

### Men Tell Reaction To A-Bombing

Editor's note: When the atomic age first spread its mushroom cloud of death over a city, it changed for all time traditional concepts of war. Here, nine years later, it was the 12 men who carried the first bomb think of the part they played in history.

The superfortress, carrying dozens of men and a bomb winged across the Pacific toward the islands of Japan.

"It was a very beautiful night," one of the 12 recalls today.

But with the dawn came a new era in the history of mankind. At 9:15 a. m. on Aug. 6, 1945, was dropped on the industrial city of Hiroshima the first atomic bomb in history.

As the men flew back to their base on Tinian Island in the Marianas, they left behind 212,000 persons killed or fatally wounded. Some 50,000 more were crippled and burned. The dead and maimed totaled more than a third of Hiroshima's population.

Five days later a second A-bomb even more powerful than the first exploded over Nagasaki killing 70,000 more. Three days later on Aug. 14, 1945, the Japanese empire surrendered—blasted to its knees by two bombs that now are hailed by nuclear weapons of vastly more destructive power.

"I was given a job and I'm happy it was completed successfully," says Col. Paul Tibbets Jr., then a lieutenant colonel and the pilot of the Enola Gay. "I felt strictly impersonal about it then I still do."

The 30-year-old career officer, one of the three original crew members still in the Air Force—says he is convinced the Hiroshima bomb saved many lives, Japanese as well as American, by averting the expected defense of the island empire at every rice paddy and pagoda.

The same crew member is shared by the other crew men.

Lt. Col. (then major) Thomas W. Ferber, the bombardier, Capt. Robert A. Lewis, captain, Capt. (later major) Lewis, Capt. Van Kirk, navigator, M. Sgt. Wyatt E. Dusenbury, flight engineer, Sgt. Robert H. Shumard, assistant flight engineer, Sgt. Joe Robert Carron, ball turret operator, and A. Steinhilber, radar operator, and

their faith in our Holy Father." Lewis is now a resident of Maywood, N. J., and personnel manager of the Henry Heide Corp., a New York candy manufacturer.

Set Dusenbury, now 41, who was flight engineer, says: "Personally, I feel that if we hadn't dropped that bomb, and the other crew hadn't dropped its bomb on Nagasaki, it could have cost thousands of U. S. soldiers' lives establishing a beachhead for the invasion of Japan.

"I have no personal compunction about it, even though it killed a lot of civilians. I would do the same thing again. They would have done the same thing to us. If they had the A-bomb first they wouldn't have waited any time dropping it on Los Angeles or New York."

Dusenbury is non-commissioned officer in charge of the flight section of the 390th Air Refueling Squadron at MacDill Air Force Base in Tampa, Fla. He calls himself "Steinhilber, his permanent home."

Carron, now 34, and a designer in the engineering department of the Boeing Aircraft Co. plant in Wichita, Kan., had a rifle and a view of the blast as tall gunner.

He says there first was a flash as the bomb exploded, then a tremendous buildup of light. He saw the shock waves speeding toward the plane, then watched in awe as the cloud began mushrooming over Hiroshima.

"I'm not sure whether I said it out loud, but I remember thinking: 'These poor devils down there. We must have killed them all.'"

Steinhilber, a 39-year-old native of Taylor, Tex., now works for the Texas Power and Light Co. at Rockledge.

"The bombing is something more to think about than to celebrate," he says.

Radar operator Steinhilber comments now:

"I remember when we found out our job was finished, it did make you feel kind of bad. If they had all been soldiers, I guess it wouldn't have made any difference, because war is war. But there were women and babies—just plain folks."

### POLIO VICTIMS NEED HELP NOW!

give **EMERGENCY**

### MARCH OF DIMES

AUGUST 16 TO 31

Prince Charming sent his couriers around to fit a slipper to a Cinderella. Today's woman is a little different. After locating his long-lost "Baby Doe" in Atlanta, Penn., Rex Motor is trying to find a driver to fit the car, built in 1936 by the founder of Rex, Ramon E. Oida. Dimensions: Wall, the driver's seat is only nine inches wide... And there is only 12 inches clearance between the edge of the front seat and the wheel!

After the pretty mechanic gets through putting the car into running condition, Rex plans to take the car and a driver—if one can be located—on a tour of the country to celebrate its 50th Anniversary.

### News Of Men In Service

**IX CORPS, Korea—**Second Lt. Lewis F. Richter Jr., 24, son of Mr. and Mrs. H. F. Richter, W. First St., recently helped the 86th Field Artillery Searchlight Battery celebrate the 179th anniversary of the Army Artillery Corps in Korea.

Lt. Richter is a platoon leader in the battalion which is training with other IX Corps units north of the 38th parallel.

Lt. Richter has served three years in the Army and holds the Korean and US Service Ribbons.

**FORT SAM HUSTON, Texas—**Second Lt. William F. Meriwether, son of Mr. and Mrs. F. T. Meriwether, Sanford, and husband of Mrs. Peggy H. Meriwether, Atlanta, Ga., and 1st Lt. James P. Evans, son of Mr. and Mrs. W. S. Evans, Park Ave., and husband of Mrs. Clara E. Evans Athens, Ga., have completed an orientation course in military medical service at the Medical Field Service School, Brooke Army Medical Center, and have been transferred to Fort Benning, Ga., and to Europe, respectively.

The class is made up of officers newly commissioned in the Army medical service.

The orientation course stresses medical service in combat. Subjects include clinical procedures in treatment of battle injuries, care of combat exhaustion casualties, and preventive medical measures aimed at the detection of health hazards and avoidance of epidemics.

The Medical Field Service School is one of seven units of the Brooke Army Medical Center, the Army's largest medical installation.

The center carries out virtually all phases of professional and technical training in military medicine, as well as patient treatment and research.

Lt. Meriwether was graduated from the University of Georgia in 1951.

Lt. Evans was graduated from the Medical College of Georgia in 1951, and was a resident physician at the University Hospital at Augusta, Ga., prior to entering the Army.

### Scientist Says A-Radiation Is Changing Human Beings

PULLMAN, Wash. (AP)—Atomic radiation from exploded A-bombs is at work changing the human species all over the earth and probably for the worse, a distinguished American scientist says.

He says there is no stopping this, that the change was going on slowly before the advent of the atomic age because of the effects of the earth's natural radiation, and that the bombs already set off have simply made it worse. He adds that any more bombs will increase the undesirable changes.

These views were given by Dr. A. H. Sturtevant, zoologist, before a meeting of the Pacific Division of the American Assn. for the Advancement of Science. Dr. Sturtevant, a specialist in genetics at the California Institute of Technology, spoke as the retiring president of the association.

"There is no possible escape from the conclusion that the bombs already exploded will ultimately result in the production of numerous defective individuals if the human species survives for many generations," Dr. Sturtevant said.

Whether the ultimate result will be good or bad, beside the point, the scientist added. It may be, he said, that the gains to be derived from the bombs will outweigh the genetic damage that is bound to result.

The hard fact is, he argued, that human beings of the future are being genetically different in some ways from those of the present and that the extent of the difference will depend upon how many bombs drop.

Dr. Sturtevant disagreed with Atomic Energy Commission Chairman Lewis L. Strauss' recent statement that while the test in the Pacific added to the earth's radiation exposure, it remained "far below the levels which could be harmful in any way to human beings."

Strauss apparently referred only to the immediate effects on the people exposed. Dr. Sturtevant said. He added:

"Every geneticist familiar with the facts knows that any level whatever is certain to be at least genetically harmful to human beings when it is applied to most or all of the inhabitants of the earth."

The scientist cited the work of many investigators to support his point. He said this research indicated that:

High energy radiation hitting the germ cells of living organisms causes genetic changes which are passed on to offspring.

The great majority of these changes is proportional to the amount of radiation present, but even the tiniest amount of background will cause some changes.

The great majority of these changes are bad, and in subsequent generations can produce a wide variety of defects, including early death.

Dr. Sturtevant said color blindness, night blindness and sensitivity to certain tastes or variations, chargeable to heredity require the affected individuals to live a world's slightly different from that of their unaffected neighbors.

These defects are trivial, but there are some which are not. Dr. Sturtevant cited some diseases with hereditary factors which affect the mind. One of these is Huntington's chorea, an ailment with symptoms like St. Vitus Dance. One of its effects is a form of dementia.

Another is a hereditary disease affecting metabolism. It is called phenylketonuria. It produces a condition called "scanty mind."

The earth's radiation background causing more genetic changes, still other diseases attributable to heredity probably will be found, Dr. Sturtevant said. And if they affect the mentality or other important functions they will increasingly mark future generations with the sign of the atom bomb.

### Runs From Cop, Drowns In River

COLUMBUS, Ohio (AP)—Eugene Hicks, 23, Columbus, ran from a police officer making a routine check of a picnic area where his car was parked, stumbled into a river and was drowned yesterday.

Cruiserman, Kenneth Cashner Jr., said Hicks apparently didn't know the river was there.

Cashner said as he approached the car Hicks and two others jumped from it and ran. The other two were rescued from the river. They told Cashner they had feared they would be arrested for parking in the area.

**PLASTER INJURES 19**

CLEVELAND (AP)—A legged, nine-foot chunk of plaster fell from the ceiling of the Carter Theater here last night while a comedy short was being shown, injuring 19 persons.

**NEED A JOB? Check the WANT ADS**

### Factors Of Fatness Enter Cancer Probe

PROVIDENCE, R. I. (AP)—Research being conducted here may someday reveal whether factors which cause obesity are linked with cancer.

Dr. Paul F. Fenton and a graduate assistant, John B. Lyon, are seeking to discover the body mechanism which controls the rate at which calories are burned up or stored in the system in the form of fat.

Dr. Fenton has found among his thousand laboratory mice evidence of a process controlling the burning and storing of fats in the body. He says he has found that susceptibility to some kinds of cancer may be controlled by the same basic body chemistry.

He and his assistant suspect hormones are involved.

Dr. Fenton says he and other researchers at work on the problem have a long way to go but if successful, he says it might lead to two important results:

1. Early discovery of obesity and cancer tendencies in humans.

2. A means of eliminating the danger by correcting hormone balance if hormone production actually is involved.

Some of Dr. Fenton's mice—products of long inbreeding—are naturally cancer-susceptible. Others are cancer-resistant.

When fed a normal diet, he says the two strains show only slight physical differences. But when a high fat diet is introduced, the cancer-susceptible strain becomes fat and the production of breast cancers is speeded up. The other strain eats as much but remains thin and cancer free.

The biologists found other differences:

The thin mice are more active and absorb more oxygen into their bodies. The extra oxygen enables them to burn up the extra calories.

Sugar injected into the mice disappears slowly from the blood stream of the fat, cancer susceptible mice, but rapidly from the blood of the thin mice.

Since insulin burns sugar, Dr. Fenton suggests that under production of insulin by the pancreas, or over-production of anti-insulin hormones by the cortex of the adrenal glands, may be involved.

Excess protein and minerals, as well as fat, found in the tissues of the fat mice may indicate that the mice are producing too much growth hormone, Dr. Fenton says.

The blazon heads of the one strain, about twice that of the other, point north and south.

### Buick's biggest hit brings you a 3-way bonus

**1. You get the car that's in step with tomorrow**

**2. You get the car that's a sure high resale value**

**3. You get a bigger allowance from our volume business**

From stem to stern, Buick today is styled a year ahead—with long, low glamor lines, with the very look of tomorrow, and with that broad panoramic windshield that many other cars won't have till 1955. Equally important, you get in Buick advanced V8 power, big room, luxurious comfort, the famed Million Dollar Ride—and all for prices that start just a few dollars above those of the so-called "low-price three." Is it any wonder, then, that Buick today is outselling all other cars in America except two of these "low-price three?"

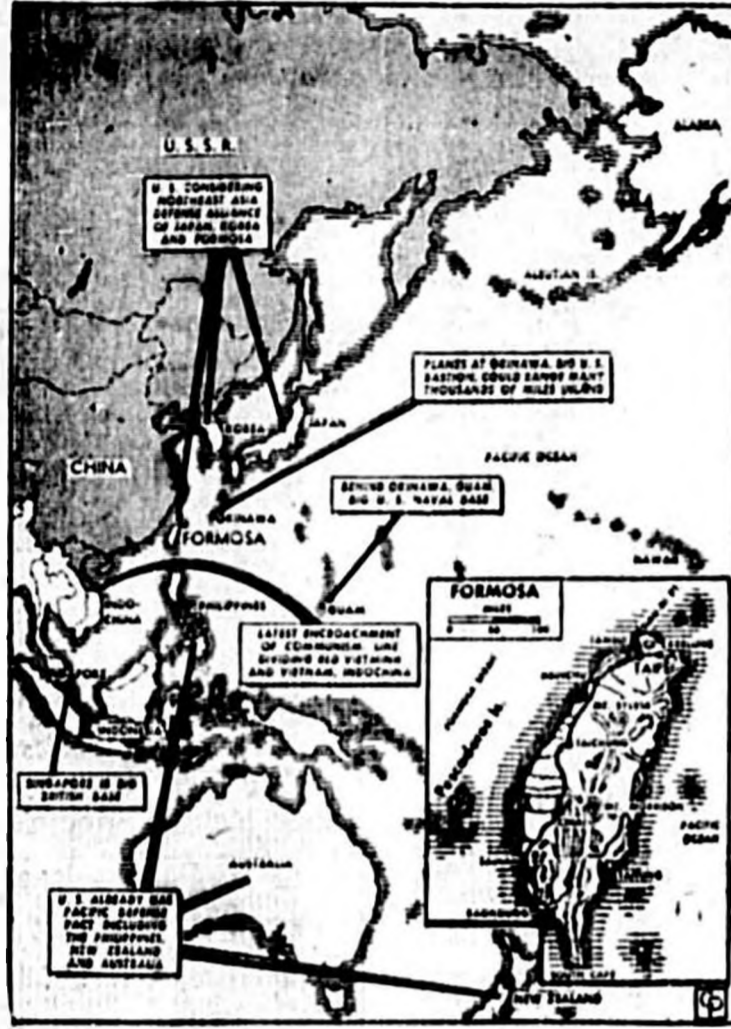

Buicks have always had a high trade-in value. But the 1954 Buick has an extra advantage in its year-ahead styling. That means your Buick will stay well up in the style parade for years to come—will stay fresh and new-looking well into the future. So you're bound to be way ahead in actual dollars when trade-in time comes.

Every month's sales figures this year have proved this fact: Buick sales are soaring; Buick is outselling all other cars in the nation, regardless of price range, except two of the "low-price three." So with this tremendous volume, we can—and do—offer higher trade-in allowances. Come in, see and drive a new Buick—then check for yourself that our volume business really does mean a far bigger allowance for you.

**Buick Sales are Soaring!**

**NICHOLSON BUICK Co.**

Trooper Tells Lions About Traffic Safety

Traffic violations are involved in 90 per cent of highway accidents. Trooper James Wilder, DeLand, of the Florida Highway Patrol, told Lions at their regular luncheon meeting today.

Commission Passes Resolution Backing 4-Laning Highway

The County board of commissioners today passed a resolution supporting the four-laning of Highway 17-92 and appointed County Attorney Mack Cleveland to present it to the State Road Board.

The three-hour session opened with Mrs. Kathryn Lange, representing the Florida County Officials Association, presenting a letter of appreciation from the commission to local businessmen.

Commissioner John W. Meisch said he had checked this road and about two feet could be added to each side.

C. E. Hittell who appeared with Teague, said he believed this would solve the situation and offer more protection to children.

Road construction plans for Sand Springs and Temple Town annex were approved.

The commission authorized the purchase from Winn Radio Co. of air-conditioning units for the County Judge's office.

Phillips Properties presented to the commission for approval next week such as the 100-acre tract east of the country club on the Lake Mary road.

The opinions of leaders of both races were sought through mail questionnaires and interviews.

Only a small minority of leaders of both races advocate immediate complete desegregation.

The committee found variations between regions, counties, communities in the expectation that desegregation can be accomplished.

One classroom problem was predicted on the basis of achievement tests showing Negro and white students in the same grade.

It is not implied that these differences in scores have an innate racial basis but it seems likely they stem from differences in economic and cultural background.

Registration for All Souls School Kindergarten will be held in the parish annex, 202 W. Eighth St. Friday from 9 to 11 a. m.

ON ROUTINE VISIT: R. O. Bell, administrative assistant, Agricultural Stabilization and Conservation, was at the office of Homer Ballard, local ASC agent.

MOVIE TIME TABLE: "Night People" 1:00-3:06-5:11-7:18-9:34

FBI Enters Into Vice Probe In Aiken H-Bomb Plant Area

WASHINGTON (AP)—The FBI today entered the investigation of vice conditions in the Aiken H-bomb plant area as charges against a number of defendants, some of them identified as former Phenix City, Ala., residents.

Big Auto Makers Are Merged Today To Form New Firm

DETROIT (AP)—A new automobile industry merger—combining Packard and Motor Car Co. and the Studebaker Corp.—with assets in excess of 200 million dollars—was approved today by stockholders of the two companies.

Packard stockholders voted 12,000,000 to 10,000,000 to merge with the Studebaker Corp. and the Studebaker Corp. stockholders voted 1,200,000 to 1,000,000 to merge with Packard.

When final details have been completed, including the transfer of Studebaker properties to Packard and a new company to be known as the Studebaker-Packard Corp. will be created.

James J. Nance 53 will be president and chief executive officer. Packard chairman, and Harold S. Vance will head the executive committee.

The company, we believe, will be in a position to become a major factor in defense business, and to gain a share in the market through possible diversification into other consumer goods fields.

Arrests Precede Queen's Visit: BELFAST, Northern Ireland (AP)—Northern Ireland's strongest ever security net snared three armed men today a few hours before the arrival of Queen Elizabeth II for the launching of a passenger liner.

Police announced they detained three occupants of an automobile before dawn at Newry, 45 miles south of Belfast on the border between Northern and Southern Ireland.

The Queen last visited Belfast in July, 1953, during her post-coronation tour. As she arrived, then, anti-royalist blew up a railroad bridge and sabotaged the city's power supply in protest.

Foreign ministers of the six nations are to meet in Brussels Thursday to discuss the problem.

All participants except France and Italy have ratified the treaty. In a move to explain the new French plan, Ambassador Henri Bonnet met yesterday with Acting Secretary Walter Bedell Smith.

Smith was reported to state the view that the French plan implies the entire future of the defense community. However, he was said to be leading an intensive drive to find some sort of middle path.

Wounded Man Elected Head Of Vets' Group: LOS ANGELES (AP)—Donald E. Lowry was shot by a fleeing gunman just two hours before he was elected California Department Commander of the Military Order of the Purple Heart, an organization of veterans wounded while serving with the armed forces.

Lowry had been to lunch and was returning to the convention hall for a luncheon when he was struck in the groin by a bullet from the gun of a robbery suspect, Robert Marsden, 29-year-old convict.

Police said that Marsden a few seconds before had shot and seriously wounded Herbert S. Miller, 62, owner of a downtown watch repair shop where Marsden had taken \$100. Lowry, of Hollywood, was passing by as the gunman fled. Two parking lot attendants captured Marsden and turned him over to police.

On the convention floor shortly afterward, Lowry was unanimously elected state commander.

FBI Enters Into Vice Probe In Aiken H-Bomb Plant Area

Senate Passes Bill Which Outlaws Communist Party

WASHINGTON (AP)—The Senate today passed a bill to strip the Communist party of all its legal rights and overrode administration objections by voting to make membership in it a crime.

The bill passed by the House yesterday in a form described as acceptable to the administration, also would deprive labor unions found to be Communist dominated of any legal standing before the National Labor Relations Board.

The Senate ignored administration opposition as it wrote into the bill by a vote of 41-39, an amendment to make Communist party members subject to imprisonment and heavy fines.

The House passed bill would not go so far as to strip away at the legal rights of the Communist party.

Humphrey, who introduced the Senate amendment described the House measure as "power puff" legislation.

The final Senate vote on the bill was 81-1 with Sen. Kefauver (D-Tenn.) carrying the lone dissent.

The Senate also added amendments to the labor union provision in general, these amendments would require the federal government to certify a union as "Communist-infiltrated."

Humphrey's amendment would make members of the Communist party subject to five years in jail and a \$10,000 fine.

Association Heads Elected At Meeting: Earl Brown, DeLand, was re-elected president yesterday of the St. Johns Inland River Improvement Association.

Other officers are Kenneth Merrill, Jacksonville, vice-president; Leo Jackson, Jacksonville, president; Lester Bush, Palatka, treasurer; and Forrest Breckenridge, secretary.

A resolution was passed at the meeting held in Jacksonville in memory of Charles L. Heath, DeLand, deceased, who was treasurer.

A W. Lee, director of the association, also attended the meeting.

Several Bonds Are Forfeited: In City Court yesterday, Ivey Leslie Washington, who gave his address as Box 91, Paola, forfeited a \$200 bond on a charge of driving drunk.

Among the other cases were John Peterson, who gave his address as 201 Virginia Ave., charged with "careless and negligent driving." He forfeited a \$27 bond.

The case of Dorothy Thomas, who gave her address as 507 Cypress Ave., was continued until Aug. 23. She is charged with the "sale of a share in lottery for money," and under a \$200 bond.

Bishop From Red Hungary Advocates Church Freedom: EVANSTON, Ill. (AP)—A bishop from Communist Hungary declared today churches must not bow to any governmental system but should stand more resolutely as free instruments of God.

In the face of all opposing views either within or outside the church we proclaim this freedom of the church's way, Bishop John Peter told World Christian leaders.

CHOSEN: Miss Hawaii Kapulani (Gretchen) Miller, 21, is one of Honolulu's most prominent ball dancers. Her grandfather was the first Hawaiian delegate to Washington and her mother was a direct descendant of King Kamehameha. She will be among the contestants at the Miss America beauty pageant in Atlantic City.

State Department Officials Fearful For Future Of EDC: WASHINGTON (AP)—State Department officials from secretary of State Dulles today were reported fearful today that new French defense proposals might kill the long-chestered six-nation European atom plan.

Authoritative American informants seemed convinced changes in the European Defense Community plan proposed by French Premier Pierre Mendès France, were far too drastic to be accepted by the other countries involved.

And they foresaw little or no chance that the other proposed European army partners—West Germany, Italy, Belgium, the Netherlands and Luxembourg—could find any formula for reconciling their own views with the new French attitude.

Foreign ministers of the six nations are to meet in Brussels Thursday to discuss the problem.

All participants except France and Italy have ratified the treaty.

In a move to explain the new French plan, Ambassador Henri Bonnet met yesterday with Acting Secretary Walter Bedell Smith.

Smith was reported to state the view that the French plan implies the entire future of the defense community. However, he was said to be leading an intensive drive to find some sort of middle path.

Which might be acceptable to France and the other European army partners. Some other officials were reported pessimistic over his chances.

Ervin's Study Indicates Slow Mixing Wanted

Brief On Views Of Segregation Edict Due In U. S. Supreme Court On Oct. 1: TALLAHASSEE (AP)—The U. S. Supreme Court apparently will be told in October that a careful study of Florida public opinion indicates immediate ending of racial segregation in the schools would be unwise.

Findings of an interracial committee set up by Atty. Gen. Richard Ervin to gather information for the brief he will present to the court add up to a feeling by a majority of both races that integration in the schools should be a gradual process.

The court gave Southern states until Oct. 1 to present briefs giving the states' views on how and when the ruling should be put into effect.

The opinions of leaders of both races were sought through mail questionnaires and interviews.

About a fourth of the white people questioned agree in principle with the court's decision. Negroes are overwhelmingly in favor of it.

Only a small minority of leaders of both races advocate immediate complete desegregation.

The committee found variations between regions, counties, communities in the expectation that desegregation can be accomplished.

One classroom problem was predicted on the basis of achievement tests showing Negro and white students in the same grade.

It is not implied that these differences in scores have an innate racial basis but it seems likely they stem from differences in economic and cultural background.

Registration for All Souls School Kindergarten will be held in the parish annex, 202 W. Eighth St. Friday from 9 to 11 a. m.

ON ROUTINE VISIT: R. O. Bell, administrative assistant, Agricultural Stabilization and Conservation, was at the office of Homer Ballard, local ASC agent.

MOVIE TIME TABLE: "Night People" 1:00-3:06-5:11-7:18-9:34

NEW INDUSTRY: Leaving here by bus this morning for induction into the Army at Jacksonville were (left to right) Jimmy Whaley, Jimmy Butler, Jimmy Rider, Randy Reynolds, Jimmy Houk, Frank D. Gore, Orlando, Pete Osborne, Orlando, and a Martin M. Hopkins, Altamonte Springs. They will have basic training at Fort Jackson, S. C. (Blaff P Photo)

Strolling In Sanford

Mrs. William A. Good, who is visiting with Mrs. W. P. Yesley, was injured last week when she and her husband were fishing in Lake Monroe. She slipped off the bank into the water and cut her left leg on a piling from which nails were jutting. The cut was about 11 inches long. She is in the Fernald-Laughton Hospital.

Three men from the Sanford Cardinals have won spots on the Central Florida League all-star team—George Krens, left fielder; Fulton Bailey, right fielder; and Bubba Bisbee, first baseman. The team will face the Lake Orange League all-star team Thursday night at 8 o'clock at Leesburg.

A 21-inch television set will be given away at the VFW fish fry to be held at the Elk Club Friday from 6 p. m. until 8 p. m., according to Michael Jandula, chairman, and Michael Thomas, checkman.

The public event is being promoted as a fund-raising medium.

An embarrassed young woman came to the residence of Mr. and Mrs. Jim Fisher last evening carrying a dish in her hand. It seems it was her dog that has been porcupining bedding dishes from the residence the past several weeks. The fact that her dog was the guilty culprit was uncovered by a picture in yesterday's issue of The Herald.

Dr. Sheppard Back At Practice While Free Under \$50,000 Bond

CLEVELAND (AP)—Dr. Samuel H. Sheppard was back at his hospital practice today while police complained about his day-old freedom and grand jury swung into the second day of a hearing that could end it.

Sheppard, 30, shed his prison demits yesterday after Commonwealth Pleas Judge William E. Thomas freed him on \$50,000 bond. The handsome, athletic outspat is accused of clubbing to death his 31-year-old pregnant wife Marilyn July 4.

While Sheppard helped his brother read X-rays films at the Bay View Hospital, a grand jury moved through a list of 16 witnesses called to give testimony on the first-degree murder charge against the prominent osteopath.

The country prosecution indicated the jury might begin deliberation today, and would have Sheppard rearrested immediately if indictment is returned.

Authorities strongly protested Judge Thomas' action granting bail request and freeing Sheppard. In view of the severity of the charges against him, Judge Thomas said evidence didn't warrant his refusing bond.

County Prosecutor Frank T. Cullinan said "I never heard of it in my 22 years here."

Cleveland detective chief James E. McArthur, expressed "shock" at the judge's action and heatedly suggested that the city well might pull out of the murder case and leave it to county or suburban Bay Village authorities.

McArthur said the investigation is just about complete anyway.

A preliminary hearing to present evidence that Sheppard should be held was scheduled for yesterday, but the hearing was bypassed when the prosecution, seeking to keep Sheppard's attorneys in the dark about his plans for presentation, brought matters directly to the grand jury.

# Nearly \$10 Million Contributed By Newspapers To Public Service

The nation's newspapers and their advertisers contributed more space to public service projects last year than in any year since World War II, according to the Advertising Council's 12th annual report released today. Supporting 14 different public interest campaigns, such as U. S. Savings Bonds, Forest Fire Prevention, Stop Accidents, National Blood Program, Better Schools, and Religion in American Life, the newspaper advertising contributed was worth an estimated \$9,830,430. This marks an increase of \$700,000 over the previous fiscal year.

In all, the Advertising Council — a private, non-profit organization supported by U. S. business firms, advertising agencies and media — conducted 18 major public service campaigns, endorsed 46 other public service projects in its radio-TV bulletin (a bi-monthly guide used by many stations, networks and advertisers in determining what causes they will support). All media — television, radio, car cards, magazines, newspapers, outdoor posters, business paper and house magazines — gave generously of time and space, states the report, with some media notably increasing their cooperation over previous years.

Results obtained in the measurable campaigns show dramatically that the American citizen responds voluntarily to help his neighbor in need, to help his country, or his own family. For instance, during the year, 173,000 more citizens volunteered to watch the skies for the Ground Observer Corps, brought GOC's total registration up to 327,000 toward its goal of 500,000; 21 governors joined religious congregations at twice the rate of our national population gain; the 1953 accident death toll was 1,000 below that of the previous year; E and H Bonds in citizens' pockets now total more than \$36 billion — an all-time high; and the Red Cross, due in large measure to campaign efforts, raised some \$85 million.

By C. R. Dawson, BSA, MSA.

**CITRUS** — The twenty-first annual Citrus Institute at 4-H Camp McQuarrie will signal the time when the event becomes of age.

This annual event has continued through the years to serve a useful purpose for Florida Citrus Growers. The programs have consistently featured the presentation of the most recent citrus information by well qualified people, with opportunity provided for questions and discussion.

The facilities at Camp McQuarrie have been improved and will provide some additional conveniences for your comfort. There will be time for some recreation and relaxation and for those personal visits with growers and others that are pleasant and helpful. The dates are August 16 thru 20.

**WE WONDER WHY?** — Vegetable farmers in the Immokalee section of Collier County are preparing several thousand acres of new land for plantings.

**KITH AND KIN** — The way some folks brag about their ancestors you would think they were personally responsible for them.

**POTATO** — St. Johns County's 1954 potato crop was a bumper one, with production almost equalling last season's crop although acreage this year was 2000 under that of 1953.

**LUCKY BOY** — Adam was a fortunate man in at least one respect — his wife couldn't compare him to other men she might have married.

**COWS** — Usually from one to three years of production are required for a good producing dairy cow to repay the cost of raising in Florida.

## Veterans Corner

Here are authoritative answers from the Veterans Administration to four questions of interest to former servicemen and their families:

**Q.** To complete my Korean GI Bill training in dentistry, I am required to take an internship in my specialty. May I do this under the GI Bill?

**A.** Yes, provided the internship satisfies the educational requirements for certification by a Dental Specialty Board. The dental internship may not exceed one year.

**Q.** My GI insurance has lapsed and I have been told that I must take a physical examination in order to reinstatement. My brother is a doctor. Could he give me the examination?

**A.** No. Physical examinations for GI insurance purposes may not be made by physicians who are related to the veteran, either by blood or by marriage.

**Q.** I am the widow of a World War I veteran and I am drawing a monthly VA pension. I have a small part-time job. Recently, I was injured on the job and, as a result, am receiving workmen's compensation. Do I have to include my workmen's compensation in figuring my annual income for VA pension purposes?

**A.** Workmen's compensation payments are considered as income for VA pension purposes. However, you may deduct medical expenses that you have had to pay out because of your injury.

**Q.** I recently graduated from the U. S. Military Academy at West Point. My service there entitles me to receive GI Bill Training benefits?

**A.** No. Under the law, time spent at any of the service academies may not be counted toward Korean GI Bill entitlement. Veterans living in Central Florida who wish further information about their benefits should write the VA office at 42 E. Central Ave., Orlando.

allowance purposes? Or are the dependency allowances limited to wives and children?

**A.** Under the law, you would be permitted to include your parents as dependents, so long as they are in fact dependent on you.

**Q.** I am drawing a VA pension as the widow of a World War I veteran. I have a small endowment policy that has just matured. Must I count the monthly payments as income for VA pension purposes?

**A.** The monthly payments will not be considered as income, at first. But after you have received an amount equal to the money you paid into the policy, any further payments that you receive will have to be counted as income.

**Q.** My son is receiving a pension for a total and permanent disability. He is entitled to an additional amount of money because he needs constant aid and attendance. Will he receive the extra payments even though I give him the attention he needs? Or must we hire a nurse?

**A.** He will receive the extra allowance even though you perform the necessary services for him. You are not required to hire an outsider.

(Veterans living in Central Florida who wish further information about their benefits should write the VA office at 42 E. Central Ave., Orlando, Fla.)

**Knock Becomes Roost**

**MANCHESTER, Tenn.** — Effectively hidden to westbound traffic by a huge billboard advertising a competitor across the highway, a roadside restaurant here has countered with a sign a few miles up the road proclaiming its location: "Just Behind The Largest Sign In Tennessee."

## JAMES MARLOW

# Blockbuster Bill Came Suddenly

WASHINGTON (A)—The Senate called the most deliberative body in the world, has been anything but deliberative on some major legislation just because it's in a hurry to go home this week.

The Senate took its own good time most of this year. It spent weeks, for instance, debating before selecting a proposal by Sen. Bricker (R-Ohio) for a constitutional amendment to restrict treaty-making powers.

It wasn't unusual. The Senate normally dawdles for months while its committees hold hearings on the bills finally drawn for action by the full Senate.

The haste to get home showed up startlingly last Thursday when Sen. Butler (R-Mt.) came up with a bill to deprive Communists-infiltrated unions of government help or recognition.

Sen. Humphrey (D-Minn.) was one of the Senate Democrats who protested. And Humphrey suddenly produced a blockbuster, an amendment to Butler's bill which all but hid it from view.

He suggested outlawing the Communist party. This was exactly what the Eisenhower administration didn't want. It had said so long ago. The government might have to spend years in legal argument for the law only to see it thrown out by the Supreme Court as unconstitutional.

Besides, the kind of law Humphrey proposed might cut across and wreck other anti-Communist laws which the government was using against the Communists.

It might seem a measure so "DON'T FIX THAT HORN!"

**SPRINGFIELD, Mass.** — Many professional musicians play horns and woodwinds that are about to fall apart and they don't want them touched, says Harvey Larose. He's a repair man for all types of orchestra instruments except violins, and has discovered he is wiser not to make any repairs the professionals do not specify.

He is an interesting and complicated job because some woodwinds have as many as 600 parts, including tiny screws, he says. Also a good repair man cannot do an adequate job unless he can play the instrument, he reports.

Dinner tickets can be purchased for any of 23 Italian restaurants. The traveler eats where and when he wants to.

fast-reaching as Humphrey's would require the most careful preparation and wording by a committee and its lawyers. But no committee had prepared it. Humphrey produced it himself.

But the Senate, Democrats and Republicans alike, voted for it. It has been suggested the senators may have been aware this is an election year for many, and a politician can't be unpopular voting against communism.

The House was in a mood to pass it too. This is also an election year for House members. But the Eisenhower administration, worried about the damage Humphrey's proposal might cause, got busy with House leaders.

They agreed to ram through a watered-down version of the Senate bill. This was done yesterday. The House members were able to register a vote against the Communist party without outlawing it.

The House measure would not make it a crime to be a Communist. It would deprive the party of any legal standing.

But the House bill kept the Senate's views on handling Communist-infiltrated unions. Last night, a few hours after House passage, Sen. Knowland of California, Senate leader of the Republicans called it up. The bill had to go back for compromise or approval because it differed from the original Senate version.

Then Sen. Butler arose again. He wanted to make six changes in the House language on dealing with Communist-infiltrated unions. But no senator had a copy of Butler's proposals. Some had been printed or mimeographed. The Senate was being asked to vote on Butler's explanation without seeing what was being voted on.

When Sen. Kefauver (D-Tenn.)

protested that the Senate at least ought to wait till today, when everyone could see in print the House bill and Butler's proposed changes, Sen. Knowland agreed. It was so voted on today after some hours of debate.

Meanwhile, the Senate rammed through last night an omnibus anti-subversion bill which may hold implications undreamed of by the senators who voted for it. It's a complicated bill. It provides death for peacetime spying, tightens sabotage laws and requires people trained in spying to register with the government.

Sen. Ferguson (R-Mich.) was chosen by the Republicans to steer it through. But he was less than completely informed on the bill he was explaining. Under questioning by Humphrey, he conceded he didn't know whether a House or Senate committee had held hearings on it.

From others he learned a House committee had held hearings, before the House approved it, but that there had been no Senate hearings. Humphrey protested at this haste. This, he said, was a "battered effort" by the Republicans to make a legislative record.

Sen. Case, South Dakota Republican, promptly reminded Humphrey no committee had approved the bill he had so hastily offered last Thursday to outlaw the Communist party.

## HAL BOYLE

# Mambo Is Popular In This Country

**NEW YORK** — "This music has blood in it."

That is the way Perez Prado, king of the mambo, feels about the fast-paced rhythm he borrowed from native Cuban sugar workers and converted into America's new dance craze.

The mambo, which has an exciting Afro-Cuban pulse beat, is a melodic wedding of hot live and the rumba. It certainly is music that has Prado's life blood in it. Since 1943 he has written 200 mambo songs, including "Mambo Jambo," a wild fire hit that has sold more than two million records.

"In Cuba people said I was crazy to think people would ever like the mambo," Prado recalled. "But it has succeeded because it is new and modern. In America you had become weary of the old rhythms. You wanted a new beat—and this music has blood in it."

Today the foot-stomping, blood-stirring rhythms of the Cuban sugar workers have given the mambo a healthy second life in the arms of Arthur Murray says 75 per cent of his pupils now ask to be taught the mambo.

The odd fact about the mambo is that its rapidly increasing blood-letting tempo drives people out on a dance floor who ordinarily don't dance at all. It is a dance that brings out the physical improvisation latent even in the staidest of Wall Street brokers.

Some say that "mambo," like the names of most Latin-American dances, cannot be translated. Others say that in the argot of the Cuban sugar cane workers it means "shake it!" — and that if you do just that you'll do all right on the dance floor.

Prado has had to adjust himself to the new fame he enjoys. He is a small, energetic man with the air and the seriousness of Napoleon. He runs his hotel with the intensity and authority of an Arturo Toscanini. Striding back and forth, he barks out whenever he wants to be in a new movement. "Dito! — pronounced 'de-to' — which he explained through an interpreter is legal Cuban for 'say it!'"

But the other night at the Waldorf's starlight roof if someone more like he was trying on his high heels with a sort of mystic hiccup — "bik! — bik! — bik!" He says he doesn't speak English, but that is the way his signature barks in Cuban registers in my ears, which don't speak Spanish.

Prado uses drums to build up the blood beat of his music, saxophones to carry the rhythm, trumpets to blare the melody. He employs some of the wall-vibrating effects of Spike Jones, whom he gratefully credits for helping spread his fame north of the Rio Grande.

The first night of his engagement at the Waldorf he trumpeted so loud that the management, who still regarded him as a gambler and had yet to learn he could melt the ice cakes in their customers' blood, said:

"Please, you're blowing off our roof. Can't you put mutes in your trumpets?"

Prado shrugged and put in the mutes.

Each American consumes about 3½ gallons of ice cream a year on the average.

Here are authoritative answers from the Veterans Administration to four questions of interest to former servicemen and their families:

**Q.** Two years ago, a friend of mine filed an application for disability compensation. VA asked him to come in for a physical examination, but he never showed up. Recently his disability started bothering him. Can he still follow through on that original application?

**A.** No. VA considers a claim abandoned if the veteran makes no response within one year after he was requested to take an examination. Your veteran-friend will have to file a new application. If it is approved, his compensation will start as of the date of the new application.

**Q.** My mother and father are dependent on me. If I go to school under the Korean GI Bill, could I count them as dependents, for GI

in its entirety! see

## 2 Mothers-In-Law In 100 Years Lived At White House

NEW YORK—Being a mother-in-law is a delicate task for any woman, but certainly far more difficult when it involves the President of the United States.

Yet Mrs. Elvira Carlson Doud—the second Presidential mother-in-law to live at the White House in the last 100 years—is a real member of the Eisenhower family. Her devotion to "Min" as he has nicknamed her, in apparent to anyone who sees them together.

What is the secret of this happy relationship? The answer, says Ruth Boyer Scott in the September issue of the Journal of Living magazine, lies in the many qualities Mrs. Doud possesses.

"Min" is extremely good-natured. She's a good sport about keeping up with others. And just as she herself can be gently humorous, her warm chuckle greets the wit of others—a wonderful trait in a mother-in-law.

Also contributing to her success is Mrs. Doud's great pride in Ike and Mamie, but the temper that pride by a deliberate choice of remaining in the background. She will never get into news pictures unless, asked, and then she cooperates promptly, without coyness. In all family group pictures, Mrs. Doud is, typically, farthest back.

Although she spends most of her time at the White House, Mrs. Doud wisely maintains her own home in Denver, Colorado, where Ike and Mamie spent their first Presidential summer vacation.

To learn what's going on with Ike, Mrs. Doud reads the papers. Politics is never a subject of conversation at family meals or get-togethers. When her famous son-in-law is with her, she knows he can be relaxed and free from tension.

Mrs. Doud is not a daily worry bird, according to the Journal of Living article. She takes a vacation as it comes, and gets the most out of it. And that is an important clue to the success of any mother-in-law, not only the one who lives in the White House.

**WORSTED FLANNEL REPAIRS**—Were designed by Claire McCardell for spring, 1934. The shell pink blouse is tabbed away from the neckline and buttoned, and the tail is repeated on the large skirt.

## Christian Dior's Trend Is Called One Of Evolution

By DOROTHY ROE  
It's the shape beneath the dress that makes the fashion. And that is what gives corset and bra manufacturers alicies.

Just after American manufacturers had completed their fall orders, along comes Christian Dior in Paris with his proposal to reshape the feminine figure, flattening and raising the bustline, widening the previously nipped waistline.

It developed that Dior himself has designed a foundation garment for this purpose, but its specifications thus far have been so closely guarded as a new atomic formula. Best descriptions from sleuthing members of the press in Paris indicate that the new garment is a "long case, reaching from waistline to above the bosom, with no cups."

First news of the new Dior silhouette, which sounded frightfully like the flat-chested mode of the flapper era, brought cries of derision from American designers, manufacturers and merchants. Now, however, after due deliberation, most American corset and bra manufacturers have decided there is no cause for alarm, and are willing to keep an open mind until the eventual unveiling of the Dior bra.

A similar garment, made in the form of an all-in-one foundation with half cups at the top designed to lift the bosom is being manufactured in Paris by a Mme. Le Faucheur, reportedly an associate of Dior, for sale in the United States.

The attitude of U. S. manufacturers is reflected in the following statement from John C. Conover, executive director of the Corset and Brassiere Assn. of America:

"When first reports came from Paris that Christian Dior had abolished the bustline, the change in the silhouette was pronounced revolutionary. Now the change is more correctly recognized as one of evolution rather than revolution. Curves are not to be abolished, but perhaps somewhat minimized. The bust is not so much flattened as raised and rounded.

"Some modification is necessary in the Dior line before it will be acceptable here. Curves are curves, and no woman wants to deny that she has them.

"Since the corset and brassiere industry is a fashion industry, manufacturers will design garments that give new shape to the bosom, ease the waist and flatten the hips. In fact, the trend to casual corsages already is evident in new foundations for fall. Manufacturers will not produce garments reminiscent of the breast binding practiced in the 1920's, nor would any sensible American woman wear such an unhealthful garment.

"Now that the first sensational stories on the Dior showing are subsiding, American women can be assured that their figures and their current wardrobes are not doomed. In any season one silhouette may dominate the fashion headlines, but there are always several from which to choose. Any American woman is clever enough to wear the one that suits her best."

MISS HARRIETT MATTHEWS  
★ ★ ★ ★ ★  
**Harriett Matthews Is Engaged To Wed A. W. Wigen In October**

Miss Harriett Matthews of Sanford is announcing the engagement and approaching marriage of her daughter, Harriett, to Arthur W. Wigen of Devon, Montana, son of Mr. and Mrs. Olin Wigen.

Miss Matthews attended Sanford schools and graduated from Sem. from the Volusia County School of Cosmetology. She is now employed by the Carter Beauty Shop in Seelye, Mont.

Mr. Wigen attended schools in Canada and Shelby and is presently associated with his brother in the ranching and farming business. The couple has chosen Oct. 22 as the date of the wedding.

## Australians Are More Responsive To Entertainers

HOLLYWOOD—American entertainers can find a gold mine Down Under, reports Jerry Colonna, just back from a tour of Australia.

"They're fabulous," said the raven-haired, speaking of the Australian fans. "They're 100 per cent more responsive than a GI audience, if you can imagine that."

"American audiences are the toughest. No matter who you are, they'll sit out there and do nothing until you've proved yourself. The crowds in England are a little better. They are unresponsive at first. But once they get to like you, you're in. You can do no wrong."

"Australians are wild from the start. I've never heard such a reaction. They'll listen to your whole routine and then want more."

"At one show I had to explain that other entertainers were willing to go. But they yelled, 'Is it again?' They wanted me to do my whole act all over again!"

I saw brush-faced Colonna at his comfortable Laurel Canyon home upon his return. Offstage he is far different from the wacky character he long played with Bob Hope. He is quiet, soft-spoken and almost shy. The impassioned extrovert with the sirenlike voice is strictly a stage character.

Jerry went to Australia with a show that included Artie Shaw, Ella Fitzgerald and Buddy Rich. They played three days in Sydney, two in Melbourne and one in Brisbane. It was an experiment by a group of promoters.

"We played in tight arenas with capacities up to 11,000," the comedian reported. "The houses were about seven-eighths full. Our only poor houses were the first day in Sydney, when Ella couldn't appear because of a deary in Honolulu."

The tour cost \$200,000 and brought in \$2,000,000. But the promoters were heartened by the results, having spent lavishly to see if such tours were practical. They are convinced and plan to send regular shows, perhaps including other countries. The next troupe is expected to include Johnny Ray, Peggy Ryan, Ray McDonald and comic Dave Barry.

## Kay Ferguson, Friends Observe Third Birthday

A group of children enjoyed playing in the yard of the M. E. Ferguson home last week when they helped little Miss Kay Ferguson celebrate her third birthday at a party given by her mother.

Upon arrival the guests were given toy horns as favors and as Kay opened her gifts, "Happy Birthday" was sung to her.

Mrs. Ferguson, assisted by Mrs. Jean Adams and Lettie Jones, served delicious refreshments consisting of ice cream, punch, and cup cakes.

The youngsters present with Kay were Glenn Jones, Ricky Handy, and Wayne Ferguson, Martha Crowder, Susan Rowland, Robbie Hendrickson, Duane Anderson, Candis Adams, Marlane and Judy Lynn Wycle, Scotty Kirk, Dought and Steve Howes, and the Abbotts.

The mother attending were Mrs. Ashley Jones, Mrs. Buck Ferguson, Mrs. Billy Rowland, Mrs. Otto Anderson, Mrs. Jean Adams, Mrs. Robbie Wycle, Mrs. Bill Kirk, Mrs. J. P. Hammond, and Mrs. M. E. Ferguson.

## Blueberry Pudding, Cherry Fritters Are Saucy, Sweet

Here's a pair of real delectables—sweet, saucy, seasonal, and perfect to complete an otherwise all-the-light-side summer meal.

First alphabetically has in no other way, than blueberry pudding. A mighty good pudding this is fully capable of competing with the much-admired blueberry pie, and fun to make. It might seem disastrous, on first thought, to pour a cupful of boiling water over a carefully combined mixture, but this is the trick that makes the pudding. Snacks of magic, just a little.

Next, and just as good—cherry fritters with cherry sauce. These are crisp morsels, tart-sweet and refreshing as a cherry dessert should be.

**IRISH BLUEBERRY PUDDING**  
2 cups fresh blueberries  
2 tablespoons lemon juice  
1/2 cup ready-to-heat bran  
1/2 cup milk  
1/2 cup soft butter or margarine  
1/2 cup sifted flour  
1/2 cup sugar  
1 teaspoon baking powder  
1/2 teaspoon salt  
1 1/2 cups sugar  
1 1/2 cups cornstarch  
1 cup boiling water  
Spread blueberries evenly over bottom of well-greased 8 x 8 inch pan, sprinkle with lemon juice. Combine bran, butter, flour and milk, let stand about 5 minutes. Add butter and beat well. Sift together flour, baking powder, 1/2 teaspoon salt and 1/2 cup of the sugar, and mix mixture, stirring only until combined. Spread over blueberries. Combine remaining sugar and salt with the cornstarch. Sprinkle over batter. Pour boiling water over all. Bake in moderate oven (325°) about 1 hour. Serve warm with cream if desired.

**CHERRY FRITTERS WITH CHERRY SAUCE**  
2 1/2 cups sifted flour  
1/2 cup sifted bran  
1/2 teaspoon baking powder  
1/2 teaspoon salt  
1/2 cup sugar  
1 egg, slightly beaten  
1/2 cup milk  
2 teaspoons melted shortening  
1/2 cup ready-to-heat bran  
1/2 cup sugar  
1 1/2 cups cornstarch  
1/2 cup boiling water  
1 cup cherry preserves  
1/2 cup orange juice  
and about 1/2 cup of the cherries for sauce. Sift together flour, baking powder, salt and sugar. Combine with milk, cooled shortening and ready-to-heat bran; let stand until most of moisture is taken up. Add sifted dry ingredients, stirring until smooth. Stir in cherries. Drop by tablespoon into hot deep fat (350°). Fry until golden brown, about 3 minutes. Drain on absorbent paper to make saucer.

## Personals

Mrs. Michael Dugan and son, Harold Morgan, Jr., arrived yesterday from Boston, N. Y., to visit with Mrs. Dugan's mother, Mrs. Lillian Wakeley, and brother-in-law and sister, Mr. and Mrs. V. C. Messenger.

A group of girls returned over the weekend after enjoying a week at the Deck at Daytona Beach. They were the Misses Martha Mason, Betty Collins, Patty Walker, Jeanette Cleveland, Jeanette Kullaw, Nancy Koutis, Grace Marie Struempfer, Sheila Browning, Joni Saunders, Ellen Lyon, and Barbara Cusack. They were accompanied by Mrs. L. H. Davis and Miss Shirley Morland and later in the week Mrs. Leon Walker and Mrs. Joseph Saunders joined the group of vacationers.

Mrs. Viola Williams of Clarksville, Tenn., is the guest of her brother and sister-in-law, Mr. and Mrs. B. H. Whitman.

## Home Canning Fun If Planned Ahead, Family May Help

Home canning is one of your best projects that the whole family can enjoy. Since every jar of food you put up now means delicious eating for the months ahead, it's one which you should properly, thrifty plan and execute with a wholesome feeling of satisfaction at being able to make a part of your own food supply.

The first step towards making your home canning more fun is to plan before you start to can. Make a list of the kinds and amounts of food you want to put up. You'll find it more interesting to can smaller quantities of a variety of items rather than only one or two fruits or vegetables.

Plan your canning to take advantage of crops at their peak—when quantities are large, quality adequate and prices reasonable.

The second step is to make sure your equipment is in top condition. Examine your jars and caps and get additional supplies while stores still have a simple stock. Check the seal and control valve of your pressure cooker and follow the manufacturer's instruction for cleaning and adjusting. The pressure gauge should be tested every year. Some dealers, in a quality department, can do this for you.

Remember, the quality of your finished products are dependent upon proper processing, using the best type of home canning equipment in the best operating condition.

## BIRTHS

Mr. and Mrs. T. B. Ball Jr. are announcing the birth of an 8 lb. 12 oz. son, T. B. III, on Aug. 15 at the Orange Memorial Hospital in Orlando.

**Happy Birthday**  
Mrs. Betty R. Anderson

two in Melbourne and one in Brisbane. It was an experiment by a group of promoters.

"We played in tight arenas with capacities up to 11,000," the comedian reported. "The houses were about seven-eighths full. Our only poor houses were the first day in Sydney, when Ella couldn't appear because of a deary in Honolulu."

The tour cost \$200,000 and brought in \$2,000,000. But the promoters were heartened by the results, having spent lavishly to see if such tours were practical. They are convinced and plan to send regular shows, perhaps including other countries. The next troupe is expected to include Johnny Ray, Peggy Ryan, Ray McDonald and comic Dave Barry.

## Calendar of Events

### TUESDAY

Vacation Bible School at the First Baptist Church from 8:30 to 11:30 a. m. for children ages 3 through 12.

The First Baptist Church will hold open house for intermediates from 7:30 to 10 p. m. in the Memorial Educational Building.

The Unity Trunk Class will meet at the Valdez Hotel at 7:45 p. m. with Carolyn Parsons as teacher. The public is invited.

The Ware Bible Class of the First Methodist Church will meet at 7 p. m. with Mrs. R. L. McKinney, Old DeLand Highway, for a picnic.

The Sanford Tourist and Shuttleboard Club will have a hamburger barbecue at the club building at 6 p. m. Those attending are asked to take a salad or a dessert.

### WEDNESDAY

The First Baptist Vacation Bible School for children ages 3 through 12 will be from 8:30 to 11:30 a. m.

The First Baptist Prayer Meeting will begin at 8 p. m. We will continue with the study of "The People Called Baptist."

The Fidelity Class of the First Baptist Church will hold a covered dish supper at the home of Mrs. H. W. Little on Lake Markham at 8:30 p. m. Group four with Mrs. J. M. Cameron as chairman will be hostesses.

The FLT Club will meet in the IOOF Hall at 8 p. m. All officers are urged to be present for the practice drill in preparation for the coming of the Rebekah district president on Sept. 0.

### THURSDAY

Vacation Bible School at the First Baptist Church from 8:30 to 11:30 a. m. for children ages 3 through 12.

The Junior Royal Ambassadors will meet at the First Baptist Church at 7 p. m.

The First Baptist Brotherhood will have their monthly supper and program meeting beginning at 7 p. m. with a covered dish supper.

The Ladies Aid Society of the Lutheran Church of the Redeemer will meet at 7:30 p. m. at the home of Mrs. James Mudge, 801 W. First St.

### About 65 Hopefuls At First Practice Of SHS Grid Season

About 65 youngsters, ranging from 15 to 200 pounds in weight and from 13 to 17 years old, turned out yesterday morning for the first practice session of the 1954-55 football season at the Seminole High School.

Included in the group were seven veterans from last year's squad. The group was divided into two groups of linemen and backs and loosening-up exercises followed.

Lettermen who returned were Johnny Jones, Jimmy Hawkins and Ralph Flowers, all backs, and Larry Bates, tackle; Harold Pate, end; Robert Harvey, guard; and Bob Shoemaker, guard. A total of 23 letters were awarded last year.

Coaches of the squad are Fred Gana and Bill Fleming. The latter said today that the team this year "appears as if it will be just as heavy or a little heavier than last year."

Practice was scheduled to be held again at 3:30 p. m. today. Boys are appearing in shorts and gym shoes until Sept. 1 when they are allowed to issue regular football equipment.

### Cadillac Entered In Southern 500

DARLINGTON, S. C. — A 1954 Cadillac DeVille is the 18th entry for the annual Southern 500, Darlington, S. C., Labor Day Stock Car classic.

Joe Weatherly, veteran Norfolk, Virginia stock car pilot will drive the expensive creation. The last Cadillac to run at Darlington was in the 1950 inaugural of the classic when Red Byron, Atlanta, drove to second place.

Speedy Thompson, Monroe, N. C. also became a Darlington entry with a 1953 Oldsmobile as his mount.

Seven different makes of automobiles are now entered in the Labor Day marathon. Besides the Cadillac and Oldsmobile, Hudson, Dodge, Nash, Chrysler and Mercury have one or more entries. Oldsmobile has won the long grind twice, Hudson and Plymouth once each.

Counterfeit tickets became the subject of a warning issued by Darlington's management today. Bob Colvin, general manager of the big speedway pointed out that tickets this year are hoodled and that Pinkerton men would be on all gates for this purpose. Colvin said, "We've had counterfeit tickets in the past. The heavy advance sale for this year will help to bring runners of a sellout and of other ticket sources. We're still accepting mail orders but must warn buyers to know their sources. Counterfeit tickets will be impounded."

### Gators Aren't Optimistic About Season

ATLANTA — Florida has a flock of fine football players to throw into action this fall and could pull some upsets but the Gators don't figure this is their year to shine.

A healthy helping of inexperienced sophomores and a lack of depth at several positions provide Coach Bob Woodruff with his share of headaches.

While the team as a unit—two units, really, under Florida's platoon substitution system—doesn't shape up as a Southeastern Conference champion, Woodruff is blessed with several outstanding individual performers.

The Gators seem powerful at end, half back and fullback. Reserve strength is needed elsewhere. Florida will miss such 1953 regulars as ends Jack O'Brien and Mike Kelly; tackles Dan Hunter and Howard Chapman; guards Art Wright, John Hamaek and Joe D'Agostino; center Sonny May; halfbacks Tommy Harduck and Tommy Ivey; quarterback Doug Hickock and Larry Speers and fullback Itek Cramer.

But several standout performers are back for another season and some promising newcomers are on hand.

In Mal Hammack and Joe Brockley, Florida has two fine fullbacks. Hammack, at 195, is extremely fast and piled up a 3.3-yard average with his hard-driving style last year. Brockley, at 220, can crash through the line with the speed of a halfback and is a good pass receiver.

Hammack teams with center Steve DeLaTorre to furnish two top-notch linebackers. Both are rugged and cat-quick.

At halfback, returning lettermen John Burgess, Jack Simpson, Bob Davis and Larry Scott supply the seasoning to balance off some promising newcomers. Simpson, a fast, smart runner, saw a lot of action as a reserve last year and was the Gators' top punt returner with speed to spare and an amazing change of pace. He is a deadly brokenfield runner and fine receiver. But he's subject to frequent injury.

A talented end corps is headed by Jerry Blysk, Ray Brown, Charlie Manning and Weldon Lockhart. Woodruff thinks Butler III, a sophisticated tackle, is one of the most promising youngsters in the SEC. He is 6 feet 3 and 220. Curt Haywood is a fine guard.

With plans calling for more splits this fall, quarterback could be a major weak spot. Bobby Lance and Richard Allen, neither long on experience, appear the best bets to handle those open plays. Allen, like Simpson, is brittle.

Woodruff figures his Gators will stack up experience fast with bowl games as their first three opponents—Rice, Georgia Tech and Auburn. And there's a chance the Gators, who finished ninth last year, will improve on their three victories of last year when they lost five and lost Georgia Tech and Louisiana State.

HEROES.

HE'S THE ONLY GOLF-PLAYING PUNCH-UTTER AGAINST BROOKLYN ON JUNE 29, COULD WELL BE ONE OF THE MOST IMPROVED HITS OF THE YEAR—IT STARTED THAT GIANT SURGE IN EARNINGS AND HELPED TO DISCOURAGE THE BEES.

HE'S A THREAT TO BREAK THE PUNCH-HIT RECORD OF 22 SET BY SAM LEGGIE, OF THE GIANTS.—HAD 14 IN 34 TRIES.

### Pilots In Tie For 1st Place With Red Hats

By THE ASSOCIATED PRESS

Hene Friel was a mighty handy man with a stick last night and his hitting enabled the Lakeland Pilots to fight their way into a tie for the Florida State League lead.

Lakeland beat Daytona Beach 3-2 in 10 innings with Friel batting in two runs, including the clincher. He's five trips to the plate produced two triples and two singles.

The Pilots, who have long threatened to take the lead, achieved the tie when DeLand split a doubleheader with Jacksonville Beach. The Red Hats won the first game, 8-2 while Jacksonville Beach took the afternoon game.

DeLand's defeat was the Red Hats' second in their last 11 games. The slumping third-place Orlando Cubs lost their fourth straight game at the hands of Cocoa. Neil Roberts took the decision on a three-hitter.

THE  
SILVER-  
THROATED  
WOO

pours his heart out to the retailer and forgets about the customer

The Woo is a manufacturer who thinks his fate is in the hands of retailers alone.

He pours out his heart and gold and prizes to storekeepers — then has nothing left to woo the shopper — the one who buys his product.

Naturally the importance of newspaper advertising escapes him, just as his customers do.

Fortunately the Woo is a rare creature. Most manufacturers know that it's smart to woo the storekeepers — but even smarter to win the consumer's lasting love!

No wonder advertisers throughout the nation spent a record-breaking \$2,655,500,000\* in newspapers last year — twice as much as in any other medium!

All business is local . . . and so are all newspapers!

\*Printers' Ink Preliminary Estimate for 1953

Established 1908

SANFORD, FLORIDA, WEDNESDAY, AUGUST 18, 1954

Associated Press Leased Wire

NO. 160

**CHEESECAKE**—The 18-minute motion picture, "The Sanford and Seminole County Story," which will be shown tomorrow at the Ritz Theatre, begins with the above scene. The camera started at the bottom of the group and traveled upward. Girls are (left to right, bottom of group to top) Eleanor Ritz, Sheila Browning, Sue Ann Radford, Polly Graham, Helen Lindsey, Paulette Cason, Patzy Collins, Barbara O'Bar, Sandra Dunn and Nancy Jo Carr. They will make up the cast of the film, including four points was \$5,000. Additional co-sponsors of the film are the Sanford Merchants Association, John Wiley, area manager of the Bell Telephone and Telegraph Co., and the Valdes Hotel. Special matinees for children will be held at 1 and 3:30 p. m. at which candy, comic books and several prizes will be given away. In the evening, the Duxbury School of Dance will present programs at 7 and 9 p. m. A regular film also will be shown. According to Brackridge, the film will be used on television broadcasts and will be shown before various groups over the country. He said there has been a demand for travel films for use on TV.

## Efforts Of Churchmen Renewed To Carry Out Prayer For Unity

EVANSTON, Ill. (AP)—Representatives of 170 million Christians today renewed their efforts to carry out Jesus Christ's prayer "that they may all be one." Hopes for a closer union of Christ's followers were expressed before leaders of 163 denominations from 48 countries at the meeting of the World Council of Churches.

## Strolling In Sanford

Friends of Mrs. Clara Jobe will be pleased to learn that she is improving steadily and making satisfactory progress. Mrs. Jobe is in Macon, Ga.

Justice of the Peace High P. Duncan returned last night from a week spent with relatives in Charleston, S. C., Anderson, S. C., and Royston, Ga. Judge Duncan says it's great to return home and cool off after 100-degree Georgia and South Carolina temperatures.

Four Sanford men will journey to Leesburg tomorrow night to take part in the Kiwanis benefit game between a picked Central Florida League team and a Lake Orange League team. They are George Kenis, Fulton Barley, Bubba Bibbee who will play for the Central Florida team, and C. R. Dawson, the official score-keeper.

About 35 attended a barbecue held by the Sanford Tourist and Shuttleboard Club last evening. Guests were Gail and Pamela Wright and Mr. and Mrs. Johnson. Games were played after the meal.

**TALAHASSEE**—A 19-year-old Melrose boy was hospitalized last night at the Tallahassee Memorial Hospital's 21st case of polio.

**Troy Glass** was reported in serious condition. Polio cases in the local hospital are from a wide northwest Florida and south Georgia area.

## 10,000 Homes To Go At Cost In Project

### Houses Will Be On 3,200-Acre Tract 13 Miles From Miami, Contractor Says

MIAMI (AP)—A new city of 10,000 homes—all to be sold at cost—will be built on a 3,200-acre tract 13 miles northwest of Miami. Announcement of the project was made at a dinner last night by Julius Gaines, president of the Gaines construction Co., who said that when completed the "new city" will have a population of about 40,000, making it the ninth largest community in Florida.

## Soviet Doesn't Pose Threat To Europe General Tells DAV

MIAMI BEACH (AP)—Russia has lost the power to conquer Europe, according to Margie Lt. Gen. Melton J. Maga of St. Paul, Minn. He told the 3rd annual convention of Disabled American Veterans (DAV) last night that "the Russians realize they can no longer win by their manpower." For this reason, he said, the Russians are doing their best to talk the United States into abandoning nuclear weapons. "Russia will never start a hot war as long as we have atomic artillery," declared the blinded general, a veteran of two world wars. "Any effort by Russia now to mass manpower would be an invitation for atomic annihilation of such armies," he said. "The cold war between Communists and the free world, Meas continued, will be fought for the minds and hearts of the peoples of Asia and Africa. Those groups hold the balance of manpower and continuance of world peace depends upon which side gains their support." Turning to rehabilitation, Maga said finding work for handicapped persons is not charity but is good business. In the last 10 years, he said, rehabilitated workers have earned more than \$1 billion dollars and paid more than one billion in taxes.

## Tourist Trade Here Is Generally Up

JACKSONVILLE (AP)—Florida's tourist trade is topping that of all previous years, except in a few spots, according to Harold Cole, executive vice president of the Florida State Chamber of Commerce.

## Herbert Hoover Jr. Named To Position Just Under Dulles

WASHINGTON (AP)—Herbert Hoover Jr., 31, throwing aside an aversion to more desk work, has been appointed under secretary of state.

## Dawson Attends Citrus Meeting

Among the 200 citrus men attending the 21st annual Citrus Institute at Camp McQuarrie yesterday was Seminole County Agent C. R. Dawson.

## Ike Says Books Open On Controversial Issue

WASHINGTON (AP)—President Eisenhower says the books are open for inspection on a controversial power contract in the TVA area. Democratic National Chairman Stephen A. Mitchell says he is glad Eisenhower is ready to disclose "the whole story behind the Dixon-Yates deal."

# Typhoon Rips Japan

## Plan Told For Census Of Trees

INSTITUTE INFORMED OF PROJECT

CAMP McQUARRIE (AP)—The State Plant Board plans the first detailed citrus tree census since 1944 this coming season, E. L. Ayers of the State Plant Commission told the 21st annual Citrus Institute here yesterday.

## National GOP Groups To Assist Local Aspirants For Congress

WASHINGTON (AP)—Two Republican candidates for Congress from Florida are going to have the help of the Republican National Committee and the National Citizens for Eisenhower Congressional Committee in their campaigns.

## European Nations Meeting On EDC

BRUSSELS, Belgium (AP)—Leaders of the six European treaty nations came to the Belgian capital today for crucial talks on the French demands for the EDC.

## S. Koreans Discuss Pull-Out Of Troops

SEOUL, Korea (AP)—The South Korean Assembly will meet tonight to discuss plans reportedly under consideration in Washington to pull out of the U. S. 4th Army out of Korea.

## McCarthy Hearing May Be Delayed

WASHINGTON (AP)—Sen. Watkins (R-Ohio) said today the special Senate committee to investigate charges against Sen. McCarthy (R-Calif.) may have to postpone a hearing because the scheduled Aug. 24 date of its public hearing is in conflict with the public hearing on the report.
