. Williams (R-De) said in a separate interview that unless the administration can produce a lot of facts he doesn't now know he will oppose lifting the statutory ceiling.

"I don't believe the administration can get any such proposal through the Senate," Williams said.

U Of F's Peabody Hall Described As Safety Hazard

TALLAHASSEE (AP)—Peabody Hall, one of the oldest buildings on the University of Florida campus, has been described as a safety hazard to the 1,000 students per hour it accommodates during class periods.

The report was made by Chief Deputy State Fire Marshal Carl B. Davis to University Business Manager George F. Baughman May 15. It was made public at the request of reporters seeking more information on an opinion by Atty. Gen. Richard Ervin advising the State Board of Control money could be spent from university operating funds for a \$40,000 to \$50,000 fireproof stairwell in the building.

The deputy fire marshal said the fire stairs are needed because a fire disaster originating on any floor, from the basement to the attic, would present a grave problem of evacuation within the necessary safe time limit of those students attending classes on the second and third floors.

He added the "hazard of the students is intensified by the materials used in the structure itself. With the exception of the containing walls, all materials in the building are highly inflammable and due to its age is more so, thereby increasing the rapidity of spread and intensity of temperature.

"There appears no way to adequately protect the building from this standpoint. . . . In addition to the above problem, the load now being placed on this structure appears very excessive for what it is, originally constructed. There is a visible and material sag on the stair platform when in use."

Army Withdrawals Continue Smoothly As Deadline Nears

SEOUL (AP)—The withdrawal of two mighty armies from the Korean demilitarized zone continued smoothly today as the Thursday night deadline approached.

Enemies a few days ago, Allied and Communist troops worked within shouting distance of each other, salvaging material and wrecking fortifications that took months, sometimes years, to build.

Although Allied troops were warned by the 8th Army against fraternization with the Reds, there were reports of friendly contacts all along the war-shattered front.

Bolita Go-Between Agent Convicted

TAMPA (AP)—A Tampa filling station employe accused of being a go-between in the bolita racket has been convicted of failing to buy a federal gambling stamp. Sentence was deferred.

The government said Sam Cagnina, 43, took bolita tickets delivered here by Polk County peddlers and handed the tickets over to ringleaders in Hillsborough County.

Cagnina told the federal jury he merely took sealed packages from a customer and held them for another customer as a favor. He did that only twice and didn't know what was in the packages, he testified.

Florida Had Best Car Mark In South

TALLAHASSEE (AP)—Florida had the lowest automobile death rate in the South in 1953 but still had more traffic fatalities than the national average, the National Safety Council reported.

The state's death rate went down from 8.9 a 100 million vehicle miles of travel in 1952 to 7.6 in 1953. The national average was 7.3.

Tax Requested Drop In Liquor

LOS ANGELES (AP)—A reduction of \$4.60 per gallon in the federal tax rate on liquor has been urged by the National Retail Liquor Dealers Assn.

A resolution adopted yesterday urged Congress to reduce the present \$10.80 tax to \$6. It also advocated a law making bootlegging a felony and eliminating sale of liquor to unlicensed persons at military establishments.

Authorities Claim Link Between Cash Car-Stripping Gang And Murder Case

MIAMI (AP)—Authorities today claimed a link between the notorious Cash car-stripping gang and the Dora Pinder murder case.

State Attorney George Brautigam said John Fulford, 20, member of the Cash gang, signed a statement that he rejected an offer of \$3,500 from a used car dealer to kill Mrs. Pinder, wife of a big-time health operator.

The statement said the offer was made by M. L. (Rudy) Crowder, who is under bond on a charge of being an accessory before the Aug. 7, 1952, shooting of Mrs. Pinder. Fulford said he turned down the offer but drove by the Pinder home that afternoon. He saw Crowder enter the house, then leave carrying a bag.

A bag, reportedly containing \$25,000, has been missing since Mrs. Pinder was shot in the mouth in the bedroom of her home.

Fulford said he decided to tell the story after he learned of murder charges against James N. Lewis, who confessed and later denied the shooting.

His statement was contained in a deposition taken on an order obtained by George Kaschnakes, attorney for Lewis, to use in Lewis' first degree murder trial.

Fulford said he "hollered" his story to Lewis while they were in solitary confinement cells out of each other's sight. He said Lewis told him he was "drugged and beaten" into making a confession.

Fulford refused to answer a question put by Brautigam as to whether Crowder owed him money on grounds he might incriminate himself.

Fulford was arrested April 25 after taking Miami detectives hostage in a home and threatening to shoot it out with police. He has been charged with participation in a payroll holdup by the Cash gang at the White Bell Dairy, during which a county patrolman was wounded.

The Cash brothers, Fred and Virgil, have been convicted of assault on the officer and are awaiting trial on other charges.

Dulles Eliminates Chance Of Deal For Unification

WASHINGTON (AP)—Secretary of State Dulles has virtually eliminated the possibility of making a deal with the Reds for unification of Korea.

Instead, he appeared to be shaping a policy similar to that of the West towards Germany—stick to principles, counting on the attraction exerted by the free world on Communist satellites, and constantly keeping open the possibility of unification.

County Chamber Group To Attend State Gathering

A delegation from the Seminole County Chamber of Commerce is being gathered to attend a joint meeting of the Florida State Chamber of Commerce and the state Council for Industry at Orlando Aug. 27. Forrest Breckenridge, manager of the local Co-Op, announced today.

Civic leaders from throughout Florida will attend the meeting which is designed to help Florida communities, large and small, learn what they can and should do to obtain new industry.

State Chamber President Earl W. Brown of Deland said the session "will be a cooperative undertaking of our industrial division, headed by W. W. Wolff of St. Petersburg, and the community service committee of the state Council, Henry Simpson of Sanford is a member of the former group."

The program will take the form of panel discussions in the morning and afternoon, with Council Chairman A. D. Davis of Jacksonville scheduled as the principal speaker at a luncheon. Specialists in various aspects of industrial development will make brief prepared talks during the panel discussions, then answer questions from the audience.

Clay Pit Bought

Upon the suggestion of County Commissioner G. E. Frazier, the Seminole County Commission yesterday approved the purchase of a 16-acre clay pit at Sanlando.

The purchase of the pit will allow to the County an additional source of clay for the construction and maintenance of roads and bridges.

Registering At FSES For Sewing School

Request has been made by Ralph Cowan, president of Sanford Industries, Inc., that all white people interested in learning to operate sewing machines, preparatory to employment in local industry, should register at the Florida State Employment Service, 118 South Palmatino Ave., at 9:00 a.m. Thursday. Color of people are to register at 9:00 a.m. Friday.

Mr. Cowan pointed out that, although many people might already be registered, it still will be necessary to register for classes.

The purpose of the training, which will be under the direction of the County Board of Public Instruction, is to prepare people for employment in garment factories in this area.

In further courses for those with previous training on specific types of machines will be given, also. Classes will be conducted by competent instructors, approved by the State.

Redding Elected New City Housing Authority Head

At a special meeting held yesterday afternoon of the Sanford Housing Authority, C. L. Redding was elected chairman of the Authority and W. E. Kirchoff, Jr. was elected vice-chairman, to serve in office until May 20, 1954.

Mr. Redding succeeded R. J. E. McKinley, who recently resigned from the Authority because he was transferred by the Methodist Conference from Sanford to Fort Pierce. Mr. Kirchoff succeeded J. R. Hall, whose term as a commissioner of the Authority expired.

J. H. Balkan, who was appointed as a commissioner Monday night, was sworn in immediately prior to the meeting and was present. Gordon V. Frederick, who was also appointed as a Commissioner Monday night, was unable to be present due to being out of town.

There are five commissioners of the Authority who are appointed by the City Commission of Sanford for four year terms. The fifth commissioner now serving is W. F. Hunt, who was recently appointed. The Authority commissioners elect from among themselves a chairman and vice-chairman to serve for one year terms expiring on May 20 of each year.

Red Police Arrest East Germans Who Accept Western Food Gifts

BERLIN (AP)—Communist police arrested scores of East Germans who accepted gifts of Western food today but they failed to check the hungry throngs surging through the Iron Curtain.

Those arrested were released a short time later. Their food was not confiscated but in many cases identity cards—vital in the East zone—were taken away.

The biggest crowds yet jammed West Berlin's food relief centers on the third day of the big American-financed relief program which has put the spotlight on food shortages in the restive Soviet occupation zone.

The Communists also harassed but did not halt the movement of food to West Berlin by truck. Other food arrived by plane.

Communist police began a campaign of arrests and threats to sabotage the program by scaring the East Germans away.

They arrested scores who returned to East Berlin laden with food. Thirty arrests were reported at one border crossing point alone.

The identity cards so important in any Communist police state were taken away from the arrested persons, and held by the police, the West Berlin newspaper Der Kurier reported.

The first truckload of American food crossed the Soviet zone and finally reached West Berlin after Communist border guards delayed it at both ends of the isolated city's highway link to the West.

The African Gold Coast has large deposits of bauxite (aluminum ore).

President Plans Message To Congress

WASHINGTON (AP)—President Eisenhower was reported today to be planning a message to Congress this week urging an increase in social security benefits and greatly expanded coverage.

The President generally had been expected to seek coverage for more persons but the proposal to liberalize methods of determining benefits would come as a surprise.

Sources close to the situation, who asked not to be identified, said the proposals would be intended for congressional action next year—not in the closing days

of the current session. They said the President's plan, his first step in carrying out a campaign pledge to improve social security, would have these effects:

1. Adding more than 10 million persons to the present total of more than 60 million covered by the old age and survivors insurance program.

2. A new provision for determining benefits, permitting workers to deduct their four years of lowest pay in determining their average annual income under the system. Benefits are based on this average.

Emergency Immigration Bill Approaches Showdown Vote After Sharp Controversy

WASHINGTON (AP)—An emergency immigration bill urged by President Eisenhower, but opposed by sharp controversy in Congress, approached a showdown vote in the Senate today.

Republican leaders, calling the Senate into session two hours earlier than usual, said they were optimistic about passage even though they foresaw a fairly close vote.

The compromise bill is somewhat more restrictive than a measure the House passed last night 221-185 to admit 217,000 foreign-born refugees and other special quota immigrants in the next three years.

Under the Senate bill, the number of refugees would be limited to 200,000. This compares to the 410,000 Eisenhower asked Congress to admit in the next two years to help provide asylum for persons who have fled from Communist tyranny and other homeless.

The bill, part of the administration's "must" program before adjournment, was debated late into the night in the Senate. After the first hour of today's session, however, there was an agreement to limit debate on all amendments to 10 minutes.

Willd And Wolley

TORRANCE, Calif. (AP)—The firm used to be Willd and Woolley, but the secretary married her boss and became his law partner so today it's Willd, Woolley and Woolley.

Mrs. Margaret Woolley joined the firm after completing a night school law course at Loyola University in nearby Los Angeles. Her husband, Boris Woolley, is city prosecutor here.

Family Of Sen. Robert A. Taft Gathers As Condition Worsens

NEW YORK (AP)—The family of Sen. Robert A. Taft was gathered here today after his condition suddenly took a turn for the worse.

A New York Hospital bulletin last night reported the Senate majority leader was "generally weaker" and that his condition was "unsatisfactory." A later announcement said he was "resting a little more comfortably." He was reported not to be suffering any pain.

Senator Robert A. Taft

Yesterday was the first day of serious reports on the 63-year-old Ohio Republican, who has been at the hospital for several weeks for treatment of a hip lesion.

His wife Martha was brought to his bedside yesterday for her first visit to him since he entered the hospital. The day also marked the first time the hospital had issued more than one bulletin on his condition.

Besides Mrs. Taft, the senator was visited by two of his sons, Lloyd and Robert Jr., yesterday and last night.

A third son, William Howard Taft III, American ambassador in Dublin, said in Dublin last night that the last word he had was a telephone call from a brother Sunday saying the senator was improving. The ambassador intended to return to the United States until he had later news today.

Taft's sudden turn for the worse stirred speculation in Washington.

Central Figure In Segregation Law Is Jailed

CRESTVIEW, Fla. (AP)—Thomas E. Williams, central figure in a case involving constitutionality of Florida's bus seating segregation law, was in jail here today on charges of reckless driving and speeding.

He was arrested by Okaloosa County Constable Walter Traylor in Laurel Hill, near Crestview, yesterday shortly after County Judge Wilbur Osborn transferred the segregation case to Okaloosa County Circuit Court.

The Negro Air Force officer was arrested June 23 on a charge of occupying and refusing to leave a section of a Coastal States passenger bus reserved for whites.

When the constitutionality case was raised yesterday, Judge Osborn refused to accept jurisdiction of the case.

Britain Still Wants Top-Level Talks With Reds

LONDON (AP)—Prime Minister Churchill's top deputies told Parliament today Britain still wants high-level top-level talks with Russia. They denied this conflict with administration moves in Washington.

Addressing the House of Commons on behalf of the ailing Churchill, acting Prime Minister Richard A. Butler said "We have achieved unity of aim and policy on behalf of the three Western governments supported by the NATO governments and Western Germany."

Spots Robber—Stopped By Pants

OKLAHOMA CITY (AP)—W. C. McLain, an Oklahoma City grocery man, was told by phone last night that his house had been robbed and that the burglar was passing in front of his house with the loot at that very minute.

McLain looked out, and sure enough the man was there.

Ready to dash out, McLain locked down and realized he did not have his pants on. By the time he could don them, the thief had escaped.

Nation's Weather Is Hot And Humid

By THE ASSOCIATED PRESS
 Scattered thunderstorms extend from northern Illinois into Ohio and Wyoming today, but the heavier showers over most of the area are unsteady but abundant.

The showers cooled some sections. Chicago's temperature dropped 12 degrees in a half hour early today in a storm squall, followed by winds up to 40 miles an hour. Even in the heavy rain, readings were not below in the 60s and 80s, however.

Other widely scattered showers were reported in the Southeast and throughout the Rockies.

Elsewhere the weather generally was clear, with a few showers along the mountain ranges. In the North, temperatures in the midwest some parts of New England, the northern plains, Idaho and the Pacific Northwest.

New Development In Daytona Suit

DAYTONA BEACH, Fla. (AP)—A new development arose late yesterday afternoon in the \$500,000 negligence suit against a Daytona Beach man for a wheel which broke from the car during the fatal beach auto accident July 26, 1952, which killed a young boy.

The jury today heard the death of G. H. Duke, 34, of Charleston, S. C., who died Monday in Daytona Beach, Fla., after a car crash here that damaged the speed wheel.

The suit was filed in Circuit Court in Daytona Beach, Fla., and was filed in Circuit Court in Daytona Beach, Fla., and was filed in Circuit Court in Daytona Beach, Fla.

Duffs Split Up

HOLLYWOOD, Fla. (AP)—The divorce of Ida Lupino and Howard Duff, Jr., of the home, and she was the first of her kind.

Miss Lupino and Mr. Duff were married in 1945 and their divorce was granted by the 12th Judicial District Court here today.

The 41-year-old actress and the 36-year-old actor were reported to be married in Hollywood, Fla., where they were living together at the time of the divorce.

Have Southern Republicans Capitalized On Ike's Popularity?

A. P. Political Survey Assesses Newest Trends

By DON WHITEHEAD
WASHINGTON (AP)—Dixie Republicans are leading a "fox" and "hounds" among themselves today to political skirmishes which may herald a genuine two-party system in the long-Democratic Southland—some say.

From the plain of Texas into Virginia's Shenandoah Valley there is a stir of Republican hopes and activity. Much of it is merely talk. But an Associated Press survey of 14 Southern and border states shows that beneath the talk and the factional turmoil there is a solidly based effort in many of the states to challenge the Democrats at the grass roots level.

President Eisenhower's smashing victory last November gave impetus to the move. It hasn't faded into the do-nothing lethargy that followed Herbert Hoover's victory in some Southern states over Democrat Al Smith a quarter of a century ago. Yet the reports make it clear the Republicans have a long, uphill fight before they can achieve any widespread effectiveness in local and state elections—the key-stones of party strength.

The big question still is whether the Democrats who voted for Eisenhower will split their party allegiance to the Republicans or will quietly return to the Democratic fold.

Democratic Gov. Gordon Parsons of Alabama says: "The next Republican candidate in Alabama will find out his name is not Eisenhower."

That is the general attitude among the Democrats but Republicans contend Eisenhower's victory showed the South is ready for a two-party system.

Eisenhower swept Texas, Virginia, Tennessee, Oklahoma, Missouri and Florida out of their normal Democratic voting habits. He missed by small margins in Kentucky, Louisiana and South Carolina.

Since then, Republicans in some of the states have been busy fighting among themselves for power and patronage, giving little effort to build up the party organization.

First Of Three Stories

President Eisenhower's election last November split the Democratic "Solid South" and raised Republicans' hopes for a two-party system in Dixie. Have the Southern Republicans capitalized on Eisenhower's popularity to build up party strength? Is a two-party system beginning to emerge? The Associated Press asked correspondents in 14 Southern and border states to answer these questions and others in assessing the South's political situation today. Here is the first of three stories reporting elections. It is written by Don Whitehead, Pulitzer Prize winner who toured the South himself last year and accompanied Eisenhower on his Dixie campaign swing.

and down and clinch their history-making victory with Ike to get Eisenhower will not be confined to a flashy drive for major offices. "They are already deep into a door-to-door precinct organization campaign that has as its objective a militant, long-lasting machine to build up Texas as a two-party state. They are playing patronage for all its political power. Their knives are out and already working on Democratic appointees."

This new organization is headed by GOP National Committeeman H. J. (Jack) Porter, wealthy Houston oilman. His plan is to appeal to all who regard themselves as conservatives to join the GOP camp.

Cheavens says: "Sometimes the shades of difference in the political philosophy of conservative Democrats and Republicans in Texas are so slight as to be barely perceptible." Porter and his aides already are raising money for 1954. They are bringing new blood into the organization, setting up organizations from precincts to state senatorial districts, and looking for respected citizens to run as Republicans for local, district and state offices.

Porter has announced, too, the Texas GOP is looking for strong candidates to oppose Democratic Sen. Lyndon B. Johnson, who is up for re-election next year.

Some Democrats are being asked to file as candidates of both parties in 1954 Texas law permits this. And if a candidate should be beaten in the Democratic primary, he still would have a chance to be elected in November as the Republican candidate for the same job.

Florida
From Tallahassee, Correspondent Malcolm B. Johnson writes: "Republicans think they're on the way to establishing a two-party system in Florida, and Democratic leaders are wondering if it might not be true."

Despite the remnants of an old intense intraparty squabble that has lately flared up in what may be a final battle over patronage rights, leaders of the Republican majority faction are confident they are on the way to bigger things. "While trying to beat down the rebellious group they are missing big tricks in their effort to consolidate the other varied interests that backed the party ticket in 1952 and build up strength for the congressional and local elections in 1954."

Johnson said party leaders publicly talk hopefully of winning four of the eight seats in Congress next year—but "some of them say privately they'll be happy with one and overjoyed with two. Florida hasn't had a Republican congressman since carpetbagger days."

Once All-Powerful Russia Is Seen As Showing Signs Of Real Stress, Strain

By EDDY GILMORE
STOCKHOLM (AP)—I saw Soviet Russia put into action the greatest fighting force in history—12½ million men, by official U.S. reckoning—to help win the most terrible of all wars.

And I saw this same Soviet Union, while a weary world sighed for peace, openly embarked upon a policy of imperialism more ambitious than any year's.

This all happened under Joseph Stalin, the self-styled man of steel who drove Russia—you can never say led—to a position of power never before achieved by that country.

But today the pinnacle of power seems to have been reached. With the grim dictator gone, the monstrous Communist Party of Russia and the huge, lumbering state machine of the Union of Soviet Socialist Republics are showing signs of real stress and strain. The tightly laced empire is beginning to leak at the seams.

This has taken place while I have been living in the Soviet Union and trying under a cold calculated state censorship to report Russia to the outside world. Will there be a change?

Nikolai Gopoi, a great Russian writer of the last century, asked the question as he compared his east and unfortunate homeland to a troika (a vehicle drawn by three horses) plunging headlong and recklessly into the future.

Gopoi didn't have the answer. Present day experts don't have the answer. I, a reporter, and no expert, don't have the answer and I doubt if anyone does.

Stalin beat Russia into being a world power. Even the terrible pushed it forward along a terrible and bloody road. So did Peter the Great. They did a lot for Russia, and to Russia I doubt if any

Beer Tavern

LAWTON, Okla. (AP)—Officers today were looking for Robert D. Hullock, Lubbock, Tex., treasurer who was married in an unusual ceremony at a beer tavern here Saturday.

A bigamy charge was filed against the newlywed by Mrs. Alice Hullock of Childress, Tex., who claims Hullock is her husband. Hullock was wed at the bar Saturday to Mrs. Alice Elkin, a waitress there. He said they chose that site for the ceremony because of sentimental reasons.

the handful of American correspondents in Moscow with courtesy and in some cases, consideration. There were other signs, like these:

The signal went up to change tactics in Korea... The Soviets took steps to regularize relations with Yugoslavia... The sharp and at times ludicrous name-calling of the West slackened. The press department invited correspondents to take a trip through the Kremlin. Then they organized a trip to the Volga Don Canal.

Once told to get out of the buildings they'd occupied for years, the British and American embassies were informed they could stay if they liked. The British did. The Americans went into an old building... Six Russian wives of Americans went into a new building to live with their husbands and children...

Some persons in the West, and the East, said everything was changing in Russia. That there was a real change of heart. The United States government said it was a change in tactics only. To beware. To be careful.

The nautical mile measured 6,890 feet compared to 5,280 for a land mile.

At the time the Malenkov government ordered the amnesty and many people were freed. But political prisoners. The Communist officials started to treat Western diplomats and

"Hey! You see what I see?"

When a lion appeared on a street in Memphis people fled for the doorways, and from behind windows they asked each other "How come?"

Even though they could watch the lion with their own eyes, they still didn't know the story.

It was from their newspapers that they first discovered that Goldie the lioness had slipped away from a downtown circus. She was so bewildered by the fuss she caused, she turned around and went back.

It's exciting to be an eye-witness to any unusual event. But being on the spot is not much better than seeing one or two photographs of the action, or seeing a headline about it, or hearing a brief announcement.

All of these can whet your appetite for news, but they cannot satisfy your hunger for the whole story.

You need the newspaper for that.

That goes for advertising, too. The brief message that hangs in the air... or brief headlines here or there... may indeed have a momentary interest.

But the newspaper ad carries the brass-tacks quality, the urgency of the newspaper itself.

Like a news item, the ad can be examined and re-examined. Can be read any time. Anywhere. Can be clipped and carried in a pocket-book.

And just as the newspaper speaks the special language of the town it mirrors, the ads themselves have the same important local quality.

Add to this the fact that the newspaper reaches just about everybody in town, and you know why the newspaper is the nation's most effective advertising medium.

No wonder advertisers—both retail and national—invest more money in newspapers than in any other form of advertising.

The newspaper is always "first with the most"

President Asks Increase In National Debt Limit

Congress Makes Plans To Tackle Important Issue

Peace Corner—The answer to yesterday's little brain teaser was 45 minutes. The chauffeur left home at the usual time, got back 45 minutes earlier than usual. Therefore, the spot where he picked up his employer was 15 minutes homebound from the station (15 minutes going and 15 minutes returning) and the chauffeur got to the station at 1:15 p.m. So this afternoon he was met by his employer at 3:15 p.m. The boss had been making since 2 p.m. or 45 minutes earlier than those who figured out the problem was that it was too easy. They recommended that the Somertimer make them little more difficult, so tomorrow we'll prove that "two equals one" and see if you can spot the flaw.

WASHINGTON—President Eisenhower today recommended an increase in the \$75 billion dollar federal debt limit and there were congressional plans for adjourning this week and making ready to tackle the issue. The debt ceiling was set at \$75 billion in 1951. It has since been raised to \$100 billion. The bill would increase the limit to \$150 billion. The bill would also provide for the automatic extension of the limit if it is not renewed by Congress. The bill would also provide for the automatic extension of the limit if it is not renewed by Congress.

FORMER KING PRINCE OF YUGOSLAVIA, 29, is reported from Paris to be ready to divorce ex-Queen Alexandra, 37, after nine years of marriage plagued by financial troubles. Pictured above as they arrived in New York in 1949 with their son, Crown Prince Alexander, the royal couple met and married in exile during World War II. Alexandra is now in Vienna, married dating a wealthy French industrialist. (International)

Mrs. Verne Messenger Describes Pilot International Convention At Meeting

Describing the Pilot International Convention held in Tulsa, Okla., July 4 through 11, with headquarters in the Mayo Hotel, as one of the most interesting of any she had attended, Mrs. Verne C. Messenger gave a report of the convention at the meeting of the Pilot Club in the Varsity Club Tuesday night.

Mrs. Mildred Boyer, a prominent attorney of Oklahoma City, Okla., presided at the business sessions which opened in the Mayo Hotel Thursday morning with impressive ceremonies. Florida, believed to have the largest delegation, was represented by 60 delegates, although the majority of them were from the District Four area. The distinction of holding the largest membership of any district in Pilot International was held by the Tulsa district.

Mrs. Messenger, who spent a month in Odesa, Tex., with her son and daughter-in-law, Mr. and Mrs. Walter Hegel, flew to Tulsa for the convention. "The flight over was lovely," she said. "The day I left it was raining, which is unusual for that part of the country." While she was in Tulsa, she said, the weather was very pleasant and recent rains which were justly welcomed and warmly needed.

A total of 438 delegates, alternates and visitors were in attendance, with representatives from 40 of the 49 countries in which Pilot Clubs are located. Boston, Mass., was selected as the site for the 1954 convention. It will be held at the Sheraton Plaza Hotel, July 19-22. Brennan, Tex. Pilot Club received the "Club of the Year" award for its outstanding work in connection with the "Gala of Dimes." In that area, the Winter Haven, Fla. club received honorable mention in that category. Mrs. E. J. Chapman, a member of the club, presented a gift to the club. Mrs. E. J. Chapman, a member of the club, presented a gift to the club.

The proposed Legislative Program for the U. S. Clubs for the 1953-54 Support Program is as follows: 1. Support of the authorization to urge and recommend the appointment of qualified women for appointment to the National, State, and Local government (Public Affairs Committee).

Last Of Seven New City Pumps In Operation

The last of seven new pumps at the city water field located south of Sanford along Highway 17-92 was expected to be installed today, according to E. H. Johnson, city superintendent of water, which will give the source an overall capacity of 1,170 gallons per minute.

Number four and number six wells were out of order for practical purposes for several months before installation of these new pumps. The superintendent said. Installation of the equipment has been completed by the Farm and Home Machinery Co., Inc. Orlando, he said. They won a contract in competitive bidding with a figure of slightly more than \$6,000. The company has been selected out here by Thomas E. Yander, company vice president and an engineer.

The six pumps have been out of service one by one. Mr. Johnson continued, without any interruption in the water supply. The three horsepower pumps have a capacity of 130 gallons per minute, while the 10 horsepower units have a capacity of 160 gallons per minute.

Water from the well field is stored in a million gallon ground storage tank and an overhead stand pipe with a capacity of 200,000 gallons. During a dry spell the month is such as two million gallons of water were pumped to users, although the general average during the summer is one to one and a half million gallons per day.

During the 1951-1952 fiscal year, Mr. Johnson continued, a total of 1,000,000 gallons were pumped through 1,000 water meters in service.

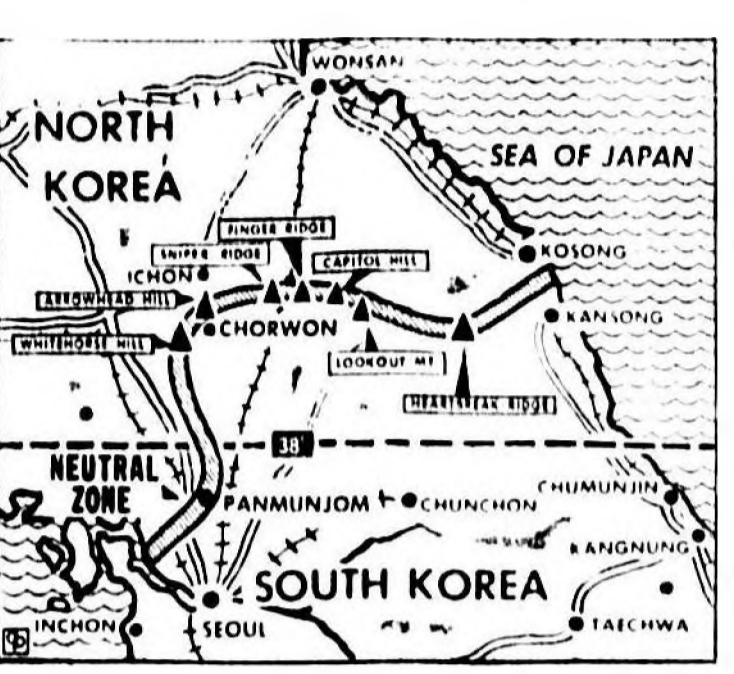

The renovation of the well field is the second large expenditure which has been made this year to improve the city's water facilities. At the first of the year, a new aerator was installed at a cost of \$10,000. It is the second of a series of improvements to the water supply system. Mr. Johnson explained when raw water goes from the well into the aerator, it is treated with parts of all per million parts of water.

City Can't Run Raw Sewage Pipe Into Lake, Says Sanitary Head

David B. Lee, Director of the Bureau of Sanitary Engineering of the Florida State Board of Health, declared today that the city could not permit the city to run a pipe into Lake Monroe with untreated raw sewage in connection with Sanford's proposed sewage disposal plant. Mr. Lee's remarks were made before the last night meeting of the Sanford City Council.

Even by running an affluent 1,500 feet into Lake Monroe, you would not lessen the health hazard of disposing raw sewage into a lake," he asserted. "The concentration of all this organic matter at one point in the lake would create a 'stink hole' near the large Atlantic Ocean near the empty flowing 'Big Stream'." Mr. Lee strongly urged that the city build a sewage treatment plant to adequately dilute and remove the organic waste before it is poured into Lake Monroe. He declared it would cost more than the price of a can of

Allied, Red Armies Sent To Neutral Zones

UNITED NATIONS AND COMMUNIST forces in Korea are pulling back from the neutral demilitarized zone along the 38th parallel. The armistice line permits the Reds to keep almost all the ground they won in their recent offensive in the Pongne Ridge-Supung area. The Allies must evacuate their break bridge and several other bitterly contested military positions.

Demilitarized Belt Was Site Of Battle Only 3 Days Ago

Sanford, Friday, E. Allied and Communist troops were cleared today from the 20-mile demilitarized zone in North Korea where the armistice line is to be set in a battle.

The U. S. 8th Army and all United Nations troops were out of the neutral zone by 4 p.m. Thursday night, and on Thursday night, Communist forces were ordered to pull back from the zone by the armistice agreement.

Communist forces had to be kept out of the zone by the armistice agreement. The armistice line permits the Reds to keep almost all the ground they won in their recent offensive in the Pongne Ridge-Supung area. The Allies must evacuate their break bridge and several other bitterly contested military positions.

Local Motorist Finds Out Police Don't Like To Get Insulting Notes

A local parking motorist is finding out that he can't get away with a few insulting notes on his car.
