SINGLE COPIES FIVE CENTS

NUMBER

FEDERAL AND REBEL TROOPS ARE REPORTED TO BE ENGAGING IN BIG BATTLE NEAR RIO GRANDE

BATTLE OF CAMARGO RAGED BELOW BORDER

U.S. TO SEND AID

And Other Equipment Will Begin To Move To Mexico In Few Days

(By The Associated Press)
BROWNSVILLE, Tex., Dec. 31.—Telephone reports from Fort Ringgold brought reports of fighting between Mexican federal and rebel troops at Camargo, on Rio Grande, 40 miles above Matamoros. Reports said fighting was heavy.

WASHINGTON, Dec. 31.—Details of the contemplated sale of surplus army war materials to the Mexican government occupied war department officials Sunday, and was indicated orders to depot commanders from which the rifles and other equipment are to be taken up for forward within a day or two.

Final decision to grant the request of the Obregon government and make the sale direct by the Washington government was not reached until Saturday, although the request is understood to have been before administration officials practically all of last week. Although there has been no indication that the proposal was the subject of extended discussion at the cabinet meeting last Tuesday and Friday, it is unlikely President Coolidge reached the decision to depart from the policy of the Harding administration in relation to the sale of surplus arms without consulting the matter before his advisers.

No Publicity. Presumably no publicity will be given by the Washington government to the time or place when the supplies are to be turned over to Mexican forces. Reasons of military prudence would require the Mexican officials to conceal the route by which the arms are to be taken into Mexico, as far as that is possible. The details, however, will be made from the depot of the Eighth army corps.

Difficulties of the Obregon government in transporting military supplies to the active front between Vera Cruz and Mexico City are increased by the fact that the rebel forces hold Vera Cruz close to the federal forces the sea route of delivery. There have been no large outbreaks of revolutionary activity in northern Mexico, however, as presumably officials at Mexico City are satisfied they can safely transport arms and ammunition from the border to the Mexican government storehouses in the capital.

Easy to Deliver Ten Planes. The ten airplanes, which are understood to be a part of the supplies, offer no difficulty of delivery. They can be assembled at some point in this country for delivery to Mexican air officers, and can be flown to whatever destination the Mexican war department wishes. It would cause no surprise if the airplanes were assembled and delivered at one of the American flying fields on the border.

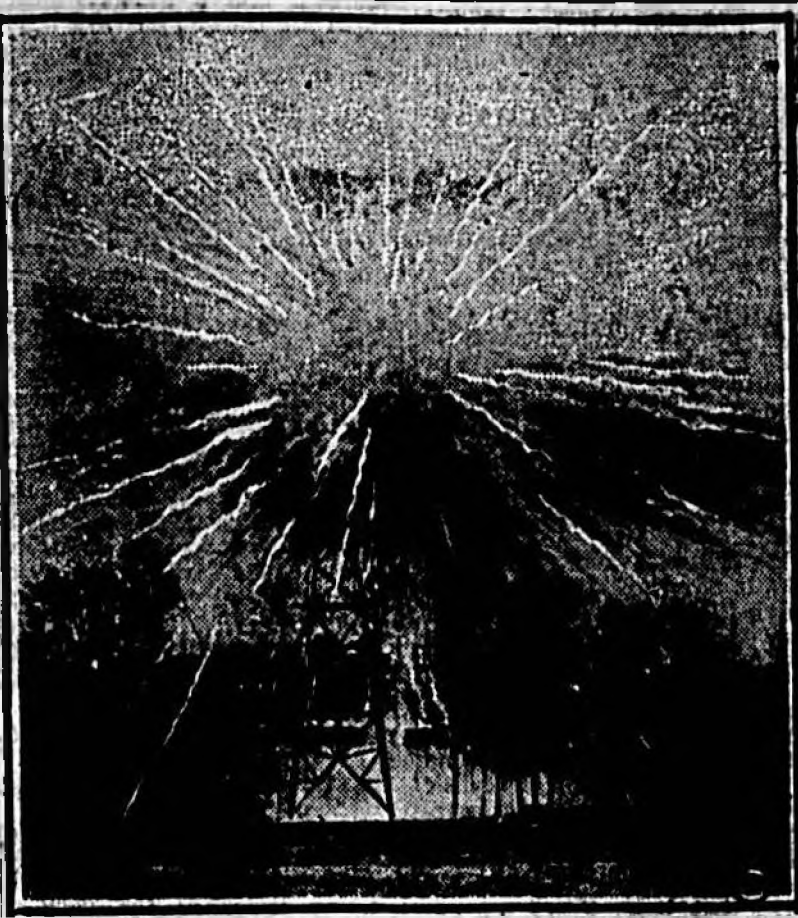

Causes No Surprise. A statement summarizing advice from Vera Cruz, given over Sunday night by representatives of the de la Huerta group, said the action of the United States in deciding to sell war materials to the Mexican government had caused "neither special surprise or consternation in provisional government circles."

For the first time in the history of the nation, said the statement, a president of the republic, confronted by a popular uprising, exhibited such terror and lost much self respect as to beg the aid of a neighboring government to sustain him in power. If anything could unite and solidify the Mexican people in their determination to end the Obregon regime, it would be this.

Part of Petrograd Under Water, Report

By The Associated Press
MOSCOW, Dec. 31.—Reports from Petrograd say that part of the city is submerged under waters of the Neva which has flooded its banks despite severe winter weather. Many factories have been in-

TESTING NEW EXPLOSIVES

Army officials in the vicinity of Washington, D. C., are testing new high explosives. The camera caught a 25-pound white phosphorus bomb when it exploded. This bomb is for an air attack and is made for smoke and incendiary purposes.

NEGROES GIVE UP AS MACHINE GUNS BROUGHT IN PLAY

Negroes Barricaded Themselves Following Killing of Mrs. Robert Latimer

(By The Associated Press)
FORT SMITH, Ark., Dec. 31.—Ten negroes who barricaded themselves in a house in the Catcher community, five miles from Van Buren, Ark., late Sunday, when white residents threatened a riot as a result of the killing late Friday of Mrs. Robert Latimer, surrendered to national guardsmen from Ozark, and were lodged in the jail at Van Buren early Sunday night on charges of night rioting.

A score or more of negroes were hurried to the Van Buren jail by officers who feared a serious clash between the races. The white population offered little or no resistance to the guardsmen who were ordered to the scene early Sunday afternoon by Gov. T. C. McRae. Machine Guns Force Surrender. The 10 negroes who barricaded themselves in a house, surrendered only after Capt. Otto W. Kayer, in command of the detachment of troops, threatened them with machine gun fire. They were assured protection and finally agreed to accompany the troops to Van Buren.

Quiet prevailed in the little community only Sunday night and Capt. Kayer said his troops would return to their station at Ozark. No further trouble is feared, the officer said.

Judge James A. Cochran, of the circuit court has called a special grand jury to investigate the killing of Mrs. Latimer. The jury will meet in Van Buren Wednesday.

Charles Ruck, 35 years old, father of Spurgeon Ruck, one of the negroes charged with the slaying of Mrs. Latimer, was probably fatally wounded shortly before noon by a special officer who said he fired when the negro failed to put up his hands in response to an order to do so. Ruck is not expected to live through the night.

Another negro who was said to have held up a truck-load of white men at the point of a pistol, was arrested late Sunday afternoon.

There was a general exodus of the negro population during the afternoon and only a small number remained in the community Sunday night.

Miami Banker Dies Result of Apoplexy

(By The Associated Press)
MIAMI, Dec. 31.—C. M. Clayton, first vice president and acting head of the Commercial Bank and Trust Company of Miami, died Monday morning from an attack of apoplexy. The body will be sent to Lakeland for interment in the family plot.

In adding Arthur Brisbane's column as a special feature, The Herald is giving its readers the advantage of reading daily editorials by the world's highest paid editorial writer.

Mr. Brisbane's opinions as expressed in his daily column are not necessarily the opinion of the editor of this newspaper.

Bandit Makes Small Haul From R. R. Crew

(By The Associated Press)
MOBILE, Dec. 31.—An armed bandit held up and robbed the crew of a dining car attached to the northbound Louisville and Nashville New York, New Orleans limited near here, according to report made to the police. He only got \$8 in cash the report said.

NO EXPLANATION FOR A FINE TALLAHASSEE, Dec. 31.—

There will be no more legal executions in Florida until the electric chair at Raiford is ready for use, Attorney General Buford said Monday. The chair now under construction will not be ready before April, he said.

COMMISSIONERS URGE VOTERS TO PAY POLL TAXES

Marshall and Chase Appeal To Sanford Citizens—Registration Books Close Tuesday

Tuesday will be the last day that citizens of Sanford will have the opportunity of qualifying for the \$20,000 bond election to be held on January 1. City Clerk Phillips has given out the information that the city charter states that the registration books must close 10 days before an election is held. This makes Tuesday, January 1 the last day in which to register for the election.

According to statements given out Monday there have been 514 poll tax receipts issued by Tax Collector John D. Jinks, 17 by deputy collector Betts at the First National Bank and 34 by deputy collector Deane at the Seminole County Bank. This makes a total of 565 voters having paid their poll taxes.

Of the 565 paid though there are between 40 and 50 voters who are residents of the county. This makes but approximately 520 voters qualified for the city election up to Monday.

As has been announced previously in this paper in a statement given out by Mayor Forest Lake, it is essential that poll tax for 1923 be paid in order to qualify for the election. The fact that approximately 1,500 voters are registered on the city books does not mean that number will be able to vote, it was pointed out Monday.

In a statement given out Monday by City Commissioner S. O. Chase, it was shown that the election should mean to this city and what a wholehearted support of the issue would mean with regards to the price that the bonds will bring.

Chase's statement is as follows: "If the voters of this city don't get behind the bond election with their heartfelt support and cooperation, this city will come in for some bad publicity. Right now Sanford enjoys a reputation for progressiveness that few cities in the state of its size demand."

"The bond issues that have been floated by the city up until this time have always brought a very high price for the bonds and confidence that the bond buyers have in the city. It doesn't stand to reason though that if the coming election is not given wholehearted support and passed by a big majority of citizens, that we will continue to get a big price for our bonds."

"Cooperation of the citizens is certainly not shown when only approximately 500 voters have qualified to vote. I want to make a last appeal to the people of Sanford to put the election over in a big way."

"The City Commission has acted and now it needs your support. Will not every citizen avail himself at once of the opportunity to pay his poll tax?"

Dr. C. J. Marshall, member of the City Commission, made the following statement Monday: "I am indeed disappointed with the lack of interest shown by the citizens of this city in the coming bond election. I understand that very few over 400 voters have qualified which means that there are some 1,000 or more who apparently have no interest in the matter at all."

"I don't believe that the people fully realize the importance of the election, what it means to Sanford in the future. As I see it, this city is about to decide upon one of the most vital projects that has come up in its history and it is the duty of every voter to take an active interest in the election."

"The City Commission acting upon what seems to have been the prevailing opinion, went ahead and had survey made of the cost of the proposed utility plants and city hall and then called the election for January 11 so that the citizens might finally decide the matter. The law requires that the city registration books close 10 days before the election. This means that Tuesday will be the last opportunity to qualify. Nearly 1,500 voters are registered but are not qualified to vote by virtue of the fact that they have failed to pay their 1923 poll tax. It is absolutely necessary that the poll tax be paid in order to vote."

Woman Killed In An Apartment House Fire

(By The Associated Press)
DENVER, Dec. 31.—One woman was killed and two others seriously injured when they leaped from a third floor of a burning apartment house early Monday while the second woman was burned to death and three more persons were injured in a second apartment house fire which broke out shortly afterward.

Fort Lauderdale Man Is Killed By Farmer on Street

FORT LAUDERDALE, Dec. 31.—W. T. Williams, commission merchant, was shot and killed by Thomas Ammons, a farmer, Sunday night in the presence of several persons. The shooting occurred on Brickell Avenue.

According to eye witnesses, no words passed before the shooting. After firing five times, three shots taking effect, Ammons is said to have struck Williams with the gun. The shooting is understood to have grown out of a litigation between the two men. Williams, also, lived in Orlando.

OVEDO BUILDING IS DESTROYED BY FIRE ON MONDAY

OVEDO, Dec. 31.—(Special)
A building at the intersection of the Ovedo, Chulucota and Geneva roads owned by C. L. Went and occupied by the Seminole Supply Company, was totally destroyed by fire about 1 o'clock Monday morning. The entire stock of goods of the building was destroyed. The loss is partially covered by insurance, it was learned.

The stock in the building consisted of automobile, mechanical and grocery supplies all of which belonged to the proprietor of the business, a Mr. Williams of Ovedo. This store was one of the leading business houses of Ovedo, furnishing nearly all of the auto supplies in the vicinity.

GENEVA MAN IS DROWNED; BODY IS NOT LOCATED

Hans Ansonson, a farmer of Geneva, was drowned Saturday afternoon about 3 o'clock near Mullet Lake. It became known Monday. His body has not been found, although a party of men have been dragging the river in that vicinity since the accident occurred.

Ansonson, who was 58 years old, is said to have been riding a horse and attempted to cross a point in the river near Mullet Lake. A negro woman fishing on the opposite shore is said to have stated that she saw both the horse and the rider go under when in about mid-stream. Several times she saw both bodies come up and finally the horse swam ashore without Mr. Ansonson upon his back.

The negro woman went to a nearby home and told of the accident and immediately a party was organized to look for the body.

AGED CLERMONT CITIZEN DIES

CLERMONT, Dec. 31.—(Special)
C. H. Goodnough, aged 76, a prominent citizen of Clermont, died Sunday morning at 1:45 o'clock after an illness of two months.

Mr. Goodnough suffered a stroke of paralysis about two months ago and since that time had been confined to his home. His condition had been serious for some time, but due to his vigorous constitution, was able to withstand several sinking spells.

Funeral services will be held at the undertaking parlors of Cary Hand in Orlando Monday morning at 10:30 o'clock. The body will be shipped back to Mr. Goodnough's old home at Asbury Park, N. J., where burial will take place.

Mr. Goodnough is survived by a wife and two sons, Henry Goodnough of Asbury Park and Leo F. Goodnough of Patterson, N. J.

At the time of his death, Mr. Goodnough was president of the First National Bank of Clermont and a director in several other banks in Lake County. He owned large property interests here and was considered one of the wealthiest citizens of this section.

For 40 years Mr. Goodnough had been a resident of Clermont and was always prominently identified with the progressive interests of the community. At various times he served on the city council and was mayor of Clermont for several terms.

He was a veteran of the Civil War, having served in the Union navy throughout the entire war between the states.

Fast Express Train Derailed Near Zalsky

(By The Associated Press)
CINCINNATI, Dec. 31.—According to reports to local Baltimore & Ohio offices, the fast express train from New York to Cincinnati was derailed near Zalsky, Ohio. The passengers shaken up but no one seriously injured reports received here, said.

COLD WAVE GRIPS WESTERN PART OF UNITED STATES

Cold Weather Headed South—Snow Predicted For Many Of Southern States.

(By The Associated Press)
WASHINGTON, Dec. 31.—A great cold blast from Alaska Monday had overpread the Rocky Mountain and northern plateau regions and plains and in the states in Missouri valley and interior west gulf states with zero temperatures as far south as Texas panhandle.

It was 20 degrees below zero at many points in Northwest and at Yellowstone Park, Wyoming, 31 degrees was registered.

Snow was predicted during the next 48 hours for nearly all of the East and parts of Kentucky, Tennessee, Alabama, Mississippi, South Carolina, Northwest Florida, West Virginia, North Carolina and Western Virginia.

Miami Entertains Private Secretary Of Pres. Coolidge

(By The Associated Press)
MIAMI, Dec. 31.—Miami had the honor Saturday of entertaining Hon. C. Bascom Stemp, secretary to the president of the United States.

Mr. Stemp and the Hon. Richard Smith Whaley of Charleston, S. C., chairman of the rent commission of the District of Columbia, and a former representative in Congress, arrived in Miami by automobile about noon Saturday from Palm Beach, where they had been guests for several days.

While here Mr. Stemp and Mr. Whaley were entertained at luncheon at the Hotel Urmeys, where they made their headquarters during their visit. Lunching with them were Mayor and Mrs. E. C. Romf, Mr. and Mrs. Manning S. Burbank, Miss Grace Baxter and Mr. Charles Baxter of Boston, Mr. and Mrs. Frank B. Shuttles and Crate D. Bowden. Following the luncheon, a sight-seeing trip aboard Mr. Romf's speed cruiser, Mariette was enjoyed, giving the visitors an opportunity of viewing Miami Beach, the outlying keys down to Cape Florida, the Matheson estate and the James Deering estate from the water approach.

Two Stories of Knox Hotel At Cocoa, Burn

(By The Associated Press)
COCOA, Dec. 31.—Flames which seriously threatened to destroy a large portion of the business district of Cocoa, destroyed two stories of the Knox Hotel, located in the center of the business district, Monday morning. The fire means that the hotel will be closed all winter, it was said.

U. S. SHIP CONEJOS GOES DOWN WITH ALL PASSENGERS

Sinking Of Vessel Confirmed By Reports—Steamer Was Sunk Last Thursday.

(By The Associated Press)
CONSTANTINOPE, Dec. 31.—Confirmation was received Sunday of the sinking of the United States shipping board steamer Conejos in the Black Sea. All on board were lost.

The Conejos, a freighter, bound from Batum for New York, went down in the Black Sea on Thursday. The last wireless message received from the vessel, picked up by the British steamer Molesey, said:

"Sinking fast. Hold No. 1 full of water. Have received no response to calls for help."

In addition to her captain, the Conejos carried six officers and about 30 seamen. American vessels, which have tended to her assistance when her first cry for help was flashed by wireless, report they found no trace of the steamer or of lifeboats. It is assumed, therefore, that if the officers and crew took to the small boats they later were lost in the terrific sea running at the time.

The last "S. O. S." of the wireless operator on board the Conejos, complaining that he received no response to his calls for assistance, makes it patently clear that the Conejos sank before her sister ship, Chonstart, and other vessels, which were hurrying to her aid, could reach the scene. All of these vessels sent reassuring radios to the Conejos that they were responding to her appeal and it is assumed that the stricken freighter's radio failed when the vessel began to sink and that she went down in the belief that no aid was coming.

There have been a series of violent gales, coming from various points of the compass, in the Black Sea and in Turkish waters during the past fortnight. The gales have been accompanied by rain and snow. Havoc has been wrought among shipping. Even the powerful American torpedo boat destroyers and other naval craft have been forced to seek shelter, numerous small boats have foundered, entailing considerable loss of life.

The Conejos was one of the fleet of United States shipping board steamers which specialized in manganese ore cargoes picked up at various Black Sea ports for transportation to the American market.

NO TRACE OF BANDITS

ATLANTA, Ga., Dec. 31.—Officials Monday had made no tangible progress toward recapture of four convicts, who led by George Anderson, million dollar mail bandit tunneled their way from the federal penitentiary Sunday to freedom.

SAYS NATIONWIDE POGONDA APPARENT

PLAIN EVIDENCE

Would Coerce Senators—Opportunity Is Given To Examine Measure

(By The Associated Press)
WASHINGTON, Dec. 31.—Charges that there is an organized conspiracy to coerce senators and representatives to support the Mellon tax bill before they have an opportunity to study its provisions were made Sunday in a statement by Representative Garner of Texas, ranking Democrat on ways and means committee.

The statement, issued by the Democratic national committee, said Garner spoke for the members of the committee, which has been considering the measure for several weeks.

"Evidence is daily coming to light," said Mr. Garner, "that the national-wide propaganda to commit the people and their representatives in Congress to the Mellon tax bill before all of its provisions were made known, is the result of a huge conspiracy on the part of the predatory interests constituting special privilege."

"Plain and convincing evidence of this conspiracy is found in the wording of telegrams and letters being received by senators and representatives in Congress which are in identical language, showing they emanate from one source, although coming from various sections of the country. This is a form often employed by these predatory interests to influence the unsuspecting public and to build, intimidate and coerce congressmen."

"In this case the propaganda emanating from this organized conspiracy attempts to coerce senators and representatives to support the Mellon tax bill before they have had the opportunity to see the bill or to study and understand its provisions. It is plainly evident also that constituents who signed these messages could not have known all of the provisions of the Mellon tax bill, because most of the messages were received before the bill was made public."

"The unconscionable instigators of this conspiracy have not only sought in this way to browbeat and coerce congressmen, together with the implied threat contained in these identical form messages, but they have attempted, and in large measure apparently succeeded in the attempt to mislead the public by keeping secret some of the most objectionable provisions of the Mellon tax bill while they were attempting to have the bill generally endorsed by the public before its provisions could be made known. Only through the inaction of Democratic leaders has the bill been made public in all its provisions, so that the people for the first time know what the bill contains."

Two Die As Powder Plant Is Destroyed

(By The Associated Press)
EMPORIUM, Penn., Dec. 31.—Two men were killed and two others were injured Monday when dynamite packing house of Hercules Powder Company, two miles from Emporium, was destroyed by an explosion. The dead are Orle Walker and Charles Mansfield, both of Emporium.

Germans Balk At High Cost of Salted Herring

(By The Associated Press)
HAMBURG, Dec. 31.—The price of beer has been boosted many times throughout Germany without any great protest, but when salted herring jumped to \$1.50 a pound the people vigorously protested and termed it an outrage. About the same time sausage reached the unprecedented price of \$1.25 to \$1.75 a German pound, which is 12 ounces. Before the war salted herring sold for about five cents a pound and sausage from 15 to 20 cents a pound.

Potatoes, which retailed for less than one cent a pound before the war, cost 10 times as much early in December in Hamburg and other German cities. Rye bread, normally three cents for a two-pound loaf, has been retailed for 13 to 16 cents a loaf.

Chase & Co.

SANFORD, FLORIDA

OUTLOOK FOR 1923 VEGETABLE CROPS LOOKS PROMISING

A General Summary On Conditions Of Beans, Cabbage, Celery, Peppers, Potato, Tomato, Lettuce Crops.

WASHINGTON, D. C., Dec. 29.—The following report on Florida truck crops was issued this week by the Department of Agriculture, the matter having been covered by H. A. Marks: BEANS.

Movement of the fall crop of beans from Center Hill, Sumter County, is nearly completed. The yield was cut by dry weather but the quality was good and the crop as a whole profitable to the growers. On the East Coast the equivalent of four to five cars is moving daily from the 1,000 acres now planted in St. Lucie county and an additional 800 to 1,000 acres of spring beans will be put out later. On the lower East Coast, from Delray South, occasional cars are being moved and express movement is increasing from Delray, Pompano, Fort Lauderdale and other points. Movement will be considerably heavier after December 15.

CABBAGE. Planting of Florida cabbage is now nearly completed with a total of around 5,000 acres for the state. Dry weather held back planting in Alachua and Marion counties and in other sections where the cabbage land was not irrigated while in the Okechobee section, much of the land was not ready to plant after the summer rains. As a result, the acreage was reduced below that shown by the early estimates. The crop as a whole is unusual early. Carrot movement is already under way from the Sanford and Winter Garden sections. The Coleman and Leesburg sections will be moving by January 1 and shipments will be going out from nearly all sections of the state by January 15 or soon after that date. However, no heavy movement is expected much before February 1, and distribution should be fairly even from that date until April 1.

CELERY. Celery at Sanford and in Manatee county shows fine condition at present and gives promise of an excellent yield. At Sanford around 2,000 acres have been planted up to December 6. In Manatee county, plantings are nearly completed and the acreage will be fully as large as last year. While a few cars will probably move around January 1, the heavier movement will be after January 10.

PEPPERS. Movement of peppers from Manatee county reaches a volume of from 25 to 25 cars weekly soon after December 1 and of 12 to 15 cars weekly from the Winter Garden section. Movement from Fort Myers is also heavy and was expected to reach a volume of 20 cars weekly by December 20.

POTATOES. While planting of a small acreage of potatoes at federal point will begin soon after December 15, the total planting in the Hastings section before January 10 will be very light. Seed for the main crop will be received mostly by January 1. Heavy planting will begin about January 10 and will be nearly completed by the twentieth. Seed stock so far received appears to be of high quality and the percentage of certified seed used this year will be unusually high. The planting of early red potatoes to be harvested before the main potato movement from the Hastings section is unusually high this year. In addition, to the increased plantings on the lower West coast, there will be around 500 cars of potatoes, mostly red, in St. Lucie county with probably at least 1,500 acres in sections on or near Lake Okechobee. These will be planted not far from January 1 and are expected to reach maturity quicker than the potatoes used in the main crop sections.

TOMATOES. On the lower East Coast, the percentage of the crop planted South of Miami is much greater than a few years ago. This year, while the total acreage may not be much different south of Miami, the Southward movement is continuing and the percentage of the total from Goulds South will be even larger than last year. On December 10 around 65 per cent of this acreage from Goulds South had already been set out and while the weather had been unusually dry, con-

FLORIDA GROWERS LOST MONEY

MIAMI, Fla., Dec. 29.—That the Florida East Coast Growers' Association lost out heavily last year on tomato shipments, is claimed by those connected with it. Claims without number appear to be standing against the railroads, but the collection of these claims has become quite another proposition. In speaking before the association's members recently, the traffic manager said: "It will interest the farmers here to know that I am to have a conference with the railroad officials early in January on 250 cars on which we have claims. There are 380 cars out altogether, of which 100 cars or \$68,000 worth is from the Homestead House. Half this amount put into the hands of the growers would help out a lot and we expect to get that for them."

The Homestead member growers suffered a heavy loss and it is very doubtful if any appreciable amount of this loss will ever be collected. A large percentage of the damage was as a result of tomatoes having been shipped in cars, other than refrigerators, which resulted in the car contents being frozen enroute to market.

condition was generally good. A few cars have already been assembled and daily movement should be under way by December 20. With the larger percentage of early planting and improved condition compared with last year, movement in volume will begin earlier, probably by January 15 and total production will probably be somewhat heavier but with shipments distributed over a longer period of time.

LETTUCE. Heavy movement of lettuce from the Sanford section ended around December 8 and shipments for the remainder of the season will be comparatively light. In the Winter Garden section, the earlier lettuce matured quicker than usual and carlot movement began by December 1. Plantings are continuing in this section and the crop will be two-thirds planted by January 1. In Manatee county movement began early in December but will be light until after December 15. The heaviest movement from this section will be in January.

FLORIDA TRUCK CROPS COMMANDING GOOD PRICES

JACKSONVILLE, Fla., Dec. 29.—Florida truck crops are commanding good prices f. o. b. shipping points, and as is always the case when such a condition does exist, returns from shipments made to growers' commission merchants on the Northern markets show larger prices than those being offered by platform buyers. During last week beans commanded f. o. b. prices ranging from \$2-\$2.50 a hamper. Squash, supplies of which are beginning to deplete, commanded prices at around \$1.50 a hamper. Peppers for the most part are being consigned, but where sales have been made, prices held around \$1.75-\$2.50. English peas sold for prices around \$3 and up, some sales having been reported at as high as \$4.75 a hamper. Late in the week strawberries got down under \$1. The new Irish potato supply is very light and prices have been holding around \$2 a hamper. Purchasers of potatoes are finding sales in tourist cities of the state.

The Everglades section growers are making big preparations for a spring crop. Among the plantings contemplated are Irish potatoes, beans, cabbage and tomatoes. Crops on early plantings are now moving.

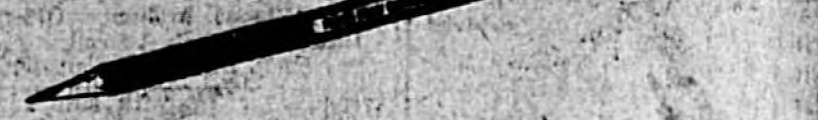

The American Railway Express Company has opened an office at Cleveland in the Charlotte-Harbor Division of the Atlantic Coast Line Railroad, and has placed an agent in charge to take care of vegetable shipments from that locality.

The Punta Gorda section has begun shipping peppers and beans. The movement is mostly by express. A few carloads have been shipped.

One hundred and fifty-eight hamper of Extonian pens gathered on a truck farm in Sumter county sold f. o. b. shipping point last week at prices ranging from \$4 to \$5 a hamper.

The Indian River section truck growers are preparing to plant large acreages of tomatoes for the spring market. Plantings for the most part will be made along the East Coast in St. Lucie county.

HORSE OWNERS! Get This Pencil FREE

A checkerboard pencil with square eraser and lucky horse shoe will be given away to anyone who buys O-Molene horse and mule feed. This is your chance to get a useful gift and at the same time lay in a supply of an economical, nourishing horse feed. Don't miss it. Get your pencil early, before the supply is exhausted.

BARBON, NOTED STATISTICIAN, GIVES FORECAST OF BUSINESS ACTIVITIES FOR 1934

WESLEY HILLS, Mass. (Special Herald Staff Writer)—Roger W. Barbon, noted statistician, has issued his forecast of business activities for 1934. He predicts a year of moderate recovery with continued depression in certain sectors.

The Babonchart of Business

Actual Path of Business. The graph shows a general upward trend with significant fluctuations, particularly a sharp decline around 1929-1930.

Normal Growth. The graph shows a general upward trend with significant fluctuations, particularly a sharp decline around 1929-1930.

Character is an imperative business qualification. It is not formed in a day. Character is developed through honesty and industry practiced daily.

Why I Use Advertising As My Buying Guide

In my capacity as housewife I advertised articles, sells more goods and it isn't hard for me to figure out that if the dealer wants to make only a fair profit he can sell me goods cheaper if he sells a great many goods than if he sells a smaller amount.

THOUGHT FOR TODAY: HEAVENLY SONG: They sang of Moses, the serf, God, and the song of the saying, Great and marvelous works, Lord God Almighty, just and true are they who King of saints.—Revelation 15:3.

How about that poll tax?

Have you paid your poll tax?

Tomorrow is the last chance you have.

What big development will be announced for Sanford this week?

Will your New Year's resolutions last more than one day?

The Herald wishes you a Happy New Year.

The Sarasota Times says that the New York Giants will train in this place this spring.

Tomorrow is your last chance to pay your poll tax and thereby qualify to vote in the bond election of January 11.

Many tourists coming from the coast complain of the condition of the Dixie Highway. Broken springs seem plentiful.

After Christmas and New Year comes thrift week. It's a good idea to practice economy when your pocketbook is empty.

Sanford will start the new year with voting a big bond issue. The City Substantial is growing faster each day.

Tourists who play golf will do well to see the Sanford course. It is as good as any in the state.

Sanford is beginning to face a parking problem. On Saturday night it is practically impossible to find a place in the business district where a car can be parked.

The Fort Pierce News-Tribune says that improvement projects finished or begun there in 1923 total over a million dollars. The state prospers.

Start the new year off right. If you have a vacant room or apartment insert a want ad in The Herald and help take care of people desirous of spending the winter in Sanford.

It might be a good idea to start a new year off with a pay up week. It would be great if everyone could start the year's work with a clean slate. A pay up week its money into circulation.

Friday night a radio program broadcasted from East Pittsburgh is heard throughout Great Britain. The program came through with remarkable clarity, the lecturer's voice being heard especially well.

Now comes Fort Myers and votes bond issue of \$145,000 to provide additional paving, extension of water mains and sanitary and storm sewers, and \$130,000 gas plant. Florida continues to make progress.

A dispatch from Atlanta says that more than six million people report annual incomes of \$1,000 and over own automobiles. Twelve million people in this country own automobiles. Therefore, a million automobile owners in this country have incomes of less than \$1,000 per year. Naturally, a question arises how do they do it?

Many tourists passing through Sanford have difficulty in finding an Orlando detour. Sanford would like more friends if signs were erected directing the stranger through the city. And by the way, wouldn't it be a good idea to rush completion the paving on Sand Avenue, so as to make it unnecessary to use that rough detour?

Sanford will be a big tourist town in a few years. The new one hundred room hotel on the shores of Lake Monroe will provide suitable accommodations for a winter visitor. The new yacht club will give him a fine place to live his yacht and the new boardwalk along the shores of Lake Monroe will prove to be a pleasant automobile drive for him.

Rollins College at Winter Park has installed a radio broadcasting station and on the night of January 1st will commence broadcasting a series of sixteen lectures by Dr. Harold Burton of Chicago University. It is the plan to broadcast programs a week. The broadcasting station will have a range of one hundred miles. More good advertising for Florida.

What Are Farm Boys Learning?

The Bureau of Education estimates that more than twenty-two million school children are now enrolled in the public schools of the country, a great increase over previous years.

One of the most important factors in making this increase is due to the fact that the public school system is reaching out to isolated communities and consolidated schools are making possible high school training for boys and girls on the farm.

Taxpayers are finding the high school a great agency for the development of the farm. The boy in the country today can receive a good high school education "at home."

The bureau enumerates the following things that the farm boys should be getting out of the high school program:

What are the farm boys learning in high school? Things that will enable them to solve for themselves the complex problems of freight rates on farm products?

Things that will enable them to work out their own co-operative organizations through which they may secure the advantage of pooled resources?

Things that will enable them to put such a quality of products on the market as will secure the highest prices and stimulate wider use of the products?

Things that will enable them to take advantage of credit facilities provided either as individuals or organizations?

Things that will enable them to grow the things on their farms that they should grow because of market demand and suitability of their farms for growing the products?

Things that will enable them to control the pests which periodically bring ruin upon farmers in certain localities?

Things that will enable them to vote intelligently on matters of public social or economic concern?

Things that will enable them to secure legislation in State or Nation that will protect them from unfair competition?

Things that will enable them to produce so cheaply that the public will buy heavily at a price that will still bring a reasonable profit?

These involve questions that the farmers of today are facing and the farmers of the future must face. Will the future farmer trust the generosity of other groups to solve his problems or will he study those problems and work out his own salvation?

Vocational agriculture, under the best trained group of teachers working in the rural schools today, offers a means of studying these problems. Are you profiting by it?

The People's Business

Criticism of the courts because "they do not function" has become a very common charge but is not this criticism coming from the same people who fail to give of their time and influence as real citizens to help the courts administer law and justice?

Only recently Judge Dickinson of our own circuit court bench, when asked to excuse certain parties for "business reasons" replied that for "business reasons" the jurors should serve.

In replying to the request, Judge Dickinson said: We should keep in mind that the business of the court is not any one man's business, but is the business of all the people of the state, and that it is due to the proper functioning of the machinery of justice that your business, as well as that of others, is protected and made safe; in other words, without a proper enforcement of the law, no community would be a very safe place in which to carry on a business.

You will therefore see that it is for the protection of your business, as well as that of other people, that our courts are established and maintained, and also, that courts cannot properly function without lawful and competent jury service, and that every man has a community of interest in the methodical and business operation of the machinery of such courts.

Where there is such community of interest, no man has the right to ask that his part in the public business be borne by other people, while he is permitted to exercise his preference to devote his time and talents to his private business; if one man has that right, then all have it, and the court could not function.

I know of no law which authorizes me, and I am not so disposed, to excuse any man from jury duty for business reasons.

Judge Dickinson is right. The man who would fail to do his duty fails to be the right kind of a citizen. The interest of the community cannot be safeguarded, the work of the courts cannot go ahead properly if citizens do not do their share.

Criticism of the courts is criticism of our citizenship.

Arthur Brisbane Writes For The Herald

Beginning with this issue of The Sanford Herald, Arthur Brisbane's column "Today" will be a regular feature of this paper. It will appear each day on the editorial page.

In the TODAY column there appears almost every day a feature of such brilliancy and individuality that were it unsigned careful readers of newspapers would immediately identify its authorship. There is but one editorial writer in the world who is such a cogent and convincing reasoner. It is not improbable that something like 20,000,000 sturdy middle class Americans, including thousands of writers, believe that Arthur Brisbane is the greatest editorial writer of all time.

Brisbane's editorials are published daily by many of the leading newspapers of the country. They are strong in their uplifting power; they appeal to the best there is in men and women; they kindle ambitions and awaken desires for knowledge.

My Favorite Stories

By Irvin S. Cobb

To me it has always been a mystery why every Scot is supposed to be exceedingly thrifty. One of the greatest spendthrifts I have ever known was born in the old gray city of Edinburgh. All the same, if you want to tell a story illustrating the canny talent for frugality, your hero must be Scotch, or the point is lost. What is still more curious, Scots love to tell such stories, perhaps on the theory that the faculty for saving helps to explain why the Scotch are such a self-reliant and unspending race.

Just here the other day a son of Scotia told me in rapid succession three stories all aimed at his own person.

Here was the first one: A penniless Highlander was so driven by his necessities that he actually bought financial success of an Aberdonian. Now, in Scotland there is a saying that the reason the British government included the farthing in its coinage was in order that the natives of Aberdeen might practice philanthropy. But this particular citizen, being imperturbed for aid by the poor

Highlander, went to the till of his shop and with care picked out a certain half-crown piece and he showed it upon the mendicant. The next morning the latter was found dead on the floor of his shabby lodgings, the money still clasped in his hand. During the night he had died of lead-poisoning.

A Scotchman entered a tobacco-conist and purchased a cheap but durable cigar. Then he asked for matches. The proprietor explained that owing to the high cost of matches he was compelled to charge two-pence a box for them. "And do you know?" stated the purchaser afterward in detailing the incident, "I had to walk a half-mile back to my hotel to get a light."

A resident of a Scotch town was passing along the street when he saw a shilling lying on the tram track. He leaped forward to pick it up. At that instant a car whizzed alone. It struck the citizen on the head. Killin' him instantly. The verdict of the coroner's jury was: "Death From Natural Causes."

Our Own Doorstep. Ocala Star—If some American editors we could name would quit recuring the shortcomings of France and censure the shortcomings of America, they would come nearer writing on the subject they know something about.

As Arthur Brisbane Sees It

Gold! Gold! Gold! Gold! To Run a Newspaper. The Scientist Work On. Mr. Rockefeller Educates Us. By Arthur Brisbane. Copyright, 1922, by Star Company

Gold! Gold! Gold! Gold. Bright and yellow, hard and cold. Spurned by the young, but huggid by the old. To the very verge of the church-yard mould.

HOOD WROTE that in the last century. It's still true. More than ten million dollars in solid gold have been drawn from one bank for Christmas stockings. On paper money, with yellow back, you read "in gold coin." But that isn't the same as the gold itself. Gold is easily lost, a foolish kind of money, but the average man with a twenty-dollar gold piece hesitates to change it. No other money seems quite like it.

WHILE WE all talk of politics, crime, money, theaters, fashion, scientists keep working—and their work is what counts.

Dr. Christie, of Johns Hopkins University shows that coal ground to a powder, two thousandth of an inch in diameter, at a cost of less than fifty cents a ton, will do with one ton the work of two tons of coal. That's fact, not fancy. This writer for one will proceed to put in furnaces with grates to handle such coal.

IN GERMANY, whence comes much of scientific progress, Professor Pfeiler has worked out what is believed to be a cure for the "foot and mouth" disease. A year from now nobody will know the name of this man, who will have added thousands of millions to the world's wealth.

PURCHASE of The New York Evening Post by Mr. Curtis shows that to make a newspaper successful you must be a newspaper man. The Post was inherited by a young gentleman, not a newspaper man. He had to sell it.

It was bought by a banker, Mr. Lamont, able person in the office of J. P. Morgan & Company. He couldn't run it, and had to sell it. It was bought by a group of "young intellectuals" who felt it their duty to purify and stimulate thought. They have to sell it. Mr. Curtis has it, and at least will make it a newspaper.

IN PARIS five different newspapers have, each, a circulation of a million or more. Three of the five have much more than a million.

New York has a bigger population than Paris.

The explanation is simple. Frenchmen feel that the real newspaper is a Paris newspaper. The American, wiser, feels that the real newspaper is the paper of his own city. Paris newspapers circulate all over France. American newspapers circulate, as they should, in their own neighborhood. That's good for America.

MRS. McCORMICK, daughter of John D. Rockefeller establishes a fund to build homes for the poor at cost.

Mrs. Russell Sage endeavored with her money to do some things for people of small means in the way of real estate. It turned out to be about the usual intelligent real estate speculation.

JOHN D. ROCKEFELLER is not interested in curing individual cases of poverty or disease. His idea is to fight disease and make it impossible.

Very likely he would think it a preposterous suggestion, but eventually poverty, as well as disease, will be made impossible. And, strangely enough, Mr. Rockefeller, with his accumulation of wealth, will have done more than any man, thus far, to show how poverty can be made impossible.

HE PROVED that competition is waste and unnecessary.

He has an entire organization can run an entire industry.

The people will learn the lesson, and they, the people, will be the "organization" that will own things. And since there is more than enough for all, poverty will cease.

BUT THAT'S a long way off. People are not fit for it yet. There could be no greater calamity than ridding imperfect human beings of the only lash that drives them to useful work. NECESSITY—POVERTY.

THE FRENCH, it is said, will endeavor at once to establish an understanding and complete relations with Russia in order to get in ahead of the British. Our great statesman in Washington are seeing Bolshevik bears, goblins and wolves on the stairs as they hurry up to bed, and they won't have anything to do with naughty Russia. "Mama told them not to."

Decimal System. Times-Union—in a recent number of the magazine printed as the official organ of the Florida Education Association there appears a table, which is rather misleading. It apparently shows that one of the smallest of the Florida counties stands highest in education—and credits it—in mathematical calculation—with having attained three, plus, over the maximum. If 100 per cent can be secured in a competition where 100 per cent is possible what is the use of the decimal system anyway.

NEW YEAR PLEDGES ARE NOW IN ORDER

The Citizen's Obligation for Jury Duty

Colonel W. E. Kay in the Civitan Magazine

In these days, when the administration of the law is denounced by unthinking men, when the recall of judicial decisions is seriously urged upon the voters of the country, and when secret organizations are offered as the remedy to meet alleged miscarriages of justice, all good citizens—and Civitan stands for good citizenship—must take pause.

If there be evils in the working out of the system of justice which we inherited from and applied under the common law of England as adopted in the Colonies when they separated from the mother country, what are these troubles and what remedy can be applied? While here and there legislation may be found, growing out of misdirected energy, causing remedies to be faultily applied, and even absurd laws may exist, yet in the main the great mass of the people respect the law, have a wholesome and merited regard for the judicial office, and esteem the character of our judiciary. When, as occasionally happens, justice miscarries under the forms of legal administration, this is the exception rather than the rule, for laws as a rule are wisely enacted, and judges as a rule are clean, able and fearless men.

Then, where does the trouble exist which brings the result into discredit? There can be only one answer. Under our system of jurisprudence the jury box is the place where the default exists, and from its failures these criticisms arise.

It is unfortunately true that men of wealth, intelligence and character, profitably occupied, shun jury duty, and yet these men will in their own personal affairs, or in dealing with corporate rights where they have stockholding interests, loudly denounce and vigorously maintain the failure of justice through our jury system, while at all times availing themselves of every cause sanctioned by law, and every excuse which the court will permit, to avoid sitting in the jury box and taking their proper part of the burden which should be assumed by every good citizen as his contribution, toward the maintenance and upholding of these rights which are guaranteed to us by our system of government but which are at last assured only by the proper determination of rights and the duo administration of the criminal law by just verdicts.

These men will tell you that they have neither the time nor inclination to undergo the inconvenience entailed, by absence from their business or their pleasures, by confinement in the jury box often for extended periods, in the performance of that duty which results from the proper administration of the law through trial by jury. Yet when bad verdicts are rendered these denounce the law, the judge, the lawyers, not thinking they are indicting themselves for the failure of the law to function. They very much prefer that these duties shall be performed by others, with the result that they are largely consigned to men who are coming to be known as professional jurymen. Such a man will generally be one who has failed in his undertaking, or has not been a success in any employment, who takes on jury duty very cheerfully for the compensation flowing therefrom, and most particularly he has no sympathy for the success attained by people of different attributes, greater energy, and larger fields of vision, crowned with success. To such men small units of capital into corporate form and especially the great organizations which have grown up and exist and which represent a success in our economic life, arouse nothing but aversion or contempt. The very

sacred duty to be performed in the jury box, of seeing that the laws are administered impartially and that the man charged with offenses against the law, be they great or small, shall, if proven guilty, be convicted and punished, has no controlling influence on the minds of these jurors, any more than they can appreciate that when by their verdict money property of others is awarded to claimants it shall only be under such circumstances as the law says shall bring about such a result, rather than because their sympathy and compassion is enlisted in the cause of the plaintiff.

To one who has traveled much in Great Britain and has observed the great respect for law, the tender regards for human rights there exercised by the courts and enforced by the juries, and has observed the certainty with which punishment falls upon the criminal, and that one accused of crime, no matter how great his station, or how tremendous his wealth, must abide by the same rule as the penniless thief

may, is even held to stricter accountability, if anything, for where much is given much is expected—it gives sad reflection by comparison with our occasional jury failures.

The real difficulty in this modern condition, which everywhere surrounds and confronts us is the absence of the right material in the jury box. Until men of intelligence, high character, busy in the daily walks of life or amply supplied with means, can and do appreciate that the highest civic duty that they can perform is cheerful service on juries and see to it that the laws are justly administered, and that fair verdicts are rendered, and that the courthouse is not the place for farcical criminal trials where sympathy and sentiment for the accused, rather than respect for the laws govern the verdicts, nor where the mere assertion of a claim, frequently without just basis, rewarded with heavy damages, with our system of administration of the law be what the purpose of the law intends.

I hope to see the day when a different attitude will prevail and respect for the law, a due regard for the character and ability and qualification of our judicial officers, and a proper observance of their oath by our jurors, will arise in the minds of the people, and the courthouse instead of being a "place where justice is dispensed with," will be recognized as the temple where the laws are enforced and rights are properly administered. When this is done there will be no more denunciation of the failure of justice, nor will there be the boast "that shrewd lawyers can get clients freed from the jaws of justice."

I believe in the jury system, but I want to see it properly protected and not unjustly administered.

Orders From High Up. Tampa Tribune—Fox, the Atlanta murderer, gets a life sentence and it is to be hoped that he has to serve it. He committed a cowardly assassination and attempted to escape the consequences by the plea that "God told him" to do it. In sentencing him, the judge should have said that God told the jury to send him where he belongs.

May Last the Season. Leesburg Commercial—Volusia County will have to try again. It had an eight-section law passed by the legislature, prohibiting hunting in that county and six of the eight sections have been declared unconstitutional. By the time the season is over perhaps the other two will be riddled.

Wants To Know. Alachua County News—We have to see that big oil derrick rearing its head lonely towards the heavens out on the Gainesville-Newberry road. Why don't some enterprising company come along and take over the old leases and bore that hole in the ground and tell us just what the freaks of nature have placed beneath us?

THE GIFT OF THE THREE WISE MEN

Mere than nineteen hundred years ago, Three Wise Men came to the little town of Bethlehem and brought with them gifts of gold.

The selection of gifts for children is forever putting our wits on trial, but today we have before us the example set by the Three Wise Men of old. It is the giving of money for Christmas.

Today, however, money is usually represented by a bank balance, so why not give your child a Special Interest Account for Christmas this year? Such a gift will encourage thrift and will increase in value as the years go by.

We will gladly help you open accounts for the children

Augusta Eigenmann returned home Monday from Clearwater where she spent the week-end with her mother, Warren Eigenmann.

The friends of Mrs. G. A. Radford will be glad to know that she is doing nicely after a serious operation at the Fernald-Lough Hospital Saturday.

Mrs. R. E. Pucifoy returned home from a dental motor trip to Clearwater on Saturday, where they were the guests of friends.

Mrs. Edmund Meisch, Misses Emma and Katherine Teague will return home Tuesday from Palm Beach, S. C., where they spent Christmas with their parents.

Mrs. L. B. Higgins announced the birth of a daughter on Sunday, December 31, at their home on Palmtoe Avenue. The mother weighs seven and-half pounds.

Prof. and Mrs. C. A. McKay left Monday morning for Miami, where they will be the guests of friends for a few days before going to West Palm Beach for the Educational meeting.

Miss Patty Lykes leaves Tuesday for Philadelphia where she is training at the Memorial Hospital at Borborough. She will be accompanied by Miss Drane Roberts, who will also go in train.

Mrs. Dwight Babbitt, Misses Ed. Cautenden, Laura Chutenden and Helen left Sunday in the Babcock car for Miami where they spent several days before going to West Palm Beach where they will attend the teachers meeting.

Mrs. Marna Mero leaves Monday for Washington, D. C., after spending the holidays here with her parents, Mr. and Mrs. Mero, at their home on Elm Avenue. Miss Mero has many friends here who hope that her visit to the nation's capital will be a most profitable one for her.

Mrs. T. Langley Sr., Mrs. W. M. Langley and Lynn Langley left Saturday for their home in Camp Hill, Pa., where they will be the guests of friends at their home on Park Avenue. They spent several days last week as the guest of Mr. and Mrs. Langley at their home in Lakeland.

WELCOME TO PALM BEACH!

That's what Mrs. George McIntosh, well-known New Yorker, is saying. She formerly was Miss Dorothy Fauquier of Windsor, Ont. She's one of the prominent folk at the famous Florida resort.

MISS HELEN HOAG ENTERTAINS AT INFORMAL DANCE

On Friday evening, Miss Helen Hoag entertained very pleasantly at an informal dance at her home on Union Avenue.

The whole lower floor was opened on suite and beautifully decorated with a profusion of cut flowers, potted plants and small pinces. At each window were Christmas wreaths and at one end of the living room was a gaily decorated Christmas tree. Dancing, games and contests caused the evening to pass all too quickly and at a late hour, refreshments of punch, sandwiches, fruit salad, saltines, ice cream, cake and salted almonds were served by the hostess, assisted by her mother, Mrs. H. H. Lossing and Mrs. J. Cowan.

The guests were Misses Elizabeth Flowers, Demarius Mussen, Marjorie Dietrich, Sara Warren Easterby, Emily Bailey, Ollie Vera Glisson, Etnel Walker, Faye and Gladys McCullough, Winfred Strong, Margaret Cowan, Florence Malin, Dorothy Crabtree, of Tampa, and Mr. and Mrs. Wilbur Ruppel.

Messrs. Peter Schaal, John Mussen, Lawrence McDaniel, George Cowan, Clifford Walker, Bertram Sheppard, Byron Stevens, Ralph Warren, Frederick Rines, William McKim, Lewis Shipp, Joe Walker, Joe Meisch, Leonard, and H. S. Pond.

ENTERTAIN AT DINNER

Mr. and Mrs. R. R. Eldridge entertained a number of their friends with a turkey dinner at their attractive home at Paola on Sunday. The guests were: Mr. and Mrs. Morris Spencer, Mrs. Roberts, Mr. and Mrs. Gormley, Miss Margaret Roberts, Mr. and Mrs. McGwynn, Mrs. Bertha Thompson, Bert Steele, Miss Julia Lairg, Miss Elizabeth Long, and J. M. Dawson.

ST. AGNES GUILD

On Wednesday afternoon at 3:30 there will be an important call meeting of the St. Agnes Guild at the home of Mrs. J. N. Robson on Park Avenue. It is imperative that every member of the Guild be present as matters of great importance are to be attended to.

NEW YEAR'S DANCE AT VALDEZ HOTEL TONIGHT

An informal New Year's dance will be given this evening, beginning at 9 o'clock, at the Valdez Hotel, given by the young men of Sanford and to which the public is most cordially invited. An unusually good orchestra has been secured and an enjoyable evening is being anticipated.

TEA FOR VISITORS

One of the most delightful of the holiday affairs was the Christmas tea given Saturday afternoon by Mrs. Fannie Stenbridge Munsion at her home on Myrtle Avenue, complementing the visiting college girls.

The long study, where tea was served, was bright with bowls of flaming poinsettias, and in the bay window stood the large Christmas tree trimmed with festoons of red, and silver and draped with icicles. The table at the upper end of the room was covered with a pyramid of red apples and other fruit and flattened poinsettias. Tea was served from the lower end of the study and opposite a high and massive cluster of poinsettias, the two serving tables were placed. Both were laid with handsome embroidered cloths and one was centered with red rose buds, while the decoration of the other consisted of holly and red berries. Arranged at intervals were silver cake and sandwich basket the handles tied with bows of vivid red ribbon. Silver computes holding salted nuts and bon bones, were placed at either end. The silver service and the whole color scheme of red and green were richly effective, and gave a joyous Christmas keynote to the delightful occasion.

Assisting in serving were Misses Emily Abiley, Charlotte Smith and Emily Bailey.

EAST SANFORD

The entertainment and Christmas tree at Moore's Station church Christmas night was well attended and more than 100 happy children received gifts of candy, nuts and fruit. The community affair is an annual event. Beside the money made at two suppers recently, a gift of 200 oranges was received from Helen and Glenn Dresser and \$1.00 from Mr. Prince, the candy salesman for the E. J. Smith Candy Company, of Jacksonville, all of which is duly appreciated by the committee in charge.

Daily Fashion

A MORNING FROCK

To Paris also may be left the task of designing a simple morning frock of distinctive charm and general becomingness. This model is suited to development in gingham, ratine, serge, or wool crepe. The gathered skirt is attached to a long-waisted blouse with deep open front. The revers are finished at the upper edges and stitched over the collar. Fancy stitching trims collar, revers, cuffs, and pockets. Medium size requires 3 3/4 yards 36-inch material.

Pictorial Review Dress No. 1810. Sizes, 34 to 43 inches bust. Price, 45 cents.

OVIEDO

Mr. and Mrs. Grodin Macfarlan, of Cherow, North Carolina, are visiting their parents, Mr. and Mrs. Alan Macfarlan.

Mrs. B. F. Wheeler's Sunday School class of young ladies very delightfully entertained their friends at the Club House on Thursday evening.

On Friday, Dec. 21, the Methodist Sunday School had its Christmas exercises at the church. The program consisted of a Christmas play by the children, the giving of white gifts for the orphanage and a tableaux of the Nativity by the older boys and Miss Janet Macfarlan.

The young people at home from college for the holidays are: Miss Elizabeth Young, from Montverde; Miss Mabel Swope, of Stetson; Miss Elizabeth Lawton, of Wesleyan College, Macon, Ga.; Misses Katherine Lawton, Lucile Partin, Florence and Evelyn Wheeler, of Sanford High school; Walter Carter and Alva Thompson, of Norman Park, Ga.

Mr. and Mrs. Frank Norris, Woolsey Sturdivant, Mrs. L. E. Mitchell and Miss A. D. Mitchell spent Christmas Day in Orlando, as the guests of Mrs. N. B. Holt and family.

Mrs. Conolly, Miss Ida La Conolly and Ulric Conolly, of Valdosta, Ga., are the guests of Mrs. Emmett McCall, of Oviedo.

Miss Janet Macfarlan entertained the girls of the Delta Club with their gentlemen friends Friday afternoon.

The young people of the B. Y. P. U. gave a most effective program at the church Sunday evening. The choir entered first, singing as the members marched from the outside and continued to sing throughout the program the beautiful Christmas carols describing the announcement of the birth of Christ, which the young people so effectively acted out.

Mrs. H. B. McCall spent a part of Christmas week with her children in Sanford.

Miss Catherine Young is spending the week in Havana, Cuba, having gone to attend the Rollins-Havana football game.

Prof. A. L. Hatch, of Johnstown, Pa., was a welcomed visitor at Oviedo during the holidays. Professor Hatch was formerly principal of the Oviedo school and has many warm friends here who are always delighted to have him return. Mrs. T. W. Lawton entertained Professor Hatch and some of his friends, who enjoyed renewing acquaintances and hearing Professor Hatch tell of some of his travels in France, Spain and Cuba since he left Oviedo.

Mrs. Mary West, of Nashville, Tenn., arrived Saturday for a visit of several months with her children, Mr. and Mrs. C. L. West, of Lake Charm.

A. J. Roy has sold his garage to Mr. Strickland, of Georgia, with the sale of the business goes the lease of the building, formerly occupied by the Seminole Supply Company.

Mr. and Mrs. Ralph Bassford and baby are guests of their parents, Mr. and Mrs. N. F. Lezette. Mr. and Mrs. Cornell, of Washington, D. C., are spending the holidays with their mother, Mrs. D. A. Marshall, of Sanford, and were the guests of their sister, Mrs. R. W. Lawton, on Christmas Eve. Mrs. Cornell was formerly Miss Marie Marshall, and has many friends in Oviedo who are delighted to see her again and to meet her husband, who is making his first visit to this section of Florida.

The community Christmas tree on Christmas Eve at the school auditorium was quite a success and the children were delighted with old Santa Claus and his many gifts.

Mr. and Mrs. S. W. Swope, Miss Mable Swope and F. W. Swope spent Saturday afternoon in Orlando.

Miss Janet Macfarlan entertained the little boys of her Sunday School class Thursday evening.

A fishing party composed of H. B. McCall, Warren McCall, William Robert Williams, of Sanford, Emmett Kelsey and J. N. Thompson spent several days at "The Prairie" this week.

The Woman's Missionary Union of the Baptist Church entertained delightfully the members of the church, Sunday school and B. Y. P. U. at the Club House Friday evening.

Mrs. J. N. Thompson and son, Allen, spent Thursday in Sanford. The many friends and pupils of Miss Chapman, of Sanford, regret to learn that she has resigned her position in the Oviedo school.

Mrs. M. M. King had as her guests for Christmas, Mrs. A. K. Crawford and son, George, of Jacksonville, Mr. and Mrs. Z. Spinks and little daughter, Ann, of Leesburg and Miss Nell King, of Winter Park.

Miss Elberta Holt, of Orlando, spent Wednesday with her aunt, Mrs. Frank Norris.

Mr. and Mrs. Andrew Aulin left Friday for a week-end visit to Jacksonville.

Mrs. O. P. Swope and baby Oliver, of Orlando, were Oviedo visitors Saturday.

Mr. and Mrs. James Malcolm spent Christmas in Punta Gorda, the guests of Mrs. Malcolm's relatives.

Mr. and Mrs. D. A. Caldwell, Miss Letty Caldwell, Mrs. Fred Wight and children and Joe Caldwell motored to Leesburg, Sunday where they were the guests of Mrs. J. S. Mahoney.

Mrs. L. L. Moore and baby left Friday night for Marion, S. C., where she will visit her mother, Mrs. Eisman, for several weeks.

Bill Lake will return home Monday afternoon from Laurens, S. C., where he spent the holidays with his parents. He will be joined here by Stencil Taylor, Jr., of Largo, for a short visit leaving Wednesday for Gainesville, where they will resume their studies at the University of Florida.

The Sanford Country Club Golf links were exceedingly popular Sunday afternoon, there were numerous twosomes and foursomes played by the local people and a number of out-of-town folks. Charles Liddon and Kenney Harrold of Orlando with a party of friends were among those enjoying the unexcelled Sanford Golf links Sunday afternoon.

Mr. and Mrs. Carl Ferren and daughter, Mrs. E. L. Ferran and Harry Ferran of Eustis were the guests of Mr. and Mrs. D. L. Thrasher on Sunday.

Miss Katherine Pittman of Tampa is the attractive guest of Mrs. D. Mahley and Miss Georgia Mabley at their home on Myrtle Avenue.

Mr. and Mrs. Emmett M. Hune and daughter, Joyce are now at home to their friends at the home of Miss Martha Fox on Oak Avenue.

Mrs. W. H. Tunncliffe motored to Kissimmee Monday morning where she spent the day most pleasantly as the guest of friends.

You Can Reach Fort Myers By Automobile Now
TO THE TOURISTS:

Fort Myers, the "City of Palms," can be reached by automobile from most sections north of our city.

Fort Myers loves visitors. We want the tourists to come down and see us, be with us, and enjoy our enchanting environment. We have splendid hotels, modern and fireproof, excellent boarding houses, apartments and furnished rooms at reasonable prices.

A bus line provides good daily service to and from Fort Myers via Arcadia, on a three hour schedule.

CHAMBER OF COMMERCE

Fort Myers, Florida

Skating at Lake Mary on Tuesday and Friday nights.

Mr. Tax Payer:

SIX REASONS WHY THE CITY SHOULD BUY THE SPEER GROVE FOR ATHLETIC FIELD AND FAIR GROUNDS

First. The location. This property is located within walking distance of everyone in Sanford. Located two blocks from Sanford Avenue, East of W. A. Ginn's home, extending from the Oviedo R. R. track to Mellonville Avenue. Mellonville Avenue is now paved within one block of this property.

Second. Railroad runs across the southwest corner of this property. A side-track can be easily made at a small expenditure, which is very essential for a fair ground.

Third. You can have two entrances, either from Sanford or Mellonville Avenues, and not have to have all traffic on one street.

Fourth. Regardless of the amount of rain fall, this property is always high and dry.

Fifth. A good investment. Over twenty-three acres for \$7,000.00, which is a fraction over \$300 per acre.

Sixth. This property has been recommended by professional ball players, for a ball park, and by Johnnie J. Jones, as an ideal location for a fair ground.

I shall be glad to show this property at any time to anyone, as the tax payers are the ones most interested in this, they should see just what the city is buying, and recommend to the city commissioners what to buy.

In The World Of Sports

CUBAN STAR IS LEADER IN BOX FROM ANY ANGLE

Senior Adolfo Luque, the Cuban curver of the Cincinnati Reds, is given the place of honor in the National League pitching records for the season of 1923, which are placed on exhibition this morning. The fiery senior is in front of the parade, viewed from any angle or passing any given point. He had the lowest average of earned runs scored against his pitching and also led the league in winning percentage with a mark of .771, for 27 victories and eight defeats.

The National League is not able to produce a single no-hit game for the season against the performances of Sam Jones and Howard Ehmke in the junior circuit. Three earnest athletes just missed the roll of honor. Arthur Nehf, Dazy Vance and "Jughandle" Johnny Morrison each pitched a one-hit game during the season just closed.

Burleigh Grimes, of the Robins, was the hardest working athlete in the league. The Lord of Burleigh pitched 33 complete games and a total of 327 innings. "Rosy" Bill Ryan and Claude Jonnard tied for the honor of appearing in the box score more often than the rest of the flinging tribe. Ryan and Jonnard each worked in 45 games, all told, quite frequently each of them working in the same game.

Dazy Vance set up a high mark in strike-outs and boosted his own mark of 134 in 1922 to 197 in 1923. He also set the season's record for strike-outs in a single game, getting 15 victories against the Giants in an 11-inning game on May 2. Graver Cleveland and Alexander had the best control and yielded only 30 bases on balls during the season. Jimmie Ring was "big-hearted Jake" of the pitching clan, distributing 115 free tickets to first.

Adolfo Luque gained further distinction by chalking up six shut-outs and leading his fellow craftsmen of the league in this particular.

RECEIVES APPOINTMENT.

ST. PETERSBURG, Dec. 31.—W. L. Straub has received word from Washington that he has been elected as director of the National Rivers and Harbors Congress for the Gulf side of Florida. Senator Duncan U. Fletcher is director for the Atlantic seaboard of the state. Mr. Straub announces his acceptance and states that during the coming year he will try to build up a larger membership of municipalities, chambers of commerce and other civic bodies throughout the state in the rivers and harbors congress.

BOOKS AUDITED.

JACKSONVILLE, Dec. 31.—An audit of the books of the Jacksonville Traction Company will be made along with a survey of the physical property of the concern by expert accountants and engineer to be employed by the city commission. This step has been decided upon by the commission for the purpose of gathering information to be used in opposing the application to increase its street car fares.

SUNDAY SCHOOL CONVENTION.

ORLANDO, Dec. 31.—The Florida Sunday School Council of Religious Education will hold a convention here January 16-17, to which every Sunday school superintendent, officer, teacher or interested worker, every pastor, every Christian worker in Central Florida, are urged to attend. The purpose of the meeting is to create inspiration, give information and practical help in Sunday School matters from experts and enthusiasts. Hugh S. Magill of Chicago, International Sunday School Council of Religious Education, and W. R. Hill, Jacksonville, general secretary for Florida, will be among the speakers.

TENNESSEE'S EXPENSES.

WASHINGTON, Dec. 31.—The department of commerce announces that the costs of government for the state of Tennessee for the fiscal year ended June 30, 1922, amounted to \$15,130,292, which was a per capita cost of \$6.39. In 1917 the per capita cost was \$3.12, and in 1914, \$2.45, the totals for these years being \$7,158,822 and \$5,522,627, respectively. The per capita costs for 1922 consisted of expenses of general department, \$4.35; payments for interest, \$0.30; and for outlays, \$1.67, the largest items being for highways and schools.

DEMPSEY-FIRPO FIGHT WAS GREATEST BATTLE OF THE YEAR

NEW YORK, Dec. 31.—Establishing a record for championship activity, the pugilistic season of 1923 has taken rank as the most spectacular, if not the greatest ever witnessed.

Nine battles with world's championships at stake, in five of which titles changed hands, were fought during the year, the climax coming sensationally when Jack Dempsey successfully defended his heavyweight crown by knocking out Luis Angel Firpo, Argentine challenger, in the second round at the Polo Grounds.

That savage, furious struggle between the American "Tigerman" and the "Wild Bull of the Pampas" lasted less than four minutes but, in the minds of those who saw it, ranks as the most remarkable battle of all time, and epic that has no parallel in ring history. Knocked down seven times in the first round, Firpo came back with a battering rush that drove Dempsey through the ropes and all but toppled the American from his throne, but the champion crushed his opponent in the second round, the final count coming on the South American's ninth knockdown.

With the exception of Joe Lynch, bantamweight king, and Mickey Walker, welterweight titleholder, all of the world's champions risked their titles in important matches and the end of the season found four new fistie rules at the top. They are Fanchio Villa, Filipino whirlwind, who knocked Jimmy Wilde, "Little Britisher," from the flyweight throne; Johnny Dundee, New York Italian, who battered Eugene Criqui, French war veteran, into defeat two months after the latter had knocked out Johnny Kilbane for the featherweight sceptre; Harry Greb, Pittsburg "winmill," who deprived Johnny Wilson, of Boston, of middleweight laurels; and Mick McTigue, Irish-American, who won the light heavyweight crown by outpointing Battling Siki, the singular Senegalese, on St. Patrick's Day in Dublin. McTigue narrowly saved his title by getting a draw in a riotous match with Young Stribling, Georgia schoolboy, in October.

Dempsey and Benny Leonard, lightweight king, remained masters of their classes. Besides battling Firpo, the heavyweight titleholder defended his crown against Tommy Gibbons, of St. Paul, in the little Montana boom town of Shelby on the fourth of July, failing to score a knockout but winning decisively on points in 15 rounds. Leonard met his foremost rival, Lew Tindler, once more and scored a decisive victory in a 15-round match at the Yankee Stadium.

Two American ring titles also changed hands but in both cases the losers acquired other laurels before the season closed. Villa lost the American flyweight title to Frankie Genaro, of New York, before conquering Wilde, and Greb was shorn of his American light heavyweight title by Gene Tunney, former soldier, boxer, and Greenbelt Village idol, before defeating Wilson. Tunney whipped Greb in defense of his 175-pound honors recently at Madison Square Garden, and apparently settled their rivalry of two years' standing.

RECALL ELECTION.

ST. PETERSBURG, Dec. 31.—The citizens of this city will vote on January 22 on the recall of City Commissioners E. G. Cunningham, chairman of the board; Paul R. Boardman, O. R. Albright, and C. R. Carter. They are accused by Charles Baeder, citizen, of charter violations, one of the charges being that they were interested in the sale of services or supplies by their business houses to the city.

SPONGE INDUSTRY.

KEY WEST, Dec. 31.—Florida's sponge industry will be represented at the All-Florida Exposition at Madison Square Garden (N. Y.) February 8-15. An effigy of a man is being made out of sponge which will be sent to the "garden" for exhibition. The "man" will be about six feet tall, and the head will be represented by a large sheepwool sponge. The entire body and the arms and legs will be composed of the same kind of material. The chamber of commerce has the matter in charge.

FLOWER FESTIVAL.

MIAMI, Dec. 31.—More than 200 floats will appear in the New Year's Day Fruit and Flower Festival here, according to estimates by Pat Bailey, chairman of the commercial division, who says his section alone will have nearly that number. In addition to the commercial representations, patriotic and civic organizations also have entered a number.

PINELLAS GOLF TOURNEY.

CLEARWATER, Dec. 31.—A large list of entrants is expected to take part in the Pinellas county golf tournament, which will be played over the links of the Bellevue Hotel here beginning January 12.

MAY GET ATHLETICS.

FORT MYERS—Connie Mack, treasurer and manager of the Philadelphia American League baseball club, is expected here early in the New Year to look over the field as a prospective training ground in the spring of 1925 for the Athletics. Arrangements already have been completed for training of the team next spring at Montgomery, Ala., Mack has advised, but he stated in a letter to R. Q. Richards, of this city, that a change possibly may be made for the following spring.

D. A. R. CONVENTION.

FORT PIERCE, Dec. 31.—Preparations for entertaining delegates to the annual convention of the Florida D. A. R. here January 15-17 are taking shape and the program will be announced in detail within a short time. The local chapter is planning to entertain from 100 to 150 visitors from all parts of the state. The American Legion and other organizations have volunteered to co-operate in the entertainment of the delegates.

PROPOSE COUNTY HOSPITAL.

BARTOW, Dec. 31.—A proposition to establish a county hospital for Polk county will go before the voters Monday, December 31, when they will be asked to vote \$100,000 for the purpose. Women's clubs, and members of the county medical association are behind the movement.

BRADENTOWN VOTES BONDS.

BRADENTOWN, Dec. 31.—Improvement bonds to the amount of \$65,000 have been voted by Bradentown freeholders. Forty-three thousand dollars of the amount will go into paying \$8,000 for sewer extension and \$14,000 for extensions of the water supply lines.

FLORIDA TO HAVE NINE BIG LEAGUE TEAMS IN SPRING

With six baseball clubs of the National League and three from the American League, training in Florida this spring will make the state the mecca for baseball followers from all over the country, it is believed.

St. Petersburg, spring training headquarters of the Boston Braves, will be the center of the training grounds for National League teams. Within a radius of 100 miles from St. Petersburg the big league clubs have established their training grounds.

Reports show that Texas, with its hot sand storms and California with its cold nights are slowly being deserted by the baseball clubs in favor of Florida, the Sunshine State.

Completion of the list of camps for 1924 reveals that nine—six National and three American League outfits—will do their conditioning in the Everglades state, the greatest number ever attracted to any southern locality.

Of the remaining seven clubs, two each have chosen Alabama and California, while Georgia, Louisiana and Texas have attracted one each.

Only four clubs have changed training sites for next season. Texas lost the New York Giants and Chicago White Sox, both having migrated to Florida, but will entertain the Boston Red Sox, who trained a year ago at Hot Springs, Arkansas. The other shift was made by the Pittsburg Pirates who go to Paso Robles, Cal., from Hot Springs, thus depriving the Arkansas resort of a place in the pre-season baseball run for the first time in years.

The list of training camps follows:
American League.
New York—New Orleans.
Cleveland—Lakeland, Fla.
Chicago—Winter Haven, Fla.
Detroit—Augusta, Ga.
St. Louis—Mobile, Ala.
Philadelphia—Montgomery, Ala.
Washington—Tampa, Fla.
Boston—San Antonio, Texas.
National League.
New York—Sarasota, Fla.
Cincinnati—Orlando, Fla.
Pittsburg—Paso Robles, Cal.
Chicago—Catalina Islands, Cal.
St. Louis—Bradenton, Fla.
Brooklyn—Clearwater, Fla.
Philadelphia—Leesburg, Fla.
Boston—St. Petersburg, Fla.

MANY REQUESTS FOR PARTICULAR AUTO TAGS MADE

TLLEHASSEE, Fla., Dec. 31.—The annual season is on for special requests for particular numbers on automobile license tags to be used in Florida next year. The state comptroller is now in the process, too, of annually training a corps of extra clerks to take care of the extraordinary demands for speed incident to getting out the new tags with the least possible delay.

Perhaps the greatest number of special requests are made for tag No. 1 in the "C" series of tags, which are for passenger cars or those for private use. Next in order of popularity come all numbers having combinations of sevens. While there are numbers of persons with: that they will not accept No. 13 under any circumstances, several special requests are invariably received each year for this tag, it is stated. The feeling of some against the "hoodoo" of 13 is so strong that they will not even accept a tag on which the numbers add 13.

In last year's distribution, the recipient of No. 1331 promptly sent it back, with the plea, "Please take this thing back—it reads '13' any way I look at it."

But the requests that bring the smiles to the faces of the "experienced" clerks are those asking for the combinations in sevens and others usually found from the manipulation of the well-known little ivory cubes. Seven-eleven is almost as popular as No. 1.

The application for No. 1 for 1924 was made two years ago by H. B. Lenfesty of the Lenfesty Broom Works of Tampa, who has been awarded the first tag.

L. L. Davis, of Winter Haven, drew No. 7; Earl J. Reed, of Lake Worth, got 13; Frank Hester, of Interlachen, was awarded No. 23, and Ira Rigdon, of Sebring, won 77.

Another number for which there are usually many requests—No. 111—was this time awarded to C. M. McKinney, of Orlando.

Seven-eleven went to Dr. N. M. Heggie, of Jacksonville. Officials of the tag department of the comptroller's office state that assignments already have been made up for next year and that it will be impracticable to make further special assignments this season.

AMUSEMENTS AT THE MILANE.

The management of the Milane Theatre has booked for its first stage attraction of the season, "Just Married," which will be presented on Wednesday night of this week.

In securing the clever musical comedy, which made such a hit on Broadway, the management has succeeded in booking one of the best shows on the circuit this year.

"Just Married" is played by an all-star cast, which is the original company that presented the show on Broadway. That it will make a hit with theatre-goers of Sanford is assured by advance notices telling of the widespread approval which the show has met everywhere it has been presented.

"Just Married," in its droll, clever, bright, catchy, impossible way, has for its pivot a situation which

allows a quite "unconnected" young woman and gentleman of the same name—Adams—to occupy the same stateroom on the luxurious steamship "La Fayette," setting sail for Bordeaux, France, for America.

Nimbleness of invention and rapidity of movement, with screamingly witty lines accompanying this bedroom farce "cock-tail" for "Just Married," is "just that," makes one of the most entertaining and delightful comedies which has been seen here for many moons.

"Just Married" is as harmless as Christmas morning in the nursery. Merely that two nice young persons are put into the same spacious stateroom aboard the honeymoon ship bound for America, and passed the night that way, neither knowing that the other is there. The girl is named Roberta Adams, the man is Robert Adams, and a

managing aunt has rather overridden the best authorities in her demand for a stateroom for her niece, the mix-up being the result.

The fun starts at Bordeaux, where the French liner is making ready to sail. Passengers, including the usual mixed lot of sea-going folk, arrive and are assigned to their staterooms. In a happy moment of intoxication, ambles toward the pier the aforementioned Robert Adams, in possession of a honeymooner's ticket for the boat. He is permitted to be of service to an entrancing young woman who has lost her purse and whose taxi driver is insistent and impudent. He also lends a helping hand to a pretty French girl whose American is trying his best to effect a getaway on the boat, being engaged to marry the charming Roberta Adams. At the same time the slightly inebriated one complicates matters for a

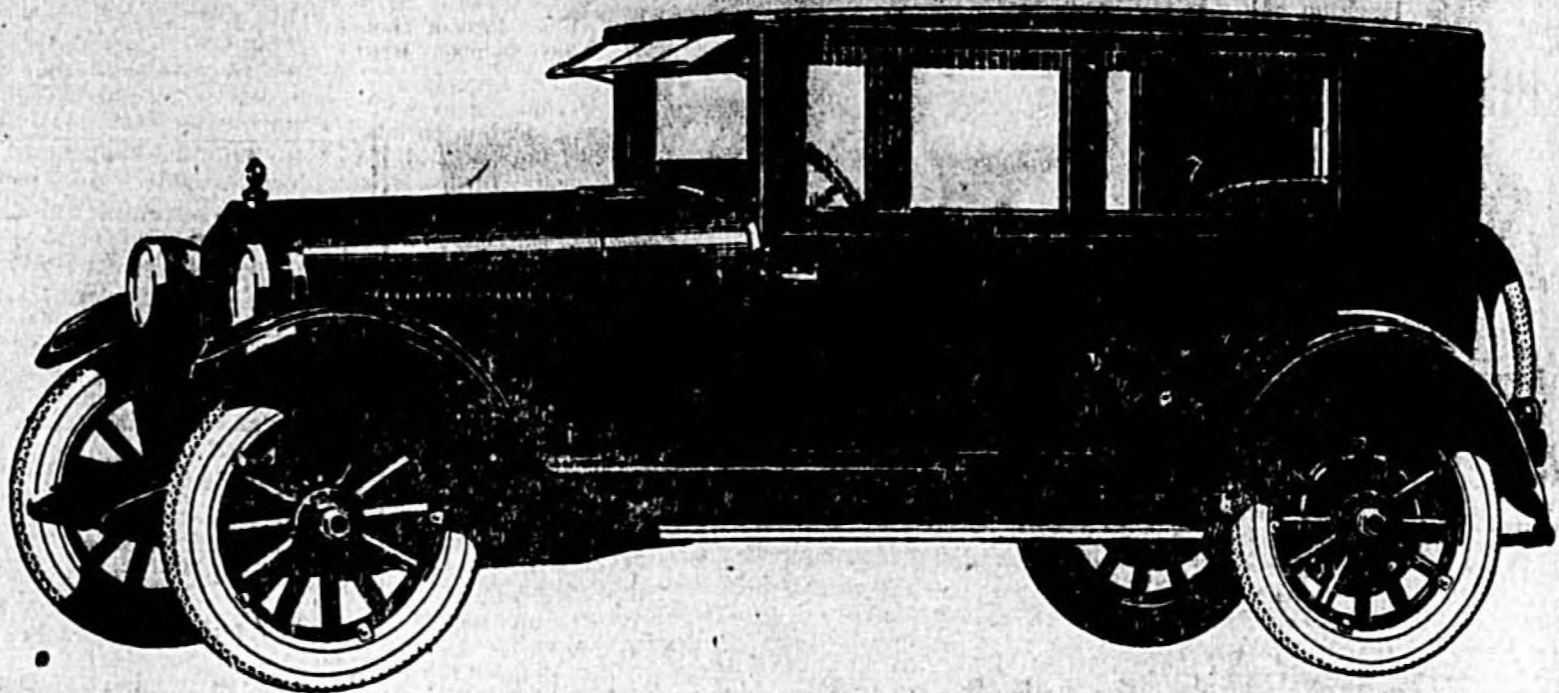

bride-groom friend whose wife is lively and inquiring, may say jealous, and he also runs a of the fiance of the first girl whom he gave assistance.

Tampa—Tampa Shipbuilding and Engineering Company opening yards to supply street steel.

CITY REGISTRATION BOOK OPEN

Notice is hereby given that books for the registration of the City of Sanford, Fla., have this day opened for the purpose of registration, and will remain open until January 2, 1924. Witness my hand as City Clerk and the seal of the City of Sanford, Florida, on this 12th day of December, A. D. 1923. (SEAL) L. R. PHILLIPS, City Clerk

The New ESSEX A SIX

Built by Hudson under Hudson Patents

Essex closed car comforts now cost \$170 less than ever before. Also with this lower price you get an even more attractive Coach body and a six cylinder motor built on the principle of the famous Hudson Super-Six.

It continues Essex qualities of economy and reliability, known to 135,000 owners. It adds a smoothness of performance which heretofore was exclusively Hudson's. Both cars are alike in all details that count for long satisfactory service at small operating cost.

You will like the new Essex in the nimble ease of its operation. Gears shift quietly. Steering is like guiding a bicycle, and care of the car calls for little more than keeping it lubricated. That, for the most part, is done with an oil can.

The chassis design lowers the center of gravity, giving greater comfort and safety, at all speeds, on all roads. You will be interested in seeing how this is accomplished.

Greater fuel economy is obtained. The car is lighter, longer and roomier. You will agree that from the standpoint of appearance, delightful performance, cost and reliability, the new Essex provides ideal transportation.

A 30 Minute Ride Will Win You

BOND ELECTION

WEST PALM BEACH, Dec. 31. The city commissioners are planning to call an election for some time within the near future when the freeholders will be asked to would be devoted to building public works \$300,000, two-thirds of which vote \$200,000, two-thirds of which would be devoted to building a public recreation pier on the lake front between the north and south bridges. The other \$100,000 would go towards payment of old city debts.

ONE OF THE VERY DESIRABLE GRAY OR DARK BLUE LINENS

can be used to fashion this smart and practical frock. It is of the slip-on type, the kimono sleeves being lengthened with deep cuffs of self-material, gathered into narrow wristbands. The deep open front may have a vest of linen or of dainty white batiste. Medium size requires 5 3/4 yards 36-inch linen. Other smart shades for this model would be coral, Egyptian red, mouse, honeydew and lavender.
Pictorial Review Dress No. 1521. Sizes, 31 to 46 inches bust. Price, 35 cents.

MORE STREET PAVING.

ORLANDO, Dec. 31.—The Orlando city council, according to reports, is planning to issue bonds in the amount of \$100,000 for street paving work. The city engineer has been instructed, it is understood, to prepare lists of streets which have petitioned to be paved, and get ready for action after the first of the year.

JITNEY BUS REGULATIONS.

MIAMI BEACH, Dec. 31.—This city would impose regulations upon jitney drivers and operators of "for hire" automobiles requiring them to furnish cash bonds of \$5,000 or liability insurance before they are given permission to do business on the beach or drive cars to or from the beach. An ordinance with these provisions has passed first and second readings before the city council.

DAILY FASHION HINT

STRAIGHT-LINE FROCKS WITH TUCKS
Frocks made of gay linens, voiles and crepes for spring and summer wardrobe have, of course, the charming slender silhouette and are frequently trimmed with tucks. Particularly soft and pretty is the dress to the left in honeydew cotton crepe with stitching in black. Either tucks or deep bands of self-material may be used on the skirt. The front of the blouse is cut with a deep V-shaped neck. Batiste or lace may be used for the vestee. Medium size requires 5 3/4 yards 36-inch material.
The gown to the right is in almost green crepe, with an appealing beauty of line. The side panels are attached with self-folds while the sleeves and vestee are trimmed with tiny black and gold buttons. The long, deep roll collar emphasizes the slenderness of the silhouette. Medium size requires 5 3/4 yards 36-inch crepe. Other shades in which this model would look smart are beige, fallow, gray, china blue and onyx.

There seems to be a mania at the present time for regulation, confiscation or destruction of the "other fellow's" business by legislative action or taxation. For political effect it is common to work up a prejudice in the public mind against a perfectly innocent industry which seems helpless to defend itself.
