SITUATION IN CANTON SERIOUS REPORTS STATE

FLOTILLA OF FOREIGN BOATS IN HARBOR

UPRISING FEARED

Dr. Sun Yat Sen, South China Leader Says He Will Appoint Own Customs Officials

(By The Associated Press) HONGKONG, Dec. 18.—A flotilla of foreign gun boats has been in the harbor of Canton where tense situation has prevailed since the recent threat of Dr. Sun Yat Sen, South China leader, to seize customs funds. He apparently is preparing for eventualities. Some of the warships lying off Shameen, the foreign section of Canton, have been cleared for action and French sailors from the cruiser Jules Ferry have landed at Shameen. Apparently the action of foreign powers is due to recent move of Sun Yat Sen in notifying the commander of the customs in Canton of his intention to supersede commissioner and customs staff by new appointees.

MANY SPECTATORS VIEW WRECK SCENE

No one was killed but two passengers received minor injuries Monday afternoon when the Tampa Special No. 19 was wrecked about a mile and half south of Longwood near Hooker's Crossing. The injured were: Mrs. N. J. Reja of Vandocin, O., suffering some minor internal injuries, and Mrs. S. A. Chancellor of this city who was bruised slightly by a falling suitcase.

The train was in charge of Engineer Dick Wallace and Conductor Ed. Butts. When seen at the wreck Monday afternoon Mr. Wallace refused to give out a formal statement of the cause of the wreck but stated that he was proceeding along with usual precaution before rounding the curve when all of a sudden the engine with the coal car and four passenger coaches left the track.

a He stated that it was all done in a minute's time but that he realized the danger and applied the emergency brakes. Neither he nor the fireman jumped, he said, but both remained at their posts.

Although no official statement was given out as to the cause of the wreck, it was the consensus of opinion that it was due to the bad condition of the track at that point. It is said that the cross ties were rotten and as a result the rails had spread probably causing the wreck.

Late yesterday afternoon no report was forthcoming from A. C. L. officials sent to the scene of the wreck to determine its cause. Wrecking trains were on the job throughout Monday night, having come from Jacksonville and Lakeland. It was thought that by late Tuesday afternoon the track would be cleared for travel again.

Besides the engine and coal car, there were four coaches that left the track, one of these being a combination baggage and passenger car. The engine left the track and plowed up a huge pile of sand but was almost in line with the original track when it stopped. The coal car swerved off to the left side, piled up a high embankment of sand and turned almost completely around. Timbers in the coal car were smashed to small pieces.

Several hundred feet of steel tracks were torn up and some of it was a compact mass of twisted steel. One piece of track was bent so that it formed an almost perfectly shaped "hook" that immediately behind the engine also swerved off to the left side tearing up the track as it left. Although being derailed there was no serious injury done to this car well as to other three passenger coaches behind it.

The pullman cars in the train sustained no injury. It is believed that had the four derailed coaches been of wood instead of all-steel, there would have been a serious loss of life. At first it was reported that there had been several persons killed and others injured, but this was found to be erroneous, a true but short account of the wreck appearing in Monday's paper.

WORK IS RUSHED
HOYTONTON, Dec. 18.—Practically all material is on the ground and work is being pushed on the system of water mains for this city. Pipes laid into the Beach off had been placed in position along Ocean Avenue and other preliminary steps to beginning the real work have been taken.

MORE PROPOSALS TO FRANCE TO BE ASKED BY GERMANY

(By The Associated Press) BERLIN, Dec. 18.—The text of the notes exchanged between Premier Poincare and Herr von Hoesch, German charge d'affaires at Paris, were published Monday night. To them the semi-official agency appends the statement that the German government, noting France's readiness in principle to enter into discussions, will immediately put forward further detailed proposals regarding the re-establishment of German authority in the occupied regions and communications with the unoccupied territories, so that normalcy in the Rhine and the Ruhr may be restored in the promptest manner possible.

Germany disclaims and desire to enrench on the treaty of Versailles, and the hope is expressed that the discussions may ultimately lead to a final settlement of the Ruhr and Rhine controversy.

EXPERT TESTIMONY IS CHALLENGED BY THE PROSECUTION

Solicitor Boykin Says That Fox Was Not Influenced To Kill By "Voice of God"

ATLANTA, Dec. 18.—The defense rested its case shortly after noon in the Fox trial after Dr. J. N. Brawler had testified the defendant was paranoid. A recess was taken to allow the prosecution to muster its rebuttal case.

ATLANTA, Dec. 18.—Efforts of prosecution to impeach the expert testimony of defense that Philip Fox is a chronic paranoid was continued today. During the clash of counsel Solicitor General Boykin declared he would attempt to prove Fox did not attribute his killing of Captain W. S. Coburn to "voice of God" until he had conferred with the counsel.

School Children Help Stop Motor Accidents

(By The Associated Press) SAN FRANCISCO, Dec. 18.—One thousand public school boys of San Francisco, from 12 to 18 years old, have been organized into a traffic reserve force. Like the regular traffic policemen they are posted on the corners surrounding schools, where they regulate the progress of automobiles and see that their fellow students cross the streets safely. They study the city ordinances and are drilled in traffic by traffic officers of the police department.

This is an extension of a campaign against accidents started here 10 months ago by the police department, in co-operation with the California State Automobile Association. A committee of citizens was appointed to work with the police in suppressing reckless driving and careless walking, and in supervising the flow of traffic. During the 10 months the death duceed 25 per cent from that of the same period in 1922, according to statistics prepared by the association.

McAdoo Officially Throws His Hat In The Presidential Ring

LOS ANGELES, Calif., Dec. 18.—William Gibbs McAdoo, war time director of the railroads Monday night formally announced his candidacy for the Democratic presidential nomination in a telegram to W. W. Howes, Democratic state chairman, Pierre, S. D.

Mr. McAdoo's formal acceptance of the platform adopted by the Democratic proposal convention already in the mail enroute to Pierre. The telegram to the South Dakota Democratic state chairman read: "Having filed my formal acceptance of the platform adopted by the Democratic proposal convention, as required by South Dakota law, I desire again to express my appreciation of the honor conferred upon me by the convention and to say that I am willing to fight with and for the people of South Dakota in support of the Progressive principles espoused by the convention."

"We shall get no relief from the burdens now opposing us, nor shall we progress in any direction through the Republican policies of stand still, and wishful wishing for these problems to solve themselves."

The Democratic party stands for progress and popular rights. It welcomes the opportunity to do battle for them."

NEWTON TO BE ELECTED.
JACKSONVILLE, Dec. 18.—Ark Newton will be elected captain of the Florida football squad at a banquet Tuesday night, it is learned in authoritative circles. Next season is his last to play on the squad.

REVOLUTIONISTS VACATE MORE CITIES, REPORT

FEDERALS OCCUPY MORE TERRITORY

GAINING STRENGTH

An American Mining Engineer Is Slain By Bandits At Conception del Oro

(By The Associated Press) WASHINGTON, Dec. 18.—The revolutionary movement in Mexico has not appeared to change the policy of the American government toward Mexico.

(By The Associated Press) EL PASO, Dec. 18.—Federal troops have taken San Marcos, important position between Vera Cruz and Mexico City and are advancing steadily toward seaport stronghold of rebels, according to advices received Tuesday by Mexican Consul Ruiz.

(By The Associated Press) MEXICO CITY, Dec. 18.—The Revolutionaries evacuated Puebla Monday night, the war department announced. Federal forces occupied Almaz and Lucas Gonzalez.

Ten Killed in Battle.
Ten men were killed Sunday in engagements in the vicinity of Guadalupe, between insurrectionists and federal troops according to unofficial reports received here Monday.

To irregulars were reported killed, including Lieut. Pimental, at Guadalupe through which 60 cavalrymen, under command of the lieutenant, passed Saturday night en route to Juarez from El Porvenir, where they had been stationed. The cavalrymen camped a short distance outside the village, according to the reports, and rode into the town Sunday morning, shouting "Viva Villa!" "Viva De La Huerta!" The men were slain in a brief engagement with fiscal gendarmes.

The insurrectionists split into three groups, some retreating towards the hills and others moving toward San Ignacio. At the latter place a second battle was reported, in which eight men, including fiscal guards and soldiers were killed.

MARION, O., Dec. 18.—Councilman Thomas J. Mead received word Monday from Mexico that his son Elmer Mead, 45, had been slain by bandits at Conception del Oro.

Elmer Mead was employed as a mining engineer in the Santa Rosa Mining Company with headquarters at San Antonio, Texas.

(By The Associated Press) TAMPICO, Tex., Dec. 18.—The situation here and in this vicinity is tranquil. A rumor was in circulation here Monday that Tuxpan had gone over to the rebels, but it was said Monday this was untrue. A telegram received from the commander of the garrison at Tuxpan said there had been no new developments in the situation; that the entire oil region was under control of federal forces loyal to President Obregon. The dispatch added that the drilling of oil wells was continuing actively.

Federal troops are continuing their pursuit of Cesar Lopez de Lara, former governor of the state of Tamaulipas, about 125 miles northwest of Tampico. Pursuit of them is being hampered by lack of communication in that region.

Volunteers the number of 1,000 were armed here Monday and sworn in by the chief of the garrison to guard Tampico in case the garrison should be called upon to leave for the battle front.

(By The Associated Press) SAN ANTONIO, Tex., Dec. 18.—A large number of Americans are being detained in Mexico City by President Obregon for fear that if they attempt to leave they may come in contact with rebel forces, according to a telegram received here Monday by Judge L. B. Camp. The Americans, the advices state, are in no danger.

The information was received by Judge Camp after he had asked help in locating his grandson, thought to be in Mexico City.

The telegram adds the restrictions are principally because it is expected the rebels would soon engage the local forces around Puebla and other towns near Mexico City.

Railroads Concerned.
SAN ANTONIO, Tex., Dec. 18.—Mexico's recent troubles are being viewed with real concern by traffic men of the railroads and of big industrial and commercial concerns, who see renewed complications in trade relations should the revolution prove of long duration.

They point out that Mexican railroad facilities were getting back to normal after the disturbances of several years.

At one time freight was moving as freely between the United States and Mexico as between the state of the Union.

Then came revolution, and until about a year ago, no rail-road equipment was allowed to move from this country across the border unless a bond equal to the value of the equipment was put up.

American Legion Will Meet in Orlando Soon

(By The Associated Press) PALATKA, Dec. 18.—The annual department conference of post commanders and post adjutants and executive committee of the American Legion Department of Florida, will be held in Orlando January 21, C. Howard Rowton, state adjutant announced. National officers are expected to be in attendance.

LIBERALIST PARTY WILL BREAK AWAY FROM ALLIANCES

(By The Associated Press) LONDON, Dec. 18.—Former Premier Asquith speaking at a meeting of the members of liberal party Tuesday afternoon at which Lloyd George and practically every liberal member of parliament was present, said the liberal party intends to free itself from alliances with other parties.

SENATOR SMITH IS STILL IN LEAD FOR CHAIRMANSHIP

(By The Associated Press) WASHINGTON, Dec. 18.—The deadlock in the Senate over the election of an Interstate Commerce Committee chairman continued Monday, but the house perfected its organization by approving its standing committee slates.

Five more ballots were taken by the Senate which will resume voting Tuesday with the expectation that Republican insurgents will give their support to Senator Smith of South Carolina, the ranking Democrat on the committee. This vote with that of the Democrats would result in his election.

How They Voted.
The insurgents Monday supported first Senator Howell, Republican, Nebraska, and then Senator Couzens, Republican, Michigan, who on the last ballot received a total of 12 votes. In addition to that of the insurgents he drew support from Senators Cummins of Iowa, who has been endorsed by the Republican party conference for the chairmanship, Gooding of Idaho; Jones of Washington; Norbeck of South Dakota and Borah of Idaho.

On the first ballot Monday Senator Cummins lacked only two votes of the majority necessary for election. Forty-three senators supported him, as against 39 for Senator Smith; six for Senator Howell and one for Senator Couzens.

Smith held his strength on the second ballot, but Senator Cummins lost two votes which were transferred to Senator Couzens, whose total was nine. Howell's vote dropped to one. On the third ballot the vote was Cummins 39; Smith 38; Couzens 11. The fifth ballot—the fourteenth since the deadlock began—found Cummins and Smith again tied with 38 each while Couzens' vote was increased to 12.

Democrats Solid Except Bruce.
On all of the ballots the Democrats voted solidly for Senator Smith, except Senator Bruce of Maryland, who continued to support Senator Cummins.

The house wound up its organization which had been hanging fire for two weeks in quick order. Democrats demanded debate on the Republican committee assignments which had been revised to include Representative Nelson of Wisconsin, the insurgent leader, on the rules committee, but failed to delay the ratification vote, the insurgents with three exceptions voting with the Republican organization. The Democratic committee slates were approved by a viva voce vote.

The house action enabled committees confronted with pressing legislation finally to get down to work, the appropriations committee meeting at once to perfect its organization. Division of the committee into sub-committee for the framing of the annual supply bills will be completed Tuesday.

APPROVE COMMISSION FORM
SARASOTA, Dec. 18.—This city has gone on record, in a municipal election, against the commission form of government. Mayor S. J. Bacon was re-elected by a large majority. More than 100 women voted in the election.

Apparatus has been developed in Germany with which the material of sunken vessels that cannot be raised can be salvaged by cutting them to pieces under water.

RUMANIAN KING AND QUEEN ARE ASKED TO LEAVE

KOUNDOURITIOS WILL BE APPOINTED REGENT

REMOVAL IS URGED

Stern Language Used in Message To King George—Departure of Dynasty Imperative

(By The Associated Press) LONDON, Dec. 18.—A dispatch from Athens says that the king and queen are leaving Rumania Tuesday night without signing any decrees and that Admiral Koundouritios will be appointed regent.

Premier Gonatas and Colonel Planitars advised say signed a letter requesting the king to leave after they had been interviewed by a military and naval delegation and others who urged removal of dynasty. Letter to King George, it is said, was couched in stern language and contained intimation that his departure by evening at latest was imperative.

ROTARY CLUB HAS INTERESTING MEET

Sanford Rotarians enjoyed two interesting talks by H. C. DuBose and D. L. Thrasher at the weekly luncheon held Tuesday.

Rotarian DuBose first urged his fellow members to pay their poll tax and qualify for the coming bond election. This, he pointed out, is the duty of every citizen. He asked that every member get busy and pay his tax at once. Speaking further, Mr. DuBose said that the support given to the Boy Scouts had not been what it should have been. He said that Rotarians had accepted the responsibility of setting the example by which the boys were to be guided. He pointed out that so far that the only support that had been given was financial. Mr. DuBose further urged his fellow Rotates to live up to the responsibility that they have accepted and give to the Boy Scouts of Sanford their heartiest co-operation.

Rotarian Thrasher reminded his hearers that Christmas time is a time when love, service and self-sacrifice should prevail. He said that many were prone to magnify the bad things of life and in so doing forget all of the good things. He urged that everyone get into the spirit of the season and let Christmas of 1923 be the happiest one in all the history of Sanford.

In charge of the program at Tuesday's meeting was F. E. Roumillat. Music was furnished by George Brockhahn at the piano. Singing was led by Frank MacLachlan. The club enjoyed two vocal selections by Richard Hole-slawn.

A list of bones found is contained in a letter from Dr. Loomis to Hermann Gunter, state geologist of Florida. The letter says: "I have just completed taking up the mammoth skeleton. It has turned out:

"Skull: Two bases of tusks about three feet long each, four teeth and fragments of a skull, one femur, one tibia, and one foot; the other leg has two-thirds of femur, the rest in ends and pieces."

Preparations are being made for the mounting of the bones, Dr. Loomis advised the state geologist.

Charge Bootlegging Against Dutch Boat

(By The Associated Press) NEW YORK, Dec. 18.—Hendrick J. Karns, captain; Edgar J. Goeyens, supercargo and seven sailors of the Dutch auxiliary schooner Zeeband, seized by coast guards December 7 outside the three-mile limit, off Fire Island inlet, Monday were held in high bail on indictments charging bootlegging in American territorial waters. The defendants denied the charge, declaring they were bound from Antwerp to Halifax and were forced to put into the United States for necessary repairs and fresh drinking water.

AVIATORS ARE KILLED.
SAN ANTONIO, Dec. 18.—Capt. Harold F. Struckel, commander of the 47th School Squadron, Brookfield, and Serg. C. E. Ryals were killed when their plane crashed at Pardonville, Texas. They were en route to Dallas, Sergeant Ryals' home was in Glenwood, Ga.

SCHOOL ART EXHIBIT. An exhibition of pictures for the purpose of raising funds for the purchase of pictures for the local school rooms will be held in the Grammar School this week. It is said the collection will be an unusually fine one and of more than ordinary interest.

IN ADDITION TO THE pictures on display will be the privilege of inspecting every class room. The teachers of the various classes will welcome visitors and become acquainted with them. The children are eager to have the parents visit their rooms and appreciate the excellent and attractive accommodations which your tax money is providing for them.

ROOMS AND EXHIBITIONS will be open for inspection from 2 to 5 o'clock on the afternoons of Wednesday, Thursday and Friday of this week. Principals and teachers extend a cordial invitation to every one interested in the schools and children, to be present on one of the afternoons. The small admission fee of 10 cents will be charged for adults, but all school children are admitted free.—Adv.

DeMolay Picks Denver Man As Activities Head

KANSAS CITY, Mo., Dec. 17.—Roy E. Dickerson, Denver, Colo., has been appointed Director of Program and Activities for the Order of DeMolay, according to an announcement from the office of Frank S. Land, grand scribe, at national headquarters in this city. Mr. Dickerson has had unusual opportunity for obtaining a thorough understanding of the conditions affecting boy life, both in this country and abroad. Within the last five years he has made detailed surveys of every phase of boy life in six American cities of various sizes, including San Antonio, Pasadena and Colorado Springs. In addition, he has made extensive surveys of special sections of boy life in some dozen towns and cities of the west, among which are Houston, Dallas, Fort Worth, Galveston, Denver, Pueblo, Albuquerque, Los Angeles, San Diego, Oklahoma City and Wichita. As a result of these studies, Mr. Dickerson has become widely known among workers of boys.

Two years ago, as a special secretary for the Y. M. C. A. National Committee, he covered a month visiting the Y. M. C. A.'s in Mexico and making a general study of boy life in that country. While in Mexico City he represented the National Committee at the series of celebrations arranged by the Mexican government in commemoration of the 100th anniversary of the Mexican War for Independence.

In the spring of 1923 he was selected as one of the American delegates to the Second World Conference of Y. M. C. A. workers with boys, held in Austria the past summer and attended by over 800 delegates from 53 different nations. Following the conference, Mr. Dickerson spent several weeks in travel in Europe, with special reference to the conditions affecting boy life in central Europe. In Y. M. C. A. work Mr. Dickerson's experience has covered almost the entire range of that organization's work with boys. He resigned as Associate State Secretary for the State Executive Committee of Colorado, with responsibility for boys' work, to accept his present post.

Mr. Dickerson was born April 3, 1886, in Versailles, Indiana, graduated from the University of Denver in 1909 and later from the George Washington University, Washington, D. C. He is a contributor of editorials, stories and special articles, for the most part for or dealing with boys, to various papers and magazines, and author of study courses for high school boys. He assumes his new position on December 15.

SPEAR HEADS KIWANIS. ST. PETERSBURG, Dec. 17.—Judge C. E. Spear has been elected president of the local Kiwanis Club for 1924. He will have as associate officials of the organization, James W. Booth, vice-president; Wayne W. Blackburn, treasurer; Luther P. Tucker, trustee, and W. P. Powell and Ed. A. Weeks, directors. These officials will be installed sometime in January.

AT THE MILANE. Alexander Dumas, considered by many book lovers as the greatest writer of fiction of all times, almost invariably used as his theme the safety of thrones; but in his classic "Monte Cristo," which has been made by William Fox into a super production and which is showing today at the Milane Theatre, Dumas drifts from the theme of which he seemed to be the master, to that of the oppression of a soul that lived but to oppress other souls.

Though the story deals with a period in French history which abounds with dramatic incidents that well might serve as a plot for historical writing, i. e. the Napoleonic period, yet the writer was not tempted by such an alluring bait. Nevertheless the story is an all-absorbing one which grips the spectator and holds his attention to the very end. The manner in which the leading character, Edmund Dantes, makes himself the instrument of retributive justice is so well done that even though his acts seem somewhat unwholly, one cannot but glory with him.

TO VOTE ON BONDS. MIAMI, Dec. 17.—An issuance of \$350,000 in bonds to provide for new buildings and additions to several existing structures, will be voted upon by freeholders in special school tax district No. 2 here on December 24. This step has become necessary by the overcrowded condition of the schools, and the need of new and additional housing facilities. Items incorporated in the proposed program include: Purchase of site and construction of new junior high school building in northern section of city; erection of new school building in that section between Buena Vista and Alhambra, together with purchase of site adequate to school's needs. An addition also will be built to the present Northside school.

EXHIBITS INCREASE. TAMPA, Dec. 17.—Unprecedented increase in the number of exhibits for the South Florida fair for 1924 makes it necessary to construct additional buildings to take care of them according to P. T. Streider, general manager. Thirty-two counties already have signed up and reserved space for county exhibits at the fair which will open January 31 and continue through February 9, he states.

PRACTICAL CHRISTIANITY. MIAMI, Dec. 17.—"Practical Christianity" is the motto adopted by the Young Man's Bible Class of the Christian Church here, which has adopted the novel idea of incorporating with the view of increasing its field for doing good. A state charter has been applied for under the name of Laymen's Men Builders, the class taking the name of their teacher, Dr. G. D. Layman. The class is composed of high school students and business and professional men. The class will be divided into departments to facilitate its work. There will be a class aid fund, employment department, and missionary department.

FOUR COUNTIES ORGANIZE. MOORE HAVEN, Dec. 17.—Early completion of the Atlantic-to-Gulf highway in the object of a four-county organization perfected at a meeting here attended by county commissioners and representatives of chambers of commerce from Hendry, Palm Beach, Lee and Glades counties. The next meeting will be held early in January in Palm Beach county at which plans to bring about the completion of the highway will again be taken up. Exact date of the meeting has not yet been fixed. Captain J. J. O'Brien, of Okeviston, was named as president of the organization; R. L. McFarley, West Palm Beach, J. S. Borland, Fort Myers, L. M. Allen, Moore Haven, and M. E. Forry, La Belle, were elected vice presidents, and Miss Mary Hayes Lewis, of La Belle, was selected as secretary.

BUILDING PERMITS RUN HIGH. WEST PALM BEACH, Dec. 17.—November building permits here reached the total of \$258,223, according to D. W. Sanderson, city building inspector. Last November's permits totaled only \$97,319. Total estimated valuations for the first eleven months of this year aggregate \$2,002,053.

Drum And Bugle Corps Added to R.O.T.C. Unit

UNIVERSITY OF FLORIDA, Dec. 17.—The R. O. T. C. unit at the University of Florida has a drum and bugle corps. This is a new development so far as University of Florida military establishment is concerned, and so may be termed the "baby" of the organization.

The band is a time-honored and well known part of the school and military life, but the drum and bugle boys are a valuable addition and, acting in co-operation and conjunction with the band, are destined to fill a great need in the military branch of school life. The feeling of the military department in general, as expressed by Captain L. W. Amls when he said, "The drum and bugle corps is the best thing that ever happened to this outfit. They're new yet and are bound to make some mistakes, but with a little more practice they will be a first class outfit."

Plans for a series of events that are held in the military battalion each in the form of drill scaling, bayonet work, best drilled soldier, best drilled squad, best drilled platoon and best drilled company will be awarded again this year from proceeds of profits made by the post exchange which is operated by the military department.

BIG BOND ISSUE PROPOSED.

LAKELAND, Dec. 17.—A bond issue of \$4,000,000 will be passed upon at the polls next February 26 by the voters of Polk county, the proceeds to be used in road improvements. A proposition to widen all county nine-foot roads to fifteen feet with four-inch concrete curbs; and to lay 100 miles of completely new 16-foot roads with four inch curb in places where most needed in the county, will be incorporated in the questions to be decided at the election. The new project will cover practically all connecting highways to all adjoining counties.

DADE COUNTY FAIR.

DELAND, Dec. 17.—A movement annual fair will be held next March 12-15 on the old Tatum ball grounds, where a temporary building will be erected to house the exhibits of the women's department, and the rest of the exhibits will be shown under canvas. Plans are being made for a banner season of agricultural exhibits, while officials in charge believe the livestock department will outstrip any previous showing made in Dade county fairs. The poultry exhibits are expected to equal those at the state fair.

FESTIVAL AN ANNUAL EVENT.

COCOA, Dec. 17.—The "Indian River Orange Festival" would become an annual event under plans in the making by the citizens of this city. The first of the festivals will be held next January 2-26, which will be featured by a "Fruit Parade," in which will appear floats decorated with foliage and products of all subtropical fruits. These will include floats of oranges, pineapples, and the like. A water pageant, in which all kinds of craft will participate, will be held on Indian River at night.

PROCEEDS GIVEN TRUSTEES.

MIAMI, Dec. 17.—The board of county commissioners has turned over to the Dade county bond trustees proceeds of a \$35,000 bond issue, which was sold recently. Plans immediately were begun as to what roads would be first built with the funds. This sale was from a part of the \$1,000,000 issue voted in September, 1922, for road improvements in the county.

AUTO DRIVERS EXAMINED.

JACKSONVILLE, Dec. 17.—Five thousand persons have qualified here under the recent system adopted by the city to examine automobile drivers. The step was taken as a measure against automobile accidents. The examinations are continuing at the rate of about 350 daily until everyone in Jacksonville holding a license may have an opportunity to prove his competency. The plan adopted here is somewhat along the lines of that in vogue at Washington for many years, where everyone is required to stand an examination before being permitted to drive a car.

Apparatus has been invented in Europe for receiving radio telegraph messages at high speed on wax cylinders from which they can be repeated and transcribed at a slower rate.

Insured against loss by fire—you are always certain of sufficient money with which to rebuild. Insurance has been the means of replacing many a home that otherwise would have remained a mass of charred ruins. A policy in the Federal Insurance Company will furnish you the money to bring the contractor, mason and the carpenter to rebuild the property fire destroys. To delay buying this protection may be disastrous. Insure today.

Buildings Nearing Completion

DELAND, Dec. 17.—The two largest buildings yet erected in Deland are now nearing completion and will cost in excess of half a million dollars. The new Putnam Hotel, a six-story structure of buff brick and fire-proof construction, containing 120 rooms is being rushed and the management expects to have it open to the public on January 1. This building replaces the well-known old Putnam Inn which was destroyed by fire three years ago. The new First National Bank building is a six-story structure of red brick, and is expected to be completed the latter part of January.

FILIPINOS EFFICIENT IN ENGLISH.

MANILA, Dec. 17.—A total of 634 candidates recently took the bar examination tests in this city, and more than 270 asked that the examinations be given them in the English language. This is the highest English percentage ever recorded. Only 106 candidates passed the tests.

SURVEYS FOR PAVING.

KISSIMMEE, Dec. 17.—A firm of engineers has been employed to make surveys for the purpose of beginning paving work here on a program that it is expected will continue until eight miles of streets have been paved. The city commissioners decided to go ahead with the work and to call an election at a later date. This is made possible by a new law passed by the legislature this year.

Millard Selected As Sewanee's Captain

SEWANEE, Tenn., Dec. 17.—George ("Flo") Millard, of Nacogdoches, Tex., was elected captain of the 1923 Sewanee football team at the annual banquet given by Vice Chancellor Finley.

Millard has played a great game at tackle for the past two years. He is a senior in college, a student-protector and a member of the Sigma Alpha Epsilon Fraternity. "Flo" is 23 years of age, six feet one inch tall and weighs 175 pounds.

BIBLE THOUGHT FOR TODAY.
JUST AND RIGHT:—A God of truth and without iniquity just and right is he.—Deuteronomy 32:4.

THE RIGHT OF PROTEST.
To sit in silence when we should protest
Makes cowards of men. The human race
Has climbed on protest. Had no voice
Against injustice, ignorance and lust
The inquisition yet would serve the law
And guillotines decide our last disputes.
The few who dare must speak, and speak again
To right the wrongs of many. Speak? Thank God!
No vested power in this great day and land
Can gag and throttle.
—Ella Wheeler Wilcox.

Buy Christmas seals.
Speak up for the right thing.
Are you having a tree?
Don't be a jelly-fish citizen.
Show your interest in the city by paying your poll tax.

This man, Pinchot, we understand, is the Magnavox of Pennsylvania.

A Christmas smile is sometimes more welcome than a Christmas gift.

Send your contribution to the Children's Home Society at Jacksonville today.

There is no one quite so talkative as President Coolidge unless it is an engineer in a train wreck.

Hundreds of Sanford citizens may be disfranchised—because of failure to pay their poll tax.

When you are just about to throw the thing away, try a want ad. You will make money on the deal.

Doubtless about this time, William Jennings Bryan is having his regular quadrennial return of the old impulse.—Detroit Free Press.

How many good resolutions have you jotted down in your notebook for enactment into your moral code on the first of the year?

Secretary Denby recently urged the need of an expenditure of thirty million dollars for modernizing the fleet. It's a good thing we decided to disarm.

Abel Martin, the "Indianny philosopher," does not miss the truth when he says: "Next 't' han-shakin' nothin' has been as overworked as 'successful as promisin' to reduce taxes."

It might be a good idea each night to see that windows and doors are carefully locked before thieves get into the habit of wintering in Sanford.

The past week has seen the declaration of at least three prospective candidates for governor. The situation is improving.—Tampa Tribune.

Why not organize a Coolidge Club, not for political purposes, but with the view of encouraging more people to keep their mouths shut?—Athlison (Kan.) Globe.

Just because a fellow wears knickers and green and purple checked socks, it is no sign he is going to miss a three foot putt every time the world depends upon it.

There were 65,936 arrests for the violation of the Volstead Act during the year ending June 30, 1933. The other 109,834,064 bootleggers, census 1920, escaped notice.

John Martin is certainly raising a lot of smoke and it is said that wherever there is smoke there is always some fire. There is, however, a difference between fires and bon fires.

Sanford's big bond issue for public utilities will be sold at a premium—if enough citizens take an interest to qualify for the election by paying their poll tax before January first.

Congressman Frank Clark has introduced a resolution in the House that members be allowed sofas. That's probably a good idea. If Frank Clark is going to sleep in the House anyway, he might as well have a couch to lie on.

The Association of Overworked, Underpaid, Dishwashing Housewives have sent a petition to Congress in which they maintain that sixty per cent of the Senate are paid a sum in excess of what their services to the people are worth. This probably came as a distinct shock to the Senators themselves, but it is doubtful if the rest of the country will ever give credit to the A. O. U. D. H. for making a discovery.

Savings Clubs Promote Prosperity

Among the many blessings brought to the people of the country by the observance of Christmas giving, none can be classed as more important than the habit of thrift promoted by the Christmas savings clubs fostered by banking institutions of the United States.

Hundreds of thousands of persons are now receiving their accumulated savings from these clubs to which they have been making weekly payments during the past twelve months. The installments were paid on many plans, ranging from a few cents to several dollars a week and resulting in the depositors having funds to provide gifts for their friends at a time when otherwise they might have been without finances.

By paying two cents the first week, four cents the second week and so on, the depositor collects twenty-five dollars and fifty cents at the end of fifty weeks with which to do his Christmas shopping.

Even the most poverty-stricken child can join a club on the "one-cent-a-week" basis, which operates on the same plan and brings a dividend of twelve dollars and seventy-five cents at the end of the year. The more ambitious persons who undertake the two-dollar plan get one hundred dollars, plus interest.

There is another plan that calls for a payment of five cents the first week, ten cents the second week, fifteen cents the third week, and so on, paying a lump sum of sixty-three dollars and seventy-five cents.

In Seminole county at one Sanford banking institution thirty savers on such a plan numbered more than five hundred, their deposits aggregating more than thirty-five thousand dollars. Business men, women, and children have made possible a more happy Christmas by this systematic plan of saving. It is estimated at this one institution alone more than one thousand people will cultivate the savings habit during the coming year.

Possibly the greatest benefit to individuals concerned as well as to the community, is creating the habit of thrift. By saving a small amount each week, the depositor gradually begins to realize the importance of putting away each day or week a small amount of his earnings.

It makes little difference what one earns if all is spent. The amount of the wage put aside in savings either through the Christmas savings idea or in savings banks or good investments, is what really counts and places the saver on the road to real prosperity and happiness.

It Is True

If homeless and neglected children are to become clean, useful citizens, someone must get behind them during their childhood. The job of making them good citizens cannot be left to chance.

When parents fail in their duty or death robs a child of the love and care it should have, someone must supply that care and love if the child is to be saved from delinquency or crime.

There is no greater service we can perform than to help our homeless and neglected children to become good citizens. It is certainly a far wiser and less expensive thing to do than to permit them to become ne'er-do-wells or criminals.

The good people of Florida are engaged in just such an undertaking in the Children's Home Society at Jacksonville where during the past twelve months more than twelve hundred homeless and friendless children were taken in, looked after and provided with good homes.

The above statement as issued by the Children's Home Society is sure to reach the hearts of everyone. Florida will not fail to support her "Greatest Charity."

Every reader of The Herald should feel it a privilege of adding a contribution for this good work during the coming year. If you cannot give money, send a box of useful articles. Address all contributions to Children's Home Society, 1904 Riverside Avenue, Jacksonville, Florida.

Something To Think About

The Fourth Estate truthfully says:
That the city that gets publicity gets the business.
That the city that gets the advertising grows?
That the advertising properly done is worth its weight in gold?

That advertising a city is business, not child's play?
That people will go miles to a good live city to trade?
That the property will increase in value when the outside world knows your city is awake?
That people from neighboring towns will come where there is something doing?

That now is the time your city and business need advertising more than ever before?
That if you don't get out and go after the outside trade, some neighboring city will?
That if they do, they will get the business you should get?

NOTHING IS MORE common than for great thieves to ride in triumph when small ones are punished. But let wickedness escape as it may at the law, it never fails of doing itself justice; for every guilty person is his own hangman.—Seneca.

My Favorite Stories

By Irvin S. Cobb

A friend of a friend of mine has always led a life of the most conventional sort imaginable, paying due regard to the proprieties and sometimes paying them more than their due. He began to flesh up perceptibly, and on the advice of his friend he signed for a course in a well patronized gymnasium.

The two finished their first afternoon in the main exercise hall and descended to the locker room in the basement, preparatory to taking a shower.

Through the locker room ran a passageway leading to the swimming pool and the sweat room.

The modest young man was encasing himself in a bathrobe, when a pink-colored form flitted by him. He caught only a glimpse of it, but a glimpse was enough. He turned to his friend and looked upon his face.

"Great heavens!" he exclaimed. "I thought for an instant I saw an absolutely nude man pass!"

What Florida Most Needs

Plant City Courier

What Florida most needs today, and always has needed most, is more bone and muscle effort.

Florida's clerical department is well attended to; it is in the mechanical department that more help is needed. The state has too many chairmen, secretaries, boards, brokers, agents, salaried men, promoters, hot air boosters and middle men of all kinds in proportion to the number engaged in actual production.

The man who gets out and does something with his hands is the man who is best serving Florida at this time, because every other vocation except that of the toiler is overcrowded.

A public spirited citizen who is eager to serve his state can do so in many ways. He can clear a field. He can fence it. He can build a house. He can plant a grove. He can plant and cultivate farm and garden products. He can produce something that

will add to his own wealth and that of Florida. He can develop some of the latent resources of the state. He can show the world that Florida is a good place in which to make a living, by making a living for himself—that is by really producing things of value.

This is not intended to minimize the services of the white-collar brigade. A certain amount of supervision, direction, agitation and instruction, temporal and spiritual, is absolutely necessary; but when the problem is clearing, settling and making productive a state which is yet ninety percent untouched by the plow, the man in overalls has the right of way.

We have heard for a long time what our state "could" or "can do," and "when." The subjunctive mode has occupied too prominent a place in the grammar of Florida. The best possible booster is the man with tools in his hands and the indicative mode, present tense, is his mind.

He Who Serves

He has not served who gathers gold,
Nor has he served who life is told
In selfish battles he has won,
Or deeds of skill that he has done;
But he has served who now and then
Has helped among his fellow men.
The world needs many men today;
Red-blooded men along life's way,
With cheerful smiles and helping hands
And with the faith that understands
The beauty of the simple deed,
Which serves another's hour of need.
Strong men to stand beside the weak,
Kind men to hear what others speak,
True men to keep our country's laws,
And guard its honors and its cause;
Men who will bravely play life's game
Nor ask rewards of gold or fame.
Teach me to do the best I can
To help and cheer our fellow man;
Teach me to lose my selfish need
And glory in the larger deed
Which smoothes the road and lights the day
For all who chance to come my way.

—Edgar A. Guest.

A Sorry Spectacle

Daytona Journal

Aubrey Lee Nickels, convicted, and guilty beyond a doubt, of one of the vilest and most revolting crimes in all Florida criminal history, is reveling in a wealth of newspaper publicity. Women carry him flowers and write him letters. He has his sweethearts and is a hero to them. Soft-headed men plead for mercy and freedom for this criminal.

A mockery is made of law and justice and every technicality of the law is used to defeat the ends of justice. Still we rail at our courts and officers because of the failure to enforce the

law and exact punishment. By his own utterances, by his record, by his actions Nickels is one of the most depraved of human beings—lacking in all decency and honor—a perfect example of the human degenerate.

If such a character can arouse sympathy, can enlist the support of the public against the courts and the law, it would seem that law has broken down—has been broken down by the very people who should uphold it—and that justice has become a mockery indeed.

The Sunshine State

By Moses Folsom

Florida is often well termed the "Sunshine State." The Daily Independent, published at St. Petersburg, makes no charge to subscribers for issues on days when the sun does not shine. Phil H. Armstrong, the sunshine philosopher of the Times-Union, Jacksonville, has this to say about Florida sunshine:

"With all this Florida sunshine jest a siffin' through your soul,
Don't it make you feel a longin' jest to grab a fishin' pole,
Fling your coat aside and wander Set your line out, then jest settle down to dream, dream, dream.
Oh, the Florida sunshine stoops to kiss the violets
Ah, a feller as he feels it jest forgets, forgets, forgets,
An, he kaint help feelin' happy, don't keer how hard he may try
When the green is in the foliage and the blue is in the sky.
Oh, this Florida sunshine it feels mighty good to me,
An, there aint no music grander than the mock bird singin' free,
An, there aint no perfume sweeter than the blossoms in the tree,
An, to live down here in Florida is the height of ecstasy."

Last Christmas under the initials of "P. W. B." in "A Line O' Type Two" department, the famous column in the Chicago Tribune, appeared the following under the heading of "Scenery in the Sunshine State."

"Go where you will in Florida there will rise before you a panorama of beauty. On all sides you will see the upthrusting of the Almighty, giant trees and flowery vistas, gemened with bright waters in ever living lakes, springs and streams, in a state bordered by more sea than any other in the Union. Look as you may, the scene is a picture of loveliness, set in galleries of most restful views of any to be found on all the planet."

In Florida, on Christmas Day, . . . The fluttered airs from heaven's height,
Blow warm. Upon your happy sight Dawns a new world, as when, men say,
DeLeon ardent fought his way Across long leagues of sea from white To Florida.

For us—for him—blue, blue the bay; For him—for us—the starry night,
Romance and tender deep delight,
Breathe in the air—and will for ays— In Florida."

There are four countries with possessions on which the sun is always shining. There are Great Britain, France, Holland, and the Spanish American War put the United States in that class. When the morning sun is rising over Porto Rico and sends the dawn to Florida, the twilight is settling down over the Philippines. In the Florida mid summer the dawn begins at 3 a. m., the sun rises at 4:20 and the twilight disappears about 8 p. m. making about 17 hours of light. The sunlight is warm during the middle of the day, but it is rarely sultry and never prostrates man or beast. Winds from the seas on each side moderate the heat of summer and the cold of winter.

Florida is an all-the-year-round state. Get that fact firmly fixed in your mind. Every season is of rare charm in our state, where folks can be out of doors and fill their lungs with good air to vitalize the blood, particularly at a time when the people of the northern states are forced to seek artificially heated quarters.

No other state has a longer sea coast, with equally fine beaches, bordered by salt waters in the depth of which are hundreds of varieties of fishes, and strange forms of life, affording unlimited sport, and chances to bathe and go sailing and boating when the north is covered with snow. Beautiful shells, too, can be picked up along the seashore. The Smithsonian Institute at Washington has hundreds of varieties of shells gathered in Florida. The sea, too, is a source of a large and growing industry in fishing for the finny tribes, and for oysters, clams, crabs, turtles, sponges, shrimp, etc.

The interior fresh water lakes and rivers also abound in fish life, and offer splendid opportunities to cast lines in quiet waters, and get satisfactory results at a time when the waters of the north are covered with thick ice. Winter is the main garden making time in Florida, and strawberries are ripe at Christmas time, truck is growing in the gardens and oranges are being gathered for market.

A great green book, whose pages are luminous with many tinted flowers garbed in green of every hue, lies open at the feet of the people of the United States. This volume lies ever open in Florida and is most accessible by train, boat or motor car from every part of the Republic.

Busy mart of trade, towns and cities with every comfort and convenience are in evidence, with green foliage around about grass beneath, leaves in all shades of green overhead, a pleasant sensation, not silence, but absence of discord and jarring sound, arching above is the blue sky, gemmed at night with starblazing in the immensity of space arched in the day streaks and patches of sunshine where the branches admit the rays, wide, cool shadows and clear, sweet air bearing the salt of the seas, the balsam of the pines, high in a magnolia tree, hidden from view a mocking bird sings—and it sings at night too—and from the distance the notes of the whippoorwill and other songsters of this southern land. The peace of green things—regardless of season, reigns supreme.

The meadows, lawn, field, grove, garden, woodland, the lake, the seashore, the river, the waste places by the roadside, each has its peculiar representative of vegetation—a living dictionary of wild flowers—and colors to delight the senses, and furnish nectar for bees. The common place sward, lofty trees, dense forests, tiny blooms, struggling for a place in the sun, so-called weeds, nature seems never at want for variety and color and change. Knows nothing of meager or nobler—all earth coverings are of equal rank in Nature's Book of Gold. Each has its measure of glory, each has its peculiar beauty, each its usefulness, if we but knew. Each is here in Florida for our study and benefit.

The war vets deserve a bonus. The taxpayers deserve a reduction. And the sun deserves a rest.

TOM SIMS SAYS

Man who can cut taxes and pay a bonus will be as famous as Babe Ruth.

Let every war vet chase a flag-waving politician three blocks. It is a swell bonus substitute.

Make it legal for all war vets to shoot craps with loaded dice and they will collect their bonus.

Let every war vet throw rocks at a war profiteer two hours. It would be better than a bonus.

Order the street cleaners to turn in all the dimes they find. This would cut taxes a little.

Put all ex-second looneys in uniform and invite war vets to cuss them. Call it a soldier bonus.

Give an ex-private a squad of ex-sergeants to drill and he would forget all about his bonus.

Every man knows how to reduce his own taxes. This is so simple. Put them on the other fellow.

Teach the cops to lay bricks. They could make millions in their spare months. Collect it for taxes.

If allowed to bootleg our navy could be self-supporting and pay off the national debt by Saturday.

GOSSIP

It is rumored that Sanford is to have another card club made up of the younger maids and matrons of the society set. The name is very appropriate for Florida and is said to be the Spanish for Thursday Card Club. The members of this club are Misses Lettie Caldwell, Kitty Smith, Ellen Mahoney, Margaret Foster, Lovie Turner, Mesdames R. E. Tolar, L. C. Moore and Morton Thigpen.

Quite on another order is the reorganized club of the Sanford Association of Business Women. This is made up of nine of the most representative business women in the city and membership is quite as exclusive as the Rotary. Every Thursday it is said that these women meet at the Lu-Beth Cafeteria for luncheon and a chin fest. Miss Mel Whitner has been chosen by them for their member on the Honorary City Planning Commission Board. The managers are and why they are as follows: President, Miss Elizabeth Mussen of Chase & Company; Miss Agnes Berner in charge of the Notes Department for the First National Bank; Miss Berner is secretary and treasurer. Mrs. Porter Wakefield, who is famous all over the United States for the Wakefield Preserving Products is another member; Mrs. June Boumillat, nurse; Mrs. E. M. Galloway Editor of the Florida Bulletin; Mrs. O. P. Herndon, Princess Theater; Mrs. R. C. Maxwell, assistant principal of the Sanford High School; Mrs. W. E. Watson, manager of the Welaka Apartments; Mrs. John Leonard, law clerk in the office of John Leonard, Miss Zachary, teacher of Domestic Science in the Sanford High School.

ST. AGNES GUILD MEETS.

The St. Agnes Guild of the Holy Cross Episcopal Church had a call meeting Monday afternoon at the home of Mrs. W. S. Leake on Sanford Heights. The president, Mrs. J. N. Robson, called the meeting to order. The first matter of importance was the discussion of the St. Agnes Guild room in the Fernald-Laughton Hospital. Mrs. Archie Betts and Mrs. Julius Takach reported that \$125 had been turned in to Mr. Lawton to furnish this room and that this was sufficient to furnish it completely. The room is to have over the door in gold letters the name of the St. Agnes Guild.

The Rev. Arthur Searing Peck gave the complete plans for the rebuilding of the church and parish house. The church is to be of Spanish mission with the mission towers and chimneys. A complete report was made from the bazaar.

After the business meeting a social hour was enjoyed, during this time the hostess served fruit salad, chocolate wafers and hot chocolate.

Those present were Mrs. A. R. Key, Mrs. J. N. Robson, Mrs. Archie Betts, Mrs. Sherman Lloyd, Mrs. Paul Biggers, Mrs. B. J. Coleman and Mrs. Colclough.

A CRADLE SONG

Sleep, mother's heart-strings, and rest;
Night time I love thee best.
Day with its care
Ours may share,
Evening brings birdlings to nest.

Sleep, sweet and deep without fear
Danger shall never draw near—
While mother sings
White angels' wings,
Are hovering over thee, dear.
—George Hoyt Smith.

BORN.

Mr. and Mrs. John Diehl are rejoicing over the arrival of a nine-pound boy born on Friday morning.

MRS. VAN DUZEE OF CAIRO HONORED.

The hospitable home of Mrs. W. C. Hill was never lovelier than Monday afternoon, when she entertained in honor of Mrs. John Van Duzee of Cairo, Georgia, the guest of Mrs. Walter Wight. The entire lower floor was thrown together in suite and decorated with the Christmas greens and intermingled with the evergreens were masses of the scarlet poinsettia. A miniature Christmas tree gay in tinsel and silver trimmings added further the Christmas note.

The guests, on entering were greeted by Mrs. Hill and introduced to the honoree. Miss Caroline Hill passed the basket containing the talley which were miniature Santa Clauses. Five tables of playlets enjoyed the charming hospitality of Mrs. Hill.

After counting the scores it was found that Miss Katherine Wilkie held high score; Mrs. Gonzalez won the cut prize and a dainty piece of silk lingerie was given to the honoree. Refreshments of creamed chicken, gelatine fruit salad, saltines, nuts and coffee were served.

MRS. NORRIS SAYS:

I know women who have lost their souls, women who have no longer discernment to see the eternal elements in the things of daily life, nor the desire to regain it.

I know women who live to dress and eat and travel and buy things. They watch each other jealously and resentfully, trying to eclipse and outdistance one another.

These women are not necessarily cruel, nor selfish with merely tangible things. They never give themselves. They are the most wretched persons in the world.

Hundreds of thousands of persons—men especially perhaps—seem to feel that by keeping half the law they are doing well. They live Christian lives. They abide by God's Word. But they do not believe in Him.

People freely admit that satisfaction and happiness come through the brotherhood of love that religion teaches. But there they stop. And just at the point they stop begins that strange death in life that means losing the soul.

Above all the world's greatest message is the giving of self, which is greater than pride or shyness or self-consciousness, poverty, homeliness or middle-age. I noted this thing about the most sensational of the modern evangelists. He was hoarse, weary, hungry, jostled, exhausted most of the time. But he was ecstatically happy, as men are after battles, as women are after childbirth, or whole communities are after earthquake, flood or fire.

NOTES FROM STATE COLLEGE

TALLAHASSEE, Florida State College for Women, December 18—(Special.)—A Florida State College girl has again been honored in the realm of Y. W. C. A. work. Miss Ethel Henry, of Sanford, has recently been requested by the Regional Committee of the Student Assembly of the Y. W. C. A. to serve on an educational committee of the Southern region. This committee's main work will be to study campus conditions and student thought and opinion. Upon the information gained by this committee will depend in a large way the general direction along which the work of the Y. W. C. A. for the coming year will lie.

The chairman of this committee is Miss Elizabeth Webb, a 1923 graduate of Brenau, with whom Miss Henry, as Undergraduate Representative of the local organization, was associated at the Blue Ridge Conference in June.

The work of the committee on our campus has already been begun in the group which Miss Henry organized in the World Fellowship department. Miss Clara Crone, is the chairman of the group.

Miss Lois McQueen, of Palatka, president of the local Y. W. C. A., has been appointed a member of the Summer Conference Committee. Personal.

Among the College girls spending the past week end in Madison were:

TEN GREAT WOMEN

The following have been named as the ten greatest business women in America, by Mrs. Elizabeth Sears, expert:

1. Mrs. Leno Lake Forrest, insurance, Detroit, Mich.
2. Miss Georgia Emery, insurance, Detroit, Mich.
3. Mrs. Ann Baker, railroad tie, Paducah, Ky.
4. Miss Mary Ryan, paint, Brooklyn, N. Y.
5. Mrs. Zella A. McBerty, welding, Warren, Ohio.
6. Mrs. Mary Stubbs Moore, chemicals, Indianapolis, Ind.
7. Mrs. N. B. Brainard, tug, boats, Jacksonville, Fla.
8. Miss Cecile Woodbury, iron foundry, Great Falls, Mont.
9. Mrs. Charles N. Gould, industrial geologist, Oklahoma City, Okla.
10. Miss Alice Engelhardt, shoes, Cincinnati, Ohio.

In the above list it is noted that Mrs. Sears mentions a Florida woman, Mrs. N. B. Brainard, of Jacksonville, as one of America's greatest business women.

Misses Katherine Broadbus, Carlotta Cuesta, Elizabeth Copp.
Miss Mary Weedon spent the week end in Monticello.
Going to Gainesville for a few days were Misses Mary Louise Dickenson, Jess DeHon, Margaret Layton, Mary Leah Hurt, Lillian Long, Bertha Harrington, Marie McKean.
Misses Anita Johnson and Isabelle Lowry have returned to their homes in Tampa for the holidays.
Miss Emily Lucas made a very delightful visit in Jacksonville.
Miss Edith McMakin has returned to her home in Orlando.
On account of illness, Miss Roberta Scott left early for her home in Ft. Meade.

In addition to the United States, Canada and finally are the only countries known in which it is believed helium might be obtained in commercial quantities.

Landis Threatened To Resign His Job At Magnate's Meet

Shoebill Moguls Say No, When Dictator Starts To Quit As Dictator.

CHICAGO, Dec. 18.—It developed Saturday that Judge Landis threw his resignation into the teeth, if any, of the assembled baseball magnates at their annual meeting here and informed them that the commissioner's chair was thereupon and thenceforth as vacant as a haunted house. Kind hands and willing, however, immediately escorted the worthy judge back upon the throne, rescued the monarchical crown from the corner where it had rolled, and the King again was himself, more a dictator than ever.

This was the same man that was to be called by his right name if he assented to speak out of turn at any time. He was to be uncrowned, unfrocked and disenfranchised from further connection with his great power. The judge lost no time in laying himself open for the business of the day.

"Gentlemen," he is alleged to have said, at the outset, "I have been given to understand that you are dissatisfied with my conduct of baseball. I, therefore, wish you to understand that the job is yours at any time. You may have it."

Business of eight National League club owners coming to their collective feet with the assurance that the Landis rule was all very merry so far as they were concerned. Representatives of the Chicago White Sox were equally hasty and solicitous on this score. The rest of the meeting was strangely silent. Seemingly it was still the judge's turn to speak. So he did.

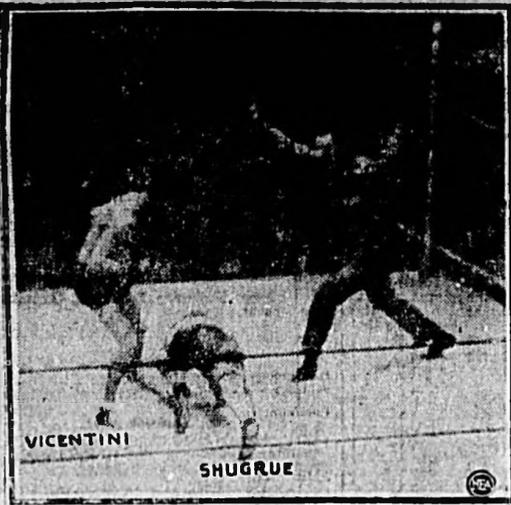

"Apparently," he said, "I am still commissioner of the National League and the Chicago White Sox, and speaking for them, I will say that I am ready to go to the mat with anyone on any issue that strikes their fancy."

Colonel Jacob Ruppert, president of the Yankees, who was supposed to have some anti-Landis sentiment under his collar button, then is alleged to have swallowed convulsively and allowed as how he thought the judge was quite a natty individual all told.

It was then that Landis turned upon the silent, but unrelenting Ban Johnson and called him right down off the galloways to such effect that Ban, preserving his dignified silence to the end, walked from the room and did not return. It was the worst beating Johnson has sustained since he came into prominence more than 20 years ago. It also probably was his last attempt to take issue with Landis for the supreme control of baseball.

It was said after the meeting that Johnson's silence was prompted by the fact that he realized his banner had been deserted by men who were supposed to have been his staunchest followers and that he did not care to make a pretense of fighting Landis with none to back him up. The meetings were dying out slowly and naturally today. The draft was restored to two more leagues—the American Association and the Pacific Coast League.

HE SLIPPED!

Johnny Shugrue of Connecticut won the decision over Luis Vicentini of Chile at Madison Square Garden. Photo shows the winner on the canvas. He swung so hard in the second round he fell down! Vicentini came to this country highly touted.

STRIBLING OFF TO TENNESSEE

MACON, Ga., Dec. 18.—"Young" Stribling left here Saturday morning for Johnson City, Tenn., where he will appear before the disabled soldiers in a six-round exhibition bout Monday night. This is the first of a series of four fights that have been arranged for the local boy.

From Johnson City, Stribling will go to Knoxville where he will meet Bill McGowan Tuesday night. Harry Krohn, Ohio scrapper, will be the next opponent and the fight will be staged in Miami, Fla., December 21. Stribling will spend three days in Macon during Christmas, but will leave here December 29 for Summit, N. J., where he is to prepare for the mill with Dave Rosenberg in Newark January 1.

SAN FRANCISCO, Dec. 17.—Locomotive, while not subject to gland transplanting, can be rejuvenated, according to an announcement by the Southern Pacific Company. The railroad is authority for the statement that weak and decrepit locomotives can be vitalized, energized and otherwise made over into hard-working haulers of trains.

"Some of these engines are being operated with greater efficiency than when they were new," said George McCormick, superintendent of motive power for the railroad.

Various new appliances and parts are "grafted" on the old engines. They are overhauled from tender to cowcatcher.

No. 3025 is the oldest engine of its type on the S. P. line. Recently it was refitted, and now it is carrying the Daylight Limited daily the entire distance between San Francisco and Los Angeles, 471 miles.

STRIBLING-KOHN BOUT

MIAMI, Dec. 18.—Young Stribling, Macon high school boy, and Harry Krohn have been matched for a bout here on Friday night, December 21. Jack Middleton was at first pitted against Krohn but his name was dropped when financial differences developed. Krohn has a record of 24 knock-out victories in 85 bouts, including one against Mike McTigue from whom he captured the Canadian middleweight title.

Give One For Christmas

The Tudor Sedan is a gift every member of the family will share. It adds to daily happiness. It will extend the joyous spirit of Christmas to every day of the year.

This new Ford type is of an exceptionally pleasing design. Wide doors opening forward, folding right front seat, and a roomy interior make it a convenient car to use; its high radiator, broad cowl, sun visor, and large windows make it stylish in appearance. Yet it is sold at the lowest price ever asked for a Sedan—only \$590 l.o.b. Detroit.

A Far-Sighted Banker's Idea of Advertising

By Festus J. Wade President, Mercantile Trust Company of St. Louis

Do I believe that a banker considers reputation, as developed by advertising in extending credit? There probably are bankers who will give a negative answer to this question and believe they are giving the right answer. But let those bankers be approached by a credit-seeking national advertiser, who has established his name, therefore a market for his goods, and see what happens. In nine cases out of ten the fact that those goods have become a household "buyword" will be the greatest factor in granting the credit.

The banker himself will have become subconsciously sold on the firm, through its consistent advertising. He will say, "Oh, yes, that's a big house—well known good reputation," etc., not realizing that it was advertising that did the work. The next minute he may be approached by a new company, trying to make its name, and turn down the loan because too much of it is to be spent for the purpose of advertising. In the first application he has helped the big advertiser to cash in on his reputation, and in the second was depriving the newcomer of the right to build a reputation. This is only a hypothetical case, and I am glad to say I don't believe it happens as often as it did in the past. Just as we learn something new every day, so every day another banker wakes up to the underlying power and pull of advertising.

WAR CLAIMED FOR CHILD SUICIDES.
LINZ, Austria, Dec. 17.—Child suicide, which has been common in central Europe since the war, had a tragic illustration here recently. A boy 17 years old hanged himself, and the next day at the same spot his 14-year-old brother took his life in the same manner. The younger boy left a note saying he could not live without his playmate.

This self-destruction among children is ascribed to neurotic precocity resulting from conditions under which they passed infancy in war times.

Rail Employees Get More Than Government Pays Its Workers, It Is Said

ATLANTA, Ga., Dec. 17.—The average wages of railway employees are higher than the average of those paid to government employees, according to figures made public here. A study of the number and wages of all government employees in the United States—local, state and federal—recently made, shows that the average wage of government employees at the present time is \$1,296 a year, while the average wage of railroad employees is \$1,643 a year, or about 27 per cent more than that of government employees.

Records, made public here, show that railroad employees have been paid higher wages in every year since the railroads were returned to private operation than they were under government operation.

In 1918 the average railroad wage was \$1,419, and in 1919, \$1,485. These were the two years throughout which the railroads were operated by the government. In 1920 the average wage of railroad employees was \$1,820; in 1921, \$1,665, and in 1922, \$1,650.

ST. AUGUSTINE, Dec. 18.—The city commissioners have adopted a report of City Manager Eugene Masters that contemplates a survey with the view of supplying St. Augustine with a supply of soft water. Masters has been instructed to invite Joseph E. Crpig, consulting engineer of Jacksonville to a conference to discuss his proposal to make the survey.

Ford Puts Out 49 Per Cent of All Motor Cars

DETROIT, Mich., Dec. 18.—Approximately 49 per cent of the passenger cars and trucks produced in the United States during the first 10 months of 1923 were Fords.

This is shown by a comparison of the automobile production figures given out by the United States Department of Commerce and those of the Ford Motor Company here.

The department's figures on cars and trucks, the latter including fire apparatus and street sweepers, shows a total of 3,396,628 for the first 10 months.

Ford production figures for the same period, which include as those of other companies, cars and trucks made here for assembly in foreign countries, totals 1,639,374. This total, however, does not include the production of the plant at Manchester, England, which manufactures practically all of its parts and which produced 27,006 cars and trucks during the first 10 months, nor does it include the 10-month output of 69,452 cars and trucks by the Ford Motor Company of Canada, Ltd.

A comparison of the truck production figures shows that 62 per cent were Fords. The total number of
