## MILLERAND HAS QUIT POSITION OF PRESIDENT

### French Executive Finally Yields to Demand of Political Powers and Hands in His Resignation.

PARIS, June 11.—Alexander Millerand, the eleventh president of France, resigned from that office today. His resignation was read before both houses of parliament and his successor will be selected by the chamber of deputies and senate meeting at Versailles Friday.

The president's determination to resign came after the reading Tuesday in the chamber of deputies of a presidential message presented by the new premier, Frederic Francois-Marsal, in which M. Millerand declined to resign, and an adverse vote against the ministry by both chamber and senate, and finally the adoption of a motion offered in the chamber by Edouard Herriot, leader of the radical socialists,

government favorable to our suggested by M. Millerand.

The resignation of Millerand, which followed an adverse vote in the chamber of deputies Tuesday, was contained in a letter addressed to Monsieur Doumergue as president of the senate and President Painleve of the chamber. Millerand plans to issue a letter to the French nation in explanation of the circumstances under which his resignation was forced.

The resolution is resolved not to enter into relations with a ministry which in its composition is a negation of the rights of parliament. It refuses to accept the unconstitutional debate to which it is invited and decides to postpone all discussion until a government constituted in conformity with the sovereign will of the country appear before it.

This motion was adopted by the chamber, 323 to 214. The vote in the senate on the question of an interpellation on the presidential crisis was 154 to 114, against the motion.

M. Millerand's swift decision to resign in the face of these adverse votes leaves the victorious left majority in somewhat of a quandary with our outstanding candidates—M. Doumergue, president of the senate, and M. Painleve, president of the chamber—rivals for the presidential nomination. The majority in the chamber, 323, is larger than the senate's entire membership of 314, which would seem to bespeak certain victory for M. Painleve in the caucus and his election. But precedents favor the president of the senate, who is the second officer of state, being promoted in the regular line.

M. Doumergue, however, is a bachelor, and tradition insists that the Elisee must have a hostess. Other reasons are advanced for the elevation of M. Painleve, and the general belief is that he will be named as president of the republic unless a deadlock between the left forces of the two houses makes it possible for an outsider, such as former Premier Louis Barthou, president of the reparation commission to slip in.

CLINTONVILLE, Ky., June 11.—Four armed bandits entered the bank of Clintonville here today and shot and killed Frank Buchanan, a stockholder when he resisted robbery, and escaped without taking money as the cashier returned their fire.

Robert E. Crowe, state attorney, said Tuesday that he will ask that the charge of kidnaping for ransom go to trial first and that the state will insist that the youths be placed on trial by July 1, the earliest date possible under the law. Defense attorneys have not indicated their action except to state that pleas of not guilty will be entered.

Two detectives were Tuesday dispatched to Ann Arbor, Mich., to trace the lives of the boys, while they were students there and others were sent to Charlevoix, Mich., where the Loeb family have a summer home.

Meanwhile the state, which has declared it has a "clear hanging case" against the two university students who have confessed kidnaping of a neighbor for a ransom of \$10,000 and then killing him to provide excitement, continued to exert its efforts to gather evidence that the youths are sane, believing that the defense will insist both boys were insane when they committed the crime.

A score of students and friends of the boys were questioned by the state attorney today as were some of the faculty members of the university they attended.

## FARM PLANK IS ACTED UPON BY SUBCOMMITTEE

### Farm Relief Can Best Be Obtained By Tax Reduction To Steady Business Conditions—Anti-Klan Plank Is Met with Vigorous Protest. Orderly Government Plank

CLEVELAND, June 11.—Among the planks in the tentative platform as agreed on by the subcommittee on resolutions was a farm plank which already taken steps which eventually will lead to relief. Declaring the whole problem from the farmers' standpoint hinges on the price of wheat, the plank asserts that prices of things he buys and things he sells can be put more nearly on equality if there is a reduction of taxes to steady employment and stability of business.

An elderly government plank makes no specific reference to oil or other recent congressional investigations but includes in substance a declaration that persons who degrade public service, both in and out of office, should be prosecuted without regard to their political affiliation.

The controversy about the Klan plank resulted in a vigorous denunciation of the Klan being voted down.

The sub-committee presented its proposals to the full committee this morning, Chairman Charles B. Warren of the full committee receiving the report shortly before noon.

In addition to Mr. Warren, members of the drafting committee are: Senators Gooding of Idaho, Scott of Utah and Wilson of Indiana; Speaker Gillette of Massachusetts; Representative Mills of New York; Madden of Illinois and Vore of Pennsylvania; Governor Hyde of Missouri; R. B. Creager of Texas; William Heyburn of Kentucky; Edgar of Oregon; H. B. Anderson of Virginia; Lewis H. Smith of California; William H. Brewin of Rhode Island and G. C. of Kansas.

Selection of the sub-committee, the motion of Mr. Mondell, was a four and one-half hour hearing, received suggestions for platform planks from more than a hundred men and women.

The drafting committee was held in session Tuesday night, meeting this time in executive session, to hear any arguments other members of the committee desired to present. After this phase of the session had been concluded, actual work of revising the tentative platform in the truth and policy of Senator La Follette and other Republican insurgents.

Chairman Warren, in announcing the personnel of the drafting committee, made it plain that he was asking to give the sanction of the party to the platform.

Immediately after the convention adjourned Tuesday the resolutions committee met to receive suggestions from all comers. In rapid succession, three minute speakers veered the line of argument from Europe, the league of nations and the world court, across the wheat fields of the West, on to the Philippines and back again.

WASHINGTON, June 11.—E. B. Black, age 73, of St. Petersburg, returning from Europe died suddenly in a local hotel this morning. Natural causes are said to be responsible for his death.

WASHINGTON, June 11.—The first big move in the legal battle to save Nathan Leopold, Jr., and Richard Loeb from the gallows for kidnaping and killing young Robert Franks, will come today when the youthful sons of two Chicago millionaires will enter pleas of not guilty to indictments charging kidnaping for ransom and murder, each crime punishable by death.

Robert E. Crowe, state attorney, said Tuesday that he will ask that the charge of kidnaping for ransom go to trial first and that the state will insist that the youths be placed on trial by July 1, the earliest date possible under the law. ## Selection of Running Mate Still Undecided; President Is Praised

### Chairman Mondell In Speech Says Chief Executive Inspires Confidence of Men

### Democratic Party Scored by Speaker

### Democratic Platform One of Muckraking Chairman Asserts

CLEVELAND, July 11.—President Coolidge has justified the confidence that "inspired" his nomination for vice-president at Chicago, and the greater confidence reposed in him since taking up the duties of chief executive is the "outstanding fact" in the political situation, Frank W. Mondell, of Wyoming, declared today in his address as permanent chairman of the Republican national convention.

Mr. Mondell added an appeal for Republican majorities in congress "in name and in principle," saying that every serious fault of recent legislation would have been avoided had the president had that strength in house and senate.

The chairman assailed the Democrats for their "utter lack of fixed and definite principle or policy, save that of muckraking and obstruction." Referring to the situation in the last congress, when insurgents joined with Democrats to control legislation, Mr. Mondell said that never before had the necessity for dependable party majority and definite party responsibility been so clearly demonstrated.

The text of Mr. Mondell's address follows:

"Ladies and Gentlemen of the convention, we are met as the representatives of a great political party that has never failed nor faltered in its service or loyalty to the republic, that has never proposed nor advocated an unwise or unsound national policy, and it is our privilege on behalf of this party to place in nomination for the highest office in the gift of the American people candidates who shall measure up to the finest standards of party leadership and who shall be entitled to and, we confidently believe, will receive the support of a large majority of the American voters at the polls in November.

"We meet profoundly appreciative of wise, patriotic and inspiring party leadership in the past, and earnestly thankful that the kindly providence and the great good fortune which gave our party and the nation Lincoln, McKinley, Roosevelt and Harding has vouchsafed us as the worthy successor of these distinguished patriots the confidence-inspiring character of Calvin Coolidge.

"The American people placed the stamp of their approval on the candidates of the last Republican national convention by a majority of the vote in the election of Mr. Coolidge. Time and events have abundantly justified that unparalleled endorsement. He who was chosen as the party standard bearer proved his statesmanship in the skillful handling and wise adjustment of important questions and problems. Diligent in the nation's business, wise in public counsel, honest and courageous in action, he gave himself unreservedly, mind and body, heart and soul, to the nation, and became as truly a martyr to patriotic service as any soldier stricken on the field of battle.

"How well he fitted and became the great office to which he was chosen! History will write his name high on the roll of able and efficient executives, but we who knew and loved him best will cherish most the recollection of his great and kindly heart, his tender and sympathetic soul. The nation mourned him as she mourns a brother beloved and enshrined him in the only enduring hall of fame—the loyal hearts of a grateful people.

"Confidence was the keynote of the sentiment which inspired the nomination of Calvin Coolidge at Chicago four years ago. That confidence grew as he modestly performed the duties of the position to which he was elected, and strengthened prodigiously as he

## BEVERIDGE BOOM STARTED BY NEW YORK DELEGATES

### Chairman Morris of New York Representatives Declares Heartily In Favor of Indianan for Office.

CLEVELAND, June 11.—Some of the vice-presidential booms which have been running in the field so far, began moving up to the front Tuesday with the growing acceptance of former Governor Lowden's determination to take the nomination.

Former Senator Albert J. Beveridge was put to the fore when Chairman Morris of the New York delegation started a movement and announced he would seek support for Mr. Beveridge in other delegations.

It was reported that Senator James E. Watson of Indiana, for whom Indiana's delegates are instructed, was considering release of his delegates but when the start of the Beveridge movement became known to him it was said Senator Watson had decided to hold his delegates for a while.

Major Gen. Harbord's boom also got some impetus at a meeting of several hundred delegates who are members of the American Legion. Theodore Roosevelt, assistant secretary of the navy, suggested General Harbord's name to the meeting and the legionnaires pledged their support.

## Rotarians Urged to Vote for Ten Mill Special School Tax

At the regular weekly luncheon of the local Rotary Club at the Valdez Hotel Tuesday, 25 members and eight visitors were present.

Frank Vernay had charge of the program and introduced the principal speakers, Paul Ireland of Lake Mary. Mr. Ireland spoke along religious lines.

T. W. Lawton, county superintendent of public instruction was present as a guest and urged the members to vote for the special 10-mill school tax on next Tuesday. He gave some interesting facts on the Sanford school situation and showed the great benefits that may be had from this special assessment if it is passed upon by the vote of the people in this community.

Miss Lillie Ruth Spencer sang two solos which the Rotarians are said to have enjoyed very much. She was accompanied at the piano by Mrs. Claude Herndon.

Other visitors were C. P. Daeweller and Mr. Moffat of Orlando and Rev. F. D. King and Schady Maines of this city. Members present were:

George Brockhahn, Randall Chase, H. C. DuBose, R. J. Holly, Milton Haddock, E. F. Housholder, W. M. Haynes, Edward Higgins, C. E. Henry, W. C. Hill, G. W. Knight, A. R. Key, H. B. ### La Follette Issues Challenge to Party as Meeting Opens

(Continued from page 1.)  
The American people will look to the delegates from Wisconsin, and to such other progressives as may hold seats in the convention, for a bold and uncompromising fight on behalf of the fundamental principles to which you are pledged.

"Some may say that out of consideration for party harmony and inasmuch as the progressives appear to be in a minority in the convention, no good can come from a determined effort by you to obtain the adoption of a progressive platform."

"I know this argument of expediency and cowardice will have no weight with the members of your delegation. The Republican party was organized in Wisconsin in 1854, by a handful of patriotic citizens, then in a hopeless minority, who would make no compromise with the extension of human slavery. You will recall, likewise, that while the platforms submitted by Wisconsin have been scornfully rejected by Republican national conventions since 1908, practically every important proposal submitted by the Wisconsin delegates up to 1916 has since been enacted into law. There are, indeed, only five of 31 planks submitted by Wisconsin during this period which are not now embodied in the law of the land."

A wrecking train was immediately dispatched from Lakeland to clear the roadbed and a passenger train was made up there which was to go to the scene of the wreck so that the passengers might be transferred to it and taken on to Tampa early this morning.

ren of Michigan, ambassador to Mexico; Senator Jones of Washington; Gov. Dixon of Montana; Maj. Gen. James G. Harbord, former deputy chief of staff of the army; and Maj. Gen. Frank T. Hines, director of the veterans' bureau.

For the most part the discussion of vice-presidential candidates proceeded with that calm which has been the characteristic feature of the pre-convention period, but it provided one sensation in the form of a statement given out and quickly denied, endorsing Senator Watson of Indiana for second place on the ticket on behalf of D. W. H. Evans, grand wizard of the Ku Klux Klan. The pronouncement was made by Milton Elrod, a former publicity director for the Klan, who said he spoke with the full authority of Dr. Evans, but the grand wizard denied he had made or authorized such a statement or taken any other part in the convention preliminaries and Senator Watson disavowed any connection with the incident of the Klan.

One other splash in the unusually tranquil convention pond was contributed by the Wisconsin followers of Robert M. La Follette, who made a public demand that the party platform condemn the official records of Albert B. Fall and Harry M. Daugherty and commit the president to an extra session of congress this summer to pass farm relief, reclamation and railroad legislation. A suggested platform which will be offered with La Follette's approval, likewise would commend the Republicans who voted against the Mellon tax plan and would snigle out for particular praise various members of the senate insurgent group for their individual activities during the session of congress just closed.

### Minnesota Voters To End Close Race Coming Primaries

ST. PAUL, Minn., June 10.—An unparalleled list of candidates will confront the voters of Minnesota at the polls June 16 in the greatest free-for-all primary election in the history of the state.

While three parties are nominating state and congressional candidates, contests on state offices are confined to the Republican and Farmer-Labor parties, as the Democratic entries are unopposed.

Close races are anticipated in the two major parties, Republican and Farmer-Labor, and the voters will make their selections from lists that include six candidates for United States senator and fourteen for governor.

The Republicans have three senatorial candidates and six aspirants for the gubernatorial toga, while in five of the state's ten congressional districts there are contests for the Republican nomination.

Senator Magnus Johnson, Minnesota's "dirt farmer" senator, is opposed for renomination on the Farmer-Labor ticket by two entries, and in the gubernatorial field on that ticket there are eight candidates.

For the Republican senatorial nomination the candidates are Oscar Hallam of St. Paul, former associate justice of the state supreme court; Ole O. Sageing of Duluth, for years a member of the state legislature; and Thomas D. Schall of Minneapolis, congressman from the Tenth district.

Gubernatorial candidates of that party are Franklin F. Ellsworth, Minneapolis; George E. Leach, mayor of Minneapolis; Curtis M. Johnson, Rush City; O. P. B. Jacobson, Fergus Falls; Theodore Christianson, Dawson, and Julius A. Schmah, St. Paul.

Jacobson is a member of the railroad and warehouse commission, an elective office; Christianson has been chairman of the important house appropriations committee in the last few legislative sessions, and Schmah was secretary of state for 15 years up to 1920.

In the Farmer-Labor field, Senator Johnson is opposed by Michael Fertes of Minneapolis and Hjalmer Dech of Orr, venturing for the first time into state-wide politics.

The Farmer-Labor gubernatorial entries are: W. W. Boyster, Glenwood; W. A. Schaper, Minneapolis; Tom Davis, Minneapolis; Victor E. Lawson, Willmar; Floyd B. Olson, Minneapolis; Dr. L. A. Fritsche, New Ulm, and Thomas Vellon, Erskine.

The unopposed Democratic ticket includes J. J. Farrell of Carver for United States senator, and Carlos Avery of Hatchinson, for years game and fish commissioner of the state, as gubernatorial candidates.

### Mort Downey, Irish Singer, Says One Million People Get Ideals or Melody from "Two-a-Day"

Where does the public get its taste for music? Why, from vaudeville. At least, so insists Mort Downey, Irish Adonis of the footlights.  
"One million persons to-day," declares Mr. Downey, "absorb musical ideals from the 'two-a-day'."  
"I honestly advise trying vaudeville, with some good American song like the waltz-ballad 'When Lights Are Low,' that is easily understood, that has charm, appeal and melody."  
Mr. Downey practices what he preaches, for he recently turned down an offer abroad to sing at home in vaudeville. He says the heartiness of applause in vaudeville houses is another reason he likes to sing there.  
"They know what they want. Most people who go in for vaudeville are willing to split a glove to show you that you have pleased them," he adds.  
"They get their good music from bad music."

**Why Are Drugs Standardized?**

They are standardized in order to bring about uniform therapeutic efficiency to the patient whenever required. This efficiency is most needed in the sick room—not merely in the laboratory.

What is true of drugs must be true of foods. Purity and efficiency in the can is only part of the problem—purity and efficiency in the kitchen is the true test. The law requires that baking powder contain 12% leavening gas at the time of sale to the consumer. This measure insures uniform leavening efficiency and protects the health of the public.

In order to comply with this fixed standard for baking powder, manufacturers must produce and pack their product so as to avoid the deterioration which may result from absorption of atmospheric moisture. Baking Powder manufacturers to avoid violation of the law, also spend thousands of dollars yearly in testing grocers' stocks and removing "spent" goods from his shelves, in spite of the fact that every possible precaution had previously been taken against deterioration.

With the exception of Texas, the pure food laws are not applied to baking powder mixed with flour at the mill and sold in bags as "Self Rising Flour." There is no penalty on the manufacturers if this fails to "rise"—the consumer is the "goat"—he is the one that pays the penalty through indigestion and ill health that comes from eating bakings that are not properly raised. The standardization of baking powder is a protection to both the consumer and the manufacturer—who welcome such laws and co-operates in every way possible. But!

Not so with the self rising flour manufacturer—he resents such laws and fights such legislation. Why? Because a standardization of self rising flour would require moisture-proof containers instead of cheap sacks—because low grade "clears" could no longer be sold as "fancy" flour. It would also mean he must maintain expert chemical control such as is now maintained by baking powder manufacturers.

Calumet Baking Powder contains only such ingredients as have been officially approved by the U.S. Food Authorities.

BIBLE THOUGHT FOR TODAY

AN END TO WORRY!—Be careful for nothing; but in everything by prayer and supplication be made unto God.

LET ME ENJOY

Let me enjoy the earth no less Because the all-enacting might That fashioned forth its loveliness

About my path there flits a Fair, Who throws me not a word or sign;

I will find charm in her uncare, And land those lips not meant for mine.

From manuscripts of moving song Inspired by scenes and souls unknown,

I'll pour out raptures that belong To others, as they were my own.

Perhaps some day, toward Paradise And all its bliss—if such should be—

I shall lift glad, afar-off eyes, Though it contain no place for me.

—Thomas Hardy.

Sanford, the city of progress.

Saturday, June 14, is Flag Day.

Is Sanford to have a Fourth of July celebration?

Yesterday was the tenth of the month. Did you pay all your bills?

Bulkheading of Lake Monroe will mean much to the future growth and prosperity of the city.

Fourteen powerful radio stations are engaged this week in broadcasting the doings at Cleveland.

By a vote of six to one Lakeland yesterday authorized a bond issue.

Many streets paved with asphalt, acquiring of the water system, construction of a yacht basin, and the bulkheading of Lake Monroe, is part of the record made by the city of Sanford this summer.

William Jennings Bryan is in Cleveland reporting the convention for a number of newspapers.

Arthur Nash of Cincinnati has refused to become a millionaire. To escape such a calamity he has divided a six hundred thousand dollar stock dividend among four thousand employees in his garment factory.

Five hundred ex-service men die every week. This average has been maintained since the war ended.

People interested in seeing Sanford take care of its share of winter tourists will be doing the city a service by helping to provide accommodations for them.

Some time when you are infected with the idea that you are the only pebble on the beach, that your fellow men should all bow to you it might be well to reflect on the size of the universe.

The New York City Department of Public Welfare has opened the first municipal cancer clinic in the United States.

He Could Get the Thousand Dollars

"If I had a thousand dollars, I would put it as a first payment on that lot. I could easily carry the interest and pay twenty dollars a month on the principal—but I haven't the thousand."

Having delivered this speech with apparently sincere regret, the young man went to the picture show, stopping on the way to buy himself a handsome new tie, a cool drink and a package of gum.

The lot in question is increasing in value right along—just as Sanford real estate, in general, is increasing in value. Within a very few years the property will bring several times the price asked for it today.

The case is an extremely interesting one. The young man is a fine chap in many ways. He has no vicious habits. He has steady employment and receives his salary every Saturday night.

But he hasn't a thousand dollars in the bank. He does not deposit a dollar in a bank. He never has had a savings account, and seems never to have realized that a way to get a thousand dollars is to save it.

If this young man would like to have a thousand dollars four years from now, all he has to do is to deposit \$4.43 each week in a savings bank that pays four per cent.

And when the young man got his thousand dollars and bought property, he would at once become a more important person. Owning property and taking an interest in public affairs from the standpoint of a stockholder in the public business, gives a young man standing and influence.

Instead of regretting that he has no thousand dollars for a first payment, and then going off to fritter away his usual evening's contribution to his own pleasure, we wonder why this young man does not sit down and make himself a budget with provision for the bank deposit each week that will bring him capital for future investment.

A State-wide Centennial Celebration

In November a centennial celebration is to be held in Florida, commemorating the one hundredth anniversary of the assembling of the first territorial legislative council at Tallahassee.

A centennial celebration will command the attention of the whole United States. The eyes of the entire country will look and many people will listen attentively and eagerly while the history of this state is told and its growth is explained.

Why should it not be a good idea to make it the occasion of an enormous celebration in which not only the past performances of the state will be told, but some idea of the opportunities and possibilities which Florida offer can be given to those who are interested?

The centennial in November presents an opportunity of attracting many thousands of additional winter visitors to Florida for the coming season. Coming at a time when it begins to get cold in the north, information from this land of sunshine and flowers will find an enthusiastic welcome.

Sanford should join heartily in any plans brought forth for observing this anniversary and should assist in proclaiming Florida's greatness to all the world.

THE ACTUAL FACT is that in this day Opportunity not only knocks at your door but is playing an anvil chorus on every man's door, and then lays for the owner around the corner with a club.

CURBING JAYWALKERS

When the problem of street traffic is under consideration it is usually the case that blame for accidents is placed on the drivers of cars. It should go to the pedestrian in many cases. It is entirely probable that there is more carelessness among those who are on foot than among those who are in automobiles.

People interested in seeing Sanford take care of its share of winter tourists will be doing the city a service by helping to provide accommodations for them. Buy a lot and erect a bungalow that can be rented or sold.

MY FAVORITE STORIES

Most of us are familiar with the story of the careless person who, on being notified for the third time that his checking account seemed overdrawn, called up the bank by telephone and issued the following ultimatum: "Say, if you fellows down there don't quit bothering me I'm going to take my overdraft out of your blamed bank and give it to the First National."

As Brisbane Sees I

Some Politics, of Course. McAdoo, Coolidge, Smith, Bryan "He Saith, Ha, Ha." The People's Independence. Copyright, 1924

POLITICAL SUNDAY. In thousands of churches, at thousands of prayer meetings, men asked each other, "Well, what do you think about the election?"

TUESDAY CAME the Republican convention, to tell who will run for vice-president with Coolidge. The president is said to favor Dr. Burton, head of the University of Michigan.

IF PRESIDENT Coolidge had an absolute veto in the Democratic convention, he would say DON'T NAME MADDOO. Coolidge knows McAdoo's power with workers, especially with the normally republican railroad man.

Also, McAdoo has a name that the people know, and that counts. However, Ralston of Indiana, sits in the shadow, with ingenious Tom Taggart in his corner, a most impressive dark horse.

BRYAN WILL BE heard from now, as of yore. "He rejoiceth in his strength." And also "he mocketh at fear, and is not affrighted."

IT'S GOING TO be an interesting campaign. Barring a surprise from La Follette, or an unexpected rush of "conservative labor" to McAdoo, it looks like Coolidge now.

THAT'S A GOOD saying and courageous All federal judges depend on the president for appointment and promotion.

Whether the cave men had bald heads among them the archaeologists have not decided, so far as we know, but the ivory dome is quite ancient. It is at least as ancient as the Prophet Elisha, who upon being taunted by boys for his lack of hair cursed them and, lo! Jehovah send bears to devour the kids.

IF THERE EXISTS any power greater than the people's power, then what we call self-government is a joke, as when a farmer lets his baby "drive the horses" the farmer, however, holding the reins, while the baby only thinks he is driving.

Well thought-out power to recall everyone of their public servants, whether elected or appointed by an elected official, is what the people will have eventually. That will come, when they really take an interest in their government, and thus prove their fitness to govern themselves.

SNIPES HUNTIN'

THE AUTOMOBILE AND THE PROBLEM OF MORALS

Any study of the social forces of our time will have to take serious account of the automobile. Of its contribution to the convenience, comfort, and innocent pleasure, and even the health of the individual, we are well aware, but we have given little thought as yet to other effects less beneficent.

It is not necessary to elaborate upon the possibilities or the certainties of this situation. Any one willing to consider them candidly must realize that the automobile makes opportunity for immorality and even criminality.

THE HOME where good habits and good standards are honored, the pupil whence comes inspiration to right living, these build the individual and the community in righteousness. Laws and legislatures will not do it.

THE CASE of the automobile is typical. We might prohibit it for the protection of those who abuse it. But we should be foolish, indeed, to give up an agency which brings so much that is wholesome and helpful into our society.

THE HOME where good habits and good standards are honored, the pupil whence comes inspiration to right living, these build the individual and the community in righteousness. Laws and legislatures will not do it.

## ZACHARY-PHILYAW MARRIAGE IS SOLEMNIZED AT HIGH NOON TODAY

The Methodist church was the scene of one of the loveliest weddings ever witnessed in Sanford when Miss Mary Zachary became the bride of Dick Philyaw of Gainesville at high noon today.

Relatives and a large number of friends of this popular couple crowded the church to witness the ceremony so impressively performed by Dr. F. D. King of the First Baptist church in the absence of the Methodist minister.

The church was artistically adorned with an effective arrangement of flowers, baskets of purple bougainvillee. The chancel rail was littered with ferns, white and pink ribbons from each basket formed an unusual background for the bride party.

Proceeding the ceremony, Miss Charlotte Smith, at the organ, and Miss Rosamond Radford, vocal, rendered a lovely musical program. Included in Miss Smith's musical program was "Narcissus" and a folk song by Kriesler. Miss Radford sang "Because." To the strains of the Wedding March from Lohengrin, the bridal party entered.

Miss Margaret Zachary, cousin of the bride, and Raymond Bearden entered first. Miss Zachary was stunningly attired in powder blue chiffon with white lace over pink silk crepe. With this lovely gown, Miss Zachary wore a Leghorn hat with trimming of blue. Miss Philyaw was in a sleeveless peach georgette crepe with white silk lace, with this she wore a Leghorn hat with contrasting flowers. Miss Philyaw's flowers were an arm bouquet of white gladioli.

Miss Julia Zachary, sister of the bride, entered next as maid of honor. Miss Zachary never looked lovelier than in her lavender georgette trimmed with narrow white silk lace and small black satin buttons. Her hat of light brown with trimmings and streamers of rainbow georgette added much to this picture. An arm bouquet of pale pink gladioli gave the completing touch to her costume.

Miss Marie Ann Powers, cousin of the bride, as the deputy flower girl, immediately preceded the bride. Marie Ann was fairly like in a lovely pink tulle dress trimmed with sequin-pleated ruffles of pink tulle.

The bride, entering with her father, who gave her in marriage, was beautiful in a handsome white silk georgette gown, the waist being embroidered in white chenille and trimmed with white marabou. The wide circular skirt also had a wide band of marabou accentuating the hem. With this striking gown Miss Zachary wore an exquisite hat of white braid trimmed with white flowers and wheat. Her shower bouquet was of bride's roses and valley lilies.

Miss Zachary was met at the altar by the groom and his best man, Guy Kirby of Perry, where Dr. King performed the impressive rite.

During the ceremony, "To a Wild Rose" was played. To the strains of Mendelssohn's Wedding March, the bridal party left the church.

Mrs. W. A. Zachary, mother of the bride, wore a lovely dark blue silk georgette crepe dress, trimmed with accordion pleating and heavy silk lace. Her flowers were a corsage of sweetheart roses.

Mrs. Philyaw is the eldest daughter of W. A. Zachary of this city. She comes from one of the oldest and best families of the South. Mrs. Philyaw is a graduate of the Florida State College for Women, and a member of the Pi Beta Phi Sorority. For the past two years Mrs. Philyaw has taught in the Sanford High school where her sweet disposition won the respect of her pupils, just as her charming personality has always endeared her to all who knew her.

Mrs. Philyaw is traveling in a chic dark blue silk crepe Mandarin dress, embroidered in gray. Her hat and other accessories are of gray.

Mr. Philyaw is originally of Perry, but for the past few years has resided in Gainesville, where he is connected with the Central Grocery Company. The sterling qualities of Mr. Philyaw have won the respect of all who know him.

Mr. and Mrs. Philyaw left immediately after the ceremony on the boat for Jacksonville. From there their destination is unknown. They will be at home after July 1, at their home in Gainesville.

Mr. and Mrs. Wideman Caldwell and little son, Ervin, leave Wednesday for Palatka where they will make their future home. Mrs. Caldwell will go on to Jacksonville where she will spend some time.

## Consolation Supper Staged Tuesday For Defeated Candidates

Cyrus Smith, steward of the Elks Club, gave a consolation dinner Tuesday evening to numerous of the defeated candidates of the last election, as well as to their friends.

The culinary line of march began promptly at 7 p. m. Several courses were arranged in massed formation before the guests. It was very apparent that the recent defeat experienced June 3 in no way affected the erstwhile candidates' appetites.

When the repast was completed Cy Smith was unanimously nominated and elected supreme nominee.

The dining room of the club, which has witnessed many a convivial gathering, was opened on Tuesday. There were no decorations in evidence other than the food which for but a brief period adorned the table.

Between mouthfuls the guests were lead in song by Mayor Lake, the most popular melodies being "On His Leather Neck He Wears an Iron Cap" and "East Side, West Side, All Around the Town". The affair being a strictly informal one, the guests left the table as soon as they had eaten to their capacity and consequently became incapacitated.

Among those enjoying the hospitality of Mr. Smith were: Mayor Lake, George Averill DeCottes, Ethan Allen Douglass, Roy Carson Bowers, Arthur Egelbert Yowell, Richard Charles Maxwell, Charles Wallingford Stokes, James Horatio Hickson, Edward Jiggins, Edward Edwin Brady, John Rumbley, Larry Larrimore and Robert Waldo Pearmann.

**DR. BROWNLEE HONORED**  
At Davidson college, Davidson, N. C., last week, Dr. F. D. Brownlee of this city was honored by having conferred upon him the degree of Doctor of Divinity.

It is the custom of Davidson, which is the leading Presbyterian college of the South, to confer this degree upon a number of persons each year, usually one or more from each of the southern states.

Following the action of the North Carolina Institution, Rollins college at Winter Park, Florida, conferred the same degree on Dr. Brownlee, who, in line with the usual custom of this college will be the only man in Florida to be so signally honored during this year.

The community was shocked by the death of Miss Mary Gabard, who was run over by a negro and killed instantly. The body was shipped Wednesday to Tennessee for burial. Rev. Gabard going with it.

Mrs. H. H. Pattishall left Friday for Jacksonville, from where she will go to Washington to visit her daughter. Mrs. Pattishall will go from there to New York City.

## Arrest Georges On Speeding Charges

SOUTH BEND, Ind., June 11.—Georges Carpentier had his first American experience with police here recently when the automobile in which he was riding to Elkhart, Ind., to catch the Century, was stopped for speeding. By the time explanations had been made by Floyd Fitzsimmons, who was driving, Georges was delayed just long enough to miss the Century at Elkhart by five minutes. Carpentier, who was to have met Jack Curley at Elkhart, boarded another train a few minutes later and had the experience of riding in an American train without one of his managers along.

## Stars Have Close Finish in Olympic Tryouts at Stadium

NEW YORK, June 11.—The flying feet of Jackson Scholz and Alfred Leconey were just a few inches too fast Saturday for Frank Hussey, New York's sensational sprinter from Stuyvesant High School, over the 100-meter route. In the eastern Olympic tryouts at the Yankee Stadium with 20,000 dizzy spectators looking on, Jackson Scholz, formerly of Missouri, now with the New York A. C., proved his right to be crowned as the King Sprinter of the East. He beat Leconey by a span and Leconey was only a bare half span in front of young Hussey, who was cheered on by 4,000 of his schoolmates, as he made a desperate drive in the last few strides to take away the lead.

Loren Murchison, one of the great sprinters of the day, was beaten by Scholz in the semi-final test as Scholz ran the 100 meters in :10.5-10, beating the Olympic games' record held by Paddock and Craig. Scholz had to run within a tenth of a second of Paddock's world record time to stop Murchison, but the former Missouri flyer had the speed to hold any runner in the world at an even chance.

Scholz, Leconey and Hussey were the three survivors who waited for the gun in the final dash. This was the battle which most of the big crowd had looked for. Hussey had won his heat handily in :10.9-10 with something left. Scholz and Leconey had been called on to race in their sectors, but it was evident enough in the final that there would be little to spare.

## FALK'S HOMER IN THIRTEENTH WINS FOR SOX

NEW YORK SHUTS OUT ST. LOUIS 5-0—Philadelphia and Cleveland Each Win Close Games.

CHICAGO, June 11.—Falk's homer with none out in the thirteenth inning gave the Sox a 3 to 2 victory over Boston Tuesday. Piercy was hit hard, but the low score against him was due to fast fielding. Cveingos and Schalk gave way to pinch hitters who tied the score in the ninth.

Score by innings:  
Boston . . . 100000 010000—0—2 6 1  
Chicago . . . 001000 001000—1—3 13 0

Philadelphia 4; Detroit 3

DETROIT, June 11.—Scoring three runs in a ninth inning rally Philadelphia defeated Detroit in the last game of the series 4 to 3 Tuesday. The first seven innings were a pitchers' battle between Harris and Holloway. The first five innings were scoreless and each team had but one good opportunity to score, that being cut off in each instance by a double play.

Score by innings:  
Philadelphia . . . 000 001 003—3 9 0  
Detroit . . . 000 000 120—3 9 2  
Harris and Perkins; Bruggy, Holloway, Daus and Bassler.

New York 5; St. Louis 0

ST. LOUIS, June 11.—Dixie Davis failed to hold the New York Yankees in check and the Browns were shut out Tuesday 5 to 0. A crowd of 20,000 persons overflowed the park in honor of George Sisler, popular Brown player-manager, who was awarded a handsomely mounted certificate designating him the most valuable American League player in 1922. The award was made amid elaborate ceremonies prior to the game.

Sisler also was presented with a blanket of flowers and he and Babe Ruth, possessor of the 1923 trophy, were photographed together. The U. S. blimps TA-1 and TC-2 circled over the field, from the first of which two baseballs were dropped. Ruth caught one and George Grant the other.

Score by innings:  
New York . . . 020 020 001—5 7 2  
St. Louis . . . 000 000 000—0 7 2  
Hoyt and Schang; Davis, Pruett, Vangilder and Severeid.

Cleveland 4; Washington 9

CLEVELAND, June 11.—A pinch single by Larry Gardner and a pinch double by Uble aided Cleveland in winning Tuesday's game from Washington in the ninth, 4 to 3. It was the Indians' fourth straight victory over Washington.

Score by innings:  
Washington . . . 000 001 020—3 9 0  
Cleveland . . . 000 100 102—4 11 0

## Colorado Succeeds In Stopping Thefts of Ore From Mines

DENVER, Colo., June 10.—Ehe game of "high-grading," which has been an annoyance to the mining of precious metals throughout the world, has been virtually stopped in Colorado mining camps during the past nine years as a result of the efforts of special agents working under the direction of the secretary of state in enforcing the Ore Buyers' Act passed by the Colorado assembly in 1915.

The term "high-grading" came from the practice originating in the theft and sale of high grade metal ores by miners and the subsequent conversion of the ores into gold and silver bullion for sale to the United States mints. Colorado mine owners had tried in every conceivable way to put a stop to the practice, but apparently without success, according to their reports to the authorities. Some mines operating with extremely valuable veins installed "change rooms," where workmen were required to change clothing on entering and leaving the mine. But even this scheme was said not to have been entirely effective, as the certain small percentage of dishonest miners managed to find some way to smuggle ore outside.

The Ore Buyers' Act, passed after a bitter struggle between the Mine Owners' Association and alleged "high-grading" interests, provides that buyers of precious metals must be licensed by the state and must post a bond of \$5,000 for the faithful observance of the act. The law requires such a buyer to make a diligent effort to learn where the vendor acquired his ore and with what authority he is selling it. Giving false information to a buyer is made a punishable offense. In this way the special agents have been able to check the activities of unauthorized sellers. The virtual bottling up of the illicit market is said to have had the effect of stopping almost entirely the surreptitious removal of ore.
