

'35 Dove Shooting Season Opens In West Florida Soon

Hunters Here Must Wait Until Nov. 20 To Bag Their Quota

TALLAHASSEE, Sept. 24.—(AP)—Guns blazed in Florida's gulf coast counties at 7 A. M. Saturday at the 1935 dove shooting season got under way. But in inland counties it does not open until Nov. 20.

The state law allows killing of migratory birds in the coastal counties at any time when it is not prohibited by federal regulation, and the federal season on doves this year is Sept. 21 to Jan. 5.

"There's nothing we can do about it," commented J. N. Kennedy, executive secretary of the state game and fresh water commission.

When the federal regulations first were announced, the dove shooting season was to open Oct. 1. Kennedy, on behalf of Florida, protested this and urged that it be made the same as that for quail and other native game.

Kennedy said, at N. Darling, chief of the United States Bureau of Biological Survey, replied: "There is little likelihood that any change can be made now."

"Some 10 days later," said Kennedy in a statement, "a change was made, but not the change we sought. The opening season on doves was placed at Sept. 21, or 60 days prior to the opening of the general hunting season in Florida."

"Having failed in its appeal to the federal authority for consideration in this matter, the commission of game and fresh water fish strongly requests those sportsmen who go into the field at this early date to observe strictly the law protecting other game and co-operate in its enforcement."

Counties in which the dove shooting started Saturday are listed by Kennedy as Escambia, Santa Rosa, Okaloosa, Walton, Bay, Gulf, Franklin, Wakulla, Jefferson, Taylor, Dixie, Leon, Hernando, Pasco, Pinellas, Hillsborough, Manatee, Sarasota, Charlotte, Lee, Collier and Dade.

In all other counties the season may be opened at the petition by the county commissioners to the game and fish commission of the department. So far, the inland 10-inland county has not requested early opening date.

The bag limit on doves under federal regulation is 100, and is limited to the period between 7 A. M. and sunset. It is prohibited to shoot doves in fields.

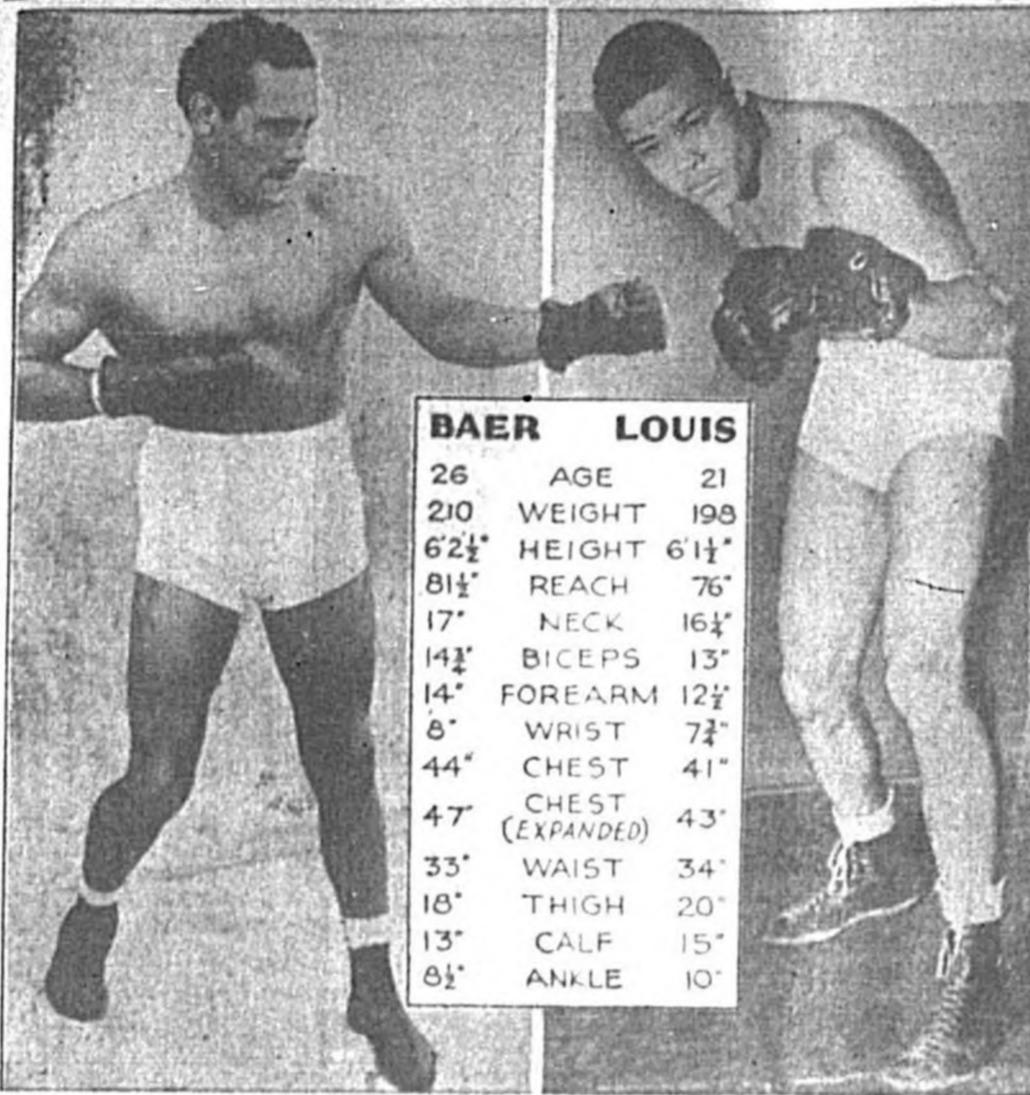

Palm Beach County Truck Crop Season Hampered By Rain

Conditions from heavy rain ten days ago have delayed the potato crop in the county each.

Since rains began on Sept. 10, the biggest loss from the start of the month, Palm Beach County suffered less than most areas which felt the effects of the outer edge of the storm. The losses are not this far along in our farm crop.

In 1934 Florida had a reduced income of \$80,000,000 according to the United States Department of Agriculture. Oranges brought \$23,770,000 of this income, while

Max Baer had a general physical edge on Joe Louis. The two heavyweight fighters selected the outfit for their bout tomorrow night, but there was plenty of equipment available. It was determined that physically Baer would be made up in fight. This we are informed from Max Baer's manager, right along with his physical measurements. (Associated Press Photo)

Billy Hood To Meet U. S. Deficit To Be Joe Dundee Thursday Less Than Thought

TALLAHASSEE, Sept. 24.—(UPI)—H. H. WADDELLTON, editor of the Tallahassee Democrat, says the deficit of \$100 million will be met by the end of the month.

He says the deficit is due to the fact that the state's budget was not balanced.

State Auditor General W. E. McCallum says the state's budget was balanced.

McCallum says the state's budget was balanced.

Standing Army

LOUIS, Sept. 25.—The American League asked the United States to withdraw its recognition of Soviet Russia.

It was cheered as J. J. of Massachusetts, of the committee on concentration trade, offered a resolution.

Commending the legislation on national defense by the last Congress, he adopted a report calling for concentration of national methods.

He urged a standing army of 163,000 enlisted men and officers, augmented by National Guardsmen, continuation of the training camps, C. M. T. C. T. C. in schools.

He went on record in favor of the consolidation of Navy, and Marine flying.

School Officials U. S. Threatened Can't Bar Pupils By Wheat Famine For 2 Week Period By Next Season

Landis Issues Ruling Mid-Westerner Says
On Short Term Residence Requirement

TALLAHASSEE, Sept. 25 (UPI)—Attorney General Cary D.

Landis yesterday told county school boards not have authority to require children to reside in a county for two weeks before they are admitted to the public schools.

Only the state board of health, he said, has authority to set residence requirements along that line.

An opinion was requested by W. S. Gaithon, state superintendent of public instruction, as to what would happen if a drought should break out in Europe to affect the United States.

The crop must be measurably larger next year, said E. J. Smiley, secretary of the Kansas Grain Dealers Association, to forestall a possible shortage.

Should the great wheat belt

suffer another drought and should war break out in Europe to affect the United States?

"I have to think what will happen."

Smiley said American wheat farmers should be urged to increase wheat acreage rather than to go back on a self-sufficient basis.

Only the state board of health, he said, has authority to set residence requirements along that line.

An opinion was requested by W. S. Gaithon, state superintendent of public instruction, as to what would happen if a drought should break out in Europe to affect the United States.

Requirements, even though they are based upon public health protection, can be prescribed for children only by the state board of health, Attorney General Landis replied.

Other opinions announced, yes, by the attorney general's office included:

Municipalities, if their charters so provide, may charge a license fee for hotels and restaurants in excess of 50 percent of the fee charged by the state.

The Florida crippled children's commission has authority to prescribe a series of evening sessions of major farm

County Agent C. R. Dr. E. R. Furman, and Johnson are prepared to participate in a round-table in which all growers

to participate.

INDIGENT, 74, FATHER OF TWINS

At 74 years of age John Slattery, impoverished relief man who lives in a tar paper shack at Council Bluffs, Iowa, has become the father of twin daughters. The babies (above) were born to 24-year-old wife who is shown with him. (Associated Press Photo)

Senator Pope Sees League In Doldrums

Solon Thinks Council
Should Begin Real
Assault On II Duce,
Other "Madmen"

By SENATOR JAMES P. POPE
(Written For Associated Press)
ABOARD S. S. VOLENDAM,
Enroute to New York, Sept. 25.—
(AP)—The League of Nations today is in something of the same position in which the United States Department of Justice was up until a couple of years ago.

The Department of Justice however was a very important agency in public opinion until it began its aggressive campaign against gangsters. As soon as it began shooting on sight, disregarding red tape in the pursuit of criminals, it attained overnight unprecedented popularity.

The same reaction would greet the League should it begin "shooting from the hip."

During the past fortnight I have heard leaders of many small nations express the most emphatic opinions on the Ethiopian dispute. Any delay on the part of the League, they believe, will be fatal to world peace and to themselves eventually.

Almost unanimously are they in the belief that war once started will spread. They feel that a war like the Ethiopian has, once received and made aogue, will take the world by storm.

It is their desire that Mussolini should immediately be cracked down on.

None of them regard H. Darrow as a madman with whom neither reason nor experience will prevail. They say he is determined to carry out his purpose and will be enabled to do so because some nations cannot be declared until aggression takes place.

Practically all small nations—Asia, Africa, Mexico and others—have been forced to make a five-year plan to build a navy and

Merchants, WCTU, Church Group Join In Fight On Bar

(Continued From Page One)

There have been several fist fights between drunks and it has been necessary to call the police twice.

"We the undersigned do hereby declare that it is detrimental to our business and to our property values.

Dr. Henry McLaughlin, Jr., Mrs. F. B. Smith, Frank E. Carmack, Dr. W. D. Gardner, Dr. E. McNah, G. U. Stewart, J. A. Harrell, H. B. Pope and Dr. H. W. Barker.

Mr. Pope qualified his signature by stating that he sees no objection if the operator runs the store as a restaurant.

Mr. W. M. Thigpen as president of the Woman's Auxiliary of the First Presbyterian Church addressed the Commission as follows:

"For the sake of the women and children who go to town meetings, we protest at the number of drunken men recently on Park Avenue between First and Second Streets, and urge you to correct this condition."

Mr. F. R. Mitchell as president of the Woman's Christian Temperance Union of this city made this appeal:

"We, the members of the W. C. T. U., do petition the members of the City Commission not to give another permit for selling烈酒 on Park Avenue."

State Protected From Storms For Next Two Days

(Continued From Page One)

Washington, Sept. 25.—(AP)—

Mrs. Franklin D. Roosevelt spoke out against war yesterday

—her first public expression on

that subject since war clouds rolled up over Africa and the Mediterranean.

At a press conference, she gave

her views with feeling and rapidity.

"From my point of view it has

been clearly proven now, never

did anything like this before.

"Why do we look as individuals,

as nations, going to ultimate destruction of our civilization

which we have seen happen

time after time in the past, why

do we insist on blindly keeping to the old ways?

"It is clear that the

League of Nations has

done its best to prevent

war, but it has not been

able to do so.

"I am not blind to the

fact that there are

other causes than

war which

are causing the world to

turn to war, but I

believe that the League of Nations
