## RICHBERG PUTS RELIEF LOANS AT 7 BILLIONS

### 4th Report Says Bulk Allocated By R.F.C. With 44% Repaid

WASHINGTON, Sept. 11. — Federal loans in the amount of approximately \$7,000,000,000 have been advanced in the Administration's attack on the depression. Donald R. Richberg, secretary of the executive council, disclosed in a summary of the progress of the governmental effort to relieve financial distress.

Mr. Richberg's report, the fourth of a series of seven designed to acquaint the nation with the Recovery program in development since Mar. 4, 1933, showed that the bulk of the amount, estimated at \$6,535,000,000, had been advanced by the Reconstruction Finance Corporation, an agency established in the closing days of the Hoover administration.

In addition to the loans by the R. F. C. which have gone to banks and financial institutions, railroads and agricultural agencies through the Commodity Credit Corporation, Mr. Richberg listed other efforts to mitigate the financial pressure of the last two years as follows:

The Home Owners' Loan Corporation has advanced \$1,200,000,000, ending a real estate panic and saving the homes of 422,000 families from foreclosure.

The Federal Home Loan Bank system loans are far below capacity because of faults now being corrected.

The Federal Deposit Insurance Corporation reporting about 50,000,000 accounts in 24,000 of the nation's banks insured, the insurance liability in excess of \$12,900,000,000. More than 97 percent of the depositors in insured banks are insured to the full amount of their deposits, the maximum limit of insurance for each depositor being \$5,000 under the temporary fund. Of the total of 18,700 licensed banks in the country, having total deposits of \$45,375,000,000, approximately 90 percent in number are members of the Federal Deposit Insurance Fund and 25 percent in number are members of state insurance funds.

In addition are the following agencies functioning to relieve individual financial distress:

Farm Credit Administration extending credits to farmers.

Commodity Credit Corporation, extending loans to agricultural producers in order to assist in stabilizing the market for certain commodities.

Federal Housing Administration, improving the credit of home owners and other owners of real estate improvements, and improving the security and usefulness of their properties by facilitating necessary of desirable renovations.

The actual advances of the Reconstruction Finance Corporation since its creation amount to \$7,444,000,000, of which \$6,535,000,000 has been allocated since Mar. 4, 1933. Of this amount \$600,000,000 went for relief and \$6,944,000,000 for governmental agencies. If the remaining total \$1,574,000,000, more than 24 percent, has been repaid.

The program to strengthen banks by loans and other means preferred stock in 20 percent, 10 percent, 5 percent institutions having been authorized to obtain \$12,500,000,000 in this way. R. F. C. has authorized loans aggregating \$44,000,000 to aid reconstruction or liquidation of closed banks.

Mr. Richberg stressed that the government's policy is to assist directly to business rather than to industry and commerce which, sixty other governments in the world, obtain relief.

Railroads have received \$2,200,000,000 of the \$7,000,000,000 advanced by R. F. C. The government will carry full responsibility for the \$1,200,000,000 advanced by the Reconstruction Finance Corporation and \$1,000,000,000 advanced by the Federal Home Loan Bank system.

## Rioting, Bloodshed Bring Out Guards In Rhode Island

### Labor Underwrites Strike As Union Leaders Withdraw Peace Proposals

By The Associated Press  
Rioting and bloodshed brought out all National Guardsmen in Rhode Island today, the latest storm center of the textile strike. Guardsmen fired a volley over the heads of a crowd to disperse strikers after a night of violence during which 500 guardsmen battled with 3500 strikers. About 70 have been injured there in the past 48 hours. Several points in the state reported rioting of sympathizers and soldiers. Other strike centers were quiet although more troops were ordered out in North Carolina.

### ABA Head Pleads For Leniency For "Slow" Borrowers

WASHINGTON, Sept. 12.—(AP)—F. M. Law, president of the American Bankers' Association, has appealed to the nation's bank examiners not to hamper the extension of bank credits by a rigid attitude toward "slow" loans that are fundamentally sound.

### FIRING BOAT SINKS

STUART, Fla., Sept. 12.—(AP)—The four-man crew of the two-masted fishing schooner Emily Sears reached shore safely Monday after the vessel sank off Jupiter Island.

### Lovine Tries New Kind Of Flight

BROOKLYN, Sept. 12.—(AP)—Charles Lovine, first trans-Atlantic air passenger, was found unconscious beside five other men who had been in the cockpit of his plane today. Three notes by a radio operator were received by a police emergency squad, and physicians said he would recover. Lovine flew to Berlin with Clarence Chamberlin in 1931.

### Poison "Candy" Kills Titusville Child

TITUSVILLE, Sept. 12.—Bobby Harris, 8-year-old son of Mr. and Mrs. C. Harris, died here at noon yesterday, after having swallowed a full box of strychnine tablets, which were said to have been prescribed in medical treatment for another member of the family. The physician who was hastily summoned, was unable to counteract the effect of the poison.

## ARMY PILOTS HELPED SELL PRIVATE SHIPS

### Curtiss-Wright Head Says Men Proved Helpful When On Leave Of Absence

WASHINGTON, Sept. 12.—(AP)—The use of Army pilots to demonstrate planes for a private concern abroad was described today to the Senate Munitions Committee.

President J. S. Allard, of the Curtiss-Wright Export Corporation, said his company frequently borrowed Army pilots and they had proved helpful in the sale of planes. He said the pilots usually were on leave.

Other evidence was presented that the Corporation, in March 1931, attempted to arrange for President Hoover to receive Commander Arturo Merino, chief of the Chilean Air Force, in order to help counteract the efforts of the merchant's investigation of the tragedy of Irene Felix Lamont and Pierre DuPont are next on the program to tell of the munitions operations of their large corporation.

The story of the international traffic in the tools of war as revealed by the Senate munitions investigating committee brought protests yesterday from two foreign powers.

Secretary of State Hull launched with Senator Nye, chairman of the committee, the Argentine ambassador has protested to Hull that the inquiry has reflected on a high Argentine naval officer, Chilean authorities also are understood to have protested. It was believed Hull also was interested in documents purporting to connect Mexican officials with American munitions concerns.

Nye and Hull refused to reveal the details of their luncheon conversation.

"Will you keep big names out of the hearing from now on?" Nye was asked.

"No," he replied emphatically. Later he wrote a letter to Hull saying the committee had no intention of offending a foreign government. He said the committee did not endorse all statements placed in the record.

Testimony yesterday revealed that the Curtiss-Wright Export Corporation, airplane manufacturer, offered "commissions" to several South American and Mexican government officials. Some members of the committee insisted the commissions were bribes.

Curtiss-Wright representatives told the committee they sold 24 (Continued On Page Two)

## TODAY'S THE DAY

Gov. Eugene Talmadge (left) and Judge Claude Pittman (right), chief contestants for the governorship of Georgia, awaited in their homes today the decision of the voters who went to the polls in large numbers to cast ballots that will decide the outcome of the most heated political campaign Georgia has seen in many a year.

## LEFFLER SEEKS FIRE INSURANCE RATE REDUCTION

Reduction in fire insurance rates in this city depend upon the City Commissioners accepting six recommendations made by the Southeastern Underwriters Association. It was revealed this morning by Mayor W. A. Leffler.

The recommendations call for three additional full-time paid firemen, the purchase of a deluge set or turret nozzle for the ladder company, the resumption of regular drills by the entire department, the condition that both the pumper and ladder truck respond to first alarms in the principal business district, the installation of an approved telegraph fire alarm system of Class B or Class C as recommended by the National Board of Fire Underwriters, and the adoption and strict enforcement of a Code of Suggested Fire Waste Ordinances for Small Municipalities.

Mayor Leffler had communicated with officials of the Association with the request for recommendations for second class on mercantiles, instead of second class plus five cents as now rated.

He also had asked for recommendations for second class less five cents on mercantiles, instead (Continued On Page Two)

## Hopkins Expresses Disgust Over His Brother's Action

WASHINGTON, Sept. 12.—(AP)—Harry I. Hopkins, Emergency Relief administrator and, of course, a Democrat, had little news at his press conference except: "That sonuvagun of a brother of mine is running for coroner on the Republican ticket in Tacoma, Washington."

"Can you tie to that? My father was a good Bryan Democrat in Iowa. He ran for Congress time after time and never got enough votes to put in his hat."

The brother's name is Dr. Law. A. Hopkins. And as for his running for coroner on a Republican ticket, said Hopkins:

"Well, I thought that party did two years ago and didn't need a coroner."

## China Purchases 22 Ultra-Modern Planes

NEW YORK, Sept. 12.—(AP)—The Herald Tribune says that the Northrop Corporation, of Inglewood, Calif., has recently completed an order of 22 ultra-modern attack planes for the Chinese government.

The planes, said to exceed in performance anything in the United States Army or Navy squadrons, are described as a development of the long-distance racing monoplane flown by Frank Hawks. Each is said to be capable of carrying a 1000-pound bomb and usual machine guns in addition to fuel for non-stop flight of over 2000 miles.

## DEATH SHIP'S SOS FLASH WAS DELAYED

### Operator Says Ship Was Hot Under Feet When He Received Order To Ask Aid

NEW YORK, Sept. 12.—(AP)—George Rogers, Chief Radio Operator on the burned Morro Castle, told the Board of Inquiry today that it was fully 30 minutes after he was awakened because of the fire aboard the ship he received the order to send out an SOS.

The smoke was getting thick, Rogers testified, and the radio room was getting warm. He said he had a wet towel on his face. He said a curtain in the room caught fire.

"I could hardly breathe," he said, when his assistant came back to the bridge and said, "Alright, send out an SOS."

He testified he was awakened by second Assistant Radio Operator George Alagna, after the fire broke out.

## GOP Sees Need For More Propaganda After Losing Maine

WASHINGTON, Sept. 12.—(AP)—Democratic victories in the Maine elections brought expressions of concern yesterday from the Republican leaders, coupled with talk of redoubled G. O. P. efforts elsewhere.

Democratic quarters prepared to use frequently the adage: "As Maine goes so goes the nation."

Postmaster General Farley called "the convincing majority given" to Brann, "proof ample that the New Deal meets with the approval of the majority of the people in this country."

Chairman Henry P. Fletcher, of the Republican national committee said the vote in Maine "shows the necessity of an intensification of Republican efforts" and that "it is evident that the people have not yet understood what it all means."

## Clearwater Considers Giving Free Homesite

CLEARWATER, Sept. 12.—(AP)—The Clearwater city commission is considering a plan to give building sites to residents who can qualify for loans from the Federal Housing Administration.

Under the plan now being studied, the city would give lots which it owns through tax delinquency. The result, officials believe, would be stimulation of construction and restoration of property to the tax rolls.

## Long Realizes All Of His Ambitions In Beating Walmsley

### HE WEPT

Chief Officer W. F. Warme of the ill-fated Morro Castle, who broke down and wept as he told of the death of his captain, Robert R. Willmott, at the government's investigation of the tragedy. Warme stated that he believed the blaze was of incendiary origin.

It beat his candidate in the January mayoral election, but Long vowed thorough vengeance. He had his vengeance today. Now he can truly call himself dictator.

Had Long lost in a landslide, politically he would be driven from the gates of the city, but by winning, he assumed the mantle of dictator with power untrammelled in the politics of a state of the United States.

## Blease Finds Out "They Never Come Back" In Politics

By The Associated Press  
Tuesday's primaries in eight states showed these results today: Louisiana: Huey Long—candidate wins.

South Carolina: The veteran Cole Blease was beaten for governor.

Colorado: Miss Josephine Roche, owner of coal mines and a social worker was ahead of Governor Edwin Johnson for the Democratic nomination.

Arizona: Senator Ashurst was leading a close contest for nomination.

Michigan: Arthur Lacy, Detroit attorney, jumped into a slight lead over Governor William Comstock for the Democratic gubernatorial nomination. Frank Fitzgerald is the GOP choice.

Vermont: Senator Austin, New Deal foe, was renamed by Republicans as Democrats picked Fred Martin.

New Hampshire: Congressman Rogers, Democrat, and Tubey, Republican, were renominated.

Washington: A close race for the Democratic senatorial nomination Georgia, Connecticut, and Maryland were holding primaries today, and the New York primary is tomorrow.

## Huey Becomes Dictator With Unprecedented Powers As Slate Is Swept Into Office

NEW ORLEANS, Sept. 12.—(A.P.)—Huey Long today had realized his ambition of smashing every vestige of major political opposition in the State of Louisiana and entrenching himself as a dictator with unprecedented powers in a Democratic state.

His slate of candidates in yesterday's Democratic primary was swept to a convincing victory, crushing the half century's political rule of the New Orleans ring now captained by Mayor Semmes Walmsley.

That ring, the old regular organization that uniformly elected its candidates for generations, had easily repulsed all of the Kingfish's previous efforts to destroy it.

It beat his candidate in the January mayoral election, but Long vowed thorough vengeance. He had his vengeance today. Now he can truly call himself dictator.

Had Long lost in a landslide, politically he would be driven from the gates of the city, but by winning, he assumed the mantle of dictator with power untrammelled in the politics of a state of the United States.

## Curiosity Once Proved Fatal For Cat, Too

CHAMBERSBURG, Pa., Sept. 12.—(AP)—The scratch of a pin exploded a stick of dynamite and sent Mrs. Clarence Schultz, of near Greencastle, to a hospital with serious injuries.

The dynamite, lost by a worker on the Schultz farm last week, was found by the woman's daughter, Ruth, three Mrs. Schultz told physicians she scratched the surface of the stick with a safety pin in an effort to learn the contents and it exploded.

## MRS. KENNEDY DIES

MACON, Ga., Sept. 12.—(AP)—Mrs. Louise Cimbly Kennedy, 88, daughter of the man who founded Macon's first daily newspaper, is dead.

BIBLE VERSE FOR TODAY

THE MEASURE OF MERCY: Have mercy upon me, O God, according to thy loving kindness:

When a ship burns at sea, that's the time a fellow wishes he was a Johnnie Welschmutter.

The United States may not be able to keep out of the next war, but we'll bet we don't go into it to make the world safe for Democracy.

At that we'd rather the South American companies would buy their munitions from American companies than from English concerns.

One trouble about estimating poverty is that if you paid \$2,000 a year to 125,000,000, it would cost you \$250,000,000,000...

Well, one ghummy prediction has fallen flat anyway. The world didn't come to an end Monday as Wilbur Glenn Voyns, the Zionist, of Zion, Illinois, said it would.

According to Fons Hathaway, some of Florida banks are going to make loans for repairs under the new Housing Act.

The City of Miami is planning a million-dollar park and playground center to be financed by FEHA money.

We see by the Sarasota Herald that the county tax rate there is 82 1/8 mills, and that even so, high as it is, it is several mills lower than it was last year.

A witness at the Senate's million-dollar audit testified that in the case of some arms to Brazil it was necessary to take care of everybody from the President (not including the President) down.

Woman's place is in the home says Adolf who on this one thing agrees with Mussolini that (While man makes his supreme sacrifice on the field of battle, woman fights her supreme battle for the nation when she gives life to a child.)

The Fort Myers News-Press says it is not advising anyone to vote against the homebased exemption amendment, but it does warn people that if they vote for it, they should do so with their eyes open.

The Long Victory

The success of Huey Long's ticket in the New Orleans election yesterday almost compels the conclusion that the people of Louisiana, at least, are, as someone remarked the other day, ready to follow any Pled Piper who blows his horn. To this conclusion there is only one alternative which we hope is the correct one.

As we understand the argument, neither Senator Long nor Mayor Walmesley himself is a candidate. It was a question of machines. The Long machine was supporting one set of candidates and the Walmesley machine was supporting another set of candidates.

It is just possible that the people of New Orleans were more disgusted by the prevalence of such vice and graft among them than they were by the antics of their senior senator who, after all, devotes a large portion of his time to matters of national importance.

However this may be, we are not ready to concede that Louisiana has sunk so low as to endorse a Huey Long type. It is one of the unfortunate consequences of the American political system that the people do not always have an opportunity to vote for a good man.

Rank Neglect

The more one reads of the Morro Castle disaster, the more apparent it becomes that the most remarkable aspect of this tragedy is not that 132 persons lost their lives but that so many of the passengers managed to save themselves.

It has now become evident that the fire had been discovered and allowed to burn for several hours before the alarm was given or the passengers aroused.

Even if hindsight is better than foresight, we can't understand why the ship was not allowed to drift before the wind into the shore which was only eight miles away.

Other members of the crew stated that passengers perished because they were afraid to get into the life boats. Of course they were. But isn't it the crew's duty to put them into the life boats anyway?

The tragedy, deplorable as it is, was not more so simply because it occurred close to shore with rescue ships arriving within an hour of the first SOS.

It is no credit to the captain or the crew that 380 were rescued or managed to save themselves. It is rather a subject for severest criticism that any were allowed to perish at all.

SANFORD TWENTY YEARS AGO

A very charming affair was given Tuesday night by Mr. and Mrs. George Davis Hart for Miss Addie Neal, the popular young guest of Miss Annie Lee Caldwell.

Hon. Frank L. Woodruff is home again after spending several weeks in the mountains of North Carolina.

One-third of the revenue required to make up the deficit of the United States Treasury through the falling off of customs receipts on account of the war will be made up through the extension of the income tax.

Mr. John T. Brady returned from Daytona Beach Tuesday morning with Mr. Brady and their young people.

Val Lovell left yesterday for Atlanta to finish his course in electrical engineering at the Georgia School of Technology.

TRAVEL NOTES

By HUIAN K. WRIGHT

I shall never forget the morning we drove from Trinidad, Colo., to Taos, N. M. There was a fine view, a variable sky line trail, some twenty miles or more in length, with a rather sudden and terrifying descent plumb into the very heart of the little town of Taos.

Then Taos Old, old Taos where for hundreds of years the Spaniards have lived in their stucco dwellings. Our hotel was quite modern and the exterior was quite different from the ordinary adobe houses.

Another day—another canyon—that of the Rio Grande which rises in Creede, Colo., and hurries down to New Mexico in a stream of sparkling and yet so small it did not seem possible that it could ever have chiseled its way through the lofty cliffs on either side where the road wound like a thread along the precipitous walls.

I wish I could describe to you the scene that met my eyes when I stepped out of the car to see the most vivid hues laid on as heavily as the most modernist painter would dare to pile them.

The massive Grotto of the Martyrs on a hill to the north overlooking the city is a mute reminder of the stormy history that still in daily life the archaic Indians before the plaza as a living relic, for Spain by the Viceroy.

We were very fortunate in arriving just in time for the annual Fiesta established in 1712 by decree of the governor and captain-general of New Spain to commemorate the re-conquest of Santa Fe from the Indians.

A very charming event of last week was the informal dance on Friday evening at the home of Mrs. E. P. Whitaker, secretary to the Misses Jane and Alice Whitaker of Jacksonville.

Ed A. Gillman, Atlanta attorney, has this week in the press has attacked the governor somewhat but commended chief clerk for approval of the state's budget.

Under the port to across the old plaza, the women sat patiently displaying their potteries and blankets, while the men roved the streets exhibiting their wares of silver and turquoise jewelry.

At night, the Spanish town and country market in booths and wagons straggled the Plaza. Monday afternoon for entire Fiesta period.

Letter Seeks Fire Insurance Rate Reduction

(Continued From Page One)

An official of the Association informed Mayor Lester by letter that if all of the recommendations named are complied with in full, "(They) will justify our recommending to the Florida Inspection and Rating Bureau that the city be re-classified on the basis of second class less fire cents on mercantile within 500 feet of a hydrant, and second class on all other risks within 500 feet of a hydrant and three miles of a fire station equipped with motor-driven apparatus."

The children are the merriest little things and so pretty. They were everywhere, and always in good humor. The young ladies are lovely and they certainly have incomparable daint feet and ankles. A few wore the lace mantilla, but modern dress was usually interspersed with special fiesta costumes.

It was the old ladies, however, who held my gaze—old, old, so old—every trace of youth and beauty gone from their withered brown faces, but those eyes! Calm, quiet, kind, they look out from under the black shawl saying they never expected some in life, so why be sour—they had their faith and their families, was not that enough?

One day we were trying to find the old church of San Miguel, and we came upon the very picture and pattern of ecclesiastical architecture—gray adobe, with bell towers, vines clinging and covering its ruggedness.

Major Lester indicated that the requirements are not too exacting, and that the matter will be placed before the Commissioners at a special meeting next Monday night.

L. H. Connelly, local insurance agent, stated this morning that South-Eastern Underwriters Association is the rules, rates, and forms department for all stock fire insurance companies support and assist in the management of the Association, and to recommendations are usually accepted by all companies.

## Definite Signs Of Revival In Retail Trading In Sight

NEW YORK, Sept. 12 (AP)—There are definite signs of a "strong revival" of retail buying during the Autumn months, said Dun & Bradstreet in their weekly Trade Review recently, "and having pronounced labor disturbances, the current rise is expected to be strengthened gradually until joined by the forceful momentum of the holiday shopping season."

The survey declared that the moderate expansion of commercial bank loans may be interpreted not only as indicative of plans for extending full industrial activities beyond earlier estimates, but also attests to the better financial position which numerous firms have been able to achieve.

Repeating the week's develop-

widening of Government projects and the termination of the summer vacation period in a number of industries lifted purchasing power in urban sections. The placement of so many or-

*Not like any other cigarette—*

**Chesterfields are like Chesterfields**

WHEN a trade-mark is registered, it means that no one else can use the same name and the same package for the same kind of product.

To us the Chesterfield trade-mark means that every Chesterfield is manufactured by the same formula, and

in every way absolutely the same in each and every package you buy.

That means that every Chesterfield is like every other Chesterfield—not like any other cigarette . . .

HEARING HELD AS PARTLY TAIL OF HABIT

Psychologist Tells Why Some People Are Slow To Learn

NEW YORK, Sept. 12.—(AP)—Hearing and seeing are partly learned and not as usually believed...

ception possibly accounts for the well-known slowness to learn new ways.

He began with the fact that human and other eyes see all objects upside down.

That was one indicator that seeing, and the learning which goes with it is probably partly an internal conditioning process like habit.

Similar experiences were reported by persons wearing ear phones which reversed the direction of incoming sounds.

Rioting, Bloodshed Bring Out Guards In Rhode Island

Island-called out state troops to preserve order.

In Washington, the mediation board held an all-day conference with a group of the most powerful figures in the textile industry.

Gorman noted yesterday that the state troops were called out in Maine shortly after election returns indicated Governor Evans had been returned to office.

There will be more elections, the strike leader said bitterly. "We shall not need to be told how to vote."

The federal grand jury summoned John Kempf, veteran New York City fireman returning on the Morro Castle from a vacation cruise, who told newspapermen he was awakened by the smell of smoke about three hours before the SOS was sent out.

The chief radio operator, George Rogers, reported to have said the "break story" of the fire remains to be told, was summoned by the judge's jury.

Government Morris Phelps, veteran voyager, a passenger on the Morro Castle, said he and his family were forced to jump into the storm-lashed Atlantic by the intense heat and dense smoke before the bridge ordered out the life boats.

With both federal inquiries in full swing, the survey of Associated Press staff members showed the count of dead and missing still standing at 124 persons.

ARMY MAY AID RHODE ISLAND GUARD TROOPS

Roosevelt Ready To Send 2000 Regular Soldiers Into Area If State Asks Help

At Boston, Secretary of War Dern announced from the First Corps Army base that 2000 United States Army regulars would be sent into Rhode Island if the state calls for them.

In Woonsocket, a youthful strike sympathizer lay dead, bringing the strike's death toll to date to an even dozen.

Scores nursed injuries suffered last night when police and guards battled a rioting crowd of 5000.

An emergency session of the state legislature, started at noon today for the purpose of appropriating the \$100,000 the governor said was necessary to increase the state police force to sufficient strength to cope with the strike situation.

The governor ordered the arrest of every communist in Rhode Island, according to a bulletin that committee members issued last night.

"KINGFISH" ALL SMILES IN TRIUMPH AT POLLS

There was reason a-plenty for the beaming countenance of Senator Huey P. Long when this picture was made of him and his wife at a polling place during the Democratic primary in New Orleans Tuesday.

Louisiana voters were nominating his candidates for Congress and other offices, thus defeating Mayor T. Semmes Walmesley's opposing political forces.

MORE WORKERS RETURNING IN PARTS OF SOUTH

Anti-Strike Forces Protect Groups As They Resume Tasks

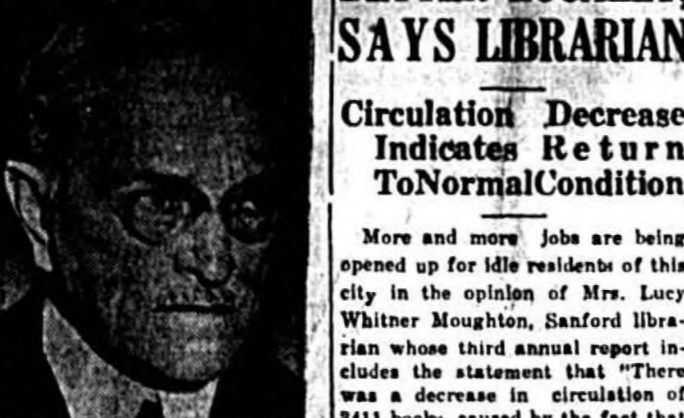

CHARLOTTE, N. C., Sept. 12.—(AP)—Anti-strike forces, guarded by machine guns and bayonets, made headway in the Carolinas yesterday, with approximately 3,000 more workers on the job than Tuesday.

In practically all instances mill re-openings occurred where flying squadrons of unionists, and not voluntary walkouts, were responsible for last week's close-downs.

At Woonsocket, Francis Gorman, chairman of the state committee, called upon all strikers to refrain from violence and to return to work if the state calls for them.

President Roosevelt's textile strike board last night abandoned its efforts to bring the strike issues to arbitration.

Facts relating to the history of the Railway Shop Craft Labor Unions were placed before local Atlantic Coast Line Railroad shop employees at the Woodmen Hall last night by J. W. Seabolt and P. T. Cornelius, representatives of the Railway Employees Department of the American Federation

"This policy later was changed by the standard that the only basis on which a man has a right to appeal to folks to do business with him," Mr. Lehmann said.

DUPONTS TELL OF EARNINGS SINCE THE WAR

Noted Manufacturers Appear As Star Witnesses In Probe Of Munitions Sales

WASHINGTON, Sept. 12.—(AP)—A financial statement showing that the duPont corporation owns about \$270,000,000 worth of stocks of about 20 other corporations in the United States and abroad, was given the Senate Munitions Committee today as it traced the corporation's financial expansion since the war.

The committee also was told that General Douglas MacArthur, as acting Secretary of War had advised the duPont company that nothing in its files referring to the secret military plans of the United States was to be made public in connection with the hearing.

The World War brought gross sales of \$1,245,000,000 to the DuPont de Nemours Company, Wilmington, Del., the Senate munitions investigating committee learned yesterday.

Profits amounted to \$58,000,000. Members of the famous munitions firm—Pierre S. Lamont and A. Felix DuPont—went to the witness stand together.

The committee had just concluded taking testimony from officials of the Curtiss-Wright corporation, airplane manufacturers, in which it was brought out that the concern tried to pit former President Hoover against the Prince of Wales in a race to sell planes to Chile.

DEATH PROBE TAKES NEW GRIM TURN

Officers On Another Ship Charge Their Captain Delayed Sending Lifeboats

NEW YORK, Sept. 12.—(AP)—The first and third officers of the liner President Cleveland today told the Board of Industry investigating the Morro Castle disaster that they no longer wished to serve under Captain Robert Carey, master of the President Cleveland, because they charged that Carey delayed sending lifeboats to the aid of the burning ship.

LOS ANGELES, Sept. 12.—(AP)—The Japanese steamer Tansan Maru sent out an SOS at 5:13 o'clock, Pacific Coast Time today, the Mackay Radio Station here reported. The station said it had not been able to determine the position of the boat which was bound for Hong Kong, nor the nature of the trouble.

"Spite work" was given as a possible cause of the fire by William Floyd Justis, chief electrician. "Was the crew of the Morro Castle efficient?" Justis was asked. "There were disturbances on the ship," he replied. "I don't know that it wasn't through spite work that the accident happened. There was dissatisfaction among the crew."

"If you became too good and knew your job too well, you would be dismissed. The Ward Line would give you all the materials you needed to do your work in wonderful shape. But there was constant fear on the ship of losing your job. Life was made miserable for us."

Justis said he "felt sure" the commanding officers knew of this condition.

Talmadge Returns To Office Under Avalanche Of Votes

IS HE POPULAR?

Governor Eugene Talmadge whose return to the governorship of Georgia was assured yesterday when he swamped his two opponents under a history-making number of votes.

Atlanta, Sept. 12.—(AP)—Eugene Talmadge, fighting governor who campaigned on a slogan, "I will be Georgia's Chief Executive for two more years backed by an overwhelming vote of confidence."

The governor, on the basis of partial and incomplete returns early today from the state's 120 counties, scored a smashing victory over his two opponents, Claude Pittman, of Cartersville, and Abernethy Ed Gilliam, of Atlanta.

State news in Georgia was governed by an all-midnight news system, the complete returns of the county's highest position, including that county's full vote.

Governor Talmadge early today had an indicated total of 210 counties with a unit vote of 210. Judge Pittman had an indicated unit vote of 16, and Gilliam had an indicated unit vote of 16. Both congressmen also were named in the voting.

156 Of State's Counties Give Smashing Majority Over 2 Opponents

While Talmadge, continued in flashing his campaign red banners, celebrated with his followers on the roof of a downtown Atlanta hotel, Judge Pittman said the only vote would bring his standing up but conceded he had no chance to overcome the tremendous lead Talmadge piled up in the country.

Meriwether county, the home of President Roosevelt, that had 100 votes.

Ritchie Is Nominated For Another Term

New York Republicans and Democrats made nominations in their primary election today for 14 representatives, the largest number of incumbents having opposition.

Most of the contests lay in New York City where only five Democratic congressmen of 21 Democratic renominations are unopposed, and all 23 Democrats and nine Republicans faced contests.

Governor Ritchie obtained enough popular votes to assure his nomination by Maryland Democrats for a fifth term.

Harry Nicks defeated Senator Phillips Goldsborough and Walter Smith for the Republican nomination. George Radcliffe won the Democratic senatorial nomination. The Republican senatorial nomination was close.

Mrs. Mary Hoolehan Dies In Jacksonville

Mrs. Mary Hoolehan, resident of Sanford since 1892, died at the home of one of her children in Jacksonville late yesterday afternoon. She had been bed-ridden following a hip injury about three years ago.

Funeral services are to be held from the Erickson Funeral Home tomorrow afternoon at 2:00 o'clock. Rev. J. J. Kallagan of All Saints Catholic Church will officiate and burial will be in the Calvary cemetery.

Mrs. Hoolehan was born in Ireland. She came to America in 1878 to Florida in 1892. She is survived by four children, Mrs. M. F. Fountain of Miami, N. J. Hoolehan of Jacksonville, Richard Hoolehan of Pensacola, and W. D. Hoolehan of Sanford; 18 grand-children and six great-grand-children.

Carson Sees Free Speech Violated By Election Law

TALLAHASSEE, Sept. 12.—(AP)—The supreme court was told yesterday that if a law prohibiting nomination of new charges against political candidates within 15 days before an election is to be enforced "then we might as well let Mr. Roosevelt and Mr. Hitler have this country, and not have any elections."

The statement was made by James H. Carson, of counsel for Dan J. Mahoney, Miami publisher charged with violating the law by publishing statements made by N. Vernon Hawthorne, Dade state's attorney. Hawthorne filed a charge with violating the law before the state supreme court.

Lehmann Discusses Business Standards Before Local Kiwanians On Wednesday

Karl Lehmann of the Chamber of Commerce discussed "Business Standards" before Sanford Kiwanians yesterday during a meeting which developed that progress is being made on the club's plan to erect a permanent Boy Scout camp at Silver Lake.

Calling attention to the fact that the first service club organized 30 years ago established as a fundamental policy that there shall be no member from such business or profession in the community, Mr. Lehmann said that "A policy of membership then was that each would trade only with other members of the club."

Home With 4 Inmates Costs \$845 Month

TALLAHASSEE, Sept. 12.—(AP)—Comptroller Lee reported to the state cabinet yesterday the operation of the old soldiers' and sailors' home at Jacksonville, is costing \$845 a month, and that it has only four inmates. The total includes salaries for the home superintendent, a matron and a nurse, operation expenses, and pensions to the inmates.

"There's nothing we can do about it," said Attorney General Landis. "By an act of the Legislature we are required to operate that home as long as there is an inmate, and the only way it can be changed is by the Legislature."

Orlando Secures Site For 1936 Exposition

ORLANDO, Sept. 12.—A site for the 100-day exposition, "Florida on Parade," to be held here in 1936, was legally secured yesterday by the City of Orlando, when deeds to the Lockhaven Development, in the northeast section of the city were obtained. The property is to be leased to the Florida on Parade Association and after the exposition be used for a city park.

The city paid approximately \$17,000 in cash and \$16,000 in tax and assessment relief, for the property, totaling \$33,000.

MAGNOLIA, N. C., Sept. 12.—(AP)—The Bank of Magnolia, scene of several robberies within the past two years, was entered again during the night by a gang which got between \$5,000 and \$6,000 after cutting through the vault with an acetylene torch. The night's robbery was the fourth in two years.

Senator Parrish Believes New Citrus Agreement Will Be Acceptable To All

FORT MYERS, Sept. 12.—Senator J. J. Parrish, of Titusville, prominent citrus grower and shipper, visiting in Fort Myers yesterday, said he believed the new Florida citrus agreement was one of the 14 Florida growers and shippers called to Washington at the Department of Agriculture conference on the proposed amendment.

Senator Parrish opposed the original agreement but said that changes urged at the Washington conference last week made the agreement generally satisfactory to conflicting elements in the industry.
