Mansfield And Scott's Peking Trip

It didn't take long for the domestic impact of Nixon China visit "which changed the world" to become visible. At least insofar as the White House-Senate relationship is concerned.

The respected and responsible Senator Mike Monsfield (D) Montana, majority leader and Senator Hugh Scott (R) Pennsylvania minority leader have been invited and will go to Peking.

Each has personal as well as professional qualifications which should do much to broaden the base of their understanding of what really went on in the talks between Mao, Chou and

In itself this is a major olive branch being extended to powerful Congressional leaders by the Administration. It might well be the start of honest talks and communications which could do as much to bridge the gap between these two arms of government as did the Peking adventure to bridge the too-long closed United States-China

It is also very much in harmony with the new Nixon tactic of guick moves which confuse and sometimes leaves the most alert critics flat on

One of the dislocations which has been long in building and severe in its most recent manifestation is that which the administration is suffering within itself.

That is if the Nixon leadership will include the State Department in its own definition of the key agencies which it considers of more than technical and operational use.

Secretary of State William Rogers is a gentleman and lawyer of such high character that what is considered by many observers to be the continual down-grading of the Secretary of State and the up-grading of a brilliant foreign affairs expert-Dr. Henry Kissinger-has taken place with no palace revolt.

Lear Beat The Censor With "AITF"

Copley News Service

HOLLYWOOD - He's a thin, wiry, white-haired man with an imposing Col. Blimp moustache and a deceptively mild demeanor and he helped institute a tremor in television with many a resultant shock wave. He is Norman Lear, a producer-writer, creator of "All in the Family," on which he still holds a firm rein

Not long ago, Lear testified on censorship before the Senate subcommittee on Constitutional Rights. He was there, in Washington, as a curious exception to his fellow writers, one whose show hasn't been fettered by censorship, but Lear is nonetheless outspoken against any form of blue-penciling

I sat in Lear's office at CBS as he discussed the issue. "The writers who were going to testify asked me to take a stand and for a good reason," said Lear. "They knew that if they complained about TV censorship, somebody on the subcommittee was sure to say, 'But what about "All in the So, I went, not because I'm censored, but because I know

what my fellow writers go through, the restrictions they face

and the frustrations. And it all stems from television's thinktank mentality. I kept fighting that mentality in all the five years it took for me to get to get 'All in the Family' on the air. "And then," says Lear, "when we finally made it, CBS hired extra switchboard operators across the country. They expected an avalanche of protesting phone calls after the first episode. The avalanche never came. No states seceded from the Union. No affiliate stations jumped off the network line. The phones did ring but the calls were largely

Subsequently of course, "All in the Family" turned into a runaway hit, a blockbuster, a national mania and a solid example of comedy with quality.

"It has something to do with truth," said Lear, "with the fact that interesting themes can be expressed in comedy terms. And if TV would let other producers go with their instincts as to what the American public wants, there'd be a "Plus some failures," Lear added. "There'll always be

Congressman's Cushy Retirement

By EDWARD NEILAN Copley News Service

WASHINGTON - William Springer is 63 years old and is planning to retire

Annual retirement income, under his pension plan, will be \$22,600. That's a pretty handsome figure what's his occupation? Springer is a congressman, a Repub-

lican from Illinois. Congressmen have been quite futureminded in enacting legislation to take care of their own pay packages. Retirement benefits are so attractive, in fact, that several congressmen have decided to take an early place in the rocking chair rather than face the uncertainties of reelection.

ressure to make it easier for a

legislator to retire gracefully. The handsome retirement package allows a man to bow out comfortably rather than face the chance of defeat at

"Who knows what could happen in some districts where a flood of 18-yearolds are new voters?" said one Capitol Afill administrative assistant.

Although Springer's district is a Republican one and was not altered much by redistricting, it includes a powerful unknown factor: the 25,900 students at the University of Illinois in his home town of Champaign-Urbana

In its place, he will create if he can a world of six major independent competing blocs, each one bringing pressure on the others. Mr. Nixon has been convinced by Henry Kissinger that a two-power world is inherently unstable. Every issue between the two superpowers comes to involve life and death. Any relative weakening of one side is tantamount to an absolute strengthening of the other. Effective negotiation becomes almost impossible.

Small nations play off the two powers against each other, knowing that neither can afford a military showdown. A horde of tiny countries are thus free for military adventuring and other mischief which can, in the end, lead to Soviet-U.S. confrontations.

Sought by Nixon

Mr. Nixon and Kissinger believe that six-power blocs, by providing a sort of diffused balance of power, though they would not guarantee peace, hopefully will make possible a tolerable armistice that could last perhaps for

The new six-bloc world then would include a West European power bloc, the People's Republic of China, a strengthened Japan and hopefully an independent India. make this an impracticality.)

This is why Mr. Nixon would go to some lengths to strengthen Communist China's position, even at some political risk at home and to our relations with Japan. For the same reason, Mr. Nixon would like to shake Tokyo out of its inward-looking stance and convince the Japanese they must take a much more vigorous role in Pacific and world affairs.

Kissinger firmly believes, and he has convinced Mr. Nixon, that this multipower world, if it can be created. would add to the security of the United States. Certainly it would mean Washington would not of necessity be at the center of every quarrel with Russia.

Kissinger is also convinced the United States does worst in world affairs in two-nation dialogues, and that we are at our best when we operate as part of a group in which there is a great deal of give and take. The six-bloc world would thus take from U.S. shoulders a considerable amount of the day-to-day burden of stand-

Lolas At Sebring

If the English Lolas are to make their big splash in the 1972 World Championship of Makes series, it's a good bet that it may happen at the 12 Hours of Sebring on March 25, and that young Swedish driver Reine Wisell will have a lot to do

Wisell is a 30-year-old rocketing star in international racing, born in Motala, Sweden, honed on ice racing and already capturing championship points in the elite Formula One driver's championship. A protege of former Grand Prix driver Jo Bonnier, Wisell first came to the attention of American racing fans at the 1969 L&M Grand Prix at Sebring, where he won the Formula B race. Since then, he has earned points in the South African, Austrian, French and Canadian Grands Prix, as well as showing who knows the way with Lola in this season's manufacturers series.

At the opener in Argentina, Reine set the outright fastest lap during the race, and at Daytona last month, hounded the leaders with what was obviously the fastest car on the track, but suffered ignoble ignition problems which dropped han from contention and the race. Reine and Lola may get what

they want at Sebring. A two-car team of the sleek three-liter prototype sportscars have been entered in the 22nd annual 12 Hours of Sebring by the Ecurie Bonnier team, for Bonnier and Wisell, and Gerard Larrousse and Chris Craft, Larrousse is the 1971 Sebring co-winner, while Craft will make his Sebring debut in

The very light Lola, tipping the scales at a mere ten pounds over the class weight limit, is powered by a Cosworth-Ford formula one engine, producing 460 horsepower at 10,800 revolutions per minute. Compared to Ferrari and Alfa Romeo, its both the most powerful and lightest of the lot. With Sebring's stress on acceleration and braking, the Lola appears to be in good stead for the race, and with drivers such as Wisell, Larrousse, Craft and old master Bonnier, the team of yellow cars seem very strong indeed to take the

overall win at Sebring. The action at Sebring gets underway with practice and qualifying sessions on Thursday, March 23, followed by the Inver House Sebring Challenge for Formula Super Vess at 1 p.m., Friday, March 24. The big one begins at 11 a.m.,

in 125 runs, is vital to offense while Alley, despite 227 average, is steadying influence in infield. Even if they recover slowly, manager Bill Virdon, who inherited team when Danny Murtaugh bowed out

PITCHING-World Series here Steve Blass (15-8), talkative Dock Ellis (19.9), Bob Johnson (9.10) and Luke Walker (10.8) give Virdon proven starting rotation while Nelson Briles (8.4) and Bob Manse (11-7) are talented spot starters middle relievers. Dave Giusti (5-6) had league-leading 30 saves, could get left-handed bullpen help from Ramon Hernandez, who looked good in late season stint with Bucs. Veteran Bob Miller (8-5) and young Bruce Kison (6-5) round

INFIELD-First baseman Bob Robertson (.271 with 26 homers) could have a big year, which is all the rest of the league needs. At secand Virdon has Dave Cash (289), Rennie Stennett (353 in 50 games) and what's left of Bill Mazeroski (254). Jackie Hernandez (.206) is Alley's backup at short, Pirates' only real weak spot, while Richie Hebner (271 with 17 homers) is versatile at third. OUTFIELD-Roberto Clemente, oches and pains and all, still hit .341, drave in 86 runs last season at age 37. Al Oliver (.282 with 64 RBIs) returns in center and as reserve first baseman. Reserves are

CATCHER-Manny Sanguillen (.319, 81 RBIs) was voted best catcher in majors by players last year but he may see action in outfield if Stargell has trouble or Virdon wants to give 21-year-old Milt May (.278 as rookie) playing time behind plate.

Predicted Finish: First in East.

ST. LOUIS CARDINALS

National League East PROSPECTUS: The Cordinals, who led league in hitting but had erratic pitching, may have mode enough subtle but shrewd deals to make up the seven games that separated them from Pittsburgh in 1971. The St. Louis infield, however, s still suspect, the outfield locks depth and Red Schoen dienst is counting on an auful

pitching staff. So Joe Torrewho led the majors in hitting

last season—Lou Brock, Matty Alou and fast-improving Ted Simmor will all have to equal their 1971 performances and all the other "ifs' will have to come through for Cords to win it. Not likely,

PITCHING-Rick Wise, who was 17-14 with Philadelphia, joins staff with second worst ERA in league. The aging Bob Gibson had a relatively poor season, 16-13, despite a 3.04 ERA and will have to prove can rebound. Youngsters Reggie Cleveland (12-12) and Jerry Reuss (14-14), meanwhile, were exactly so-so. So Schoendienst added Joe Grzenda (5-2, 1.93 ERA with Washington) and Jim Maloney (0-3 with Colifornia), who will join such other veterons as Moe Drabowsky, Dennis Higgins, Frank Linzy, Al Santorini, Don Show and Stan Williams in well-aged bullpen. Rookies Jockie Stripling, Jim Bibby may break up old folks act.

INFIELD-Torre (.363 with 24 homers, 137 RBIs) was MVP, does solid job at third. Alou (.315) is still a pesky hitter, adequate fielder at first. But Julian Javier (.259) has seen better days and Ted Sizemore (264) was a disappointment at second, and shortstop candidates-Dal Maxvill, Milt Ramirez and Marty Martinez-are all wishy-washy at plate. Streaky Donn Clendenon comes from Mets. OUTFIELD-Low Brock, hit .313, stole 64 boses, scored 126 runs. After him, though, there are only Jose Cruz (274 in 83 games with Cards), Joe Hague (226), Art Shamsky (.185 with Mets) and a lot of unproven prospects, headed by Luis Melendez (.225), Jorge Roque (287 at Arkansas) and Cirilo Cruz (303 at St. Petersburg). Bob Burdo (.296) is O.K. pinch-hitter.

CATCHER-Ted Simmons (.304, 77 RBIs) is improving defensively and is already one of league's best at plate. Veteron Jerry McNert. ney (289) is excellent reserve. Predicted Finish: Second in East.

CHICAGO CUBS National League East

Glenn Beckert ers, Jose Cardenal and Rick

Monday, he has yet to solve his biggest problems, relief pitching, catching and a surplus of dissension. Bright spots are rookie pitcher Burt Hooton, the still superb infield, Billy Williams and the fact that most Cubs fans still remember the Eddie Miksis-Harry Chiti-Roy Smalley days and tend to be thankful for small favors. With Ernie Banks still hanging around waiting for a World Series to play in, emotion is on the Cubs' side. But the odds aren't.

PITCHING-The pitching subsidiary of Ferguson Jenkins Enterprises Ltd., has won 20 games five years in a row, earned Cy Young Award in 1971. He is relentless and reliable. Milt Pappas won 17 last year, the best of his zoreer, and Bill Hands is better than his 12-18 recard of 1971. With errotic, malcontented Ken Holtzman gone, Hooton -who throws baseball's only knuckle-curve ball-could be a starter in second pro season. Bullpen was nearly useless last year. INFIELD-Ron Santo, Don Kessinger, Glenn Beckert (league's third

best hitter at 342) and Joe Pepitone, third to tirst, is as good as any infield in baseball. Paul Poporich is capable backup. Banks is a coach but will probably be saying. "Ernie's not through in '72." OUTFIELD-Billy Williams is still good for 25 homers, 95 RBIs. Speedy Monday, from A's, and Jose Cardenal, from Milwauter will battle for centerfield spot with loser competing for rightfield job with sturdy Jim Hickman, who hit 19 homers despite injuries.

CATCHING-A cotcher with one bad knee is in trouble. A cotcher with two bad knees should start looking for other employment Randy Hundley, once an iron man, has two bad knees. Should invitations

include children?

DEAR ABBY: When people make expensive weddings or Bar Mitzvahs, I can understand why they might not want small children. But when they invite friends who have children in their late teens [or even older], living at home, I think it's an insult to the parents and their children to

I am a widow with a 20-year-old daughter and a 21year-old son at home, and I will never again accept an invitation which does not include them. Why should I have to come alone? Do you agree with me? BURNED UP IN BROOKLYN

DEAR BURNED: No. When one invites a single adult [widow, widower, divorcee, etc.] to a large affair, a thoughtful gesture would be to indicate that an escort [or partner] would be welcome. If the partner happens to be an adult offspring, fine. But grown children shouldn't be automatically invited just because they are still living at home. If they are wanted, they should receive separate invitations, but they shouldn't be "shleppalongs."

DEAR ABBY: My boy friend has dark wavy hair which he wears down to his shoulders. He's rather slight and has delicate features, so it's not surprising that he gets mistaken for a girl a lot. He doesn't like to be mistaken for a girl, so I suggested he cut his hair a little, but he doesn't want to. Anything else he can do? DANNY'S GIRL

DEAR GIRL: He could grow a mustache

DEAR ABBY: We have friends who have an only child, eight years old. He was born long after the parents had given up all hope of ever having a child. [I mention this only so you will know why they dote on him.] This boy has never known discipline, so he is spoiled rotten. He is exceptionally bright, so his parents hang on his every word and permit him to dominate every adult conversation.

Worse yet, this child is never left home! Even on New Year's Eve his parents dragged him to an adult party! This kid was allowed to stay up until the party ended at 2:30

Our problem: A club to which we belong is planning a charter flight to Europe this summer, and these friends have signed up WITH the boy included. This is not a family type trip, Abby. Nobody else is taking a child. We all agree that this kid is a pain in the neck. But who should tell the ANONYMOUS PLEASE

DEAR ANONYMOUS: Why should anyone "tell" them? Now that it's become obvious that "the kid" goes everywhere with Mamma and Papa, those of you who do not care for the arrangement should absent yourselves from their

VIRGO (Aug. 22 to Sept. 22) Keep busy making your environs more charming in the morning Later listen to what an expert has to say about improving your monetary standing. Combine this with your own ideas.

LIBRA (Sept. 23 to Oct. 22) That quality of magnetism you possess today should not be spent in wrong directions, but be put to constructive use now. Attend some parties where you are welcome and can please others.

SCORPIO (Oct. 23 to Nov. 21) Don't put a special plan in operation until tomorrow, but make preparations now. Show more patience with one who is vital to your welfare. Losing your temper could bring dire results. SAGITTARIUS (Nov. 22 to Dec. 21) You can rely on a

good friend to come to your aid during a period of possible trouble. Going to the social is fine provided you are not blunt, or imbibe too freely CAPRICORN (Dec. 22 to Jan. 20) Use diplomacy with a bigwig if you really want to make a good impression on this

person. If you observe every law that applies to you, you will avoid trouble. Be civic-minded

AQUARIUS (Jan. 21 to Feb. 19) You have fine ideas that need rechecking with experts for minor flaws Plan that important trip now, and get all the data you need. Your plan for expansion is good

PISCES (Feb. 20 to Mar. 20) You must listen with care to what experts say if you want to gain their respect and make good in your project. Being more broadminded with mate is wise. Try to be understanding.

IF YOUR CHILD IS BORN TODAY ... he or she will be one of those charming young people who has a fiery temper that must be controlled early in life, otherwise the fine promise here could definitely be lessened. Your progeny could be most successful as an expediter, or one who can get at the cause of failing projects.

POLLY'S POINTERS

It's Tricky Business To Clean Upholstery

By POLLY CRAMER

DEAR POLLY-I want to tell Mary N., who wants to remove a stain from her brocade chair, that the following has proved very successful for me: Buy powdered whiting (powdered white chalk) at the paint store and mix with a dry-cleaning solution or spot remover to make a thin paste. Apply to the spot and cover with thin plastic to retard the drying. Leave several hours. When paste is dry, vacuum or brush off. Reapply if necessary. have used this to draw stains out of wallpaper, soft leather shoes or garments, upholstery and even carpet that does not have too deep a pile. When used on wallpaper I lightly tape plastic over the mixture so it will not fall off the wall.-MRS. R. J. W.

DEAR GIRLS-Cleaning a spot off a chair is 'ricky business and there is no way to put anything under the fabric to absorb the excess moisture. Do first test for any effect of anything on a fabric. Sometimes removing a stain or spot from an upholstered piece leaves it looking worse than before as the place where it was removed stands out from the remainder of the fabric which btless has some over-all soil. Often the entire chal has to be cleaned. If such a piece is even reasonably new and expensive, do try to have this done professionally if at all possible. You may remove the spot just to tell all the world that is just what you have done .- POLLY

management and Polly's Problem assessment and property DEAR POLLY-I am an elderly widow with a problem. My next door neighbors have huge shade trees and every year the leaves land on my lot and tons and tons of them are all around the house. For years I raked and burned them but now with the pollution problem I am at a loss about what to do. I do not have the kind of money required for buying trash bers and then hiring someone to haul them away. Any suggestions?-ROSIE

DEAR POLLY-My Pet Peeve is with the covers that are sold for blenders. They are only large enough to cover the glass container and I think they look silly and impractical. Why not make them large enough to cover the push buttons as that is where the dust collects most readily? I think the blender would look better, too .-

Everyone has a distinctive walk that makes him easily recognizable to his friends. Certain characteristics are

due at least in part to body structure, but pace, length of stride and posture seem to change with the emotions. If a child is happy, he moves more quickly and is

very light on his feet. If not, his shoulders droop and he walks as though his shoes were lead. Generally, adults who walk rapidly and swing their arms

freely tend to be goal-oriented and readily pursue their objectives, while the person who habitually walks with his hands in his pockets, even in warm weather, tends to be critical and secretive. Japanese undersea city eyed

TOKYO - Various countries are now seriously considering ways for utilization of underground and undersea space to cope with the increase in population and vehicles. Japan is no exception.

In fact, an ambitious project to build the world's first "underground city" is now in progress. That is, an underground railway station is being built below the present site of the Japanese National Railways' Tokyo Station in the heart of the metropolis.

When completed in 1974, the five-story underground station will become the terminals for the Yokosuka Line, Sobu Line

and subvays. During rush hours in the morning and evening, some 50,000 persons are expected to utilize the station. The underground station will be further enlarged in the future to accommodate the present platforms of the new Tokaido

Deltona Up In Profits

MIAMI - The Deltona Corporation reported record revenues for the ninth consecutive year, and said that net income in 1971 exceeded that of the preceding year. For the final three months of 1971, Frank E. Mackle Jr. president of the Florida community development firm, told shareholders, both revenues and profits "reached new all-

The

time highs for the fourth quarter." Total revenues for the 12 months ended Dec. 31, 1971, amounted to \$116,979,000, a gain of 9.5 per cent from \$106,800,000 reported in 1970.

Net income came to \$7,267,000 in 1971, up from \$7,158,000 the year before. Per share earnings were \$2.04 in 1971 with 3,553,932 average outstanding common and common equivalent shares, against \$2.06 in 1970 with 3,481,096 shares.

Fla. Gas Earnings Up

WINTER PARK - Florida Gas Company reported that earnings and operating revenues for the year ended Dec. 31,

Consolidated earnings applicable to common stock for the 12 months ending Dec. 31, 1971 were \$12,610,000 or \$2.02 per share before giving effect to a special charge of \$780,000, which reduced earnings to \$11,830,000 or \$1.89 per share. The special charge resulted from the write-down of certain assets related to the Company's modular home subsidiary. Without the special charge, earnings per share increased 15 per cent compared with 1970 earnings of \$9,749,000 or \$1.76 per share

Barnum City Planned

ORLANDO - Officials of First Continental Developmen Corporation said here that its master plan for Summit Point, a new real estate development on Interstate 4 at Highway 27, southwest of Orlando, already has been modified to encompass the giant Ringling Bros.-Barnum and Bailey entertainment complex announced here last week.

First Continental was the master planner and evelopment manager of the 600-acre property acquired by Ringling for the site of Barnum City. The firm hosted a reception of prominent area business and civic leaders in honor of Ringling officials following the announcement.

Mail Speed Plan Comes To Sanford

Saturday is the date for Sanford to begin the newly instituted area mail processing system, Postmaster Cecile Heard announced today. Under the new process, first class mail originating in Sanford will be sent to the Orlando sectional center facility post office, where it will be postmarked and then sorted by one of the U.S. Postal Service lates innovations- a high speed machine capable of sorting 34,000 letters per hour.

Dr. Smith said he had not been contacted by

the County Commission or hospital trustees about the reported interest of the County Commission to sell the county-owned medical facility. "Only knowledge I have of the matter is when it was brought up at a trustee meeting that the county had feelers from someone wanting to buy the hospital," Dr. Smith added.

Judge Favors Pets Over Kids

TAMARAC, Fla. (AP) - A judge says Mr. and Mrs. James Wolfe can keep their dog and cut in a rented home, but their children have to be out by April 8. Circuit Judge Louis Weissing made the ruling Thursday when he granted an injunction forbidding the Wolfes to keep

sons Lance, 7, and Lincoln, 8, in an "adults only" section of this development near Fort Lauderdale. "We were going to move out in June, because the house has been sold, but we had hardly begun looking for another place. We'll move by April 8, built don't know where we'll go," Mrs.

The \$40,000, two-bedroom home was rented last June to a bachelor who shared it with 29-year-old James Wolfe, then separated from his wife.

The lease was reassigned to Wolfe, and in July he was reqnited with his wife and the two boys. However, deed restrictions in the area forbid residence by anyone under 16 years of age.

Confused about the price of a new Volkswagen?

But don't be confused about such a little thing our price. It's \$1999. Not more, not less. Just \$1999. Now that you know how much a 1972 VW costs,
