## SEMINOLE COUNTY VOTERS WILL REACH 4,000 SAYS THE REGISTRAR

### Official Count Not Made But It Will Be Published

### WOMEN SWELL LIST

#### PROBABLE THAT SOME NEGRO WOMEN HAVE GIVEN WRONG AGES

The registration books for the county have not been checked yet officially but in the opinion of H. C. Dubose, the registration officer, the city of Sanford will have about 2,400 registered voters and the county as a whole will have 4,000 voters in the general election. It will be the duty of the registration officer to publish the registration list in the paper a certain period before the election.

This big registration is made possible this year by the women registering for the first time and will give the county a much larger vote than it has ever had in any former election. This means that it will take much longer to vote the long ballots and much longer to count them and the returns will be longer coming in than ever before except in the states where they have voting machines.

Now that all those entitled to vote have registered it will devolve upon the voters to study the ballots and place in their minds the man for whom they will vote and the long ballot with the many names thereon will be confusing to the new voters and many of the older ones. There have been many negro women in Duval county and other counties in the state who registered giving wrong names and wrong ages and wherever these are found they will be given jail sentences. There are also some fraudulent registrations among the men and they will also be caught before they have a chance to vote. The election laws are very strict and anyone caught trying to break these laws will be dealt with by state, county and U. S. officials who are keeping a close watch on the registration lists.

## Market Bureau For Sanford

### WILL BE ESTABLISHED AGAIN IF GOVERNMENT CAN FURNISH SAME

Sanford must have the Bureau of Markets this season as we had it in the seasons that have passed. It is one of the most important factors for the developing of our farming operations that can be obtained giving the authentic news from the government sources. The Florida Truck Growers, Inc., have taken up the matter as the following correspondence indicates:

Sanford, Fla., Oct. 12, 1920  
U. S. Department of Agriculture,  
Bureau of Markets,  
Washington, D. C.

Gentlemen:  
It was our pleasure during last winter and spring to offer the United States Bureau of Markets an office in our building for the use of Mr. M. S. Wiggins, Assistant in Market Surveys, who was stationed in Sanford.

We understand that if possible Mr. Wiggins will be sent to Sanford again this season and in that connection will say that he should be more than glad to offer office space free of charge for his accommodation. The reports as gotten out by Mr. Wiggins every day in this section are a great help to the growers throughout the state and we are willing to do everything possible to assist in securing adequate accommodations for him while he is here.

May we not expect confirmation of this at your earliest convenience?

Yours very truly,  
SANFORD TRUCK GROWERS, Inc.  
J. G. MICHAEL, Secy-Treas.  
U. S. Department of Agriculture  
Bureau of Markets  
Washington, D. C., Oct. 15, 1920  
Mr. J. G. Michael,  
Secy-Treasurer, Sanford Truck  
Growers, Inc.,  
Sanford, Florida.

Dear Sir:  
I have your letter of October 12th addressed to this Bureau with reference to your kind offer to furnish Mr. Wiggins free office quarters at Sanford this season in connection with our Market News Service on Fruits and Vegetables.

We realize the importance of market reports to the truck growers in the Sanford district and hope that sufficient funds will be available to carry on the work at Sanford again this season. You are probably aware of the fact that the appropriation for this work available on July 1, 1920, was reduced about \$40,000 below the amount available last year. We have effected economies in a number of directions in an effort not to reduce our field work further.

It is a little early yet to promise that an office can be opened at Sanford but if funds are available we hope that Mr. Wiggins may be again assigned to that station. In case it should be necessary to call upon the local growers for some further financial aid in connection with the expense of this service, I assume that liberal co-operation will be forthcoming.

Very truly yours,  
C. W. KITCHEN,  
Specialist in Market News  
(Fruits and Vegetables).

## Saving System For Workmen Is Adopted

### LOOM WORKS OF WORCESTER HAS PLAN FOR ENCOURAGING THRIFT.

(By The Associated Press)  
WASHINGTON, Oct. 19.—The working man will support a saving system which includes retention of a part of his weekly wages from his pay envelope if the system is understood thoroughly by him, John F. Tinsley, manager of a loom works at Worcester, Mass., today told the American Bankers' Association. He urged adoption of such a plan throughout the country.

Mr. Tinsley's recommendation was based on the successful operation of such a saving system among hundreds of employees in the Worcester mill, which has become known as the Worcester Industrial Savings plan. In brief, the plan consists of having the workers sign cards, authorizing the weekly deduction from their wages and designating the bank in which they wish the money deposited, and of organizing shop committees to encourage thrift. Weekly deductions may be increased or decreased by notifying the shop foreman, and each week a statement is placed in the pay envelope showing the weekly and gross deposits.

"Of the upwards of 5,000 subscribers in Worcester," said Mr. Tinsley, "only 150, or three per cent, have dropped out."

Four conditions were named by Mr. Tinsley as necessary for the successful operation of the plan: The system itself must be simple, flexible and easily understandable; the management must energetically support the savings idea; the foremen must be thorough believers in it and the organization for introducing it must be enthusiastically in favor of the savings idea.

The experience at Worcester, Mr. Tinsley declared, was that the foreign-born employes "as a general rule support the plan better than do the English-speaking."

### ADVERTISING PAYS SAYS ALBERT DORNER

Albert Dorner says advertising pays and especially in the Sanford Herald. Some time ago Albert dropped a small item in the Want Column asking for corn in any quantity and received answers from all over the country and today ordered some from Longwoods, Maryland, where A. W. Wallis saw the Herald and answered Mr. Wallis is shipping the corn here and will come down himself to look over the situation.

People advertising in the Herald are surprised to find out that this paper circulates all over the country and in foreign countries. This is not surprising when you remember that the Herald is 13 years old and has a fine subscription list both local and foreign.

## Prominent Republicans Bolt The Party

### OVER ONE HUNDRED REPUBLICANS STAND FOR REAL AMERICANISM AND DEMOCRACY

NEW YORK, Oct. 18.—A joint statement by "over one hundred representative men and women who have usually supported the Republican or Progressive tickets" announcing their intention to vote for Cox and Roosevelt and those senatorial candidates "who stand honestly and frankly for ratification of the treaty and adherence to the league," was made public here tonight by Hamilton Holt, magazine editor.

This statement set forth that "it is now too late to talk of a new 'association of nations' to be created under Republican auspices" and, repudiating the present Republican leadership that "has permitted the Republican party to become a 'little American party,'" urged all Republicans and Progressives to "put patriotism above party" and add their names to the list of signers.

This list, according to Mr. Holt, is increasing daily. An analysis given out with the statement said that it included fifteen Republican officers of the League to Enforce Peace; clergy; men representing all the principal denominations; the presidents of Oberlin, Vassar, Smith, Bryn Mawr and Mount Holyoke Colleges; several veterans of the great war and nine former Republican or Progressive party managers and office holders. In the last classification were listed Charles P. Howland, of New York; Violet M. Leroy, New York; Theodore Marburg, Baltimore; V. H. Nicola, Bennington, Vermont; Herbert Parsons, New York; Elias D. Salisbury, Indianapolis; Edwin E. Slosson, New York; Richard Welling, New York; and Alice White, Wellesley, Mass.

### DANIELS TO PROBE MATTER OF MARINES KILLING HAITI NATIVES.

WASHINGTON, Oct. 19.—Sweeping investigation of the conduct of marines in Haiti, particularly with reference to charges of illegal killings, is ordered in Secretary Daniels' precept to the recently appointed court of inquiry, made public yesterday. The court, headed by Rear Admiral Mayo, was ordered to convene here next Friday and its subsequent proceedings will be on its own motion.

It was generally believed the board would decide upon Haiti as the logical place to conduct the investigation. The precept specifically directs that the board investigate grounds for the allegation of Brig.-Gen. George Bennett, former marine commandant, that there "had been practically indiscriminate killings going on for some time," in Haiti. The statement was made in a "personal and confidential" letter October 2, 1919, to Colonel John H. Russel, ordering an investigation. General Barnett declared yesterday that the construction of "promiscuous killing" which had generally been placed on the language in his letter, was erroneous and that he had meant killings "without due process of law."

Shipment of citrus fruit from St. Lucie county groves has started on an extensive scale. The outlook for this season's crop is unusually good, both as to amount of fruit and market conditions. Shipment began a little late this year, due to the tardiness in the coloring of the fruit. Last season the first car was packed here September 16th.—Fort Pierce News.

## DEMOCRATIC RALLIES ALL OVER THE COUNTY ONE HERE SAT. NIGHT

### Contributions Still Continue To Come In

### LOYAL DEMOCRATS ARE HELPING TO WIN GREATEST VICTORY OF MODERN TIMES

The loyal Democrats are contributing to the campaign fund very generously indeed, and every day sees new ones coming across and many of them have sent their contributions direct to headquarters having been solicited by the headquarters before the fund was started and by the way the fund has been swelled chiefly through the untiring efforts of C. H. Laffer, who is making a canvass of the business houses and homes of Sanford and is meeting with great success. It is though now that Seminole county will be at the head of all the counties in the state in the matter of contributions when our small population is taken into consideration. In a letter to the editor of the Herald this morning Wilbur W. Marsh the treasurer of the National Committee in New York urges us to keep up the good work all this week and that he must have the remainder of the money before the 25th in order to place it where it will do the most good. ### NO CHANCE TO STOP WOMEN VOTING IN THE NOVEMBER ELECTION

WASHINGTON, Oct. 19.—The Supreme court yesterday refused to advance the hearing of the suit brought by Chas. S. Fairchild, for an injunction restraining Secretary Colby from promulgating the Federal amendment. This precludes any possibility of the case being brought up before the November elections.

The court also refused to review the conviction in New York of the American Socialist party for violation of the Federal espionage act. The party was fined \$3,000 for publishing a pamphlet by Scott Nearing, entitled the "Great Madness." Nearing was tried at the same time, but acquitted.

### CHOP PRICES OF PERCALE PRINTS EVEN 50 PER CENT.

NEW YORK, Oct. 19.—A flat 50 per cent reduction in the prices of printed percales, to the cutting and jobbing trades was announced by selling agents of a well-known line here today. This was said to be regarded in the trade as even more radical a readjustment of prices than that announced for bleached cottons last week. The slash in printed percale prices is to a basis of fifteen cents for 4-4, 60x60 goods, and seventeen cents for 4-4, 58x72s.

### Last Night at Monroe and Tonight at Chuluota

### DRAWING CROWDS

### THE SPEAKERS ARE STIRRING UP ENTHUSIASM EVERYWHERE IN COUNTY

The Democratic Executive Committee of Seminole is waging a great fight in the interest of the party and the committee and the speakers bureau have been busy for the past two weeks making arrangements for speaking and holding meetings at various points in the county. It has been the purpose of the committee to hold a meeting in every precinct in the county if possible and where this was impossible to combine the two precincts into a big meeting. Last night the meeting was held in the beautiful new school house at Monroe where a large crowd had gathered to hear the issues of the day discussed by the speakers.

R. J. Holly, member of the committee and secretary, acted as chairman of the meeting and introduced the following speakers: Judge Householder, Judge Maines, Hon. Geo. A. DeCotte, Sheriff-elect C. M. Hand and William Shelley who made splendid addresses all of them along the same lines but all of them different and they were listened to with marked attention. The speakers called attention to the fact that the suffrage question of the women having been settled that the new voters should have the same obligation to vote for the Democratic nominees as their men relatives even though they had taken no oath in the primary.

All of the most important questions of the day were taken up by the speakers and the meeting was a most enthusiastic one in every respect. Tonight the speakers go to Chuluota and tomorrow night to Geneva and on Saturday night there will be a big rally in Sanford at the corner of Park avenue and First street at which all of the local speakers and some out-of-town speakers will be present.

Every voter in the county should be in Sanford next Saturday night.

### WHOLE FAMILY WANTED THE DAILY HERALD

The other-day Mr. W. R. Raten came in and subscribed for the Daily Herald. Before he had left the office his wife telephoned and ordered the Daily and while we were talking to her, her son E. S. Ward came in and subscribed, all of these papers to go to one home. We finally compromised by allowing Mr. Ward to have the subscription for the family. It shows that whole families want the Herald and even the babies cry for it.

### REVENUE OFFICER AND FRIEND ARE ARRESTED

Alleged They Pulled Out Bottle of Liquor at Lakeland Cafe and Caused Trouble.

LAKELAND, Oct. 19.—J. U. Grear, internal revenue officer for Florida and Georgia, and Dr. John Keller of Tampa, were arrested here yesterday afternoon. Grear, on a charge of being drunk and Keller on a charge of drunk and having liquor. The former, put up \$25 bond and the latter \$125 bond for appearance Tuesday. They were traveling in Keller's car and stopped at Buchanan's cafe, where they ordered a meal. They took out a bottle of cognac, put it on the table and started drinking. **BARSTO BE LET DOWN FOR THE PROFITEERS**

WASHINGTON, Oct. 18.—The government drive against the high cost of living, abandonment of which has been set for Nov. 1, has cost approximately \$500,000, according to figures at the department of justice which today sent letters to all fair price organizations informing them of the conclusion of the campaign. Department officials said the drive had been successful, but that lack of funds had forced the decision to dissolve the organization built up for the war on profiteers. They pointed out to collection of fines aggregating more than \$275,000 assessed against convicted profiteers, as evidence of the success attained. Further fines might be collected, it was added, from more than 1,000 persons and firms in-

dicted through activities of the fair price groups. Convictions obtained through the fair price commissions totalled 181 records of the department showed. There remains more than 200 other cases where arrests have been made but the trials have not been held. Prison sentences imposed aggregate ten years and ten months in cases already decided. Officials said this represented more than forty convictions since most of the sentences were short.

**HISTORIC SWORD COMES TO THE UNITED STATES**

(By The Associated Press.) WASHINGTON, Oct. 18.—The sword of "Bonnie Price Charles," worn by him at court, and one of the romantic blades of Scottish history,

has come to the United States. It is the gift of Lord Garioch, only son of the Earl of Mar of Scotland to Mrs. Clarence Crittenden Calhoun, of Washington, one of the descendants of the House of Mar on her mother's side. The historic sword was delivered through the British Embassy where it came in care of the Ambassador, Sir Auckland Geddes. The words of presentation which accompanied the claymore declare it was sent "in view of the fact that it was for their adherence and loyalty to the cause of the Stuarts that the Earls of Mar suffered so greatly in their estates and fortunes that some of the family in exile sought refuge in America."

**OCEAN CASTS UP OLD SHIP**

Identity of Ancient Vessel Found on Rockaway Beach Uncertain—May Be Historic Pirate.

Rockaway Beach has another sensation, the Brooklyn Eagle states. Not content with washing up hundreds of thousands of crabs, lobsters and clams, the great tide recently dug an ancient oceanic relic out of the sands and left it to bleach in a winter's sun. Like some skeleton of a departed dinosaur, according to Capt. Joseph Meade of the Rockaway coast guard station, it is an old sloop of war.

Nobody knows its history. From all appearances this washed out corpse in an ocean graveyard was once a saucy war vessel, mounting nine guns, including the old time bow chaser that used to bark with ferocity at pursuing vengeance.

The ship is built of oak, her spikes are handwrought, her ribs are of stout oak and her bowsprit, broken short at the cap is a mighty headstone on a sandy grave.

The old salts who are experts on such matters say the buried hull is an old British sloop. During the war of 1812 privateers manned by adventurous Yankees frequently hung about Jones' Inlet, towing in their prizes for anchorage and running to shelter when British men-of-war, out for revenge, bore down upon them.

Another tradition unearthed from the old skippers of clipper ships, now come to anchor on the Rockaway shores, has it that Capt. Jones, for whom Jones' Inlet was named at one time just prior to the Revolutionary war, pursued a profitable trade in contraband in the vicinity, unknown to the British customs. The handwrought spikes and the general shape of the rotting wreck plainly indicate that she was an oldtimer, very likely of Revolutionary times.

Village Within Extinct Volcano. "Bottom" is the paradoxical name of a little village perched on the peak of mountain which comprises the island of Saba, in the Caribbean sea. No other spot in the world is quite like Saba; of all the islands of the tropical seas, it is the strangest, the most forbidding. Sheer conical, frowning, this island rises from the waves, its topmost pinnacle veiled in drifting clouds 3,000 feet above the sea. Its coast rock-bound and precipitous. It is seldom sighted by ships, but those who do pass it would never dream that it was inhabited.

The mountain is an extinct volcano and the town of Bottom rests in its crater. No harbor breaks Saba's coast; there is no safe landing place or anchorage, and if one would visit the town one must step ashore from a small boat and climb a steep stairway of hundreds of stone steps or toll up a narrow, difficult trail. Every article brought to Saba from the outside world must be carried up the heights. The inhabitants are sailors, as they have been since the earliest times, and though they sail the seven seas they always return to their island home.

**NOTICE TO PUBLIC!**  
There seems to be a rumor being circulated that I have spoken to colored people about registering to vote. The rumor seems absurd and I am sure no fair-minded person could conceive such an act on my part. However, to set at rest any who may even entertain such an idea, I desire to state emphatically that the rumor is false. That I have not spoken to a single colored person either about registering or voting. That I am not in politics except to vote my convictions on the 2nd day of November and am perfectly willing that all others vote as their conscience dictates. This is fair, isn't it?

**WHAT THE LEAGUE OF NATIONS MEANS TO US**

To Editor Sanford Herald:  
I note by your paper that the Republicans are to hold a rally in the city and I wish to put a few facts before the voters so they will not be misled by the gentlemen who are seeking office and will use the League of Nations argument as their issues. Most Republican speakers are now admitting there is no legal obligation, but point out there remains the moral. I wish to ask, shall we shun a moral obligation to cooperate with the other nations to preserve peace in the world? Can any one conceive of any moral obligation that is any better than to prevent by whatever means is possible, the slaughter of human beings. These same Republican speakers would have us believe that it would be up to the United States as an individual nation to preserve peace, and no other nation would have any part, and we would have to develop a huge army and navy for that purpose for no attempt would be made to settle disputes, only by war, and we would be forced to perpetrate injustice, and that other nations are conspiring against us, and we would be forced to give up our freedom without recourse, and the sole object of the League is to create war, and the men who worked out the plan are our enemies, including our own representatives, and they are mentally unfit, dishonest and not to be trusted to help preserve the peace of the world, than what?

If the Republicans believe that the time has come when something should be done to reduce the possibility of a wholesale slaughter of human beings, and they are sincere in their opposition to the League of Nations, why do they not come forward and with some clear, definite plan as to how the situation should be handled? The nations have agreed that one of the first steps is to reduce national armament. Under such a plan it would be impossible to develop a military machine as powerful as the one Germany had, and Germany would never attempt what they did with a military machine inferior to the one she had.

Shall we go back to the old order and take our chance with the next war? If we do we will have to develop the largest army and navy in the world and with it subsequent perpetual taxation. The League of Nations is the greatest issue in the world, and is of vital importance to every man, woman and child. It is not perfect, but is that any excuse for us not to go in and help to make it perfect? Do we not find it necessary to make amendments to our own constitution at times? Suppose our forefathers had disagreed to such an extent that our constitution never would have been adopted, where would we be today? If the League of Nations should prove to be one-half the failure that The Hague Tribunal was, we would be in favor of discarding it at the earliest possible moment. The Hague Tribunal is history, and it goes down as being an absolute failure, and the Republican candidate says it must be resurrected. The Republicans who are opposed to the League are opposed to it for one reason only, and that is their hatred of President Wilson and they are determined to defeat every move he makes. They organized the round Robin and notified the people they were determined to defeat him before one line of the peace treaty was written, saying he must not have such an honor, all honors must go to the Republican rulers.

Theodore Roosevelt, Jr., says "The Republicans won the war" and they will also declare peace; the common people had nothing to do with it, not even the brave boys who gave their lives, and for that reason must not be given any consideration in the settlement of peace. They would have us believe that all the good in the world was vested in the Republican party, and that they are infallible, and it is necessary for our well-being to eliminate every other party but them. And they are going to see to it that they reign supreme regardless of whatever methods are necessary.

The kind of feelings that prompt us to enter the League of Nations should be looked at and compared with the kind of feelings that oppose. The League is idealistic; its opposition is materialistic, and the final, conclusive and absolutely unanswerable argument for the League of Nations is this. If not this, then what? What is the alternative?

**The Service Situation**

Telephone service should be adequate, efficient and dependable; sufficient in quantity, satisfactory in quality and furnished without interruption.

Adequate service is dependent upon adequate facilities.

Efficient service is dependent upon a sufficient number of trained employees to maintain and operate the facilities.

Dependable service is dependent upon both adequate facilities and trained forces.

The facilities are paid for with the money invested in the business. Trained forces are paid with the money paid to the Company by the public for the service furnished.

In no other way can these essential requisites of service be had. The needed facilities are never paid for out of the earnings of this company, and the employees are never paid out of the capital of the company.

Subsequent statements will show what the Company has done to meet its obligation to furnish both facilities and forces.

Everyone knows that this Company's service has been dependable. Throughout the war and in spite of strikes and the most abnormal conditions ever known, our service was furnished without interruption. While the service now is not adequate to meet the unprecedented demand, due to causes which will be given later, the facts show that the Company is now furnishing a far greater quantity of service than ever before.

The following figures show the service furnished within the State of Florida.

EXCHANGE SERVICE			
	Telephones Installed	Telephones Discontinued	Net Gain
1915	4,672	4,546	126
1916	6,040	4,284	1,756
1917	5,248	4,524	724
1918	4,720	3,992	728

An average gain of 834 telephones per year.

Since 1918 the performance was:

	Telephones Installed	Telephones Discontinued	Net Gain
1919	5,181	4,013	2,168
1920 (5 mos.)	3,042	2,613	429

During 1919 the net gain was 160 per cent greater than the average gain for the four previous years. If the rate of net gain during the first five months of 1920 is maintained throughout the year, the 1920 gain will be 24 per cent greater than the normal average annual gain.

The average number of calls made from the exchange stations has greatly increased, so that the Company is now furnishing several hundred thousand more exchange messages, from the same number of telephones, than ever before.

TOLL SERVICE	
1915	317,944 toll messages
1916	447,446 " "
1917	528,509 " "
1918	545,291 " "
1919	578,293 " "
1920 (first five months)	311,049 " "

The volume of toll service during 1919 was 82 per cent greater than during 1915, and if the volume of toll service for the first five months of 1920 is maintained throughout the year, the volume of toll service during 1920 will be 137 per cent greater than during 1915.

Does this record entitle this Company to your support? If it does, your interest demands that you let it be known.

That every one cannot now be served is due to the unparalleled demand, and the abnormal conditions of the manufacturer and means of transportation; all of which will be shown.

The next advertisement will give the facts as to quality of the service.

### METHODIST NOTES

Mr. Ed. Putnam, who was for years a mainstay in the Methodist church here and who returned a short time ago for a few weeks, has gone back to his new home in Birmingham. We regret losing him but our loss is Birmingham's gain.

The ladies of the church met Monday afternoon to arrange an auxiliary for the Polish relief fund.

Tuesday afternoon a social service of the Missionary Society was held at the home of Mrs. W. P. Fields, of Sanford Heights.

Mr. and Mrs. E. E. Grow have recently moved back to Sanford. They have been gone some time but Mr. Grow now has work here and they are delighted to be back.

George Walker was home for a few days last week visiting his family.

Mrs. Morris Spencer entertained in honor of Mr. and Mrs. J. K. Mettinger last Tuesday evening. Mrs. Roberts and the Harry Wilson's were also present.

Mrs. Brodie Williams is back again from Tampa where she has been for some time. Mr. Williams being in business there. Mrs. Williams is one of the "Daughters of Wesley" and we welcome her return.

The Reading Circle of the Missionary Society met with Mrs. L. R. Phillips Tuesday afternoon, beginning their new book for the year. After the study period Mrs. Mettinger sang several solos in her charming way after which Mrs. J. D. Parker, in words most fitting, presented to Mrs. H. O. Perry, the oldest member of the Society, a large bouquet of beautiful roses in honor of this member's 78th birthday.

The hostess served tea and wafers at the close of the program.

Mrs. T. O. Parker, of Arcadia, is visiting in the city this week as the guest of her daughter, Mrs. J. W. Walker.

Miss Ruth Hand returned Tuesday from Jacksonville where she went to have her eyes treated.

The chicken supper given Saturday night was a great success. The ladies took in one hundred and four dollars.

Mrs. Tom Williams had as her dinner guests Wednesday, Mrs. J. K. Mettinger and Mrs. W. L. Morgan.

W. L. Morgan and J. K. Mettinger spent several days at Daytona Beach last week.

Dr. S. W. Walker filled the pulpit at Umatilla Sunday night, being the first of a series of meetings he will hold there this week.

Rev. Daiger, of Umatilla exchanged pulpits with Dr. Walker Sunday night and delivered a forceful sermon on "Bear Ye One Another's Burden's."

Mr. and Mrs. Sandy Anderson are home again after touring the North this summer. They are great workers in the Sunday School and church and we are glad to welcome them among us again.

Mr. J. C. Hutchinson, our live wire Sunday school superintendent, will lead the prayer meeting Wednesday evening. Don't fail to be there.

Dr. Terrell, Field Sunday School secretary of Florida, will deliver addresses in the church Thursday afternoon at 3:30 and Thursday evening at 7:30. Dr. Terrell is one of the greatest Sunday school workers in the South and we are fortunate to have him in our Florida Conference work. The opportunity of hearing great men doesn't come every day. Don't let this one pass.

The Sanford "Daily" Herald looks good to us again; here's hoping it will continue a "daily."—Tampa Tribune.

Thanks, Jaw. We hope so too, but the Daily plays the dickens with our fishing and hunting trips.

The Observer, a new weekly published in Jacksonville by Charles Jones and A. K. Taylor is among the new arrivals in the Florida field. The Observer is in magazine form printed on book paper and is filled with good reading matter and cartoons by Taylor. With Charlie Jones at the helm and Arthur Taylor on the cartoons the Observer ought to make good.

The election on the commission manager form takes place in Tampa today and the result will be flashed from the old watch tower tonight by the Times.

We hope that the "Last Night's Thoughts of Thorn" have not been lost in Lake Tohopeklaga. We have heard nothing from him since he left the shores of Lake Worth.

There is considerable discussion over the state just now on the commission manager form of city government. For Sanford we will say that with a few minor changes the commission form is all right. All charters need a few changes before they fit the particular city for which they have been prepared. Our city may be too small for the charter under which we are working at present but changes for the betterment of the city can easily be made and meantime the commissioners can retrench at several points.

All this fuss about a man voting in the primary and then changing in the November election can be obviated by forcing each and everyone who votes in a Democratic primary to vote the straight Democratic ticket in the general election or else stop him from voting in the Democratic primary. Too many of our people have been guilty of this promiscuous flopping from one party to the other without being called good and hard at the primary. And this does not altogether apply to this particular election but to other elections in the days gone by and some of the principal men of our country openly voted for Republican nominees for president after they had participated in the Democratic primaries—some of these men were lifelong Democrats—and they are still in the Democratic party. Regardless of who they are or where they came from when they leave the Democratic ranks in the general election they should not be allowed to vote in the Democratic primaries until they have first shown that they voted the straight Democratic ticket in the general election and if there is any doubt about it they should be made to swear to it. Either they are Democrats or they are not Democrats and they should vote that way in all elections.

**THE HEART, INDEED**

May it not be that the insistence of the President upon Article X of the Covenant of the League of Nations has a religious sanction? It seems to us that he was quite right in calling it the heart of the League. We have gone over the whole document again as we write this opinion. We come to two definite conclusions. First, this is the one article—and the only one—which states in general terms the spirit of the whole vast and grand enterprise of the participating nations, as they did their duty at Versailles. The letter, the law, comes in the other Articles. The general

language of the Covenant's "heart" is of the kind we call spiritual. Such men as have no fine sense for spiritual things, those men, that is to say, who in their daily work make everything hard and exact and juiceless, and who do so with a propriety in their own callings, would do well, along with other objectors, to ask themselves if we have not now come to the duty to discern such a spiritual instrument as we said we were fighting for, and gave the blood of our sons for,—to discern this spiritual thing with spiritual minds.

Article X is not a lawyer's contract. It is a bond of union, a mutual vow, a high design, a holy purpose. It is life-giving, inspirational, religious. It is all of these things to us, as we read it over and over, in what we hope we may call the spirit of our religion. Let us see it together:—

**Article X.**  
The members of the League undertake to respect as against external aggression the territorial integrity and existing political independence of all members of the League. In case of any such aggression or in case of any threat or danger of such aggression, the Council shall advise upon the means by which this obligation shall be fulfilled.

Examine every word. The central ones are all spiritual. Each word breathes common defence of cherished independence. The Article is as beautiful as the exalted passages of the Declaration of Independence. We declare that any one reading this present document as he reads the older one will find no fault with it. We can understand how a hypercritical and politically hostile person will read otherwise. It was so at our country's beginning. And this leads us to our second point:—

We could omit Article X altogether and the good spirit would yet be alive in the Covenant. The heart of the Covenant is indeed the soul of the instrument in its completeness. The mooted Article states it in words. It does not create anything; it only defines what is already there. The definition of the entire purpose of the World War is of course a good thing to include, explicitly, in order to finish the literary production. But one may find in the preamble of the Covenant the definite objectives of the League, which are the same things in Article X, confirmed.

Need we say that the sublimest words of Christ in the Sermon on the Mount were subjected to the legalistic minds of gentlemen who were perfectly sincere and exact when they would have none of him, because he was spiritual and general in his way of stating principles? He believed, trusted, loved, served. What they wanted was something that would not permit the least misunderstanding, a shadow of double-dealing. They took no chances. Today they suffer throughout the world. They are called Pharisees. They might have saved themselves if they had read with understanding hearts.—The Christian Herald.

**WHAT "REPUBLICAN" MEANS HERE.**

"White supremacy" is a phrase that has been heard more than half a century in the South, and it means a great deal more to the people who live in Florida. The campaign now on in the United States has assumed such conditions as to bring the phrase into greater prominence than for at least thirty-five years past. The Republican party, with which the negroes have been affiliated since their emancipation, is using every power at its command to pile up a great vote among the colored people, and the enfranchisement of women has given them greater opportunities than ever before. The colored women are being qualified for the vote by registration, systematically and steadily. The Republican party, more intent than ever before of "breaking up the solid south" is expecting to vote every negro man or woman eligible. There are also some other things being done, by interested outsiders, to make a Republican showing and the resident white Republicans are among the active workers, although disclaiming any intention of working with the negroes. All over Florida organizations of "white Republicans" are reported as arranging for the state and county tickets, and the inference sought to be established is that they are not expecting or desiring the negro vote. They studiously avoid all communications with the negroes and deny them a place in their meetings. They talk of "all white" party candidates and scorn the idea of associating in any way with the negro—and underneath this pretence there must be the knowledge that whether they like it or not the negro will vote their ticket. Of course it is only natural to suppose that a person nominated for office will be glad to get it, and will not quarrel about the color of the voters placing in the ballots market for them.

Talking about the lily whites the Miami Herald says:  
They are not dealing fairly with the negro, but that fact does not prevent him from still thinking that he owes his party allegiance and vote to the Republican candidates, and if he votes at all, he will vote the Republican ticket from top to bottom, without a scratch, and they are showing the greatest ingratitude to the colored man. Without him, since the days of reconstruction, they could not have maintained the semblance of a party that they have kept alive dur-

ing all these years. They kept it alive so that a chosen few could have in the times of a national Republican administration, all the fat offices to be given out by federal authority in the state. They did give one prominent colored man a fine office, but outside of that the Republicans have very generously distributed the luscious pieces of pie among themselves. Now that they think, or claim that they think, they can maintain a party organization without the colored vote, they are throwing him overboard and will in the event of the success of their party, nationally, divide the state appointments among themselves according to the time honored arrangements.

Again it is suggested that the Republicans are doing their utmost to induce Democrats to vote for Republican candidates and it is known that in many cases the Republicans have argued that there is nothing to bind the Democrat to his party nominees. That there is no legal way to make a Democrat vote the Democratic ticket is certain, but with a great many men the matter is one of principle—and even in these unusual days and remarkable happenings there are men who are guided by principle. The Daytona News decries the argument of the Republican who would thus wheedle a man away from his party obligations, and says:  
Republicans are asking us to forget that we went into the primary tacitly promising to support those candidates for whom we voted, or at least those candidates who were successful nominees. And Republicans know that when one participates in the activities of a party, whether he goes into a primary or a convention, he is morally bound to support the candidate who is nominated by that party with which he affiliated himself. —Times-Union.

**FRENCH ALARMED AT INTEREST RATE**

(By The Associated Press)  
PARIS, Oct. 19.—The French press commenting on the \$100,000,000 loan which has just been made by a syndicate of American bankers to France, endeavors to reassure the general public which has been somewhat alarmed at the rate of interest. Tak-

ing into account all charges and premium, they figure the interest to amount to 9.42 per cent. It is explained that this rate is by no means unreasonable when compared with the interest charged both to Belgium and Switzerland in the recent loans made by America.  
The French newspapers say the American nation, as represented by its government and Congress, has shown itself to be far more generous than the American bankers, as no demand has yet been made for one cent of interest on the state loans advanced to France by the United States during the war.

**WANT EMIGRANTS IN RURAL SECTIONS**

(By The Associated Press)  
NEW YORK, Oct. 19.—Requests from all parts of the United States that the great westward tide of immigrants be diverted from the fast-growing cities to rural districts to populate abandoned farms have led Commissioner of Immigration Wallis to reply that immigration authorities lack this power. Immigrants, he said, plan their destination before leaving their home countries.  
Delegations from different states have called at Ellis Island to urge that steps be taken to prevent immigrants from going to certain cities.  
Representatives of the Chamber of Commerce of Detroit, which new census figures advanced from the ninth to the fourth largest city in the country, asked that immigrants be sent to northern Michigan. Present labor conditions in Detroit are not such as to warrant an influx of foreign labor, they declared, as many Maltese, barred from entering Canada by a recent order, have located in Detroit.

A Louisiana delegation visited the immigrants to go to unoccupied farms in that state.  
Commissioner Wallis has conferred with railroad agents with a view of speeding the westward departure of immigrants to alleviate crowded conditions at the island.

**BATTLESHIP MASSACHUSETTS WILL BE USED AS TARGET**

(By The Associated Press)  
PHILADELPHIA, Oct. 19.—The battleship Massachusetts, which fought in the battle of Santiago in 1898, will be towed from the Philadelphia Navy Yard to Pensacola, Fla., to serve as a target in a trial of the nation's coast defense artillery against an armored warship, it is announced.  
The old warship's armor plate is 18 inches thick. Her protection nearly equals that of present day warships. The ship will be anchored off shore at a range of three miles from the bombarding battery.

**CANADA TO VOTE ON PROHIBITION**

(By The Associated Press)  
TORONTO, Ont., Oct. 19.—A referendum is to be held in the provinces of Nova Scotia, Alberta, Ontario, Saskatchewan and Manitoba on October 25 to decide whether the importation of intoxicating liquor into these provinces shall be forbidden by law. All of these provinces now have local prohibition in force. They are permitted under the British North America Act to prohibit the sale of liquor within each province but at present cannot prevent its importation into the province as interprovincial trade is under the control of the Dominion government.  
The Dominion parliament, however, has decided that control of liquor shipments into a province shall be abrogated whenever the province has so voted. The purpose of this is to confer upon each province the right to completely carry out the will of the people regarding control of the sale of liquor. This is a concession made by Parliament as an alternative to national prohibition.  
If the vote in either of these provinces on October 25th is in favor of taking over full control of the liquor business within the province, the importation of liquor will be prohibited.

**AVERAGE WAGES HAVE INCREASED IN MILL CENTERS**

(By The Associated Press)  
PITTSBURGH, Oct. 19.—The average daily wage of every person employed in Allegheny county, one of the county's greatest industrial centers, increased 70.2 per cent in three years, according to James F. Woodward, State Secretary of Internal Affairs. The per capita daily wage for 1919 was \$5.08, while that of 1916 was \$2.85, Mr. Woodward said. He used the latter year for comparison because he said it was "fairly normal," whereas 1917 and 1918 were abnormal, owing to the war.  
Although production valuation during the war years was greater than in 1919, Mr. Woodward's figures showed wages had increased steadily from 1916 to \$3.53 daily in 1917, and \$4.71 in 1918 to \$5.08 in 1919.  
Production value in 1919 amounted to \$1,900,226,400 as compared with \$1,619,322,200 in 1916, an increase of 17.3 per cent. In 1917 and 1918 production value reached well over the \$2,000,000,000 mark.  
The per capita wealth of the county was \$2,580, or twelve times the average per capita wealth of the United States.

**NO REPUBLICAN NAMES WILL BE PRINTED ON HAMILTON CO. TICKET**

JASPER, Fla., Oct. 19.—On advice of the county attorney and judge, the commission of Hamilton county has refused to allow the names of Republican candidates for county offices to be printed on the official ballot the county officials taking their stand on the recent decision of the supreme court that, legally, there is no Republican party in the state.

**MEETING CALLED FOR WATERWAY IMPROVEMENT**

TALLAHASSEE, Oct. 19.—The North Florida Chamber of Commerce, through F. R. S. Phillips, secretary, has issued an invitation to "all commercial and other organizations of Florida interested in promoting the proper development of the waterways and ports of the state," to attend a meeting of the Florida Waterways Association, in the city of Tallahassee, Jan. 20, 1921. A movement for the improvement of Florida's naturally beautiful waterways will be launched. It is desired to interest the entire state in the project.

The famous Johnny J. Jones shows will again make their winter home in Orlando. The winter engagements include the Florida State Fair, at Jacksonville, the South Florida Fair at Tampa, the Tropical Fair at Miami, the Mid-Winter Fair at Orlando and a week's engagement at Sanford.

An important conference was held at Tallahassee on Friday by delegates from Tampa, Fort Myers, Lakeland, Arcadia and other communities in Southwest Florida for the purpose of promoting an ambitious plan for the securing of direct railroad connection between the west coast section of the Florida peninsula and the North by way of Georgia. It is proposed to prevail upon the Seaboard Airline Railway to build a connecting link between Covington and Perry, Florida and upon the Atlantic Coast Line Railway to connect Perry and Monticello, thereby providing through service for Tampa and St. Petersburg by way of the west coast routes.

E. C. SHREVE, Clerk.

Lieut. Huble Bivins spent the week end in Sanford as the guest of Mr. and Mrs. B. W. Herndon, at the Seminole Hotel. Lieut. Bivins was formerly located in Charleston, but has recently been transferred to Arcadia.

Miss Norma Herndon returned on Monday to take up her studies at Stetson University after spending, very delightfully, the week end with her parents, Mr. and Mrs. B. W. Herndon at the Seminole Hotel.

### EAST SANFORD

Mrs. C. Uchida has returned to Philadelphia to resume her study of violin music. She expects to become a member of a symphony orchestra club this season.

Mr. and Mrs. W. W. Dressor and party are leaving New York City by boat expecting to reach Sanford on Sunday after spending the summer at their old home in Watertown, N. Y.

Mr. and Mrs. Walter J. Ward and son will not return to Salem, Mass., as Mr. Ward has accepted a position in Orlando with the Stocking Plumbing Co. They will go to housekeeping soon in Orlando.

Mrs. J. S. Moore's residence and store on Celery avenue are shining with a new coat of white paint.

Miss Mamie Steel was taken to DeLand on Sunday to see Dr. Ingram the eye specialist. Miss Steel has what Dr. Ingram said was an ulcer on the sight of her eye. She remained at the DeLand hospital several days under the doctors care. We learned Tuesday evening the eye was improving.

Mrs. Dock Hasty and little son are with her grandfather Mr. Davis on the West Side while Mrs. Davis is in Chicago for a few weeks.

Little Miss Elizabeth Stiles is out from town spending the week at the Zernovean home.

Mr. and Mrs. W. L. Henley, of Celery avenue, had as dinner guests on Sunday, Rev. J. G. Patten and Mr. and Mrs. J. W. Corley and son, Joe, all old time friends. Mr. Patten has been conducting the services at the Presbyterian church.

Thomas Dunlap, of Celery avenue, has been ery ill with the malaria. M. A. Jackson also was ill with the same disease for some time.

We have been accused of not sending in all of the important items. The snake is now quite old, having been killed a week ago last Sunday by Mrs. A. Corpany with the family hoesell by her own self. It measured 20 inches from tip to tip and sported a fine button. Oh, yes, it was a regular diamond back of the first water.

Mrs. Tina Warren Beatty and Reuben Hardy were married Saturday evening in town. We hear they will live on Celery avenue in the house formerly owned by J. F. Hickson, now owned by John Russell. This is Tina's third matrimonial venture and she has our sincere good wishes that it may be a happy one, as "three times and put" is a good old omen.

"The Store That Is Different"

Two fine large stacks of hay were to have been set by colored children burned up last Saturday. It was said playing. We understand this property is managed by the American Produce Company. The neighbors turned out and helped fight fire or four more stacks, some barns and tenant houses might also have been burned.

The Geneva ferry bridge is open for travel again, although the repair work is not fully completed.

We appreciate this fine "Indian summer" weather after the "squaw winter" just passed. The citrus fruit colored up considerable during the cool weather.
