

Measles Immunization Set For Seminole Students

By SHARON CARRASCO
Herald Staff Writer

As a preventative measure against an outbreak of red measles, students in Seminole County public schools will have an opportunity to be immunized free of cost.

"We have had a 400 percent increase in measles cases this year in the state of Florida compared with the same time last year," said Tom Cook, area immunization coordinator for Health Rehabilitative Services (HRS). The HRS immunization program will focus on the approximately 11,500 students in grades 9 through 12 in Seminole County, Cook said.

Those age children are most susceptible to measles because the vaccine administered to them in 1969 did not provide a lasting immunity, Cook explained.

For the past three days, employees of the Seminole County School Board office have been stapling the immunization information for distribution to some 12,000 parents. The information will be sent to parents on May 7 along with a consent of immunization form for their child, he said.

Parents must return the signed signature form by May 10 so their child may participate in the immunization program, Cook said.

Immunization of the students is expected to be con-

ducted in a three-day period at six different high schools. The program will be held from 8:30 a.m. to 12:30 p.m. at Lake Howell and Lake Brantley high schools on May 14, at Lyman and Seminole high schools on May 15 and at Orvieto and Crooms high schools on May 16.

"The only immunization form that the nursing teams at the high schools will accept is the HRS form signed by the parent," Cook stressed.

The outbreak of measles began in central Florida last December in Lake County, Cook said. Ninety-two cases were reported within a six-week period.

Reported cases of measles began to spread from county to county and preventative measures were begun to head-

off the disease, Cook said.

"We were very concerned about Seminole County," Cook said. "We have had some reports of measles, individual cases, but the State Health Department says even one diagnosed case is technically an outbreak because measles is an infectious disease."

Two different vaccines will be available to Seminole County students. One vaccine will be effective against measles only, while the other is effective against diseases of measles, rubella and mumps, Cook said. He said he couldn't stress enough the importance of a large voluntary turnout for the vaccine.

Sanford Airport Wins Eminent Domain Issue

The Sanford Airport Authority will gain title to 35 acres of wooded land adjacent to the airport's southernmost runway number 36, as a result of a circuit court ruling.

But the amount of money the Authority will have to pay to the landowners whose property was condemned today was decided at a later date by a jury.

Circuit Judge Muldrew issued an "order of taking" on the land following an all-day hearing Monday. The order states that the condemnation of the land is "in public interest."

The Authority filed a petition

for an eminent domain hearing on the land in February, claiming the land should be condemned so that the Authority could trim the trees in order to comply with Federal Aviation Authority safety rules in landing aircraft.

Airport Authority attorney William Hutchison said the trees were higher than 50 feet and prevented planes from having the necessary approach slope to one of the 5,000-foot runways.

Hutchison said the authority offered \$45,000 to Shirley H. McCaskill of Route 2, Sanford, and \$42,500 to Mr. and Mrs.

Lewis J. Hughey of 124 E. Jenkins Circle, Sanford, for their property. The owners initially declined to sell and the Authority then sought condemnation.

"A jury trial will be held at some time in the future to decide whether the figures offered are fair," Hutchison said. "A jury could determine that is not fair market value and alter the amounts."

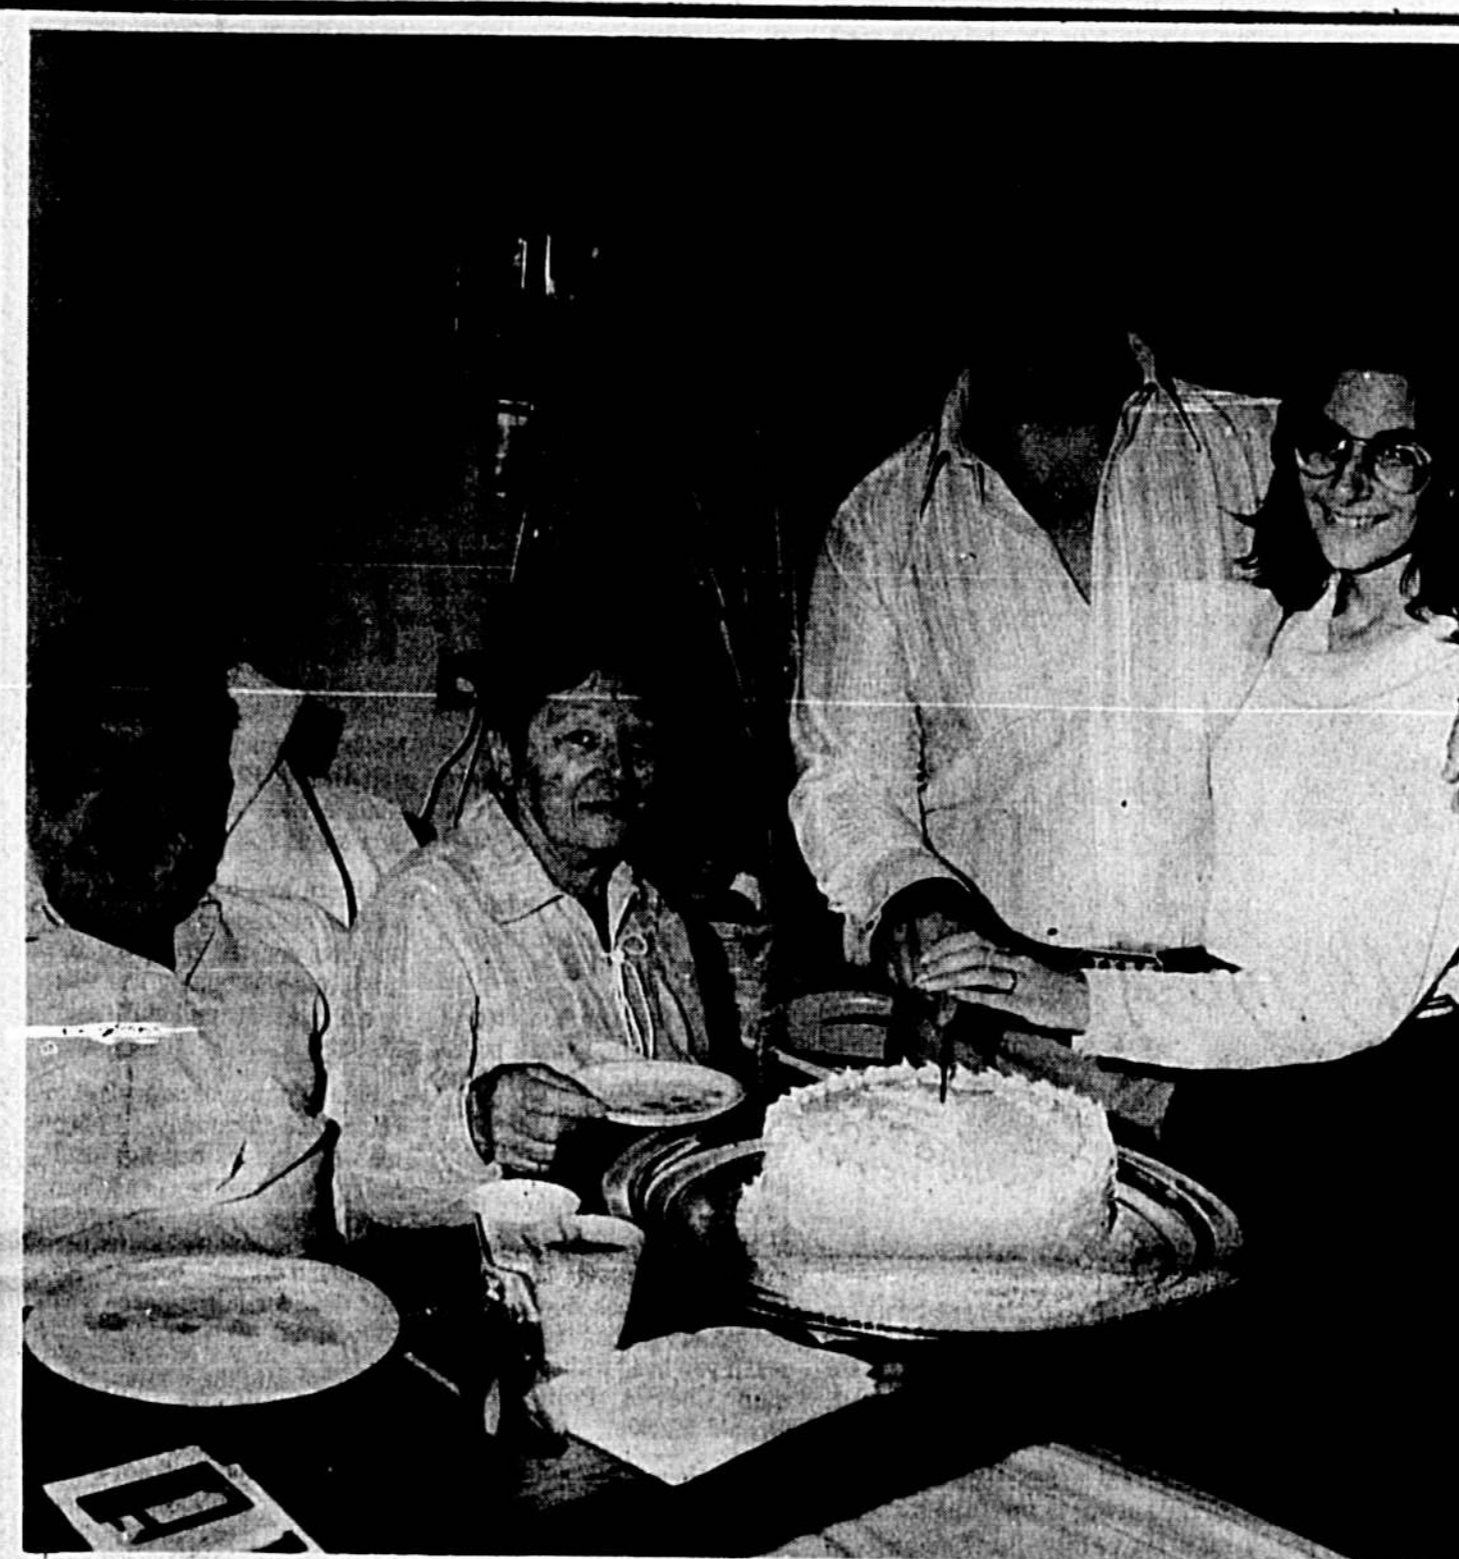

The Authority had appraisals done on the property in February, at which time a \$3,000 per acre price was established, the Authority said.

Hutchison said the airport was advised by the FAA to purchase the land rather than to seek an easement because of the difficulty in monitoring an easement.

"By owning the land we can go in and cut the trees down and correct the situation," he said.

The land is presently zoned agricultural, Hutchison said, and action to compel the owners would be difficult because Seminole County does not have an airport hazard classification for zoning, which other cities apply to limit the height of trees or buildings on land located in an approach path to an airport.

Shown in room 248 at the Seminole Memorial Hospital immediately after their first three weddings are James Padgett and his bride, Patricia. In the room are James' grandfather, "Red" Jones and his fiancée, Edna Jacobson.

Wedding Bells Rang, And Rang, And Rang

By GEOFFREY POUNDS
Herald Staff Writer

Wedding bells rang for James Padgett and Patricia Murphy this past weekend. . . and rang . . . and rang. The Sanford couple was married three times in a two-day period.

James, 17, first proposed marriage to Patricia, 17 two weeks ago. She accepted and they decided to set the date for April 28. Patricia chose her grandmother's home at 2580 Grandview Ave., Sanford, as the site of the ceremony. Delighted by the choice, Mrs. Lavona Murphy, Patricia's grandmother, began making preparations.

Not long after James' proposal, however, his grandfather, J.W. "Red" Jones, of 102 Temple Drive, Sanford became ill with heart trouble and was admitted to

The couple went through with the planned wedding at the Murphy home without Mrs. Murphy in attendance. Again it was their friend, Mrs. Janet Jacobson, who performed the ceremony.

In order to keep Mrs. Murphy from being completely excluded from the wedding, Patricia called the hospital and her grandmother heard the ceremony by phone.

"They called just as the wedding march began and I heard the whole service. I was so I'm up I couldn't be there," Mrs. Murphy said.

She said she had a mental picture of the wedding and the home she had so carefully prepared while listening on the phone.

She said the couple had not wanted to hurt anyone's feelings and thus did not mention that they had been married the day before.

"I knew she heard the wedding, but I felt unless she was there, it wasn't quite right," said Patricia. "She had worked so hard and had even bought my wedding dress."

It was immediately after the ceremony, James said, that his wife turned to him and asked him if he'd like to get married again.

"It was kind of on the spur of the moment," James said, "she looked at me and said 'can we marry again for grandpa?'"

Mrs. Murphy said her granddaughter called and said there would be another ceremony.

"Are you ready for this. . . the wedding party is on their way over so you can see the ceremony," Mrs. Murphy said she was told by Patricia.

Twenty minutes later a wedding party of nine, accompanied by Mrs. Janet Jacobson, arrived at the hospital. A yellow carriage was placed on the balcony of Mrs. Murphy and she was taken by wheelchair to the hospital chapel where, for the third time, James and Patricia were married.

'It was kind of on the spur of the moment'

Seminole Memorial Hospital.

"He was incapacitated and we knew he wasn't going to be able to make the wedding," James said. "We felt kind of bad about that."

So on the Friday before the wedding date James and Patricia, along with Janet Jacobson, who performed the ceremony, went to visit Jones in room 248 at the hospital.

"They came in blue jeans and announced they were going to get married," said Kay Bartholomew, hospital marketing and public relations director. "When we found out about it, we contacted the kitchen and had them make a cake. The couple went home after they were married got freshened up and came back for a reception in the room," she said.

The gesture and the spirit of romance were not wasted on James' grandfather. After the hospital ceremony the 65-year-old Jones announced his plans to marry Edna Jacobson, 62, mother-in-law of Janet Jacobson, this June.

"This was really a surprise," James said, "not even Edna was prepared for that."

But she accepted, and the couple plan to wed as soon as Jones recovers.

The same Friday evening, Mrs. Murphy, who had been already preparing her home for the wedding of her granddaughter, the next day, was stricken with blood poisoning in her leg and had to be admitted to Seminole Memorial Hospital.

14 Indicted For Drugs; 'Biggest Bust In History'

MIAMI (UPI) — A federal grand jury handed down a 40-count indictment today against 14 persons who allegedly smuggled more than 1 million pounds of Colombian marijuana into South Florida over a 18 month period. "The biggest drug bust by federal authorities in history," according to U.S. Attorney General Griffin Bell.

Bell said the organization contributed to up to five percent of the illegal drug traffic in the United States, valued at more than \$300 million.

The indictment, resulting from a year-long probe by Drug Enforcement Agency and FBI investigators, named 10

Floridians in the smuggling organization. The group was allegedly headed by Robert Jay Meinster and Robert Elliot Platshorn, Miami businessmen and partners in the South Florida Auto Auction, the 106-page document said.

"This is the first announced joint FBI-DEA investigation into drug trafficking," Bell said. "It is one of the biggest drug busts by federal authorities in history."

Smuggling operations began August 1974, with Meinster and Platshorn supposedly running Colombian marijuana through South Florida to storage facilities in Philadelphia, but the home base was later moved to Miami.

The organization used sophisticated monitoring equipment of law enforcement communications, a fleet of planes and ships, and a security force at loading sites armed with rifles, grenades and handguns, the indictment said.

Other defendants named were: Lynn Platshorn, 35, of Miami Beach; Dr. Morris Keller, 42, residence unknown; Eugene Arter Meyers, 49, of Tampa, Fla.; Randall Gene Fisher, 22, of Fort Lauderdale, Fla.; Modesto Echevarret-Oroz, 41, of Key Biscayne, Fla.; Richard Elliott Grant, 24, of Hollywood, Fla.; Paul Davila-Jimeno, 32, of Santa Marta, Colombia; Mark Steven Phillips, 31, of Fort Lauderdale; Carl Jerry London, 38, of Clarksville, Ga.; Gregory Francis Poulos, 33, of Fort Lauderdale; Ronald Benton Elliott, 42, of Winter Haven, Fla.; and Roy Roscoe Walker, Jr., 35, of Winston-Salem, N.C.

The defendants were charged with conducting a criminal enterprise under the federal Racketeering Influenced and Corrupt Organization statute, rather than simply a smuggling conspiracy.

Other charges included conspiracy to commit kidnapping, obstruction of justice, racketeering and importation of a controlled substance.

'But, Hold Spending'

County Financially OK

By DONNA ESTES
Herald Staff Writer

Seminole County is in "reasonably good financial condition," County Administrator Roger Neiswender and Office of Management, Analysis and Evaluation (OMAE) Director Jeff Etchberger told county commissioners Monday in workshop session.

But, the county is "starting to hurt" from a 17.57 percent turnover among skilled employees including surveyors, construction people, firemen and others which is having an impact on some county programs, Neiswender added.

Pointing out loss of employees usually occurs when the economy heats up, Neiswender said the county is being forced to compete for skilled employees not only with the private sector, but also with cities like Altamonte Springs where salaries, particularly for firemen, are somewhat higher than those in the county.

Substantial progress has been made since Lois Martin, long-time county employee, was named to head the county's personnel division and has

worked up new pay plans, Neiswender said.

"The turnover rate is unacceptable," the administrator said.

Of the county's financial condition, Neiswender warned while the picture is bright for the remaining months of the current fiscal year to end Sept. 30, a lower amount of cash will be carried over into the new fiscal year than in years past.

He urged commissioners to hold the line on spending, approving expenditures only for budgeted items while leaving collections of revenues by the county is 1.4 percent ahead of contingency and reserve funds untouched as much as possible.

Generally county government needs a cash carry forward during the first few months of a new fiscal year to operate until property taxes begin coming in.

Neiswender said the anticipated growth in the tax base this year is expected to be "eaten up" by inflation.

Etchberger, meanwhile, said the same period a year ago while spending is down 1.7 percent, Neiswender added that interest income on added invested funds is slightly better than in the past.

In other business, Neiswender told board members the county can cooperate with the cities of Seminole which need inspections done on bridges in the various communities to compliance with state law. Neiswender said the law requires the city and county wide bridges within their respective jurisdictions every two years.

He said the city of Winter Springs has asked the county to inspect seven bridges in that city and four or five bridges in other cities need inspections as well. The county has a team in its engineering department who are qualified to inspect bridges, he said.

Commissioners agreed the fee to be charged the cities for the inspections will be \$200 per bridge where "as-built" plans are not available and \$100 per bridge where plans are available.

WORLD IN BRIEF

Millions Parade In May Day Celebration

By UNITED PRESS INTERNATIONAL
From the traditional parade on Moscow's Red Square to memorial tributes for the war dead in Israel, nations spanning the globe today marked May Day — an annual rite of spring — with marches, rallies and speeches. Outside the Kremlin, about 2 million Soviets marched, cheering and waving banners emblazoned with "Long live the unbreakable alliance of the working class" and other slogans.

Moscow Honors Angela

MOSCOW (UPI) — Black American civil rights activist Angela Davis is among six foreigners named recipients of the International Lenin Peace Prize awarded to mark Tuesday's May Day celebrations, the official Tass news agency reported.

Nicaragua Fight Rages

MANAGUA, Nicaragua (UPI) — Nicaraguan authorities arrested two top opposition leaders and banned all but one May Day celebration today in an apparent effort to avenge a bloody outbreak of attacks against President Anastasio Somoza.

Convict Takes Hostages

DORCHESTER, New Brunswick (UPI) — A young convict jailed for attempted murder took two prison teachers hostage at Dorchester Maximum Security Prison, beat and stabbed them, then released one man in serious condition after more than five hours.

Carter Issues Warning

WASHINGTON (UPI) — President Carter has issued a public warning that a Soviet violation of the proposed arms limitation treaty could lead to a nuclear confrontation.

Rhodesian Crisis Unsolved

SALISBURY, Rhodesia (UPI) — Rhodesia's ruling Executive Council failed today to end a crisis sparked by a black leader's charge that the recent majority rule election was stage-managed to benefit his chief rival.

125 Whales Found Dead

SANTIAGO, Chile (UPI) — Some 125 whales have been found dead on a beach on Navarino Island at the southern tip of South America, according to Santiago press reports.

Israel Mourns Dead

By UNITED PRESS INTERNATIONAL
Israel today began a two-day holiday to mourn the nearly 14,000 soldiers killed defending the Jewish state and to mark its first Independence Day at peace with Egypt in more than 21 years.

Cyclist Dies; Driver In Collision Sought

Mark Scott Chaplin, 16, of 2809 S. Magnolia, Sanford, died Monday afternoon and the person who killed him remains unknown to authorities.

Young Chaplin died at Florida Hospital in Orlando of head injuries he sustained when he was struck by a hit and run driver Thursday evening.

Chaplin was riding his bicycle on Old Lake Mary Road about a mile south of Airport Boulevard when an unidentified motorist struck him from the rear, throwing him onto the pavement. The Florida Highway Patrol said the driver of the car never stopped.

Instead, the Highway Patrol reported, the driver fled the scene at a high rate of speed. Witnesses told investigating troopers that the car appeared to be a blue, 1976 or 1974 Pontiac. Witnesses said the driver of the car had one passenger.

The Highway Patrol said today they have no new leads in connection with the accident.

The mother of the victim, Mrs. Paul Chaplin, said her son was on his way to a friend's house in Lake Mary at the time of the accident. He was going to stay overnight so he could be closer to other relatives.

Senate Passes Tax Relief

CRIB DEATH

Preliminary autopsy findings indicate a three-month-old Sanford boy who died Sunday was a victim of the "crib death syndrome," says Dr. Sara Irrgang, the assistant medical examiner for Seminole County.

Kenneth Adams of 2201 Alexander Ave., Sanford, was pronounced dead Sunday morning at Seminole Memorial

Hospital. Sandra Turner, the baby's mother, brought the boy to the hospital when she noticed he had stopped breathing.

"Crib death is a recognized syndrome where a child dies apparently without any real struggle," Dr. Irrgang said. "It is believed at this point that it is due to the baby's immature respiratory system."

"If he goes to sleep, he forgets to breathe."
Crib death syndrome usually affects babies from one month to six months of age, she said.

Dr. Irrgang says she will conclude the autopsy report Thursday.

HOUSE BURGLARY: SHE'S IN JAIL
The apartment of a woman in jail on charges of first degree murder was burglarized and a television valued at \$200 taken sometime Sunday or Monday, Sanford police said.

Police said a 24-inch television owned by Thelma Brooks, 31, was taken from an apartment at 165 Bethune Circle by a burglar who entered the home by forcing open a window.

On Friday night, Mrs. Brooks was taken into custody and charged with first degree murder in connection with the shooting death of her husband, Adolphus Brooks, 44, who was found dead in the bedroom of the apartment. She remains in custody.

The theft of the television was reported by Mrs. Brooks' nephew, Dannie Bernard Williams.

TWO STEREO AMPLIFIERS WERE STOLEN FROM THE WINWOOD COMMUNITY CENTER IN ALTAMONTE SPRINGS, according to Seminole County deputies.

A pry tool was used to jimmy the locked door of the community center located at 119 Leonard St., Altamonte Springs, deputies said. The burglary occurred sometime between Sunday and Monday.

The anti-hypertension agent, called reserpine, was introduced in 1954 and the government estimated more than a million people currently take the drug, which is sold under a number of different brand names.

But the cancer institute and the National Heart, Lung and Blood Institute said the risk is less than that of untreated high blood pressure "far exceeds" the drug's potential cancer risk to humans.

MARTINSVILLE, Ind. (UPI) — Since he was 12, Stephen T. Judy has been in and out of prisons and jails in Indiana and Illinois. The last two times he was released, an Indiana official says, it was because of mistakes by Illinois prison officials.

On Saturday, police charge, Judy abducted a young mother and her three children as they were stranded on a roadside near Indianapolis with a flat tire. Police say Judy raped and strangled the woman and drowned the young children in a creek near the roadside.

Prosecutor G. Thomas Gray said Monday he is confident he will have Judy sent to the electric chair for the crimes.

LOCKLAND, Ohio (UPI) — A 21-year-old man, apparently dissatisfied with the treatment his physician was giving him for a skin problem, shot and killed the doctor Monday and then turned the gun on himself.

Police said Joe Dermoino walked into the house of Dr. S. Gregory Miceli, pulled out a .357 magnum revolver, and shot the doctor in the chest and then apparently shot himself in the chest.

Neighbors said Miceli had practiced medicine for more than 40 years in Lockland, a Cincinnati suburb. Dermoino, who lived about a block from the doctor's house, had been treated for — but not cured of — a skin problem.

Millionaire Lived Amid Trash Heaps

CINCINNATI (UPI) — Suburban Chevrolet police are trying to unravel the riddle of Genette Lemmon, an 81-year-old woman who lived alone, without water, surrounded by heaps of trash and a million-dollar fortune.

When Miss Lemmon died at General Hospital Friday, police were tipped by neighbors who had tried to help her while she was alive. Amid heaps of garbage, police discovered an apparent fortune of more than \$1 million.

"Try imagining how your house would look if you hadn't put out any garbage for 15 years and if you lived without water," said Chevrolet Police Chief Donald Mackie.

"We found \$2,000 in cash, plus checks, bonds and uncashed checks we cataloged as worth \$500,000. We found one bank book with \$200,000 on deposit.

"My wife and I tried to help her," said Ed Ranz, a neighbor, "but she let us know she didn't want any help."

LOCKLAND, Ohio (UPI) — A 21-year-old man, apparently dissatisfied with the treatment his physician was giving him for a skin problem, shot and killed the doctor Monday and then turned the gun on himself.

Police said Joe Dermoino walked into the house of Dr. S. Gregory Miceli, pulled out a .357 magnum revolver, and shot the doctor in the chest and then apparently shot himself in the chest.

Neighbors said Miceli had practiced medicine for more than 40 years in Lockland, a Cincinnati suburb. Dermoino, who lived about a block from the doctor's house, had been treated for — but not cured of — a skin problem.

LOCKLAND, Ohio (UPI) — A 21-year-old man, apparently dissatisfied with the treatment his physician was giving him for a skin problem, shot and killed the doctor Monday and then turned the gun on himself.

Police said Joe Dermoino walked into the house of Dr. S. Gregory Miceli, pulled out a .357 magnum revolver, and shot the doctor in the chest and then apparently shot himself in the chest.

NATION IN BRIEF

Immediate Ban Sought On Nonprescription Sedatives

WASHINGTON (UPI) — An ingredient used by at least 10 million Americans in many nonprescription sedatives, sleep-aid and cold medicines causes cancer in animals and should be banned immediately, an environmental group said today.

The drug — methapyrilone — is an antihistamine widely used in such products as Compoz, Nytol, Excedrin P.M., Seminor, COPE and Allertest Time Release Capsules.

The Environmental Defense Fund said methapyrilone has been found to cause liver tumors in laboratory rats.

WASHINGTON (UPI) — A drug widely used to combat high blood pressure and as an anti-dandruff shampoo has been found to cause cancer in laboratory rats and mice, the National Cancer Institute reported today.

The anti-hypertension agent, called reserpine, was introduced in 1954 and the government estimated more than a million people currently take the drug, which is sold under a number of different brand names.

But the cancer institute and the National Heart, Lung and Blood Institute said the risk is less than that of untreated high blood pressure "far exceeds" the drug's potential cancer risk to humans.

MARTINSVILLE, Ind. (UPI) — Since he was 12, Stephen T. Judy has been in and out of prisons and jails in Indiana and Illinois. The last two times he was released, an Indiana official says, it was because of mistakes by Illinois prison officials.

On Saturday, police charge, Judy abducted a young mother and her three children as they were stranded on a roadside near Indianapolis with a flat tire. Police say Judy raped and strangled the woman and drowned the young children in a creek near the roadside.

Prosecutor G. Thomas Gray said Monday he is confident he will have Judy sent to the electric chair for the crimes.

LOCKLAND, Ohio (UPI) — A 21-year-old man, apparently dissatisfied with the treatment his physician was giving him for a skin problem, shot and killed the doctor Monday and then turned the gun on himself.

Police said Joe Dermoino walked into the house of Dr. S. Gregory Miceli, pulled out a .357 magnum revolver, and shot the doctor in the chest and then apparently shot himself in the chest.

WORLD IN BRIEF

Millions Parade In May Day Celebration

By UNITED PRESS INTERNATIONAL
From a traditional parade on Moscow's Red Square to memorial tributes for the war dead in Israel, nations spanning the globe today marked May Day — an annual rite of spring — with marches, rallies and speeches.

Outside the Kremlin, about 2 million Soviets marched, cheering and waving banners emblazoned with "Long live the unbreakable alliance of the working class" and other slogans.

Most countries mark May Day as a day to honor its workers, commemorating the strikers' march through the streets of Chicago that culminated in the 1890 "Haymarket Massacre."

Moscow Honors Angela

MOSCOW (UPI) — Black American civil rights activist Angela Davis is among six foreigners named recipients of the International Lenin Peace Prize awarded last Tuesday's May Day celebrations, the official press agency reported.

Tass Monday quoted academicians Nikolai Blokhin, a member of the awarding jury, as saying Ms. Davis "vigorously continues to engage in political activities, consistently comes out for friendship between the American and Soviet peoples, for the development of all-round relations between the United States and the U.S.S.R."

Nicaraguan Fight Rages

MANAGUA, Nicaragua (UPI) — Nicaraguan authorities arrested two opposition leaders and banned all but one May Day celebration today in an apparent effort to do a bloody outburst of attacks against President Anastasio Somoza.

Leftist Sandinista guerrillas reportedly staged attacks in Managua and Chinandega, but the worst fighting was reported in Leon 55 miles northwest of the capital. One American was wounded.

A National Guard plane Monday launched several rockets into the city as ground troops fought hit-and-run battles with an undetermined number of rebels in the predominantly poor western section of Leon, witnesses said.

Convict Takes Hostages

DORCHESTER, New Brunswick (UPI) — A young convict jailed for attempted murder took two prison teachers hostage at Dorchester Maximum Security Prison, beat and stabbed them, then released one man in serious condition after more than five hours.

Justin Sullivan, prison communication manager, said 22-year-old Gerald Joseph McDonald, armed with tools from the prison engine repair shop, Monday captured two elderly shop instructors identified as Joseph LeBlanc, 59, and Robert Chapman, 55.

Sullivan said the inmate had apparently acted on impulse and that efforts to free the hostages had been hampered "because he doesn't seem to know why he did it. It's just as mystified as we are."

Carter Issues Warning

WASHINGTON (UPI) — President Carter has issued a public warning that a Soviet violation of the proposed arms limitation treaty could lead to a nuclear confrontation.

Speaking to a nationwide television and broadcast audience at his 48th formal news conference Monday, Carter twice used the phrase "nuclear confrontation."

"The Soviets know that if we ever detect any violation of the SALT II agreement, there would be a basis on which to reject the treaty in its entirety, there would be a possible termination of the good relationships between our country and the Soviet Union on which détente is based, and it might very well escalate into a nuclear confrontation," he said.

Rhodesian Crisis Unresolved

SALISBURY, Rhodesia (UPI) — Rhodesia's ruling Executive Council failed today to accept a proposal by a black leader's charge that the recent majority rule election was stage-managed to benefit his rival.

But at a two-hour meeting, which marked the start of a protracted wrangle, the four council members left themselves some room to maneuver.

The Rev. Ndanangiso Sithole, who ran a poor second in the election, came out saying his council colleagues did not reject his call for a commission of inquiry to investigate the election results but that they said his findings would not be binding.

125 Whales Found Dead

SANTIAGO, CHILE (UPI) — Some 125 whales have been found dead on a beach on Navarino Island at the southern tip of South America, according to Santiago press reports.

The whales ranged from six to 18 feet long and were found over the weekend washed up on a 15-mile stretch of beach by fisherman, the reports said.

Israel Mourns Dead

By UNITED PRESS INTERNATIONAL
Israel today began a two-day holiday to mourn the nearly 14,000 soldiers killed defending the Jewish state and to mark its first Independence Day at peace with Egypt in more than 21 years.

In a major address in Safage, a mining town on the Red Sea about 300 miles south of Cairo, President Anwar Sadat was expected to trace the remaining steps toward a working peace with Israel and comment on the widening rift between his country and its Arab neighbors.

Cyclist Dies; Driver In Collision Sought

Mark Scott Chaplin, 16, of 2809 S. Magnolia, Sanford, died Monday afternoon and the person who killed him remains unknown to authorities.

Young Chaplin died at Florida Hospital in Orlando of head injuries he sustained when he was struck by a hit and run driver Thursday evening.

Chaplin was riding his bicycle on Old Lake Mary Road about a mile south of Airport Boulevard when an unidentified motorist struck him from the rear, throwing him onto the pavement. The Florida Highway Patrol said the driver of the car never stopped.

The Highway Patrol reported, the driver fled the scene at a high rate of speed. Witnesses told investigating troopers that the car appeared to be a blue, 1973 or 1974 Pontiac. Witnesses said the driver of the car had one passenger.

The Highway Patrol said today they have no new leads in connection with the accident.

The mother of the victim, Mrs. Paul Chaplin, said her son was on his way to a friend's house in Lake Mary at the time of the accident. He was going to stay overnight so he could be closer to

his school.

Most countries mark May Day as a day to honor its workers, commemorating the strikers' march through the streets of Chicago that culminated in the 1890 "Haymarket Massacre."

Senate Passes Tax Relief

TALLAHASSEE, Fla. (UPI) — The Senate today approved a constitutional amendment giving homeowners a \$14

Earlier story, page 5A

break on their property taxes.

The amendment, which will go to Florida voters during the

March 11 presidential primary, was approved 82-2. Sen. Bob Graham giving his support to the amendment.

The Senate deadlocked on a bill letting Florida Gas Co. use the power of public condem-

nation to secure land for a coal slurry pipeline.

Final action on the bill (SB54) was put off after several senators charged the pipeline should be regulated by the Public Service Commission.

Under the Senate tax plan, the constitution would be amended to limit school taxes

on homesteads to 2 mills — \$2 per \$1,000 of assessed value — instead of the current 8 mills.

Homeowners would get a check from the state next April or May reimbursing them for about three-fourths of the taxes they paid this year. Their taxes would be levied at the reduced level in future years.

Two stereo amplifiers were stolen from the Winwood Community Center in Altamonte Springs, according to Seminole County deputies.

A pry tool was used to jimmy the lock door of the community center located at 199 Leonard St., Altamonte Springs, deputies said. The burglary occurred sometime between Sunday and Monday.

The anti-hypertension agent, called reserpine, was introduced in 1954 and the government estimated more than a million people currently take the drug, which is sold under a number of different brand names.

But the cancer institute and the National Heart, Lung and Blood Institute said the risk to life posed by untreated high blood pressure "far exceeds" the drug's potential cancer risk to humans.

Death Penalty Sought
MARTINSVILLE, Ind. (UPI) — Since he was 12, Stephen T. Judy has been in and out of prisons and jails in Indiana and Illinois. The last two times he was released, an Indiana official says, it was because of mistakes by Illinois prison officials.

On Saturday, police charge, Judy abducted a young mother and her three children as they were stranded on a roadside near Indianapolis with a flat tire. Police say Judy raped and strangled the woman and drowned the young children in a creek near Mooresville.

Prosecutor G. Thomas Gray said Monday he is confident he will have Judy sent to the electric chair for the crimes.

Skin Problem - Kills M.D.
LOCKLAND, Ohio (UPI) — A 21-year-old man, apparently dissatisfied with the treatment his physician was giving him for a skin problem, shot and killed the doctor Monday and then turned the gun on himself.

Police said Joe Derrinno walked into the house-office of Dr. S. Gregory Miceli, pulled out a .357 magnum revolver, and shot the doctor in the chest and then apparently shot himself in the chest.

Neighbors said Miceli had practiced medicine for more than 40 years in Lockland, a Cincinnati suburb. Derrinno, who lived about a block from the doctor's house, had been treated for — but not cured of — a skin problem.

Breast-Feeding In Court
TALLAHASSEE, Fla. (UPI) — One of Florida's major teachers' unions is challenging an order forbidding an Orlando kindergarten teacher to breast-feed her baby at school on her lunch hour.

A U.S. District Court judge was asked to act immediately to let the teacher leave campus during her off-duty hours, or be allowed to feed the child at the school while the court considers the suit.

Seminole Community College, where he was planning on visiting the computer room the next morning, his mother said.

CRIB DEATH
Preliminary autopsy findings indicate a three-month-old Sanford boy who died Sunday was a victim of the "crib death syndrome," says Dr. Sara Irrgang, the assistant medical examiner for Seminole County.

Kenneth Adams of 2201 Alexander Ave., Sanford, was pronounced dead Sunday morning at Seminole Memorial Hospital. Sandra Turner, the baby's mother, brought the boy to the hospital when she noticed he had stopped breathing.

"Crib death is a recognized syndrome where a child dies apparently without any real struggle," Dr. Irrgang said. "It is believed at this point that it is due to the baby's immature respiratory system."

"If he goes to sleep, he forgets to breathe."
Crib death syndrome usually affects babies from one month to six months of age, she said.

Dr. Irrgang says she will conclude the autopsy report Thursday.

HOUSE BURGLARY:
SHE'S IN JAIL
The apartment of a woman in jail on charges of first degree murder was burglarized and a television valued at \$200 taken sometime Sunday or Monday, Sanford police said.

Police said a 24-inch television owned by Thelma Brooks, 31, was taken from an apartment at 105 Bethune Circle by a burglar who entered the home by forcing open a window.

On Friday night, Mrs. Brooks was taken into custody and charged with first degree murder in connection with the shooting death of her husband, Adolphus Brooks, 44, who was found dead in the bedroom of the apartment. She remains in custody.

The theft of the television was reported by Mrs. Brooks' nephew, Dan Bernard Williams.

AMPLIFIERS TAKEN
Two stereo amplifiers were stolen from the Winwood Community Center in Altamonte Springs, according to Seminole County deputies.

A pry tool was used to jimmy the lock door of the community center located at 199 Leonard St., Altamonte Springs, deputies said. The burglary occurred sometime between Sunday and Monday.

Breast-Feeding In Court
TALLAHASSEE, Fla. (UPI) — One of Florida's major teachers' unions is challenging an order forbidding an Orlando kindergarten teacher to breast-feed her baby at school on her lunch hour.

A U.S. District Court judge was asked to act immediately to let the teacher leave campus during her off-duty hours, or be allowed to feed the child at the school while the court considers the suit.

Richard Borcher, a Denver attorney for the religious group, said Monday he will ask the U.S. Supreme Court to consider hearing the case.

The three men said the Bible directs they not allow any photographs of themselves, a belief based on a literal interpretation of the second commandment as pronounced in Exodus.

The commandment states: "Thou shalt not make unto thee any graven image, or any likeness of any thing that is in heaven above, or that is in the earth beneath, or that is in the water under the earth."

Borcher said the small group, based in Boone, Colo., and founded in the late 1930s, took its unpronounceable name because of a belief God's name should not be spoken on earth.

At least in terms of volleyball at Rogers High, athletic opportunities for males have been severely limited," he said.

Gomes, 19, filed a suit last month seeking an injunction to force the Rhode Island interscholastic League to let him play on the squad.

The 6-foot-tall Gomes, who made the team in tryouts but wasn't wanted to play, said the league violated his constitutional right of equal protection and used federal athletic funds to do it.

The league's lawyer, Robert B. Mann, said he would probably appeal the ruling and seek a temporary order to keep Gomes off the team, who has already begun his season.

Millionaire Lived Amid Trash Heaps

CINCINNATI (UPI) — Suburban Chevrolet police are trying to unravel the puzzle of Genette Lemmon, an 81-year-old woman who lived alone, without water, surrounded by heaps of trash and a million-dollar fortune.

When Miss Lemmon died at General Hospital Friday, police were tipped by neighbors who had tried to help her while she was alive. Amid heaps of garbage, police discovered an apparent fortune of more than \$1 million.

"Try imagining how your house would look if you hadn't put out any garbage for 15 years and if you lived without water," said Chevrolet Police Chief Donald Mackie.

"We found \$42,000 in cash, plus stocks, bonds and uncashed checks we catalogued as worth \$202,000. We found one bank book with \$240,000 on deposit.

"And that doesn't include stock in such firms as General Motors, Cincinnati Bell, Cincinnati Gas & Electric, Ed Paso Natural Gas, and Firestone," said Mackie.

"There are hundreds of envelopes containing such stocks and you can tell from the interest she was getting she was worth over \$1 million," said Mackie.

Miss Lemmon became ill at a restaurant Thursday. Police took her home, but Sgt. Bill Holmmeister said he opened her front door and decided, "There's no way we can let her go back into that house." He said the odor in the house was suffocating.

Mackie said the woman, who apparently was "not senile" judging from records she kept, had gone 15 years without a hot water heater and without water since her pipes burst last winter.

"My wife and I tried to help her," said Ed Ranz, a neighbor, "but she let us know she didn't want any help."

On returning to Washington, Kennedy said Carter's reaction to his criticism was the president's "best effort to defend an energy policy I find indefensible."

Despite the latest furor — and continuing polls showing him running even with or even ahead of the incumbent president — Carter still keeps himself aloof from political speculation.

"I expect him (Carter) to be reelected," Kennedy told the editors. "I expect to work for his election. I expect him to be re-elected."

But Kennedy said he will continue to challenge Carter "in areas where I have strong views and differences" and support him "on issues where we both agree."

He said he would oppose any congressional attempts to weaken the tax.

When a reporter related Kennedy's submission to Carter at his latest — and possibly bitterest — issue to presidential President Carter and his potential rival for the 1980 nomination, Sen. Edward Kennedy.

Kennedy has broken with Carter before, over national health insurance and budget priorities, but the current dispute over oil prices decontrol and how to tax the oil companies' profits left a visibly angry Carter and a stone-faced Kennedy trading charges and counter-charges Monday.

In a speech to the American Society of Newspaper Editors in New York, Kennedy accused the administration of giving in to "the overbearing power of the oil lobby."

"First, it has intimidated the administration into throwing in the towel without even entering the ring on oil price decontrol," Kennedy said.

"And second, it has also intimidated the administration into submitting a token windfall tax that is no more than a transparent fig leaf over the profit the industry will reap."

Kennedy has broken with Carter before, over national health insurance and budget priorities, but the current dispute over oil prices decontrol and how to tax the oil companies' profits left a visibly angry Carter and a stone-faced Kennedy trading charges and counter-charges Monday.

In a speech to the American Society of Newspaper Editors in New York, Kennedy accused the administration of giving in to "the overbearing power of the oil lobby."

"First, it has intimidated the administration into throwing in the towel without even entering the ring on oil price decontrol," Kennedy said.

"And second, it has also intimidated the administration into submitting a token windfall tax that is no more than a transparent fig leaf over the profit the industry will reap."

When a reporter related Kennedy's submission to Carter at his latest — and possibly bitterest — issue to presidential President Carter and his potential rival for the 1980 nomination, Sen. Edward Kennedy.

New Battle Begins Over Canal Treaty

Senate ratification of the Panama Canal treaties last year has been hailed as one of the successes of the Carter administration. The narrow margin of approval was coaxed through extensive jawboning and old-fashioned politicking.

Red Thaw A Plus

The chill in relations between the greatest Communist powers, the Soviet Union and China, has held acknowledged diplomatic benefits for the United States over the past several years.

ANGLE-WALTERS Patronage: Making A Return Trip

WASHINGTON (NEA) — President Carter is attempting to extricate himself from an embarrassing situation by restoring old-fashioned political patronage to thousands of jobs that must be filled for the 1980 decennial census of population.

Red Thaw A Plus

The White House scheme to avoid publicity for the announcement worked well. The first disclosure of Carter's abandonment of his own reforms didn't come until three weeks later in The Baron Report, an influential political newsletter.

Governor Opposes Plan

Senate Considers Tax Relief Proposal

TALLAHASSEE, Fla. (UPI) — Senate leaders said a plan giving homeowners \$14 a year in tax relief for the floor today even though the governor adamantly for an across-the-board property tax rollback giving relief to commercial and industrial land holders as well as homeowners.

It's Up To Graham

TALLAHASSEE, Fla. (UPI) — The U.S. Supreme Court has turned down another appeal from condemned murderer John Spenzlink and his attorneys say "we're relying on the governor to do the right thing and commute the sentence to life in prison."

Program Questioned

TALLAHASSEE, Fla. (UPI) — Lawmakers, who once were ecstatic over the possibilities of a new program to curb juvenile crime, are taking a close look before agreeing to let teenagers spend time inside a prison to find out what it's like behind bars.

Launch Thursday

CAPE CANAVERAL, Fla. (UPI) — The Naval's second communications satellite is ready for launch Thursday on an Atlas-Centaur rocket from Cape Canaveral, expanding communications service to Europe and Africa.

Slaton, Oglivie Spark Brewers

By United Press International
One traded for each other, Jim Slaton and Ben Oglivie now are making such music in Milwaukee.

Last year the Brewers, needing left-handed home-run power, traded their ace pitcher, Slaton, to the Detroit Tigers for Oglivie.

Surprisingly, however, Slaton played out his option with the Tigers after one season and when he was available in the re-entry draft last winter the Brewers couldn't wait to get him back.

"I had good control of my fastball, slider and curve," said Slaton, raising his record to 21-1.

Expos 8, Dodgers 4
Andre Dawson hit a two-run homer and Gary Carter drove in two runs with a homer and a double to back Steve Rogers' superb pitching as Montreal won its ninth straight home game.

Meta 4, Padres 3
Doug Flynn's seventh-inning single scored Joe Mauer and Craig Swan to win their third victory.

Don Baylor singled with the bases loaded in the ninth inning to score Rick Miller with the go-ahead run and gave the Angels a victory over the Yankees.

Astros 6, Cardinals 5
Terry Puhl's two-run homer capped a four-run ninth inning that carried Houston over St. Louis.

With Philadelphia in 1974, Hauser seemed on the way to better things, but running over to cover first base the following spring, he suddenly suffered a broken knee. He was out of the rest of the season and never was the same again.

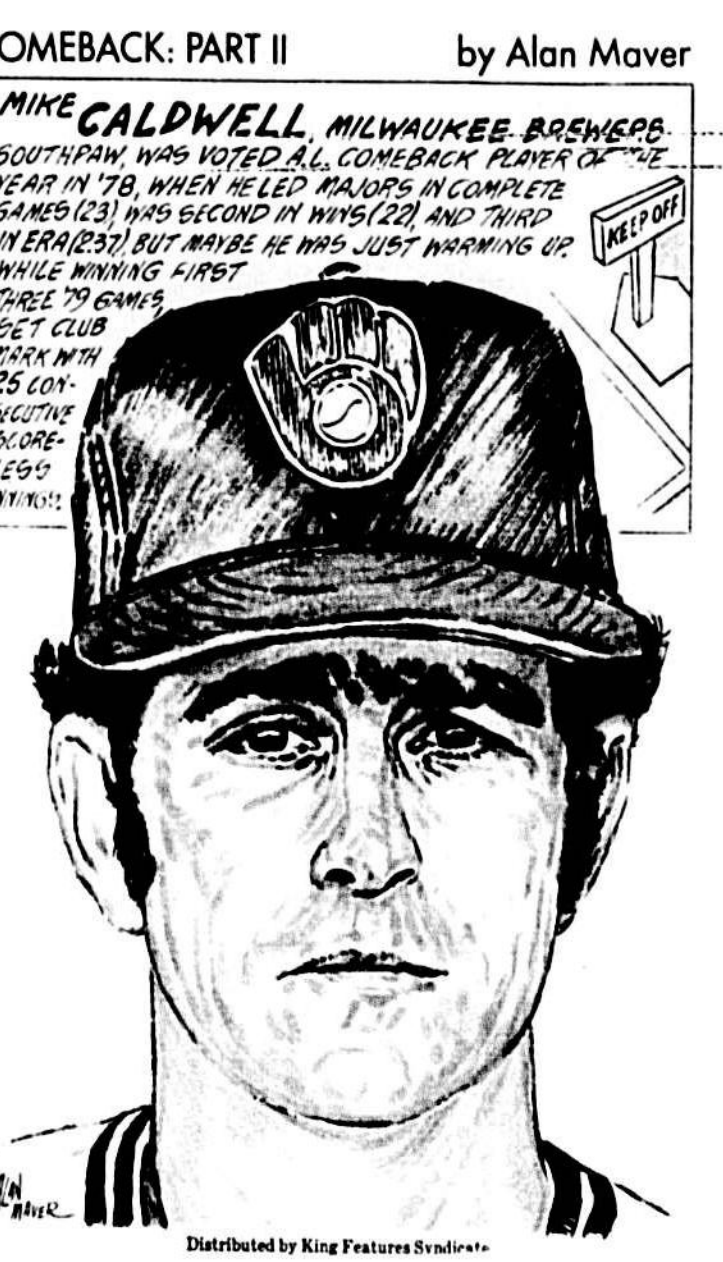

"Sure they can run," said forward Paul Silas of the Sonics, "providing they get the rebounds. We have as much quickness as they do. Board-wise, we're a little stronger. They probably don't look for a dynamic series."

"Seattle is the kind of team that gives us trouble," said MacLeod. "We aren't real physical, and MacLeod has had success against them in the past. And it's no accident that Seattle has the best defensive statistics in the league. They're so big and strong. It's tough to

single with one out off loser Ed Figueroa, 2-3, and advanced to third on a single by Dan Ford. Figueroa walked Roy Carey to lead the bases and Baylor followed with his game-winning hit. Dave LaRoche was the winner in relief.

Butch Wynegar and Rob Wilfong hit two-run homers to support the seven-hit pitching of Paul Hartzell and lead the Tigers to their 17th game of the year in 17 games with 18 homers and 92 RBI for Milwaukee.

When he was available in the re-entry draft last winter the Brewers couldn't wait to get him back. After a shaky start, Slaton is beginning to flash his winning form.

Rose's Legs Do The Job

By United Press International
An old flower has turned over a new leaf and is blossoming again in Philadelphia.

Rose, whose .348 batting average has helped the Phillies to a 14-5 record — tying them with East Division rival Montreal for the league lead — has been harrying since the mid-1960's.

Rose attempted to steal again in the eighth but did not get a good jump, tried to get back to first and was thrown out.

E.C. HARPER JR., hospital trustee

County Commissioner Bill Kirchoff said he hasn't seen the study yet, but would like to see what is included and what factors have been taken into account.

SAL MANFRE, Boss of The Year

Manfre's name was nominated by Carol Ferritto, a teacher, and Nancy Sillman, a counselor, both employees at the R.T. Milwee Middle School.

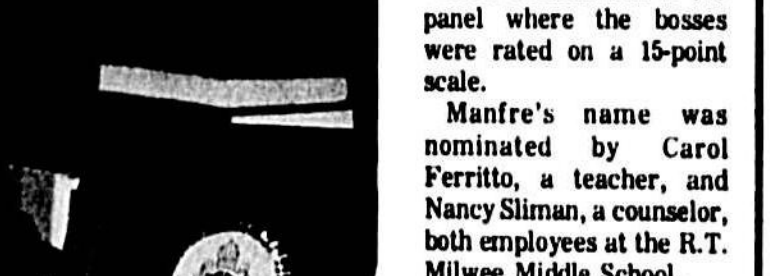

Manfre's Tops In Bosses

By SHARON CARRASCO
Herald Staff Writer

Sal Manfre, principal of the R.T. Milwee Middle School, was named Boss of the Year 1978 Tuesday at a special "boss night" dinner held by the Future chapter of the American Business Women's Association.

Manfre was presented with not only a plaque but a crown to symbolize his prowess of Bossdom.

Manfre was instrumental in expanding a teaching concept known as the "super team" at the middle school, said Mrs. Sillman as one of the reasons.

Herald Photo by Tom Vincent

Manfre's name was nominated by Carol Ferritto, a teacher, and Nancy Sillman, a counselor, both employees at the R.T. Milwee Middle School. "It was a terrible night," said police Sgt. Wayne Whithamunt, who worked through the night. "It was total chaos."

Police, Sanitation Workers On Strike In Birmingham

BIRMINGHAM, Ala. (UPI) — More than 2,000 police, street and sanitation workers, voting to "shut this city down," were on strike today because of a city decision to change group medical insurance policies.

He said there would be no garbage crews out and street and sewer work was at a standstill. The strike action came late Tuesday after the City Council voted 4-1 against rescinding its decision of a week earlier to change group medical insurance policies.

Manfre was presented with not only a plaque but a crown to symbolize his prowess of Bossdom. Manfre was instrumental in expanding a teaching concept known as the "super team" at the middle school, said Mrs. Sillman as one of the reasons.
