IN SANFORD—Life Is Worth Living

SANFORD, FLORIDA, FRIDAY, OCTOBER 6, 1916

NUMBER 14

BANK ROBBER IN SANFORD YESTERDAY

HOMESTEAD BANDIT PASSED THROUGH IN CUSTODY OF SHERIFF HARDIE

One of the Homestead bank robbers, Hugh Alderman, passed through here yesterday morning on train 84 enroute to Jacksonville from the Ft. Myers jail.

The tale of the robbery of the Homestead bank and the subsequent chase through the wilds of the lower east coast reads like a romance and should be a solemn warning to all young men who are anxious to emulate the methods of Jesse James and get money without working for it.

Comfort Cottage makes a specialty of Sunday dinners. Get there at twelve thirty and avail yourself of the opportunity of a dollar dinner for fifty cents.

CENTRAL FLORIDA INTERURBAN

NAME OF NEW TRACTION LINE THAT SOUNDS AND LOOKS GOOD

William Hall, representing the Central Florida Interurban Railway was here this week meeting with a special committee of the city council regarding certain rights and franchises over the city streets for this new traction line.

The new company means business is apparent to any one who studies their proposition for their first move was to clinch the water power that would give them all the current needed for 3,000 miles of railway through Central Florida.

Children Under Fifteen Years Are Barred In Sanford There has been some controversy about children driving cars in Sanford who are under the age of fifteen years and it has come to my ears that I have granted permission to certain youngsters to drive cars on account of their size.

William Hall of St. Cloud has been here several days this week in the interests of the Central Florida Interurban Railway.

Sheriff Hardie here yesterday looked like he had been through a spell of sickness, being thin and haggard looking and a week's growth of whiskers on his face.

the best of reputations in the past. Their feet were never turned into the right paths from boyhood days and their crime and the results are the lessons to be learned by the boys who are doing wrong and know it.

The Henderson boys killed by the robbers are brothers of L. H. Henderson who lives near this city and were farmers of the Homestead section, men who bided by the laws and were averse to robbing banks and the infractions of the laws and joined the posse in the attempt to bring the robbers to justice.

Cattle Raising in Florida Florida's destiny as a cattle producing state is fixed. Profiting by the success of early experiments of cattle raisers along scientific lines, great corporations are now being organized to enter extremely into cattle raising in Florida.

It is, indeed, gratifying to note the wonderful advancement being shown by Florida in the direction of a beef producing state. Outside capital is no less interested than home capital. This speaks for the prospects.—Jacksonville Metropolis.

On the main battle line in Dobrudja attempts by the Russians and Rumanians to advance have been frustrated by the artillery and by successful counter attacks.

BULGARIA IS PASSED BY ALLIES

ROUMANIANS DEFEATED AFTER CROSSING THE DANUBE

Paris, Oct. 6.—The allied troops on the western end of the Macedonian front continue to press back the Bulgarian forces before Monastir. The war office today announced that further ground had been gained and that the town of Buf, 12 miles south of Monastir had been occupied.

The statement follows: "Rumanian front: On the Danube front, 15 or 16 Rumanian battalions without artillery which crossed the Danube near Rakova advanced and occupied the villages of Sitopol, Kajibule, Boriosso, Maslowranowo, Golemovrajowo and Brecchin. In order to repulse them we sent two columns from Rutchuk and Turtukal.

CANNOT DRIVE CARS

Minors of Certain Age Not to Operate Cars: It shall be unlawful for any person under the age of fifteen years to operate, handle or run in any manner any automobile or in any manner handle the steering wheel or other apparatus by which the automobile is controlled, on any street or alley in the city of Sanford, and it shall be unlawful for any person, owning or controlling any automobile to permit any person under fifteen years of age to violate the provisions of this ordinance.

Sanford is disposed to meet the new company with open arms and will do all that is possible to get them here.

Any person found violating this ordinance will be brought to the Mayor's Court and fined.

BIG MONEY FOR ROADS IN AMERICA

TWO HUNDRED AND FIFTY PER CENT INCREASE IN 12 YEARS

Washington, D. C., Oct. 6.—Rapid increase in total expenditures for roads and bridges, growth of building and maintenance activities under state supervision and a sharp decrease in the proportion of contributions in the form of statute or convict labor mark the development of highway work in the United States during the past twelve years.

The falling off in the value of road work performed by statute and convict labor was from \$20,000,000 in 1904 when the total road expenditures were \$80,000,000 to about \$15,000,000 in 1915 when the total expenditures had grown to \$282,000,000.

CANNOT DRIVE CARS

Minors of Certain Age Not to Operate Cars: It shall be unlawful for any person under the age of fifteen years to operate, handle or run in any manner any automobile or in any manner handle the steering wheel or other apparatus by which the automobile is controlled, on any street or alley in the city of Sanford, and it shall be unlawful for any person, owning or controlling any automobile to permit any person under fifteen years of age to violate the provisions of this ordinance.

## A Snappy Design for Housewear

to position on front and back of the blouse, corresponding edges even. Finish the front near the edge of the armhole between small "o" perforations and insert a pocket. Close underarm and shoulder seams and form tuck in front, creasing on slot perforations. Stitch 1/2 inch from folded edge, turn the right front edge under and allow left front edge to extend for an underlap. Work eyelets through the tuck and lace to position. Gather lower edge of waist between double "TT" perforations and 2 inches above. Sew the collar to neck edge. This may be bound with braid or finished with buttonhole scallops, if further decoration is desired.

Next, gather the lower edge of the sleeve between double "TT" perforations and sew sleeveband to lower edge. Close sleeve as notched, then close seam of elbow cuff as notched. Face and sew to sleeveband, seams even. Sew sleeve in armhole, small "o" perforation at shoulder seam, easing in any fullness.

Now join the side and back gores of the skirt as notched. Close center-back seams. Close yoke seams and turn under lower edge on small "o" perforations. Form tuck near center-back by creasing on slot perforations and stitch 1/2 inch from folded edge. Adjust to position on skirt with center-backs, upper and front edges even. If desired, work eyelets through tuck in back and lace to position. Turn under side edge of front gore on slot perforations, lap on side gore, notches and edges underneath even; stitch 1/2 inch from folded edge, leaving edges to left of center-front free above large "O" perforation in front gore for a pocket. Sew to lower edge of waist, center-fronts and center-backs even, bringing side back seam to under-arm seam.

Adjust the belt to position on dress. Trim with buttons or finish the edges with scallops worked with buttonhole embroidery.

Snappy dress of old rose cotton gabardine duplicating attractive uniform of the College of Industrial Arts. Both the blouse and skirt are yoke-trimmed.

Although it is developed upon the simplest of lines, this dress is smart and snappy. It is made of old rose cotton gabardine, the V-shaped neck to be filled in with a chemisette or left open and finished with a broad collar. There is a deep yoke on the blouse, but this may be omitted at will. The five-gored skirt is made with a panel front gore and a yoke at the sides and back. In medium size the dress requires 5 1/2 yards 36-inch material with 5/8 yard contrasting material 18 inches wide for shield and standing collar. If made without blouse and skirt yokes, 5 yards of gabardine will be sufficient.

In making the dress as illustrated, it is necessary first to adjust the yoke

Pictorial Review Costume No. 6896. Sizes, 34 to 42 inches bust. Price, 15 cents.

## Well Settled Styles in Hats

There are wide hats and high hats and variety enough in both sorts to insure several shapes that will be becoming to each face. But the variety is not confusing as it was a year ago. The styles are very well settled and the hats are beautiful.

Each of the hats in the group of three pictured displays some one or two of the accepted modes in millinery for spring. At the left of the group a straw sailor has a wide, flat brim. The crown is covered with faille ribbon put on in four sections. Over this ribbon covering "ladder" bows extend from the center to the base of the crown at the middle of the front and back and of the two sides. They terminate in loops and ends that lie flat on the brim.

A millan hemp, in gray, is shown at the right. It is covered with gray crepe. At the right side the brim turns up sharply. A band of narrow velvet ribbon encircles the crown, finished with a bow at the left side. The striking feature in this hat is its bead embroidery. The peacock feather motif appears on the front and side

brim and on the crown, embroidered in small beads set close together.

A bell-shaped black hat at the top of the picture is a perfect example of a popular type. It is of lustrous straw trimmed with loops of taffeta ribbon perched on top of the crown. Lacquered rose foliage covers part of the crown, and springs up among the loops of ribbon. This hat is all black except for the large pink rose at one side.

Lacquered or varnished flower and foliage trimmings are immensely popular. Everything has a shiny, brilliant surface, covered either with transparent or with black lacquer. Flowers treated with this lacquer look as if made of fine porcelain.

Julie Bottomley

A fancy detached skirt yoke of sheer material is gathered to a skirt yoke which is already full. Little shoulder capes appear on both dresses and coats.

Connie Mack.

In 1915, for the first time in McGraw's management, they finished in the cellar.

Connie Mack organized the Athletics in 1901. They won the American league championship in 1902, 1905, 1910, 1911, 1913 and 1914. They also captured the world's title in 1910 from the Cubs, and from the Giants in 1911 and 1913. Last year they finished last, for the first time in their career.

### Another Pitcher Flaherty.

There's another pitcher Flaherty in the American league. He is a youngster from Dean academy taken on by Hugh Jennings. His first name is Edward. The newcomer, by the way, is a nephew of Pat.

### RESENTS JOSHING ABOUT AGE

Speaker Says Doesn't Matter If Hair Is Getting Gray, So Long as He Continues at Top Speed.

Tris Spenger resents being joshed about his age. He says that just so long as he continues to go at top speed it really does not matter how much the fans "ride" him because his hair is gray, but that it hurts when he is going bad. Spenger refuses to divulge his exact age, but declares that he has been gray since he was seventeen years of age, and that he is not yet thirty. Few fans will believe that Tris is as young as he would like to have people believe, but, after all, what does it matter? He is playing the greatest game of his career, and until he starts to slip the fans in Cleveland will not worry about his gray hair.

The Denver club announces the acquisition of Larry Cockingham, the Michigan Normal school pitcher, who earlier was announced as a youngster who would get a trial with Detroit.

## In Biscuit Cloth and Satin.

three narrow bands of cloth. A novel idea is exploited in the narrow band stitched over the closing at the front. This corresponds with the plaits at the sides of the dress and offers an opportunity for the introduction of a design in wool or silk embroidery.

The two-piece circular tunic of cloth is pointed at the lower edge in front and draped over a three-piece foundation lengthened by a circular flounce. In medium size the design requires 5 yards 44-inch cloth and 3 yards 36-inch satin, with 2 1/2 yards lining 36 inches wide for underbody and gores.

The tunic, because of its circular shape, is cut from an open width of cloth, as shown in the cutting guide. There will be room enough left, however, for the trimming bands, the revers, straps and piecing for the flounce. All of these sections of the pattern are laid on a lengthwise thread of material.

Now, fold the remaining cloth and along the lengthwise fold place flounce of the skirt. If satin is used for the waist, place the pattern on the satin just as shown in the guide—back on lengthwise fold and front and sleeve on lengthwise thread.

Next, fold the lining in half. Place the front on the material first, laying it on a lengthwise thread. The back comes next, resting on a lengthwise fold. To the right of this is the front gore, on a lengthwise thread, then the back gore, on a lengthwise fold.

If the round effect is preferred for the tunic, cut off the pointed end along small "o" perforations.

A dropped waist or moven age front is frequently combined with a

normal or high waist belt in the new modes, to the advantage of the wearer's figure.

An interesting costume for Autumn wear, developed in biscuit cloth and satin. Cream white chiffon cloth is used for the collar.

This costume of biscuit colored cloth combined with satin is one of the unusually successful designs for Autumn. Cream white chiffon cloth is used for the high collar, the revers are of cloth and the long waisted body is gathered at the waistline under

Pictorial Review Costume No. 6917. Sizes, 34 to 44 inches bust. Price, 25 cents.

### WILL DISREGARD TIPS

Player Misunderstood Winks of Opposing Pitcher.

With the Bases Full, Batter Imagines That Next Ball Will Be a Fast One—It Was a Curve and He Missed It a Yard.

Any player who expects that another man will hand him anything in a ball game just because they happen to be friendly while off the field is crazy, according to Manager Jennings. Hughie believes that no matter how strong the ties of affection may be they will not stand the test of placing Damon and Pythias on opposite sides in the national game and expecting them to help each other. He tells a story to illustrate his point.

"There was a certain pitcher in the National league at one time who had a peculiar nervous affection of the facial muscles that made him appear to be winking all the time. I will not mention his name because he may be sensitive about this affliction, if you'd call it that. One day he was pitching a tough game when one of his chums, who happened to be with the other club at that time, came to bat in a pinch.

"The count had arrived at a point where the batter was in a hole, when he noticed the pitcher apparently winking at him.

"'Aha,' he said to himself. 'He is tipping me the wink that the old fast one is coming because he doesn't want to see me fall down with the bases filled. I'll just get a toe hold and bust this one a mile.'

"Acting accordingly, he took a lunge at the next pitch, and, as it happened to be a curve ball, he missed it about a yard. As he went out to his position he walked up to the pitcher and said very much in earnest:

"'Hereafter, Frank, never mind about tipping me off. I can do better when I use my own judgment.'

more managers. Ten years ago John McGraw was managing the Giants and Connie Mack was leading the Athletics. These two men are still piloting those teams and bid fair to do so for many years to come.

McGraw started his career with the Giants in 1900. Under him the New Yorkers won the National league pennants in 1904 and 1905, and the world's title in 1905. They lost the National league championship in 1908 because of Merkle's famous "boner" and finished third in 1909. In 1910 the Giants finished second, and were first in 1911, 1912 and 1913. The Giants lost the world's series with the Athletics in 1911, and in 1913 were again beaten by the Athletics for the big honors. In 1914 the Giants were nosed out in the pennant fight by the Braves, after the latter had made a whirlwind fin-

### CONFIDENCE IS GREAT ASSET

Texas Giant Discovered in Training Camp Who Has All Earmarks of Major League Pitcher.

The late wires say that Villa and the Homestead robbers have gone to the Ten Thousand Islands for the winter.

A gentleman in New York city wrote The Herald, asking about the hotels of Sanford. We sent him a copy of The Herald and referred him to the advertising columns.

School days—what wouldn't we older people give to be young again and starting the term with books on shoulder and mother's kiss on our cheeks.

Editor Callahan has sold the Ft. Myers Press to Henry Ford and we suppose the Press will now come out with the new streamline body, pressed fenders, self starter and be handled by agents everywhere at the mark down-price of \$6.98.

Huffaker of the Tampa Times has challenged Holly of the Sanford Herald to mortal combat on Plant Field. Huff's second should insist that there be no hair pulling if he wants his principal to stand a ghost of a show.

Sanford, like Fort Pierce, became tired of "watchful waiting" for outside capital to build a first class hotel and the home people are to build it themselves.

There is nothing so rare as a September day in Florida and all the June days of the writers are nothing as compared to our matchless September days and October days in this state.

Sanford, like Fort Pierce, became tired of "watchful waiting" for outside capital to build a first class hotel and the home people are to build it themselves.

After your visitors have packed up your celery for a few weeks they will need a change of diet. And what better change than the famous Apalachicola oyster.

We will do our best, but when they reach Sanford they always stay.

A SWEET SCENTED BUNCH
It has been generally well proven that a man who swaggers around, frays of totting a gun, threatens to use it, and tells how he stood at such and such a time with finger on trigger is a bully and a coward.

We would respectfully remind the business men of Leesburg who are members of the board of trade that a resolution was passed last fall binding all members to refuse to patronize any advertising scheme except that of an established publication in the trade territory, unless the solicitor present a letter signed by the special committee of three appointed to pass upon such schemes.

It is up to the newspapers through out Florida to expose these schemes and, as corresponding secretary of the Florida State Press Association, the editor of the Commercial has set certain machinery in motion by which absolute evidence will be secured in most instances when these schemers and fakers and fakirs try out their schemes the first time.

The only reason this and other important matters pertaining to the welfare of the state press have not been placed before the members of the association is that repeated ef-

orts to get the corrected list of members from the recording secretary have failed.—Leesburg Commercial.
SINGLE TAX FOR CALIFORNIA
ADVOCATES OF HENRY GEORGE WILL CALL FOR ELECTION
San Francisco, Cal., Oct. 2.—The single tax on land to pay all the expenses of government is to be voted on by the electorate of California, male and female, on November 7.

SAME HERE
A man came into the Advocate office Saturday and asked for a copy of the paper. When it was handed to him he said "alright" and walked out. We do not know when an incident pleased him more.

VELVET ROADS
Clarence Woods, that indefatigable booster of all that is good in Lake county and Florida has named the sand asphalt roads of his county the "velvet way" and there is some excuse for his enthusiasm but we recently rode over the velvet way of Lake county and also the brick roads of Orange county that have been grouted with cement and we much prefer the brick grouted roads to the sand asphalt.

ADVERTOURIST SEASON
The season of the advertising fakir and the advertising fakir is upon us. The Jacksonville Ad Club calls him the advertourist and it is aptly put.

There are five other initiative measures on the California ballot this fall, but the single tax proposal is the most interesting.

Auto Accidents
Buzz Wagons Continue to Play Havoc With Sanford People
There has been a series of auto accidents in the past few days, accidents, death and fires seeming to go by series.

PRECAUTIONARY MEASURE
School Board Resolved to Prevent Infantile Paralysis
Through the efforts of County Medical Inspector O. J. Miller, M. D. the Board of Public Instruction yesterday passed resolutions that will prevent any case of infantile paralysis in the Seminole schools this year.

THROUGH AVENUES OF PALMS
BEING A BOOST FOR FLORIDA CLIMATE, SCENERY AND ROADS
The Popular Mechanics pays Florida this tribute in its October issue: "Florida, with good claims for the oldest settlement in this country, is one of the newest states in point of development."

STANDING
A man's standing in the community is materially secured by his bank account. An account with the PEOPLES BANK means more to you than mere security for your working capital and more than mere checking service.

PEOPLES BANK OF SANFORD
WE WANT YOUR BUSINESS
H. R. STEVENS, President
C. M. HAND, Vice-President

PAOLA POINTS
Mr. and Mrs. J. W. Kersey of Green Cove Springs, who moved recently from Paola announce the birth of Margaret Frances, last Thursday.

INDISCREET ADVICE
Doctor—Madam, you must take more exercise. I should advise walking every day.

Musk's Power Great.
Musk in its pure state is so radioactive that, if held close to the body for a time, it will produce sores similar to those caused by radium.

IN AND ABOUT THE CITY

Little Happenings—Mention of Matters in Brief—Personal Items of Interest

Summary of the Floating Small Talks Succinctly Arranged for Hurried Readers

Mr. and Mrs. W. E. Watson have removed from their former home on Fourth street to one of the Heaton houses on Park avenue. R. C. Bower recently purchased the Thrasher house on Fourth street and last Saturday took possession where he and Mrs. Bower and the baby are comfortably ensconced: A Real Bargain—Seven room house and lot, good location. Good terms. Monthly payments, 7 per cent interest. N. H. Garner. See me quick or you may lose a bargain. 13-4tc

Mich., and Louisville, Ky., and Chicago, Ill and were gone six weeks. Say there are pretty places but nothing like dear old Sanford. For delicious hot biscuits use Juba Self Rising Flour—At all grocers. 6-tf Messrs. Willie and Jim Hoolahan motored over in their car to Laroota Sunday to get their brother and children, where the children have entered school. Sweaters and sport coats, Sweaters for men, women and children. In 1 Store. 13-1tc

had not been back in that period. He noted many changes in the city and had a good time renewing old acquaintances. Use Juba Self Rising Flour for delicious hot biscuits—At all grocers. 6-tf Mr. and Mrs. Ray Butts will move to DeLand this week to make their home. Capt. Butts is one of the popular conductors on the A. C. L. and his many friends here hate to see him leave and hope it will not be for long. Both Mr. and Mrs. Butts will be missed by a large circle of friends in Sanford. For delicious hot biscuits use Juba Self Rising Flour—At all grocers. 6-tf

FOHL'S CRACK BATTERY Two Former Breaker Boys Make Success at Cleveland. Pitcher Stanley Covesleskie and Catcher O'Neill Become Stars in Big Show Only Through Dogged Determination. Two former breaker boys of the coal regions of Pennsylvania are doing their share toward keeping Cleveland a big factor in the American league race. They form a battery that has been uniformly successful all season. The ex-athletic wonders who are increasing in fame with leaps and bounds are Pitcher Stanley Covesleskie of Shamokin and Catcher Steve O'Neill of Altoona. Oddly enough, both players were tried by Connie Mack in their undeveloped stage, but were let out. After numerous rebuffs Stanley Covesleskie, whose brother, Harry, won fame earlier in the major league, unheralded came to Cleveland this year and made good from the start. Covesleskie is an iron man, and has been worked repeatedly out of turn, especially being dependable as a relief man in close games. In a recent series with the Mackmen Stanley performed an uncommon feat. Cleveland was leading, 3 to 1, when Klepfer weakened in the ninth inning. The first two Mackmen to face him in the mound reached base. Lee

1908 MILLINERY 1916 Fine Stock in Novelties and Trimmings Arriving Daily MRS. GRACE E. WILLIAMS 106 East First Street Sanford, Florida

ALTRÖCK IS A FAVORITE Charles Coniskey, owner of the Chicago White Sox, has a high regard for Altröck. "He's always a favorite here," remarked Conmy. "He did some great work for us. I remember that post-season tie we had with the Cubs many years ago—the one which was never settled. "The West siders thought we were through as regards pitchers for the fourteenth game. I went down to the bench and asked Roy Patterson how he felt. Before Roy could answer, Nick chimed in and asked if he couldn't work. "I took him up on his proposition and let him go in. On the first ball pitched Jimmy Single cracked a terrific single to center. Then Altröck wound up and threw the ball over to first, catching Single asleep by several feet. "It's all off," I said to myself, as I stood behind the screen under the stand. "Well, who now? And we did win. Yes, I've always liked Altröck and am glad whenever he comes to town."

Catcher Steve O'Neill.

Nothing Much to Celebrate. An Ohio poet celebrated his ten thousandth parody on "Mary Had a Little Lamb" the other day without being able to think of anything else.—St. Louis Post-Dispatch. Priscilla Club The Priscilla Club will meet at the home of Mrs. John Pace Thursday afternoon at 3 o'clock. Woman's Club Meeting The first business meeting of the season will be held at the Woman's Club tomorrow (Wednesday) afternoon at three o'clock. A full attendance is desired.

PEOPLE AND EVENTS

(Continued from Page 3) Ayclon Bridge The Bridge Club season was opened yesterday with an interesting game at the home of Mrs. F. L. Miller which was prettily decorated for the occasion with pink roses and the dainty little flowers of the pink vine intermingled with ferns. The prize was won by Mrs. C. M. Vorce to whom was given a pretty piece of lingerie. A tempting refreshment course was served consisting of creamed chicken in patties, Avacodo salad, wafers, olives and coffee. Mrs. D. L. Thresher, Mrs. Gonzales and Mrs. Thigpen were guests of the club. Members playing were Mrs. Puleston, Mrs. Newman, Mrs. Herndon, Mrs. Vorce and Mrs. Connelly. Dance at Woman's Club A delightful farewell dance was given at the Woman's Club last evening by the boys of the younger society set in honor of Miss May Thrasher. The music was furnished by Mrs. Houser. Attending the dance were Misses May Thrasher, Virginia Brady, Elizabeth Stafford, Fannie Reba Munson, Clarissa Stirling, Frances Chappell and Miss Vivian Jones of Orlando; Messrs. Allan Jones, Hume Rumph, Ned Chittenden, Oliver Murrell, Reginald Holly, Geo. McLaughlin, Morris, Spencer, Ed. Betts and Mr. Marshall. Mr. and Mrs. Frank Miller are anticipating a delightful trip to Columbus, Ohio, where the National Embalmers will convene next week. Mr. Miller is secretary and treasurer of the organization, an office he has held for a number of years. World's Series The base ball fans will be glad to know that J. L. Hurt will again show the WORLD SERIES in detail on ELECTRIC DIAMOND constructed especially for these series at the IMPERIAL THEATRE commencing Saturday, Oct. 7th and will be continued Monday, Oct. 9th until with Boston or Brooklyn win four games. This is an expensive proposition, only three cities including Sanford in Florida has had this ELECTRIC effect of the World Series and we will appreciate your support on account of the heavy expense attached to putting this on. We have RED DAVIS offering five tickets for two dollars and will have to charge fifty

cents at the door, twenty five cents for ladies and ten cents for children. If we do not get the support we cannot continue these games and wish you would give us your support by taking the five tickets when Davis calls upon you. Clean Up and Beautify In line with the clean up campaign that will be pushed ardously from Oct. 3 to 9 will be found a number of locals, suggesting the seeds and bulbs that are seasonable for planting. While we are cleaning up we should also plant for the winter and spring gardens that our town may blossom like the rose in these seasons. The city forces and the Woman's club will pull together as in each preceding campaign. Attention will be centered on home grounds, streets, parks and alleys and it is hoped by the committees in charge to eclipse all former campaigns which have already placed Sanford in the foremost rank of clean and attractive towns. BIG TIME AT STUART East Coast Chamber of Commerce Will Celebrate Stuart expects to have a big celebration on October 10th and 11th, this date being the first birthday of the East Coast Chamber of Commerce and they have issued the following invitation to the world at large: All Civic and Commercial Organizations: The Florida East Coast Chamber of Commerce is just rounding out a successful year, the first of its existence, and will celebrate its first birthday at Stuart, Palm Beach county, on October 10th and 11th next. The purpose of this letter is to urge all progressive citizens of the fifteen counties in the eastern portion of the state to attend the Stuart convention. A very attractive and interesting program is being prepared, both for the business sessions and the entertainment of the delegates and visitors. Among the speakers who are expected to deliver addresses are: Mr. Frank Baker, president of the organization; Hon. Duncan U. Fletcher, United States Senator from Florida; Hon. Park Trammell, Governor of Florida; Hon. W. F. Swann, member of Congress from the Fourth District; Hon. W. A. McRae, Commissioner of Agriculture; Hon. R. E. Rose, State Chemist; Hon. Thos. F. West, Attorney General; Hon. C. B. Parkhill, ex-Supreme Court Justice of Florida; Mr. F. C. Elliott, Chief State Drainage Engineer; Dr. J. Petersen, a canning factory expert, and others. Much will be said and done which will be of interest and real value to the farmer, the business man and all who are interested in the work of an organization of this kind. Tick eradication, farming methods, the raising of cattle, hogs and poultry, a better system of land title registration, the East Coast Canal, the Federal Rural Credit Bill, a State Marketing Bureau, the calling of a State Constitutional Convention. Everglades Drainage and many other matters of importance will be discussed. The Florida East Coast and the Atlantic Coast Line Railway will allow reduced fares for this occasion. The outline of the program for the convention is as follows: Tuesday, October 10—Morning Business session, with addresses of welcome and responses from the counties represented. Afternoon—Short business session, followed by tour of the surrounding country by auto, including inspection of the St. Lucie River bridge. Evening—Banquet in honor of the delegates and visitors, with addresses by noted visitors. Wednesday, Oct. 11—Morning Business Session. Afternoon—Trip to St. Lucie Inlet. Evening—Entertainment at the Lyric Theatre. This closes the convention. Kindly advise Mr. Stanley Kitching, Stuart, Fla., as to how many will attend from your town, so that arrangements can be made to take care of everybody. Cordially yours, Horace W. Scott, Sec'y. Miami, Fla.

# CURBSTONE GLEANINGS

## BUDGET OF OPINION "JUST BETWEEN YOU AND ME."

### EVEN THE GATE POST NOT IN IT

#### A CHIEF IS AMONG YE TAKING NOTES AND FAITH, "HE'LL PRENT 'EM"---SO SAYS SAUNTERER.

I read a lot about the awful destruction wrought by the British "tank cars" but let me tell you they are no worse than one of our common kind when the driver is tanked.

The snow birds are coming and the houses here are almost filled with people before the season really begins. What a chance for a man with money to invest to build a few nice homes for rent.

I notice two workmen with hammers knocking away on the side of the Seminole Bank building. They are roughing it up so they can stucco the building. What an elegant opportunity for the Town Kicker to get a job at knocking and get paid for it.

Seeing the store of Felix Frank closed the other day I asked Jim Harris what was the matter and he said it was on account of "Rush Ho-sanna" which sounded queer to me never having seen Felix in any rush. Come to find out it was a holiday and not a breakfast food.

A friend of mine said yesterday that we ought to have a golf course for the winter visitors but I informed him that what we needed was a hotel that would bring the winter visitors first and we could easily get the golf course afterwards. You can't feed the tourists on golf grounds.

That ordinance about broken glass, shell and flint rock on the streets was not a bad idea and if it originated in the fertile brain of my friend, Frank Miller I will give him credit for having plenty of grey matter in his cranium even if he is a Catts man. I have often noticed broken glass on the streets and wondered how many tires were punctured thereby. They say that tires

cost money and a five cent boy could cause the expense of several dollars to the driver of a car.

That idea of using the bulkhead for some good purpose this winter appeals to me strongly. There is some of this land that will not be useful for mercantile purposes for many years to come and if we could have a fair grounds and ball park on part of it there would be an added attraction for the city this winter and next summer. I am heartily in favor of the street fair instead of going seventeen miles into the country for a fair grounds.

I understand that there is a dog tax in Sanford but one can hardly believe it when you note the hundreds of worthless curs that roam the streets in the daytime and turn over the ash cans in the alleys at night in search of food. I know that they do not pay a dog tax for if the owners were required to do so they would kill the dogs. A good dog catcher with a wagon could catch enough penny fices in this town to make soap for the armies of Europ.

Few of us realize what a blessing Sanford has in the numerous artesian wells that supply the citizens with pure water all the year round. And for those who cannot drink the sulphur water the Elder Springs furnish the purest of soft spring water daily at a nominal figure. Other cities there are in Florida who have never been able to get a pure drinking water. They have tried all kinds of means to filter it and have specialists perform operations on it and have scientists pronounce it pure but the scent of the impurities hang round it still. It is doubtful if there is any better drinking water anywhere in the United States than the Elder Springs water which flows from the side of the hill on the

Elder farm near this city and is caught in a concrete basin and from that is drawn into pipes and pumped into glass receptacles, no human hands touching the water. It has been pronounced pure and is pure and it is a big asset to Sanford and I predict that some day it will be one of the Caribbads of Florida—a mecca for the sick and a panacea for all ills. Then our pure artesian water that is flowing in every doorway is all that could be desired and there is the greatest abundance of it. Blessed indeed is Sanford and Seminole county for nature has been most lavish in her gifts to us.

Everybody who has children attending the school, or who has given the problems connected with the school life of children serious thought will agree with the following conclusion reached by the Gainesville Sun:

"It is a fact that will admit of no argument, that no boy or girl can do really effective work in the school room who keeps late hours at night going to parties or picture shows. The mind that is diverted by these lighter things from school room problems is sure to go to recitations unprepared or, at the best, indifferently so. Work is the only name for study, and to the child mind it sometimes seems unreasonably hard, but regular hours, with the old rule of "early to bed, and early to rise," etc., is best for both the body and mind of the school boy and girl.

I have noted the beef that is brought to this city many times and have wondered if it had any inspection at the time it was killed, if there was any one looking after the method in which it is brought here, if the cattle and hogs were healthy when they were killed and many other items that enter into the general health of the community. If this matter is investigated there might be an interesting story to tell. The Tampa people are getting wise to the methods employed by the people who have been bringing beef into that city as the following from the Tampa Times indicates:

"Probably one of the most important ordinances introduced into the council in some time is the meat inspection ordinance introduced last night. An ordinance to protect the health of the people of the city of Tampa and relating to the construction and maintenance of slaughter houses and abattoirs;

the inspection of slaughter and preparing of animals for human food, and sale of the meat in the city of Tampa" is the title. It was placed on its first reading and carried over until next meeting night.

The ordinance is quite lengthy in composition and quite stringent. Every method of sanitation known to experts in the handling of beef and meat products has been embodied in the ordinance. A heavy penalty is provided by the proposed law for violation of any of its parts. According to the ordinance an inspector who is a graduate veterinary surgeon will be appointed as an inspector. It shall be his duty to inspect all animals, either before or after they are killed. He shall inspect all meat shipped into Tampa and shall mark the same with a tag or some other sign designating the fact that it comes within the law. Meat not handled properly or not fit for use is to be condemned by him and saturated with oil, effectively preventing its use.

Compensation of the inspector, according to the ordinance, shall be made up of fees to be charged for inspection arranged in a varying scale form. Farmers are allowed to kill and ship meat to Tampa but are required to notify the inspector upon arrival, so he may immediately make an inspection. A certificate that the meat is wholesome and the farmer has complied with the law may then be issued. Cattle found to be diseased before being killed are branded with a permanent brand to insure safety in their non-usage. The ordinance also provides that no horses or mules may be killed for food products in Tampa.

#### Rural Credit Law in Brief

The act provides for the creation of twelve Federal land banks, and permits the establishment of any number of joint stock land banks for the purpose of making loans at a reasonable rate of interest, for long periods of time on farm lands.

A Federal Farm Loan Board has complete control over these banks.

Twelve Federal land banks are provided; one in each of the twelve districts, into which the country will be divided. These banks are empowered to lend on first mortgages on farm lands, in amounts of \$100 to \$10,000 for approved purposes. The loans are to be made through farm loan associations and agents. No loan may be made for more than 50 per cent of the value of the land mortgaged and twenty per cent of the value of the permanent insured improvements upon it.

National Farm Loan Associations—local organizations composed exclusively of borrowers—are authorized. These associations must be stockholders in the land banks in proportion to the amount the members wish to borrow. Eventually, all stock in the Federal land banks will be owned exclusively by these associations.

A reasonable interest rate is established. The act prohibits the Federal land banks from charging more than 6 per cent on any mortgage, or requiring fees not approved by the Farm Loan Board.

The borrowers will share in the net profits of the bank, because they are stockholders. It is contemplated that ultimately, the borrowers will be the only stockholders.

Long term loans are provided, for by authorizing mortgages for periods of from five up to forty years.

Small annual or semi-annual payments on the principal are made a required feature of all mortgages.—The Progressive Farmer.

Christian Endeavor in October How many go to St. Cloud, Nov. 3-4th, from the Sanford Societies?

The special division of work as an "altogether" in our State Union for October is the one combined—emphasis on the C. E. pledge in actual living it and work in behalf of the Children's Home Society, which is the one good cause which all our societies should be interested in, no matter to what church they may belong. State President Duncan B. Curry, and Mr. Fagg have gotten out a letter telling about the "Baby Club" plan which succeeded so well two years ago. Please let the Press Department know how you carry out the October plan, which is really a part of the Sunshine Department, which is also placed in care of the threefold department superintendent in Interlachen.

Sunshine Department letters during the past week were sent the First and Tampa Heights Presbyterians of Tampa; and the Presbyterian societies in Puntis Gorda and Fernandina. Some distance it is between the last named societies, that is in number of miles. Distance is no matter when such mutual work concerned.

We wonder how much interest the district presidents are taking in the soon coming conventions in their district fields. Hugh Hammond in

Jacksonville, of Northeastern, after vacation spent at Brevard, N. C., is pushing plans for Fernandina, Oct. 27th-29th, and wants to know number coming from each society.

From a recent issue of The St. Petersburg Times is noted a mention of four Presbyterian Endeavorers, William, Charles, Ernest and Miss Frances Tippetts. The first two will enter Harvard law school. Ernest, Mercerburg preparatory school to get ready for Princeton, and Miss Tippetts will attend the State College for Women at Tallahassee. Is not this an Endeavor family that St. Petersburg may well be proud of?

Gainesville loses for the school term a few of its Endeavorers, but probably gains more by being so fortunate as to have the State University near by.

From West Palm Beach and its Congregational Society have gone away to school recently Miss Pearl Chillingworth, going to the State College, Tallahassee; Miss Pearl Dutch to Boston, for attendance at the Sargent School of Physical Education, and Miss Anna Mae Porter, to our own Florida school, Stetson University.

Please keep us posted of where your Endeavorers are leaving for school days, especially if they are going into new surroundings, where the Introduction Department should prepare them a welcome to the nearest C. E. fellowship. Grace A. Townsend.

#### Painful Bunions.

Dissolve one ounce of camphor gum in two ounces of kerosene and apply to your bunion freely. You will be surprised to find how quickly it takes the softness out. Painting them with iodine, to which a very little glycerin has been added, is, perhaps, the best means to a cure. In the meantime, easy shoes, rather long, should be worn, with a pad of felt under the joint to prevent any friction.

#### No Rest for Mamma.

As bedtime comes and curtains fall, my irksome cares seem put to rout, as, worn and weary into bed I crawl, from my household duties tired out. But, as snug between the sheets I lie, and heavy lids have ceased to wink—from baby's crib there comes a cry. "Mamma, please get me a drink."

Jolly Camping Party

Mr. and Mrs. C. E. Henry chaperoned a crowd of young folks on a camping frolic last week at Crystal Lake.

Another camping party over which Mrs. Henry had supervision was a party of boys near by which included Hawkins and Walter Connelly.

In Honor of Mrs. Pattin

In honor of Mrs. Richard Pattin, Mrs. Fred Williams entertained on Friday afternoon with a charmingly informal affair at her cozy home on Oak avenue.

Farewell Party to Mr. and Mrs. Thrasher

The handsome home of Mr. and Mrs. H. R. Stevens was the scene of a very delightful farewell party on Friday evening.

Informal Evening Party

A gay time was enjoyed by a happy group of young people on Thursday evening, the guests of Miss Stella Vincent.

Charming Afternoon Tea

Mrs. Peck was hostess at a charming tea at the rectory last Wednesday afternoon reminiscent of cataloging days at the library.

Surprise Party

Mrs. Joe Meisch planned a charming surprise party on Thursday afternoon for her young house guests.

their hostess were Florence and Helen Witte, Doris and Mildred Hand, Mildred Goss, Adele Runge.

Personal Mention

Mr. and Mrs. Forrest Lake returned Saturday from a short trip to Chicago.

Miss Edna Plant and Miss Hazel Stevenson have returned for their school duties and are pleasantly located for the winter with Mrs. L. G. Stringfellow.

Mr. and Mrs. O. L. Taylor have returned from Hot Springs and other points of interest.

Dr. Ralph Stevens left for Philadelphia Thursday night, called there by the illness of a friend.

Mr. W. T. Devine and family left Saturday for Portsmouth, Va., where they will reside.

Mrs. Alfred Lilja returned Saturday after a summer pleasantly spent at points north with relatives and friends.

Miss Vera Terheun returned from Jacksonville today by steamer. While the guest of Miss Reba Gilbert she was the recipient of much attention.

Miss Norma Herndon and Miss Julia Zachary left today for Orlando where they will attend school this winter at the Pell-Clarke School for girls.

Mrs. C. A. Smith returned from Kissimmee on Saturday with her little grand daughter, Margaret Peters.

Miss Futch and Miss Elizabeth Tribble, two of the public school teachers arrived the latter part of the week. Miss Tribble taught here last winter.

Mrs. J. H. Ferguson has returned from Jacksonville with her grandson, Webster Ordway. Webster attends school in Sanford, spending the school year with Mrs. Ferguson.

Mr. and Mrs. O. L. West have returned to their former home in North Carolina, to reside.

Mrs. Ed. Lane is home again after several weeks spent delightfully among friends in Jacksonville.

Mr. and Mrs. D. L. Thrasher and daughter, Miss May motored to Tampa today where they go to reside, accompanied by Mr. and Mrs. R. A. Newman.

Mr. Leslie Kroeger of Newark, N. J., came down on the Clyde excursion from New York, and was the Monday guest of Mr. and Mrs. R. A. Terheun.

Mrs. Chas. Dingee is expected home this week from New York, where she has been spending the summer, including Washington and Niagara Falls in the itinerary.

Mr. and Mrs. Richard Pattin have taken apartments in the Woodruff home on Third street for the winter.

BANK ROBBERS DONE

One is Drowned and the Other One Surrenders

Fort Myers, Fla., Oct. 3.—The chase for the four bandits who robbed the bank of Homestead, Fla., on September 15 of \$6,000, ended today when the body of James Tucker, one of the bandits was found in Lopez river and Hugh Alderman, who police say confessed his part of the crime, surrendered.

Tucker's death makes five resulting from the robbery. During their flight down the Florida east coast the bandits fought several pistol

fights with pursuers and three possesmen were killed. They escaped from that section, went to Key West and started up the west coast.

Alderman said today that he and Tucker tried to swim the river together and that he was ahead. When in the stream Alderman said he called back to Tucker and asked if he thought he could last until he reached the opposite bank.

Tucker's body was found by Charles Tigertall, an Indian boy. Alderman got across. He went to a house on Turner's Island, arriving during the absence of the Lopez family, the occupants.

Aldermen and Tucker had been two days and nights without food when death and surrender ended the pursuit.

FLORIDA SUMMERS ARE GETTING GREAT

WILL SOON BE POPULAR TO SPEND THE SUMMER IN FLORIDA

Florida as a summer resort is growing decidedly in favor. It has made remarkable progress in this direction during the season just closing. Not once, but a considerable number of times the steamers plying between New York and Jacksonville have made the round trips since July 1, with their passenger accommodations practically filled by tourists escaping the torrid heat of the northern summer climate.

Filed away in the minds of most of us is a lot of impressions that have ripened into convictions, and we don't know exactly where we got them or why we keep them.

One of these beliefs that prevails among some very sensible people outside the state is that Florida, being so very far south is inhabitable in summer only by those who never lived anywhere else or by those who are forced by circumstances to stay and so make a virtue of necessity and brag about summer conditions here.

These same well-meaning but hopelessly ignorant people declare that Florida's excessive summer heat brings sunstroke so frequently as to cause no comment; that malaria keeps us burning with fever or shivering with chills, and they feel sorry for the Florida Cracker, native or adopted for half a dozen other ill defined and intangible reasons.

A few plain, proven facts seem to contradict these beliefs and if they could be brought squarely to these sorrowing critics they might be shocked into a change of heart—but perhaps not, for some of our pet heresies are too deeply rooted to be removed by facts or arguments.

In the first place, Florida, of all the states in the Union has the smallest range of temperature the year through, summer and winter. Contrast an annual variation of sixty to seventy degrees with that of Chicago and other northern localities, where the temperature glides from 25 degrees below zero in January, to 100 above in July, with sometimes a change of 40 or 50 degrees in the same twenty-four hours.

Then Florida has deep salt water on all sides, except where Georgia touches it on the north. From deep blue sea come daily the breezes that moderate the daylight temperatures and make the nights almost invariably cool. The heat waves of northern climates bring death and destruction because the nights bring no relief from the heat of the day.

Florida's climate does not bring sunstroke. The State Health Department has no record of a case occurring in the twenty-six or more years of its history. In genuine sunstroke the body temperature rises from 6 or 7 to 10 degrees above normal and the patient almost literally burns up internally. The rare cases of heat exhaustion in Florida do not produce this high internal temperature and a few hours of rest restore normal conditions. Death from heat,

even in Florida's hottest months is so rare as to be practically unknown.

Then the malaria proposition! Florida has it, as does every other section where the anopheles mosquito roams about untamed, and where the individual with the germs of the disease in his blood is free to come and go. They have it in Alabama, in Minnesota and in Alaska and also in the forty odd other states and possessions of the United States of America.

And there's another thing about malaria. Often the diagnosis is wrong and when a man (or woman) has eaten too much or the wrong thing and he (or she) wakes up the next morning with a coated tongue, a bad breath and sore muscles, he calls it malaria. It is really a case of auto-intoxication, caused by the infection of the system with the poisons of accumulated effete matter which have not been carried off by natural methods and means.

"Billous" is a much abused word and most laymen don't really know what it means or recognize the condition when it actually occurs. And this misuse of the word and of the term malaria has done much to harm the reputation of fair Florida.

Seeing is believing, or it ought to be. Unimpeachable records must be convincing and if Florida summers are unhealthy, the sick and death rates don't show it. These rates show no increase over those of the cooler months and more than that, they are known to compare most favorably with those of other states and sections. In fact the death rate of Florida is below that recently announced for the entire United States for the year 1915.

MUST HAVE CERTIFICATES

State Superintendent Sheats Issues Manifesto

State Superintendent of Public Instruction W. N. Sheats has issued the following manifesto concerning certification of teachers and the standardization of high schools that should be of interest to all school people.

"If trustees and county boards persist in ignoring the board in regard to the requirements for high schools, it matters not whether it be in the certification of teachers or otherwise, schools simply will not be recognized as high schools and the diplomas issued graduates will be annulled.

"We expect to send a very inquisitive blank soon asking questions in detail of every school claiming to be a high school. None will be recognized as such that do not meet all the requirements, even if it be your county high school. A list of those accredited will be published, as well as a list of those claiming to be high schools which are not. I urge you to carry out these regulations at any cost. The state board is determined to carry them out in regard to high schools.

"I have ruled that where a specialist does not teach any of the regular academic branches that he may teach manual training, Spanish, French, German, or such subjects with only a special certificate; but all those teaching some special subject and other academic subjects must have a first grade certificate."

VETERANS REUNION

Tampa Will Greet the Boys in Gray Tampa, Oct. 3.—Tampans have been making elaborate preparations for the entertainment of Confederate Veterans of Florida, who will hold their annual reunion in the city October 17 to 19 inclusive, and a large attendance of Veterans, sons and daughters of Veterans and visitors generally is expected.

This will be one of the last reunions held by the Veterans, many many of whom have grown too old to attend, by reason of which Tampa invites all lovers of the cause to join in paying them tribute. Union Veterans will also participate in the reunion, a feature of which will be a "Blue and Grey" barbecue.

Florida Publishers Meet

To discuss the news print situation, the feasibility of a paper mill owned by newspaper publishers in Florida and needed legislation to relieve the present conditions, President Oscar T. Conklin of the Florida State Press Association has called a gathering of the newspaper publishers of Florida to be held in Jacksonville on the 6th of October. Telegraphic notification was sent out to the various newspapers of the

state recently by President Conklin from Miami.

The meeting called by President Conklin includes the entire membership of the Florida Press Association, and efforts will be made to secure railroad rates for the occasion.

The news print situation throughout the United States has grown so acute that many of the smaller papers fear they will be forced to suspend publication unless relief is quickly afforded.

Because of the interest in the situation and the necessity for action, it is expected that the October 6 meeting of the Press association will be one of the largest attended on record.

After the Honeymoon. She—"If I'd known you'd be such a brute to poor Fido I'd never have married you." He—"The anticipated pleasure of kicking that miserable little beast was one of my chief reasons for proposing."—Stray Stories.
