## PLANE PN-9 MISSING; SEARCH BEGINS

San Francisco, Sept. 2.—(AP)—Fifteen hours after the word had been received from the missing San Francisco PN-9, which was on a flight to St. Petersburg, the search for the plane was begun today. The search was conducted by the U. S. Navy and the U. S. Coast Guard. The plane was last seen on the morning of Sept. 1, when it was reported to be on a flight from San Francisco to St. Petersburg. The search area is now being extended to the Gulf of Mexico.

## Solon Indicted On Charge of Forgery

LITTLE ROCK, Ark., Sept. 2.—(AP)—Thomas Hill, speaker of the Arkansas House of Representatives, at the 1925 session, was indicted late Tuesday by the Pulaski county grand jury on a charge of forgery of public records. This is the fifth indictment against Hill in connection with the 1925 session. The indictment charges that Hill procured for himself a bill which provided for hold-over committees to complete the word of the legislature was never read the second time or voted upon in the house and that the speaker forged an entry in the house records showing that the bill was read and passed. The grand jury, after voting the indictment, adjourned until Sept. 15.

## CLOSER BAR AND PRESS RELATIONS URGED BY COHEN

DETROIT, Sept. 2.—(AP)—Closer relations between bar associations of the country and the press were urged by Julius Henry Cohen of New York in his address as chairman of the conference of bar associations, delegates, Tuesday. "The progress that has been made in the formulation of ethical standards, in the improved machinery and administration of the law, in the raising of standards for admission to the bar, could never have been brought about except through the co-operation of the press," said Mr. Cohen. "But the press is not organized as the profession of medicine, or even as ours, is, though as we have pointed out, our own organization is still in the making. Newspaper publishers are men of business. Newspaper editors are beginning to organize just now a form of associational activity. The serious attempt made last year to bring about a formal relationship between the two professions was unsuccessful. It is because a strike is not yet properly recognized by the formal co-operation. There must be co-operation between the press and the bar but for some time to come it will be co-operation of a different kind."

Mr. Cohen referred to a committee report to the effect that the press should outline a plan for co-operation with the two professions by closer relationship between the organized bar in each state and the newspaper of that state. "What the bar is doing in the improvement of machinery for the administration of justice for the betterment of legal institutions, for the maintenance of high character qualifications for admission to the bar, and for the disciplining of those who offend, are all matters about which each state bar organization will find the newspaper of its state only too willing to inform the public and to aid in the formation of supporting public opinion," the speaker continued. "The modern newspaper has so many friends to cover the changes taking place from day to day are so rapid, that it is impossible to keep abreast of the activities of the bar associations of the country unless those activities are brought to its attention. Every state bar association should have a committee whose business it is to see the press of its state is kept fully informed of associated activities."

"The suggestion recently made by Don C. Seitz of the New York World, that in every bar association there be a bureau of correct information, which would furnish the press with correct information regarding pending cases, the issues involved and decisions rendered. Conducted by a bar association and speaking in its name, there would be no danger of its improper use."

## Sanford Librarian Talks To Rotarians On Local Institution

The weekly luncheon of the Sanford Rotary Club at the Seminole Cafe on Tuesday, was featured by a memory demonstration by W. R. Buckner of San Francisco and a talk by Mrs. Anne Van Ness Brown, librarian for the Sanford Municipal Library, and several well rendered vocal selections by H. A. Frost of Orlando. Mr. Buckner's demonstrations of the wonderful possibilities of the mind were particularly entertaining. Mrs. Brown's account of the increased efficiency of present day methods of the library, as well as the essential need of a library in any community. Mr. Frost's bass selections were warmly applauded by the Rotarians. Members of the Rotary club, who were present were: George Brockhaver, Randall Chase, H. C. Dabuse, Dr. A. W. Epps, M. C. Hudock, W. M. Haynes, E. F. Householder, W. C. Hutchison, George W. Knight, Frank MacNeill, Edward Markell, W. S. Parker, Dr. Samuel Puleston, E. F. Roumiltz, S. O. Shindler, H. R. Stevens, R. E. Stevens, D. L. Thrasher and Arthur Yowell.

## INGLIS WANTS CESSATION OF COAL STRIKES

Operator Assails Action Of Miners In Leaving Work Because Of Expiration Of Contract Signed Last Year

Demands Permanent Working Agreement

Plan Suggested By President Meets With Approval Of Majority Of Mine Operators

PHILADELPHIA, Sept. 2.—(AP)—Anthracite operators last night emphasized "the need to insist that a settlement of the suspension beginning today shall include measures for avoiding future strikes."

W. W. Inglis, in a statement to the effect which he made public in Scranton as chairman of the anthracite operators' scale committee, assailed the action of the mine workers in stopping work because no contract had been negotiated to replace the one which expired last midnight. "Operations should have gone on while negotiations were pending, as the operators had 'over and over again proposed,'" said Mr. Inglis.

The idea that the miners can work unless they have a contract, he said, "is unsupported by reason or fact." Hundreds of thousands of workers in every class of employment, according to Mr. Inglis, continued to work after contracts expired in the certainty that sooner or later new ones would be made. "John L. Lewis will not permit the miners to do this," he said. "That is why we have a strike; it is not because there is no other course. It is because a strike is the only course he is willing to adopt."

A settlement now should accordingly be a settlement for all time, he said. "I would like to see the coal operators in informal discussion today of the conference of John Hays Hammond with President Coolidge at Swampscott, Mass., on the coal situation took issue with some of Mr. Hammond's reports. They did not believe the government should take over and operate mines in time of industrial conflict, as Mr. Hammond was reported to have advised the president to urge upon Coolidge."

The operators favored recommendations President Coolidge himself enunciated on the basis of the report of the United States Coal Commission of 1923, of which Mr. Hammond was the chairman. The president wishes authority to appoint a commission to deal with emergencies along the line of conciliation and voluntary arbitration, to adjust controversies when collective bargaining failed and to prevent profiteering through control of distribution. At the same time a movement was reported under way yesterday among various union groups in the region to revive the question of nationalization of coal mines. Backers of the movement, it was said, wished to complete the line taken by the nationalization committee appointed by the United Mine Workers of America several years ago. Christ J. Golden, president of district 5, was one of the committeemen who drafted a plan published December 29, 1922, calling for outright purchase of all anthracite mines and mine lands by the United States government, for \$4,500,000,000. The committee's report has not yet been presented as a bipartisan convention. The plan on which President Golden collaborated proposed an independent administration of the coal industry once the government acquired the mines. There would be a secretary of mines, with a cabinet; the cabinet would be a committee of mines, to control matters of the budget and policy on a basis of continuous fact finding; a national mining council, with jurisdiction over actual mine operations and a bureau of "wage measurement." The miners' union, however, would retain independence in "initiative and defense," in general and the right to strike in particular. None of the international officials of the United Mine Workers, it was observed, has officially endorsed the proposal.

## Sum King Will Fight Second Imprisonment

ATLANTA, Ga., Sept. 2.—(AP)—While awaiting his release from Atlanta Federal Penitentiary today, George Remus, Ohio bootleg king, declared he was prepared to fight against the sentence pending against him in Cincinnati and St. Louis on charges of violating prohibition laws. He said he would seek to show that his sentence there ran concurrently with his term in federal prison. He will institute habeas corpus proceedings if arrested by Ohio officials and is ready to meet any bond St. Louis officials will require. He was absolutely astounded by the filing of divorce suit by his wife, Remus said. Mrs. Remus charged cruel treatment in her suit.

## Florida "Craze" Reports Not Exaggerated, Says Local Man Upon Return From New York

J. S. Harvard, manager of Yow Company, who is back in Sanford from a buying trip to New York City, declares the Florida craze reported by many as prevalent in eastern communities still at fever heat, and in an interview with a Herald representative today, declared that all published accounts of the speculation fever that has gripped northern towns have been under-estimated instead of having been exaggerated as some less credulous Floridians would believe. Mr. Harvard told of conversations with old New Yorkers who declared that the Florida investment fever was at the present time more widespread and more intense than any movement that had ever gripped the metropolis in the space of their memories. "Everyone that I called on," Mr. Harvard said, "had an uncle or father of some relative in some section of Florida and all spoke of coming here this winter to invest money and win a fortune."

Mr. Harvard said that thousands of people were on the road to Florida at the present time but that the craze was not as intense as the tourist clubs but belonged to the ranks of the investors and seekers of business opportunities. "The real tourists," he added, "are still in the woods of Maine or at the seashore and will not return to their homes before the middle of end of September when they will pack up and head for Florida about the heat of October. The horde of people now invading Florida is of much greater practical benefit to the state than the idle rich who will follow later," Mr. Harvard stated, "for these people coming here now all have money that they are anxious to invest in land, homes and business opportunities. They all bring their cash with them and are eager to spend it on something more solid than amusement and hotel bills."

Mr. Harvard spoke of the advantages that he derived from being able to introduce himself as a Florida buyer and declared that in every store that he visited, the Florida men were given preference. "They knew that the Florida buyers had the cash and were willing to spend it," he declared, "and in every instance we were pushed to the head of the line. He stated that Sanford needed more advertising in the larger cities and spoke of seeing an Ocala advertisement in a community where hardly anyone had heard of Sanford. "But I understand that the \$105,000 raised in the publicity campaign here will remedy this," Mr. Harvard added, "and on my next trip to New York I hope to find Sanford's location familiar to everyone."

## MIAMI MAN PAYS LARGEST INCOME TAX FOR FLORIDA

Nearly \$180,000 Is Paid By James Deering; Seven Residents of State Paid More Than \$100,000 During 1924

JACKSONVILLE, Fla., Sept. 1.—(AP)—Seven of more than 7,000 persons who made federal income tax returns in Florida in 1924 paid more than \$100,000 records made public here Tuesday. Of the 70,000 persons, 98 paid over \$10,000 and 1,867 over \$500. James Deering of Miami, headed the list with \$179,860.04; William Horlock of Miami Beach, second with \$146,351.89; Charles Deering of Miami third with \$139,412.12; John F. Harris, Palm Beach, fourth with \$127,194.83; and J. W. Young of Hollywood fifth with \$107,039.33. The late William Jennings Bryan of Coconut Grove, paid a tax of \$2,583.59. This return was made in March, 1924. Other high returns in order of rank in the state follow: Charles E. Merrill, Palm Beach, \$106,916.21; Sidney Maddock, Palm Beach, \$104,297.88; William J. Matheson, Coconut Grove, \$92,204.51; Perry C. Snell, St. Petersburg, \$75,799.74; Louise Wise Lewis, St. Augustine, \$69,097.28; John C. Spidel, Palm Beach, \$64,218.42; J. B. Johnson, Tampa, \$56,218.42; Eugene R. Phillips, Winter Park, \$37,285.67; R. R. Lake, Watertown, \$36,417.73; L. N. Alexander, St. Petersburg, \$30,881.31; James R. Kennedy, Palm Beach, \$29,504.28; Eugene H. Sanchez, Jacksonville, \$27,127.19; J. G. Spidel, Jacksonville, \$26,801.80; Lamar Rankin, Tampa, \$26,801.80; Robert S. Brown, Clearwater, \$26,495.15; King Worthington, Miami, \$25,797.19; Frank J. Pepper, Miami, \$24,147.74; J. G. Pace, Pensacola, \$23,905.34; J. H. Pace, Jacksonville, \$22,055.70; John G. Christopher, Jacksonville, \$21,511.60.

## HANEY UNSHAKEN IN RESOLVE TO STAY IN OFFICE

Commissioner Declares That He Will Not Resign Under Implications Contained In President Coolidge's Note

WASHINGTON, Sept. 1.—(AP)—Commissioner Hanev of the shipping board not only affirmed today his intention not to resign under the circumstances set forth in the request of President Coolidge but, commenting on reports from that by his course he had violated the merchant marine act, he asserted that he was at least one who had observed it completely. The reference to Mr. Hanev's attitude toward the law was understood to involve his course as a commissioner toward the fleet corporation, he made no reference to Leigh C. Palmer removed as president. Any charge that he had not observed the law, however, Mr. Hanev said he could not understand. Meanwhile officials of the shipping board and the fleet corporation maintained silence on the situation. Indications of the president's dissatisfaction with conditions within the board and between the board and the fleet corporation developed no statement. The shipping board at its regular meeting today was told by Mr. Hanev for the first time of the situation, but did not discuss it or take any action in the matter. Mr. Palmer also refrained from comment. Mr. Hanev said he had received no communication from Swampscott since the telegram Thursday requesting his resignation. Informed through press advices that the president hoped he would consider his decision not to tender his resignation, he made no reference to that while he would not object to resigning ordinarily, he would not do so "under the implications contained in the president's request," which he regards as "alleging a lack of faith" on his part in the matter of an "understanding" that he should not oppose Mr. Palmer.

In his letter to Mr. Coolidge, Mr. Hanev recalled that he had been reluctant to accept reappointment not only for personal business reasons but because he was not in sympathy with retaining Mr. Palmer. It is said that Rembrandt painted sixty portraits of himself.

## Funeral Services For Prominent Rail Conductor Held Tuesday Afternoon

Funeral services for the late R. B. Jarvis, prominent railroad conductor of this city, were held Tuesday afternoon at the Jarvis home on Oak Avenue with Rev. F. D. King, pastor of the First Baptist Church, in charge of the services. Scores of friends of Mr. Jarvis were present to pay their final respects and during the day the home was visited by many others, who came to offer their sympathy to members of the bereaved family. Many beautiful floral offerings came from individuals and from the many secret orders to which he belonged, attested the popularity of the dead man. Wreaths from fraternal organizations in Florence, S. C., where he died after being stricken aboard a train enroute to North Carolina last Saturday morning, were among the beautiful tributes received by the family. The Sanford Shrine Club, Knights Templar, Sanford Order of Railway Conductors and other organizations here, also paid tribute to the memory of their comrade with handsome offerings. One of the most appreciated tributes received by the family was the floral offering presented yesterday morning by the negro employees of the railroad who at various times had worked under Mr. Jarvis. The offering was accompanied by message bespeaking their sorrow and offering condolence to Mrs. Jarvis. Following the services at the home, the body was removed to Lake View Cemetery where brief services in charge of members of Taylor Commandery, Knights Templar, were held. Pallbearers included some of Mr. Jarvis' most intimate friends and members of the conductor brotherhood. They were: W. D. Brooks, P. F. Munger, D. J. Wolff, J. B. Flahis, S. S. Telford and A. M. Phillips.

## CITIZENS SEEK TO CREATE BIRD RESERVE HERE

J. A. Rumbley Takes Lead In Movement To Prepare Bill For Passage at Special Session of The Legislature

Will Model Measure After Manatee Law

Proposed Bill to Be Published For 60 Days in Compliance With State Law on Subject

Efforts to have a bill passed at special session of legislature in November, making Seminole county a breeding reservation for birds, will be made at once, declared J. A. Rumbley today, upon receipt of a communication from Hiram Byrd, president of the Florida Audubon Society, who advocated that such steps be taken. According to Mr. Rumbley, a bill will be prepared at once, modeled after the one now in effect in Manatee county. Mr. Rumbley has sent to that county asking for a copy of the law and within a few days, it is expected to have the Seminole measure ready for publication for 60 days previous to the session, as is required by law. In taking steps to preserve the bird life of this county, Mr. Rumbley stated that he had the endorsement of many club women of Sanford together with the backing of the Chamber of Commerce and other civic organizations. What the passage of the measure means to Seminole county, cannot be over-estimated, Mr. Rumbley declared. It means that thousands of birds that are being killed each year in this county, will be saved and that this territory will become an immense breeding reservation, he said. Mr. Rumbley also pointed out what the birds mean to the farmer in a protective way. In the measure, the territory to be enclosed by the reservation will be defined and it will specify that the county commissioners post the territory as a permanent-bird breeding reservation and making it the duty of the sheriff and his deputies to enforce its provisions. There is barely time for the publication of the proposed measure for the period required by law, said Mr. Rumbley, and he declared that efforts to get it prepared in time, will be speeded up by those interested in getting it passed. In his letter, Mr. Byrd offered to help in preparing the measure and Mr. Rumbley indicated that the former will possibly visit Sanford some time this week in interest of the proposed legislation.

## Lawton Tells Of Bond Election At Kiwanian Meeting

At the Kiwanis Club luncheon today, several interesting features were enjoyed by the 42 members in attendance. Various committee members were grouped at separate tables to facilitate discussion and decision of important business. Respective chairmen later made their reports to the body. W. R. Smith, manager of the Bondwell Realty Company, was welcomed into the organization by T. W. Lawton and fellow members. Visiting members included W. C. Buckner, of San Francisco, H. C. Velez, of Augusta, Ga.; W. Emerich, of Orlando, and J. C. Simpson, of New York City. As an entertainment feature, Mr. Buckner demonstrated several memory testing stunts, showing an infallible ability to call by name any member present after the names were introduced, as well as a no less remarkable faculty for retaining numbers in his mind. Mr. Lawton drew attention to the approach of the school bond election to take place Friday, Sept. 4, which it is hoped will carry and provide funds for a new high school, as well as for other needs of the school board. He expressed hope that the bonds may carry by a large majority, so that their sale may be favorably affected by bringing a large premium. Mr. Lawton also directed attention to the polling places, District No. 1 voting at the Masonic Temple, and District No. 3 at the Court house. Members present were: E. D. Brownlee, R. H. Berg, L. C. Bebout, B. D. Caswell, R. B. Chapman, A. C. Carter, T. D. Dumas, Gen. A. DeGutter, R. G. Davey, A. C. Fort, Howard Hulick, M. B. Hutton, J. D. Jinkins, J. H. Jackson, E. F. Lane, W. T. Langley, Forrest Lake, T. W. Lawton, S. M. Lloyd, H. C. Long, C. J. Marshall, H. H. McCracken, K. B. McCracken, H. H. McCaslin, G. E. McCall, Rev. T. J. Nixon, Howard Overlin, B. T. Overstreet, A. R. MYERS HUMBLER ST. PETERSBURG BY SCORE OF 2-1

Youthful Southpaw Hurls the Celerymen to Easy Victory Over Blockmen; But 31 Men Face Myers Yielding 6 Hits

"Lefty" Myers, Sanford's 18-year old southpaw, was in superb form Thursday and the Celerymen easily turned the Blockmen back by a score of two to one. The lanky outfielder was never in danger and except for the eight innings when the visitors scored their single tally, not a Saint passed second base. For the most part, it was three up and three down for the Sunshine lads, only four of them died on bases. Myers' wide breaking curves and his puzzling inshoots were too much for the visitors, who were able to land only five safe blows of his delivery. Only 31 men faced the Sanford hurler.

Snappy fielding on both sides aided materially in making the game the second fastest one played on the local field this year. Sanford secured seven hits off Bob Morris, the Saint southpaw, three of these being for extra bases. Morris was in several holes and only excellent fielding on the part of his team mates kept the Celerymen from scoring more than two runs. Seven local players died on bases. After threatening to score in the first, third and fifth innings, the Celery-Feds made good in the seventh. Bailey slammed out a double to center and went to third on Frisbie's infield hit. Myers sacrificed Frisbie to second. Dumas walked, filling the bases. Levy sent a high fly to right field and Bailey scored. Frisbie going to third and Dumas to second. Hardy hit a hot one to Morris and Frisbie scored. Hardy was safe at first. McQue flied out to second.

The Saints made their only run in the eighth inning. Aiken had flied out to right field and Beas had fouled out to catch. Morris hit a single through second and a minute later stole second. He scored on Mesner's double to center field. Brown went out, second to first. The score by innings was as follows:

Inning	Sanford	St. Petersburg
1st	0	0
2nd	0	0
3rd	0	0
4th	0	0
5th	0	0
6th	0	0
7th	2	1
8th	1	0
9th	0	0
Total	3	1

Among the largest deals of the month were the transfer of the South Sanford Land Company to B. C. Cohn of a large tract southwest of the city for a consideration said to be \$118,000... the sale by J. B. Lawton to D. J. Mason and Phil Rosenburg of 477 acres for \$90,000 and the disposal of the Lake Front Investment Company to E. G. Hausel of seven lots in their holdings for approximately \$128,000. It is predicted that the advent of the winter season will see no cessation of the transfer of the various lots in the real estate field. Keep optimism in this respect is felt and shown by Seminole county realtors.

## Seminole County To Be Advertised At Fair In Tampa

At a special meeting of the county publicity committee held last night at the Chamber of Commerce, B. F. Whitner, Jr., was named chairman of a sub-committee composed of R. J. Holly and Fred A. Clark, of Longwood, appointed to make the necessary arrangements for representing Sanford at the Seminole county fair to be held in Tampa sometime in February. It was pointed out at the meeting that the fair to be held in Tampa is expected to be one of the most successful ever promoted in this state and the publicity committee was unanimous in the belief that Seminole county should be well represented commercially, agriculturally and industrially. The sub-committee headed by Mr. Whitner will have absolute charge of preparing the various exhibits that will be sent from this county, and it was intimated that no efforts would be spared to make the Seminole county exhibit one of the most representative and attractive at the fair.

Plans were also discussed relative to the distribution of the new Seminole county booklet now being edited by R. J. Holly, and it was learned that the pamphlet had been practically completed with the exception of various photographs from different sections of the county that have not yet arrived. The art work has already been approved and the majority of the literature prepared and according to the booklet should be in circulation within the next few weeks.

### NATIONAL GUARD BODY WILL MEET IN ST. AUGUSTINE

United States Association Plans Annual Meeting Some Time During Next January; Foster in Charge of Plans

ST. AUGUSTINE, Sept. 1.—(AP)—The annual convention of the National Guard Association of the United States will be held here sometime during the month of January of next year, according to an announcement made from the office of Adj. Gen. J. C. R. Foster of the Florida National Guards here, and vice president of the National order.

The dates are now tentatively set for Jan. 7, 8, and 9, it was said. This particular time was chosen, the announcement added, in order to have the use of the historic Ponce de Leon Hotel, which opens its winter season on January 6th.

The matter of making arrangements for the coming convention was taken up by the adjutant general and the board of directors of the local Chamber of Commerce who pledged their co-operation in the formulation of a program.

The association is composed of adjutant generals of all the states and of one delegate for each five hundred of organized National Guardsmen and fraction thereof. This means, said the Florida adjutant general, that probably five to six hundred delegates will attend, not including their families.

Last year's convention was held at Philadelphia and the sentiment expressed there, said the Florida officer, was that the next assembly should be held in Florida.

Steps are being taken to include in the program of entertainment a tour of the state for the visiting guardsmen as well as a visit to Fort Marion, the old Spanish fortress here.

Officers of the National Guard Association of the United States are: Brigadier General Milton A. Reckford, Baltimore, president; Brigadier General J. C. R. Foster, of this city, vice-president; Lieut. Col. LeRoy Pearson, Lansing, Mich., Secretary; and Colonel Milton R. McLean, of Topeka, Kansas, treasurer. The executive council is made up of one officer from each army corps area.

### Dr. Kerr Succeeds Mrs. Cawthon As "College Mother"

TALLAHASSEE, Sept. 1.—(AP)—When the doors of the Florida State College for Women open, girls will not be met by their loved "Tissie," college mother, as in the past years. Mrs. Cawthon is succeeded by Dr. Mina Kerr, executive secretary of the American association of University women, Washington, D. C.

Mrs. Cawthon has been the guiding light of every Florida State girl since shortly after 1909. To her have been brought all troubles, all disputes, all complaints, and all matters in which was needed the advice of an absent mother. Mrs. Cawthon resigned because of ill health.

It will be Dr. Kerr's business to direct the social affairs of the college campus, and of all college girls. Dr. Kerr will have an office in the administration building of the campus and from here all activities will be directed.

Mrs. R. E. Sloan will act as assistant dean with direct charge of the dormitory life for the girls.

### One Killed, 2 Hurt In Automobile Accidents

JACKSONVILLE, Sept. 1.—(AP)—Mrs. C. G. Kershaw, prominent St. Augustine woman, was seriously injured and a negro chauffeur killed when an automobile in which she was riding, skidded from the highway turning turtle in a ditch near Bayard this morning. Irvin Griffin of West Palm Beach is in St. Luke's Hospital here in a critical condition from injuries sustained in an automobile accident this morning near Mandarin.

### Shells Much More Destructive Than Gas, Doctor Says

PARIS, Sept. 1.—(AP)—The war in Morocco—for it must be recognized as war now that Marshal Petain, who is really the commander-in-chief of the French army, has been sent to visit the scene of action—has revived discussion in the Paris press whether gas ought to be used in warfare.

There seems to be no question of the states' right to use gas against individual disturbers of the peace, as the police have recently employed or prepared to employ gas to arrest criminals, locked in their rooms, without any protest being raised.

A prominent surgeon, Jean Louis Faure, who saw much service during the World War, writing to the Figaro says that the use of poison gas is extremely mild "if anything can be called mild in warfare. It alone allows a military object to be gained without excessive massacres and bloodshed. Men will hold a position to the last against explosive shells but a few well-placed gas shells will oblige them to evacuate before the losses are heavy.

"Gas does but little damage. The famous flood of gas at Phosnes, the most fatal case of its use during the war, hardly made more than 200 victims, less than a few well placed explosive bombs would have made.

"Men who have been gassed, however said their fate, were not, in general, greater objects of pity than those who had been permanently maimed, trepanned or blinded.

"War is a terrible thing, but if we have to draw a distinction between two forms of barbarity, gas barbarism is less than shell barbarism. It is less deadly and yet more efficient."

### Auto Races Are To Be Featured In Daytona Labor Day Celebration

DAYTONA BEACH, Sept. 1.—(AP)—Labor Day in Daytona Beach will not be without its chief sport this year, automobile racing, according to plans being formulated by Pete Craig, who is leading in the promotion of the celebration.

A race between eight high powered automobiles is being arranged for by the promoters and will be in three events. These are a one six-mile race, one twelve-mile test and one 20-mile dash, all over a course of one mile.

Funds derived from the events and from voluntary contributions are to be applied to the police and fireman's relief fund being raised here. One half of the money derived will go to the fund and the remaining portion will be divided up in purses for winners.

### Aged Seminole Chief Dies At Lauderdale

FT. LAUDERDALE, Sept. 1.—(AP)—Shirt-tail Charlie, 62-year-old Seminole Indian and familiar figure here for more than 25 years died in the Seminole Village here Sunday night after a brief illness. He is to be buried in Seminole cemetery today, the ceremonies being in charge of Tony Tommy, chief of the tribe picturesque rites starting this morning are to continue for eight hours.

### Land Is Allotted To Samoan Youths

APIA, Samoa, Sept. 1.—(AP)—The native parliament of Western Samoa, meeting recently, made a radical change in the land laws. All male Samoans over the age of 17 are to be allotted five acres. When these five acres are planted, each will receive a second grant of five acres. The owners of the land so allotted are to be compensated.

### Chemical Research Work Holds Great Chances For Women

ST. PETERSBURG, Sept. 1.—(AP)—There is a great opportunity for women in chemical research work, due to their having more patience and power of co-operation in detail work, in the opinion of Dr. A. T. Merrill, experimental chemist of Washington, who is spending a brief period here.

Dr. Merrill, who was reared in New York state and also spent part of her younger life in Hawaii, entered the University of California with the intention of doing research study. After receiving her B. S. degree in 1906, she entered the governmental service in the Hawaiian agricultural experiment station at Honolulu where she remained for six years.

Men, she declared, are eager to push ahead in new fields of chemical activity and development, but they are not usually anxious at sharing with their fellow workers the little discoveries they make.

"The college of Hawaii had only one woman in the Hawaiian agricultural experimental station during my ten years there," declared Dr. Merrill. "The chief work was on 'drying oil'. However, one of the most interesting subjects of our activities was the study of the thousands of varieties of hibiscus.

"New York City boasts a few women who are doing chemical research work, Washington has several in the past year or so, but most of them who have taken up this line of work are found in the Home economics department, in nutrition and scientific application to household work. The field for research work is full of opportunities for women and woman is naturally adapted to fill it.

### BROOKHART MAY RETAIN SEAT BY SMALL MAJORITY

(Continued from Page One) ministrations senator they can hope for from Iowa.

The result of the recount runs approximately this way: The figures have not yet been checked officially:

Brookhart—Uncontested ballots, 324,885; contested ballots, 6,461. Total 331,347.

Steck—Uncontested ballots, 327,540; contested ballots, 2,226. Total 329,766.

These figures represent the count on the paper ballots of 79 counties, and show Brookhart with 1,541 to the good. Twenty counties had voting machines. These gave a majority for Steck on the corrected returns of 1,367. The difference between these two numbers gives Brookhart's indicated majority of 174.

Brookhart gained 631 votes in the voting machine count and lost over 1,200 on the recount of the paper ballots. The returns on which he was seated gave him the election by 754.

### VETERANS TAKEN AS BOOTLEGGERS BY TULSA POLICE

(Continued from Page One) Captain Henry C. Lawson, of Boston, national adjutant general of the organization, was a leader in protesting against the federal officers' action. Lawson's room was raided and his grips, dresser and other personal belongings were searched.

"It's an outrage," Lawson declared. You said you were after certain bootleggers. Why please tell me, when it became necessary to divide the private rooms of all the veterans and arrest them. We are not bootleggers." One of the raiders searched the room of Gen. John H. Dunn, of Boston, national commander, while the general and Mrs. Dunn were there. No liquor was found.

"Open House" Joke. During the raid the Indiana delegation filled a five gallon bottle with a soft drink diluted to the color of whiskey and held "open house" in the lobby. Everybody was invited to step up and drink, and many accepted in the presence of the officers. Wry faces were made by many who expected a different sort of beverage.

### Snake Bite Causes Forest Fire

For more than a week, a devastating forest fire raged in the Big Tujunga Canyon, east of Pasadena, Cal.—All because of a rattle-snake bite. A camper, bitten by the snake rushed to a nearby town for treatment, without extinguishing his camp fire. Hundreds of acres of timber were burned and the towns of Sunland and La Crescenta endangered. Many volunteer fire fighters were prostrated by smoke fumes and others severely burned. Below one of the volunteer fire fighters were prostrated by smoke fumes and others severely burned. Below one of the volunteers, overcome by smoke, is shown being carried to safety.

### PLAN BIG DEVELOPMENT

TALLAHASSEE, Sept. 1.—(AP)—Nathan Mayo, Commissioner of Agriculture, together with associates of Miami, has purchased Lanark Springs near Carraballa, formerly owned by the Georgia, Florida and Alabama Railroad.

It is understood that an extensive program of development of this resort is under consideration by the new owners.

Florida shipped during the 1923-24 season 2,987 cars of lettuce.

# Chicago Judge Would Rid City Of Criminality By Segregating Delinquents

CHICAGO, Sept. 2.—(P)—A standing offer to rid a city of more than 3,000,000 population of all crime by permanently segregating 3,000 mental delinquents who are marked repeaters in final form for the next session of the Illinois Legislature.

The offer is from Chief Justice Harry Olson of the Municipal Court of Chicago, and Dr. William J. Hickson, director of the Court's Psychopathic Laboratory, in which defendants in more than 40,000 criminal cases have been examined during the last seven years.

The experience of the laboratory has brought Judge Olson and Dr. Hickson to the conclusion that crime prevention is more a problem in psychology than in police administration, and that the root of the problem is the mental delinquent whose debility renders him incapable of interpreting punishment as retribution.

Instead of committing offenders to prisons and reformatories for short sentences, and then throwing them on society again, to commit a greater crime, Dr. Hickson proposes a permanent industrial farm colony where the delinquents could live lives adjusted to their peculiarities.

He would make the colony largely self-sustaining, and in addition would save upwards of \$7,000,000 annually of Chicago's \$15,000,000 budget for policing and criminal courts.

The laboratory's records show mental deficiency as the prime factor in Chicago crime, and also, that in a large majority of the delinquents, the criminal bent is

manifested in some minor offense during the period of adolescence.

By segregating the offenders of mental debility or emotional instability, the Olson-Hickson program would prevent their later and more serious crimes.

Many records are cited by Dr. Hickson in support of his theory that feeble-mindedness is a major factor in crime.

Of 222 boys arraigned in one term of the Boys' Court, 63 per cent were morons, and 33 1/2 per cent sociopaths. Only 1.9 per cent rated average intelligence.

Less than five per cent of the boys have been in school until past 14 years of age, 83 per cent have not reached seventh grade.

Many personal histories were investigated in this group. A large percentage of the boys were found to have been the offspring of mentally defective parents, some of whom had long criminal records in Chicago.

"At present the law presumes the criminal to be sane until proven insane," said Dr. Hickson. "When recent studies in criminology are incorporated into the criminal code of the United States, every criminal will be presumed insane until he proves himself sane."

"The mentally deficient repeaters are responsible for virtually all vicious crimes, such as murders, robberies, bank-hold-ups and criminal attacks on women."

Legislation to provide such a colony Dr. Hickson proposes has been prepared by a volunteer committee of civic leaders for the legislature.

BIBLE VERSE FOR TODAY: WHERE IS YOUR TREASURE? Where your treasure is, there will your heart be also. Matthew 6:21.

WHEN IT'S EASY TO LAUGH: It's easy to laugh when the skies are blue. And the sun is shining bright; Yes, easy to laugh when your friends are true.

It's easy to laugh when the storm is o'er. And your ship is safe in port; Yes, easy to laugh when you're on the shore. Secure from the tempest's sport.

It's easy to laugh when the battle's fought. And you know that the victory's won; Yes, easy to laugh when the prize you sought.

It's nearly time for someone to spring another one about the president's electrical horse. Headline says, "Chicago to Hang Three." Things have changed since the days of Leopold and Loeb.

Today's best laugh: A soft answer won't turn away a hard count. Johnny Spencer in Macon Telegraph. Mayor Hyman says to New York voters, "take me just as I am." We imagine they will for the well known ride to defeat.

We've heard about the fellow who was so slow he couldn't catch a cold but have you ever seen a fellow so fast that he couldn't catch a girl?

Bill Arnold, says the Gainesville Sun, has just returned from the state prison camp at Raiford. Paroled on his ignorance, Bill, but we didn't know you had "been doing time." Anyway, we're glad you are back.

An advertisement in the London Times says, "Two thousand golf balls for sale. Advertiser lives on the boundary of a golf course and would sell these sliced balls as the only way of recompensing himself for broken windows and ruined flower beds." That's too much revenge to get on a poor dub.

How's Your Socks?

Has anyone called to see you in the last few days and asked you to buy some new socks? Have you been interrupted while busy by some nervy young salesman who said he represented such and such a brand of hosiery? If you have, perhaps the salesman met with more than one unpleasant reception.

Busy in his office a few days ago and with his mind on an important business matter, one of Sanford's business men didn't notice the entrance of a stranger into his office. Without any bashfulness at all, the newcomer walked right through the outer office, passed several persons, and stopped near the man with whom he wished to talk.

Not accustomed to being rudely interrupted and deeply engrossed in his work, the Sanford man suddenly became aware of the fact that someone was standing beside him. Upon looking up the intruder said to him, "How's your socks?" The rest of the story is a short one. Suffice it to say, the nervy salesman didn't remain long in that particular office.

These traveling sock salesmen are no exception. How much do they pay toward the city government? How much do they contribute to the churches of the city? How many memberships have they taken in the Chamber of Commerce? Did they have a part in providing Sanford with a baseball club this summer? Do they take the public into their confidence by advertising their wares and their prices, as do the local merchants?

None of the reliable Sanford merchants would be presumptuous enough or nervy enough to come into a busy office and ask you how your socks were. They have more respect and better judgment. They are the ones who are deserving of your business when the time comes for you to buy socks, or shirts, or whatever the article may be.

Give a few of these curb department store merchants a cold reception and perhaps the word will be passed around that Sanford doesn't want them. When the itinerant salesman calls at your door or at your office and tries to sell you something, remember that you can buy just as good wares, and perhaps better, from your home town merchant who can build for just as low prices and who is having a part in the upbuilding of your home town.

If you keep your money at home, it will come back to you again. If you send it away, we doubt if you will ever see it again.

More Rules For Success

- 1. Work conscientiously.
2. Keep on studying.
3. Be enthusiastic.
4. Don't be afraid of responsibility.
5. Have definite hours of work.
6. Having made a decision, go to it. Correct as you go.
7. Undertake few things, but complete them.
8. Stick to your job. Hold what you have. Progress every day.
9. Worry is wearing, physically and mentally. Don't cross the river until you come to it.
10. Take recreation.
11. Meet successful people. Learn from them. Profit from every occasion.
12. Stand for something good in your community.

When Fortier, as a young French-Canadian farm boy went to work on a Scottish-Canadian farm in order to learn English, says the Gainesville Sun, he probably did not have any such program of twelve points laid out to follow. On looking back over his steadily advancing career he is now able to see, however, that it was by unconsciously following those humble lines that he got ahead. He was conscientious, ambitious, interested, cheerful, regular, courteous, sensible, faithful, public spirited. There is no monopoly of such simple virtues.

MY FAVORITE STORIES

Three times within the space of one week a vaudeville actor, well known socially on Broadway and better known professionally on the road, was escorted to the same police station and booked on a charge of intoxication. On each of these occasions friends who had learned of his embarrassing position hailed him out. Late Saturday night he was brought in again, with a policeman supporting him upon either side. As they held him upright before the station house desk the offender fixed a wavering eye upon the face of the lieutenant who sat facing him. "Elo, loo," he said thickly, "got any mail here for me?"

TITLES ASHEVILLE CITIZEN

While those who have no titles want to get them many of those who have want to get rid of them. They want no "handles" attached to their names; are surfeited with surplus designations of honor, such as Colonel, Professor or Doctor.

In the Chapel Hill Weekly Nell Battle Lewis voices the nausea of the Ph.D.'s who are titled-tagged "Dr." and recites the society of the University of Virginia for the abolition of Dr. and the substitution of Mr. No personal animus is chargeable to the lady since she is not afflicted, we judge, and therefore may without prejudice be heard to declare that she would rather call a negro Professor or Doctor than plain Mr., although she has no objection to using the latter since no possible social equality is involved.

Editor Louis Graves offers a compendium of the views of those bed-ridden with parasitical titles. One says that "doctor" and "professor" are obnoxious to 99 per cent of the teaching staffs of American universities. Another denouncing the Dr. title as a dis-

As Brisbane Sees It

It's All Arranged. Brains, Not Language. Foolish Idleness. Florida Railroad Woes. BY ARTHUR BRISBANE (Copyright 1925)

THE COAL strike is on, all nicely arranged, and is expected to last six weeks to four months. It may be complicated by a sympathetic strike in soft coal mines, which would make it more interesting for consumers.

This strike, which is a little war inside of our own industry, will cost per day more than \$1,000,000 in wages alone, more than it cost to build the Panama Canal. But the government and the intelligence of the United States combined have nothing better to offer than "wait and see what will happen."

Is there something so sacred in a fight between workers and employers, as to make all interference by those most interested, the government and the people sacrilegious? AT THE Zionist Congress in Vienna, Napun Sookow, discussing education in Palestine says, "Without the Hebrew language, we are not a people."

Why not? The people of Italy no longer speak Latin, but they are a people. So are the people of England that speak Saxon no longer; the people of Ireland, making an apparently futile effort to revive the ancient Gaelic.

It isn't the language that makes a people, but the brain they have and the way in which they use it. A DROUGHT in the South causes lack of electric power, and to help out one of the gigantic units at Muscle Shoals will be put to work. It is an excellent thing to use Muscle Shoals, if only for a few days, to relieve a critical situation.

BUT WHAT do you think about the government intelligence that keeps a gigantic plant idle year after year, after Henry Ford has offered to make it useful to the entire country, especially the farmers. Cunning insiders of the big power corporations, scheming to get a fair price, and without producing anything in the way of cheap fertilizer, are responsible for this waste of power.

THE PRESIDENT should find a way to end the criminal waste of fertilizer that the farmers need. GOVERNOR MARTIN protests to the Interstate Commerce Commission against lack of railroad facilities in Florida brought about by an extraordinary amount of travel and freight even in summer. The Florida East Coast Railroad had practically put an embargo on freight and excursion trains.

BUT FOR the extraordinary accomplishment of S. Davies Warfield, head of the Seaboard Air Line Railway, building a railroad across Florida in less than a year, pushing on now from Palm Beach to Miami and south, thus doubling the state's railroad facilities, conditions in Florida would be absolutely desperate.

IN HIS protest to the Interstate Commerce Commission Governor Martin says: "The situation causes me profound alarm. Florida is growing at an unprecedented rate, transportation facilities are taxed to the limit. If this condition exists in midsummer, when there is supposed to be a lull in our activities, I must view with great alarm what the situation will be during the winter months."

COLONEL PETER O. Knight, one of Florida's most able and active citizens, predicts that without immediate railroad extension and new railroad building, Florida's condition will be deplorable. There seems to be further opportunity for such a man as Clarence Dillon, whose firm, Dillon, Read & Company, with great profits to its customers, has hitherto cooperated financially with Mr. Warfield in his wide program of Florida's railroad building.

YOUNG AMERICANS, anxious for excitement, can get it by enlisting in the French air force, fighting the Riffs under Abd-El-Krim. Americans now fighting in the air over there, receive interesting letters, usually beginning, "Vile, infidel dog," telling what the naughty non-anonymous Arab will do to the American fliers if they get hold of them.

AND THERE isn't any doubt that they would do all they promise and more. One Arab, in his letter, promises the American fliers that they, "fat pigs," shall "fall victims to our infallible sharpshooters." Thus far the infallible Arab sharpshooters, on the ground, are supplying the bulk of the victims.

PROGRESS MARCHES along steadily. The police of Constantinople have cut off their beards. Two hundred years ago Peter the Great made the Russians great and small cut their beards, and also take off the Oriental skirts that they considered part of a decent costume. BRITISH STATESMEN are keen on business. The British Empire resumes diplomatic relations with Mexico, in spite of the killing of a British woman and other unpleasant incidents. American business men, with their own energy, make up for the lack of government enterprise in drumming up trade. Americans are now building at a cost of \$150,000,000 an underground tube to carry freight in London and help to do away with the congestion. If those Americans have \$150,000,000 left they might do something of the same in some of our American cities.

## STEWART'S WASHINGTON LETTER

By CHARLES P. STEWART

WASHINGTON, Sept. 2.—Every time another country comes to terms with the United States concerning its war indebtedness to the latter it becomes just that much harder for France to continue stalling off a settlement. To that extent the recently concluded Belgian-American agreement, which otherwise isn't a very brilliant bargain for this nation, is a good thing. Probably it insures some sort of an arrangement when the French debt commission drops in at Washington in mid-September. The commission would look pretty foolish trying to make out that France can't do at least as well as poor little stepped-on Belgium.

On the other hand the French certainly will ask as good terms as Belgium received. The Belgian compact lops off more than 200 millions in interest, and in the same ratio, France's debt being much larger than Belgium's, the former would get a cancellation amounting to something like a billion and a half—quite an item. The Belgian reduction was granted on the strength of prom-

Yes-i-r-r-e-e! Mr. Creditor, his bills are due. What are you going to do about them? Not keep him waiting? It isn't fair to him. For he has some bills to meet and if you don't PAY HIM PROMPTLY, you are going to "gum up" the whole business.

Remember how you said to him. "Sure you can count on me to pay you promptly?" Now then, it's up to you to make good your promise. That's what GOOD CREDIT is based on.

It's nothing more nor less than BELIEF on the part of the merchant—in your integrity, backed by past performances.

## SMOKERS CLINCH FIRST PLACE FOR THE SECOND HALF

Tampa Downs Lakeland With Foley Pitching Good Ball; Bugs Ery Blows Up in 6th and Thornburn Replaces Him

LAKELAND, Sept. 2.—(P)—Tampa Smokers won the deciding game and the second half of the Florida State League pennant race here Tuesday, by taking the second game from the Lakeland Highlanders runners' up, by a six to four score. Heated battling marked the second spasm between the two clubs with frequent bits of choice wrangling and arguments with the umpires.

Foley hurled a great game for the Smokers clamping down after the first inning during which the Highlanders scored twice. Welch's triple, Brazier's double and Edwards' single marking up the two. Although the dancing slinger was touched for eleven bingles, he held the locals' squad in and kept the hits well scattered. Bugs Ery was able to stave off the impending rush for five innings, but when Casares was hit with a pitched ball to start the fifth inning, Lopez singled, Snead walked and Hicks cleared the bases with a double, three runs scoring.

Edwards made four hits in four trips to the plate.

## CORSAIRS TAKE FIFTH STRAIGHT FROM PHILLIES

Pirate Clan Is Now Leading Giants By 8 Full Games; Boston Braves Beat Cubs

PHILADELPHIA, Sept. 2.—(P)—Pittsburgh made it five straight from Philadelphia Tuesday, winning the final game of the series 10 to 3.

This victory increased the Pirates' lead to eight full games and at the same time sent Phillies tumbling into the National League cellar.

Carlson was no puzzle to the Pirates, who drove him from the mound in the seventh and then continued their attack at the expense of Couch and Pierce.

Braves Move Out of Cellar.  
BOSTON, Sept. 2.—(P)—The Boston Braves moved out of their cellar position Tuesday by defeating Chicago, 2 to 0. Alexander and Benton fought a pitchers' battle with fortune favoring the latter. Gautreaux's two singles figured in the scoring of his team mates and Wilson provided the fielding features.

## CHAMPIONS BEAT MACKMEN IN 1ST GAME OF SERIES

Griffmen Increase Lead Over Philadelphia to Four and Half Games; Veteran Walter Johnson In Good Form

WASHINGTON, Sept. 2.—(P)—A world series tangle charged the atmosphere over the National capital Tuesday for the battle between the league leading Senators and their closest rivals, the Philadelphia Athletics. Washington won 7 to 3 and increased its lead to four and one half games. A further world series touch was given the game by the presence of four umpires, a number seldom allotted for other than championship contests.

The victory was Washington's fourth in a row, and in losing Philadelphia marked its seventh straight defeat.

Two veterans, Walter Johnson and Roger Peckinpaugh, were the outstanding performers. Pitching a steady game throughout, Johnson gave no base on balls, allowed ten scattered hits, and in four trips to the plate contributed two doubles and a single.

The battle-scarred Peckinpaugh was the power behind the third-inning drive of the home team that netted four runs, enough to win the contest. With three on base he smashed out a double which drove in two runs, and paved the way for a third when Lamar, the Athletics' left fielder, fumbled the ball. Peckinpaugh himself took third on the play and a few minutes later, stole home while Harris was winding up. The feat brought a shower of straw hats to the playing field, and also gave the 25,000 fans opportunity to experience willing lung power.

In the seventh inning Washington attacked Harris again, and forced him to give way to Quinn after a run had been scored.

Philadelphia was the first to tally—taking a one run lead in the second a triple by Miller and a sacrifice fly by Cochrane turning the trick. After Washington had scored four runs, the Athletics again sent a runner home in the fifth and scored a third in the ninth.

## MYERS HUMBLER ST. PETERSBURG BY SCORE OF 2 TO 1

(Continued from Page One)  
Besse faked a throw there, slips down. Besse ran down to the field to run Frisbie down, tossed the ball to Messner, who threw out Frisbie at third. Dumas, however, reached second on the play, and Levy also was walked. Hardy's best was a high fly to left and the inning was over. No runs, no hits, no errors.

Sixth Inning  
Messner flew out to Dumas. Brown struck out and for the third time, Doyle flew out to Dumas. No runs, no hits, no errors.

McQue again flew out to right. Mason struck out and Crawford was out, short to first. No runs, no hits, no errors.

Seventh Inning  
Mitchell flew out to center. Cox flew out to left and Stage was out, second to first. No runs, no hits, no errors.

Bailey began things with a hard drive to center, good for two bases. Frisbie beats out a hit to pitcher, fooling Morris, who had run in close to the plate for the bunt, and Bailey advanced to third. Myers again sacrificed Frisbie to second.

Myers out, pitcher to first. Morris let Dumas walk again and the bases were full with one out. Levy came through with a high fly to Stage in right and Bailey scored. Frisbie going to third and Dumas to second. Then Hardy slammed one to Morris, too hot to handle, and Frisbie scored. Hardy safe at first. McQue flew out to second to end the inning. Two runs, three hits, no errors.

Cleveland Meets Popular Wishes for 1926

## Sales Go Over the Top

The New Cleveland Six for 1926 is 1926 through and through. It has beauty that increases your respect for beauty. It has style that sets a style, and all the charm that master builders can build into master coachwork. And in keeping with Cleveland's traditions, this new Cleveland performs (as more than one delighted owner has remarked) like a million dollars.

There's no putting into words the feel of its remarkable power—or the smoothness of its flight—or the flashiness of its car in traffic.

New thrills—new ideas—driving ease—new conceptions of motoring pleasure—you'll get them all the day you take your first ride in a new Cleveland Six. Why wait?

### "One-Shot" Lubrication System

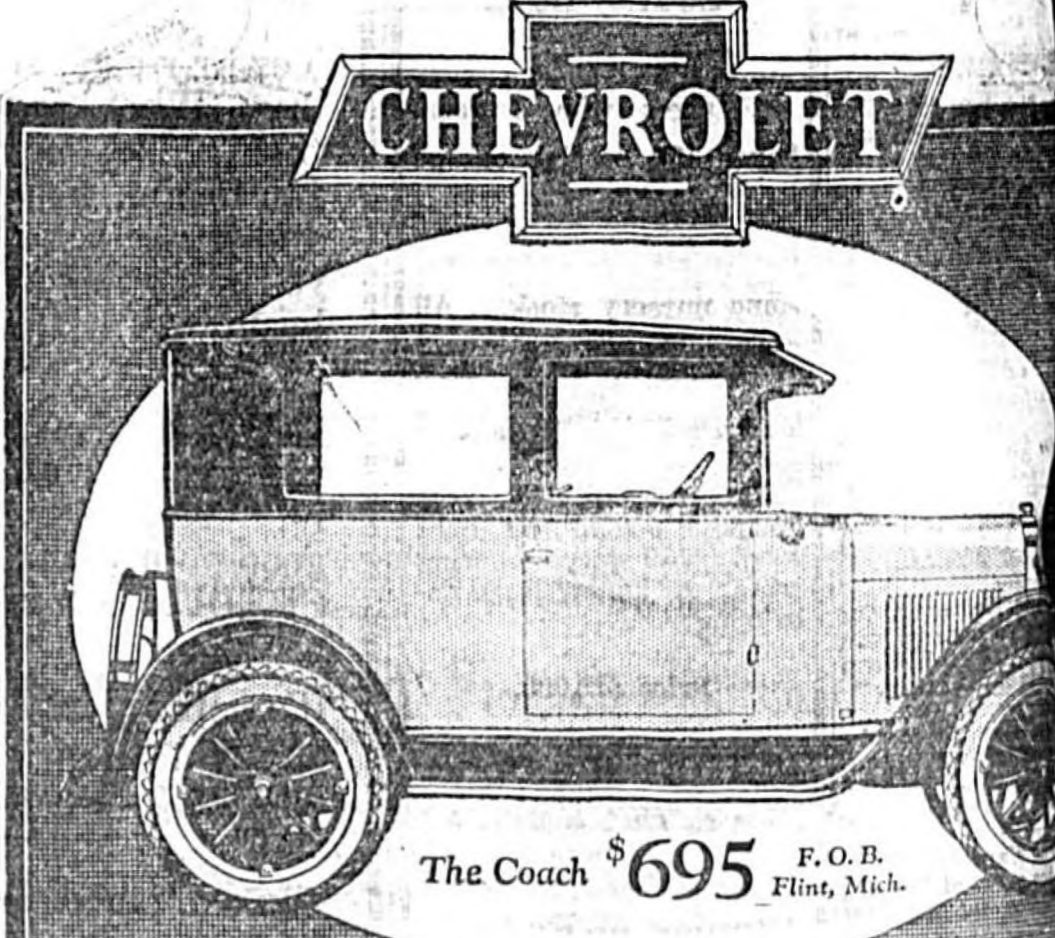

Significant of Cleveland's foresight and leadership, in the progress it has pioneered in chassis lubrication. More than 25,000 Cleveland Sixes with the "One-Shot" System are already in the hands of owners. Press your heel on a plunger—that's all—and every part of the chassis is flushed with clean, fresh lubricant. "One-Shot" does a far better job than you or anybody else could do with an oil or grease gun. (The "One-Shot" Lubrication System is licensed under Bowen Products Corp. patents.)

## The Public Acclaims this the finest Low Priced Coach

Built on the new Chevrolet chassis with construction typical of the highest priced cars—powerful motor; a new disc clutch, the easiest-acting you have ever handled; extra strong rear axle; long semi-elliptic springs—this car provides a remarkable combination of strength, power and comfort.

But in addition it is a beautiful car. Its fine Fisher body meets your ideals of fine appearance and comfort. It is finished in sage-green and black Duco whose lustre and color last for years. For such a coach to be priced so low is truly an achievement in motor car manufacture. See this car today.

RESOLUTION OF THE COUNTY BOARD OF PUBLIC INSTRUCTION FOR SEMINOLE COUNTY, FLORIDA DETERMINING WHAT MUST BE PAID FOR SPECIAL TAXES FOR THE YEAR 1925. WHEREAS, SAID DISTRICT BEING ALSO KNOWN AS SANFORD SPECIAL TAX SCHOOL DISTRICT, THE RATE OF INTEREST TO BE PAID THEREON THE TIME WHEN AND THE PLACE WHERE PRINCIPAL AND INTEREST SHALL BE DUE AND PAYABLE, AND PROVIDING FOR AN ELECTION TO DETERMINE WHETHER OR NOT THE SAID DISTRICT SHALL ISSUE BONDS;

WHEREAS, on the 7th day of July A. D. 1925, a petition was presented to and filed with this County Board of Public Instruction for Seminole County, Florida, signed by more than twenty-five percent of the duly qualified electors residing within the Special Tax School District No. 1, Seminole County, Florida, said District being also known as Sanford Special Tax School District, asking and petitioning that an election be called and held throughout said District to determine whether or not bonds in the sum of \$450,000.00 should be issued by said District for the purpose of acquiring, building, enlarging, furnishing, or otherwise improving school buildings and school grounds, and for the exclusive use of the public free schools and incidentally for all the schools in Special Tax School District No. 1 (Sanford).

1. \$15,000.00 to be used in purchasing site for new high school building.

2. \$250,000.00 to be used in the construction and erection of a new high school building.

3. \$50,000.00 to be used for the completion of the South Side Primary School.

4. \$50,000.00 to be used for the construction of a high school building for negroes.

5. \$50,000.00 to be used for repairing and replacing the heating systems in the Grammar and Primary School buildings.

6. \$10,000.00 to be used in repairing the present high school building.

7. \$5,000.00 to be used in repairing and replacing plumbing in the Grammar and Primary school building.

8. \$45,000.00 to be used for furniture and incidentals for all the schools in Special Tax School District No. 1 (Sanford).

9. \$15,000.00 to be used for the payment of paving liens on school property, and

WHEREAS, it is the determination of this Board at the first meeting after the receipt of said petition that it is in the best interest of said Special Tax School District No. 1, to issue bonds in the sum of \$450,000.00, the proceeds from the sale thereof to be used and expended in the manner and for the purposes and objects as are given above and in the aforesaid petition set forth.

Therefore Be It Resolved, By the County Board of Public Instruction for Seminole County, Florida, that this Board determines that the amount of bonds required for the purposes and objects as set forth hereinabove and also in said petition is the sum of \$450,000.00; that said bonds together with the existing indebtedness of such Special Tax School District No. 1 does not exceed twenty per cent of the assessed value of the taxable property of such district according to the assessment for State and County purposes prior to the issuing of such bonds; that said bonds shall bear interest at the rate of five and one-half per centum per annum, the interest on said bonds to be paid semi-annually; said bonds shall be dated January 1st, 1926, and mature as follows, to-wit:
